# PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 469 (Part 2)

# HOUSE OF COMMONS

OFFICIAL REPORT

THIRD SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND
FIFTY-SIXTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

**SESSION 2007–2008**

COMPRISING PERIOD
10 December 2007—18 December 2007

# HER MAJESTY'S GOVERNMENT

## MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Gordon Brown, MP, June 2007)

Prime Minister, First Lord of the Treasury and Minister for the Civil Service—The Rt. Hon. Gordon Brown, MP

Chancellor of the Exchequer—The Rt. Hon. Alistair Darling, MP

Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. David Miliband, MP

Secretary of State for Justice and Lord Chancellor—The Rt. Hon. Jack Straw, MP

Secretary of State for the Home Department—The Rt. Hon. Jacqui Smith, MP

Secretary of State for Defence and Secretary of State for Scotland—The Rt. Hon. Des Browne, MP

Secretary of State for Health—The Rt. Hon. Alan Johnson, MP

Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Hilary Benn, MP

Secretary of State for International Development—The Rt. Hon. Douglas Alexander, MP

Secretary of State for Business, Enterprise and Regulatory Reform—The Rt. Hon. John Hutton, MP

Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality—The Rt. Hon. Harriet Harman, QC, MP

Secretary of State for Work and Pensions and Secretary of State for Wales—The Rt. Hon. Peter Hain, MP

Secretary of State for Transport—The Rt. Hon. Ruth Kelly, MP

Secretary of State for Communities and Local Government—The Rt. Hon. Hazel Blears, MP

Parliamentary Secretary to the Treasury—The Rt. Hon. Geoffrey Hoon, MP

Secretary of State for Children, Schools and Families—The Rt. Hon. Ed Balls, MP

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP

Secretary of State for Culture, Media and Sport—The Rt. Hon. James Purnell, MP

Secretary of State for Northern Ireland—The Rt. Hon. Shaun Woodward, MP

Leader of the House of Lords and Lord President of the Council—The Rt. Hon. The Baroness Ashton of Upholland

Chief Secretary to the Treasury—The Rt. Hon. Andy Burnham, MP

Secretary of State for Innovation, Universities and Skills—The Rt. Hon. John Denham, MP

Captain of the Honourable Corps of Gentleman-at-Arms—The Rt. Hon. The Lord Grocott

## DEPARTMENTS OF STATE AND MINISTERS

**Business, Enterprise and Regulatory Reform**—

Secretary of State—The Rt. Hon. John Hutton, MP

Ministers of State—
- Minister for Competitiveness—The Rt. Hon. Stephen Timms, Esq, MP
- Minister for Trade Promotion and Investment—The Lord Jones of Birmingham
- Minister for Employment Relations and Postal Affairs—Pat McFadden, Esq, MP
- Minister for Energy—Malcolm Wicks, MP

Parliamentary Under-Secretary of State—
- Gareth Thomas, Esq, MP

**Cabinet Office**—

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP

Minister of State—
- Minister for the Olympics and London (Paymaster General)—The Rt. Hon. Tessa Jowell, MP*

Parliamentary Secretaries—
- Phil Hope, MP
- Gillian Merron, MP (Minister for the East Midlands)*

**Children, Schools and Families**—

Secretary of State—The Rt. Hon. Ed Balls, MP

Ministers of State—
- Minister for Schools and Learners—Jim Knight, MP
- Minister for Children, Young People and Families (Minister for the North West)—The Rt. Hon. Beverley Hughes, MP*

Parliamentary Under-Secretaries of State—
- Kevin Brennan, MP
- The Lord Adonis

**Communities and Local Government**—

SECRETARY OF STATE—The Rt. Hon. Hazel Blears, MP

MINISTERS OF STATE—
Minister for Housing—The Rt. Hon. Yvette Cooper, MP
Minister for Local Government—John Healey, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Andrews, OBE
Parmjit Dhanda, Esq, MP
Iain Wright, Esq, MP

**Culture, Media and Sport**—

SECRETARY OF STATE—The Rt. Hon. James Purnell, MP

MINISTER OF STATE—
The Rt. Hon. Margaret Hodge, MP, MBE

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Gerry Sutcliffe, Esq, MP

**Defence**—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTERS OF STATE—
Minister for the Armed Forces—The Rt. Hon. Bob Ainsworth, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Taylor of Bolton
Derek Twigg, MP

**Environment, Food and Rural Affairs**—

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

MINISTERS OF STATE—
Minister for Sustainable Food and Farming and Animal Health—The Rt. Hon. The Lord Rooker
Minister for the Environment—Phil Woolas, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Joan Ruddock, MP
Jonathan Shaw, MP (Minister for the South East)*

**Foreign and Commonwealth Affairs**—

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—
Minister for Europe—Jim Murphy, Esq, MP
Minister for the Middle East—Dr. Kim Howells, MP
The Rt. Hon. The Lord Malloch-Brown, KCMG
The Lord Jones of Birmingham

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Meg Munn, MP

**Government Equalities Office**—

MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

MINISTER FOR EQUALITY—Barbara Follett, MP*

**Health**—

SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP

MINISTERS OF STATE—
The Rt. Hon. Dawn Primarolo, MP
Ben Bradshaw, Esq, MP (Minister for the South West)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Darzi of Denham, KBE
Ann Keen, MP
Ivan Lewis, Esq, MP

**Home Office**—

SECRETARY OF STATE—The Rt. Hon. Jacqui Smith, MP

MINISTERS OF STATE—
Minister for Security, Counter-Terrorism, Crime and Policing—The Rt. Hon. Tony McNulty, Esq, MP
Minister for Borders and Immigration—Liam Byrne, Esq, MP (Minister for the West Midlands)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Vernon Coaker, Esq, MP
Admiral The Lord West of Spithead, GCB DSC
Meg Hillier, MP

**Innovation, Universities and Skills**—

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
  Minister for Lifelong Learning, Further and Higher Education—Bill Rammell, MP
  Minister for Science and Innovation—Ian Pearson, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
  David Lammy, Esq, MP
  The Lord Triesman

**International Development**—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
  Gareth Thomas, Esq, MP
  The Baroness Vadera
  Shahid Malik, Esq, MP

**Justice**—

SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP

MINISTERS OF STATE—
  The Rt. Hon. David Hanson, Esq, MP
  Michael Wills, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
  The Lord Hunt of Kings Heath, OBE
  Bridget Prentice, MP
  Maria Eagle, MP

**Law Officers' Department**—

ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC

SOLICITOR-GENERAL—Vera Baird, QC, MP

ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

**Leader of the House of Commons**—

LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

DEPUTY LEADER OF THE HOUSE OF COMMONS—Helen Goodman, MP

**Northern Ireland**—

SECRETARY OF STATE—The Rt. Hon. Shaun Woodward, MP

MINISTER OF STATE—
  Paul Goggins, MP

**Privy Council Office**—

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Ashton of Upholland

**Scotland Office**—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
  David Cairns, MP

**Transport**—

SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP

MINISTER OF STATE—
  The Rt. Hon. Rosie Winterton, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
  Jim Fitzpatrick, MP
  Tom Harris, Esq, MP

**Treasury**—

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP

CHIEF SECRETARY—The Rt. Hon. Andy Burnham, MP

FINANCIAL SECRETARY—The Rt. Hon. Jane Kennedy, MP

EXCHEQUER SECRETARY—Angela Eagle, MP

ECONOMIC SECRETARY—Kitty Ussher, MP

PARLIAMENTARY SECRETARY—The Rt. Hon. Geoffrey Hoon, MP

LORDS COMMISSIONERS—
  Frank Roy, Esq, MP
  Steve McCabe, MP
  Alan Campbell, Esq, MP
  Dave Watts, Esq, MP
  Claire Ward, MP

Assistant Whips—
    Siobhain McDonagh, MP
    Michael Foster, Esq, MP
    Tony Cunningham, MP
    Alison Seabeck, MP
    Ms Diana R. Johnson, MP
    Mark Tami, MP
    Sadiq Khan, Esq, MP
    Bob Blizzard, Esq, MPs
    Tom Watson, Esq, MP
    Wayne David, Esq, MP

**Wales Office**—

Secretary of State—The Rt. Hon. Peter Hain, MP

Parliamentary Under-Secretary of State—
    Huw Irranca-Davies, MP

**Work and Pensions**—

Secretary of State—The Rt. Hon. Peter Hain, MP

Ministers of State—
    Minister for Pensions Reform—Mike O'Brien, Esq, QC, MP
    Minister for Employment and Welfare Reform (Minister for Yorkshire and the Humber)—Caroline Flint, MP*

Parliamentary Under-Secretaries of State—
    Anne McGuire, MP
    James Plaskitt, Esq, MP
    The Lord McKenzie of Luton
    Barbara Follett, MP (Minister for the East of England and Minister for Equality)*

**Her Majesty's Household**—

Lord Chamberlain—The Rt. Hon. The Earl Peel, GCVO, DL

Lord Steward—The Duke of Abercorn, KG

Master of the Horse—The Lord Vestey

Treasurer—The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)*

Comptroller—The Rt. Hon. Thomas McAvoy, MP

Vice-Chamberlain—Liz Blackman, MP

Captain of the Honourable Corps of Gentlemen-at-Arms—The Rt. Hon. The Lord Grocott

Captain of the Queen's Bodyguard of the Yeomen of the Guard—The Rt. Hon. The Lord Davies of Oldham

Lords in Waiting—The Lord Bassam of Brighton, The Lord Truscott, The Lord Bach

Baronesses in Waiting—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Royall of Blaisdon, The Baroness Morgan of Drefelin

**Regional Ministers. Full list:*

**Ministers for the English Regions**—
    Ben Bradshaw, Esq, MP (Minister for the South West)
    The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)
    Liam Byrne, Esq, MP (Minister for the West Midlands)
    Caroline Flint, MP (Minister for Yorkshire and the Humber)
    Barbara Follett, MP (Minister for the East of England)
    The Rt. Hon. Beverley Hughes, MP (Minister for the North West)
    The Rt. Hon. Tessa Jowell, MP (Minister for the Olympics and London)
    Gillian Merron, MP (Minister for the East Midlands)
    Jonathan Shaw, MP (Minister for the South East)

---

Second Church Estates Commissioner, Representing Church Commissioners—**Sir Stuart Bell, MP**

---

# HOUSE OF COMMONS

The Speaker—The Rt. Hon. Michael J. Martin, MP

Chairman of Ways and Means—The Rt. Hon. Sir Alan Haselhurst, MP

First Deputy Chairman of Ways and Means—Mrs. Sylvia Heal, MP

Second Deputy Chairman of Ways and Means—Sir Michael Lord, MP

Chairmen's Panel
David Amess, Janet Anderson, Peter Atkinson, Hugh Bayley, Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Derek Conway, Frank Cook, John Cummings, Janet Dean, Roger Gale, Mike Hancock, Jim Hood, Joan Humble, Eric Illsley, Martyn Jones, Dr. William McCrea, David Marshall, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

House of Commons Commission
The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP

Secretary of the Commission—Andrew Kennon

Assistant Secretary—Jenny McCullough

Administration Estimate Audit Committee
The Rt. Hon. Mrs. Theresa May, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

Secretary of the Audit Committee—Tracey Garratty

Management Board
Malcolm Jack, PhD (Chief Executive), Douglas Millar, CB (Director General, Committee and Chamber Services), John Pullinger (Director General, Information Services), Andrew Walker (Director General, Resources), Sue Harrison (Director General, Facilities) (Temporary), Joan Miller (Director of Parliamentary ICT) (External Member)

Secretary of the Management Board—Robert Twigger

Speaker's Secretary—Angus Sinclair

Speaker's Counsel—John Vaux

Speaker's Chaplain—Rev. Canon Robert Wright

Medical Adviser to the Speaker—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

Parliamentary Commissioner for Standards—Sir Philip Mawer

Parliamentary Security Co-ordinator—Peter Mason

*10 December 2007*

# Written Ministerial Statements

*Monday 10 December 2007*

## TREASURY

### Pre-Release Access to Statistics

**The Exchequer Secretary to the Treasury (Angela Eagle):** Jointly with the Cabinet Office, I am today publishing "Limiting Pre-Release Access to Statistics: a Consultation Document", copies of which have been deposited in the Libraries of both Houses. This fulfils the commitment I made to Parliament on 2 July that the Government will consult publicly on the rules and principles for pre-release access to official statistics in their final form.

The consultation document sets out how, as a part of the Governance of Britain programme of constitutional renewal, the Government are proposing to tighten the rules and principles under which pre-release access can be granted.

The Government welcome views on the proposals set out in the consultation document by 3 March 2008. The consultation responses will be used to inform the rules and principles for pre-release access that will then be laid before Parliament by the Minister for the Cabinet Office, for approval under the affirmative procedure.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Advantage West Midlands

**The Minister for Competitiveness (Mr. Stephen Timms):** I have decided to appoint the new board members listed below.

*Jas Bains*

*Angela Maxwell*

The new appointments will all be for a period of three years.

The appointments will begin on 14 December 2007 and will expire on 13 December 2010.

I have placed further details of the new appointments in the Libraries of both Houses. They were all made in accordance with the code of practice of the Commissioner for Public Appointments.

BIOGRAPHIES

*Angela Maxwell*

Angela Maxwell achieved prominence as one of the region's most dynamic entrepreneurs after she powered Fracino, the UK's only manufacturer of espresso and cappuccino coffee machines, from a £400,000 turnover in 1995 into today's £2 million world-class leading brand. Industry awards include a millennium product award for design excellence in 2000 and recognition as an "Inner City 100" company in 2001.

Earlier this year, Angela was one of just 200 businesswomen honoured by the Queen at Buckingham Palace, in recognition of her outstanding contribution to UK trade and industry. A former European adviser to UK Trade & Investment and, a finalist in Businesswoman of the Year 2005. Angela recently accepted an invitation to become a regional ambassador for the Women's Enterprise Network.

Acuwomen, her latest enterprise, is the UK's first company to bring an all-women group of entrepreneurs under one roof. Angela's hand-picked team encompasses strategic development, sales and marketing, design, PR, and telemarketing. The company's client-base includes Coors Brewery, Talk Talk and the Probation Service.

Angela was previously commercial director at Sheffield Theatres, jointly responsible for a £40 million turnover. Angela has not undertaken any political activity during the last five years.

*Jas Bains*

Jas has spent his career in a variety of roles in local government and housing associations. Appointed chief executive in 2003 he has successfully helped transform Ashram Housing Association into a national award winning organisation.

He brings knowledge and experience of housing, regeneration and leadership of a large third sector organisation. A strong advocate of social cohesion and innovative in championing the needs of under represented groups. His main areas of economic interest are with improving economic prosperity for all and with embracing the opportunities afforded by globalisation. He is a founder member of the Wolverhampton India Trade Partnership.

He has held a number of non-executive board positions in the charities and public sector. Jas is a lifelong Wolves fan and season ticket holder. He has not undertaken any political activity during the last five years.

### East Midlands Development Agency

**The Minister for Competitiveness (Mr. Stephen Timms):** I have decided to appoint the new board members listed below.

*Michael Seals*

*Ann Cartwright*

The new appointments will all be for a period of three years.

The appointments will begin on 14 December 2007 and will expire on 13 December 2010.

I have placed further details of the new appointments in the Libraries of both Houses. They were all made in accordance with the code of practice of the Commissioner for Public Appointments.

BIOGRAPHIES

*Michael Seals*

Michael Seals is principally a farmer at The Hall Farm in South Derbyshire. Previously he helped develop and still retains an interest in the Dove Valley Park development also in South Derbyshire.

Michael Seals has been chairman of the National Fallen Stock Company Ltd since 2003, a DEFRA initiative designed to assist farmers in fulfilling obligations under European Regulation. He has held various posts in the National Farmers Union, and is currently their Food Law spokesman. Previously he was a member of the BBC National Rural Affairs Advisory Committee.

*Ann Cartwright*

Ann Cartwright is director of Brooke McNee Leadership Development Consultancy. Previous to this she was the chief executive of Family First Ltd, a registered social landlord in Nottingham.

Ann Cartwright is currently director and company secretary of Nottingham CVS and chair of Derbyshire and Nottinghamshire CIPD Branch Committee.

### England Regional Development Agency

**The Minister for Competitiveness (Mr. Stephen Timms):** I have decided to appoint the new board members listed below:

*Keith Riley*

*Dolores Byrne*

And reappoint the existing board members listed below:

*Imtiaz Farookhi*

*Professor Bill Wakeham*

All the above appointments will be for a period of three years.

The appointments will begin on 14 December 2007 and will expire on 13 December 2010.

I have placed further details of the appointments in the Libraries of both Houses. They were all made in accordance with the code of practice of the Commissioner for Public Appointments.

Biographies

*Dr. Dolores Byrne*

Dolores Byrne has spent over 25 years working in the high technology sector, both in Government and in industry and is currently MD Innovation in QinetiQ, an international defence and technology company.

Dolores graduated in Physics from Queen's University Belfast and also holds a MBA from Southampton University. She is a Fellow of the Institute of Engineering and Technology, a Fellow of the Institute of Physics and has served as Vice-president of the Institute of Physics. Dolores was a member of the national WISE Board (Women in Science and Engineering), a member of the board of the MOD Defence Engineering and Science Group and was a school governor for seven years. She is currently a member of the board of AIRTO (Association of Independent Research and Technology Organisations) and of the Science, Engineering and Technology Advisory Council of SEEDA. Dolores has not undertaken any political activity in the last five years.

*Keith Riley BA(OU), BSc(Eng), CEng, FIMechE, MCIWM, MIoD, FRSA*

Keith Riley is managing director, Group Technical Services of Veolia Environmental Services plc and has a wide experience in recycling and waste management, particularly working with local authorities. Notably, he worked with the Hampshire local authorities as Managing director of Hampshire Waste Services, the private sector partner in Project Integra that put the county and cities of Portsmouth and Southampton at the forefront of good practice in the UK.

Keith holds degrees in engineering from Queen Mary College, University of London, and in social sciences from the Open University. He is a Fellow of the Institution of Mechanical Engineers, a Fellow of the Royal Society of Arts, a Member of the Chartered Institution of Wastes Management and is a Chartered Mechanical Engineer. Prior to joining Veolia he worked within both large and small companies, including holding senior positions in some blue-chip engineering companies such as Babcock and Rolls-Royce, where he gained extensive experience working overseas.

Keith is Chairman and Trustee of the Resource Recovery Forum, a Trustee of the Veolia Environmental Trust and Trustee of Hampshire Natural Resources Trust. He also serves as an industrial advisor to several universities on resource and wastes management.

Keith is married with one son and two daughters and has lived within the south-east region for over 30 years. His main interests are choral music and historical buildings.

*Imtiaz Farookhi*

Imtiaz Farookhi joined SEEDA's non-executive board on 14 December 2004. Imtiaz is chief executive of NHBC which provides warranty, risk management and regulatory services to the UK house building and wider construction industry. He has been chief executive at NHBC since 1997. He was born in Washington DC, and was educated at the Universities of Kent and London. He has a track record of improving corporate and operational efficiency and effectiveness.

A former board member of the Environment Agency and of the Learning and Skills Council, Imtiaz has substantial experience in both urban regeneration and post-16 education policy. He has also served on the Further Education Funding Council, on several public private partnerships and as a non-executive on a Training and Enterprise Council and on a Business Link. He is currently Chairman of the National Skills Forum for Construction and the Built Environmental, and a Board Member of CITB - ConstructionSkills.

As NHBC's chief executive, Imtiaz plays a key role in highlighting issues facing UK house building such as skills shortages, sustainable development and customer service. He has developed and extended NHBC's range of services and restructured its operations with sustained growth in turnover and balance sheet strength. He has also instigated a review of NHBC's services and a restructuring of its operations.

*Professor Bill Wakeham*

Professor Bill Wakeham was appointed to SEEDA's non-executive board on 14 December 2004. A chemical engineer by training, Bill has been vice-chancellor of the University of Southampton since October 2001. He is a Fellow of the Royal Academy of Engineering, the Institution of Chemical Engineers, the Institution of Electrical Engineers, and the Institute of Physics. He is a chartered engineer and a chartered physicist. Bill joined the University of Southampton from Imperial College, where he was deputy rector from 1997. In a career spanning 30 years at Imperial College he was appointed pro-rector (research) in 1996, and pro-rector (resources) in 1999. He oversaw the college's merger with a series of medical schools and stimulated its activities in entrepreneurship.

Bill was Chair of SEEDA's South East Science, Engineering and Technology Advisory Committee (SESETAC) until 1995, and plays a leading role on the board of the Southampton Strategic Partnership. Among other professional activities, he is a non-executive director of COGENT, the sector skills council for chemicals, nuclear, oil and gas, petroleum and polymers; a non-executive director of Meridian TV, and an executive member of the Worldwide Universities Network. He is also a member of the Engineering and Physical Sciences Research Council. Bill has also authored, co-authored or edited seven books and published over 350 papers in the open scientific and engineering literature in the research fields of thermophysical properties of fluids, intermolecular forces and thermodynamics.

He has an honorary degree from the University of Lisbon, was awarded the degree of Doctor of Science by Exeter University, and is a Fellow of Imperial College. In 1997 he was awarded the Touloukian Medal of the American Society of Mechanical Engineers. He was Rossini lecturer at the International Conference on Chemical Thermodynamics, Halifax, Nova Scotia, in 2000; and Ared Cezairliyan lecturer at the International Thermal Conductivity conference in 2001.

## Farepak

**The Parliamentary Under-Secretary of State for Business, Enterprise and Regulatory Reform (Mr. Gareth Thomas):** I would like to bring the House up to date on a number of matters connected to the collapse of Farepak:

*Investigation of the collapse*

The Department for Business, Enterprise and Regulatory Reform's companies investigation branch conducts investigations into companies where there is concern over the way the company's business has been conducted (usually a suspicion of fraud, misconduct or sharp practice). That is why an investigation was instigated into the collapse of Farepak, within days of the appointment of administrators.

Whilst the companies investigation branch completes 90 per cent. of its investigations within six months, the investigation into Farepak has regrettably taken longer because of the huge number of documents that have had to be analysed, the inter-company relationships and the numerous parties to be interviewed. The investigators (CIB staff with long experience of these types of investigations) have compulsory powers—those facing questions must answer them or face court proceedings. These powers are certainly wide enough to embrace all those who have had dealings with Farepak, including its bankers and advisers. It is anticipated that the investigation will be completed early next year.

As a proportionate and acceptable balance against these compulsory powers, the Companies Act requires that these investigations be accorded a limited disclosure regime—information obtained can only be disclosed through legal gateways and the report cannot be directly published.

But if subsequent court proceedings are initiated as a result of the investigation—such as disqualification proceedings against a director, or any prosecution, the story will be revealed during those proceedings. The report can also be disclosed to other regulators so that any appropriate lessons can be learned.

*Liquidation of the company*

It is the liquidator's central duty to secure as much of a return as possible for all the creditors, including the customers. We understand that they are expecting to be able to secure a return of about 5p in the pound.

It is not yet possible to confirm when a payment will be made to customers as every agent and customer claim must be finalised before this can take place. As well as processing claims, the team has had a huge task in verifying claims and double checking that claims have not been duplicated by agents and customers. This work so far has reduced claims by approximately £2 million for the benefit of creditors.

*Action to protect and inform consumers for the future*

The Government have worked closely with the remaining companies to put in place effective measures to protect customers' payments, including oversight by a new body, the Christmas Prepayments Association, and a code of practice. The companies have put in place new independently controlled trust accounts to protect customers' money. The OFT has carried out a preliminary assessment of the code against the criteria in its Consumer Codes Approval Scheme, and the association have amended the code with a view to making a formal application for approval under the scheme.

The Government have also given the OFT £1 million for a consumer education campaign so that consumers are better aware of their options for Christmas savings, and are empowered to make decisions that are right for their own circumstances. The Government's action plan for financial inclusion announces that the OFT will receive a further £2 million funding to continue the "Save Xmas" campaign into the next spending period.

We note the view of the Treasury Select Committee in its Thirteenth Report that, provided the operation of these arrangements proves to be satisfactory, formal regulation of this market is not likely to be appropriate or proportionate. But it remains our intention to reassess the regulatory framework once the outcome of the investigation is available, taking account of earlier advice from the OFT and FSA.

## FOREIGN AND COMMONWEALTH OFFICE

## Special Tribunal for Lebanon

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** The UK continues to be deeply concerned by the political instability resulting from the absence of a President in Lebanon. President Lahoud's term of office expired on 23 November. The ongoing political divisions over who should succeed him remain a source of instability. We have been urging all sides to come together in the spirit of compromise to choose a President who can lead the country forward. We support them in their efforts to do so and hope they will be able to resolve the political crisis as rapidly as possible.

Despite the ongoing uncertainty, progress continues towards the establishment of the Special Tribunal for Lebanon. On 30 May 2007, the Security Council adopted Security Council Resolution 1757, establishing the Tribunal. The Tribunal will try those accused of killing the former Lebanese Prime Minister, Rafiq Hariri, who was assassinated on 14 February 2005 along with 21 others in a car bomb in central Beirut. This attack was part of a campaign of targeted political attacks against anti-Syrian MPs and political activists in Lebanon. The most recent of these was the assassination of MP Antoine Ghanem on 19 September. Mr. Ghanem was killed along with two bodyguards and four other civilians in a car bomb explosion in east Beirut which also injured more than 70 other innocent civilians.

The UK has been, and remains, firmly committed to the pursuit of justice for Rafiq Hariri's murder and the sequence of assassinations that followed it. The UK worked closely with UN partners to establish the UN Independent International Investigation Commission (UNIIIC) into Mr Hariri's assassination. We were also co-sponsors of UN Security Council Resolution 1757 establishing the Special Tribunal. As part of our continued commitment, and in response to the UN Secretary-General's call for contributions, I am pleased to announce that the UK will be contributing £500,000 ($1 million) to the Tribunal.

The success of the UN-led investigation process and of the Tribunal remain vital for the stability of Lebanon. It is essential that justice is done to send a clear message that political assassinations will not be tolerated. The UK will continue to offer its strong support to the UN and the Lebanese Government as they take this important work forward.

## HEALTH

### Social Care Reform

**The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis):** "Putting People First: a shared vision and commitment to the transformation of adult social care" is published today. This concordat sets out the cross-sector commitment to personalising public services and the need for the state to empower citizens to shape their own lives and the services they receive.

The concordat has been placed in the Library and copies are available to hon. Members in the Vote Office.

## HOME DEPARTMENT

### Protective Services

**The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty):** I am today announcing that the Home Office will be increasing its contribution to the work of police forces and authorities dealing with serious and organised crime and other protective services. In 2008-09 and 2009-10, some £11 million will be made available, rising to £13 million in 2010-11. This will help the police service to ensure that they meet the standards expected in the delivery of protective services throughout England and Wales by 2011.

From these amounts grants will be available up to £5 million in 2008-09 and £4 million a year in 2009-10 and 2010-11 to continue the work of the Regional Intelligence Units addressing serious and organised crime. These have been developed, with Home Office financial support, by the Association of Chief Police Officers in collaboration with police forces and authorities throughout England and Wales. We shall be discussing with police forces and authorities the financial contribution that they will need to make in collaboration to ensure the success of these units.

We shall continue financial support to the East Midlands Special Operations Unit recognising its success in tackling serious and organised crime and the special needs of the region. We expect the five forces and authorities in the region to become increasingly self sufficient in the collective provision of this capability and will therefore be discussing with them a tapering of financial support over the period.

These funds also include completion of grants towards the start-up costs of Protective Services Demonstrator Sites and the project to evaluate their development and disseminate best practice. There are now 13 demonstrator sites being funded involving 34 police forces working in collaboration to deliver protective services.

Finally we will be discussing with police forces and authorities the other opportunities there may be to make critical enhancements to their collaborative contribution to protective service improvements using the money the Home Office is making available.

### G6 Counter-Terrorism Symposium

**The Secretary of State for the Home Department (Jacqui Smith):** I met with counterparts from Poland, France, Italy, Spain, the United Kingdom and the United States, along with experts from the seven countries for a two-day symposium at Schwielowsee, near Werder, on 30 November and 1 December 2007.

The symposium was intended to provide a chance to reflect, together with the help of legal and academic experts, on developments in international terrorism and to intensify dialogue on effective measures to take against this threat.

In May 2007, the Interior Ministers of the G-6 countries and the US met in Venice at Italy's invitation to discuss counter-terrorism issues. They came to the conclusion that they needed to work together on legal issues around how states counter international terrorism in order to come up with effective responses to the wide variety of threats faced by the international community and its citizens. At that meeting, the participants agreed to intensify their dialogue.

The symposium discussed, inter alia:

whether there were problems and gaps in the legal environment in which states worked to counter terrorism, and how such issues could be addressed;

some specific issues, such as: deportation of terrorist suspects; the creation of new criminal offences; and intelligence sharing;

other related issues such as the European Policing Mission (EUPOL) mission in Afghanistan.

Germany has indicated an intention to convene further work to continue the fruitful dialogue of this symposium.

## JUSTICE

### Criminal Injuries Compensation Appeals Panel (Northern Ireland)

**The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw):** On 1 December 2007 responsibility for certain functions in respect of the Criminal Injuries Compensation Appeals Panel for Northern Ireland transferred from the Secretary of State for Northern Ireland to the Secretary of State for Justice. The transfer was effected by a machinery of government change.

The Criminal Injury Compensation Appeals Panel for Northern Ireland was established under the Criminal Injuries Compensation (Northern Ireland) Order 2002 and hears appeals from the final decision of the Compensation Agency for Northern Ireland on applications for compensation made by, or in respect of, persons who have sustained criminal injury.

Prior to the transfer on 1 December 2007, responsibility for the entire criminal injuries compensation scheme, which included the Compensation Agency for Northern Ireland and the Criminal Injury Compensation Appeals Panel for Northern Ireland, lay with the Secretary of State for Northern Ireland. Responsibility for the Compensation Agency for Northern Ireland will remain with the Secretary of State for Northern Ireland.

From 1 December 2007 responsibility for appointing, removing and remunerating the adjudicators who hear the appeals and the reporting, accounting and auditing arrangements in respect of Criminal Injuries Compensation Appeals Panel for Northern Ireland rests with the Secretary of State for Justice. Full details in relation to the statutory functions which have been transferred can be found on the Northern Ireland Court Service website www.courtsni.gov.uk.

## OLYMPICS

### Olympics (Baseline Budget)

**The Minister for the Olympics (Tessa Jowell):** In March this year, I announced the overall public sector funding package for the Olympic and Paralympic games totalling £9.325 billion. Of this total, £6.090 billion including tax and £500 million of initial contingency was identified as public sector funding for the Olympic Delivery Authority (ODA). The remainder of the package covered security, sports and other non-ODA costs, together with a prudent contingency for ODA and security costs. A fuller breakdown is included at table 1.

As with any major project at this stage, further work was needed to ensure that the budget is fully aligned with scope, programme and risks. This work has now been completed allowing us to publish a more detailed ODA budget in line with the recommendations of the NAO report in July 2007 (The budget for the London 2012 Olympic and Paralympic games). I can now confirm that this has validated the ODA budget and overall funding package I announced in March.

*Detailed Project and Programme Plan*

The ODA has completed a detailed project by project analysis of its scope, costs, programme and risks to assess the total projected cost of their programme of works for the games and for legacy transformation. This has confirmed that the base cost, excluding general programme contingency, is £6.090 billion, the same as the ODA budget within the announcement in March 2007 of a total Government funding package of £9.325 billion.

It is recognised that regenerating a 500 acre park to stage a great Olympic and Paralympic games, as well as providing the underlying infrastructure so that long-term legacy benefits can be achieved, involves managing significant risks. This is the reason why the Government included a prudent contingency in the March announcement.

Therefore, in addition to the project level analysis, programme-wide risks have also been assessed and quantified. The contingency available, within the funding package announced in March, has been confirmed as sufficient to cover the risks at both project and general programme levels.

*Allocated Contingency*

In June 2007, the Ministerial Funders' Group—established to manage the allocation of contingency to the ODA within the overall budget—met and agreed a first allocation of contingency to the ODA, being £360 million out of the £500 million of initial contingency announced in March, to enable the ODA to manage early cost pressures.

Following its second meeting on 26 November 2007, the Funders' Group has now agreed:

> A baseline budget and scope proposed by the ODA. The total budgeted base cost to be met by the public sector funding package remains at £6.090 billion including tax and excluding general programme contingency as I announced in March.
>
> This includes the allocation to the ODA of the remaining £140 million from the initial £500 million contingency that I announced in March, covering as planned the cost pressures on early projects across the ODA programme.

*Total Contingency Available*

As a result of this further work and recent decisions, there still remains £2.009 billion of contingency. This contingency includes provision against known programme-wide risks, and against risks that are outside the ODA's control. The programme-wide risks, and other risks outside the ODA's control, have been assessed and quantified and the contingency available has been confirmed as sufficient to cover such risks.

Access to any of the £2.009 billion contingency will only be on the basis of a case by case assessment of actual risks arising and any mitigation that can be taken. The ODA is also incentivised to limit requests for release of the contingency to the minimum consistent with securing good value in such a large and complex programme, and will manage its contracting strategy accordingly.

Table 2 summarises the funding position, including a detailed breakdown of the ODA budget as a result of these decisions, and table 3 summarises the contingency released.

In addition, as previously identified, £238 million of the £2.247 billion contingency has been set aside to cover the risks in relation to security beyond the budget of £600 million I announced in March. The funding allocated to security will continue to be subject to oversight and scrutiny in the coming months and years by the relevant Cabinet Committee, the Home Secretary and the Metropolitan Police.

*Next Steps*

In the new year, the ODA will issue a summary of the baseline scope, aligned budget, programme and risks. The budget and scope now agreed will provide a robust baseline for future reporting.

I will provide a detailed account of progress across the Olympic programme when the first Olympic annual report is produced in the new year. I will make further reports to Parliament on a six monthly basis, including information on further allocation of contingency.

*Note*

The following tables do not include a breakdown of individual project costs, budgets or contingency requirements where this is necessary to protect ongoing commercial confidentiality.

*Table 1: Funding announcement March 2007.*

The total public sector Olympic funding envelope is £9.325 billion and the maximum public sector funding package for the ODA is £8.099 million as follows:

| | | £m | £m | £m |
|---|---|---|---|---|
| *Total Funding Package* | | | | 9.325 |
| Less Non ODA costs | | | | |
| | Elite and Community sports | 290 | | |
| | Paralympic Games | 66 | | |
| | Look of London | 32 | | |
| | | | 388 | |
| | Security | 600 | | |
| | Security contingency | 238 | | |
| | | | 838 | |
| *Total Non ODA* | | | | (1.226) |
| *Total Available for ODA* | | | | 8,099 |
| ODA Base costs inc VAT | | | 5,590 | |
| Contingency released | | | 500 | |
| *Total ODA before unallocated contingency* | | | | 6,090 |
| *Contingency remaining* | | | | 2,009 |
| *Maximum funding available for ODA* | | | | 8,099 |

| *Project* | *Detailed Project* | *Base Cost* £m | *VAT* £m | *Gross cost* £m |
|---|---|---|---|---|
| *Site Preparation and Infrastructure* | Powerlines | 240 | 42 | 282 |
| | Utilities | 217 | 38 | 255 |
| | Enabling works | 310 | 54 | 364 |
| | Structures, Bridges, Highways | 706 | 124 | 830 |
| | Contribution to Prescott Lock upgrade | 5 | 0 | 5 |
| | Other infrastructure (Greenway, Landscaping | 175 | 31 | 206 |
| | *Total Site Preparation and Infrastructure* | 1,653 | 289 | 1,942 |
| *Venues* | Stadium | 422 | 74 | 496 |
| | Other Olympic Park Venues | 488 | 86 | 574 |
| | Non Olympic Park Venues | 86 | 15 | 101 |
| | *Total Venues* | 996 | 175 | 1,171 |
| *Transport* | Stratford Regional station | 114 | 5 | 119 |
| | Contribution to DLR upgrade | 86 | 0 | 86 |
| | Thorntons Field relocation | 40 | 7 | 47 |
| | Contribution to North London Line upgrade | 110 | 0 | 110 |
| | Other transport capital projects | 161 | 17 | 178 |

| *Project* | *Detailed Project* | *Base Cost* *£m* | *VAT* *£m* | *Gross cost* *£m* |
|---|---|---|---|---|
| | Other transport operating expenditure | 328 | 29 | 357 |
| | *Total Transport Projects* | 839 | 58 | 897 |
| *Other Parkwide Projects* | Logistics for site construction | 287 | 50 | 337 |
| | Section 106 and master planning | 108 | 19 | 127 |
| | Insurance | 42 | 8 | 50 |
| | Security for park construction | 301 | 53 | 354 |
| | *Total Other Parkwide Projects* | 738 | 130 | 868 |
| *IBC/MPC, Olympic Village, Programme Delivery and Taxation* | *IBC/MPC, Olympic Village* | 491 | 1 | 492 |
| | *Programme Delivery* | 580 | 67 | 647 |
| | *Corporation Tax and Net Interest* | 0 | 73 | 73 |
| *TOTAL* | | 5,297 | 793 | 6,090 |
| *REMAINING CONTINGENCY* | | | | 2,009 |
| *MAXIMUM FUNDING AVAILABLE FOR ODA* | | | | 8,099 |

The amounts shown above are net of contributions receivable totalling £58.9m, which includes amounts related to enabling works, utilities and village.

Projects which are not disaggregated such as Other Olympic Park Venues are still subject to contract and accordingly are commercially sensitive at this stage.

Programme delivery includes a provision for performance related payments to CLM, the ODA Delivery Partner.

Contingency as announced on 15 March 2007 totalled £2,247m. This is included as two separate amounts, £2,009m as included above and £238m identified as Security Contingency within the Non-ODA Budget. The Security Contingency of £238m was announced to Parliament on 17 October 2007 (Hansard 17 October 2007 Column 1133W).

While a cost to the games, all tax paid by the ODA will be a future receipt to the Exchequer and accordingly no net additional cost to the public sector.

*Table 3: The Detailed Breakdown of Contingency Released.*

| | *Released Contingency Included in Cost* |
|---|---|
| Site preparation and Infrastructure | 177 |
| Venues | 100 |
| Transport | 21 |
| Other Parkwide projects | 208 |
| IBC/MPC, Olympic Village, Programme Delivery and Taxation | (6) |
| | 500 |

## WORK AND PENSIONS

### Self-Invested Personal Pensions

**The Minister for Pensions Reform (Mr. Mike O'Brien):** Consultation begins today on draft regulations which will allow protected rights to be held in Self-Invested Personal Pensions (SIPPs). A copy of the consultation document and draft regulations have been placed in the Libraries of both Houses of Parliament.

The consultation is the result of the very useful dialogue we have had with the pensions community about the existing restrictions preventing SIPPs from holding protected rights. In light of recent changes bringing SIPPs under the regulatory control of the FSA, the Government consider that these restrictions are no longer necessary.

The consultation runs until 29 February 2008.

# Written Ministerial Statements

*Tuesday 11 December 2007*

## TREASURY

### Economic and Financial Affairs Council

**The Economic Secretary to the Treasury (Kitty Ussher):** On 23 November 2007, I represented the UK at the Budget Economic and Financial Affairs Council (ECOFIN).

Finance Ministers agreed to adopt Preliminary Draft Amending Budget No. 7 to the 2007 EC Budget, amending the 2007 Budget to reflect latest implementation capacity and thus reducing the level of funding required from member states in 2007.

Finance Ministers agreed to adopt Amending Letter No. 2 to the Preliminary Draft Budget for 2008, which reflected the latest information on agricultural market prices and other developments.

During a conciliation meeting between Council and the European Parliament agreement was reached on the 2008 EC Budget and on the multi-annual financing for the Galileo project and the European Institute of Technology. The agreement establishes total payment levels of €120.3 billion (0.96 per cent. of EU GNI). The European Parliament is scheduled to vote on its own second reading on 13 December, after which the 2008 EC Budget will be formally adopted.

Four joint statements relating to the Budget were also agreed at Budget ECOFIN. These concerned: the financing of Galileo and the European Institute of Technology; Joint Undertakings; and the procedure to implement the budget agreement reached by the Council and European Parliament. The Government are supportive of these statements, which affirm the principle of fair and open competition and call for sound financial management and budget discipline in the areas they concern.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Yorkshire Forward

**The Minister for Competitiveness (Mr. Stephen Timms):** I have decided to appoint the new board members listed below.

*Mark Lovell*

*Cllr Mark Kirk*

All the new appointments will be for a period of three years.

The appointments will begin on 14 December 2007 and will expire on 13 December 2010.

I have placed further details of the appointments in the Libraries of both Houses. They were all made in accordance with the code of practice of the Commissioner for Public Appointments.

BIOGRAPHIES

*Councillor Mark Kirk*: is the leader of North Lincolnshire Council. At a regional level Mark is the chair of the Yorkshire and Humber Assembly's Regional Transport Board. In relation to the number sub-region he is a director of Urban Renaissance, director of Crosby Pathfinder, director of Humberside Airport and director of Humber Economic Partnership. At a local level he chairs the Local Ethnic Community Meetings; is a founder member of the Crosby Community Association; and was formerly vice chair of Lincolnshire Ambulance Service NHS Trust. No other ministerial appointments are held.

*Mark Lovell*: is the executive chairman of A4e Ltd and is a dynamic and successful entrepreneur/ business leader focused on high growth business in global public service markets. His company has grown from start-up to a £100 million turnover business over the last 15 years and has received a number of accolades.

### Defence Exports

**The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton):** The Prime Minister's statement of 25 July 2007, *Official Report*, column 83WS, announced a machinery of Government change moving responsibility for defence trade promotion from the Defence Export Services Organisation (DESO) to UK Trade and Investment (UKTI). Today I am announcing the arrangements under which this transfer will take place.

This statement is made in close consultation with my colleagues the Secretary of State for Defence, and the Secretary of State for Foreign and Commonwealth Affairs.

We fully recognise how important continued export success is to the health of this strategic sector of the economy. Defence equipment manufacture is highly important to the United Kingdom. The combination of expertise within both DESO and UKTI offers a major opportunity to enhance the way HM Government offer support to this successful industry. The ability to offer a complete package for prospective customer Governments, who often seek specialist assistance, will help the industry develop a compelling market proposition that positions the UK uniquely in the world.

The new organisation will build on the sector's recent work which has produced a code setting out common standards of good business practice. We will work together to promote strong standards of business conduct and corporate governance in the sector.

The new organisation will be the UKTI Defence and Security Group. This is a working name. The group will be a UKTI business unit with expertise in defence services and products, operating under the UKTI brand and to UKTI strategic objectives. Ministerial responsibility will rest with the Minister of State for Trade and Investment. The group will be accountable to the UKTI board and its head will report to UKTI's chief executive. Its head will be selected through open competition.

UKTI Defence and Security Group will have continued links to the MOD, in support of defence objectives. This will involve the active engagement of Defence Ministers, and the loan from the MOD to UKTI (via the Department of Business Enterprise and Regulatory Reform (BERR)) of armed forces and relevant civilian personnel to the group. Certain other civilian personnel will transfer from the MOD to UKTI (via BERR), and staff employed locally at overseas missions will transfer from MOD employment to UKTI (via the Foreign and Commonwealth Office).

The current export licensing function within the Defence Export Services Organisation will be retained within the MOD and so be separate from export support activities. And within BERR the separation between BERR export licence functions and trade promotion in UKTI will continue.

In line with the Prime Minister's statement, no changes are envisaged to existing and planned agreements between the MOD and other Governments.

An implementation plan is in place. As a machinery of government change, the guiding principle is that business planning assumptions, and staffing and resources, will be taken on at their current levels from DESO by UKTI. This transfer to UKTI will take place on 1 April 2008.

## EU Energy Council

**The Minister for Energy (Malcolm Wicks):** I represented the UK at the Energy Council in Brussels on 3 December.

The Council was dominated by exchanges on progress on the internal market. There was a positive outcome from a UK perspective, with growing support for ownership unbundling. The rest of the meeting was taken up by a policy debate on the Strategic Energy Technology (SET) Plan and information from the presidency and Commission on international relations.

On the SET plan, Ministers debated the recently adopted Commission communication and an associated presidency 'vision statement'. The presidency said it was important the EU took a lead internationally to meet climate goals—the cost of inaction was greater than action. Investment in the development of energy technologies would be critical but there was no single solution—a wide range of technologies was needed. The Commission outlined the content of their communication. To meet our long-term climate objectives the EU had to be ambitious both on its own and in promoting greater international cooperation.

While welcoming the communication, member states demonstrated a wide range of views on the appropriate prescription, particularly when it came to identifying the most important technologies; energy efficiency was the most mentioned sector. There was general agreement on the need for more effective investment in R&D and the importance of the private sector. For the UK, I emphasised the need to translate the plan into early action; referring to the recent UK tender for demonstration of carbon capture and storage I underlined the importance of addressing policy and regulatory barriers to developing and demonstrating new energy technologies. The Commission emphasised the need to prioritise action.

Presenting the Third Internal Market Package, the Commission noted that while liberalisation had brought benefits, competitive markets were not yet complete. To meet the spring European Council mandate, real change was necessary to ensure non-discriminatory access, open and transparent markets, incentives to invest, and to improve the powers and independence of regulators. On the key issue of unbundling, the Commission noted that unbundled markets had experienced lower price rises (6 per cent. as against 29 per cent.) and higher investment. Though the Commission was open to considering alternatives, these had to involve structural separation that ensured the independence of the Transmission System Operator. The Commission called for swift progress in Council.

All member states welcomed the presidency progress report as fair and balanced. The presidency noted the broad consensus on regulators' powers, objectives and independence as well as the need for greater co-operation, though not yet on the proposed agency model itself, and called on those member states wanting a third option on unbundling to present it soon.

For the UK, I supported the Commission's analysis that full ownership unbundling was the best way to deliver the necessary network investment and benefits of a competitive market to EU consumers and business as UK experience demonstrated. I emphasised the importance of rapid progress, noting that any third option would have to meet the spring European Council mandate on effective separation of networks from supply/generation activities to ensure independent decisions on investment. I also recognised the special circumstances faced by small or isolated markets.

A large majority of member states supported the UK position in whole or in part. Several others supported the agency while others emphasised the importance of the third country clause.

Two member states in particular, supported by four others, rejected functional separation of networks and supply as a solution to the problem, seeing networks as a natural monopoly. They believed it caused problems for safety, investment, quality and prices, as well as weakening EU operators' positions against third country companies. They would suggest an ambitious alternative solution next year. The Commission concluded by emphasising that the purpose was to promote the interests of EU consumers, not the energy industry.

On International Relations, the presidency reported on a variety of initiatives, focusing on Brazil and Africa in particular. Energy was now an important component of most EU external relations, for example with China, India and the EuroMed. The Commission agreed and noted the good progress made across the board. On Russia, they would investigate the impact of the third package on Russian companies and they would soon propose modalities for the accession of Moldova, Ukraine, Norway and Turkey to the Energy Community Treaty. The proposed Energy Efficiency Platform, in lieu of an international agreement, was also important; the Commission was looking at ways of supporting its development.

Two member states raised their interest in pipeline developments. The Commission's co-ordinator for the Nabucco pipeline reported on this project.

### 2007 Simplification Plans

**The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden):** The Government are today publishing Simplification Plans for 19 Departments and Government agencies. The Health and Safety Executive published its plan on 3 December, taking the total number of plans published to 20.

The plans set out more than 700 initiatives which, when delivered, will result in reduced administrative burdens and policy costs for the UK economy as a whole.

They show how the Government are delivering the commitment they made 12 months ago to reduce administrative burdens on business and the third sector by 25 per cent. net by 2010, saving the economy £3.5 billion a year. They set out 288 simplification measures that Departments have delivered to date, saving business and the third sector more than £800 million net per year. And they show that work has begun on reducing the bureaucracy faced by frontline public sector workers.

These plans continue the Government's commitment to transparent reporting of its simplification programme. Departments will continue to update plans annually in order to ensure on-going year-on-year reductions in the burdens they impose.

A report "Delivering simplification plans: A summary" has been deposited in both Houses which summarises this cross-Government effort.

## DEFENCE

### Defence Storage and Distribution Centre

**The Minister for the Armed Forces (Mr. Bob Ainsworth):** My noble Friend the Minister for Defence Equipment and Support has now approved, effective from 11 December 2007, the early closure of the Defence Storage and Distribution Agency (DSDA) Regional Distribution Centres (RDCs) at Longmoor, Shorncliffe, Llangennech, Bulford, Catterick, Chilwell, Colchester and Stirling.

Under the Future Defence Supply Chain Initiative (FDSCi), the MOD assessed a range of options for managing and operating the defence supply chain, to reduce the cost of ownership, while maintaining or improving service levels, and enhancing operational capability. DSDA's new plan makes greater use of Donnington and Bicester, cutting out the need for a number of RDCs. Much material will be delivered direct rather than through a regional hub and is more sophisticated in selecting how material flows are routed; DSDA has also opened a warehouse for fast-moving items at Donnington and more than 50 per cent. of all DSDA deliveries will be from this new facility. This will provide the opportunity for material to be delivered direct rather than through an RDC, and for flexible decisions to be taken as to whether an item is posted, handled by a parcel or pallet carrier, delivered direct, or delivered as part of a multiple delivery route.

I recognise that this will not be a welcome prospect for those staff who stand to be affected. It is not possible to give an absolute assurance that compulsory redundancies can be avoided, although every effort will be made to do so. The MOD Outplacement Service (MODOPS) will be available to support staff affected by the closure, offering support with relocation and financial advice. Training will be available to assist staff with the transition to life in the private sector and services of the MOD Welfare organisation will also be available to help staff with personal circumstances.

Consultation with the trade unions has been completed, during which time a counter-proposal was received. However this was not operationally or financially viable. On this basis, I have decided to fully endorse the closures of the RDCs.

### War Pensions Uprating 2008

**The Parliamentary Under-Secretary of State for Defence (Derek Twigg):** The new rates of war pensions and allowances proposed from April 2008 are set out in the tables below. The annual uprating of war pensions and allowances for 2008 will take place from the week beginning 7 April.

*War Pensions Rates*

| *(Weekly rates unless otherwise shown)* | *RATES 2007* | *RATES 2008* |
|---|---|---|
| WAR PENSIONS | | |
| Disablement Pension (100% rates) | | |
| officer (£ per annum) | 7290.00 | 7571.00 |
| other ranks | 139.70 | 145.10 |
| Age allowances | | |
| 40%-50% | 9.40 | 9.75 |
| over 50% but not over 70% | 14.35 | 14.90 |
| over 70% but not over 90% | 20.45 | 21.25 |
| over 90% | 28.70 | 29.80 |
| Disablement gratuity | | |
| specified minor injury (min.) | 889.00 | 924.00 |
| specified minor injury (max.) | 6643.00 | 6902.00 |
| unspecified minor injury (min.) | 367.00 | 381.00 |
| unspecified minor injury (max.) | 8637.00 | 8974.00 |
| Unemployability allowance | | |
| Personal | 86.35 | 89.70 |
| adult dependency increase | 48.65 | 50.55 |
| increase for first child | 11.30 | 11.75 |
| increase for subsequent children | 13.30 | 13.80 |
| Invalidity allowance | | |
| Higher rate | 17.10 | 17.75 |
| middle rate | 11.00 | 11.40 |
| lower rate | 5.50 | 5.70 |
| Constant attendance allowance | | |
| exceptional rate | 105.40 | 109.60 |

*War Pensions Rates*

| *(Weekly rates unless otherwise shown)* | *RATES 2007* | *RATES 2008* |
|---|---|---|
| intermediate rate | 79.05 | 82.20' |
| full day rate | 52.70 | 54.80 |
| Part-day rate | 26.35 | 27.40 |
| Comforts allowance | | |
| higher rate | 22.60 | 23.50 |
| lower rate | 11.30 | 11.75 |
| Mobility supplement | 50.30 | 52.25 |
| Allowance for lowered standard of occupation (maximum) | 52.68 | 54.72 |
| Therapeutic earnings limit | 4472.00 | 4602.00 |
| Exceptionally severe disablement allowance | 52.70 | 54.80 |
| Severe disablement occupational allowance | 26.35 | 27.40 |
| Clothing allowance (£ per annum) | 180.00 | 187.00 |
| Education allowance (£ per annum) (max) | 120.00 | 120.00 |
| Widow(er)s - private | 105.90 | 110.05 |
| Widow(er)s' (other ranks) | 105.90 | 110.05 |
| Widow(er) - Officer (£ p.a. max) | 6525.00 | 6779.00 |
| Childless widow(er)s' u-40 (other ranks) | 25.37 | 26.36 |
| Childless widow(er)s' u-40 (Officer max.£s pa) | 6525.00 | 6779.00 |
| Supplementary Pension | 70.88 | 73.64 |
| Age allowance | | |
| (a) age 65 to 69 | 12.10 | 12.55 |
| (b) age 70 to 79 | 23.20 | 24.10 |
| (c) age 80 and over | 34.40 | 35.75 |
| Children's allowance | | |
| Increase for first child | 16.65 | 17.30 |
| Increase for subsequent children | 18.60 | 19.35 |
| Orphan's pension | | |
| Increase for first child | 18.95 | 19.70 |
| Increase for subsequent children | 20.80 | 21.60 |
| Unmarried dependant living as spouse (max) | 103.55 | 107.70 |
| Rent allowance (maximum) | 39.95 | 41.50 |
| Adult orphan's pension (maximum) | 81.35 | 84.50 |

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Exotic Animal Diseases (DEFRA Contingency Plan)

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw):** The National Contingency Plan for Exotic Animal Diseases was laid before Parliament on Monday 10 December.

This Plan sets out the operational arrangements Defra will put in place to deal with any occurrence of foot and mouth disease, avian influenza or Newcastle disease. The plan is also applicable to other exotic animal diseases. It is composed of two elements: Defra's Framework Response Plan for Exotic Animal Diseases, outlining systems, structures, roles and responsibilities during an outbreak of disease, and Defra's Overview of Emergency Preparedness which provides details of our preparedness and operational response.

It replaces Defra's Exotic Animal Disease Generic Contingency Plan which was laid before Parliament on 13 December 2006.

Defra's Contingency Plan is very much a "living document". It will be subject to ongoing revision taking on the latest developments in science, research, and epidemiological modelling together with lessons identified from outbreaks.

To meet the provisions of the Animal Health Act, the Plan will also be subject to formal annual review.

### Animal Health and Welfare

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw):** I am today announcing publication of a document inviting views on the next steps on sharing responsibility and costs for animal health and welfare.

Better animal health and welfare is important for our livestock, their owners, public health, society, and the rural economy. As recent events have shown animal disease outbreaks can be costly to farmers and the livestock industry, to the wider economy and to the taxpayer. The costs are not just financial but also the disruption and uncertainty caused while we have worked together to bring outbreaks under control.

The Animal Health and Welfare Strategy for Great Britain (2004) set out our vision for the future. Partnership working and a clear understanding of roles and responsibilities are key elements in achieving that vision.

The Responsibility and Cost Sharing Programme is central to delivering this. The aim is to make joint working between industry and government a reality: with joint decisions on how to prevent, control and eradicate animal diseases using our joint resources and skills. The close partnerships involved in tackling the recent foot and mouth and bluetongue disease outbreaks, are excellent demonstrations of how industry is able and ready to take on greater responsibility and play a more active role in managing disease risks.

The Government wish to develop and strengthen this partnership approach. This consultation is an important part of the process for developing the right structures and mechanisms for doing so and seeks views on a range of options. First, it discusses ways to share responsibility between Government and industry. The questions here are what decisions livestock keepers and industry as a whole are best placed to deal with; and how best to organise joint decision making with Government where this is needed.

Secondly, the document looks at the principles for deciding how costs can be shared equitably. The Anderson inquiry into the 2001 foot and mouth outbreak highlighted the need for sharing disease control costs with those involved: those who benefit should contribute. There is undoubtedly a need to redress the current imbalance. But jointly owned and funded animal health disease controls can also deliver wider economic benefits, public health and other public goals. Therefore, it is right that the public, as taxpayers, should also pay an appropriate share of the costs.

Thirdly, it considers what funding mechanisms would encourage and incentivise public and private sector interests to work together to manage risks better and deliver outcomes more efficiently. We wish to encourage behaviour that leads to better biosecurity, and compliance with cost effective risk reduction measures, making more use of non-legislative alternatives to regulation, and with a greater focus on incentives rather than penalties and enforcement.

Lastly, some specific proposals are put forward for the withdrawal or reduction of public subsidies for certain measures that concern BSE in cattle and scrapie in sheep. These would not affect the controls that protect public health, which will remain firmly in place.

The content of this consultation has been shared with the UK Consultative Forum on Responsibility and Cost Sharing and the England Implementation Group for Animal Health and Welfare. In the light of this consultation and further work by the forum the Government will be developing detailed proposals for further consultation next year.

These changes should lead to better risk management, improved decisions, more efficient delivery; and a fairer, transparent distribution of costs between industry and government, and between businesses within the industry.

This consultation concerns England. I am also discussing these issues closely with ministerial colleagues in other parts of the UK, with the aim of developing common policies that recognise the challenges posed by animals and their diseases and movements across administrative borders from livestock enterprises spread across the UK, especially as Great Britain is recognised as a single epidemiological unit for animal disease.

## Climate Change (UN Framework Convention)

**The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn):** My hon. Friend the Minister for the Environment and I will attend the 13th meeting of the Parties (COP13) to the UN Framework Convention on Climate Change (UNFCCC) in Bali, Indonesia this week. Our aim for the meeting is the launch of negotiations leading—by the end of 2009—to a comprehensive global agreement to tackle climate change. This is an ambitious objective, and success is not guaranteed.

The recent fourth assessment report from the panel on climate change (IPCC) has made clear the role of humans in climate change and the impact on food production, sea level rise, human health, biodiversity and on our economies if we do not take urgent and sustained action to reduce greenhouse gas emissions. It is very important that we achieve an international agreement which can build on existing commitments and is agreed in time to follow the first commitment phase of the Kyoto protocol, which ends in 2012.

I welcome the recent call by the Corporate Leaders' Group, representing over 90 companies, for a launch of negotiations and for an enhanced and extended carbon market. At Bali we need to agree that all parties will take part in a comprehensive, twin-tracked negotiation to be completed at the Copenhagen climate change conference at the end of 2009. This will require a detailed work programme and interim milestones to review progress.

The two tracks relate to the Framework Convention and the Kyoto protocol. Under the convention, parties have already been discussing in a non-negotiating forum how to improve its implementation. The focus has been on technology, market instruments, adaptation and sustainable development and we need to build on these discussions in formal negotiations.

The second track relates to the ongoing negotiations under the Kyoto protocol, where developed countries which have ratified have been considering new targets for the second commitment phase which is due to start in 2013. This needs to continue in tandem with the planned 2008 review of the protocol.

We believe that the negotiations we will seek to launch in Bali will need to be guided by four main principles: recognition of the scale of the challenge, effectiveness, fairness and a comprehensive scope.

The first principle on recognising the scale of the challenge is the need for the negotiations to be guided by the aim of limiting the global average temperature increase to not more than 2°C above pre-industrial levels, and agreeing a goal of reducing global emissions to at least 50 per cent. below 1990 levels by 2050.

The second principle is that the agreement must be effective. This means it must involve all countries with significant emissions; and the commitments made must be measurable. An effective agreement also requires development of a truly global carbon market. We know that putting a price on carbon is essential to provide the incentive for the private sector to invest in energy efficiency and clean energy sources. We need to expand and evolve market mechanisms such as the Clean Development Mechanism to move us toward a global carbon market. At Bali we will be pressing for improvements to implementation of the current mechanisms.

The third principle is fairness. The commitments made by different countries must be based on the UN principle of "common but differentiated responsibilities and respective capabilities". Developed countries must continue to take the lead by adopting deeper targets. The larger developing countries will also need to adopt new and flexible types of commitments which do not have the effect of putting a brake on their development. These commitments will need to vary between countries depending on their different stages of economic development and they will change over time as countries grow. We do not foresee any developing country taking on absolute emissions reductions in the next commitment period but action by developing countries should nevertheless be measurable and verifiable. Negotiations on these commitments should form the basis of the discussions under the convention talks.

Fairness also demands that the rich countries support developing countries in making this transition. We need to facilitate the transfer of technology and in Bali we will be aiming to launch a new body to progress a long-term and enhanced technology transfer framework feeding into a post-2012 agreement. Through the Clean Development Mechanism, the carbon market already provides significant flows of finance to developing countries; they could be much larger in the future. And we are also prepared to do more to offer support. The Clean Energy Investment Framework of the World Bank and regional development banks is intended to catalyse private sector investment in low carbon energy, energy efficiency and adaptation to climate change.

The Government have already pledged £800 million through our Environmental Transformation Fund over the next three years for these aims, and we now want other donor countries to join us in making this a major fund that can assist developing countries in tackling the challenges of climate change.

Fourth, a post-2012 agreement must be comprehensive. As well as emissions from energy it must address those from land use, especially from deforestation. Major progress in reducing deforestation rates has already been made, in Brazil, Indonesia and elsewhere. If we are to help reduce emissions from deforestation, the international community must make it economically worthwhile for local people to benefit from sustainable forest management rather than through logging and forest clearance. In Bali we are aiming to agree a framework for voluntary participation by developing countries in a scheme to provide positive incentives to reduce emissions from deforestation, including a set of indicative national baselines with long-term responsibility for stocks.

We also want to see positive support for pilot schemes, to help build links to activities by other organisations and stakeholders, including the World Bank proposal for a Forest Carbon Partnership Facility. We need to link the deforestation negotiations into the broader negotiations on a post-2012 agreement. For any agreement to be comprehensive, it should also cover the growing emissions from aviation and shipping.

And last, but very importantly, we need to accept that climate change is already happening and some future impacts are inevitable. All countries need to put in place measures now that will increase resilience to the effects of climate change. It is the poorest countries that are particularly vulnerable to the impacts of climate change. At Bali we will be seeking to agree governance arrangements for a planned Adaptation Fund so that it can start work, as well as to agree to develop a new Framework for Action on Adaptation which provides a structure for stakeholder engagement and funding.

While the UNFCCC is the primary body for international consensus on a new agreement, we need to recognise the valuable work taking place in informal discussions and negotiations such as the G8, Gleneagles Dialogue and US Major Economies Meeting. The results from these informal processes should be fed into the convention negotiations.

Success in achieving these aims at Bali is indeed an ambitious goal. But it is one that all those attending from the UK will do their best to achieve.

## FOREIGN AND COMMONWEALTH OFFICE

### EU Africa Summit (Lisbon 8 and 9 December 2007)

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** Leaders from the European Union and Africa met in Lisbon on 8 and 9 December at the second EU Africa summit to agree new co-operation and a framework for a closer partnership between the two continents. The agenda was wide covering peace and security, governance and human rights, trade, infrastructure and development, energy and climate change and migration. The main themes to emerge discussions focused on governance and trade.

The UK had made its position clear that the Prime Minister would not participate if President Mugabe attended. Baroness Amos ably represented the UK and promoted key aims.

The UK commitment to the relationship between African and the European Union is clear. We supported the summit and have been working hard with partners in the course of this year to prepare for successful discussions and agreements. We welcome the fact that leaders were able to discuss and reach agreement on urgent global challenges including the need to accelerate progress towards reaching the Millennium Development Goals in Africa, tackling conflict and climate change, and promoting good governance.

European leaders at the summit rightly highlighted the links between governance and development and focused particularly on the human rights situations in Zimbabwe and Darfur, and the serious challenge to Africa's development that they represent. Baroness Amos raised Zimbabwe and the appalling human rights situation caused by President Mugabe during her intervention. African leaders too spoke up on the need to tackle poor governance and safeguard human rights and the links to growth promotion and development.

The trading relationship between the European Union and African countries and regions formed an important part of discussions, with some African countries expressing concerns about the new Economic Partnership Agreements. Many African countries have now signed or initialled interim agreements with the Commission. The Commission underscored the importance of concluding such agreements, particularly for non-least developed countries, in order to safeguard trade flows. It agreed to schedule further discussions with the leaders from the five African regions in the new year to take stock of the situation and discuss the way forward. The UK continues to encourage those countries which have yet to sign an interim agreement to do so to avoid damaging trade disruption. We also consider it vital that no country should be worse off and that when full economic partnership agreements are negotiated, they promote development objectives.

The summit aimed to forge a stronger partnership between Africa and Europe. Leaders agreed a joint strategy, and a series of action plans that set out specific commitments over the next three years. These new agreements build on many of the commitments made: at Gleneagles and at the December 2005 European Council held under the UK presidency. "EU Africa Partnerships" setting out co-operation and targets have been agreed under eight headings: the millennium development goals; good governance and human rights; peace and security; climate change; energy; trade and integration; migration; and science.

The UK will continue to work closely with EU and African partners to ensure that commitments made in Lisbon are honoured and concrete progress is made.

## Kosovo

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** On 7 December, representatives of the Contact Group submitted to the UN Secretary-General the report by the EU-Russia-US troika on their work aimed at achieving a negotiated settlement for Kosovo's future status.

The troika correctly set themselves the objective of "leaving no stone unturned" in the search for an outcome mutually acceptable to both Belgrade and Pristina. During the four months of their mandate, the troika undertook an intense schedule of meetings with the parties. Over ten rounds of negotiations—including six sets of direct talks, one of them in extended conference format—the parties considered options covering the spectrum from independence, autonomy, confederation, partition and a status-neutral approach. One or other of the parties rejected all these options.

The troika have therefore reported that the parties have been unable to reach an agreement on Kosovo's status.

I pay tribute to the troika's work. They have worked tirelessly and imaginatively. Although they did not secure an agreement between the parties, their work generated sustained and intensive high-level dialogue between Belgrade and Pristina. The troika have also been able to extract important commitments from the parties, including pledges to refrain from actions that might jeopardise the security situation in Kosovo or elsewhere and not to use violence, threats or intimidation. These are important commitments to which we shall expect both sides to adhere strictly in the period ahead.

The troika's efforts followed those of UN Special Envoy Ahtisaari who laboured heroically for 14 months to reach agreement between the parties before concluding that this was out of reach. He therefore drew up his own proposal for how to move forward based around the concept of supervised independence. That recommendation was supported by the EU, US and UN Secretary-General. It was rejected by Serbia and Russia.

It is hard to argue now that there is any value in further negotiations or that serious options have yet to be fully explored. The failure to reach agreement is not because of lack of time, energy or imagination on the part of the international community. It is because the positions of the parties are irreconcilable. Kosovo insists on independence. Serbia insists on a settlement that locks the door on any prospect of independence. The UK shares the firm view of the EU representative on the troika, Ambassador Wolfgang Ischinger, that the parties would not be capable of reaching agreement on this issue if negotiations were to be continued, whether in the troika format, or in some other form.

The Kosovo status process has now reached a decisive moment, presenting the international community with difficult but important decisions.

One point on which almost all in the international community are agreed is that the status quo is unsustainable. This was stated in clear terms by the UN Secretary-General when he addressed the Contact Group Ministerial meeting in September in New York. The Contact Group, including Russia, subsequently expressed their agreement in a joint Ministerial statement.

The international community cannot therefore allow the status process to grind to a halt or to be shuffled off into a siding by convening further fruitless negotiations. We learned to our cost in the 1990s the heavy human and political price attached to an indecisive international response to looming problems in the Western Balkans. The stability and security of part of Europe is at stake. It is essential that we respond in a decisive and far-sighted manner.

The UK's preference would be for a settlement to be supported by the passage of a resolution of the UN Security Council. We believe there should be further rapid consultations in New York to this end before the end of 2007. However in the absence of agreement between the parties, we need to be realistic about the slim prospects of securing the necessary level of consensus in the Security Council.

Against this background it is important that the EU demonstrates its readiness to meet its responsibilities and objectives in respect of stability and security in Europe. Securing a viable and sustainable future for Kosovo is a major responsibility for the EU. The effectiveness and cohesiveness of the EU's common foreign and security policy will be judged against our ability to deliver on this responsibility. The EU must demonstrate firm resolve to bring the status process through to completion and play a leading role subsequently in implementing a settlement. I welcome the fact that the EU is already intensively engaged in the necessary preparations to meet these responsibilities.

In moving towards a Kosovo settlement, it will be necessary for the EU and others to take a strategic approach answering to a series of key challenges. There will be a need to ensure Kosovo's security. The North Atlantic Treaty Organisation is already deployed in strength in Kosovo to maintain a safe and secure environment. The EU has indicated a readiness to provide a European Security and Defence Policy policing/rule of law mission. The EU should deliver on this commitment.

There will be a need to ensure good governance in Kosovo. The proposal of the UN Special Envoy provides a good basis for this. The provisions it set out for the internal governance of Kosovo, and the allocation of responsibilities it contains, must be the foundation for how we deliver security and help Kosovo improve its ability to meet European standards. The EU should be ready to play a major part in settlement implementation including through the appointment of an EU Special Representative and through contributing to an International Civilian Office in Kosovo.

There will be a need to achieve certainty and permanence in respect of Kosovo's future status. Again, the UK believes that the proposal of the UN Special Envoy for supervised independence provides a good basis.

There will be a need to look beyond the immediate challenge of resolving Kosovo's future status. Following a settlement, Kosovo will face formidable economic and state-building challenges. The international community—with the EU to the fore—will need to be ready to meet this challenge, including through the swift convening of a donors' conference.

Finally, there will be a need to address the regional dimension. The UK recognises that moving through this phase will be difficult for Serbia, as well as for other countries in the region. The EU must be clear and far-sighted in its commitment to helping them meet European standards and so move farther towards eventual accession. There is a compelling strategic case for enlargement to the Western Balkans so that this troubled region can share in the security, stability and prosperity that the EU offers. The EU needs to take forward this agenda vigorously in the months ahead.

## INNOVATION, UNIVERSITIES AND SKILLS

### Research and Science Budget

**The Secretary of State for Innovation, Universities and Skills (Mr. John Denham):** Today I am publishing "The Research and Science Budget Allocations 2008-09 to 2010-11". The publication outlines the allocations of the Research And Science Budget for this comprehensive spending review period, and provides further details on what this money will deliver. I have placed copies in the Library of the House.

The overall settlement was announced by the Chancellor in the comprehensive spending review. As a result the Department will spend almost £6 billion in total on the research base by 2010-11. This is made up of the Research and Science Budget and nearly £2 billion of funding to reach English universities through the Higher Education Funding Council's (HEFCE) quality-related funding stream (the second leg of the dual support system).

The Research and Science Budget specifically will increase from £3.4 billion per year in 2007-08 to almost £4 billion per year by 2010-11—taking the Government's support for the UK's research base to its highest level ever.

Specifically the allocations will:

fund new commitments to the Office for the Strategic Co-ordination of Health Research (OSCHR)

support £120 million of collaborative work between the Technology Strategy Board and the Research Councils over the CSR period

enable relevant recommendations of the Sainsbury Review to be implemented

enable the Research Councils to fund research at 90 per cent. of its full economic cost

increase funding for the Higher Education Innovation Fund, and

provide capital funding to ensure the long-term sustainability of the Research Base and allow UK researchers to benefit from a range of new world-class facilities

KEY HIGHLIGHTS OF THE ALLOCATIONS

The UK continues to perform exceptionally well in research and, increasingly, its exploitation. We remain second only to the US in global scientific excellence (as measured by citations), while collaboration between the research base and business continues to grow ever stronger.

The allocations provide significant support for medical research. The Medical Research Council will receive almost £2 billion over the three years to help keep the UK at the forefront of medical advances. Joint investment with the Department of Health, joined up by OSCHR, will ensure that more fundamental research is translated into clinical practice. The funding will also enable the development of the UK Centre for Medical Research and Innovation (UKCMRI) on the British Library site, and the rebuilding of the Laboratory of Molecular Biology in Cambridge (subject to approval of individual business plans by Government).

In response to the "Grand Challenges" outlined by the Chancellor at the announcement of the comprehensive spending review, the Research Councils are embarking on an exciting range of thematic research programmes. These programmes bring together partners from inside and outside the research community in an unprecedented effort to tackle these issues. Programmes include: "Living with Environmental Change", "Ageing", "Global Threats to Security" and "Energy".

This allocation makes resources available to drive forward the economic impact agenda in the face of global challenges. The Research Councils have each set out explicit strategies for delivering a step change in their economic impact. The strategies form a solid foundation from which Research Councils can further raise their emphasis on economic impact during this CSR spending period.

In addition, the Higher Education Innovation Fund will rise to £150 million per annum by 2010-11, providing more resources than ever before to support knowledge transfer between universities and business. The Public Sector Research Exploitation Fund will in future attract co-funding from other sources so that even more support can be made available to public sector laboratories as they commercialise their research.

We have increased the budget for the successful "Science Bridges" scheme to £12 million to foster stronger links with international researchers, alongside supporting international fellowships run by the National Academies. This will help forge stronger links with the US, China, and India in particular

A new Capital Investment Fund is being created for universities carrying out Research Council-funded projects. This permanent funding stream replaces the temporary Science Research Investment Fund (SRIF) programme, which has helped make good the backlog in investment in research infrastructure. The new fund will help universities to sustain this research infrastructure in the future.

HEALTH OF DISCIPLINES

The Science and Innovation Investment Framework 2004-14 sets out the Government's commitment to nurturing key disciplines. The Research Councils, Funding Councils, and National Academies have made significant progress. It is important that all key disciplines remain strong and vibrant. Research priorities will change over time but it is important that Government is confident that the combined decisions of the research councils properly underpin the health of key disciplines. This is important both for the future of research and, more widely, to ensure a flow of talented individuals into STEM subjects at University.

As a next step, I have asked Ian Diamond, as Chair of RCUK, to organise a series of reviews on the health of key research disciplines in the UK. The first of these reviews will be on physics, and will span at least three Research Councils (Engineering and Physical Sciences Research Council, Natural Environment Research Council and Science and Technology Facilities Council). It will be led by Professor Bill Wakeham, Vice-Chancellor, University of Southampton.

LARGE EXPERIMENTAL FACILITIES

Investment in advanced experimental facilities is of critical importance to the long-term success of the research base. STFC invests significantly in national facilities (such as Diamond and Isis) and international subscriptions (for example the European research centre at CERN). The allocation to STFC supports the Government's vision for Harwell and Daresbury to be developed as Science and Innovation Campuses.

The Daresbury campus will be developed as a partnership between the STFC, the NWDA, the private sector and universities. I have asked Sir Tom McKillop to look specifically at the development of the Daresbury site as part of his wider independent review into the future of the Manchester City region and wider north-west economy.

Similarly, the Harwell Science and Innovation Campus is being developed as a scientific and high technology cluster in Oxfordshire.

CONCLUSION

World-class research in the UK is crucial to maintaining economic prosperity and responding to the challenges and opportunities of globalisation. Research plays a vital part in addressing key global and domestic challenges, such as climate change, energy, ageing, technological change and security. The research base also delivers improvements in public service delivery and contributes to improvements in education, health and culture.

The allocation of the science budget will continue to support the full spectrum of academic endeavour. It will ensure all benefits from the excellent research base are maximised by encouraging the full exploitation of fundamental research. It will support the long-term sustainability of research in the UK, whilst encouraging further international collaboration.

This report can be viewed at: http://www.dius.gov.uk/publications/URN07114.pdf

## JUSTICE

### Amalgamation of Divisions of General Commissioners

**The Parliamentary Under-Secretary of State for Justice (Bridget Prentice):** I have made an order under Section 2(6) of the Taxes Management Act 1970 amalgamating a number of divisions in Leicestershire, Devon, Dorset, North Yorkshire, West Midlands, Warwickshire and London as follows:

With effect from 1 January 2008:

The Hinckley Division, the Loughborough Division and the Rutland Division are merged into one division called the North Leicestershire and Rutland Division

The Plym Division and the Stanborough and Coleridge Division are merged into one division called the Plymouth and Stanborough Division

The Coventry Division and the Nuneaton Division are merged into one division and called the Coventry and Nuneaton Division

The Willesden Division and the North West London Division are merged into one division called the North West London Division

The North Dorset, West Dorset and Weymouth Division is renamed the West Dorset Division

The New Forest West Division is abolished

The New Forest East and Wessex Division is renamed the Wessex Division

And with effect from 8 February 2008:

The Harrogate Division and the Ripon Division are merged into one division called the Harrogate and Ripon Division

All the amalgamations were made at the request of the divisions with the aim of improving the organisational efficiency of the General Commissioners in all the divisions concerned. Copies of the Amalgamation of Divisions of General Commissioners have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office.

### Review of Voting Systems

**The Minister of State, Ministry of Justice (Mr. Michael Wills):** In the "Governance of Britain" Green Paper released in July this year the Government reiterated their commitment to review the experience of the new voting systems introduced in the United Kingdom since 1997, by the end of this year. The Government have completed this review and will make it ready for publication in January 2008 when Parliament reconvenes.

## TRANSPORT

### Autumn Performance Report 2007

**The Secretary of State for Transport (Ruth Kelly):** I have today published my Department's Autumn Performance Report for 2007 (CM 7266). Copies have been laid before Parliament and placed in the House Libraries.

The Autumn Performance Report provides Parliament with a progress report on performance against the Department's Public Service Agreement (PSA) targets using data available up to November 2007.

# Written Ministerial Statements

*Wednesday 12 December 2007*

## TREASURY

### Free Cash Machines

**The Economic Secretary to the Treasury (Kitty Ussher):** Following the March 2005 Treasury Committee report on ATM (Automatic Teller Machine) charging, the Treasury invited the Chairman of the Treasury Select Committee, the right hon. John McFall, to chair a working group on ATMs to take forward work on key issues. The working group, which included banks, independent ATM operators and consumer groups, published its report on 13 December 2006.

The working group announced an agreement to provide around 600 new free cash machines across 1,707 target low-income areas that it identified as lacking convenient access to these machines. To achieve this, a market-based financial incentive—known as a "financial inclusion premium"—was introduced, to encourage ATM operators to place or retain free ATMs in deprived areas with a low expected volume of transactions. The working group also agreed to implement improved transparency rules for charging cash machines.

The Government are pleased to report that, almost a year on from the publication of the working group's report, the industry has made excellent progress towards its goals of placing around 600 non-charging machines in low-income areas across the UK, with more than 2 million individuals on low incomes standing to benefit.

As of 23 November 2007, sites for 543 of the 600 new ATMs required have been identified. Of these, 337 new free machines are already in use, with 63 per cent. of these ATMs based in deprived areas and receiving the "financial inclusion premium". Encouragingly, five of these new cash machines have proved so popular that their level of withdrawals means that they have now graduated from the "financial inclusion premium" scheme.

Banks, building societies and independent ATM operators have all contributed new free-to-use cash machines; independent ATM operators have provided or are in the process of supplying around 40 per cent. of the confirmed new non-charging ATMs. The UK ATM network, Link, is continuing to work with its member banks and ATM operators to identify suitable sites in the remaining target areas, and is engaging closely in this exercise with Members of Parliament, local authorities, consumer councils and landlords.

The benefits in terms of financial inclusion are clear. Data from Link suggest that the new ATMs currently in operation or under contract will enable 1,190,474 residents in the target low-income areas to access cash more conveniently and manage their money more effectively.

In terms of improved transparency, all operators of cash machines that charge users for withdrawals have met the end of June 2007 deadline to improve the on-screen standards of "at a glance" signage. This means that it is clear to a consumer when a charge is applied when withdrawing cash. Good progress is also being made by operators to enhance external signage by the end of December 2007.

The Government are encouraged by the substantial progress achieved, and would like to take this opportunity to thank all of those involved in extending free access to cash to those who need it most.

Full details about progress made is available on the Link internet website: http://www.link.co.uk/atm/access_to_cash_progress/index.html

## COMMUNITIES AND LOCAL GOVERNMENT

### Housing Revenue Account

**The Minister for Housing (Yvette Cooper):** I am today announcing a review of the Housing Revenue Account subsidy system to be led jointly by officials in my Department and in HM Treasury, reporting to Ministers in both Departments.

In the housing Green Paper, "Homes for the future: more affordable, more sustainable" published in July, we said that we wanted to examine the case for change to the redistributive Housing Revenue Account subsidy system. The purpose of the review is to ensure that we have a sustainable, long-term system for financing council housing and that this system is consistent with wider housing policy, including the establishment of a regulator of social housing.

This system should be fair to both tenants and taxpayers. It should be transparent, giving a clear and accurate picture of the balance of support from local and central Government. It should enable delivery of agreed standards of service and accommodation. It should recognise that social rents should help tenants gain and retain work, whilst acknowledging the need for landlords to improve the quality and efficiency of services. And it should be affordable and not expose Government to unacceptable fiscal risks.

The review will build on the work of the pilots we have conducted with six local authorities which looked at the costs and benefits of councils operating outside the Housing Revenue Account subsidy system. It will consider evidence about the need to spend on management, maintenance and repairs. It will consider rent policy, including the relationship between council rents and rents set by other social housing providers. It will also consider how the self-financing model developed in the pilot exercise would fit with the aims of the review and, if it is consistent with these, how it could be implemented. And it will consider whether the rules which govern the operation of the HRA need to be changed in order to fit with a new system of financing.

The review will make its final report in Spring 2009, setting out a way forward for the subsidy system, rents policy across all social housing, and spending needs for council housing. It will be followed by a period of consultation. This will enable its findings to be considered in the next spending review. It will also be asked to provide earlier advice in 2008 to inform decisions about council rents and subsidy determinations in the remaining two years of the current spending period.

The report will also support our aim of a single regulator for social housing across all providers by developing a policy framework of rents and standards for the regulator of social housing. This output will also be delivered in 2008.

The review team will establish its own detailed working methods. This will however include opportunities for practitioners and stakeholders to put forward their views.

## Social and Affordable Housing

**The Minister for Housing (Yvette Cooper):** This Government are strongly committed to ensuring that social housing meets the needs of all tenants. The John Hills review found that while investment in social housing had delivered real improvements, tenants living in social housing still faced significant social and economic challenges. As part of the work to improve social housing we are setting out a series of further steps in five key areas. These are part of an ongoing programme of work to improve social housing and make it fairer, more effective, and more personal.

*Increasing Supply and Investment in Bricks and Mortar*

Our first priority, as set out in the Green Paper, is to increase the supply of housing. By 2010, we will be building 70,000 social homes a year. To increase the supply of social housing over the next three years, we are today confirming allocations totalling £8.4 billion to be shared across the regions. We will be allocating £8.4 billion across the regions over the next three years. Every single region is getting at least a 5 per cent. increase every year over the next three years—with areas of greatest need receiving far more than that. The Housing Corporation and later the Homes and Communities Agency will be tasked with spending this money most effectively.

We will also be investing £2.4 billion in the ALMO programme over the next three years. We expect that this will bring a further 150,000 homes up to standard. A further four ALMOs are joining the programme today, from Charnwood, North-East Derbyshire, Stevenage and Redbridge. A further £200 million will support ALMOs already on the programme which have yet to pass their inspections. We are continuing to assess the remaining round 6 funding bids and will allocate further programme places to ALMOs as individual funding allocations are finalised.

We will also be writing to all stock owning authorities announcing the 2008 Housing Transfer Programme. This will enable local authorities and their tenants, if they wish, the opportunity to transfer ownership of their stock to a housing association to bring in private sector funding needed for further improvements in housing, to build on the decent homes investment that has taken place, and for estate transformation schemes.

Finally, almost £2 billion from the regional housing pot will fund improvements to local authority owned and private sector stock.

*Modernising Institutional Structures*

The Housing and Regeneration Bill is creating a new regulatory framework, responding directly to Martin Cave's recommendation that tenants should have a greater say over where they live and how their homes are managed.

This new framework will reward performance and innovation, giving greater freedom to good housing associations. The new regulator will have a range of powers to intervene where tenants' needs are not being met.

Initially, the regulator will only have the power to regulate registered social landlords. But in response to demand across the sector, we are committed to extending this new framework to local authorities as rapidly as possible. So I have asked Professor Ian Cole of Sheffield University to work with all key stakeholders in establishing the detail of how this will work in practice, and align with the new performance framework for local government.

We will also be conducting a review of the Housing Revenue Account Subsidy (HRAS) system. I have provided a separate written statement to the House on this review.

*Improving Housing Services, Mobility and Choice*

We know that the most successful local authorities offer their tenants not only a housing service, but housing options—a service which is more responsive to individual need and to changes in individual circumstances. We also know that the system is not meeting the needs of too many groups at the moment—often due to a lack of mobility in the system. So I am setting out a package of measures to promote greater mobility for social housing tenants.

We will be investing £1.8 million that will deliver 18 new choice-based lettings schemes offering people the chance to move across different local authorities. A further £2 million investment in the next two years will enable all local authorities to be part of such a scheme by 2010.

We know that a major consequence of this lack of mobility is overcrowding—a problem that blights the lives of thousands of families. As set out in the Children's Plan yesterday, we are committed to updating the standard by which we assess overcrowding. And we are today publishing an action plan to achieve that ambition, which has been placed in the Libraries of both Houses. Initial funding of £15 million will tackle severe overcrowding across 38 pathfinders including all London boroughs and five other hotspots (Birmingham, Bradford, Leicester, Liverpool and Manchester). We estimate that these local authorities cover more than half of overcrowded households in the country. This work will help identify costs and the time needed before we roll this approach out across the country.

Elderly people too are often affected by the lack of mobility, if they want to move closer to their families or to smaller homes. So we will consult on changing the reasonable preference criteria to benefit older people who want to downsize.

Finally, there will be an independent, comprehensive review of the private rented sector and we will set out further details in the new year.

*Improving Social Mobility with Greater Opportunities to Work and to Own*

Social housing in the 21st century needs to offer people much greater opportunity to progress. As John Hills identified, many social housing estates have high levels of worklessness.

The Secretary of State for Communities and Local Government and the Secretary of State for Work and Pensions have already announced a £1.5 billion programme targeted at areas with high levels of deprivation and worklessness. We will be working to ensure that social landlords and tenants are closely involved in tackling this.

A programme run with the Department for Work and Pensions will sponsor five areas over the next three years to develop a new approach to promote wide-ranging advice on housing options alongside employment and training advice.

We also want to make sure that we offer greater choice to tenants in social housing—not just about where they live, but with options to move into other types of tenure. More social tenants should have the opportunity to progress into homeownership. We have been running a pilot scheme known as social homebuy to offer those who cannot buy outright a stepping stone onto the property ladder. We will be continuing the pilots. Many tenants have been put off by the costs of taking on full maintenance, and so we will work with social landlords to develop options for shared maintenance costs before assessing the next steps to promote wider access to shared ownership among social tenants.

*Supporting Mixed Income Communities*

Finally, John Hills found that single tenure estates in deprived areas were particularly associated with social problems and high levels of tenant dissatisfaction. We want to promote the development of mixed and stable communities, characterised by a mix of tenures.

We want the Homes and Communities Agency to look further once it is established at how to promote mixed income communities in existing areas. We will also set out a Communities Fund. The fund will work with local communities on how to develop greater mix of tenures. Details of how this programme will work will be announced in the new year.

## HEALTH

### Strategic Framework for Funding and Investment

**The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis):** Today the Department is to launch a consultation on proposals for a strategic framework for funding and investment support to third sector organisations. The document has been placed in the Library and copies are available for hon. Members in the Vote Office.

The purpose of the review, informed through the consultation process, is to develop a framework for strategic investment in the sector by the Department and transform the current, rather piecemeal, arrangements for funding the sector into a strategic portfolio of investments that will more explicitly support the delivery of the Department's objectives and priorities for health and social care. This consultation document sets out the vision of a more strategic approach to the Department's investment in the sector, that reinforces the sector's value in a way that reflects the Department's role in creating the conditions for innovation and improvement in service delivery across health and social care.

The consultation proposals are set in a coherent framework with four key objectives to:

allow more coherent investment;

support evaluation of outcomes and benefits;

increase value for money; and

reinforce the sector's integral role.

The consultation process will help to further the Government's aim of supporting the development of a strong and sustainable third sector, and will have the benefit of not only promoting and supporting the third sector's role in delivery of the health and social care agenda more effectively, but also promoting strong and sustainable communities through both community involvement and volunteering.

The consultation will run until 20 March 2008 with a view to the Department setting out proposals, based on the responses we receive to the consultation, in a document to be published summer 2008.

## HOME DEPARTMENT

### Control Order Powers (11 September 2007 to 10 December 2007)

**The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty):** Section 14(1) of the Prevention of Terrorism Act 2005 (the 2005 Act) requires the Home Secretary to report to Parliament as soon as reasonably practicable after the end of every relevant three-month period on the exercise of the control order powers during that period.

The level of information provided will always be subject to slight variations based on operational advice.

Control orders continue to be an essential tool to protect the public from terrorism, particularly where it is not possible to prosecute individuals for terrorist-related activity and, in the case of foreign nationals, where they cannot be removed from the UK.

During the period 11 September 2007 to 10 December 2007, there were no new control orders and no control orders have been revoked, or renewed, or expired.

As stated in previous quarterly statements on control orders, control order obligations are tailored to the individual concerned and are based on the terrorism-related risk that each individual poses. Each control order is kept under review to ensure that obligations remain necessary and proportionate. The Home Office continues to hold Control Order Review Groups (CORGs) every quarter, with representation from law enforcement and intelligence agencies, to keep the obligations in every control order under regular and formal review and to facilitate a review of appropriate exit strategies. During this reporting period, six review groups were held in relation to the orders currently in force. In addition, further meetings were held on an ad-hoc basis as specific issues arose.

In total, 14 control orders are currently in force, eight of which are in respect of British citizens. Four of the individuals live in the Metropolitan Police Service area with the rest living within other police force areas.

During this reporting period, 47 modifications of control order obligations were made. Fifteen requests to modify a non-derogating control order obligation were refused. A right of appeal exists in section 10(1) and (3) of the 2005 Act against decisions by the Secretary of State to modify an obligation imposed by a non-derogating control order, without consent, and to refuse a request by a controlled person to modify any such obligation. Appeals have been made in respect of two modification requests that were refused. One modification appeal made by a controlled individual was heard on 25 September 2007 and it was dismissed by the High Court. The other modification appeal has not yet been heard.

There have been no prosecutions of controlled persons for breaches completed during this reporting period. An individual who is not subject to a control order was, however, found guilty on 10 September 2007 of assisting an individual to breach his control order.

Judgments relating to a number of control orders were handed down by the House of Lords on 31 October 2007. The House of Lords had heard the cases of *JJ and others*, *MB*, *AF* and *E* in July and considered both articles 5 (Right to Liberty) and 6 (Right to a Fair Trial) of the European Convention on Human Rights (ECHR). In relation to *E*, the House of Lords also considered the extent, if any, of the Home Secretary's duties under section 8 of the 2005 Act.

The House of Lords upheld the control orders regime and the effect of the judgment is that no existing control orders need to be weakened. Furthermore, their Lordships did not find that the review process in the cases before them had necessarily been unfair.

In relation to article 5, the House of Lords agreed unanimously that control orders with curfews of up to 14 hours did not amount to a deprivation of liberty under article 5. It was held by a 3:2 majority that control orders with 18-hour curfews do amount to a breach of article 5. The Home Secretary is disappointed that the House of Lords found against control orders containing 18-hour curfews which she feels are necessary, in certain circumstances, to protect national security. The Home Secretary believes that the ruling does, however, allow us to impose curfews of up to 16 hours.

In relation to article 6 the House of Lords unanimously held that a non-derogating control order does not amount to a criminal charge. It was further held by a majority of 4:1 that procedures for the courts to review non-derogating control orders—in particular the procedures for withholding closed material—do not inevitably amount to a breach of the civil limb of article 6. It will now be for the High Court to review the cases of *AF* and *MB* in light of their Lordships' decision and determine whether they are article 6 compliant.

In the case of *E*, the House of Lords upheld the Home Secretary's arguments that it is not a pre-condition to the making of a control order that that she must consult with the chief of the police force about whether there is evidence available that could realistically be used to prosecute the person for a terrorism-related offence, and that there must be an absence of a reasonable prospect of prosecution for such an offence. They found that the duty to consult with the police with regard to prosecution would only lead to the control order being quashed in exceptional cases.

There have been no substantive reviews during this quarter, since the section 3(10) review for *GG & NN*, which commenced on 9 November 2007, and was adjourned on 12 November 2007.

## Offensive Weapons

**The Parliamentary Under-Secretary of State for the Home Department (Mr. Vernon Coaker):** The Home Office has today published a summary of responses to the consultation paper, "Banning Offensive Weapons", which sought views on further measures to restrict the supply of weapons which are being used in violent crime.

The Government's primary concern is public safety. Ministers have concluded from the consultation that banning the sale, hire and import of Samurai swords is necessary better to protect local communities, and will make an important contribution to our wider strategy to tackle violent crime.

The Government will now proceed with seeking to add Samurai swords to the Criminal Justice Act (Offensive Weapons) Order 1988 through the appropriate parliamentary procedures.

In reaching a conclusion to proceed with banning these weapons we have taken into account both responses to the consultation paper and the views expressed in a larger amount of correspondence which we have received since we first raised the possibility of amending the Offensive Weapons Order. We will seek to protect the legitimate use of Samurai swords by certain groups through enforceable exemptions and defences.

Copies of the consultation document are available in the Library of the House and on the Home Office website at: www.homeoffice.gov.uk

## Terrorism Act 2000

**The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty):** I wish to inform the House of a recent error in processing an application for section 44 Stop and Search powers under the Terrorism Act 2000.

The application by Sussex police, dated 3 September 2007, did not follow the recognised procedure. Forces submit applications to the National Joint Unit (NJU) at the Metropolitan Police Service (MPS) which are then sent to the Home Office for ministerial authorisation. This must occur within 48 hours of the request being signed by an officer of assistant chief constable or above (Commander in the MPS) in the relevant force. In this case, due primarily to a process failure, the application was not passed to the Home

Office for ministerial authorisation but the force continued to use the powers for the period up to 25 September when the next authorisation was submitted to the NJU. Sussex police has confirmed that 259 stops and searches were carried out at Gatwick airport during the unauthorised period. This relates to the period between the previous authorisation expiring and the next one being signed by the force.

This error was identified on 25 September 2007, when an application for section 44 powers was received by the Home Office making reference to the previous authorisation for Sussex police. I met officials at the Home Office on 27 September to discuss the matter. Officials were in contact with both the then chief constable of Sussex police and the NJU to establish where and how the failure took place, and to put in place more robust systems to ensure that there was no repeat of this error. On 25 October I subsequently wrote to the new chief constable of Sussex police outlining my concern that this error had occurred. I also wrote to Lord Carlile in his role as the independent reviewer of terrorism legislation. Lord Carlile replied on 9 November to indicate that he would be recording this incident in his annual review, which I expect to be published in Spring 2008. A note from ACPO (TAM) (Association of Chief Police Officers - Terrorism and Allied Matters) was disseminated to all forces on 14 November outlining the more robust section 44 process.

No arrests occurred as a result of these stop-and-searches; however, Sussex police will shortly be writing to all of the individuals concerned to apologise. Since this error came to light, it has been brought to my attention that this is not the first time that Sussex police have used these powers without proper authorisation. Regrettably, a similar incident occurred in June 2003. All steps have now been taken to ensure, with the NJU, that such regrettable and serious omissions do not occur again.

In light of this, Home Office officials are reviewing previous section 44 authorisations to identify any other occasions where the power has been used in error. Officials will keep Lord Carlile and me informed and I will report back to the House as appropriate.

## INTERNATIONAL DEVELOPMENT

### GAERC (Economic Parntership Agreements)

**The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas):** I represented the UK for the session on Economic Partnership Agreements (EPAs) at the General Affairs and External Relations Council in Brussels on 10 December 2007. The Foreign Secretary attended all other sessions for the UK.

Trade Commissioner Peter Mandelson and Development Commissioner Louis Michel represented the European Commission and gave an update on negotiations and proposed that the Council approve the Regulation 2007 0205/ACC. The Commission confirmed that to date 17 countries had signed a goods-only Economic Partnership Agreement and reported that there is a good possibility that Ghana, Cameroon, Gabon, Namibia and the Caribbean will sign agreements in the coming week. The Commission believes that the recent progress was due to their flexibility and generosity and the approaching external deadline of 31 December 2006 when the Cotonou agreement, which governs current trade relations between the ACP and EU, will expire.

Our objective at the Council was to continue to maximise the development benefits of EPAs, in particular to protect the duty and quota-free access from 1 January and the liberalised rules of origin offer from amendment, whilst also ensuring that no ACP country has worse market access from 1 January. The UK made the first intervention and called on the Council and Commission to ensure that poor countries do not face tariff increases as of 1 January 2007. The UK also urged negotiations to continue over the coming days and for further discussions to take place at a Council meeting next week. We also welcomed President Barroso's recent commitment to review progress on EPAs in the new year and the Commission's unwillingness to adversely amend the duty and quota-free access and rules of origin offers.

This stance was supported by the Netherlands who also argued for a debate at future Councils before the end of the year. Ireland took a similar view. However, a series of other member states noted their support for immediate approval of the regulation as of 10 December. The presidency concluded therefore that the Council adopted the regulation on EPAs, which formalises the market access offer of 100 per cent. duty-free quota-free market access to the EU with improved rules of origin for African, Caribbean and Pacific countries that have signed WTO-compatible agreements.

The UK, along with the Netherlands, Denmark and Ireland therefore made a declaration setting out our continued concern for non-LDCs who have not yet initialled an agreement and urged the Commission to show maximum flexibility over the coming days in order to secure agreement with the remaining non-LDCs in particular.

The Commission stated they will continue negotiations with other countries and that those ACP countries which sign agreements before the end of 2007 will also benefit from this improved access to the EU from 1 January. The Commission will report back to the General Affairs and External Relations Council in January 2008.

## JUSTICE

### Bereavement Damages

**The Parliamentary Under-Secretary of State for Justice (Bridget Prentice):** In their consultation paper on the law on damages which was published on 4 May 2007, the Government announced their intention to increase the level of bereavement damages awarded under section 1A of the Fatal Accidents Act 1976 every three years for inflation in line with the retail prices index (rounded to the nearest £100), and that the first such increase would be made later in the year. Bereavement damages were last increased from £7,500 to £10,000 on 1 April 2002.

To give effect to this, my right hon. Friend the Secretary of State for Justice and Lord Chancellor has laid before Parliament an order increasing the level of bereavement damages awarded under section 1A of the Fatal Accidents Act from £10,000 to £11,800. An order has also been laid under Article 3A(5) of the Fatal Accidents (Northern Ireland) Order 1977 to make the same increase in the level of the award in Northern Ireland. The orders will take effect from 1 January 2008, and the increased level of the award will apply to all causes of action that accrue on or after that date.

### Homicide

**The Parliamentary Under-Secretary of State for Justice (Maria Eagle):** I am today announcing the next stage in the review of the law of homicide.

In July 2005, the Law Commission was asked by the Government to review the law of murder in England and Wales. In December 2006, it published its report on "Murder, Manslaughter and Infanticide" with wide-ranging recommendations for changes to the law. That report was intended as the first stage in the review of the law, with the Government undertaking the second stage.

It is that second stage which begins today. The Government have considered the Law Commission's recommendations carefully and have decided to proceed on a step-by-step basis, looking first at the recommendations for:

reformed partial defences to murder of diminished responsibility and provocation (including the use of excessive force in self-defence);

reformed offences of complicity in relation to homicide; and

improved procedures for dealing with infanticide.

The Government believe it is right to deal with these crucial elements of the existing law before moving on to consider the wider structural proposals from the Law Commission.

We want the review to be open and transparent. Over the next few months we will be talking to key stakeholders, both inside and outside the criminal justice system, to seek their views on the Law Commission's recommendations in these areas. We will publish draft clauses for consultation next summer prior to introducing any necessary legislation.

## CABINET OFFICE

### Grassroots Grants (Lead National Partner)

**The Parliamentary Secretary, Cabinet Office (Phil Hope):** I am announcing today that the Community Development Foundation will be the lead national partner for Grassroots Grants, the Government's programme to help develop and sustain the grant funding available to small community organisations in England.

The final report of the review of the future role of the third sector in social and economic regeneration (Cmnd 7189) announced that, in addition to the £80 million we will be making available for small grants to the community sector over the CSR period, we would also make £50 million available in capital grants to local independent foundations to invest in endowment funds. These capital grants will generate income to support frontline organisations in the future and lever in additional money from the private sector on a matched basis. The allocation of £130 million underlines the high importance that the Government attach to this strategy.

This combined programme will be called Grassroots Grants. It will be targeted at improving the grant funding available to the smallest community organisations which play a vital role in building strong and active communities. It will be delivered locally by independent local funders with good knowledge of their local communities and the ability to reach out and engage both small community organisations and donors.

The Community Development Foundation as lead national partner will be responsible for running a selection process to identify and appoint the local funders. It will also manage the programme once the local funders have been appointed. CDF has considerable understanding of the community sector in England and experience of managing grant programmes. The appointment is being made under a framework agreement for the provision of grant administration services which the Government have with CDF and other service providers.

CDF will open the application process to select local funders in January and applications will be invited by April. Appointments of local funders will be made in June. Full details of the application process and the programme will be announced in January.

# Written Ministerial Statements

*Thursday 13 December 2007*

## TREASURY

### Finance Bill

**The Financial Secretary to the Treasury (Jane Kennedy):** The Government took action against two types of avoidance schemes involving the leasing of plant or machinery at PBR 2007. Further disclosures and other evidence indicates that two further types of avoidance schemes involving the leasing of plant or machinery have placed, and could continue to place, substantial sums of tax at risk.

Tax avoidance is unfair on the majority of taxpayers and can undermine the funding of public services. The Government are determined to take appropriate and prompt action to counter tax avoidance. Therefore the Government propose to introduce appropriate legislation in the 2008 Finance Bill that will be effective from today, 13 December 2007.

A draft of the material that will be contained in Finance Bill 2008, together with draft explanatory notes and background material, will be published today on HMRC's website at: http://www.hmrc.gov.uk. HMRC's technical note giving the relevant background to this measure has been deposited in the Libraries of both Houses and is also accessible on HMRC's website.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Companies Act

**The Minister for Competitiveness (Mr. Stephen Timms):** I announced to the House on 7 November 2007 that the Government had decided to delay final implementation of the Companies Act 2006 until October 2009, in the light of advice from the Registrar of Companies that he can not be absolutely confident of implementing the necessary changes to Companies House systems and processes by October 2008. I also explained that we would consult key stakeholders about the commencement date for provisions due to be commenced in October 2008 which do not necessitate changes to Companies House systems and processes.

In the light of our discussions and meetings with key stakeholders, the Government have decided that the following provisions, listed in my earlier statement, should be commenced with effect from 1 October 2008:

sections 69 to 74: objection to company names;

sections 82 to 85: trading disclosures;

sections 155 to 159: provisions relating to corporate directors and under-age directors;

sections 175 to 177: general duties of directors in respect of conflicts of interest;

sections 182 to 187: declaration by a director of an interest in an existing transaction or arrangement;

repeal of the restrictions under the Companies Act 1985 on financial assistance for acquisition of shares in private companies, including the "whitewash" procedure.

In view of the strength of business representations and of further advice from the Registrar of Companies, the Government have decided in addition to commence with effect from 1 October 2008:

the new procedure for private companies to make capital reductions supported by a solvency statement instead of by a court order.

Stakeholders highlighted the major benefit to business of implementation in 2008 of this new procedure. The Government had originally not proposed this, because it would require some changes to Companies House systems and processes. We have looked at this again in the light of the points made by business, and I am pleased to say that the Registrar of Companies believes that the necessary changes can be made by October 2008.

There are also two sets of provisions which we have decided to commence with effect from 6 April 2008:

sections 121 and 128 (register of members: removal of entries relating to former members);

sections 811 (4), 812 and 814: inspection of register of interests in a company's shares.

I aim to make before Christmas a commencement order in respect of all provisions to be commenced in 2008, other than those relating to capital reduction supported by a solvency statement and the removal of special provisions about accounts and audit for charitable companies. The capital reduction provisions (including section 654 on distributions of reserves arising from a capital reduction) will be commenced through a separate commencement order to be laid in draft in 2008. There will also be a separate commencement order on the audit of small charitable companies.

### North-West RDA

**The Minister for Competitiveness (Mr. Stephen Timms):** I have decided to appoint the new board members listed below:

Professor John Brooks
Peter Allen
Susan Williams
Robert Hough
Cllr Anthony McDermott

All the new appointments will be for a period of three years.

The appointments began on 14 December 2007 and will expire on 13 December 2010.

I have placed further details of the appointments in the Library of both Houses. They were all made in accordance with the code of practice of the Commissioner for Public Appointments.

BIOGRAPHIES

*Peter Allen MBE* is a Cumbrian hill farmer based near Penrith.

As Chair of the Sheepmeat and Goatmeat Advisory Committee to the EU, he has been involved in reforming and implementing the European sheep regime. Peter for many years was actively involved with the NFU, representing farming and rural issues locally, regionally and nationally. With many others he worked with aspects of industry and Government to control and eradicate foot and mouth disease in 2000-02, and he was the only farmer member of the Royal Society Inquiry into Infectious Diseases of Animals 2001-02. He is currently Chair of the NFU, Mutual Northern Area board, Chair of RUMA—(UK body promoting the Responsible Use of Medicines in Agriculture), and a board member of Natural England and the North West Regional Environment Protection Advisory Committee.

He holds no other ministerial appointments and has not taken part in any political activities in the last three years.

*John Brooks* is the vice-chancellor of Manchester Metropolitan University. In his previous job at the university of Wolverhampton he chaired a regeneration project after the closure of Rover, which involved infrastructure development and small business support.

In 1992 to '98 he helped to create Bodycote-SHU Coatings, a company that offers tool manufacturers the opportunity to use physical vapour deposition coating machines. He chairs the board of the Equality Challenge Unit, and is on the Boards of Universities UK (and their long term strategy group), the Oxford Road Corridor Partnership and the Universities & Colleges Employers Association.

He holds no other ministerial appointments and has not been involved in any political activities in the last three years.

*Robert Hough* was Deputy Chairman and latterly executive director of Peel Holdings for over 13 years and a non-executive director of a number of other companies, including Cheshire Building Society, Alfred McAlpine plc and Provident Financial plc. Peel's businesses include airports, ports, land use, planning, development, waste, energy and the environment.

A board member of the university of Manchester and a member of the North West Regional Assembly executive board, he also chairs New East Manchester Limited (one of the first urban regeneration companies to be established) and is a member and former Chair of the North West Business Leadership team.

He lives in Bowdon in Cheshire.

He holds no other ministerial appointments and has not taken part in any political activities in the last three years.

*Tony McDermott MBE* is a resident of Widnes and leader of the Council. He was educated at St. Edward's college Liverpool, and Manchester University. He taught in Lancashire and Liverpool for 34 years.

He is a board member of the Local Government Association Improvement and Development Agency, the Mersey Partnership, and the North West Improvement Network. Chair of the North West Regional Transport Group, leader of Halton borough council and former Chair of the North West Regional Assembly.

He is a member of the Urban Commission Executive and the Northern Way Transport Compact.

He is a supporter of Asbestos Victims Support Group and a board member of the Five Boroughs NHS Mental Health trust. He holds no other ministerial appointments.

*Susan Williams* was a nutritionist for the charity Action and Research into Multiple Sclerosis until 2001. She became Conservative leader of Trafford borough council in 2004.

Member of the Manchester Enterprises board, the Association of Greater Manchester Authorities Economic Development board and the Trafford Local Strategic Partnership board.

She has acted as a political agent for the Conservative party. In 2001 she stood for Parliament in Wythenshawe and Sale East, and in 2006 she was selected as the Parliamentary candidate for Bolton West.

She lives in Altrincham, in Cheshire.

She holds no other ministerial appointments.

## COMMUNITIES AND LOCAL GOVERNMENT

### Central-Local Concordat

**The Secretary of State for Communities and Local Government (Hazel Blears):** I am informing the House that I have signed the Central-Local Concordat on behalf of Her Majesty's Government. The Concordat was co-signed by Sir Simon Milton, Chair of the Local Government Association.

This historic new written agreement establishes for the first time a framework of principles for how central and local government work together to serve the public. Central Government departments and councils have committed to uphold these principles.

The Concordat meets a key commitment set out in the Governance of Britain Green Paper earlier this year in delivering a fundamental transformation in the way we govern. It sets out the rights and responsibilities of central and local government.

It is explicit that powers are best exercised at the lowest effective and practical level, enshrining the Government's commitment to decentralisation and devolution of power to councils, communities and citizens.

In addition it sets out key priorities which central and local government will deliver together, including tackling antisocial behaviour and crime, delivering good local services, more opportunities for young people, and promoting enterprise. It is an important step towards building local communities which enjoy economic prosperity, safe and stable streets and estates, a clean environment, and opportunities for all citizens to shape their own futures.

A copy of the Concordat has been deposited in the Libraries of both Houses.

### Local Government Pensions

**The Minister for Local Government (John Healey):** The Government's commitment to provide decent final salary pensions for those employed by local authorities and other organisations associated with local government is matched by the need to ensure that members' pensions are secure, affordable and viable, and fair to taxpayers who guarantee their security.

The Government see it as critical to maintain stability of costs in the scheme over the years ahead, particularly in the new-look Local Government Pension Scheme (LGPS) in England and Wales from 1 April 2008. The intention remains to ensure that no additional costs are imposed on taxpayers or employers. This objective is central to any considerations involving amendments to the scheme's regulatory framework.

A statutory consultation with all scheme stakeholders in England and Wales on proposals to extend the current levels of protection in the scheme for older employees began on 5 July 2007 and ended on 1 October 2007. The protections were originally introduced by the local Government Pension Scheme (Amendment) and (Amendment No. 2) Regulations 2006 and took effect from 1 October 2006. The draft proposals would involve amending the regulations to provide a full, rather than a tapered, protection for the period 2016 to 2020, together with appropriate offsetting savings for the estimated cost of this benefit improvement.

To ensure the continuing solvency of the scheme and to meet the Government's standing policy on ensuring no adverse effects on taxpayers, the costs of implementing any scheme amendments to improve the level of protections would need to be provided from within the scheme.

The costings for the additional rule of 85 protections were provided by the Government Actuary's Department (GAD), based on the data provided for the 2004 LGPS actuarial valuation exercise. GAD estimated that the capital cost of removing the current tapered protections between 2016 and 2020 was some £0.35 billion—£0.4 billion. In payroll terms, this equates to about 0.1 per cent. or some £25 million annually for 20 years.

If no agreed means of providing the necessary resources to extend the proposed level of protection emerge from the consultation, then it will be necessary to retain the present level of protection.

The responses received to the recent consultation exercise have been considered carefully and analysed against agreed criteria regarding affordability and legality, as set out in the Department's consultation letter of 5 July.

The consultation has demonstrated strong views from all stakeholders in terms both of the level of protections and affordability. I wish, however, to be clear about the most recent position in the scheme regarding costs, the likely numbers of potentially affected older scheme members, and the range of other cost-influencing variables.

In the light of these representations, I have taken no final decision on the outcome of the statutory consultation exercise and, in view of the data from the 2007 LGPS actuarial valuations which are due to become available early in the new year, I have decided to ask the Local Government Pension Scheme Policy Review Group, with the assistance of GAD, to undertake a fresh costings exercise using emerging data from the 2007 LGPS actuarial valuations. This will allow a new assessment of the current cost position and also provide an opportunity for all the interested stakeholders to engage fully in the review process.

The exercise for updating of costs is expected to be completed early in the new year. A final decision on the proposed amendment and within the policy parameters of affordability and legality will then be made, taking full account of any further representations which may be made by stakeholders.

## DEFENCE

### Defence Intelligence Staff Estate

**The Minister for the Armed Forces (Mr. Bob Ainsworth):** This statement follows on from that made by my right hon. Friend the Secretary of State for Defence on 3 July 2006, (*Official Report*, column 28WS) which covered the intent to close RAF Brampton. Once DE&S units have vacated the site, the Programme to Rationalise and Integrate the Defence Intelligence Staff (DIS) Estate (PRIDE) will relocate those remaining to RAF Wyton. The programme's aim is to collocate a number of Defence Intelligence Staff (DIS) departments to one state-of-the-art, purpose-built facility at RAF Wyton. New service accommodation will be constructed at RAF Wyton in order to accommodate those moving to the base.

In order to maximise the benefits of DIS co-location at RAF Wyton, PRIDE increment two will move the Joint Aeronautical and Geospatial Organisation headquarters and elements of 42 Engineer Regiment (Geographic) currently based at Hermitage, West Berkshire, to join the Intelligence Collection group headquarters and Joint Air Reconnaissance Intelligence Centre at RAF Wyton. The Royal School of Military Survey, currently at Hermitage, will assimilate with other training elements at the DIS site at Chicksands. Our intention is that these moves will lead to the disposal of the Hermitage site, subject to continued value for money being proven.

The move will directly result in the loss of approximately 30 posts currently based at Hermitage, mostly in the support roles. MOD will work to minimise the impact to those affected by providing all the help it can, relocating personnel and avoiding compulsory redundancies where possible.

### Nimrod Review

**The Secretary of State for Defence (Des Browne):** I told the House on 4 December that, following the board of inquiry's report about the loss of Nimrod XV230, I would establish an independent review by a senior Queen's counsel into a range of broader issues which were outside the scope of the BOI's investigation. I am now able to set out the details of that review.

The review will be conducted by Charles Haddon-Cave QC. Mr. Haddon-Cave has wide experience of aviation and safety matters, having been instructed in all the major aviation and marine inquiries in England in the last 20 years. His report will be published in fall, subject to considerations of operational security, together with my response to it.

The terms of reference for the review are as follows:

In the light of the board of inquiry report:

> to examine the arrangements for assuring the airworthiness and safe operation of the Nimrod MR2 in the period from its introduction in 1979 to the accident on 2 September 2006, including hazard analysis, the safety case completed in 2005, maintenance arrangements, and responses to any earlier incidents which might have highlighted the risk and led to corrective action;
>
> to assess where responsibility lies for any failures and what lessons are to be learned;
>
> to assess more broadly the process for compiling safety cases, taking account of best practice in the civilian and military world;
>
> and to make recommendations to the Secretary of State as soon as practicable, if necessary by way of interim reports.

Appropriate technical expertise will be made available to the reviewer. The reviewer will be able to recommend a public inquiry if he considers this necessary.

The review will have the full support of the Ministry of Defence. All relevant papers will be made available and everyone who can assist the review will be instructed to do so. In order to encourage openness, evidence given during the course of the review will not be used in disciplinary proceedings against the individual who gave it unless there is evidence of gross misconduct. The MOD will also provide Mr. Haddon-Cave, at his request, with a secretariat for the review.

BAE Systems and QinetiQ have confirmed that Mr. Haddon-Cave will have their full co-operation. The MOD and the companies are committed to ensuring that the review has available to it all the technical expertise that it will require. I would expect any other companies whose assistance may be required to follow suit.

Mr. Haddon-Cave will ensure that the families are kept informed of the progress of the review.

It is of the utmost importance that an authoritative and independent analysis is conducted of the background circumstances to the loss of Nimrod XV230. The task which Mr. Haddon-Cave has undertaken will be complex but I have asked him to ensure that information that would assist our understanding of this tragic loss is published without undue delay.

### Innovation Strategy

**The Secretary of State for Defence (Des Browne):** The Ministry of Defence (MOD) has today launched its strategy for creating greater innovation within the defence supply chain. The MOD innovation strategy builds on the Defence Industrial Defence Strategy (DIS) published in 2005 as a Defence White Paper (Cm6697). The DIS set out a commitment to achieve a better understanding of the innovation process within the defence supply chain.

The new innovation strategy identifies the main challenges to innovation in delivery of our defence capability. It expresses actions to address these challenges in terms of five distinct pillars. These pillars show our intent to articulate our capability needs better, provide transparency in how we translate these needs and aspirations through to delivery of capability, highlight our commitment to open architectures which will in turn foster insertion of new or improved technology, demonstrate our commitment to new business models that provide incentives for both customers and suppliers to achieve greater innovation and communicate our desire to maintain the pace of MOD's acquisition processes.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Autumn Performance Report

**The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn):** The Department for Environment, Food and Rural Affairs 2007 Autumn Performance report will be published today. The report highlights progress since the publication of the departmental report in May towards the Department's outstanding Public Service Agreement targets. Copies will be placed in the Libraries of both Houses. The report is also available on Defra's website.

### Animal Pathogens

**The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn):** I announced on 7 September that I had asked Sir Bill Callaghan to lead a review of the regulatory framework for handling animal pathogens.

The purpose of the review was to take forward recommendations of the HSE's report on potential breaches of biosecurity at the Pirbright site in 2007 and Professor Spratt's review of the safety of UK facilities handling FMD virus; in particular to consider:

> Any changes needed to clarify and strengthen the regulatory framework for animal pathogens, in the light of that for human pathogens,
>
> Any steps needed to ensure independence and clarity on the separate roles and responsibilities of funders, regulators, customers and the institutions themselves, and
>
> Any steps needed to provide clear lines of accountability, inspection protocols and responses to non-compliance.

Sir Bill Callaghan was assisted in his work by representatives from HSE, HPA , DEFRA, the farming community and Professor George Griffin (Chairman of the Advisory Committee on Dangerous Pathogens). I am very grateful to Sir Bill and his team for the swift and thorough way in which they have completed their task.

I am accepting all of the recommendations set out in the report and I am determined to ensure that DEFRA works quickly with the other Departments and agencies involved to take forward the necessary changes. I set out in more detail below the position in respect of each recommendation.

The regulatory framework for specified animal pathogens was first introduced in 1993, and there have been limited changes since then. The report recognises that there are in fact three overlapping but separate sets of legislation which apply to the handling of human and animal pathogens. This does not reflect the spirit or the substance of Hampton principles and making changes here will also be of benefit to the industry in making the rules that they must work to clearer and more coherent.

I agree with the recommendation that DEFRA should not continue as regulator of laboratories handling animal pathogens because the report finds there was a conflict of interest. This was an area where I was particularly keen to have an independent view, as I felt that this was an issue that needed addressing. I acknowledge the comments that DEFRA's weaknesses as a regulator in this context were as a result of the regulatory system, rather than because of failings on the part of individual inspectors and because of the level of expertise within DEFRA and the resource allocated to this work.

I also note the report's comments that the primary responsibility for managing risks must lie with the top management of any facility where work on dangerous pathogens is carried out. Any regulatory system is only as good as the people being regulated. The regulator's role, whoever that regulator may be, is to provide assurance that the systems in place will deliver the desired objective.

The UK has a very important science base, which has built an enviable international reputation. The research carried out in this country including at Pirbright, plays an important part, not only in supporting our response to disease outbreaks, but also in the international fight against existing and emerging diseases. This position inevitably means that there is a need to handle dangerous pathogens in UK laboratories. The public, farming community and others have a right to expect that all possible measures will be taken to protect them and the environment. That risk can never be zero, but as the report points out, the regulatory outcome we must seek to achieve is one that provides an assurance that the risk of accidental release is as close to zero as possible.

I am depositing copies of their report in the Libraries of both Houses today.

The report is also available at:

http://www.defra.gov.uk/animalh/diseases/fmd/investigations/bill-callaghan.htm

I will keep the House informed of developments.

| *Recommendation* | *Government Response* |
|---|---|
| We recommend that consideration is given to extending the duty to co-operate in any new regulatory framework for handling dangerous pathogens. | Accept<br>The requirement for a duty to co-operate, between different occupiers on the same site, will be extended to all sites, including those which use animal pathogens, under the proposed single regulatory framework (stage 3). |
| We recommend that DEFRA, DH, HSE and other interested parties work together to develop a single regulatory framework to govern work with human and animal pathogens | Accept<br>DEFRA agree that this is in keeping with the Hampton principles of inspection and enforcement, and is in line with Government policy to simplify regulation. Work has started to analyse how this will be taken forward. |
| We recommend that DEFRA, DH, HSE and other interested parties work towards the introduction of cost recovery in any new regulatory framework. | Accept<br>Government policy is to recover costs for services wherever possible. DEFRA will work with DH, HSE and other interested parties to recover costs in this area. |
| We recommend that risk assessment be a key element of the regulatory framework for handling animal pathogens, as it currently is for human pathogens and genetically modified organisms | Accept<br>The containment level currently sets the main risk level. Under phase 3 of the proposed approach to the changes, Risk Assessment will be the fundamental principle that governs the new single regulatory framework. We acknowledge that it puts an onus on the person applying to do work to make a full assessment of the risks and present to the regulator any mitigation measures. This would also provide flexibility to reconsider the risk assessment as new evidence or other factors emerge. |
| We recommend that ACDP be tasked with formulating a common set of containment measures to apply to both animal and human pathogens. | Accept<br>DEFRA agree that there should be one set of guidance as the overriding priority is containment of dangerous pathogens, whether animal or human. |
| We recommend that the regulator under the single regulatory framework be given discretion to agree with operators departures from the containment measures drawn up by ACDP, on the basis of risk assessments. | Accept<br>We acknowledge that it is not always appropriate for all measures that apply to work with human pathogens to apply to those sites solely working with animal pathogens. |
| We recommend that there be a single independent regulator for both animal and human pathogens, with the resources, expertise and legal powers to carry out its function effectively. | Accept<br>DEFRA agree that this will give greater clarity, and better regulation and enforcement. |
| We recommend that HSE become the single regulatory body for both animal and human pathogens. | Accept<br>Although there are other Agencies which could be considered, DEFRA believes that HSE has the expertise and critical mass and since it works in the related field, is the most appropriate body to take this on.<br>HSE have accepted in principle, and are in discussions with DEFRA. |
| We recommend a phased approach to these changes. | Accept<br>DEFRA agrees with the principle of the phased approach. |

| *Recommendation* | *Government Response* |
|---|---|
| We envisage that the regulatory role will ultimately pass to HSE. In the interim we recommend that inspections under SAPO continue to be conducted by DEFRA, but with support from HSE. We recommend that DEFRA enter into immediate discussions with HSE to formalise HSE's support of SAPO inspections by 1 January 2008. | Accept<br>DEFRA are already conducting joint inspections with HSE and are in discussions with HSE about the proposed changes. |
| We recommend that the ACDP is asked to begin work now on drawing up guidance on a single set of containment requirements for human and animal pathogens, to complement the single regulatory framework when it is introduced. | Accept<br>We will ask ACDP to do this. |
| We recommend that changes be made to the SAPO, by April 2008, to designate HSE as the inspection and enforcement body. | Accept<br>DEFRA will discuss with HSE and aim to make changes to SAPO as rapidly as possible, in line with best practice for introducing new statutory instruments. We have already started considering legal issues. DEFRA and HSE lawyers are working together to effect these changes within the shortest possible legislative timetable. |
| We recommend that DEFRA, DH, HSE and other interested parties begin work urgently with a view to bringing in the single regulatory framework before the end of 2008. | Accept<br>HSE will lead in putting this in place, working with DEFRA, DH, and other parties. |

## FOREIGN AND COMMONWEALTH OFFICE

### The British Council in Russia

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** The Russian authorities announced yesterday that they planned to shut down the British Council's offices in St Petersburg and Yekaterinburg on 1 January 2008.

Russia's threatened actions are illegal. The British Council's presence in Russia is entirely consistent with international law, including the Vienna Conventions. Its presence and activities are also specifically sanctioned by a 1994 UK/Russia Agreement on Co-operation in Education, Science and Culture, signed by Russia, and which binds both the UK and Russia. The British Council is the designated agent of the British Government for the implementation of the agreement. For the past nine years, the UK has been keen to conclude a further Cultural Centres Agreement with Russia. Pending such an agreement being reached, the 1994 Agreement remains in force.

For Russia to carry out its threat would therefore constitute a serious attack against the legitimate cultural agent of the British Government, would show a disregard for the rule of law and would only damage Russia's reputation around the world.

Damage will also be done to EU-Russia cultural co-operation. We are discussing with partners (including the EU and the G7), the implications of Russia's threat. I am grateful to the European Commission for expressing its concern to Russia about the situation facing the British Council.

Overall, Russia's threats set back bilateral and multilateral efforts to improve cultural links, severely affect large numbers of Russians who benefit from the British Council's presence, and damage Russia's reputation around the world. We are urging the Russian authorities to reconsider. At the same time we are working closely with the British Council to ensure the welfare of their staff.

I will keep the House informed of developments.

### Guantanamo Bay

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** The House will be aware that, with the agreement of my right hon. Friend the Home Secretary, I wrote to US Secretary of State Condoleezza Rice on 7 August to request the release from Guantanamo Bay and return to the UK of five men who, while not UK Nationals, had been legally resident in the UK prior to their detention. These are the only individuals now at Guantanamo who have been identified as having been given leave to enter or remain in the UK under the Immigration Acts.

My right hon. Friend the Home Secretary and I decided to seek the release of the five in light of work by the US Government to reduce the number of those detained at Guantanamo and our wish to offer practical and concrete support to those efforts. In reaching this decision we gave full consideration to the need to maintain national security and the Government's overriding responsibilities in this regard.

Detailed and constructive discussions have since taken place between the British and US Governments, considering the circumstances of each individual case. The US agreed on 10 December that three of the five men—Mr. Jamil El Banna, Mr. Omar Deghayes and Mr. Abdennour Sameur—will be returned to the UK shortly as soon as the practical arrangements can be made. The Foreign and Commonwealth Office has been in contact with the families and legal representatives of Mr. El Banna, Mr. Deghayes and Mr. Sameur to let them know of this decision.

I should add that the decision to make this request does not constitute a commitment that they may remain permanently in the UK. Their immigration status will be reviewed following their return and the same security considerations will apply to them as would apply to any other foreign national in this country. As always, all appropriate steps will be taken to protect national security.

The US Government has expressed significant additional security concerns in regard to the cases of the other two men covered by the original request—Mr. Shaker Aamer and Mr. Binyam Mohammed. They have so far declined the request for the release and return of Mr. Aamer and we are no longer in active discussions regarding his transfer to the UK. We are still discussing with the US the case of Mr. Mohammed although again the US Government is not inclined to agree to his release and return.

Moving ahead, we will continue to discuss with the US Government how best we can work with them to see the closure of the Guantanamo Bay detention facility. We will continue to encourage our allies to consider taking steps similar to our own to reduce the numbers of those detained at Guantanamo Bay, such as accepting the transfer of eligible detainees, thereby hastening the closure of the detention facility.

### Russia (Conventional Forces in Europe Treaty)

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** The Government regret the unilateral decision by the Russian Federation to cease compliance with its obligations under the Conventional Forces in Europe Treaty (CPE) from 12 December. Russia has sought to explain this decision principally on the grounds that members of the North Atlantic Treaty Organisation (NATO) have not ratified the adapted version of the CFE treaty. Together with our NATO allies, the United Kingdom has made a public statement (http://www.nato.int/docu/pr/2007/p07-139e.html).

This Russian decision is unjustified. The United Kingdom, along with NATO allies, has made clear our commitment to ratify as quickly as possible the adaptation of the CFE treaty, which would provide the basis for addressing most of Russia's concerns about the current CFE regime. But it remains right that Russia should in parallel honour its own commitments, made at the 1999 Organisation for Security and Co-operation in Europe summit in Istanbul, to regularise the status of its forces and equipment in Georgia and Moldova. The principle that host nation consent is required for the stationing of foreign forces is central to effective security and stability in Europe. NATO has engaged intensively with the Russian Federation to seek ways of overcoming differences over how to ensure both these sets of commitments are delivered.

The Government also consider that the Russian Federation's "suspension" of their obligations cannot be justified either under the provisions of the CFE Treaty or on the grounds set out in the Vienna Convention on the Law of Treaties. Accordingly, on 11 December, we sent a Note Verbale, via the Treaty Depository, to all CFE States Parties, making this clear.

We judge, however, that European security is not fundamentally or immediately threatened by this Russian action. In the short term, we understand Russia will stop exchanging data or sending notifications on the whereabouts and composition of its conventional forces, and will refuse to allow verification inspections. However, if Russia were to persist in this course of action, in the longer-term that would erode the transparency and predictability which the CFE regime contributes to overall stability in Europe.

To help maintain that stability, the United Kingdom will until further notice, along with its NATO allies, continue to honour all our obligations under the CFE Treaty, including towards the Russian Federation. We will assess the impact of any non-compliance by the Russian Federation, and consult with NATO allies on a further joint response. With NATO allies, we will also continue to promote engagement with the Russian Federation with a view to reaching an agreed way forward.

## HEALTH

### Employment, Social Policy, Health and Consumer Affairs Council

**The Minister of State, Department of Health (Dawn Primarolo):** The Employment, Social Policy, Health and Consumer Affairs Council was held on 5 and 6 December 2007. The health part was held on the 6 December. I represented the UK.

The Council adopted conclusions on the Portuguese presidency theme of health and migration in the European Union. In a policy debate, Ministers discussed the challenges and opportunities in health presented by migration.

Ministers welcomed the Commission's EU health strategy, on which council conclusions were adopted. There was agreement that the EU strategy needed to complement national strategies, and that sudsidiarity must be respected. I highlighted the importance of tackling health inequalities.

Conclusions were also adopted on organ donation and transplantation and on nutrition and obesity responding to Commission communications on these subjects, and the presidency presented a progress report highlighting recent activities on the fight against HIV/AIDS.

Over lunch there was an informal discussion on health services, on which Commission proposals are expected shortly. Ministers urged caution: it was important to avoid creating inequalities through a system that allowed a few to shop around for care. The proposals should not go further than the ECJ jurisprudence, and member states should be able to use prior authorisation systems for hospital care.

Slovenia outlined their priorities in health for the forthcoming Slovene presidency. Cancer would be their main priority. They would also be taking forward work on anti-microbial resistance, and highlighting the implementation of policies to tackle alcohol-related harm and co-operation in the area of pricing and reimbursement of pharmaceuticals.

### PCTs and the NHS Operating Framework

**The Secretary of State for Health (Alan Johnson):** I am pleased to announce today the 2008-09 revenue allocations for primary care trusts (PCTs) and the NHS Operating Framework for 2008-09.

All primary care trusts will receive a cash increase of 5.5 per cent., a total cash increase of £3.8 billion, bringing the total revenue allocations to £74 billion. In addition, £1.7 billion of non-recurrent budgets are also being issued, meaning that 82 per cent. of the total NHS revenue budget will be issued direct to primary care trusts compared to 72 per cent. in 1996-97. Overall, we have trebled investment in the NHS from £35 billion to £110 billion by 2010-11.

I am keen to continue to raise the transparency and accountability of the NHS and, consequently, I have written individually to all hon. Members in England detailing their relevant PCTs' allocations for 2008-09 and have noted how their current allocations compare to those for 2007-08. I have also included with this written statement a table detailing 2008-09 PCT allocations.

As I announced on 22 November, the revenue allocations will be for 2008-09 only, as the Advisory Committee on Resource Allocation (ACRA) has asked for additional time to finish their review of the current resource allocation formula. ACRA will complete their work shortly and we intend to announce allocations for 2009-10 and 2010-11 by summer 2008.

As the House will recognise, the NHS has made substantial progress over the past 10 years on investment and reform. Patients wait no more than four hours in accident and emergency, the health service has more doctors and nurses than ever before; and we have witnessed the largest hospital building programme since the NHS was founded.

As the NHS enters its 60th year, we must continue to drive forward with ever-greater determination, and so for the year ahead, the NHS has five principal priorities:

first, improving standards of cleanliness and tackling healthcare-associated infections;

secondly, improving access to care through the achievement of the 18-week referral to treatment pledge and improving access to GP services, including at evenings and weekends;

thirdly, keeping adults and children well, improving their health and reducing inequalities, by focusing on improving care for cancer and stroke, and paying particular attention to children's health, particularly in the most deprived areas of the country;

fourthly, improving patient experience, staff satisfaction and engagement; and

fifthly, preparing to respond in a state of emergency, such as an outbreak of pandemic influenza.

In addition to the national priorities, PCTs need to continue to improve at understanding the particular needs of their local populations and take concrete steps to address them. In order to meet their own local needs, PCTs will need to work in step with local government through local area agreements that focus on improving health and well-being.

Local priorities will build on evidence about current PCT performance and regional variation, and also plan for the future by incorporating work being done in local service reviews. Whether it is reducing mixed sex accommodation, personalising services for patients with learning disabilities or responding to the Healthcare Commission's recommendations, local services need to respond to local needs.

Over the last 18 months, the NHS has continued to drive up the quality of care delivered to patients. This has been made possible by two significant achievements:

bringing the NHS to financial balance and going on to deliver a surplus; and

embedding patient choice, practice based commissioning, payment by results and foundation trusts, which all lead to better patient care.

In order to support this year's NHS Operating Framework, we must continue to develop the necessary structures and leadership in order to enable world class commissioning.

The NHS must meet the needs of its patients and their families, the expectations of the public and the aspirations of its staff. At all times, the NHS must be safe, effective, personalised and fair. The more responsive and personalised the NHS gets, the better the care it will provide and the more confidence the health service will inspire.

## HOME DEPARTMENT

### Animal (Scientific Procedures) Inspectorate

**The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier):** I am pleased to inform the House that I have today placed in the Library the annual report of the Animals (Scientific Procedures) Inspectorate for the year 2006. This is the third annual report published by the Inspectorate.

Publication of the report honours a commitment given by the Government in response to a recommendation of the House of Lords Select Committee on Animals in Scientific Procedures in July 2002 that more information should be made available about the work of inspectorate.

The inspectorate's third annual report published today explains what the inspectors do and how they do it, and provides details of the inspectorate's staffing and structure, ways of working, professional background and skills, and training and development.

The report explains the inspectorate's role in assessing, and advising Home Office Ministers and officials on, applications for personal and project licences and certificates of designation under the Animals (Scientific Procedures) Act 1986. It also provides details of the inspection system, through which compliance with licence authorities granted under the 1986 Act is monitored and about visiting patterns and practice and the number of visits carried out during the year.

The report explains the important role of inspectors in gathering and transmitting information on good practice and provides examples of the many events and initiatives to which the inspectorate made significant contributions during the year. In addition, this year's report contains special features on scientific work conducted outside the laboratory setting and on poultry and also contains a report on a survey of local ethical review processes.

I commend the report to the attention of Members.

## JUSTICE

### Advisory Committee on Civil Costs

**The Parliamentary Under-Secretary of State for Justice (Bridget Prentice):** In September I announced that I was establishing an Advisory Committee on Civil Costs and that its chair would be Professor Stephen Nickell. I undertook to make a further announcement on the membership of the Committee and its programme of work.

The members of the Committee are Steve Brooker (National Consumer Council), Dominic Claydon (representing Association of British Insurers), Senior Costs Judge Peter Hurst, Professor Simon Roberts, District Judge Monty Trent and Fraser Whitehead (representing the Law Society). Additional members may be co-opted on to the Committee for specific issues, if appropriate. The Committee will commission research, collect data and receive submissions as required from a wide range of stakeholders to ensure that recommendations are evidence based and underpinned by economic analysis.

The first thing that I have asked the Committee to do is to provide advice to the Master of the Rolls on the guideline hourly rates for solicitors for the summary assessment of costs. The Committee will then consider any fixed recoverable costs proposed following our consultation: "The case track limits and the claims process for personal injury claims". It will subsequently review the fast track trial costs. I will then make further decisions on the future programme of work. The Ministry of Justice will fund the Committee and provide the secretariat.

### Young Black People in the Criminal Justice System

**The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw):** I am today announcing the publication of detailed operating proposals to deliver the commitments made in the Government response to the Home Affairs Select Committee inquiry into young black people and the criminal justice system. Details of these arrangements are contained in an action plan, copies of which have been placed in the Libraries of both Houses, the Vote Office and Printed Paper Office. The details will also be published on the Ministry of Justice website.

The Government responded to the Committee's report on 18 October 2007 (Cm 7214), and committed to publishing detailed operating proposals for delivery of the commitments made in the main response. This statement summarises the governance structure and reporting arrangements that will drive and support delivery and enable Government to monitor and report progress on reducing the over-representation of young black people in the criminal justice system.

*Ministerial Champion*

I will act as the ministerial champion for this work.

*Ministerial Leadership*

The National Criminal Justice Board (NCJB) will provide ministerial stewardship and oversight of delivery of the action plan, reporting to the domestic affairs sub-committee on justice and crime as appropriate. Delivery of the commitments made and the associated work programme will be monitored, driven and reported through the Public Service Agreement (PSA) framework and existing departmental reporting arrangements. There will also be additional annual progress reports.

*Official Leadership*

The chief executive of the Office for Criminal Justice Reform is nominated the senior responsible owner for this work programme. Oversight at a senior official level will be provided by existing cross-Government groups with a specific focus on race issues.

*External Advisory Function*

The Equalities and Human Rights Commission will provide independent scrutiny and challenge functions for this work programme. In addition, a series of structured engagement events involving key commentators and community workers will be undertaken on a quarterly basis to draw on the knowledge and expertise of a wider group of individuals and organisations.

### Freedom of Information Act

**The Minister of State, Ministry of Justice (Mr. Michael Wills):** Today I have deposited copies of the *Freedom of Information Act 2000 - Statistics on Implementation in Central Government. Q3 - July - September 2007* in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office.

This is the quarterly monitoring statistics report analysing the performance of central Government in the third full year of Freedom of Information.

### Preventing Deaths in Custody

**The Parliamentary Under-Secretary of State for Justice (Maria Eagle):** Earlier this year, the then Parliamentary Under-Secretary of State for Justice, my hon. Friend the hon. Member for Bradford South (Mr Sutcliffe), outlined the Government's intention to review the forum for preventing deaths in custody as one aspect of its continued commitment to bring about real changes and improvements to reduce deaths of people being held in our custodial care, and to report on progress to the house within six months (*Official Report*, 16 May 2007, Column 662).

I am pleased to report that the Government's review of the forum is nearing its conclusion. A person entirely independent of the forum—Robert Fulton, a former Home Office director—is conducting the review and Ministers anticipate that he will deliver conclusions and recommendations by the end of the year. A further announcement will be made as soon as is practicable once Ministers—including those in the Home Office and Health with responsibilities for the custodial sector beyond prisons—have considered and decided upon these recommendations. The review has broad terms of reference and is taking account of other relevant organisational models; the forum's independence from Government; its interaction with Ministers through the ministerial round table on suicide (which I chair); its membership, powers, resources and capacity; and the forum's collective and individual accountabilities.

The review is making good progress. Mr Fulton, whose conclusions and recommendations will be made publicly available, has already seen a wide range of people with a close interest in this subject area and researched other relevant organisational models. I understand that he is likely to recommend substantial changes to the current arrangements with respect both to the forum and to the ministerial round table on suicide. Ministers will look at Mr Fulton's recommendations quickly and sympathetically, with a view to strengthening the current arrangements within available resources.

## SCOTLAND

### Scottish Parliament (Elections)

**The Secretary of State for Scotland (Des Browne):** I am launching today a consultation exercise on proposals and recommendations arising from the Electoral Commission review, led by the independent expert Mr. Ron Gould, into the conduct of elections to the Scottish Parliament in May 2007. In my oral statement to the House on 23 October, when Mr. Gould published his report, I accepted immediately the five core recommendations which taken together will have a direct beneficial impact on the experience of voters at future elections to the Scottish Parliament.

I confirmed to the House in my October statement that a number of other recommendations in the report would require wide ranging consultation with outside interests, including those responsible for the administrative conduct of elections in Scotland. At the same time, I stressed the importance of engaging with voters in these matters and will be seeking through the consultation exercise to reach as many as possible by both formal and informal means.

The paper is being sent direct to all MPs with Scottish constituencies and copies have been placed in the Library of both Houses. I hope as many hon. Members as possible will take the opportunity to let me have views on the points raised for consultation as well as any other relevant comment on ways of improving, particularly for the voter, these elections.

The consultation exercise will run to early March 2008 and I hope to publish a formal response to the Gould report, taking full account of views submitted during the consultation process, shortly thereafter.

The Gould report made also a number of proposals relevant to the conduct of local authority elections in Scotland. These are a matter for the Scottish Executive to determine.

## WORK AND PENSIONS

### Employment, Social Policy, Health and Consumer Affairs Council

**The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt):** The Employment, Social Policy, Health and Consumer Affairs Council was held on 5 December in Brussels. I represented the UK, except for the items on the working time directive and the agency workers directive where the UK was represented by my right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform. Health, and consumer affairs issues were taken on 6 December.

The Council failed to reach an agreement on the worker mobility directive on supplementary pensions. The area of concern for other delegations was the maximum length of the period before a worker's pension rights become unconditional. This will be taken forward by a future presidency.

There was also no agreement on the working time or temporary workers directives. The prospects for moving forward on these were discussed over lunch. My right hon. Friend the Secretary of State said the current working time text was a significant improvement on previous versions and whilst the UK still had some reservations, he believed that agreement was close. On agency workers, the presidency concluded—and member states agreed—that the text needed more work. The UK made it clear that it stood ready to support the presidency in future work to address outstanding issues.

The European Commission said it would consider withdrawing both directives but this suggestion was opposed by most member states including the UK. The presidency concluded that progress had been made but further in-depth discussion was needed on both directives, with the aim of an early and broad consensus.

Agreement was reached on parts of an implementing regulation for social security co-ordination Regulation 883/04, specifically on the chapters covering administration of unemployment and family benefits and the corresponding parts of an annex to the regulation.

The Council had a policy debate based on the recent Commission communication on services of general interest. I stressed, as did the majority of others that social services were important, both to individuals and more widely, and that quality was crucial. I also emphasised the need for subsidiarity and local and flexible delivery. While there was some common ground, the debate identified great diversity of situation and approach within and between member states and Ministers stressed the need for subsidiarity and exchange of experience and best practice. It was concluded that further work was needed in this area.

The Council adopted conclusions on flexicurity and endorsed a joint opinion of the Employment and Social Protection Committees on the subject. The Council also adopted conclusions and endorsed an Employment Committee opinion on future prospects for the European employment strategy in the context of the new cycle of the Lisbon strategy. The Council also adopted conclusions on active inclusion of people furthest from the labour market, women and poverty as part of the Beijing platform and on balanced roles for women and men as well as a resolution on follow-up to this year's European Year of Equal Opportunities for All.

Slovenia outlined their priorities on employment and social policy for their forthcoming presidency starting in January, which will include "Employment of the Young", "Equal Opportunities" and "Demography" as their three key presidency themes.

## Disability Benefits (European Court of Justice)

**The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire):** I notified the House on 23 October that the European Court of Justice has decided that for the purposes of European Law, three benefits—Disability Living Allowance (care component), Attendance Allowance and Carer's Allowance—are incorrectly classified as special non-contributory benefits.

As a result of the judgment, these benefits are, in certain circumstances, exportable within the European Economic Area (EAA) and Switzerland. Customers will, of course, have to meet existing entitlement criteria to receive the benefits. Department officials met recently with officials from the European Commission to clarify the extent of the Government's responsibilities following this judgment and discussions are continuing on this complex area of European legislation.

The Disability and Carers Service is currently preparing new guidance for staff and making arrangements to handle cases from abroad. In particular proper controls must be put in place to gather medical evidence from abroad to ensure that UK decision-makers are properly able to assess claims. We expect to provide full details on eligibility criteria on: www.direct.gov.uk by 5 April 2008. We anticipate that first payments could be made to eligible claimants shortly afterwards.

## Ready for Work

**The Secretary of State for Work and Pensions (Mr. Peter Hain):** Today I am publishing "Ready for work: full employment in our generation", the Government's response to the Green Paper on welfare reform published in July 2007.

"Ready for work" sets out the strategy to create a society in which as many people as possible can share in the rewards of work—rewards that go far beyond financial independence, important as that is, because work is inherently good for people of all ages: good for their health, good for families and good for communities.

Today Britain is recognised by the international community as a leader in promoting employment and tackling disadvantage in the labour market. However, there are still too many people living on benefits who could work if they were given the right support.

Our response will be to move to a new system of active rather than passive benefits.

We want to see an employment rate of 80 per cent., up from the current baseline of 74.5 per cent., putting full employment at the heart of our anti-poverty strategy and enabling Britain to seize the opportunities afforded by a dynamic global economy.

In a new and radical approach, we will therefore increasingly look to move people from being spectators on the margins isolated at home—as recipients of passive benefits—to becoming participants, actively seeking and preparing for work with access to training and job-focused activity.

And we want to ensure that benefit claimants can train and improve their skills so that they are not only helped into jobs but also helped to stay and progress in work.

Currently benefit rules prevent JSA customers from studying full time for more than 16 hours per week, for more than two weeks per year. We will reform this. As I announced in November we will put in place the funding arrangements to ensure that JSA customers who would benefit from longer term, full time intensive and employment focused training would have the opportunity to do so by moving to a training allowance.

We will also remove the '16-hour rule' in housing benefit completely for short-term recipients of incapacity benefit so that they, like long-term claimants, will always be able to take up training to enable them to return to work.

Lone parents who can work will be required to actively seek work once their youngest child is 12 or over from October 2008, 10 or over from 2009 and seven or over from 2010, supported by a flexible system of pre-work preparation and in-work support, and by the £21 billion we have invested in childcare since 1997.

Incapacity benefits for new claimants will go, replaced by employment and support allowance with the emphasis on what a person with a physical or mental health condition can do rather than cannot.

The new deal will be modernised so that it better meets the employment and skills needs of those who have been on benefit for a long time or who have struggled to find a stable pattern of work.

Jobcentre Plus has built up a truly world class record, and will remain at the heart of the system—working in partnership with public, private and third sector specialist providers which will have an enhanced role through new contracting relationships which we will set out early next year. Jobcentre Plus will also work in partnership with the Learning and Skills Council and Devolved Administrations to deliver an integrated employment and skills service. And with employers, opening up more jobs to disadvantaged people through Local Employment Partnerships.

In an era of record employment and with 680,000 vacancies to fill, our aim is to get British benefit claimants into British jobs to become British workers.

And we will do more to ensure that the long term unemployed, lone parents and those currently on incapacity benefit are better off in work even after reasonable transport costs.

The reforms that we are bringing in have a central goal: work for those who can, support for those who cannot, combating poverty through full employment.

That remains our welfare commitment and that is our way forward.

# Written Ministerial Statements

*Monday 17 December 2007*

## TREASURY

### Capital Allowances (Draft Legislation)

**The Financial Secretary to the Treasury (Jane Kennedy):** The Government announced a major package of reforms to the business tax system in Budget 2007. These reforms will enhance the international competitiveness of the UK, by encouraging investment, promoting innovation and ensuring fairness across the tax system.

The package announced a reduction in the main rate of corporation tax to 28 per cent. from 2008, making it the lowest in the G7 and below the OECD and EU15 average. It included reforms to deliver a simpler, two-rate system of capital allowances, to ensure the tax system better reflects the economic depreciation of capital assets. The package also included the introduction of a new annual investment allowance of £50,000 for all businesses, to promote investment particularly by smaller firms. This will allow 95 per cent. of businesses to write off all of their investment (excluding expenditure on cars) in the year in which it is made.

In July, the Government published "Business Tax Reform: Capital Allowances Changes", a consultation on the Government's proposals for the key design features of the new annual investment allowance, new rules on integral building features and the transitional rules for the move to the new rates of capital allowances.

The Government are today publishing a technical note including draft legislation on these changes, reflecting the support of the majority of respondents to this consultation for the Government's proposals. As a result of the changes, the Government estimate that the administrative burden of the capital allowances system on business will be reduced by £15 million.

This technical note announces the Government's intention to extend the provision that allows capital allowances to be claimed on thermal insulation added to existing industrial buildings to all commercial buildings, at a rate of 10 per cent., in line with the Government's approach to environmentally beneficial features integral to buildings.

The Government also intend to withdraw the special industrial buildings allowances available in Enterprise Zones (EZAs) from April 2011, to coincide with the withdrawal of industrial buildings allowance. The Government consider that these allowances have now served their purpose, and that there is no case for retaining them. No business that has already claimed EZAs will be affected by this.

The publication of the draft legislation marks a significant milestone in the implementation of this major series of reforms, which will enable the UK's tax system to encourage businesses to invest for the future.

Copies of the technical note and draft legislation have been deposited in the Libraries of both Houses.

### ECOFIN

**The Chancellor of the Exchequer (Mr. Alistair Darling):** The Economic and Financial Affairs Council was held on 4 December in Brussels. The items on the agenda were as follows:

*Implementation of the Stability and Growth Pact:*

The Council agreed that Poland had met the 27 August 2007 deadline to correct its excessive deficit procedure, as its 2007 deficit is expected to be below 3 per cent. of GDP. The UK supports a prudent interpretation of the Stability and Growth Pact (SGP) which takes into account the level of debt, the influence of the cycle and the level of public investment.

*Lisbon multilateral surveillance:*

Ministers agreed draft conclusions on the multilateral surveillance element of the Lisbon strategy national reform programmes. The Council discussed progress on innovation and SMEs, better regulation, competition, and labour markets. Ministers agreed that it was important to maintain the momentum behind reform. The UK welcomes multilateral surveillance under the Lisbon strategy, which encourages member states to focus on the implementation of the Lisbon strategy.

*Globalisation: capital and labour flows:*

Ministers prepared a contribution to the December European Council of 14 December on the economic dimension of migration. This follows from an exchange of views at November ECOFIN on the basis of a report on the economic impact of migration prepared by the European Commission. Ministers agreed that the economic and fiscal policy dimension of migration is important in the broader analysis of the issue.

*Financial services:*

*a) Lamfalussy review*

Ministers agreed a set of Council conclusions on the review of the Lamfalussy arrangements, and a roadmap for taking these forward. The UK believes the Lamfalussy framework has made a major contribution to improving the efficiency of the EU legislative process and enhancing the convergence of supervisory practices. The UK argued against proposals that could lead to moves towards a single European regulator and welcomed the Council conclusions and the roadmap, which should further develop supervisory co-operation and convergence.

*b) Directive on the solvency of insurance companies (Solvency II)*

Ministers discussed the proposed Solvency II directive on the prudential requirements for insurance and reinsurance companies. Ministers agreed on the need for further work on provisions in the directive dealing with group supervision. The UK supports work that will ensure more effective supervision of pan-European insurance groups.

*c) Risk capital*

Ministers agreed Council conclusions on cross-border risk capital which invite the European Commission to carry out further work on identifying and removing obstacles to cross-border investments by venture capital funds. The UK supports work to break down the key remaining barriers to development of European venture capital markets.

*Taxation:*

*a) VAT package*

Following on from its discussion at its November meeting, the Council reached political agreement on a set of measures that will modernise the EU VAT rules for the cross border supply of services, with particular focus on proposed changes to the rules for business to consumer supplies in the telecoms, broadcasting and e-services sectors. In particular, the Council's political agreement was made possible by acceptance by all member states that such services should be taxed in the member state where the customer is located, rather than, as is presently the case, where the supplier is established. The UK has been a strong supporter of this package and welcomes the agreement.

*b) Reduced VAT rates*

*i) Commission communication on VAT rates other than the standard rate*

Ministers agreed Council conclusions regarding future work on reduced VAT rates and noted the Commission's plans to present a legislative proposal on reduced VAT rates in 2008. The UK supports flexibility in applying reduced VAT rates where these will not materially affect the single market.

*ii) Proposal for a Council directive amending Directive 2006/112/EEC with regard to certain temporary provisions concerning rates of VAT.*

Ministers then discussed a Commission proposal to extend until 2010 some of the new member states' derogations for reduced VAT rates. Council agreed a general approach, pending the opinion of the European Parliament, on a new directive to this effect. The UK supports the extension of most of the temporary derogations granted to those member states that acceded to the European Union after 1 January 1995. The directive will be adopted without discussion at a forthcoming Council meeting, once the Parliament has submitted its opinion.

*c) Capital duty directive*

Ministers agreed a general approach, pending the opinion of the European Parliament, of a Commission proposal for a directive concerning indirect taxes on the raising of capital. The UK abolished capital duty in 1988.

*d) Combating tax fraud*

Ministers agreed conclusions which provide guidance to the Commission on the direction of further work to improve the effectiveness of the existing VAT system in combating tax fraud. The Council has called on the Commission to produce legislative proposals for debate in the early part of 2008 on measures previously identified as priorities by ECOFIN and for progress reports during 2008 on other work. The UK is strongly supportive of work that will help in the fight against Missing Trader Intra-Community (MTIC) and other VAT fraud, while remaining committed to minimising the burdens on legitimate businesses.

*e) Code of conduct group (business taxation)*

Ministers discussed a forward workplan for the code of conduct group. The Council took note of a report from the group on its work under the Portuguese presidency and adopted conclusions on the future work of the group calling for all outstanding issues on its work programme to be resolved before the end of the Slovenian presidency. The code of conduct group is a ministerial group which looks to co-ordinate and share best practice on tax-related issues that are not directly covered by EU legislation. The UK is a strong supporter of the group.

## Public Service Pensions

**The Chief Secretary to the Treasury (Andy Burnham):** Legislation governing public service pensions requires public service pensions to be increased annually by the same percentage as additional pensions (state earnings-related pension and state second pension). The Minister for Pensions Reform announced on 5 December 2007 (*Official Report*, column 841) that benefits such as additional pensions will be increased by 3.9 per cent., in line with the annual increase in the retail prices index up to September 2007. Public service pensions will therefore be increased by 3.9 per cent. from 7 April 2008, except those which have been in payment for less than a year, which will receive a pro-rata increase.

## Varney Review (Tax Policy in Northern Ireland)

**The Chief Secretary to the Treasury (Andy Burnham):** Following representations by political parties in Northern Ireland, the Government commissioned Sir David Varney in March 2007 to carry out a review of tax policy in Northern Ireland. His terms of reference were to examine "how current and future tax policy, including the tax changes announced in the Budget 2007, can support the sustainable growth of businesses and long-term investment in Northern Ireland". The review has been published today and has been deposited in the Library of the House. I am very grateful to Sir David Varney and his team, and to all those who submitted evidence to the review. Sir David's report provides a valuable assessment not only of business tax issues for Northern Ireland but also of how the opportunities and challenges facing the devolved administration in developing an investment strategy might best be approached. The Government are fully committed to supporting the Northern Ireland Executive in implementing such a strategy.

The Government recognise that, in developing their economic investment strategy, the question of business tax levels in the UK is a particularly important issue for the executive. I am therefore particularly grateful to Sir David and his team for the considerable depth in which this issue is analysed and explored in the report.

He concludes that a policy of a preferential corporation tax rate for Northern Ireland, as compared to the rest of the UK, does not offer the best way forward for building a strong investment strategy for Northern Ireland. He is not convinced that a cut would represent good value for money. In particular, the role of supply side factors needed to be paid due attention, and caution taken on the responsiveness of investment to a cut in the rate.

The review examines the tax position in Northern Ireland, in both its international context and in comparison with the Republic of Ireland. It finds that the UK compares favourably with its G7 partners in terms of corporate tax levels. It also finds that the UK has a lower rate of tax than the Republic in areas such as VAT and the top rate of income tax, and offers more generous R and D tax credits and tax relief on dividends.

The review recommends a strategy to develop private sector investment in Northern Ireland based on maximising the benefits of the competitive advantages that already exist in Northern Ireland, including current financial investment incentives, and realising the potential further to improve this competitive advantage.

The report notes that for many years the Northern Ireland economy has been over reliant on public sector investment for its growth but that political progress over the last ten years to end conflict and to transform Northern Ireland to a peaceful, stable society has already helped attract inward private sector investment. The restoration of devolution on 8 May is a major turning point and incentive for such further inward investment.

The report identifies Northern Ireland's key competitive advantages as including:

> Operating costs which are highly competitive and significantly lower than in the rest of the UK and the Republic of Ireland;
>
> a well developed telecoms infrastructure providing important benefits for business;
>
> one of the youngest populations in Europe and high educational achievements;
>
> attractive financial incentives, recruitment and training, research and development and other development support tailored to each company's needs.

The report recommends that these advantages can be maximised by a strategy to:

> Further improve basic and technical skills and retaining the best and the brightest;
>
> tackle the size of the public sector and efficiency of the administration;
>
> foster innovation through better university and business collaborations; and
>
> Prioritise trade and investment promotion across Government, including working links between Invest Northern Ireland, the Irish Investment and Development Agency and UK Trade and Investment.

In short, Sir David Varney's report found that the conditions for economic success for Northern Ireland are more than a matter of tax incentives. There are lessons in terms of improving labour force participation, basic skills, and efficiency and organisation in the public sector; and Northern Ireland needs to move towards the execution of a strategy focused on business and economic development.

In the light of Sir David Varney's report, the Government are working with the Executive to:

> Strengthen trade and investment promotion by UK Trade and Investment reviewing with Invest Northern Ireland the scope for better marketing of Northern Ireland to higher value-added FDI; and
>
> promote closer working between the UK Government, the Northern Ireland Executive and the Irish Government to promote a coherent overall science strategy, including considering the suggestion of creating 'science cities'.

This will build on the May 2007 settlement, elements of which specifically focus on issues highlighted in the review as key to a sound and forward looking investment strategy:

> An innovation fund focusing particularly on levering in private sector investment and promoting collaborative research. This includes matched funding of £36 million from the Irish Government targeted specifically on collaborative research and development;
>
> a new Northern Ireland Corporate Tax Office to promote the competitive tax position;
>
> a local employment partnership—that will help create 5,000 jobs for the unemployed in Northern Ireland—between five leading employers in the retail sector. The expansion of this initiative to other sectors, including security, hospitality and facilities management, offers the Northern Ireland Executive further opportunity to work with employers to maximise the opportunities for those in Northern Ireland who are inactive or unemployed;
>
> a major conference in Northern Ireland for prospective investors from the USA, led by the Executive and fully supported by the Government.

The Northern Ireland Executive has put growing the economy at the top of its priorities. This is reflected in the draft Programme for Government that was published on 25 October 2007, along with a draft Investment Strategy and draft Budget for 2008-11. I welcome the strategy that this programme sets for building economic success to benefit all communities in Northern Ireland, including the good progress that is being made towards the planned US inward investment conference next year.

I have discussed the report and next steps with the Executive and I am today announcing that Sir David Varney has agreed to carry out a further review building on his first review and focusing on identifying policies and incentives for strengthening and sustaining private sector growth, investment and employment in Northern Ireland.

Against that background and the desire of the UK Government and Northern Ireland Executive to work in partnership to create the conditions for sustained economic growth and increased employment opportunities for all, the terms of reference for the second review are:

> "In the light of Sir David Varney's review of Tax Policy in Northern Ireland, published on 17 December and the Northern Ireland Executive's draft Programme for Government and draft Budget published in October 2007, Sir David Varney will undertake a second review. Building on Sir David's earlier analysis and agreement from all parties about the unique circumstances of Northern Ireland (in relation to the opportunities provided by the peace process, the need to strengthen the private sector, to create increased employment opportunities and to reform the public sector) this review will explore in more detail how to expand the private sector and to enhance Northern Ireland's competitiveness. In this context, the review will look at incentives for supporting the sustainable growth of businesses, investment and employment in Northern Ireland and the implications for reducing the historic dependency on the public sector. This will include examination of incentives for growth in Northern Ireland that fall within the responsibility of the Northern Ireland Executive and the UK Government. Sir David will aim to report in good time for the US Investment Conference. He will be supported by a small secretariat and will receive direct and regular input from Northern Ireland Executive officials".

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Regional Development Agencies

**The Minister for Competitiveness (Mr. Stephen Timms):** I have published the reported mid-year output results for 2007-08 for England's Regional Development Agencies.

The data show the progress made by the Regional Development Agencies between April and September 2007 in delivering against the core output targets set in RDA corporate plans for 2005-08. The figures cover employment creation and support, business creation and support, leverage of public and private sector infrastructure investment, brownfield land reclamation/redevelopment, and skills development.

I am placing copies of the mid-year RDA output figures in the Libraries of both Houses, and the results have also been placed on the BERR website at:

http://www.BERR.gov.uk/regional/regional-dev-agencies/rda-performance/page42777.html

### Postal Services Market

**The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton):** The Government set out their vision for postal services in the UK in its 1999 White Paper "Post Office Reform: A World Class Service for the 21st Century" and took this forward in the Postal Services Act 2000. The Act had as its prime objective the maintenance of the universal postal service. It was designed to provide both social and business consumers with a more efficient and effective postal service through the introduction of competition and greater commercial freedoms for the Royal Mail to operate within a fully liberalised market while maintaining the provision of the universal postal service. We remain committed to this vision.

It is now seven years since the Act passed through Parliament and there have been significant developments since then.

The postal services market was fully liberalised by Postcomm nearly two years ago on 1 January 2006. The Government believe that this has brought considerable benefits for the users of postal services. Royal Mail has, through the efforts of management and postmen and women up and down the country, significantly improved its performance, delivering quality of service levels that in the last full year were at record-breaking levels. New market entrants are providing increasing choice for consumers and pushing innovation in the industry.

The Government have demonstrated their commitment to seeing Royal Mail compete effectively in this new marketplace through an unprecedented level of additional investment (£2.1 billion in 2007) to enable the company to modernise. The result of the recent ballot on pay and modernisation means that management and staff have given the Royal Mail a mandate for modernisation.

It has become clear that the market conditions for all postal service operators are challenging, with growing evidence of e-substitution and more sophisticated use of mobile communication. Postcomm's strategy review ("The Postal Market 2010 and Beyond—Emerging Themes") published in August 2007 noted that the postal market is changing and that they expected market volumes to decline. The European Union, supported by the British Government, recently set a clear timetable for a fully liberalised European postal services market by the end of 2010.

In the light of these significant developments, and in line with its manifesto commitment, the Government is launching a review of the postal services sector. The review will be led by an independent panel chaired by Richard Hooper and comprising Dame Deirdre Hutton and Ian Smith.

Its terms of reference are:

To assess the impacts to date of liberalisation of the UK postal services market, including on the Royal Mail, alternative carriers and consumers.

To explore trends in future market development and the likely impact of these on Royal Mail, alternative carriers and consumers.

To consider how to maintain the universal service obligation in the light of trends and market developments identified.

We are today issuing a call for evidence for the review so that the review panel's analysis of the market can take into account the view of the widest possible range of interests.

It is expected that the review will report its conclusions next year.

### Statutory Auditors and Third Country Auditors Regulations 2007

**The Minister for Competitiveness (Mr. Stephen Timms):** My Department has today made regulations implementing many of the provisions of the Directive on Statutory Audits of Annual and Consolidated Accounts. (The Statutory Audit Directive—2006/43/EC).

These regulations have been developed following two consultations, the first on the policy and the second seeking comments on a draft of these regulations. Alongside these regulations we are therefore publishing a summary of the comments received on the draft regulations, and a statement of the Government's conclusions.

This document will be placed in the Libraries of both Houses and will be available on the BERR website.

## CHILDREN, SCHOOLS AND FAMILIES

### School Buildings

**The Secretary of State for Children, Schools and Families (Ed Balls):** Last week's Children's Plan set an ambition for all new school buildings to be zero carbon by 2016, and announced the appointment of a taskforce to advise on how to achieve this ambition. I will set out the details of the membership and remit of the taskforce in the new year.

In the meantime, we are taking action now to reduce carbon emissions in new school buildings while we work towards the zero carbon goal. I am announcing today details of 200 or so projects that we expect to benefit from an additional investment of £110 million over the next three years, with the intention of reducing carbon emissions by around 60 per cent. This provides an additional £50 per m$^2$ (about £500 k for the average secondary school) to invest in energy efficiency and renewable energy measures on school sites.

## Qualifications and Assessment: Regulation and Development

**The Secretary of State for Children, Schools and Families (Ed Balls):** I am today laying before Parliament, with the Secretary of State for Innovation, Universities and Skills, the joint command paper (Cm 7281) "Confidence in Standards: Regulating and Developing Qualifications and Assessment". Copies have been placed in the Libraries of both Houses.

On 26 September I announced that the Government would establish an independent regulator of qualifications and tests in England. The Office of the Qualifications and Examinations Regulator will be the guardian of standards across the tests and qualifications systems, building on the regulatory work of the Qualifications and Curriculum Authority over the last 10 years. "Confidence in Standards" sets out the detail of these proposals and our plans to establish a development agency for curriculum, assessment and qualifications which will take forward the non-regulatory functions of the QCA. We are confident that these plans will give the public greater confidence in the standards of qualifications and assessments.

Our Departments have launched a consultation on these proposals. The consultation materials are available from the DCSF website at: www.dcsf.gov.uk/consultations/. This consultation will run until 10 March 2008.

## COMMUNITIES AND LOCAL GOVERNMENT

### Interfaith Dialogue and Social Action

**The Secretary of State for Communities and Local Government (Hazel Blears):** I am launching a consultation on "Face-to-Face and Side-by-Side: A Framework for Interfaith Dialogue and Social Action".

We have long recognised the contribution made by faith groups to local communities, in terms of charitable activity, social action, community cohesion, support in emergencies, as well as their spiritual and religious role.

The relations between every faith are integral to the success of each of them.

We want to take this opportunity to reflect on how Government should support this, where and in what circumstances interfaith works best and how we can work in partnerships with faith and non-faith based communities and organisations.

This consultation is part of the Government's response to the independent Commission on Integration and Cohesion's report "Our Shared Future" which set out a number of practical recommendations on how to build cohesion and a shared sense of belonging. The report outlined the important role that inter faith activity plays in building integration and cohesion, as well as the need for more constructive conversations between those of faith and those of none.

In particular the consultation will seek to:

Understand how to best build confidence in the benefits of partnership working and develop a greater understanding of the contribution that faith communities can make;

discover to what extent local authorities and other public bodies are already working with faith communities;

understand better the structures that aid interaction and social action and how can these be best developed;

learn about some of the barriers to inter faith activity—especially to the involvement of women and young people—and how we might best work together to overcome these;

look at what actions are needed to widen and deepen inter faith dialogue and social action.

Our society is deeply enriched by the presence of diverse faith groups, and our communities benefit from their local activity.

Copies of the consultation document have been deposited in the Libraries of both Houses.

### Empty Properties Relief

**The Minister for Local Government (John Healey):** I have today published a summary of responses received in response to the Government's stakeholder consultation document "Modernising Empty Property Relief", and have placed a copy in the Libraries of both Houses.

The Government's proposals for reforms to empty property relief were part of a package of measures introduced in the Budget to help incentivise the efficient use of land, to help increase the supply of commercial property and to reduce costs for businesses. The Government consider that the reforms provide a strong incentive for owners to re-use, re-let or redevelop their empty shops, offices and factory buildings, and so improve access to property and reduce rents for businesses. The Rating (Empty Properties) Act 2007, which received Royal Assent on 19 July, gave effect to these reforms, and set a revised empty property rate of 100 per cent. of the basic occupied rate.

Having considered the responses received to our consultation document, I can confirm that the Government will now take forward a number of additional measures.

The consultation document sought views on whether the existing permanent exemption from empty property rates available to listed buildings and those with a statutory protection should continue, or whether it should be varied. I have concluded that, on the available evidence, there can be a greater degree of work involved in bringing empty listed properties back into beneficial use compared to other properties and that the evidence supports such properties continuing to benefit from an exemption from empty property rates.

I have also concluded that companies in administration should benefit from a permanent exemption from empty property rates. This will bring them into line with companies that are in liquidation and individuals subject to bankruptcy proceedings. We are committed to the promotion of a rescue culture which provides opportunities for insolvent companies that have viable underlying businesses to be rescued wherever possible. A permanent exemption will remove any potential for decisions about whether to enter administration to be distorted by differences in rates liability.

I have considered carefully the responses to the consultation document about the potential risk of owners of empty property taking measures to avoid payment of rates on their property. The Rating (Empty Properties) Act 2007 gave the Secretary of State, and the Welsh Ministers, the power to make regulations to tackle any such activity. The consultation document set out a number of options as to how such regulations might be constructed if the Secretary of State were minded to make them.

There was a substantial body of comment about the proposed measures. I have concluded, on the basis of those responses, that the likely incidence of avoidance activity following the introduction of the reforms to empty property relief is low. It would be an extreme step for a property owner to go to the lengths of deliberately vandalising a potentially valuable asset so that it is beyond economic repair. This view was expressed by a number of respondents to the consultation document.

Having taken account of all the responses, I have concluded that the existing circumstances do not warrant the introduction of anti-avoidance regulations at this stage. However, I am clear that, if it appears that there is evidence of measures being taken by owners of empty property to avoid payment of empty property rates, the Government will not hesitate to use their powers. We will work with the Local Government Association, the Valuation Office Agency and the Institute of Revenues Rating and Valuation to monitor the impact of the reforms and assess whether regulations should be introduced in the future.

We are now working on drafting the relevant secondary legislation to give effect to our reforms on empty property relief. This includes introducing the new six-month exemption from empty property rates for vacant industrial and warehouse properties, as announced in the 2007 Budget. We intend to lay this secondary legislation before Parliament so that all aspects of our reforms to empty property relief can come into effect on 1 April 2008.

## Planning Policy Statements

**The Minister for Housing (Yvette Cooper):** I am today announcing publication of the new Planning Policy Statement (PPS): "Planning and Climate Change" and a consultation draft of the new PPS: "Planning for Sustainable Economic Development". Copies will be placed in the Libraries of both Houses.

Our economy must be prepared to meet the challenges of increasing global competition, and to seize the opportunities presented by rapid technological change. In the Planning White Paper, "Planning for a Sustainable Future", we set out a vision of a planning system better able to support a dynamic economy. But this planning system must also respond to the urgent challenges presented by climate change.

Economic growth and higher environmental standards must go hand in hand. We want the planning system to do more to promote jobs and economic growth, but to do so in a way that is environmentally sustainable and that helps cut carbon emissions. Equally we want to ensure the programme to cut carbon emissions should also help support the jobs and homes we need for the future. Our reforms are designed to ensure that the planning system is flexible enough to support both, making a critical contribution to sustainable economic growth for the 21st century.

PPS "Climate Change" is being issued as a supplement to PPS1: "Delivering Sustainable Development". This PPS is central to the entire series of planning policy statements. New requirements for local authorities will ensure that tackling climate change becomes a primary objective of the planning system, reflecting the emphasis in the White Paper. This will help to speed up the shift to renewable and low-carbon energy, supporting our ambitions on zero carbon development and helping shape places resilient to the impact of climate change.

First, this PPS confirms the central role of planning in helping to achieve zero carbon homes from 2016. We also believe we need to develop a similar approach for non-domestic buildings, and today we are publishing analysis from the UK Green Building Council, commissioned by the department to support significant cuts in carbon emissions from new non-domestic buildings.

Secondly, this PPS will help speed up the shift to renewable and low carbon energy, by challenging councils to do more to support delivery of local renewable or local low-carbon energy — including through setting percentages of energy for new development to be generated from local renewables or low carbon sources such as microgeneration or community schemes. It also expects councils to think about the potential for local low carbon energy generation and cutting carbon emissions when identifying the best sites for development.

Thirdly, local government has a critical role in ensuring that local communities and infrastructure are able to cope with the impact of climate change—not only the effects which are felt today, but also those that can be anticipated in the future. The PPS therefore reflects the central role of planning in shaping places that are resilient to climate change and habitats that sustain biodiversity.

We consulted on a draft of the climate change PPS at the beginning of the year and have considered very carefully the responses we received. The approach has received broad support. The final document being published today takes account of the detailed issues raised.

Moving towards a low-carbon economy is a huge challenge. It requires a revolution in the way that we design, heat and power our buildings, and a concerted effort from a huge number of organisations—from local authorities, to developers, to environmental groups and local communities themselves. It also requires collaborative and responsible working to ensure change takes place alongside delivering the additional homes as well as the new jobs and regeneration we need. The policy set out in the PPS provides a strong framework for that degree of co-operation.

We are also publishing a draft PPS on sustainable economic development. The Barker Review of Land Use Planning showed that planning authorities do not always give sufficient weight to the potential economic benefits of new developments. This draft PPS seeks to ensure that local planning authorities take these benefits into account alongside relevant environmental and social issues.

It would require local authorities to identify and maintain a supply of land which caters for existing employment and business needs while also delivering the infrastructure and housing we need. It would require local authorities to respond positively to new proposals to promote economic development. However, given increasing demands on the limited land available, it would also require planning authorities to make the most efficient use of land and buildings. It also emphasises the importance that we attach to excellence in design.

Together, the policies outlined in these PPSs will deliver economic growth sustainably, promoting job creation while also helping to tackle climate change.

### Buncefield

**The Minister for Local Government (John Healey):** On 12 June 2007, the Secretary of State for Communities and Local Government made a statement to the House in which she outlined the independent investigation procedure that was taking place into the incident and the availability of reports produced by the investigation board, including recommendations relating to design and operation of fuel storage sites. She said that a report with recommendations on emergency planning, response and recovery was in preparation.

In response to a recent request (business questions on 6 December) from the hon. Member for Hemel Hempstead (Mike Penning), the Leader of the House has asked for a further statement on progress.

The Buncefield Major Incident Investigation Board published its report and recommendations on emergency preparedness for, response to and recovery from major incidents on 17 July. It has also published a report on safety and environmental standards for fuel storage sites, and one from its Explosion Mechanism Advisory Group that advocates a joint industry research project be initiated to explain the severity of the explosion that occurred at the site. Copies of these, and other earlier reports, are available from the official investigation website at: www.buncefieldinvestigation.gov.uk.

The report published on 17 July made a number of recommendations in four areas: reassessing major incident scenarios; managing major incidents on-site; preparing for and responding to major incidents off-site; and planning for recovery from major incidents.

Although set in the context of the Buncefield incident, the recommendations, particularly those relating to emergency preparedness and response, can be applied beyond fuel storage and distribution sites. Many of these are complex and far-reaching. They need to be considered at a wider, national level and reflect the co-ordinated views of the different departments, and the Devolved Administrations, that have responsibility for them. The Government will be responding formally to these recommendations in due course.

I can comment on some issues that are specific to the Buncefield depot.

The report recommends that all relevant organisations should be involved with recovery at an early stage. Such joint working has already delivered financial and practical support to aid recovery through the Bellwin scheme (which was extended beyond its usual duration), and ongoing support from the East of England Development Agency which has also provided financial assistance of £4.4 million to date.

The East of England Development Agency is also working closely with stakeholders developing proposals to designate the area as a "New Town Improvement District".

Under this programme local partners aim to bring together a combination of funding mechanisms that could help finance some of the major improvements identified in the Maylands Business Park masterplan.

Hemel Hempstead is one of 21 urban areas identified in the Secretary of State's proposed changes to the East of England plan, the regional strategy, as "Key Centres for Development and Change" at which additional development will be focused. The proposed changes include a requirement for an additional 12,000 homes in Dacorum, including expansion of Hemel Hempstead.

As part of the comprehensive spending review outcomes, the Government announced £1.7 billion of investment in the growth areas, growth points and eco-towns over the CSR period. Local authorities in existing growth areas and growth points were invited to prepare programmes of development setting out what additional infrastructure and other funding they sought from Government to support housing delivery over the next three years (2008-2011). In view of the housing targets set out in the Secretary of State's proposed changes Dacorum borough council was invited to submit a programme of development for the support it would require to deliver the proposed housing growth, with the intention that, subject to the final RSS, Dacorum would be brought into the growth areas programme to allow it to receive infrastructure and delivery support from the growth fund.

On 4 December, my right hon. Friend the Minister for Housing announced £732 million for local authorities in growth areas and growth points for infrastructure to support housing growth. Based on its submitted programme of development, Dacorum borough council has received a provisional award of £2,554,062 capital and £159,377 revenue in 2008-09, and an indicative provisional award of £3,575,687 capital and £239,034 revenue for the period 2009-10 to 2010-11. In line with Local Government White Paper principles, the Government's new approach to growth funding gives local authorities flexibility in how they use the funding they receive, so it can be used where they judge it will be most effective. This provisional funding award is subject to Dacorum being brought into the growth areas as a result of the final form of the regional spatial strategy.

The hon. Member for St. Albans (Anne Main) recently asked about the re-opening of the Buncefield site. In his reply the Minister of State for Business Enterprise and Regulatory Reform stated that the Buncefield site is of strategic importance for the supply of aviation fuel to Heathrow and Gatwick airports. He stated that a number of applications for planning permission to restore operations at the Buncefield site had been submitted to Dacorum borough council and that at these had yet to be determined (26 November 2007, *Official Report*, column 119W).

On 29 November, Dacorum borough council's development control committee considered these applications. The committee resolved that decisions on five of the six applications considered should be delegated to officials with a view to planning permission being approved, subject to completion of a planning obligation under section 106 of the Town and Country Planning Act 1990. Approval would be for storage and supply of aviation fuel only. The planning obligations would restrict storage and supply of ground fuels until a future date. Negotiations on the planning obligations are a matter for Dacorum and the oil companies, on which it would be inappropriate to comment. Similarly, the future use and development of the Buncefield site is matter for the oil companies and, in the first instance, Dacorum borough council, to whom applications for planning permission would be made.

The Health and Safety Executive and the Environment Agency are statutory consultees in the planning process and will ensure the planning authority has expert advice should applications be made. They are also joint competent authorities for major hazard sites, regulated under the Control of Major Accident Hazards Regulations, before operations were able to resume the site operators would have to satisfy these authorities that the site would adhere to the highest operating standards.

## DEFENCE

### Autumn Performance Report

**The Secretary of State for Defence (Des Browne):** I have today placed in the Library of the House copies of the Ministry of Defence's Autumn Performance Report. This shows that the Armed Forces, supported by their civilian colleagues, continue to achieve our highest priority: success on operations, particularly those in Iraq and Afghanistan.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Summer 2007 Floods (Interim Report)

**The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn):** I would like to report to the House that this morning Sir Michael Pitt published his interim independent report on the flooding that affected large areas of England in June and July this year.

Sir Michael's final report will be published next summer following a further period of consultation with the public and interested organisations. As a result of the good progress already made, the Government have agreed with him that the remit for his review should be formally extended to cover the recovery arrangements put in place following the floods.

The Government welcome publication of this interim report and acknowledge the hard work that Sir Michael and his team have put into its publication to meet the timetable and terms of reference which we set. Sir Michael took evidence from a range of individuals and organisations, including people affected by the flooding, the emergency services, local MPs and councillors, local authorities, Government Departments and agencies, academics and the private sector. As well as many individual local reviews, separate national reviews have or are also being undertaken by, among others, the Environment Agency, the Local Government Association, the Association of British Insurers, the fire and rescue service and the water industry. I also know, and welcome, the considerable interest that Members have taken in relation to the floods, including the current inquiry by the Environment, Food and Rural Affairs Select Committee.

The House knows of the severe impact on those people and businesses whose lives were turned upside down by this summer's floods and the costs that have been borne by them, insurers and the Government. While many people have now been able to return to their homes, some are still living in temporary accommodation while repairs continue. They are bearing their ordeal with considerable fortitude and I know that the thoughts of Members will be with them this Christmas and into the new year. Our particular sympathies are, of course, with the families of those who lost their lives during the floods.

The interim report confirms the extreme nature of the weather that gave rise to the floods and acknowledges the efforts that were made by everyone in responding. It identifies a number of urgent steps which it recommends should be taken straight away. These relate particularly to monitoring of specific flood risks, better information sharing and the practicalities of emergency response. The Government agree with all of the urgent recommendations and will work with all organisations involved in taking them forward as quickly as possible.

The report also sets out 72 interim conclusions, on which Sir Michael is seeking views before he publishes his final report. The Government will carefully consider these and respond to him. However, we are already taking action to address a number of the key issues raised in the report, including:

Defra officials have already met with Water UK and water companies in England to help ensure a wider take-up of the more immediate and practical lessons from the water supply emergency in Gloucestershire. We will now follow up those discussions in the light of the specific recommendations in the report, such as a review of the minimum supply requirement for water to be provided in the event of the loss of the piped supply.

The Department for Business, Enterprise and Regulatory Reform has asked electricity network operators to review the resilience of electricity substations to flooding. This work is underway under the leadership of the Energy Networks Association.

Sir Ken Knight, the Government's chief fire and rescue adviser, is in the final stages of a review looking at the operational response and role of the fire and rescue service during national flooding incidents. His review will consider, amongst other issues, the need for inter-operability between fire and rescue services' training and equipment and that of other local responders.

We have revised our flood emergency procedures to set out more clearly how Defra, as lead Government Department, will manage serious flooding in conjunction with the Environment Agency and operational responders on the ground. These procedures were tested during the east coast tidal surge on 9 November and we have refined them further after that event.

Developing proposals for better management of surface water, including resolving the current complex institutional arrangements and use of sustainable drainage systems, both of which we shall be considering early in the new year as part of our new water strategy.

Developing a strategic overview role for the Environment Agency for all sources of flooding and coastal erosion.

Finalising national guidance on multi-agency flood planning, upon which we will shortly be consulting key organisations before it is made more widely available in the new year.

A broader range of other work is in progress, under our "Making Space for Water" strategy, to ensure that our long term approach to managing flood and coastal erosion risk is sustainable and takes full account of climate change. As part of this, a series of pilot studies is under way to investigate integrated approaches to urban drainage management and improved resilience of properties.

The House will know that the Government are committed to increasing investment in flood and coastal erosion risk management. It will rise from its current level of £600 million to £650 million in 2008-09, £700 million in 2009-10 and £800 million in 2010-11. We are establishing new outcome measures to secure best value for investment and, through the Environment Agency, are considering whether a long-term investment strategy for the next 20 years is appropriate for this policy area.

Successive Governments have invested substantially in improving flood defences over many years and there have also been significant advances in flood warning and emergency planning. It is worthwhile recording that the Environment Agency estimate that these defences protected 100,000 properties from flooding this summer. The agency also state that, while some permanent defences were overwhelmed, in only nine locations was the defence structurally damaged, five of these after being overtopped, and that none of these failures made property flooding worse. Defences also protected many properties from flooding during last month's east coast tidal surge.

I will report further to the House in due course.

## FOREIGN AND COMMONWEALTH OFFICE

### General Affairs and External Relations Council (10 December 2007)

**The Minister for Europe (Mr. Jim Murphy):** My right hon. Friend the Foreign Secretary and Kim Darroch (UK Permanent Representative to the EU) represented the UK at the General Affairs and External Relations Council (GAERC) in Brussels. My hon. Friend the Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas) also attended for discussion of Economic Partnership Agreements.

The agenda items covered were as follows:

#### General Affairs

*Preparation of the European Council on 14 December*

The Council discussed the presidency's draft European Council Conclusions. My right hon. Friend the Foreign Secretary intervened, together with other member states, to press for a positive and forward looking declaration on globalisation, conclusions language on Burma and for a firm commitment that the EU should take stock of progress on the Millennium Development Goals at the European Council's meeting in June 2008.

The European Council was also expected to welcome the signature of the Lisbon treaty on 13 December and agree to set up a reflection group to discuss ways to address the EU's longer-term challenges.

*2007 Enlargement Package*

My right hon. Friend the Foreign Secretary intervened to stress the importance of reaffirming our accession commitments. The Council Conclusions reiterate the December 2006 Conclusions setting out EU consensus on enlargement. This is based on consolidation of existing commitments, rigorous conditionality and improved communication on the benefits of enlargement. The Council agreed that chapters for which technical preparations have been completed will be opened, and reaffirmed that the pace of negotiations depends on accession states making the necessary reforms. The Council looks forward to the Accession Conferences with Turkey and Croatia next week. This demonstrates that the accession negotiations continue to make progress.

#### External Relations

*European Neighbourhood Policy*

External Relations Commissioner Benita Ferrero-Waldner briefed the Council on the Commission's Communication of 5 December on the European Neighbourhood Policy (ENP) and work in taking forward the policy, including on economic integration and market access.

My right hon. Friend the Foreign Secretary intervened to welcome the Commission's work on ENP as a framework for supporting our ENP partners in implementing their political and economic reforms including in the Middle East and Moldova.

*Economic Partnership Agreements*

Trade Commissioner Peter Mandelson briefed the Council on progress in negotiations on Economic Partnership Agreements (EPAs) with African, Caribbean and Pacific (ACP) countries.

The Council agreed a draft regulation on market access aimed at enacting the provisions of interim EPAs with certain ACP countries. This opens duty and quota-free access to the Community market, with improvements to the previous rules of origin provided for by the ACP-EU Cotonou partnership agreement, to those ACP countries that have initialled agreements with the Community that are compatible with World Trade Organisation rules.

My hon. Friend the Parliamentary Under-Secretary of State for International Development intervened to support the EPAs process while setting out the Government's continued concerns about non-least developed countries that have yet to initial an agreement, encouraging flexibility in the EU's approach to these countries and asking that time be made for further discussion. My hon. Friend the Parliamentary Under-Secretary of State for International Development is making a separate, fuller, statement on EPAs.

*Western Balkans*

Ambassador Wolfgang Ischinger, EU representative of the Troika (EU, Russia and US), briefed the Council on the outcome of the Troika process, which had ended without agreement between Belgrade and Pristina on Kosovo's future status. My right hon. Friend the Foreign Secretary intervened to underline the importance of the EU taking on its responsibilities and moving forward to a resolution of the Kosovo issue.

The Council also adopted conclusions supporting the Western Balkans EU perspective and encouraging further progress on key reforms to allow the region to move forward from the conflicts of the 1990s.

*Middle East Peace Process*

Palestinian Prime Minister, Salam Fayyad, briefed the Council on the challenges following Annapolis and on the Palestinian Government's Reform and Development Plan.

The Council adopted Conclusions, which the Government support, welcoming the Annapolis meeting and the understanding between President Abbas and Prime Minister Olmert, to immediately launch bilateral negotiations with a view to concluding a peace treaty by the end of 2008. The Council Conclusions underline the EU's support for security through the early re-engagement and expansion of the EU Police Mission in the West Bank (EUPOL COPPS). The Council also underlined its commitment to work with international partners in supporting the Paris Donors' Conference on 17 December in assisting economic development in the region post-Annapolis.

The Council adopted conclusions on Lebanon reiterating the importance of political parties reaching agreement on a presidential candidate through consensus and dialogue.

*Burma*

The Council discussed the situation in Burma in light of ongoing work in the UN by Special Envoy Ibrahim Gambari and special rapporteur on human rights, Sergio Pinheiro.

The Council noted the appointment of Piero Fassino as EU special envoy to Burma on 6 November and reaffirmed the EU's commitment to supporting UN-led efforts to promote dialogue in Burma.

*Sudan/Chad*

The Council discussed the EU's planned military operation in Chad/Central African Republic. Several member states indicated that they were considering providing further contributions.

The Council adopted conclusions reaffirming the EU's support for the ongoing efforts of the UN and the African Union to achieve a sustainable peace settlement in Darfur, including through mediation of the talks process begun in Sirte on 27 October. The conclusions also call on the parties to do all they can to ensure prompt deployment of an effective AU-UN peacekeeping force, UNAMID, which will assume authority from the current AU Mission in Sudan (AMIS) by 31 December 2007.

## HOME DEPARTMENT

### Justice and Home Affairs Council

**The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier):** The Justice and Home Affairs (JHA) Council was held in Brussels on 6 and 7 December 2007. My right hon. Friend the Secretary of State for Justice and Lord Chancellor, the Parliamentary Under-Secretary of State for Justice my right hon. Friend the Member for Lewisham, East (Bridget Prentice); the Solicitor General for Scotland (Frank Mulholland) and I attended on behalf of the United Kingdom. The following issues were discussed at the Council:

The Council opened with a jumbo meeting of Interior and Employment Ministers who met to discuss the links between migration, employment and the Lisbon agenda. Commissioner Frattini highlighted legal migration as key to delivering the Lisbon agenda and addressing the demographic challenges facing the EU. The UK underlined our commitment to the Lisbon agenda and stated that the key to achieving it was to increase labour market participation, ensure national flexibility in legal migration, to combat illegal migration and to ensure integration and cohesion issues were taken into account in legal migration policy development. Every member state intervened and consistent themes emerged similar to those made by the UK but, in general, member states felt that these decisions were primarily for individual states.

The Council then moved on to the mixed committee which included Norway, Iceland and Switzerland. The presidency began by congratulating all concerned on the historic achievement of the extension of the Schengen acquis to the member states who joined the European Union in 2004. There were also updates on the Schengen Information System (SIS) communication network which was still on schedule to be completed within the prescribed timescale and the SIS II programme. The presidency spoke of the two key issues surrounding the SIS II programme: the overall timescale and the migration of data. The migration issue will be discussed at the informal JHA Council of the Slovenian presidency in January. The Commission said the timescale for delivery of SIS II in December 2008 was still technically possible.

There was a report on the progress made on the directive for common standards and procedures in member states for returning illegally staying third country nationals. As we are not yet convinced of the need for common standards in this area, the UK has not opted into this directive.

The main agenda began with agreement to Council Conclusions on mobility partnerships and circular migration in the framework of the global approach to migration. The presidency compromise was accepted after some textual amendments were made at the request of one member state to ensure references to circular migration were not becoming permanent.

Interior Ministers attended a presidency lunch with the UN High Commissioner for Refugees (UNHCR), Antonio Gutteres. He set out the UNHCR's expectations of the next stage of the Common European Asylum System (CEAS) and urged greater international co-operation between countries in regions of origin, transit and arrival. The Commission announced the results of the Green Paper on the second phase of the CEAS and detailed their timetable for proposals next year. The UK urged caution in timing of the second phase of the CEAS.

The report on the implementation of the counter-terrorism strategy was introduced by the presidency and the new EU Counter-terrorism co-ordinator, Gilles de Kerchove. He focused on the exchange of information and emphasised the importance of member states fulfilling their commitments under the 2005 decision on sharing information with Europol and Eurojust. Gilles de Kerchove commented on the importance of creating synergies between, for example, police, customs and judicial information and outlined the development of "check the web", common principles of data protection, and the implementation of Council decisions. The presidency agreed with Gilles de Kerchove on the importance of the relationship between Europol and Eurojust and work with the US. Work on these and other areas will continue under the Slovenian presidency.

The presidency welcomed the First Reading agreement on the weapons directive with the European Parliament. The UK congratulated the presidency on this outcome. There had been raids in Manchester seizing real and imitation firearms and this clearly underlined the importance of this issue. It is hoped this will be adopted under the Slovenian presidency.

The presidency hoped to conclude chapters vi, vii and ix of the Europol Council decision, subject to the outcome of decisions on budget neutrality, bold posts and immunity. However, after the UK and other member states confirmed their continuing parliamentary scrutiny reserves and member states raised further concerns about the voting regime, it was concluded that that these areas would need to be resolved at a later stage.

The incoming Slovenian presidency congratulated the Portuguese presidency for their achievements, particularly on SISOne4All. They announced that under their presidency, they would continue to take forward work on Europol, Prüm, the weapons directive, readmission agreements and CEAS. They also set out their future presidency programme and announced that their informal Council would take place in January at Brdl Castle.

The presidency also announced that the EU could now support the European Day against the Death Penalty as all reserves had been lifted. It would be celebrated on 10 October every year.

The presidency introduced the proposal to update the 2002 framework decision on combating terrorism to bring it in line with the Council of Europe convention. This was an important subject matter, and there was a delicate balance to be achieved to ensure that fundamental rights were protected whilst terrorism was effectively tackled. The Commission emphasised the importance of responding to terrorist use of the internet as a criminal matter not as freedom of expression. Most member states welcomed the proposed changes to the framework decision and the Commission's comments on the dividing line between freedom of expression and criminal acts.

The presidency presented achievements so far in work on e-justice. The Commission will increase funding in 2008 and produce a communication in May or June setting up an overall e-justice strategy.

The presidency confirmed agreement to the latest text on choice of law in contractual obligations (Rome I). The Government consider that the text now improves on the Rome convention and addresses earlier concerns about potential loss of legal and financial services to other jurisdictions. The UK will consult its stakeholders as soon as possible as to whether it should now opt into the text.

The Council conclusions on Eurojust were adopted without debate. Slovenia announced it would address the issues raised during their presidency. The Government support the conclusions but have made clear previously that any future proposals should focus on ensuring that Eurojust fulfils its potential within its current powers.

A general approach was reached on mutual recognition of suspended sentences, alternative sanctions and conditional sentences. The Government considered that the text balanced the different interests of member states and respected the differences between legal systems, while remaining proportionate. Accordingly, the UK was able to support a general approach.

The presidency gave an update on the framework decision of the European supervision order and confirmed that it was finalising the draft text in co-operation with the Commission and the incoming presidencies on the basis of the mandate provided from the September JHA Council.

The presidency reported that the recent EU-Russia JHA ministerial had gone well and included discussions on narcotics, particularly from Afghanistan and the signature of a memorandum of understanding on financial crime.

The two common positions on the review mechanism and asset recovery in relation to the UN convention against corruption were noted briefly by the presidency but no member state intervened.

The presidency noted the successful outcome of the diplomatic session on The Hague convention on maintenance and observed that this text was a good basis for work on the Community's draft regulation on the same topic.

The presidency announced the important outcomes achieved at the European-Mediterranean migration summit. The statement agreed at the Summit was balanced and comprehensive and included various projects to be taken forward. The Commission had announced €5 million to finance the projects agreed.

During the Justice Ministers' lunch, the Commission reported on the first meeting of the Justice Future Group, on which common-law countries are represented by the Attorney-General of Ireland. There was a general discussion.

One member state noted that consistency was needed between security needs and the Community work to set a standard for the ammonium nitrate content of fertiliser. The Commission agreed and said work would start in the new year.

## INTERNATIONAL DEVELOPMENT

### International Development Association (IDA 15)

**The Secretary of State for International Development (Mr. Douglas Alexander):** I wish to inform the house that the UK intends to make a contribution of £2134 million to the 15th replenishment of the International Development Association (IDA 15) which is the part of the World Bank group that provides assistance to low-income countries. This is the largest single contribution the UK has made to the World Bank. It represents a 49 per cent. increase over the UK's commitment of £1430 million to IDA 14. IDA 15 will cover the period from July 2008 to June 2011.

Collectively donors agreed to a target level for IDA 15 of $42 billion (£21 billion) of which about 75 per cent. is expected to come from donors and the remainder from internal Bank finances. Other donors have yet to finalise their contribution to IDA 15. Final decisions on contributions are expected next week in Berlin.

The money provided to IDA will be used by the World Bank to help countries accelerate progress towards the millennium development goals by supporting primary education, basic health services, clean water and sanitation, environmental safeguards, business climate improvements, infrastructure and institutional reforms. This work paves the way toward economic growth, job creation, higher incomes and better living conditions.

The large UK contribution reflects evidence of the effectiveness of the World Bank in working with partner governments in helping to foster sustainable growth and improvements in the living standards of people in the poorest countries. The World Bank works through a country-based model of development aligning its support behind a country's own poverty and growth strategy.

Negotiations on IDA 15 have been ongoing since March this year and the Bank and donors have agreed to a number of significant changes which will improve the way in which IDA works to deliver the MDGs—including:

Ownership—enhance country ownership by getting more staff in the field and increasing their decision-making authority, and continue to improve and monitor its performance on conditionality including the use of economic policy conditions;

Africa—over 50 per cent. of IDA's resources are expected to be allocated to sub-Saharan Africa over the three years of IDA 15;

Climate change—agreement that IDA has a core role to play with an emphasis on adaptation and, where appropriate, mitigation;

Fragile states—more staff and funding to fragile states, including by extending the length of time post-conflict countries are given additional assistance (for example, Afghanistan); and agreeing a framework to clear the arrears for countries re-engaging with the international community (for example, Liberia)

Gender—intensifying gender mainstreaming and continuing to monitor progress.

The detailed outcomes of the negotiations are recorded in a replenishment report and available on the Bank's website. Donors and borrowers meet midway through each IDA period to review progress and measure the performance of the Bank against the agreed benchmarks.

## JUSTICE

### Restraint in Juvenile Secure Settings

**The Minister of State, Ministry of Justice (Mr. David Hanson):** On 8 October my right hon. Friend the Minister for Children, Young People and Families (Beverley Hughes) and I announced the appointment of Andrew Williamson CBE and Peter Smallridge CBE as independent co-chairs of the review of restraint in juvenile secure settings. The Ministry of Justice and the Department for Children, Schools and Families have joint responsibility for the review.

My right hon. Friend and I undertook to report to the House on progress on the review.

On their appointment, the chairs and Ministers expressed a wish for the review to be open and transparent, and that they expected wide consultation. Since then, the chairs have met a wide range of interested parties. The chairs are also visiting all secure training centres and a range of young offender institutions and secure children's homes to learn first hand about restraint and to hear of the experiences and views of both young people and staff.

The chairs have invited all interested parties to submit written evidence to the review by 7 December. They will now be considering that evidence. However, the chairs are prepared to receive written submissions after 7 December.

The chairs intend to continue consultation, with a view to reporting their recommendations to Ministers by 4 April 2008.

## CABINET OFFICE

### Principal Civil Service Pension Scheme

**The Parliamentary Secretary, Cabinet Office (Gillian Merron):** In my written ministerial statement of 26 July 2007, I referred to the actuarial review of employer contributions payable under the Principal Civil Service Pension Scheme (PCSPS). Hewitt, the PCSPS Scheme Actuary, has now completed its review.

The review concerns the level of contributions payable by employers who participate in the PCSPS. The review does not cover member contributions which are specified in the PCSPS rules.

The review recommends that employer contribution rates should fall from an estimated average of 19.4 per cent. of employers' pay bills to an average of 18.9 per cent. This reduction will come into effect from April 2009.

Copies of Hewitt's report "Review of the Accruing Superannuation Liability Charges (ASLCs) as 31 March 2007" together with a supporting report entitled "Analysis of Scheme Experience between 1 April 2003 and 31 March 2007" have been placed in the Library.

### Data Handling Procedures in Government

**The Minister for the Cabinet Office (Edward Miliband):** On 21 November, the Prime Minister announced that he had asked the Cabinet Secretary, with the advice of security experts, to work with Departments to ensure that all Departments and all agencies check their procedures for the storage and use of data.

The Cabinet Secretary has provided an interim progress report, which I have today placed in the Libraries of both Houses.

The report further sets out a number of initial recommendations relating to the framework within which data are handled, which the Government accept.

A final report on the work is expected in spring 2008.

## TRANSPORT

### Dartford-Thurrock Crossing Charging Scheme (Accounts for 2006-07)

**The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris):** The Dartford-Thurrock Crossing charging scheme account for 2006-07 is published today under Section 3(1)(d) of the Trunk Road Charging Schemes (Bridges and Tunnels) (Keeping of Accounts) (England) Regulations 2003. A copy of the accounts will be placed in the Library of the House.

### Transport Personnel

**The Secretary of State for Transport (Ruth Kelly):** The Government need to be sure at all times that the right measures are in place to counter the evolving threat from international terrorism. To achieve this, we need regularly to consider and evaluate specific security measures to ensure that we have the balance right in the light of changing circumstances.

In the last two years, the Department has been helped greatly in this process by the findings of two separate reviews into the management and application of security on transport infrastructure: "Policing at Airports" by Stephen Boys Smith and Lord West's wider ranging "Review of the Protection of Crowded Places, Critical National Infrastructure and Transport Infrastructure".

Following on from Lord West's review, which focused on physical infrastructure, and to continue this process of ongoing appraisal of the security framework, the Government have commissioned an independent review of how personnel security is delivered across the transport sector, including through background and identity checks and related measures. The review will examine the extent to which current arrangements cover all and only the right transport workers, and whether they do so to the correct and proportionate degree. It will provide an important and timely health check of current personnel security arrangements across the sector.

The review will be conducted by a team led by Stephen Boys Smith, who led the 2006 independent review of airport policing. This new review team will engage closely with all relevant elements of the transport sector as it carries out its work. A summary of the review's terms of reference has been placed in the Library of the House and published on my Department's website.

I have asked Stephen Boys Smith to provide an initial report to me in the new year setting out in detail the scope of the work that he will carry out and a timetable for the delivery of his final conclusions. Following completion of the review, I will publish a summary of its recommendations.

I would encourage all parts of the transport sector to work with Stephen Boys Smith to ensure a full and effective review and maintain a robust, but proportionate, framework for transport security.

## WORK AND PENSIONS

### Financial Assistance Scheme

**The Secretary of State for Work and Pensions (Mr. Peter Hain):** The Prime Minister announced last week that the Government would make a statement on the review of pension scheme assets undertaken by Andrew Young. The Prime Minister said that as a result of the review the Government would be able to announce that assistance from the Financial Assistance Scheme (FAS) would be guaranteed to 90 per cent.

Andrew Young's report is published today and I am very pleased that we are able to announce a settlement that helps the 130,000 people already eligible for FAS—and an additional 11,000 people in some schemes with solvent employers. These have suffered losses, through no fault of their own, as a result of their pension schemes winding up underfunded between 1 January 1997 and 5 April 2005, before the introduction of the Pension Protection Fund.

In his interim report published in July, Andrew Young identified that there was approximately £1.7 billion in assets in affected pension schemes that had not been used for annuity purchase. He concluded that the current system of annuitisation was not the best use of these assets. He said alternative solutions could provide the basis for higher assistance for members.

The Government recognised in July that more needed to be done to help those who lost their pensions. Following the publication of Andrew Young's interim report, we therefore committed to match the extra value identified by the review with the goal of moving towards 90 per cent. assistance. We also introduced regulations to protect the £1.7 billion, placing a temporary halt on the purchase of annuities.

Since July, Andrew Young has been considering how much additional value might be generated by alternative treatment of the assets. These are complex issues and I thank him for the clarity of the final conclusions in his report.

He has concluded that, to provide a guaranteed benefit level, the best value will come from Government absorbing all the residual assets in the schemes and then making the associated payments as they fall due[1]. He has also said that members of schemes wound up by solvent employers are in similar circumstances to those in schemes wound up by insolvent employers.

Since receiving a draft of the report ten days ago, I have been working closely with the Chancellor to finalise the details of the Government response.

I can announce today the following extensions to the Financial Assistance Scheme:

> All scheme members will be guaranteed 90 per cent. of their accrued pension at the date of commencement of wind-up, revalued to their retirement date[2].
>
> This will be subject to a cap of £26,000, the value of which will be protected.
>
> Payment of assistance derived from post-1997 service will be increased in line with inflation (subject to a 2.5 per cent. limit).
>
> Assistance will be paid from the scheme's normal retirement age, subject to a lower age limit of 60. (people who are unable to work due to ill health will also be able to apply for early access to their payments from the age of 60, subject to actuarial reduction)[3]

Where their share of scheme funds allows, members will be able to commute some portion of their pension to a lump sum[4]

Assistance will be extended to members of schemes which wound up underfunded (after 1 January 1997 and before the employer was required to meet the full buyout cost) where the employer is still solvent.

The final details of these proposals will be confirmed in the new year, when we will outline the legislation necessary to give effect to this package. We will do this as quickly as possible and call on all parties involved to work with the Government to ensure this commitment results in increased payments in the fastest possible time. Our priority will be to ensure that people who have already reached their scheme pension age receive payment at 90 per cent.

The additional costs of this package will be £935 million in Net Present Value (NPV) terms. This will be on top of the £2 billon NPV we have already committed—£8.6 billion in cash terms. This will take the total commitment to £2.9 billion NPV, or £12.5 billion in cash terms.

This exceeds the Government's commitment to match the additional value identified by Andrew Young.

The Government recognise the difficulties experienced by those who lost their pensions through no fault of their own. We believe that the revised scheme we have announced today represents a generous and appropriate final settlement.

Notes:

1) HMG will take overpayments to some fully funded pensions and other benefits associated with the assets transferred. The figures referred to in this statement do not include such members.

2) Pensions accrued up to a member's date of leaving will be revalued in line with scheme rules up to the start of wind-up. Pensions that would have been revalued under scheme rules will then be revalued in line with price inflation capped at 5 per cent. per year compounded for the period. These rules will broadly equate to the compensation revaluation offered by the PPF.

3) Payments will be backdated to the 14 May 2004 when the FAS was first announced.

4) Subject to share of fund and restrictions that may be placed on the commutation of Guaranteed Minimum Pension rights.

5) Inflation linking of pensions in payment will be capped at 2.5 per cent.

# Written Ministerial Statements

*Tuesday 18 December 2007*

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Simplifying Business Support

**The Minister for Competitiveness (Mr. Stephen Timms):** Tomorrow my Department is publishing a formal response to the consultation on how Government Departments, Regional Development Agencies, local authorities and non-departmental public bodies should support business in the future. This looks not just at the support my Department provides, but much more broadly across the whole of government at a national, regional and local level.

The formal response document builds on the initial Government response to the "Simplifying Business Support" consultation. It summarises responses received and provides further information on the future, shared framework for publicly funded business support we are developing in the light of evidence and consultation feedback. This shared framework will enable Government and the broader public sector to implement our vision for business support in 2010.

It sets out the principles for making the delivery of business support more efficient and builds on decisions taken in the light of economic analysis and the consultation on "Simplifying Business Support" on access to business support and business support interventions referred to in paragraphs 4.43 to 4.46 of the pre-Budget report. Business Link will continue to be developed as the primary publicly funded access channel to business support. In the spirit of simplification, Business Link will aim to build on best practice partnership working with local authorities, business support providers, business membership organisations and other key partners.

We are also publishing an early stage impact assessment.

We have consulted businesses, including social enterprises, business representatives, local authorities, organisations that support business and other interested parties. The consultation ran from 22 June to 14 September. Copies of the response to the consultation document will be placed in the Libraries of both Houses on 19 December 2007 and the document will be on the DTI website at:

www.dti.gov.uk/consultations/index

## COMMUNITIES AND LOCAL GOVERNMENT

### Homes and Communities Agency

**The Minister for Housing (Yvette Cooper):** Sir Bob Kerslake has been appointed the first chief executive of the Homes and Communities Agency.

The new agency will be key to delivering the 3 million new homes by 2020 pledged by the Prime Minister. The Homes and Communities Agency will bring together the current work and programmes of the Housing Corporation and English Partnerships. It will also take on delivery functions from Communities and Local Government. We will set out further detail on the Homes and Communities Agency functions to inform the Committee stage of the Housing and Regeneration Bill in January.

Sir Bob is currently chief executive of Sheffield city council and will initially take responsibility for overseeing the development and implementation of the agency. He will then become its first chief executive when the agency begins operating on 1 April 2009.

Sir Bob has shown throughout his career a strong record of delivery in housing and regeneration. He was selected from a strong field of applicants for the position and is ideally suited to leading the agency in delivering Government's challenging housing and regeneration agenda.

### Local Government

**The Minister for Local Government (John Healey):** On 5 December 2007, I announced to the House the five unitary proposals that the Secretary of State had decided to implement without modification, having considered all the information and representations available to her.

In the case of the unitary proposals for Cheshire, I announced on 5 December that there remained alternative proposals for the whole area concerned which, as I confirmed to the House in July, we judged reasonably likely to achieve the outcomes specified in the five criteria. I assured the House at the time that we would make final decisions as soon as we could.

Having now considered all the information and representations available to her, including the very large volume of additional material that she has received since July, the Secretary of State remains of the view that there is a reasonable likelihood that, if implemented, both proposals would meet the outcomes specified by each of the criteria set out in the invitation of 26 October 2006.

Overall, she has decided that it is more likely that the long-term outcomes around strategic leadership, neighbourhood empowerment and value for money and equity on public services would be delivered to the greater extent by the proposal for a two unitary Cheshire. This is the process that we set out in the consultation document "Means of Prioritising Proposals" issued in June 2007. She has therefore decided to confirm her earlier "minded to" decision, and accordingly intends to implement the proposal for two unitary authorities in Cheshire by order made under section 7 of the Local Government and Public Involvement in Health Act 2007.

It is now for all the councils in Cheshire—their members and employees—to work constructively and imaginatively together to deliver two new unitary councils that will achieve their full potential for local residents. Local people will rightly expect nothing less than their successful delivery.

In the case of the unitary proposals from Bedford borough council and Bedfordshire county council, I confirmed on 5 December that, on the basis of the information then available to her, the Secretary of State remained minded to implement Bedford borough council's proposal subject to there being a satisfactory proposal for the rest of the county area. I notified the House on 19 November that the Secretary of State had invited the other councils in Bedfordshire by 17 December to make proposals for future unitary local government structures in the remainder of the county area.

We have now received a response to this further invitation from the remaining district councils in Bedfordshire—Mid and South Bedfordshire district councils. In accordance with section 7(3) of the 2007 Act, we will tomorrow be launching a consultation seeking the views of partners and stakeholders in the areas affected by the proposals for Bedfordshire. Partners and stakeholders includes all local authorities, the wider public sector, the business community, and the voluntary and community sector. It will, however, be open to anyone to respond to the consultation document that we are issuing, copies of which will be placed in the Libraries of both Houses.

After the stakeholder consultation, we will consider very carefully all the representations that we have received. Any proposal or proposals will proceed to implementation if, and only if, when we take our final decisions, we remain satisfied that they meet all of the criteria set out in the invitation.

## CULTURE, MEDIA AND SPORT

### Correction to Written PQ 165260

**The Minister of State, Department for Culture, Media and Sport (Margaret Hodge):** An error has been identified in the written answer given to the right hon. Member for Maidenhead (Mrs. May), 26 November 2007, *Official Report*, column 12W.

The full answer given was as follows:

*Mrs. May*: To ask the Secretary of State for Culture, Media and Sport, how many contracts were awarded by his Department to Opinion Leader Research in each year since 1997; and in respect of each what was (a) the title and purpose of the project, (b) the cost to the public purse and (c) the dates on which the project was (i) put to tender, (ii) awarded to Opinion Leader Research, (iii) carried out and (iv) completed and its findings put to the Department.

*Margaret Hodge*: "There have been no contracts awarded by my Department to Opinion Leader Research since 1997".

The correct answer should have been:

"In 2005 the Central Office of Information commissioned on behalf of the Department a qualitative research project on the BBC trust and the television licence fee from Opinion Leader Research, as part of the BBC's charter review. The resulting report, "BBC Charter Review: Focus on the BBC Trust and the Enforcement and Collection of the Licence Fee", was completed in December 2005 and published by the Department in March 2006. The Department made a payment of £38,205.13 to the Central Office of Communication for this research.

The Central Office of Information operates a specific roster of accredited suppliers of market research and has the capacity and expertise to help identify the most suitable agency for a particular project. The Department chose to rely on the Central Office of Information's expertise and use its roster system to allocate the project, with the result that a formal tender procedure by the Department was not necessary".

## DEFENCE

### Chinook Mk3 Reversion Announcement

**The Secretary of State for Defence (Des Browne):** I announced in March our intention to convert the eight Chinook Mark 3 helicopters to a support helicopter role, in order to make them available to operations as quickly as possible. I am pleased to report that the Ministry of Defence has now signed a contract with Boeing to carry out the modification work. The most likely overall cost to the defence budget to modify the helicopters is £90.1 million, of which £62 million is taken up by the contract with Boeing.

We expect the first aircraft to be available for operations in 2009. These eight additional helicopters will represent a significant uplift to the UK's heavy lift helicopter fleet. As the Chinook fleet has proven on numerous occasions, these helicopters are a key battle-winning capability. The eight converted Chinook will join the existing fleet of 40 RAF Chinook helicopters and will be based at RAF Odiham.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Single Farm Payment Scheme

**The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn):** In my statement of 2 July (*Official Report*, column 41WS), I reported that the Rural Payments Agency (RPA) had met its formal target of making 96.14 per cent. of payments under the 2006 Single Payment Scheme (SPS) by 30 June.

Outstanding cases continue to be processed and there now remain about 60 claimants who have received a partial payment and await the balancing sum. Work has also to be completed in respect of a further 80 claims, mainly small ones and those affected by legal issues such as probate. Starting in the new year, interest will be paid to claimants on sums paid after 30 June 2007 on the same basis as for the 2005 scheme.

I also reported in July that a review was underway of 2005 cases where entitlement values have been identified for review and possible adjustment, upwards or downwards, to 2005 and 2006 payments. Further investigation led to a total of some 38,250 cases for review. The review has been completed in all but 1,150 cases, mostly those identified for possible correction subsequent to July. Where appropriate, additional payments are being made on the reviewed cases. Work is also underway to recover overpayments.

Alongside those activities, RPA has been processing the 106,000 or so claims that have been submitted under the 2007 SPS. The necessary system and process updates have progressed to plan, allowing a pilot run of full payments to be made on 10 December. Having evaluated the results of that pilot, the RPA chief executive has now authorised a series of full payment runs with the first payments expected to be with claimants this week. With payments having been initiated a month earlier than for the last scheme year, the agency is currently on track to meet its targets for 2007 SPS of making 75 per cent. of the total value of payments by the end of March 2008 and 90 per cent. by the end of June 2008.

I will continue to update the House on progress.

## Agriculture and Fisheries Council

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw):** I represented the United Kingdom at the November Agriculture and Fisheries Council in Brussels. The Scottish Cabinet Secretary for Rural Affairs and the Environment, Richard Lochhead, and the Welsh Minister for Rural Affairs, Elin Jones, also attended.

The Council reached unanimous political agreement, with the UK voting in favour, on a proposal establishing a multi-annual recovery plan for Bluefin tuna in the eastern Atlantic and Mediterranean. The plan transposes into EU legislation the recommendation agreed in November 2006 by the International Commission for the Conservation of the Atlantic Tunas (ICCAT).

The Agriculture Commissioner presented the Commission Communication "Preparing for the Health Check" of the common agriculture policy (CAP) reform. The communication will build on the approach that began with the 2003 reforms, improve the way the policy operates based on the experience gathered since 2003 and make it fit for the new challenges and opportunities in an EU of 27 member states in 2007. I welcomed the Commission's initiative as an important opportunity further to cut the trade distorting nature of the CAP, reduce regulatory burdens, give farmers greater control over their business decisions, and direct more public spending towards delivery of targeted public benefits.

The Agriculture Commissioner presented a proposal to reform the EU support scheme in the cotton sector. This proposal will introduce a revised reform of the EU cotton regime following the annulment by the European Court of Justice of the cotton reforms agreed in 2004. She also presented a proposal to temporarily suspend the import duties on certain cereals until 30 June 2008, with the exclusion of oats. I intervened to enter a parliamentary scrutiny reserve and queried why oats was excluded from the scope of the proposal, as it was inconsistent with the Healthcheck paper that says that all cereals should be dealt with in the same way.

The Fisheries Commissioner presented a proposal on combating illegal, unreported and unregulated fishing (IUU) and updated Council on the outcome of a recent conference held in Lisbon. I welcomed the Commission's initiative as an opportunity to reduce the regulatory burden of the necessary controls. I also stressed the importance of dealing with the problem and the crucial role that the trade network will play in this regard.

The Commission also updated the Council on the conclusion of the annual EU/Norway consultations for 2008 and the 2006-08 action plan for simplifying and improving the common fisheries policy. On EU/Norway, I warmly welcomed the Community commitment to reduce discarding in fisheries which catch cod and reducing whiting discards in all fisheries and was pleased with a cod TAC increase of 11 per cent. I regretted the fact that Norway was unable to accept the unanimous pelagic regional advisory council advice on the herring TAC but overall felt it was a fair agreement for the UK and the Community.

Under any other business, Greece supported by a few member states, called on the Commission to introduce measures (such as income support, intervention measures or transport aids) to support its livestock industry due to the steep rise in costs of animal feed.

Latvia called on the Commission to use intervention funds to compensate livestock producers for the high cereals prices and to come forward with proposals for "long-term systematic solutions and crisis management" in the context of the Healthcheck.

France, supported by a few member states, called for further relief measures in the form of export refunds to alleviate the difficulties currently being experienced in the pigmeat sector. The Agriculture Commissioner announced her intentions to submit a proposal to introduce export refunds in the pigmeat sector to the pigmeat management committee on 29 November.

The Agriculture Commissioner also updated Council on the state of play in the WTO negotiations.

Over lunch, Ministers had an exchange of views on the Commission's paper analysing the economic impacts of unapproved GMOs on EU feed imports and livestock production. In common with some other member states I argued that while there must be no compromise on maintaining a rigorous assessment and approvals regime for new GM products entering the EU, we should explore the scope for overcoming difficulties in this area and improving the speed with which GM applications are processed.

In the margins of Council, the presidency and the Commission held trilateral meetings with Agriculture Ministers from the various member states to discuss the Commission's wine reform proposals.

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw):** I will be representing the United Kingdom at this month's Agriculture and Fisheries Council in Brussels. The Scottish Cabinet Secretary for Rural Affairs and the Environment, Richard Lochhead, and the Northern Irish Minister for Agriculture and Rural Development, Michelle Gildernew, will also attend.

The presidency will seek political agreements on a Commission proposal to reform the wine sector and on a package of proposals on food improvement agents. The presidency will also seek political agreement on the total allowable catches (TACS) and quotas and related measures fixing fishing opportunities for certain fish stocks for 2008 and on associated conditions for certain fishing stocks, applicable in Community waters.

The Council hopes to adopt a proposal on the definition, description, presentation and labelling of spirit drinks and a proposal establishing the date for application of electronic identification in sheep and goats born after 31 December 2007.

The Agriculture and Rural Development Commissioner will present the Commission's report on the dairy market sector and a proposal to increase milk quotas by 2 per cent.

The Health and Consumer Protection Commissioner will report on the progress of a proposal covering the marketing of plant protection products. Following this, the presidency will seek political agreement on a proposal establishing the sustainable use of pesticides.

A number of issues, as follows, will be raised under any other business: the Netherlands has asked for an update from the Commission on illegal timber imports. Germany has asked for a discussion on the common action plan on shark fishing; and Sweden has asked for a discussion on the eligibility criteria for the slaughter premium for bovine animals.

In addition, the Commission will provide a written update on avian influenza and will ask Council for the swift adoption of the EU/Mauritania fisheries agreement.

## FOREIGN AND COMMONWEALTH OFFICE

### Sanctions Regimes

**The Minister for the Middle East (Dr. Kim Howells):** The Government is committed to informing Parliament annually of the sanctions regimes which the United Kingdom implements. Currently the United Kingdom implements United Nations sanctions in relation to al-Qaeda and the Taliban, Cote d'Ivoire, the Democratic Republic of the Congo, the Democratic Peoples' Republic of Korea, Iran, Iraq, Lebanon, Liberia, Rwanda, Sierra Leone, Somalia, Sudan and terrorism.

The UK also implements sanctions regimes imposed autonomously by the EU in relation to Belarus, Burma, China, the former Federal Republic of Yugoslavia (in connection with individuals indicted by the International Criminal Tribunal for the former Yugoslavia or responsible for certain acts of violence at Mostar), the Republic of Macedonia, Moldova, Uzbekistan and Zimbabwe.

In accordance with a decision of the Organisation for Security and Co-operation in Europe, the United Kingdom implements arms embargoes on Armenia and Azerbaijan. The Government also takes full account of the Economic Community of West African States moratorium on certain exports of small arms and light weapons to Economic Community of West African States members.

A full list of sanctions regimes and restrictive measures implemented by the UK is published on the Foreign and Commonwealth Office website at:

www.fco.gov.uk/sanctions

Following a request from the noble Lord the right hon. Lord Wakeham during the 12 October debate on the impact of economic sanctions in another place, this document now includes objectives and lift criteria for each regime.

### Presidential Visit

**The Secretary of State for Foreign and Commonwealth Affairs (David Miliband):** I am pleased to announce that Her Majesty the Queen has invited the President of the French Republic Mr. Nicolas Sarkozy to pay a state visit to the United Kingdom from Wednesday 26 March to Friday 28 March 2008. The visit will further reinforce the close relations which exist between the United Kingdom and the Republic of France. The annual UK-France summit will take place during the state visit.

## HEALTH

### Community Hospitals

**The Minister of State, Department of Health (Mr. Ben Bradshaw):** "Our Health, Our Care, Our Community" published in July 2006 set out our ambition for community hospitals. It announced the setting up of a £750 million capital investment programme over five years from 2006-07 to develop a new generation of community hospitals and services.

I am announcing today funding for a further nine schemes, which are supported locally by a broad cross-section of partners and other stakeholders:

£3 million towards the development of a new town centre primary care facility in Hartlepool;

£3.7 million to refurbish St Charles hospital in North Kensington in London;

£5 million for a new health park at Keynsham in Bath and North Somerset;

£6.4 million towards a new health and social care campus at Dursley, Berkeley Vale;

£7 million towards a joint health and community campus development for Selby;

£13.2 million for the development of two community hospitals at Moreton and at Bourton in the North Cotswolds;

£17.1 million to develop a community hospital on the site of St Mary's hospital in Portsmouth;

£19.3 million to provide a new community hospital facility at Malvern; and

£20 million to develop three community hospitals in East Riding at Beverley, Horsea and Driffield hospitals.

Approval is subject to clearance through the formal business case process.

The total value of these schemes is equivalent to approximately £132 million, of which £95 million will be funded from the community hospitals and services programme. Today's announcement means that 23 schemes have now been approved which have a total value of roughly £272 million, bringing the investment from the community hospitals programme up to £190 million.

These schemes will change the face of the local NHS. They offer genuine opportunities to deliver better and more flexible primary care and community health services to local communities providing better access and integrated services closer to home.

### NHS Pension Scheme Valuation

**The Parliamentary Under-Secretary of State for Health (Ann Keen):** The report by the Government Actuary of the valuation of the NHS pension scheme at 2004 is published today. I am placing a copy of this report in the Library of the House.

The principal purposes of the valuation are to assess the level of liability in respect of the benefits due under the NHSPS regulations, taking into account the demographic experience of the scheme since the previous valuation, and to recommend the contribution rate to be paid by the employers who participate in the scheme. This will be implemented from 1 April 2008.

The report shows that as a result of the changes to the NHS pension scheme being implemented from 1 April 2008, the recommended employer contribution rate has reduced from 15.3 per cent. of pensionable pay (that would have been required) to 14 per cent. of pensionable pay (the current contribution rate). This represents a saving of around £430 million in contributions.

## HOME DEPARTMENT

### Visitors

**The Minister for Borders and Immigration (Mr. Liam Byrne):** I am today publishing a consultation paper on proposals to reform the visitor routes into the UK.

This consultation fulfils the promise made in our strategy "Securing the UK Border" published in March 2007 to consult on four main categories of visitor: tourist, business, short-term student and family. Copies of the consultation document have been placed in the Libraries of both Houses.

Over the next 12 months there will be sweeping changes to the immigration system. The points-based system will ensure that only those the UK needs will be able to come here to work, study or train and we are currently consulting on new arrangements for marriage visas, including whether to introduce an English language requirement. The time is now right to look at short-term routes into the UK.

Our visit visa system for those people wishing to travel to the UK is already changing—by next spring we will be taking everyone's biometrics so that only the people we are sure of can come to Britain. We now want to make sure that the visitor system is robust against abuse while maintaining the UK's position as a destination of choice for tourists.

The consultation contains a number of options to ensure that the system is fit for the 21st century. These include reducing the maximum leave available to tourists from six to three months; introducing a UK-based sponsor for visitors travelling to see family in the UK, requiring this sponsor to put up a financial deposit to guarantee that their family member will leave the UK at the end of their stay and reforming appeal rights for these visitors.

The consultation period will run for 12 weeks and the final date for responses is 7 March 2008. Once the process has concluded, and views considered, we will report on the results of the consultation and any proposed changes to the immigration rules relating to visitors.

## INNOVATION, UNIVERSITIES AND SKILLS

### Skills Pledge: Management Information

**The Secretary of State for Innovation, Universities and Skills (Mr. John Denham):** I am drawing the attention of the House to a factual error of reporting in relation to the number of employers who have voluntarily made the skills pledge to support the upskilling of their employees.

On 12 December 2007 the House was informed by the Minister for Skills within Department for Innovation, Universities and Skills, my hon. Friend the Member for Tottenham (Mr. Lammy), that the number of employees covered by the voluntary pledge was 3.1 million, based on information from the Learning and Skills Council (LSC). Incorrect figures were used in a small number of other instances in reply to Members' questions and in another place. However, I was informed on Friday 14 December by the LSC that the correct figure is 2.3 million and that the mistake was due to a computer programming error which has now been detected and rectified. The LSC has confirmed that the number of employers making the skills pledge (630) was correct. I apologise to the House unreservedly for this inadvertent error. I am also writing to Members who were given the incorrect figure.

The LSC's internal quality assurance processes identified this programming error. However, I have asked the LSC chief executive to ensure through a rigorous review of his organisation's information and reporting systems that there is no recurrence of this problem. This review will report to me in January 2008 as part of my ongoing considerations on the future leadership and management of the skills pledge and its contribution to making the skills of the workforce world class.

## NORTHERN IRELAND

### Adult Male Prison Estate

**The Minister of State, Northern Ireland Office (Paul Goggins):** I am publishing today a report entitled the "Options Appraisal Relating to the Long-term Accommodation Needs in the Adult Male Estate for the Northern Ireland Prison Service".

Following a review of the Northern Ireland Prison Service efficiency programme in June 2005, the Government asked the Northern Ireland Prison Service to prepare a strategic development plan aimed at drawing up a blueprint for the long-term development of the Prison Service. The estate strategy is a fundamental part of that process and in February of this year as part of this review I commissioned the "Options Appraisal".

I am proposing to retain the two current sites, Maghaberry and Magilligan, with an option for a third site should the prison population continue to rise.

I have decided that we will proceed with an 800-bed replacement prison for Magilligan delivered on a phased basis. The Northern Ireland Prison Service will recruit a programme manager and design team to take forward this work.

As the further detailed business case is worked up, the timing and phasing of the redevelopment at Magilligan will be informed by the availability of funding through the next spending round.

Over the next three years we will provide additional prison places in order to reduce doubling and meet shorter term population pressures. Specifically we will redevelop Mourne House at Maghaberry Prison as a 300-bed unit (240 new places), work on which has already commenced. There will be up to an additional 170 places at Magilligan including the recently opened Alpha Unit.

I have placed copies of the "Options Appraisal" in the Library of the House.

## PRIME MINISTER

### Council of Europe and Western European Union

**The Prime Minister (Mr. Gordon Brown):** My hon. Friend the Member for Crosby (Mrs. Curtis-Thomas) has been appointed as a substitute member of the United Kingdom Delegation to the Parliamentary Assembly of the Council of Europe and the Assembly of Western European Union in place of my hon. Friend the Member for Pendle (Mr. Prentice).

## OBSERVATIONS

## COMMUNITIES AND LOCAL GOVERNMENT

### Housing Development (Kettering)

*The Humble Petition of Mr John Brunige and others of like disposition listed below,*

Sheweth

That new housing development proposed for Kettering and its surrounding area will only be sustainable and of general benefit for the local area if the necessary additional infrastructure to support the new population is put in place ahead of or in parallel with new housing construction.

Wherefore your Petitioners pray that your Honourable House shall urge the Department of Communities and Local Government to consider the plight of Mr. Brunige and the other Petitioners and either bring forward firm plans to provide the necessary infrastructure or stop the housing expansion plans.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Mr. Philip Hollobone, Official Report,* 23 July 2007; Vol. 463, c. 658 .] [P000083]

*Observations from the Secretary of State for Communities and Local Government:*

Northamptonshire is earmarked for significant growth as part of the Milton Keynes and South Midlands (MKSM) growth area. Over 100,000 new homes will be built. Kettering is one of 4 districts in North Northamptonshire which forms part of a Local Delivery Vehicle dedicated to providing that growth.

The local authorities and other partners in North Northants are all currently delivering infrastructure projects through a total of £25m GAF2 (and in the case of the County Council as Local Highway Authority and the Highways Agency, around £7.4 million CIF) funding, in preparation for the growth that is expected to occur. For GAF2 projects the delivery of these are being co-ordinated by North Northants Development Company (NNDC) - the Local Delivery Vehicle (LDV) for North Northamptonshire - and for County Infrastructure funding (CIF) by the County Council and the Highways Agency.

These projects include highways improvements, bus and traffic management schemes, green infrastructure provision, town centre regeneration projects, remediation and bringing back into use of key employment sites to facilitate jobs growth etc.

For future delivery of key infrastructure, the LDVs (in this case NNDC) and their partners have been required to produce comprehensive Programmes of Development (PoDs) which are currently being considered by DCLG, and funding announcements for the next three years will be made in December 2007. These PoDs are intended to give details of the housing growth and where it is expected to go, plus provide details of all the key infrastructure projects which will be required over the medium and longer term to sustain such growth. In addition, NNDC and WNDC (the LDV for West Northants) have commissioned a Strategic Northamptonshire Action Plan which is currently being prepared to plan for the necessary increase in both the numbers and quality of jobs across the whole of Northamptonshire.

The PoD does contain details of some transport schemes, some of which are likely to be more suitable for the next round of GIF funding when this is announced. In addition, it does highlight that there are key road infrastructure restraints to the proposed growth- in particular the A14. There are no easy or quick solutions to this, but potential solutions have been identified which will take until at least 2015 to implement fully. In the meantime, the Highways Agency, NNDC, the County Council and other partners are working very closely together to work out interim solutions which can allow phased growth to go ahead in the meantime.

## HEALTH

### Ambulance Control Centre (Shrewsbury)

*The Petition of those concerned about the proposed closure of the Ambulance Emergency Operations Centre in Shrewsbury,*

Declares that the Petitioners condemn the proposed closure of the Ambulance Emergency Operations Centre in Shrewsbury, and are also deeply concerned about the possible loss of 16 fully trained Ambulance Control Centre staff jobs.

The Petitioners therefore request that the House of Commons urges the Department of Health to instruct the West Midlands Ambulance Service to guarantee the continuation of control services in Shropshire.

And the Petitioners remain, etc.—*[Presented by Daniel Kawczynski, Official Report,* 19 November 2007; Vol. 467, c. 1071 .] [P000061]

*Observations from the Secretary of State for Health:*

Arrangements for where ambulance service control rooms are situated, and how calls into the control rooms are received, are a matter for the ambulance services themselves.

However, the Department would expect Trusts to ensure that their control rooms are fit for purpose and have the necessary capacity, capability and resilience to deal with the requirements of a modern ambulance service. The majority of new Ambulance Trusts are looking at a range of issues relating to how they can streamline and improve their operations and WMAS are not alone in examining their control room functions.

*Wednesday 12 December 2007*

## Carers' Grant

*The Petition of the Alzheimer's Society (South Buckinghamshire Branch) and residents of Chesham and Amersham and others,*

Declares that carers and former carers having greatly appreciated Carers Grant that has enabled them to take breaks from caring for those closest to them and that this benefit has helped them to care for those that they love in their own homes.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to ensure that this valuable benefit continues to be made available through the Alzheimer's Society and other organisations in the voluntary sector.

And the Petitioners remain, etc. [P000085]

# Petitions

*Thursday 13 December 2007*

## OBSERVATIONS

## HEALTH

### Frontline Health Services (Haverhill)

*The Petition of residents of Haverhill,*

Declares that Haverhill doctors are united against plans to cut funding for the towns frontline health services by over £300,000.

The Petitioners therefore request that the House of Commons urges the Department of Health to instruct Suffolk Primary Care Trust to reconsider the reduction in funding to Haverhill GP practices.

And the Petitioners remain, etc.—*[Presented by Mr. Richard Spring, Official Report*, 22 November 2007; Vol. 467, c. 1423 .] [P000057]

*Observations from the Secretary of State for Health:*

The issues raised in the petition are local matters for Suffolk Primary Care Trust (PCT) and my Department will bring these to the attention of the Strategic Health Authority, NHS East of England.

# Petitions

*Monday 17 December 2007*

## PRESENTED PETITIONS

### Post Office Closures (West Sussex)

*The Petition of Post Office Users of Worthing and Adur,*

Declares that the closures proposed by the Post Office Ltd (POL) to nine post offices located in Worthing and Adur in West Sussex, which come on top of previous substantial closures and are the most severe changes suggested in the whole of Sussex, are not in the best interests of local residents many of whom are elderly and are unable to travel the increased long distances that closures entail, local shops rely on Post Offices to encourage local business or indeed the local community as a whole which already experiences long queues for access to Post Offices.

The Petitioners therefore request that the House of Commons Her Majesty's Government, as a matter of urgent public importance, to instruct the Royal Mail Group to suspend this closure programme and redefine the criteria on which closures are being proposed with regard to the hardship it will cause communities with high levels of elderly people and deprivation and poor public transport links in particular.

And the Petitioners remain, etc.

## OBSERVATIONS

## COMMUNITIES AND LOCAL GOVERNMENT

### Planning (Leighton Buzzard)

*The Petition of the people of Leighton Buzzard, Linslade and surrounding parishes of Eggington, Heath and Reach and Hockliffe,*

Declares that, while recognising the need for affordable housing growth to meet local need, it strongly objects to the disproportionate and unsustainable proposals to build 6,000 dwellings on 850 acres of Green Belt land around their communities. This enforced indiscriminate development is a direct result of Leighton Linslade being placed in the Growth Area for South Bedfordshire. Large-scale housing developments have been ongoing around the south of Leighton Buzzard since 2001, and a further such development of 1,300 homes is currently going through the planning process. However, this recent expansion has not brought with it more jobs or opportunities for local people. Their town is at breaking point. They are already unable to sustain the existing population with healthcare, education, policing, social care, sporting and community facilities that it needs. Traffic congestion is intolerable, with roads being completely grid-locked at peak times. They believe that further large-scale development will place an impossible extra strain on an area that is already woefully short of infrastructure. It will accelerate the decline of our historic town centre. There will be a hugely negative impact on their local environment, their communities and their quality of life. Large sections of their Green Belt will be lost forever. Their small market town and the surrounding villages will be irreversibly changed for the worse.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Communities and Local Government to reject the proposed development and any similar future unsustainable developments, and to recommend that Leighton Linslade and surrounding parishes are excluded from the Growth Area for South Bedfordshire.

And the Petitioners remain, etc.—*[Presented by Andrew Selous, Official Report, 13 November 2007; Vol. 467, c. 642 .]* [P000044]

*Observations from the Secretary of State for Communities and Local Government:*

The scale and location of the development in the area of concern to the petitioners is set out in the Milton Keynes and South Midlands Sub-Regional Strategy which was produced following extensive public consultation. The level of development to be delivered in the Leighton Linslade area is dependent on the scale of growth to be accommodated within urban extensions to Luton and Dunstable Regis.

The Sub-regional Strategy also requires the local authorities to take positive action to deal with the issues raised by the petitioners including: recycling of urban land; increased housing delivery within the built up area; increasing the attractiveness of town centres; raising environmental quality; tackling congestion and providing better public transport; achieving better quality development; providing a better choice of employment sites to attract a wider range of companies, and ensuring early delivery of sustainable urban extensions (£1 million was recently allocated for the development of a Sustainable Transport exemplar scheme for Leighton Linslade).

The impact on local services should be addressed in the local sustainable Community Strategy prepared by the Local Strategic Partnership and this must be a key input to the production of the Local Development Framework which will set out the preferred development options in detail. The Local Development Framework process is designed to include extensive public consultation and local residents should take the opportunity to engage constructively with the local planning authority as it seeks to develop an effective core strategy for dealing with the growth which Luton and South Bedfordshire are required to accommodate.

The Government has no intention of making fundamental changes to Green Belt policy (as set out in Planning Policy Guidance note 2: Green belts) and the level of protection that it offers. Boundaries can only be changed in exceptional circumstances and after public consultation and public inquiry through the development plan process.

## TRANSPORT

### Rail Services (Northampton)

*The Petition of residents of Northampton and people who use the local rail services,*

Declares that there is serious concern about the proposal in the draft 2008 timetable to end the 7.12 fast train to London which is the main train service used by commuters who work in London.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Transport to reinstate the fast train service from Northampton to London at 7.12 am.

And the Petitioners remain, etc.—*[Presented by Ms Sally Keeble, Official Report, 19 November 2007; Vol. 467, c. 1071 .]* [P000062]

*Observations from the Secretary of State for Transport:*

Virgin West Coast (VWC) currently provides a Pendolino for the 0712 Northampton to London Euston service because the resource can be provided ahead of other commitments during the day. The service was provided as a temporary measure because the trains were available and the new Desiro trains ordered specifically for the Northampton line had yet to be delivered. This temporary operation was communicated clearly to stakeholders when the service was introduced in September 2004.

Virgin have continued to run the train after the Desiros were introduced because there has not been the option to use the train to relieve crowding and accommodate above forecast traffic growth on the main longer distance route. This is because of the capacity limits on the West Coast Main Line while key infrastructure, such as Rugby station and junctions, are rebuilt.

From December 2008, when the infrastructure upgrade is complete, all Pendolinos will be needed to be in intensive main line use before 0800 to operate the more frequent long distance services between London, the West Midlands, Manchester, Liverpool, the North West and Scotland. These are the services for which the line is being upgraded and the trains were ordered. Despite this requirement, it has proved practicable to retain one morning Pendolino service between Northampton and Euston, at 0642.

Northampton was not planned to receive any Pendolinos or other upgraded links as part of the ill-fated Railtrack upgrade. Government, through SRA and DfT intervention, has secured not only the replacement and increase in fleet size of all of the Northampton to London trains, but it has also delivered higher speed running on the slow lines, 12-car platforms to accommodate traffic growth and a step change improvement in the dependability of the service.

Under the terms of the franchise agreement, London Midland is committed to the provision of three 'limited stop' services from Northampton to arrive at Euston between 0800 and 0900, and to provide 12-car trains for each. These trains are timed to leave Northampton at 07:01, 07:15 and 07:38, taking 64, 61 and 61 minutes respectively, for the 66 miles. The only intermediate calls will be at Wolverton, Milton Keynes and Leighton Buzzard. A 12-car Desiro provides 72 first-class and 639 standard class seats, compared with a 147 first-class and 300 standard-class seats on a Pendolino and much more suitable for peak commuting.

The DfT published an Invitation to Tender in 2007 for the provision of new fleet of 125mph Inter City trains. It included an option for a London -Northampton-Manchester service. A final appraisal of the business case for the deployment of these new trains will take place in 2008.

*Tuesday 18 December 2007*

## PRESENTED PETITIONS

### Post Office Closures (Brighton and Hove)

*The Petition of the residents of the Southern Cross neighbourhood.,*

Declares that Trafalgar Road Post Office in Portslade must be kept open.

The Petitioners therefore request that the House of Commons urges the Government and the Post Office Ltd. to stop the proposed closure of this Post Office, and other local Post Offices which provide a unique service.

And the Petitioners remain, etc.—*[Presented by Ms Celia Barlow .]* [P000098]

# Written Answers to Questions

*Monday 10 December 2007*

## TRANSPORT

### Airports: Parking

**Mrs. Villiers:** To ask the Secretary of State for Transport what discussions with stakeholders she has had on competition in the market for airport parking. [168665]

**Jim Fitzpatrick:** Airport parking charges are a commercial matter for the airport operator. The Office of Fair Trading is, however, able to investigate if it suspects that a feature or a combination of features of the market in which airport services are supplied by an airport operator prevents, restricts or distorts competition.

Ministers have had no specific discussions with stakeholders on this issue.

### Aviation

**Mrs. Villiers:** To ask the Secretary of State for Transport if she will place in the Library recent studies her Department has carried out on the economic impact of airport expansion. [168663]

**Jim Fitzpatrick:** Two documents were published on 22 November. The consultation document "Adding Capacity at Heathrow Airport", of which the impact assessment forms annex B of this document. The Department also published the "UK Air Passenger Demand and $CO_2$ Forecasts report". Both documents have been placed in the Library and are also available on the Department for Transport's website (www.dft.gov.uk/heathrowconsultation). The consultation runs until 27 February 2008 and, in line with Government practice, a summary of consultation responses will be published and a copy will be placed in the Library.

### Aviation: Leisure

**Mrs. Villiers:** To ask the Secretary of State for Transport what proportion of the increase in flights at *(a)* Heathrow and *(b)* other UK airports in each of the last 10 years was of short haul leisure flights. [168673]

**Jim Fitzpatrick:** The information requested is not available.

### Bexleyheath Station: Fares

**Mr. Evennett:** To ask the Secretary of State for Transport what discussions she has had with Southeastern Railway on the proposed 13 per cent. fare increase at Bexleyheath Station. [170302]

**Mr. Tom Harris:** The Government protect commuters by regulating the average annual increases in season tickets. On Southeastern, this increase is limited to 3 per cent. above inflation from 2007 to 2011.

Individual fares can increase by more than the average, as long as no individual regulated fare increases by more than 8 per cent. above inflation from one year to the next. Therefore, individual regulated fares on Southeastern can rise by up to 11.8 per cent. for 2008.

Southeastern is committed by its Franchise Agreement to zonalise all fares in London from January 2008, including seasons. To achieve this, and to maintain a balanced fare structure, a general derogation against fares regulation was granted for a number of season fares within London. There were no specific discussions on fares from Bexleyheath.

The new zonal fares structure on Southeastern will help pave the way for Oyster Pay-As-You-Go smart ticketing, to be rolled out across national rail in London from 2009. It simplifies the current complex system of individually-priced station-to-station fares.

### Bus Services: Concessions

**Mr. Spellar:** To ask the Secretary of State for Transport how many journeys were made by freedom pass holders on London buses in each of the last five years. [170972]

**Ms Rosie Winterton:** This information is not held centrally; it can be obtained from the London councils who administer the Freedom Pass scheme on behalf of the London boroughs.

**Miss McIntosh:** To ask the Secretary of State for Transport (1) what factors she took into account in distributing the grant to cover the cost of the implementation of the new concessionary fares scheme for bus travel from April 2008; and what representations she has received on the potential inequalities of the distribution of the grant funding; [171019]

(2) what estimate she has made of the ability of councils to pay for the concessionary travel scheme; and whether councils will be required to pay for the costs of visitors to the council area using the concessionary travel scheme. [171020]

**Ms Rosie Winterton:** From 1 April 2008, people aged 60 and over and eligible disabled people in England will be entitled to free off-peak local bus travel anywhere in England, not just within their local area as at present.

The costs will be apportioned to the Travel Concession Authority where the concessionaire boards the bus rather than where the concessionaire is resident—this is the only practical means of operating an England-wide concession for April next year.

The extra £212 million for the national bus concession will be distributed by the Department for Transport via a special grant. This extra funding is based on generous assumptions about pass take-up and trip levels and the overall probable cost impact of the new concession. We are therefore confident this funding will be sufficient in aggregate to meet the extra costs to local authorities. In addition, we have announced that we will be providing local authorities with approximately £31 million for the issuing of the national pass.

Any discretionary local enhancements, such as peak bus travel, are funded from an authority's own resources. Local enhancements can be restricted to eligible local residents. It is for local authorities to implement affordable local schemes taking account of their statutory obligations and their assessment of local circumstances and need.

Regarding representations on the potential inequalities of the distribution of the grant funding, the Department for Transport's consultation on the formula basis for the distribution of the special grant closed on 23 November. The consultation included a number of different options for distributing the new funding, taking account of likely cost drivers, including bus patronage, eligible residents and visitors. A summary of the responses will be published in due course.

The provisional special grant distribution was announced on 6 December and will be the subject of a parliamentary debate in the new year.

### Cycling: Finance

**Mrs. Villiers:** To ask the Secretary of State for Transport what proportion of her Department's spending has been devoted to encouraging cycling in each of the last five years. [164629]

**Ms Rosie Winterton:** The Department provides funding to encourage cycling through a number of different mechanisms. These are through a central budget, to local authorities through the local transport plan (LTP) settlement, and to the Mayor of London via a total transport grant through Transport for London (TfL). These combined give the following spend:

| | *Cycling spend (£ million)* |
|---|---|
| 2002-03 | 50.2 |
| 2003-04 | 43.0 |
| 2004-05 | 60.4 |
| 2005-06 | 51.2 |
| 2006-07 | 60.3 |

The DfT integrated block element of the LTP settlement was worth £547 million in 2006-07 while TfL received £2.4 billion. It is for local authorities and TfL to determine their spend on cycling.

This is a partial picture. There are many other initiatives that can contribute to the encouragement of cycling. For example, road safety and traffic calming schemes such as 20 mph zones or through programmes such as the Sustainable Travel Towns where all forms of sustainable travel including cycling are encouraged.

It would, therefore, be impossible to disaggregate the expenditure from these programmes and initiatives that have a direct impact upon encouraging cycling.

### Departmental Consultants

**Mrs. Villiers:** To ask the Secretary of State for Transport what projects her Department has commissioned from external consultants in each of the last five years; and how much was paid by her Department to those consultants in each instance. [164639]

**Jim Fitzpatrick:** Lists have been placed in the Libraries of the House for commissions recorded within the Department and its agencies' accounting systems as consultancy for financial years 2004-05, 2005-06 and 2006-07.

Details of the projects commissioned by the Department in financial years 2002-03 and 2003-04 are not held centrally and could be provided only at disproportionate costs. Total expenditure recorded by the Department on consultancy in these years was £227.5 million (2002-03) and £239.5 million (2003-04).

### Departmental Foreign Workers

**David Simpson:** To ask the Secretary of State for Transport how many *(a)* EU foreign nationals and *(b)* non EU foreign nationals are employed by her Department. [168098]

**Jim Fitzpatrick:** There are a total of *(a)* 55 EU foreign nationals and *(b)* 21 non-EU foreign nationals employed in DVLA, GCDA, the Highways Agency, MCA, VCA and VOSA. Details for the Central Department and DSA can be provided only at disproportionate cost.

### Departmental Secondment

**Mrs. May:** To ask the Secretary of State for Transport how many secondments of staff were made *(a)* to and *(b)* from her Department in each year since 1997; which organisations staff were seconded (i) to and (ii) from; how many staff were seconded in each year; for how long each secondment lasted; and what the cost was of each secondment in each year. [167278]

**Jim Fitzpatrick:** The Department for Transport was created in 2002. The number of outward secondments from the Department each year from 2003, where records exist, are set out in the following table:

| | *Secondments out—total* | *Organisations* | *Duration* |
|---|---|---|---|
| 2003 | 10 | Epsom and St. Helier NHS Trust | 1 year |
| | | International Civil Aviation Organization (ICAO), Montreal | 1 year |
| | | French Ministry of Transport | 3 months |
| | | European Commission, Brussels x 2 | 1 year; 4 months |
| | | Arriva | 2 months |
| | | Security Service | 2 years |
| | | First Great Western Trains | 1 month |
| | | Canadian Government | 23 months |

| | *Secondments out—total* | *Organisations* | *Duration* |
|---|---|---|---|
| 2004 | 16 | Arriva x 2 | 6 months; 6 months |
| | | European Commission, Brussels x 3 | 1 year; 1 year; 1 year |
| | | European Maritime Safety Agency (EMSA), Portugal x 2 | 3 years; 25 months |
| | | English Heritage | 3 years |
| | | Standards Board | 3 years |
| | | Civil Aviation Authority (CAA) | 2 years |
| | | PricewaterhouseCoopers (PWC) | 1 year |
| | | Ernst and Young | 1 year |
| | | East Midlands Development Agency | 15 months |
| | | French Transport Ministry | 2 years |
| | | Japanese Government | 3 years |
| | | RAF Kinloss | 3 years |
| 2005 | 17 | BAA | 10 months |
| | | Cross London Rail Link x 2 | 2 years; 2years |
| | | West Sussex County Council | 2 years |
| | | PricewaterhouseCoopers (PWC) | 1 year |
| | | Mersey Travel | 1 year |
| | | European Commission, Brussels x 3 | 5 months; 2 years; 8 months |
| | | Commission for Social Care Inspection (CSCI) | 2 years |
| | | Greek Transport Ministry | 1 month |
| | | SERCO | 2 months |
| | | Strategic Rail Authority (SRA) x 2 | 4 months; 4 months |
| | | Danish Road Authority | 6 months |
| | | EMSA x 2 | 4 years; 3 years |
| 2006 | 16 | French Transport Ministry | 1 year |
| | | Bath and North East Somerset Council (BANES) | 1 year |
| | | European Commission, Brussels x 3 | 6 months; 2 years; 2 years |
| | | Transport for London | 3 months |
| | | Faber Maunsell | 4 years |
| | | Maritime Accident Investigation Branch (MAIB) | 1 year |
| | | British Council, Brussels | 2 years |
| | | Lifelites | 6 months |
| | | Bank of England | 2 years |
| | | Ertico | 6 months |
| | | Rijkswaaters tatt, Holland | 2 years |
| | | Citizens Advice Bureau | 1 year |
| | | BVI Administration x 2 | 2 years; 3 years |
| 2007 | 18 | European Commission, Brussels x 5 | 2 years; 6 months; 1 year |
| | | European Parliament | 2 years |
| | | European Maritime Safety Agency (EMSA), Portugal x 2 | 2 years; 3 years |
| | | International Civil Aviation Organization (ICAO) | 3 years |
| | | Transport for London | 1 year |
| | | BRB (Residuary) Ltd. X 2 | 3 years; 2 years |
| | | ACAS | 1 year |
| | | Connect for Health | 1 year |
| | | UBS Investment Bank | 1 year |
| | | South East England Regional Assembly (SEERA) | 2 years |
| | | PricewaterhouseCoopers (PWC) | 6 months |
| | | Chamber of Shipping | 3 months |

The number of inward secondments in the same period, where records exist, are as follows:

| | *Secondments out—total* | *Organisations* | *Duration* |
|---|---|---|---|
| 2003 | 5 | Japanese Government | 3 months |
| | | Parsons Brinkerhoff Ltd. | 5 months |
| | | French Road Ministry | 2 years |
| | | Fire Brigade | 4 years |
| | | Canadian Government | 3.5 years |
| 2004 | 17 | Buckinghamshire County Council | 2 years |
| | | Milton Keynes Council | 4 years |
| | | Lancashire Constabulary | 3 years |
| | | Japanese Government | 6 months |
| | | Ernst and Young | 17 months |
| | | Strategic Rail Authority (SRA) | 1 year |
| | | East Kent Council for Voluntary Services | 1 year |
| | | Arriva | 6 months |
| | | Strategic Rail Authority (SRA) | 1 year |
| | | Rail Safety and Standards Board (RSSB) | 5 months |
| | | Mercer Management Consulting | 3 months |
| | | British Airways | 2 years |
| | | Strategic Rail Authority (SRA) | 6 months |
| | | Amey Highways | 2 months |
| | | Danish Road Directorate | 2 months |
| | | French Transport Ministry | 1 year |
| | | Fire Brigade | 3 years |
| 2005 | 10 | First Group Plc | 3 years |
| | | PricewaterhouseCoopers x 2 | 1 year; 9 months |
| | | French Transport Ministry | 3 years |
| | | Essex County Council | 2 years |
| | | Rail Safety and Standards Board (RSSB) x 2 | 1 year; 3 months; |
| | | Strategic Rail Authority x 2 | 11 months; 5 months |
| | | Fire Brigade | 4 years |
| 2006 | 4 | RNIB | 2 years |
| | | Rail Safety and Standards Board (RSSB) | 1 year |
| | | Wokingham Social Services | 1 year |
| | | Fire Brigade | |
| 2007 | 10 | Qinetiq | 2 years |
| | | Energy Saving Trust | 4 months |
| | | Deloittes | 1 year |
| | | Freshfields Legal | 6 months |
| | | PricewaterhouseCoopers (PWC) | 1 year |
| | | Civil Aviation Authority (CAA) | 3 years |
| | | Swedish Ministry of Enterprise | 1 month |
| | | Civil Aviation Authority (CAA) | 3 years |
| | | KPMG | 1 year |
| | | Simmons and Simmons Solicitors | 1 year |
| | | Ed Excel | 1 year |

Supporting financial information cannot be provided except at disproportionate cost.

## Heavy Goods Vehicles: Accidents

**Helen Southworth:** To ask the Secretary of State for Transport what estimate she has made of the number of collisions on motorways in the last 12 months that have involved heavy goods vehicles from mainland Europe where the vehicle has not had adaptations to wing mirrors for use on British roads. [169510]

**Jim Fitzpatrick** *[holding answer 29 November 2007]:* Information is collected on whether vehicles involved in personal injury road accidents are foreign registered. However, no information is collected on either the country of origin or any adaptations to wing mirrors of vehicles involved in road accidents.

The information on foreign registered vehicles involved in reported personal injury road accidents which is collected is available from table 53 of "Road Casualties Great Britain: 2006 annual report". Copies of the report have been deposited in the Libraries of the House. This table can also be found at the following address:

http://www.dft.gov.uk/172974/173025/221412/221549/227755/285672/WebTables4153.xls

In addition, the Department and agencies have investigated cases of lorries on international journeys involved in sideswipe incidents. Following successful trials in the South East which distributed 40,000 stick-on Fresnel lenses as an immediate solution to the problem, VOSA have published a report on the trials which is available online at www.vosa.gov.uk or from the House of Commons Library.

It was found that the lens helped to reduce sideswiping incidents in the South East by 58 per cent. We are now investing in further free distribution of 90,000 lenses.

## Highways Agency

**Susan Kramer:** To ask the Secretary of State for Transport what cost changes have been approved for schemes in the Highways Agency's major roads programme since the publication of the Nichols report in March 2007. [168982][1]

**Mr. Tom Harris:** Following the Nichols report the arrangements for estimating and approving the cost of schemes within the roads programme are being improved. Schemes are not finally approved for construction until we have a price agreed with the contractor. Since publication of the Nichols report we have approved start of works for five schemes, at the expected costs shown in the following table.

| | *Expected cost (£ million)* |
|---|---|
| M27 Junction 3-4 | 17.4 |
| M27 Junction 11-12 | 36 |
| M1 Junction 25-28 | 345 |
| A1 Bramham to Wetherby | 65 |
| M25 Junction 1b-3 | [1]62 |

[1] In addition, £12 million of work has been transferred to the A2/A282 scheme.

The Highways Agency is currently undertaking an exercise to re-estimate the costs for schemes not yet in construction, following the recommendations on cost estimating in the Nichols report. Where appropriate they are examining the scope for using Active Traffic Management (ATM), in line with my right hon. Friend the Secretary of State's announcement on 25 October of a feasibility study into the scope for advanced traffic management. The results of the re-estimation process and the ATM feasibility work will be published in the spring.

In the meantime, where schemes need to progress through stages of development, the best information available at the time has been used. Since publication of the Nichols report, Ministers have agreed cost estimates for the purpose of publishing Environmental Statements or draft orders for the following schemes:

| | *Cost estimate agreed (£ million)* |
|---|---|
| M25 DBFO | — |
| Section 1 | 696 |
| Section 4 | 583 |
| M1 J10-13 | 601 |
| A421 Bedford to M1 J13 | 188 |

In addition we have approved the preferred route for the A14 Ellington to Fen Ditton improvement. The estimate for this scheme is being reviewed, as noted above, and more robust estimates will be published in spring 2008.

## Railway Stations: Hampshire

**Mr. Hancock:** To ask the Secretary of State for Transport what plans she has for the premises of former travel centres at Hampshire rail stations; and if she will make a statement. [172620]

**Mr. Tom Harris:** It is for franchise operators to manage the facilities at their stations within the contractual and regulatory framework.

South West Trains has put forward a number of proposals to change the use of Travel Centres at stations. These include details of the consultation responses and alternative arrangements proposed for passengers. These proposals are currently under consideration.

## Railway Stations: Security

**Ms Abbott:** To ask the Secretary of State for Transport pursuant to the Prime Minister's Statement of 14 November 2007, *Official Report*, columns 667-86, on national security, at which railway stations she is planning to introduce baggage and passenger searches; and if she will make a statement. [165662]

**Mr. Tom Harris:** I refer my hon. Friend to my answer of 28 November 2007, *Official Report*, columns 446-7W.

**Mrs. Villiers:** To ask the Secretary of State for Transport which of the proposals in the report by Sir Alan West on security at *(a)* rail stations and *(b)* airports will be met from existing departmental budgets. [168669]

**Jim Fitzpatrick:** Under the long standing 'user pays' principle, it is the transport industry that delivers and funds security requirements. The Department for

---

[1] *[Official Report, 28 January 2008, Vol. 471, c. 1MC.]*

Transport has responsibility for the policy and regulation of these protective counter-terrorism security measures.

The Department for Transport supports industry in meeting these requirements through collaborative working to achieve compliance and through the funding of research and the providing of advice. The aim is to ensure our security regimes remain proportionate and effective.

### Railways: Fares

**Ben Chapman:** To ask the Secretary of State for Transport what assessment she has made of the effect of the recent increase in costs of unregulated train tickets; and if she will make a statement. [172883]

**Mr. Tom Harris:** In the absence of specific grounds for doing so, the Department has made no formal assessment of the recent increases in unregulated fares. However, we keep unregulated fares under review. The Department continues to listen to the representations of passenger focus and has invited them to take a greater role in commenting on the specification of future franchises.

### Railways: Tickets

**Ben Chapman:** To ask the Secretary of State for Transport what her policy is on the charging of administrative fees by rail travel ticket agents when issuing refunds to customers. [172882]

**Mr. Tom Harris:** The policy on refunds is set out in the National Rail Conditions of Carriage. The National Rail Conditions of Carriage entitles passengers to a refund on tickets which have not been used, payable in specified circumstances. It also permits administration charges of up to £10.00 to be raised for processing the refund.

### Roads: Accidents

**Mr. Yeo:** To ask the Secretary of State for Transport what assessment she has made of the potential effects on the number of road accidents of introducing British Summer Time in winter and double British Summer Time in summer. [172336]

**Jim Fitzpatrick:** A Government commissioned report by the Transport Research Laboratory published in October 1998, investigated the effects of the UK adopting single/double summertime (i.e. GMT plus one hour in the winter, from October to March, and GMT plus two hours in the summer, from March to October) thereby making the evenings lighter throughout the year. It concluded that, there could be a net saving of over 400 people killed or seriously injured per year in Great Britain, including over 100 deaths.

The 1998 research did not identify casualty savings by age.

### Sustainable Operations

**John McDonnell:** To ask the Secretary of State for Transport whether her Department is on course to meet the commitment in the Sustainable Operations on the Government Estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [171978]

**Jim Fitzpatrick:** The information is as follows.

*(a)* The Department has already achieved the "renewables" target with 62.5 per cent. of electricity being obtained from renewable sources and 10.1 per cent. derived from Combined Heat and Power.

*(b)* The Department has already achieved the waste recycling target with 57.1 per cent. of waste being recycled.

### Transport for London: Underground Railways

**Mrs. Villiers:** To ask the Secretary of State for Transport what discussions she has had with Transport for London (TfL) relating to TfL's bid to take over the London Underground maintenance contracts originally awarded to Metronet. [163475]

**Ms Rosie Winterton:** The Secretary of State has regular discussions with TfL on a range of issues including Metronet.

### West Coast Railway Line: Watford

**Mrs. Villiers:** To ask the Secretary of State for Transport what the reasons were for setting a timetable for the West Coast Mainline with fewer stops made in Watford. [168692]

**Mr. Tom Harris:** One of the key objectives of the modernisation of the West Coast Main Line is to provide capacity for growth in passenger and freight over the next 30 years with substantially faster and more competitive journey times. Therefore, from the December 2008 timetable change, much greater use will be made of the fast lines with up to 11 trains every hour. This means that only two of these can call at Watford Junction.

The more fast line trains that call at Watford Junction, the lower the frequency that can operate to and from Euston. This would then reduce the benefits to passengers overall of the scheme, because the West Coast Main Line service as a whole would not be able to accommodate the projected demand. As a result of the new timetable, two of the 11 hourly services will call at Watford Junction. Watford Junction passengers are also able to interchange with a range of services at Milton Keynes.

## NORTHERN IRELAND

### Consultants: Government Departments

**Mr. Walker:** To ask the Secretary of State for Northern Ireland what contracts his Department has with external consultants; what the total value, including all VAT and disbursements, of these contracts are for the current financial year; how long each contract lasts; and what the forecast total value is of each contract. [163802]

**Mr. Woodward:** The following table shows the current list of contracts with external consultants that the NIO has and their forecast value for 2007-08 together with the estimated time for completion of the contract and the remaining value after the current year. VAT is only included where this is not reclaimable by the Department under the Contracted-out Services regime for non-business activities.

| *Brief description* | *Number of contracts* | *2007-08 (£000)* | *Length* | *2008-09 (£000)* |
|---|---|---|---|---|
| Accountancy | 1 | [1]15 | Runs to June 08 | [1]5 |
| Recruitment | 1 | [1]35 | Ends in 2007-08 | [1]0 |
| IT Management | 1 | [1]1 | Ends in 2007-08 | [1]0 |
| IT Management | 4 | [1]70 | Ends in 2007-08 | [1]0 |
| IT Management | 1 | [1]45 | Ends in 2007-08 | [1]0 |
| IT Management | 2 | [1]158 | Runs to June 08 | [1]36 |

| Total | 38 | 1,926 | | 196 |

[1] Forecast

## Departmental Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Northern Ireland on how many occasions he has accepted corporate hospitality in the last 12 months. [171305]

**Mr. Woodward:** Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

## Departmental Data Protection

**Mr. Evans:** To ask the Secretary of State for Northern Ireland how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [170247]

**Mr. Woodward:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review.

## Departmental Publicity

**David Simpson:** To ask the Secretary of State for Northern Ireland how much has been spent by his Department on advertising in the last 12 months. [167951]

**Mr. Woodward:** The Northern Ireland Office (NIO) spent £258,000 on advertising between December 2006 to November 2007.

## Drugs: Belfast

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many persons were *(a)* charged with and *(b)* convicted of possession and supply of illegal drugs in North Belfast in each of the last 10 years. [170496]

**Paul Goggins:** The following table shows the number of persons charged with possession and supply offences in North Belfast from 2002-03 until 2006-07. PSNI has advised that figures for persons charged in the years prior to 2002-03 are not readily accessible.

*Number of persons charged with possession and supply of illegal drugs in North Belfast for the years 2002-07*

| | *Persons charged—possession offences* | *Persons charged—supply offences* | *Total number of persons charged*[1] |
|---|---|---|---|
| 2002-03 | 64 | 15 | 70 |
| 2003-04 | 69 | 13 | 75 |
| 2004-05 | 79 | 19 | 93 |
| 2005-06 | 98 | 14 | 103 |
| 2006-07 | 122 | 42 | 147 |

[1] Persons can be charged for both a possession and a supply offence.

Figures detailing the number of persons charged and the number convicted are collected separately. It is not possible to reconcile charge based data from PSNI with prosecution and conviction data, since data on charges from PSNI relate to the number of offences, whereas data on prosecutions and convictions relate to the number of offenders brought before the courts.

The following table shows the number of persons convicted of possession and supply offences in North Belfast from 2000-05. Prior to this, prosecution and conviction data were based on the police division to which an offence was reported, and are therefore not directly comparable.

*Number of persons convicted of possession and supply of illegal drugs in North Belfast for the years 2000-05*

| | *Persons convicted of possession of illegal drugs* | *Persons convicted of supply[1] of illegal drugs* | *Persons convicted of possession with intent to supply illegal drugs* |
|---|---|---|---|
| 2000 | 37 | 2 | 29 |
| 2001 | 26 | 0 | 10 |
| 2002 | 27 | 3 | 13 |
| 2003 | 44 | 2 | 11 |
| 2004 | 37 | 0 | 6 |
| 2005 | 46 | 0 | 5 |

[1] Includes being concerned in supply/offering to supply a controlled drug.

## Motor Vehicles: Theft

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many vehicles were stolen in North Belfast in each of the last 10 years. [170494]

**Paul Goggins:** Due to the introduction in 1998-99 of revised rules for recording crime, figures for the years prior to 1998 are not available.

The number of recorded thefts or unauthorised taking of motor vehicles in North Belfast District Command Unit is shown in the following table.

| | *Recorded* |
|---|---|
| 1998-99 | 897 |
| 1999-2000 | 916 |
| 2000-01[1] | 1,023 |
| 2001-02 | 1,248 |
| 2002-03[2] | 882 |
| 2003-04 | 568 |
| 2004-05 | 498 |
| 2005-06 | 344 |
| 2006-07 | 347 |

[1] Figures are available by District Command Unit back to 2000-01. The figures for 1998-99 and 1999-2000 have been aggregated by station area to produce totals for North Belfast DCU, however they are not completely comparable with later years due to boundary changes.

[2] From 1 April 2002 most attempted thefts/unauthorised taking of motor vehicles are recorded as vehicle interference due to a change in Home Office counting rules.

## Police Service of Northern Ireland: Annual Reports

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what assessment he has made of the *(a)* effectiveness, *(b)* efficiency and *(c)* value for money of the distribution of the Police Service of Northern Ireland Chief Constable's Annual Report to households in Northern Ireland. [170488]

**Paul Goggins:** In August 2006 PSNI commissioned a survey to evaluate the level of awareness and readership of the Chief Constable's Annual Report. Of those who had read the report, 78 per cent. stated that it provided them with a clearer understanding of the work of the police service.

The total cost of the exercise is approximately £120,000 per year; this represents around 16 pence per household.

The Chief Constable's Annual Report is delivered to every home in Northern Ireland and is also available on the Internet. It is an important aspect of PSNI's outreach and engagement with the community. The Northern Ireland Policing Board is responsible for ensuring the effectiveness and efficiency of the police, however I am content that distributing the report in this way is a valuable exercise and represents value for money.

## Police Service of Northern Ireland: Garda Siochana

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many members of the Garda Siochana were *(a)* seconded and *(b)* transferred to the Police Service of Northern Ireland in each year since 2005, broken down by (i) rank and (ii) sex. [170489]

**Paul Goggins:** I am advised that to date no An Garda Siochana officers have been seconded or transferred to PSNI.

However, since October 2005, 12 An Garda Siochana officers have been on personnel exchanges, for periods of between two and four months, under the auspices of the joint protocols signed by the Garda Commissioner and Chief Constable on 21 February 2005.

Close co-operation between the PSNI and An Garda Siochana continues across a range of areas including human resources, traffic, IT, internal communications, roads, community safety, training, fraud, drugs and immigration.

## Terrorism

**Mr. David Anderson:** To ask the Secretary of State for Northern Ireland how many paramilitary-style assaults took place in Northern Ireland in each of the last 12 months for which figures are available, broken down by group deemed responsible. [172103]

**Paul Goggins:** The following table details the information requested.

*Casualties as a result of paramilitary style assaults*

| | *Attribution[1]* | |
|---|---|---|
| | *Loyalist* | *Republican* |
| *2006* | | |
| November | 2 | 0 |
| December | 1 | 0 |
| *2007* | | |
| January | 3 | 1 |
| February | 6 | 0 |
| March | 6 | 0 |
| April | 2 | 0 |
| May | 0 | 1 |
| June | 0 | 1 |

*Casualties as a result of paramilitary style assaults*

| | Attribution[1] | |
|---|---|---|
| | *Loyalist* | *Republican* |
| July | 2 | 0 |
| August | 3 | 1 |
| September | 0 | 0 |
| October | 9 | 2 |

[1] Attribution is as perceived by PSNI based on the information available and does not necessarily indicate the involvement of a paramilitary organisation. *Note:* 2007-08 statistics are provisional and may be subject to minor amendment. *Source:* Central Statistics Unit, Police Service of Northern Ireland, Lisnasharragh.

The Government continue to work through and with the political parties to create the conditions that will make such assaults a thing of the past. The PSNI, which has the support of all parties in Northern Ireland, will continue to investigate all such incidents and where sufficient evidence exists will bring those responsible to justice.

### Vetting

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what additional resources have been deployed by the Police Service of Northern Ireland to expedite the progress of applications submitted to the Child Vulnerable Adult Access Vetting Unit. [170454]

**Paul Goggins:** The PSNI is committed to providing a high quality vetting service ensuring the protection of those most vulnerable in society.

The PSNI has deployed additional resources to address the current heavy workload. Since summer 2007 seven extra staff have been employed by the unit and staff have worked overtime to manage the increasing workload. Working practices are under review to ensure that available resources are used to best effect.

A new criminal history disclosure body, Access N.I., will replace the Criminal Records Office service from early 2008. This new service will bring Northern Ireland under the same legislation as the rest of the United Kingdom and will create a platform for the development of new national systems.

## SCOTLAND

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Scotland how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171445]

**David Cairns:** The Scotland Office's expenditure on Christmas cards is detailed in the table as follows.

| | *Christmas cards (£)* |
|---|---|
| 2003 | 679 |
| 2004 | 687 |
| 2005 | 567.74 |
| 2006 | 702.65 |
| 2007 | 0 |

The Scotland Office has not incurred any expenditure in relation to Christmas parties in the last five years. We do not have separate records for expenditure in relation to Christmas decorations.

### Departmental Computers

**Mr. Gauke:** To ask the Secretary of State for Scotland how many of his Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168603]

**David Cairns:** None.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Scotland (1) what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if his Department will undertake a review of its compliance with data protection laws; [168075]

(2) on how many occasions in his Department confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before their transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168262]

(3) how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disk; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of his Department has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases was. [168282]

**Mr. Walker:** To ask the Secretary of State for Scotland whether his Department's information technology and data management systems are BS7799 compliant. [168740]

**Tom Brake:** To ask the Secretary of State for Scotland whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169386]

**Mr. Evans:** To ask the Secretary of State for Scotland (1) how many confirmed data security breaches there have been in the Office of the Advocate General for Scotland in the last 36 months; and what action was taken after each occurrence; [170216]

(2) how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [170246]

**Mr. Vara:** To ask the Secretary of State for Scotland (1) on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years; [168817]

(2) how many breaches of data protection security there were in his Department in each of the last five years; and if he will provide details of each breach. [168832]

**David Cairns:** I refer the hon. Members to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Publicity

**David Simpson:** To ask the Secretary of State for Scotland how much has been spent by his Department on advertising in the last 12 months. [167949]

**David Cairns:** I refer the hon. Member to the answer that I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 7 June 2007, *Official Report*, column 691W.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture: Land Use

**Tim Farron:** To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated annual administration costs associated with the Rural Payments Agency's practice of resizing fields are. [166699]

**Jonathan Shaw** *[holding answer 21 November 2007]*: Annual administration costs specifically relating to resizing fields (changes to area) cannot be separated from other costs related to the Rural Land Register (RLR). Costs for RLR-related work including all digitising work and RLR support staff were £4.26 million in 2006-07. Estimated costs for 2007-08 and 2008-09 are £3.34 million and £2.69 million respectively. These figures do not include possible further developments of the land register to meet European and business requirements.

### Angling: Scottish Executive

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to discuss changes to the main concordat with the Scottish Executive on fishing; and if he will make a statement. [172026]

**Jonathan Shaw:** I have no such plans, nor have I received any representations from the Scottish Executive to change the fisheries specific concordat.

### Animals: Diseases

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) which pathogens handled under Specified Animal Pathogens Order licence in the UK for viruses and diseases are not normally present in British livestock; and if he will make a statement; [170867]

(2) what the benefits to the UK are of handling pathogens under SAPO licence for viruses and diseases that are not normally present in British livestock; and if he will make a statement. [170868]

**Jonathan Shaw:** The UK is vulnerable to the introduction of exotic animal disease as global trade in animals and animal products increases. Despite sophisticated systems of import control, we cannot hope to reduce the risk of introduction of disease to zero. Climate change and the threat of bio-terrorism also present new means by which animal disease could be introduced to this country. We must therefore ensure we can prepare for, and react quickly to, all disease outbreaks.

The Government's ability to respond to outbreaks of exotic animal disease depends on having ready access to specialist facilities where diseases can be diagnosed quickly and with confidence, and where research is carried out on animal pathogens and the mechanisms to deal with disease outbreaks. This was highlighted by the pressure put on existing facilities during the 2001 foot and mouth disease outbreak in the UK. At least some of this work must be done in a facility with high bio-containment capability.

DEFRA has issued licences to a number of laboratories to hold category 3 and 4 viruses. Details of specific viruses which laboratories have licences for cannot be divulged as they are commercially confidential.

### Animals: Vaccination

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Agriculture and Fisheries Council held in Luxembourg on 22 to 23 October 2007 and the discussions on the animal health strategy, what plans he has to review the UK Government's vaccine policy; and if he will make a statement. [170949]

**Jonathan Shaw:** The Government keep their vaccination policy for all notifiable diseases under constant review, taking full account of the latest scientific evidence, lessons learnt from outbreaks and the desirability of harmonising approaches to vaccination with other member states.

For example, in recent years we have substantially developed vaccination policy for foot and mouth disease and avian influenza, in line with developments in EU law, through procuring a vaccine bank and developing contingency plans for its potential use. We are currently doing the same on vaccination policy for bluetongue.

### Avian Influenza: Disease Control

**Bob Russell:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from cage bird societies and other organisations forced to cancel events because show licences were revoked as a result of the outbreak of avian flu; what compensation is available to organisers of cage bird show events in such circumstances; and if he will make a statement. [170285]

**Jonathan Shaw:** DEFRA officials and I have received a small number of representations from cage bird societies and other organisations who have been forced to cancel events as a result of the ban on bird gatherings following the recent avian influenza outbreak. We put the ban in place due to the high risk nature of bird gatherings when there is great uncertainty over the presence of undetected infection in other parts of the country immediately after an outbreak. We kept this ban under constant review and, following a veterinary risk assessment once we knew more about the spread of disease, we lifted the ban after 11 days.

It is a long established principle that the Government do not meet the costs of consequential losses due to disease control measures. It is inevitable that such measures for avian influenza will disrupt bird gatherings due to the need to prevent wide-scale disease spread for both animal and human health reasons. No Government could commit itself to insure bird keepers against the cost of all the losses resulting, directly or indirectly, from disease outbreaks or the action taken to deal with them.

### Beaches: EU Law

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on improvements to sewerage infrastructure to improve bathing water quality in each of the last seven years. [170431]

**Mr. Woolas:** Between 2000 and 2005, Ofwat collected data on costs for the improvements to continuous discharges (improvement to the processes at sewage treatment works themselves); under the bathing water directive. From 2005 to 2010, Ofwat is collecting the data on costs incurred to improve intermittent discharges, such as combined sewer overflows, as well as the continuous discharges that have been, and will be, improved under the bathing water directive.

This information is displayed in the following table.

| | | | | | | | | *£ million* |
|---|---|---|---|---|---|---|---|---|
| | *2000-01* | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* | *Total by 2006-07* |
| Capex: Continuous discharges—bathing water directive | 11.1 | 27.9 | 52.3 | 21.5 | 12.8 | — | — | — |
| Opex: Continuous discharges—bathing water directive | 0.9 | 1.3 | 2.1 | 3.3 | 4.3 | — | — | — |
| Capex: Continuous and intermittent discharges—bathing water directive | — | — | — | — | — | 8.8 | 2.8 | — |
| Opex: Continuous and intermittent discharges—bathing water directive | — | — | — | — | — | 0.1 | 0.11 | — |
| Total | 12.0 | 29.2 | 54.4 | 24.8 | 17.1 | 8.8 | 2.9 | [1]149.04 |

[1] The totals may not equal the sum of the figure shown due to rounding.

*Notes:*

1. All costs are displayed in 2006-07 price base inflated by retail price index.
2. Capex = capital expenditure; Opex = operating expenditure.
3. Recurring opex incurred as a result of improvements in 2000-05, will have been transferred to base service at the last periodic review.
4. All costs displayed are in £ millions and in 2006-07 prices.
5. The data shown are additional costs incurred over and above the maintenance of the assets.

### Carbon Emissions: Heating

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he has considered the contribution of heating networks towards the Carbon Emissions Reduction Target. [169733]

**Mr. Woolas:** The draft Order for the Carbon Emissions Reduction Target was laid before Parliament on 5 December. The Government propose an overall target of 154 million tonnes of carbon dioxide ($MtCO_2$) lifetime, which is equivalent to annual net savings of 4.2 MtC02 by 2010 and broadly double the level of activity of the current Energy Efficiency Commitment 2005-08. Subject to approval by the regulator, Ofgem, it will be open to energy suppliers to promote district heating systems and combined heat and power (CHP), including biomass CHP.

### Criminal Justice Act 2003

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions he has had with the Secretary of State for the Home Department on the commencement of section 281(5) of the Criminal Justice Act 2003; and if he will make a statement; [170922]

(2) what discussions he has had with the Secretary of State for Home Affairs on the sentence for persons convicted of cruelty crimes, specified in the Animal Welfare Act 2006; and if he will make a statement. [170923]

**Jonathan Shaw:** We regularly review the implementation of the maximum sentences available under the Animal Welfare Act 2006 with the Ministry of Justice.

### Crops: Subsidies

**Mr. Spellar:** To ask the Secretary of State for Environment, Food and Rural Affairs what average level of annual subsidy from the public purse per hectare for growing *(a)* wheat, *(b)* barley, *(c)* potatoes and *(d)* miscanthus grass was in the latest period for which figures are available. [170198]

**Jonathan Shaw:** The introduction of the single payment scheme in 2005 decoupled support from production. There are now no specific payments for growing cereals or potatoes.

The average payment per hectare for the single payment scheme 2006 in England was £163. This is a simple average obtained by dividing the net amount payable by the total area on agricultural holdings in June 2006. There will have been wide variations between farms and within the same farm type. This payment was decoupled from production and was not dependent on any production taking place on farm.

The England Rural Development Programme's (ERDP) Energy Crops Scheme offers grants to farmers in England for the establishment of miscanthus and short rotation coppice. The scheme is currently awaiting approval from the EU Commission but the rate for miscanthus is expected to be £800 per hectare.

Growers of crops used for the production of energy, including rapeseed, wheat, barley, short rotation coppice and miscanthus, may also be eligible for aid under the Aid for Energy Crops (AEC) Scheme. After scaleback due to the area claimed being greater than the maximum guaranteed area, claimants will receive a maximum payment of €31.65 per hectare for the eligible land on which they made a claim for AEC in 2007. The predominant crop in 2007 was oilseed rape.

### Dairy Farming: Finance

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs how much of his Department's annual budget was allocated to dairy farming in each of the last three years. [171023]

**Jonathan Shaw:** There are no DEFRA grants that are specifically allocated to dairy farming. However, dairy farmers and the dairy industry benefit from a range of DEFRA-funded activity.

These include: the single payment scheme (SPS); the England Rural Development programme (ERDP) and its successor the Rural Development Programme for England (RDPE); the England catchment sensitive farming delivery initiative (ECSFDI); the agricultural development scheme (ADS); environmentally sensitive farming (ESF); top-up to the school milk subsidy scheme (SMS); Organic Conversion Information Service (OCIS); and the dairy supply chain forum (DSCF).

Figures for the budget allocation (NB: though actual resource spend for ERDP) to each of the schemes is highlighted in the following table:

| *Scheme* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|
| SPS[1] (£ billion) | n/a | 1.55 | 1.57 |
| ERDP/RDPE (£ million) | 250.3 | 273.5 | 335.1 |
| ECSFDI[2] (£ million) | n/a | n/a | 8.6 |
| ADS (£ million) | 2.50 | 2.80 | 3.10 |
| ESF[2] (£000) | n/a | 833 | 833 |
| SMS (£000) | 500 | 500 | 500 |
| OCIS (£000) | 311 | 311 | 311 |
| DSCF (£000) | 100 | 100 | 100 |

[1] Figures for SPS are net of modulation.

[2] Note that the ESF and ECSFDI were launched in 2005 and 2006 respectively so expenditure was not incurred in previous years.

We do not maintain records which would enable us to readily identify specific sectors benefiting from these activities.

### Departmental Catering

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of *(a)* beef, *(b)* lamb, *(c)* pork and *(d)* dairy products used in his departmental headquarters were imported products in the most recent period for which figures are available. [166655]

**Jonathan Shaw:** From information held centrally, the percentages of *(a)* beef, *(b)* lamb, *(c)* pork and *(d)* dairy products of imported origin used in the departmental headquarters were 0 per cent., 0 per cent. and 0 per cent. respectively and for dairy products 0 per cent. (eggs and milk) and 5 per cent. (cheese).

I refer the hon. Member to the data published in the report deposited in the House of Commons Library on 8 November 2007 giving the proportion of UK produce supplied to Government Departments, the NHS and HM Prison Service. A copy of the report is also available on the Public Sector Food Procurement Initiative (PSFPI) website at

http://www.defra.gov.uk/farm/policy/sustain/procurement/pdf/govt-food-usage.pdf.

### Departmental Computers

**Mr. Gauke:** To ask the Secretary of State for Environment, Food and Rural Affairs how many of his Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168596]

**Jonathan Shaw:** The following figures show the number of reported thefts/losses of computers/laptops in DEFRA during 2007:

*Item description*

(*a*) Computers/desk tops—none

(*b*) Laptops—18

Following the outsourcing of IT services to IBM in October 2004, computers/laptops are no longer classed as departmental assets as they form part of the overall contract for the provision of IT services. All IT equipment therefore belongs to IBM. However, in an effort to reduce the losses of laptops, advice and guidance on the security of portable computer equipment is regularly issued to users.

### Departmental Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions he has accepted corporate hospitality in the last 12 months. [171315]

**Jonathan Shaw:** Any hospitality that I may have accepted in the last 12 months has been declared in the Register of Members' Interests.

### Departmental Disabled

**Danny Alexander:** To ask the Secretary of State for Environment, Food and Rural Affairs which buildings occupied by his Department (*a*) are and (*b*) are not fully accessible to people with disabilities; and if he will make a statement. [163952]

**Jonathan Shaw:** No central data are held of the number of buildings occupied by my Department, which are or are not considered to be fully accessible to disabled people.

Where there are access difficulties for disabled people, my Department makes appropriate reasonable adjustments to it's arrangements for the recruitment and employment of staff, and the services and functions it delivers to its users in accordance with the requirements of the Disability Discrimination Act 1005.

### Departmental Land

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what land surplus to his Department's requirements it is (*a*) selling, (*b*) leasing and (*c*) intending to (i) sell and (ii) lease; and what the (A) size and (B) name of each relevant site is. [168852]

**Jonathan Shaw:** A statement of the Department's surplus land and properties currently available for sale and to let, included known future disposals, is set out in the table.

*Property details*

| *Property no.* | *Property name* | *Town* | *Postcode* | *Tenure* | *NIA (Sq m)* | *Land (Ha)* |
|---|---|---|---|---|---|---|
| 54 | Thirsk (Sowerby) Buffer Depot | Thirsk | YO7 1QX | Freehold | — | 1.1 |
| 62 | Almondbank 4 | Perth | PH1 3HY | Freehold | — | 8.9 |
| 63 | Almondbank 5 | Perth | PH1 3HY | Freehold | — | 5.6 |
| 93 | Fish Labs, Rememberance Ave. | Burnham-on-Crouch | CM0 8HA | Leasehold | — | 0.55 |
| 94 | Laboratory Complex Pakefield Road | Lowestoft | NR33 0HT | Leasehold | — | 1.21 |
| 146 | Guildford, Epsom Road | Guildford | GU1 2LD | Freehold | — | 4.92 |
| 272 | Longbenton VIC-surplus land | Newcastle | NE12 9SE | Freehold | — | 2.1 |
| 302 | Efford Plot (0.1 ha) | Lymington | SO41 0JD | Freehold | — | 0.1 |
| 302 | Efford Paddock (0.25 ha) | Lymington | SO41 0JD | Freehold | — | 0.25 |
| 302 | Efford Sewerage Treatment Works | Lymington | SO41 0JD | Freehold | — | 0.01 |
| 309 | Boxworth Farm | Boxworth | CB3 8NN | Freehold | — | 326 |
| 317 | Terrington (Land) | Kings Lynn | PE34 4PW | Freehold | — | 1.6 |
| 321 | Ditton Laboratory | West Malling | ME19 6BJ | Freehold | — | 1 |
| 340 | Dargues (Land) | Otterburn | NE19 1SB | Freehold | — | 21.86 |

### Departmental Public Bodies

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs what (*a*) percentage and (*b*) amount his Department has required each of the public bodies for which he is responsible to reduce its budget for 2007-08 from the level planned at the beginning of the financial year; what options he is considering for further savings in public expenditure; and if he will make a statement. [167179]

**Jonathan Shaw:** My Department has not required any of the public bodies for which the Department is responsible to reduce budgets for 2007-08 since these were set at the beginning of the financial year.

Budgets for 2008-09 are currently being considered by Ministers with the aim of being finalised in the new year.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171340]

**Jonathan Shaw:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007.

Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

### Domestic Wastes: Packaging

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the *(a)* proportion and *(b)* tonnage of waste from household collection which is made up of packaging waste; [170536]

(2) what estimate he has made of the tonnage of packaging waste from household collection which is *(a)* recovered and *(b)* recycled annually; and if he will make a statement. [170537]

**Joan Ruddock** *[holding answer 3 December 2007]:* 4.7 million tonnes of packaging ended up as household waste in the UK in 2006. This accounts for an estimated 18 to 21 per cent. of household waste.

No estimate has been made by my Department on the tonnage of packaging waste which is recovered or recycled specifically from household sources.

However, the total amount of packaging waste recovered and recycled in 2006 was around 6.3 million tonnes.

### Energy: Conservation

**Chris Huhne:** To ask the Secretary of State for Environment, Food and Rural Affairs what has been the total level of expenditure on his Department's market transformation programme since its inception. [169936]

**Joan Ruddock:** Since DEFRA was formed in 2001, it has provided just over £13.5 million to its Market Transformation Programme over the seven years between 2001 and 2007. Annual expenditure levels are set out in the following table:

| | £ |
|---|---|
| 2001-02 | 520,000 |
| 2002-03 | 812,000 |
| 2003-04 | 1,200,000 |
| 2004-05 | 2,139,000 |
| 2005-06 | 4,270,000 |
| 2006-07 | 4,600,000 |

### Environment Protection

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 8 October 2007, *Official Report*, column 120W, on environment protection, if he will break down the Environment Agency's maintenance expenditure on activities other than dredging, aquatic weed removal, grass cutting, tree removal and pollarding. [171707]

**Mr. Woolas:** In 2006-07 the proportion of the Environment Agency's flood risk management maintenance expenditure on activities other than dredging, aquatic weed removal, grass cutting, tree removal and pollarding was as follows:

| | *Percentage* |
|---|---|
| Obstruction removal | 8.6 |
| Structure maintenance | 18.7 |
| Channel/defence maintenance | 10.2 |
| Operational and asset inspections | 11.6 |
| Mechanical, Electrical, Instrumentation, Automation and Control | 7.2 |
| Buildings maintenance | 1.1 |
| Asset monitoring, operation and repair | 7.4 |
| Other | 4.6 |

### Environment Protection: Lighting

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government has taken to promote the use of energy saving light bulbs. [171835]

**Joan Ruddock** *[holding answer 6 December 2007]:* The number of efficient light bulbs in UK homes rose from 26 million in 2000, to 110 million in 2006. However, we recognise that more can be done to encourage their use.

We are working with retailers, manufacturers, energy suppliers and the Energy Saving Trust, to voluntarily phase out inefficient light bulbs by 2011 in the UK, ahead of our European partners.

This is supported by the "EU Energy" and "Energy Saving Recommended" labels, which provide consumers with appropriate information on the energy efficiency of products.

Replacing bulbs with energy efficient alternatives will save up to 5 million tonnes of $CO_2$ from electricity generation per year by 2012 and will also help reduce householders' energy bills.

### Fish: Animal Welfare

**Lynne Jones:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the Marine Bill will include provisions to improve the welfare of fish caught for human consumption. [171100]

**Jonathan Shaw:** There are no plans for the Marine Bill to include provisions on the welfare of fish caught for human consumption.

### Fisheries: Navy

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what contribution he receives from the devolved administrations on the costs of the contract for the Royal Navy Fishery Protection Service; and if he will make a statement. [170913]

**Jonathan Shaw:** The Royal Navy provides fisheries protection services to the Marine and Fisheries Agency (MFA) in the waters around England and Wales. The cost of the provision of this service is borne by the MFA. The Welsh Assembly Government contribute 6 per cent. of the overall cost by a PES transfer to the

MFA. There are no other contributions from the devolved administrations for this service.

Neither the Welsh Assembly nor the Northern Ireland Assembly received separate funding for this service upon devolution, and therefore make no contribution to the resources used on the MFA's behalf by the Royal Navy.

The Scottish Fisheries Protection Agency (SFPA), an Agency of the Scottish Executive, provides fishery protection services to the Scottish Executive in the waters around Scotland. The SFPA operates its own patrol vessels. As the SFPA does not use the Royal Navy Fishery Protection Squadron, it makes no contributions to the cost of the Squadron.

### Fisheries: Quotas

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Scottish Executive on the timing of its proposals on managing Scottish quota; and if he will make a statement. [172040]

**Jonathan Shaw:** I have yet to receive a formal proposal from the Scottish Executive regarding managing the UK quota in Scotland, and have had no recent discussions with my counterparts in the devolved administrations on the timing of such a proposal.

### Fisheries: Regional Advisory Councils

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how much funding he plans to give to *(a)* the North Sea Regional Advisory Council, *(b)* the North Western Waters Regional Advisory Council, *(c)* the Pelagic Regional Advisory Council and *(d)* the Long Distance Regional Advisory Council in each of the next five years; and if he will make a statement. [170901]

**Jonathan Shaw:** On 11 July 2007, Council Regulation 2004/585 was introduced to simplify the funding arrangements for all regional advisory councils in order to provide them with sufficient and permanent funding to allow them to continue their advisory role within the Common Fisheries Policy. Under these new funding arrangements, the Commission's allocated grant "shall not exceed 90 per cent. of the operating budget" of each regional advisory council, on an annual basis.

In addition, the UK and other member states contribute an annual membership, which varies from year to year. For the financial year of 2007-08 the UK membership is:

*(a)* 2,450 Euros to the North Sea RAC;

*(b)* 3,700 Euros to the North-Western Waters RAC;

*(c)* 2,222 Euros to the Pelagic RAC.

The Long Distance RAC has been established recently and the UK membership contribution has yet to be agreed.

In 2008, the Commission intends to review the function of regional advisory councils and that may include funding provisions.

### Fisheries: Regulation

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will commission research on attitudes to regulation and compliance in the English seafood industry. [172052]

**Jonathan Shaw:** The Government currently have no plans to commission research on attitudes to regulation and compliance in the English seafood industry.

### Fisheries: Science

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how much he intends to spend on *(a)* fisheries science and *(b)* the science fisheries partnership in the next comprehensive spending review period; and if he will make a statement. [173017]

**Jonathan Shaw:** No final decisions about the budget for the first of the comprehensive spending review years has been taken so we do not have the level of detail requested.

However in 2007-08 we are spending approximately £13.5 million on fisheries science. This includes £1 million on the Fisheries Science Partnership and £3 million on long-term research and development projects.

### Fisheries: Subsidies

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made on finalising the draft operational programme on the Fisheries Fund for submission to the European Commission; and when he expects it to be submitted. [173027]

**Jonathan Shaw:** I intend to submit the UK operational programme to the European Commission following a public consultation on the draft. This will be a 12-week consultation which I expect to commence early in 2008.

Agreement has now been reached between all UK Fisheries Ministers regarding the division of the UK European Fisheries Fund budget. DEFRA officials are working with their counterparts in the devolved administrations to complete the UK operational programme, in order to enable the consultation to take place.

### Flood Control

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on the Government's commitment in the Statement of Principles with Insurance Industries to *(a)* reduce the annual probability of flooding each year for a substantial number of properties in the UK, *(b)* maintain investment in flood management each year, *(c)* implement reforms to the land-use planning system to ensure that new developments do not lead to an increase in the national or local flood risk, *(d)* communicate flood risk effectively and *(e)* develop an integrated approach to urban drainage that alleviates the risks of sewer flooding and flash flooding. [171154]

**Mr. Woolas:** The Association of British Insurers' Statement of Principles sets out members' commitments on availability of flood insurance in association with Government commitments on effective management of flood risk.

*(a)* A full programme of Government-funded works across the country is currently forecast to considerably exceed the Spending Review target to improve protection from river flooding and coastal erosion for more than 100,000 households between 2005 and 2008. Our investment is making real improvements possible across the country but, regardless of future levels of funding, it would be unrealistic to expect the Government to address all flood and coastal erosion risk problems.

*(b)* Spending on flood and coastal erosion risk management across central and local government has increased from £307 million in 1996-97 to some £600 million this year and will increase further to a minimum of £650 million in 2008-09, £700 million in 2009-10, reaching £800 million in 2010-11. This represents a significant real terms increase.

*(c)* I refer the hon. Member to the reply given by my colleague the Minister for Housing on 29 October 2007, *Official Report*, column 673W, as this is a matter for the Department for Communities and Local Government.

*(d)* Flood risk mapping is an important part of the Government's strategy on public awareness. DEFRA funds the Environment Agency to map flood risk as part of our strategy to ensure that the risk from flooding is better understood by all concerned. The Environment Agency continues to improve the flood mapping available to the public, local planning authorities, the emergency services and insurers.

*(e)* The Government's developing strategy to improve flood risk management, "Making space for water", seeks to identify improvements in urban flood risk management where there is a complex interaction of drainage systems and a number of different organisations involved. As part of this, DEFRA is funding 15 pilots in different locations around the country to test new approaches to urban drainage management and clarify responsibilities. We are also developing proposals for how the current range of responsibilities for urban flood risk should be managed and the role of the Environment Agency in this.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on the collation of groundwater flooding records, and monitoring and risk assessment, as referred to in Making Space for Water. [171156]

**Mr. Woolas:** Recommendations from the Making Space for Water project (MSfW) 'Groundwater flooding records collation, monitoring and risk assessment' are being considered at MSfW programme level, with other related work.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures have been introduced to encourage people to take up resilience measures in their homes. [171158]

**Mr. Woolas:** The Environment Agency publishes helpful information on its website on resilience and resistance measures.

In conjunction with the Association of British Insurers, we are working to develop ways in which the public can be encouraged to incorporate appropriate flood resilience or resistance measures in their homes and businesses. We are also undertaking a £500,000 pilot scheme looking at the feasibility of providing financial assistance for people to install such measures. In May we published a technical report which described in broad terms the suitability and cost effectiveness of a variety of measures such as temporary flood gates, water resistant floors and wall coverings.

### Flood Control: Video Games

**Mr. Pickles:** To ask the Secretary of State for Environment, Food and Rural Affairs what funding his Department has provided for the development of Discovery Software's Flood Ranger programme. [171625]

**Mr. Woolas:** No funding has been provided by my Department. The cost of developing this software, c£25,000, was met by the former Department for Trade and Industry through its Office of Science and Technology's Foresight Programme.

### Floods

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures the Department uses to assess the effectiveness of flood proofing measures used on *(a)* private homes and *(b)* business properties. [171729]

**Mr. Woolas:** The Environment Agency is the principal operating authority for flood risk management in England and supports the Kitemark scheme of certified flood products as they have been independently tested and proved fit for purpose. Details of the scheme and a list of certified products are available on its website. The Environment Agency does not endorse any individual product or manufacturer.

### Floods: Infrastructure

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of critical infrastructure is situated in flood risk areas; and what proposals he has to ensure the future safety of this infrastructure. [170519]

**Mr. Woolas:** The Environment Agency has identified nearly 5,000 sites in areas in England and Wales assessed by the agency as having an annual probability of flooding of 1 in 75 or greater.

The 14 categories of assets include power stations, sewage and water treatment works and schools. On the data currently available, the Environment Agency identifies 12.2 per cent. of these as being situated within the extreme flood outline.

### Fly-tipping: Greater London

**Mr. Boris Johnson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of fly tipping were recorded in each London borough in each year since 1998; and what the estimated cost was of dealing with these incidents in each borough in each year. [172493]

**Joan Ruddock:** I have arranged for a table to be placed in the Library of the House showing the number of fly-tipping incidents and prosecutions recorded in each local authority by local authorities on Flycapture for 2004-05, 2005-06 and 2006-07. Data are only available from 2004 onwards.

Following the release of the 2006-07 Flycapture statistics on 9 October 2007, this information has been sent to all MPs and has been placed in the Printed Paper Office.

It is also available to download electronically on DEFRA's Flycapture website at:

http://www.defra.gov.uk/environment/localenv/flytipping/flycapture-data.htm

### Food from Britain: Finance

**Chris Huhne:** To ask the Secretary of State for Environment, Food and Rural Affairs what the budget allocated for Food for Britain has been in each year since its creation. [169935]

**Jonathan Shaw:** The following table shows the grants receivable by Food from Britain (FFB) from MAFF/DEFRA in each year since FFB was created in 1983. Information on FFB's total income and expenditure in these years can be found in its annual report and accounts, copies of which have been laid before Parliament.

| *Financial year* | *Core grant in aid* | *Grant in aid for capital expenditure* | *Other MAFF/DEFRA grant* |
|---|---|---|---|
| 1983-84 | 3,876,002 | 145,477 | n/a |
| 1984-85 | 5,433,422 | 89,452 | n/a |
| 1985-86 | 5,410,696 | 50,036 | n/a |
| 1986-87 | 4,786,825 | 53,214 | n/a |
| 1987-88 | 3,664,965 | 139,412 | n/a |
| 1988-89 | 4,056,849 | 129,555 | n/a |
| 1989-90 | 4,702,042 | 81,759 | n/a |
| 1990-91 | 4,025,497 | 88,719 | n/a |
| 1991-92 | 4,691,329 | 30,403 | n/a |
| 1992-93 | 4,648,519 | 88,092 | n/a |
| 1993-94 | 4,915,850 | 27,875 | n/a |
| 1994-95 | 4,953,300 | 143,699 | n/a |
| 1995-96 | 5,431,410 | 81,020 | n/a |
| 1996-97 | 5,274,478 | 28,616 | n/a |
| 1997-98 | 4,772,550 | 58,380 | [1]300,000 |
| 1998-99 | 4,927,000 | 67,917 | [1]313,000 plus [2]355,000 |
| 1999-2000 | 4,968,000 | 73,084 | [1]405,000 plus [2]18,000 |
| 2000-01 | 5,392,000 | 30,663 | [1]150,000 plus [2]10,000 |
| 2001-02 | 5,368,000 | 55,999 | [3]2,500,000 |

---

[1] Sector Challenge funding

[2] Exceptional additional MAFF funding

[3] Foot and mouth recovery funding

[4] Additional funding to support implementation of DEFRA's English Regional Food Strategy, initially agreed for the period 2003-04 to 2005-06 and subsequently extended for the years 2006-07 and 2007-08.

*Note:*

Figures exclude grants paid to Food from Britain by the Countryside Agency in the years 2001-02 to 2002-03 to fund specific activities carried out by Regional Food Groups.

1983-84 to 2006-07—Food from Britain Annual Report and Accounts

### Foot and Mouth Disease: Disease Control

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the likely effects on the UK economy are of producing foot and mouth disease vaccine in Britain; and if he will make a statement; [170865]

(2) if he will re-examine the merits of producing foot and mouth disease vaccine in the UK. [170866]

**Jonathan Shaw:** DEFRA has not made an assessment of the financial merits to the economy of producing foot and mouth disease (FMD) vaccine in the UK. However, having a readily available stock of FMD vaccine is of clear benefit in terms of ensuring timely access to vaccine in the event of an outbreak.

### Foot and Mouth Disease: Farmers

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what support is being provided to farmers within the foot and mouth disease restriction areas. [164395]

**Jonathan Shaw:** On 8 October, DEFRA announced a package of assistance worth £12.5 million aimed at supporting those livestock farmers in England most severely affected by the outbreak of foot and mouth disease (FMD), including those in the restriction areas. Implementation of all elements of the package is well under way and some are almost completed.

£8.5 million was allocated to provide support for our hill farmers. Approximately £8.3 million has now been paid out. The rest of the payments are expected to be made by the end of December.

£1 million was allocated to raise the level of subsidy from 10 per cent. to 100 per cent. for the National Fallen Stock Scheme for farmers in the FMD Restricted Zone while it was in place. This scheme closed when the Restricted Zone was lifted on 19 November.

£2 million was to promote the sales of lamb, beef and pork domestically and in our export markets. The first payment of £250,000 has been made. Lamb promotion activity has begun and additional beef promotion will start later this month. The demand for lamb from European partners is proving strong. Preparatory work has started for promoting third country exports of pork once we have regained World Organisation for Animal Health (OIE) freedom, and additional domestic pork promotion will start in January.

A donation of £1 million was made to the Arthur Rank Centre for disbursement to Farming Help charities, which provide advice and practical and emotional support to farming families. £500,000 has already been transferred.

All domestic control restrictions have now been lifted, and the only restrictions remaining in place are those placed on movements to ensure eligibility for export to the EU.

### Game

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what research he has *(a)* initiated and *(b)* evaluated on (i) the proportion of shot game which is released to the black market and (ii) the proportion of shot game in respect of which income tax is declared. [172621]

**Joan Ruddock:** My Department has not conducted research on these matters.

### Game: Birds

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of the gamebird shooting industry on *(a)* the killing of indigenous mammals and birds, *(b)* damage to moorland peat deposits and *(c)* burning of heather; and if he will make a statement. [170284]

**Joan Ruddock:** The gamebird shooting industry involves the shooting of the native grey partridge and red grouse in addition to non-native gamebirds such as red-legged partridge and pheasant. These populations are managed for shooting and there is no evidence to suggest that shooting has resulted in population declines. In order to enhance gamebird populations, a range of native birds and mammals are killed legally as part of pest control campaigns. These species are generalist predators, including foxes, stoats, weasels, carrion crows and magpies. There is no evidence to suggest that this has an adverse affect on populations of these species, although little information is available on which to assess the impacts of killing stoats and weasels. The illegal persecution of native birds of prey, especially for the threatened hen harrier in England, has been associated with game rearing interests and remains a serious problem.

Natural England is working to establish management agreements with landowners and managers, including those associated with the game industry (especially on sites of special scientific interest), to restore peatlands by the blocking of drains and agreement of burning plans. In addition, DEFRA has recently set up a policy project to coordinate the Government's work on peat. This aims to protect and enhance peat under all forms of management. As a part of this work, we plan to commission research to assess the environmental impacts of peatland management.

We are aware of the potential for damage of unregulated or poorly practised burning. This is why we introduced the Heather and Grass etc. Burning (England) Regulations 2007. The regulations protect people, property and the natural environment, and introduce new rules to safeguard carbon-rich soils. In addition, we have published the Heather and Grass Burning Code 2007. The regulations and the code have the support of Natural England and key stakeholders, including the National Farmers' Union and the Moorland Association.

### Heathrow Airport

**Mr. Boris Johnson:** To ask the Secretary of State for Environment, Food and Rural Affairs what meetings he had with the Secretary of State for Transport on the expansion of Heathrow airport before the publication of responses to the consultation on the subject. [171801]

**Mr. Woolas:** My right hon. Friend the Secretary of State (Hilary Benn) met the Secretary of State for Transport in September when, among other things, the expansion of Heathrow airport was discussed. This issue has also been discussed during the general course of Cabinet business.

### Housing: Insurance

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent representations he has received on insurance industries offering home insurance to new developments built against Environment Agency advice; [172069]

(2) what recent discussions he has held with the insurance industry on the affordability of insurance for properties at risk of flooding. [172071]

**Mr. Woolas:** There is a continuing dialogue with the Environment Agency, the Department for Communities and Local Government and the Association of British Insurers on this issue with the aim of ensuring widespread availability of insurance cover for flooding.

I refer the hon. Member to the answers I gave her on 12 November 2007, *Official Report*, column 14W.

### Inland Waterways: Finance

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on the likely effect of funding reductions for inland waterways on tourism; and if he will make a statement. [171965]

**Jonathan Shaw:** I have received correspondence from a wide range of stakeholders regarding the funding of British Waterways, and its public benefits.

### Laboratories: Disease Control

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Agriculture and Fisheries Council held in Luxembourg on 22 and 23 October 2007 and the discussions on the animal health strategy (1) what steps he is taking to ensure improvements in biosecurity in laboratories; and if he will make a statement; [170883]

(2) whether he discussed with his European counterparts biosecurity at the Pirbright site; and if he will make a statement. [170884]

**Jonathan Shaw:** We are keeping in close contact with the European Commission on these issues.

Stringent new conditions have been applied to work undertaken on the Pirbright site, and a safety alert was issued to all similar laboratories immediately following the August outbreak. A follow-up round of inspections has been taking place jointly with the Health and Safety Executive (HSE). Additionally, we accepted all recommendations that apply to the Government contained in the HSE and Spratt reports. These measures will ensure the highest level of biosecurity both at Pirbright and at all other laboratories working with specified animal pathogens.

Following the incident announced by DEFRA on 22 November, Merial's Specified Animal Pathogens Order licence was suspended. The incident was contained in the enclosed, re-lined drainage system, and there was no release of virus to the environment. An inspection team has produced a full report for the acting chief veterinary officer.

## Livestock: Agricultural Shows

**Jeremy Wright:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department provides to livestock show judges on the avoidance of contamination on clothing. [170292]

**Jonathan Shaw:** Livestock shows must be licensed by DEFRA and each show must have a biosecurity officer to assist the licensee in ensuring the rules of the licence and the Animal Gatherings legislation are followed.

DEFRA has issued specific guidance to show organisers and their biosecurity officers for implementing the biosecurity conditions of the show's licence and the legislation, which are their responsibility. The guidance is available from the DEFRA website.

Judges at livestock shows, as well as owners of animals and stockmen, should understand all the biosecurity rules, including those for clean clothing and personal biosecurity when leaving the area to which animals have access.

## Merial Animal Health: Pirbright

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* economic and *(b)* other factors he took into account in granting licences to produce vaccines to Merial at Pirbright. [170612]

**Jonathan Shaw:** Specified Animal Pathogen Order (SAPO) licenses are only granted if the laboratory can demonstrate that they have the necessary management processes, trained staff, documented operating procedures and facilities to ensure the safe containment, handling and disposal of the specified animal pathogens concerned. Laboratory inspections are carried out to assess this, and economic factors are not a consideration.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his written ministerial statement of 22 November 2007: Specified Animal Pathogens Order (SAPO) Licence Conditions at Merial Animal Health, whether the valves on the steam lines used to sterilise the associated pipework were inspected by his Department's officials prior to restoring the SAPO licence to Merial Animal Health on 6 November 2007; and if he will make a statement. [170869]

**Jonathan Shaw:** The facility was inspected prior to restoring the Specified Animal Pathogens Order (SAPO) licence on 6 November. Following inspections and documentary evidence from Merial, we were satisfied that they complied with all of the required licence conditions and had in place all the necessary measures to ensure strict biosecurity throughout the site.

As part of the SAPO licence, we require Merial to apply rigorous standard operating procedures. In relation to the valves, these mean that each time the centrifuge is used, two operators must certify that the valve is locked shut and its integrity is confirmed by pressure tests before and after each batch. In addition, the preventive maintenance system includes regular inspections and although the valves on the centrifuge have a three-year life expectancy, they are replaced annually. All these checks must be recorded.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his written ministerial statement of 22 November 2007: Specified Animal Pathogens Order Licence Conditions at Merial Animal Health, what risk assessment he has carried out to the risks to British livestock of contamination from the live virus leak reported; and if he will make a statement. [170870]

**Jonathan Shaw:** An assessment carried out by the inspection team, on 20 November, concluded that live virus had not been released to the environment. This was the result of the extensive layers of biosecurity that we require under the Specified Animal Pathogens Order licence, which effectively contained the virus in the enclosed, re-lined drainage system before deactivation in the chemical treatment plant within the Pirbright site.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his written ministerial statement of 22 November 2007: Specified Animal Pathogens Order (SAPO) Licence Conditions at Merial Animal Health, and the decision to suspend the SAPO licence, what assessment he has made of the effect this will have on the production of a bluetongue vaccine; and if he will make a statement. [170871]

**Jonathan Shaw:** On 20 November, Merial informed DEFRA of a biosecurity incident at Pirbright and, although the incident was contained, the use of live virus was immediately suspended as our paramount concern is the security of the site. An inspection team urgently conducted detailed checks and we are considering what further action needs to be taken.

It is too early to say what implications this may have on the production of a bluetongue vaccine. However, this suspension does not prevent Merial from conducting development of a bluetongue vaccine as their Pirbright site is primarily a production, rather than research, facility; Merial conduct the majority of their research elsewhere. There are also two other manufacturers of bluetongue vaccine, Intervet and Fort Dodge. We are currently considering bids from all three companies that were submitted following our recent tendering exercise and we plan to make an announcement on the outcome shortly.

## Organic Farming

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the Food and Agriculture Organisation's policy on organic farming. [170365]

**Jonathan Shaw:** The Food and Agriculture Organisation's report on Paying Farmers for Environmental Services is a helpful contribution to the debate on how best to secure delivery of environmental public goods for which there is no return for farmers from the market. The contribution which can be made in this country by organic farmers is recognised through aid paid under the Organic Entry Level Scheme.

## Organic Food: Low Incomes

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government have taken to increase the availability of organic food to low income families. [171834]

**Jonathan Shaw** *[holding answer 6 December 2007]:* The Government offers considerable support to the organic sector through financial aid to organic farmers and the organic action plan, in order to make organic produce more accessible. The stakeholder group supporting the organic action plan is currently examining the issue of how income and geographical locations impact on the ability of consumers to purchase organic food and will make recommendations to DEFRA in the new year.

We have to recognise that, by its very nature, organic food is more expensive to produce because of the greater emphasis on sustainable extensive management systems in preference to artificial inputs and intensive farming systems.

## Pigs: Animal Breeding

**Danny Alexander:** To ask the Secretary of State for Environment, Food and Rural Affairs what the size was of the total breeding herd of pigs in England in each of the last 10 years. [173001]

**Jonathan Shaw:** The total pig breeding herd in England for each of the last 10 years is shown in the table:

| | *Number of pigs in breeding herd* |
|---|---|
| 1998 | 629,915 |
| 1999 | 573,034 |
| 2000 | 502,697 |
| 2001 | 488,980 |
| 2002 | 457,871 |
| 2003 | 418,053 |
| 2004 | 424,485 |
| 2005 | 386,207 |
| 2006 | 386,109 |
| 2007 | 374,861 |

*Notes:*
1. Pig breeding herd is sows and gilts in pig and other sows either being suckled or dry sows being kept for further breeding.
2. These totals are estimates based on a sample survey and are therefore subject to a degree of sampling error.

*Source:*
June Survey of Agriculture

## Poultry: Animal Welfare

**Mr. Swire:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on animal welfare problems associated with intensive broiler chicken production; and if he will make a statement. [171073]

**Jonathan Shaw** *[holding answer 5 December 2007]:* I am pleased to say that the European Commission directive on the welfare of broiler chickens gained political agreement at Agriculture Council on 7 May 2007, after two years of negotiations. The UK worked hard with the Commission and other animal welfare-conscious member states to get the dossier agreed.

The directive will deliver real welfare benefits for broilers, while balancing economic, social and environmental impacts. It takes into account a range of factors, including the latest scientific evidence, veterinary advice, consumer concerns and industry practice.

Throughout the negotiations we held extensive discussions with a range of stakeholders, both through a formal consultation on the proposals as well as through meetings and correspondence. We will continue to involve stakeholders during our transposition of the new directive into domestic legislation, and this will include a full 12-week public consultation period.

## Seas and Oceans: Environment Protection

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what the role of the UK policy custodian for the marine and aquatic environment is, as stated in his Department's Marine and Fisheries Business Plan 2007-08; and if he will make a statement. [170931]

**Jonathan Shaw:** DEFRA is the UK policy custodian for the marine and aquatic environment. The purpose of the role is to seek to deliver clean, safe, healthy, productive and biologically diverse oceans and seas through the Department's marine programme.

## Seas and Oceans: Pollution Control

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to report on the review of the marine emergency contingency plan; and if he will make a statement. [170895]

**Jim Fitzpatrick:** I have been asked to reply.

The current National Contingency Plan for Marine Pollution from Shipping and Offshore Installations, agreed by Ministers, was published in November 2006. This plan ensures that there is a timely, measured and effective response to the threat of, or actual pollution of UK waters from ships or offshore installations. A copy of this plan is available on the Maritime and Coastguard Agency's website at

http://www.mcga.gov.uk/c4mca/mcga-environmental/mcga-dops_cp_environmental-counter-pollution/mcga-ncp.htm

### Special Areas of Conservation

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs which inshore sites he has identified to become special areas of conservation over the next five years; and if he will make a statement. [170890]

**Joan Ruddock:** Currently, there are 28 Special Areas of Conservation with marine habitats or species in English inshore waters. Natural England are in the process of carrying out a programme of further data collection and survey work for seven additional inshore areas. This should lead to the selection of further Special Areas of Conservation.

The areas involved include: Outer Wash sandbanks; Greater Thames estuary; Lyme Bay to Poole Bay; Salcombe to Yealm and Eddystone; Lizard Point; Lands End and Cape Bank; and Outer Morecombe Bay, Shell Flat and Lune Deep.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs which offshore sites he has identified to become special areas of conservation over the next five years; and if he will make a statement. [170891]

**Joan Ruddock:** We are completing our Natura 2000 network of sites in the marine area, which we hope to have substantially finalised by 2012. We expect to send an initial tranche of candidate offshore special areas of conservation to the European Commission before September 2008.

The Joint Nature Conservation Committee will be consulting on seven initial sites later this month. These include: Braemar Pockmarks, Darwin Mounds, Haig Fras, North Norfolk Sandbanks and Saturn Reef, Scanner Pockmark, Stanton Banks and Wyville Thomson Ridge.

Our programme of data collection and survey work will continue to identify further sites needed to complete the UK network.

### Turtles: Conservation

**Andrew Rosindell:** To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 23 October 2007, *Official Report*, column 168W, on Turtles: conservation, if he will list the UK wildlife crime priorities for 2007-08; and with respect to the illegal trade in CITES species, what the five species threatened by illegal trade are that are being focused on. [171213]

**Joan Ruddock:** The five UK wildlife crime priorities for 2007-08, agreed by senior Government and enforcement officers, are offences against bats and freshwater pearl mussels, the illegal trade in CITES species, the illegal killing of hen harriers, and poaching.

With respect to the illegal trade in CITES species, the five areas being focused on are caviar, ivory, ramin, tortoises and traditional medicines.

The priorities do not preclude action being taken to investigate and prosecute crimes against other wildlife species.

### Waste Disposal

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of waste facilities required to meet the commitments entered into under the European Landfill Directive; how many such waste facilities exist; how many new ones are *(a)* under construction and *(b)* planned; and if he will make a statement. [167132]

**Joan Ruddock:** No specific estimate has been made by my Department on the number of waste facilities needed. However, DEFRA's Waste Infrastructure Delivery Programme (WIDP) is maintaining a national overview of existing and planned residual treatment capacity to ensure that resources are applied in the most effective manner. It is the responsibility of local authorities, working on their own or in partnership with neighbouring authorities, to procure waste management facilities suited to local needs.

While we are confident that we have enough infrastructure in place to meet our 2010 EU Landfill Directive target, current estimates suggest that we still require an increase in diversion capacity to allow us to meet the 2013 and 2020 targets. This infrastructure will help to facilitate an increase in both recycling and composting and diversion from landfill. The number of facilities required will depend upon the nature of waste delivery authority procurements, the technology selected and the size of individual plants.

We are currently aware of 81 plants across England (covering a range of treatment and disposal technologies) that are scheduled to become operational from 2008 onwards. These will potentially provide the capacity to treat an extra 10.3 million tonnes of municipal waste. With the ongoing engagement WIDP is undertaking with authorities, the combination of authorities' ambitions and the utilisation of the £2 billion private finance initiative credits recently announced in the comprehensive spending review, the Government believe sufficient infrastructure can be delivered to meet our obligations under the Landfill Directive.

It remains vital that regional spatial strategies and local development documents look forward and make adequate provision for the appropriate types and scales of infrastructure and waste treatment facilities needed. It is also important for specific and suitable sites to be identified in local plans.

### Waste Disposal: Costs

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average cost per capita of collecting waste in predominantly *(a)* rural and *(b)* urban local authorities; and if he will make a statement. [170877]

**Joan Ruddock:** Local authorities report the cost of waste collection per head as best value performance indicator (BVPI) 86. Data for local authorities in England for 2006-07 are available on the DEFRA website.

No specific assessment has been made of the average cost of collecting waste in rural compared to urban areas. However, it is possible to calculate the total per capita cost of household waste collection from the BVPI data. This shows that the average cost per head for predominantly rural authorities is £49.82 compared to £48.73 in urban authorities. Analysis of the individual local authority data shows that there is variability within these average costs.

### Water

**Mr. Clifton-Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs what consideration has been given to bringing the responsibility for drainage matters in a particular area under one statutory authority. [172065]

**Mr. Woolas:** We are aiming to improve management of flood risk nationally and to clarify responsibilities by giving the Environment Agency a strategic overview of all forms of flooding in a close partnership with local authorities and the water companies in long term planning and strategic risk management.

The Government is currently examining approaches to the management of surface water drainage. As part of the upcoming Government Water Strategy, Future Water, due to be published early in 2008, we will review the institutional arrangements for those bodies responsible for surface water. This work will take on board recommendations from Sir Michael Pitt's interim report, due shortly, and the 15 pilot projects we are funding to identify improvements to the management of urban drainage.

## WALES

### Business

**Adam Price:** To ask the Secretary of State for Wales if he will list those meetings he has helped to arrange between ministerial colleagues across Government and Welsh business representatives over the last 12 months. [172690]

**Mr. Hain:** It is my duty to facilitate meetings across Government both at Westminster and in Cardiff to strengthen economic opportunity for Wales and I and my office do so from time to time.

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Wales how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171448]

**Mr. Hain:** Prior to 2004-05 these items were purchased by or paid for via the National Assembly for Wales and figures can be provided only at disproportionate cost.

The expenses incurred by the Wales Office for the following years were:

£

| | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|
| *(a)* Cards: | 2,949.57 | 1,020 | 897.80 |
| *(b)* Parties: | 1,284.28 | 2,523.96 | 5,538.33 |
| *(c)* Decorations: | 0 | 0 | 100 |

Printing costs for invitations are not included this can be obtained only at a disproportionate cost.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Wales how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171330]

**Mr. Hain:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the 'Overseas Travel by Cabinet Ministers' list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the ministerial code.

### Right to Buy Scheme

**Adam Price:** To ask the Secretary of State for Wales when the Government first received the draft legislative competence order on the supervision of the right to buy from the Welsh Assembly Government. [172689]

**Mr. Hain:** While discussions between the Welsh Assembly government and the UK Government concerning this proposal began at the end of June, the draft order that was published in the National Assembly on 4 December was first received by the Government on 29 November.

## WOMEN AND EQUALITY

### Equality

**John McDonnell:** To ask the Minister for Women and Equality for what reasons responsibilities for administering the provisions of the Equal Pay Act 1970, Sex Discrimination Act 1975, Race Relations Act 1976, Sex Discrimination (Election Candidates Act) 2002, Civil Partnerships Act 2004 and the Equality Act 2006 are divided between Departments. [172594]

**Barbara Follett:** Responsibility for administering these provisions is not divided between different Departments. The Government Equalities Office is responsible for maintaining these pieces of legislation, working closely with a range of Departments which have a strong interest, including Communities and Local Government and the Ministry of Justice.

**John McDonnell:** To ask the Minister for Women and Equality what changes have been made to ministerial responsibility for each equality strand in the last year; and how these changes have been communicated to *(a)* staff and *(b)* stakeholders. [172595]

**Barbara Follett:** I refer my hon. Friend to the written ministerial statement made by the Prime Minister on 26 July 2007 at:

http://www.publications.parliament.uk/pa/cm200607/cmhansrd/cm070726/wmstext/70726m0004.htm#07072644000043

and to a subsequent written ministerial statement made by my hon. Friend the Minister for the Cabinet Office on 18 October 2007:

http://www.publications.parliament.uk/pa/cm200607/cmhansrd/cm071018/wmstext/71018m0001.htm#07101814000009

All changes to ministerial responsibility are reported to staff by senior officials within relevant Departments. Changes to ministerial responsibility were communicated to those stakeholders with whom there are regular contacts by correspondence or by telephone.

### Ministerial Duties

**Jo Swinson:** To ask the Minister for Women and Equality what proportion of the working week of the Parliamentary Under-Secretary of State, Government Equalities Office, is allocated to *(a)* her role supporting the Minister for Women and Equalities and *(b)* her role as Minister for the East of England. [171384]

**Barbara Follett:** There is no such thing as an average working week.

As with any Minister who has a broad portfolio I prioritise my work accordingly.

## OLYMPICS

### Legacy Objectives

4. **James Duddridge:** To ask the Minister for the Olympics what the legacy objectives are for the Olympic Games in Southend and the UK. [172192]

**Tessa Jowell:** We are committed to ensuring that everyone in the UK can be part of the 2012 games—through cultural events across the country, more opportunities to take part in sport and be physically active, and a wealth of volunteering, jobs and skills training initiatives. The five legacy promises that I published in June encapsulate these objectives, and I will be publishing an action plan in the new year making clear how these promises will be delivered. These aims apply to every nation and region of the UK, including Southend.

### Budget

5. **Mr. Vara:** To ask the Minister for the Olympics what recent discussions she has had on the budget for the Olympic Games; and if she will make a statement. [172193]

**Tessa Jowell:** The Ministerial Funders Group met on 26 November and agreed funding for the Olympic Delivery Authority within the £9.325 billion provision I announced in March.

Since then I have had discussions with:

the Chair of the Culture, Media and Sport Select Committee;

the Chair of the Public Accounts Committee;

the Conservative and Liberal Democrat Culture spokesmen and

the president of the International Olympic Committee.

This morning, I presented a written statement to the House to update hon. Members on the budget for 2012 Olympic and Paralympic games.

### British Olympic Association

6. **Mr. Bone:** To ask the Minister for the Olympics what assessment she has made of the effectiveness of the contribution of the British Olympic Association to preparations for the 2012 Olympic Games. [172194]

**Tessa Jowell:** The British Olympic Association plays a key role in the preparations for the 2012 Olympic and Paralympic games.

The BOA is a member of the London organising committee, and its chairman, Lord Moynihan, is a member of the Olympic Board—the body responsible for overseeing the successful delivery of the games in 2012 and ensuring the games leave a lasting sporting and social legacy.

The BOA is also responsible for selecting and leading Team GB. It provides support to Britain's Olympic athletes and works closely with national governing bodies and UK Sport to ensure the success of British athletes in 2012.

### Scotland

7. **Jo Swinson:** To ask the Minister for the Olympics if she will make a statement on the expected effect of the 2012 Olympics on Scotland. [172195]

**Tessa Jowell:** It was a cornerstone of our successful 2012 bid that hosting the games in London would bring fantastic opportunities to the whole of the UK. We are working closely with organisations across the country, through the nations and regions group, to maximise UK-wide benefits. Scotland will host football events at Hampden park, bringing tourism and other benefits. There will also be opportunities around the cultural olympiad, volunteering and the potential to win contracts and host training camps.

### Olympic Games 2012: Finance

**Hugh Robertson:** To ask the Minister for the Olympics further to the permanent secretary's evidence to the Public Accounts Committee on Wednesday 15 November, what the Singapore commitments on mass participation sport costed in the Olympic budget are. [168213]

**Tessa Jowell** *[holding answer 26 November 2007]:* As the permanent secretary said at the recent Public Accounts Committee on 14 November 2007, the £9.325 billion funding package for the Olympic and Paralympic games reflects commitments made in London's candidate city file, at the time of the bid, particularly in relation to construction for the games and regeneration. The candidate city file, often referred to as 'the bid book', is available in the House Library.

The £9.325 billion funding package for the games, includes a £290 million contribution from the sport lottery distributors, which will be invested in maximising the benefit to British sport of hosting the games, through support of elite and community sport. The key areas of investment will be:

Programmes of support for elite athletes and coaches;

Development of facilities for elite and community use; and

Community programmes/projects for clubs, coaches and volunteers, to increase participation and improve performance.

The Government will publish a legacy action plan early in the new year, that will set out our commitments for the Olympic legacy, including for participation in sport, and how they will be delivered.

### Olympic Games 2012: Training

**Mr. Boris Johnson:** To ask the Minister for the Olympics pursuant to the answer to the hon. Member for Hackney North and Stoke Newington of 22 November 2007, *Official Report*, columns 1034-35W, on Olympic Games 2012: training, how many of the 1,500 training places provided by the local employment and training framework for the Olympic Games are for *(a)* apprenticeships and *(b)* level (i) 1, (ii) 2, (iii) 3 and (iv) 4 qualifications. [169670]

**Tessa Jowell:** The initial focus of the local employment and training framework programme has been on basic employability and vocational skills based both on the needs of local people and those of the contractors currently employing the construction work force on the Olympic Park. The target for the financial year 2007-08 is 1,500 training places. Since its launch in January to September 2007, 1,169 training places have been offered, the vast majority of which were at level 1, with 13 above level 1. Information on places offered since then is not yet available.

The LETF is only one of a broad range of initiatives being undertaken by the Mayor's London employment and skills taskforce for 2012, which is investing around £25 million per year in improving employment and training opportunities. LEST's target is to reduce worklessness in London by 70,000 by 2012, including by 20,000 in the five east London host boroughs.

As part of this, the Prime Minister announced on 29 November a national constructions skills academy project on the Olympic park that would provide at least 1,000 job placements for people enrolled on local further education college construction courses, 1,000 other training placements for local people and more than 500 apprenticeship places.

## PRIME MINISTER

### Chequers

**Anne Main:** To ask the Prime Minister with reference to the answer of 25 July 2007, *Official Report*, column 1110W, to the hon. Member for Ochil and South Perthshire (Gordon Banks), on Chequers, when he plans to update the list of guests entertained at Chequers on the Cabinet Office website. [171480]

**The Prime Minister:** A list of guests entertained at Chequers for the financial year 2006-07 is available at 25 July 2007, *Official Report*, columns 1110-11W.

### Corporate Hospitality

**David Simpson:** To ask the Prime Minister on how many occasions he has accepted corporate hospitality in the last 12 months. [171307]

**The Prime Minister:** Chapter 7 of the ministerial code sets out the rules on the registration of hospitality.

### Departmental Manpower

**Mr. Laws:** To ask the Prime Minister how many people worked in No. 10 Downing street on *(a)* 1 May 2007 and *(b)* 1 December 2007, broken down by policy area; and if he will make a statement. [172785]

**The Prime Minister:** I refer the hon. Member to the answer I gave on 15 October 2007, *Official Report*, columns 819-20W.

### Public Sector: Ethics

**Mr. Amess:** To ask the Prime Minister what steps he *(a)* has taken and *(b)* plans to take to foster and promote the public's trust in those in public life; what recent discussions he has had on the issue; with whom; what recent representations he has received about this issue; and if he will make a statement. [172407]

**The Prime Minister:** As announced at Prime Minister's questions and in the debate on "Standards of Conduct in Public Life" on 5 December, I have appointed a new chair of the Committee on Standards for Public Life. Sir Christopher Kelly has been appointed for a single fixed term of five years. I met the outgoing interim chair of the committee and her successor on Thursday 6 December.

"The Governance of Britain", which is currently out for public consultation, sets out the Government's proposals to limit the powers of the executive, make the executive more accountable and reinvigorate our democracy. The Queen's Speech announced that proposals will be brought forward to renew the constitutional settlement and strengthen the relationship between the Government, Parliament and the people. In addition the ministerial code was updated in July.

### Saudi Arabia

**Keith Vaz:** To ask the Prime Minister when he last met representatives of the Saudi Arabian Government; what topics were discussed; how long the meeting lasted; and when he next expects to meet such representatives. [171679]

**The Prime Minister:** Details of my meeting with the Saudi Arabian Government can be found on the No. 10 website at:

http://www.pm.gov.uk/output/Page13683.asp

A copy of this webpage has been placed in the Library of the House.

## DEFENCE

### Afghanistan: Peace Keeping Operation

**Mr. Carswell:** To ask the Secretary of State for Defence how many Lynx helicopters are available for service on a 24-hour basis throughout the year in Afghanistan. [172535]

**Des Browne:** I refer the hon. Member to the reply given to him by the then Minister of State for the Armed Forces on 26 March 2007, *Official Report*, column 1353W.

**David T.C. Davies:** To ask the Secretary of State for Defence how many British helicopters are carrying out operations in Afghanistan. [172578]

**Des Browne:** I have nothing to add to the reply given by the then Minister of State for the Armed Forces on 26 March 2007, *Official Report*, column 1353W.

**Lembit Öpik:** To ask the Secretary of State for Defence how many combat-related injuries requiring hospitalisation of service personnel in *(a)* Afghanistan and *(b)* Iraq there have been since January 2001, broken down by the home constituency of such personnel; and if he will make a statement. [168063]

**Derek Twigg:** Casualty figures for Iraq and Afghanistan are published on the MOD website: http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets. These are updated fortnightly, in arrears, and show explicitly the number of personnel who were admitted to UK field hospitals and categorised as wounded in action, including as a result of hostile action, as well as the numbers aeromedically evacuated on medical grounds, whatever the reason.

However, it is not possible to provide details of the home constituency of these personnel. To provide this information would involve disproportionate cost.

**Lembit Öpik:** To ask the Secretary of State for Defence what plans he has to acknowledge the contributions made by service personnel who have suffered injuries during service in Afghanistan and Iraq; and if he will make a statement. [168065]

**Derek Twigg:** It is recognised that the intensity of current operations in Iraq and Afghanistan, coupled with the level of fatalities and wounded, has resulted in considerable public interest in how we recognise the contribution made by our servicemen and women. The military chiefs of staff keep this complex subject under constant review and they are the best placed to make recommendations on the way forward.

I and my fellow Defence Ministers visit injured personnel on a regular basis, both in field hospitals on operations, in UK hospitals and at our rehabilitation centre at Headley Court. Ministers and service chiefs regularly highlight the courage and sacrifice of those wounded in operations. Access to the wounded services personnel has also been given to the media on a number of occasions at Headley Court.

**Mr. Holloway:** To ask the Secretary of State for Defence how many rounds have been fired by British forces in each Brigade rotation in Helmand province since May 2006, broken down by type of ammunition used. [168908]

**Mr. Bob Ainsworth:** The records held only start from 13 August 2006. All usage figures are approximate. The figures cover all rounds fired by British personnel in Afghanistan. There has been minimal usage outside Helmand province.

| *Type of nature* | *Herrick 4 (August 2006 to October 2006)* | *Herrick 5 (October 2006 to April 2007)* | *Herrick 6 (April 2007 to October 2007)* | *Herrick 7 (October 2007 onwards)* |
|---|---|---|---|---|
| 7.62mm all natures | 210,000 | 520,000 | 1,100,000 | 135,000 |
| 5.56mm all natures | 235,000 | 615,000 | 1,170,000 | 180,000 |
| 0.5 inch all natures | 25,000 | 90,000 | 185,000 | 21,000 |
| 12.7mm all natures | 2,400 | 350 | 0 | 400 |
| 9mm all natures | 10,000 | 69,000 | 14,000 | 3,000 |
| 0.338 | 200 | 1,700 | 4,900 | 490 |
| 12 bore shotgun all natures | 5 | 45 | 660 | 60 |
| 105mm all natures | 8,600 | 4,300 | 12,100 | 900 |
| 30mm armoured fighting vehicle rounds | 1,200 | 5,000 | 3,600 | 0 |
| 30mm attack helicopter rounds | 29,800 | 21,000 | 26,500 | 4,500 |

## Airborne Task Force

**Dr. Fox:** To ask the Secretary of State for Defence (1) which battalion forms the Airborne Task Force (ABTF); whether it is fully equipped; whether the ABTF is deployed; and when the next ABTF will take over from the current ABTF; [170803]

(2) which brigade forms the Joint Rapid Reaction Force (JRRF); whether it is fully equipped; whether the JRRF is deployed; and when the next JRRF will take over from the current JRRF. [170806]

**Mr. Bob Ainsworth** *[holding answer 4 December 2007]:* The Joint Rapid Reaction Force (JRRF) is made up of 3 Commando Brigade Royal Marines, 16 Air Assault Brigade and the High Readiness Mechanised or Armoured Brigade. None of these units is currently deployed in a JRRF capacity. The elements of the JRRF that are currently held at high readiness, therefore, are the Lead Commando Group (LCG) and the Lead Airborne Task Force (ABTF). The LCG is made up of elements of 3 Commando Brigade, while the ABTF is currently provided by the 2nd Battalion, The Parachute Regiment (2 PARA). The remaining element of the high readiness reserve is provided by the Spearhead Land Element. The ABTF is due to be replaced by a Small Scale Focused Intervention Battlegroup, based on a Light Infantry Role Battlegroup, between February 2008 and January 2009; its readiness may vary over time depending on the unit rostered.

For non-discretionary JRRF tasks, equipment holdings exist to ensure mission success. However, some equipment types might need to be re-apportioned from supporting operations in Iraq and Afghanistan, dependent on the task, to ensure that appropriate quantities were available.

### Armed Forces Compensation Scheme: Scotland

**John Barrett:** To ask the Secretary of State for Defence how many veterans in Scotland have made successful claims from the Armed Forces Compensation Scheme. [172607]

**Derek Twigg:** The number of successful claims made under the Armed Forces Compensation Scheme from claimants living in Scotland is shown in the following table.

*Awards made under the Armed Forces Compensation Scheme to claimants living in Scotland by financial year*[1] [2]

| | Awards |
|---|---|
| Total | 45 |
| 2005-06 | |
| 2006-07 | 30 |
| 2007-08[4] | 15 |

[1] Data have been rounded to the nearest five. Numbers may not add to totals because of rounding.

[2] Data will include claims made from serving personnel as well as veterans.

[3] Negligible value, (greater than zero, but less than five).

[4] This covers the period from 1 April 2007 to 30 September 2007.

### Armed Forces: Compensation

**John Barrett:** To ask the Secretary of State for Defence how many veterans in Edinburgh have received compensation from the Armed Forces Compensation Scheme. [172415]

**Derek Twigg:** The number of claimants living in Edinburgh who have received compensation under the Armed Forces Compensation Scheme is shown in the following table.

*Awards made under the Armed Forces Compensation Scheme to claimants living in Edinburgh by financial year*[1] [2]

| | Awards |
|---|---|
| Total | 10 |
| 2005-06 | |
| 2006-07 | 5 |
| 2007-08[3] | * |

[1] Data have been rounded to the nearest five. "–" refers to a value of zero, while "*" refers to a negligible value (greater than zero, but less than five). Numbers may not add to totals because of rounding.

[2] Data will include claims made from serving personnel as well as veterans.

[3] This covers the period from 1 April 2007 to 30 September 2007.

**John Barrett:** To ask the Secretary of State for Defence how many veterans in Edinburgh have been found to have suffered disability as a result of their service in the armed forces but are not eligible for assistance through the *(a)* Armed Forces Compensation Scheme and *(b)* War Pension Scheme. [172416]

**Derek Twigg:** Under the Armed Forces Compensation Scheme there have been less than five cases in Edinburgh, of claimants with injuries or conditions assessed as being due to service, not having met the minimum tariff level for compensation. Note that it is only possible to identify these cases for claims registered after 11 November 2005.

The number of first claims made by claimants living in Edinburgh which resulted in a nil award under the War Pension Scheme since the financial year 2003-04 are shown in table 1 as follows. A nil award is made when the injury or condition claimed for is found to be attributable or aggravated by service, but disability is assessed at 0 per cent. and so no monetary award is made.

*Table 1: Number of Veterans in Edinburgh given a nil percentage assessment by financial year*[1]

| | Nil percentage assessment |
|---|---|
| 2003-04 | 10 |
| 2004-05 | 10 |
| 2005-06 | 10 |
| 2006-07 | |

[1] Figures have been rounded to the nearest five. "–" represents a figure less than five.

### Armed Forces: Absence Without Leave

**Angus Robertson:** To ask the Secretary of State for Defence how many service personnel were reported as absent without leave in the *(a)* Royal Air Force, *(b)* Royal Navy and *(c)* Army in each year since 1997. [171474]

**Derek Twigg:** The following table shows absence without leave statistics by calendar year for each Service since 1997:

| | RN | Army | RAF |
|---|---|---|---|
| 1997 | 30 | 1,450 | 15 |
| 1998 | 30 | 1,850 | 15 |
| 1999 | 35 | 2,055 | 20 |
| 2000 | 60 | 2,710 | 25 |
| 2001 | 95 | 2,650 | 25 |
| 2002 | 105 | 2,950 | 25 |
| 2003 | 120 | 2,820 | 35 |
| 2004 | 185 | 3,030 | 55 |
| 2005 | 195 | 2,715 | 35 |
| 2006 | 155 | 2,330 | 10 |
| 2007 | 105 | 2,060 | 20 |

*Notes*

1. Figures are rounded to the nearest 5 and are as at 20 November 2007.
2. Differences in figures for individual years compared to previous answers occur because personnel may have been wrongly reported as AWOL in the first instance, or conversely they may have subsequently been found to have been AWOL and the records rectified later. AWOL statistics are recorded by the number of incidences of AWOL rather than the number of people who have gone AWOL, so there may be a number of people who are represented more than once in these figures.

### Armed Forces: Ethnic Groups

**Dr. Kumar:** To ask the Secretary of State for Defence how many *(a)* members of ethnic minorities and *(b)* women were serving in the armed forces in each of the last 10 years. [171853]

**Derek Twigg:** The information requested is available in Table 3 of the Tri-Service Publication 4—UK Armed Forces Quarterly Manpower Report. The most recent publication is available at

http://www.dasa.mod.uk/natstats/tsp4/tsp4tab3.html

**Dr. Kumar:** To ask the Secretary of State for Defence what steps his Department is taking to encourage more *(a)* women and *(b)* members of ethnic minorities to join the armed forces. [171854]

**Derek Twigg:** The armed forces continue to undertake numerous and varied initiatives, both at national and local level, aimed at encouraging more women and members of the ethnic minority communities to consider a service career.

The recruiting organisations include female personnel to assist a fair gender representation in recruiting activities. Female service personnel are also used appropriately in advertising, to help illustrate life in the armed forces. Furthermore all three services have Presentation Teams to raise awareness of the armed forces, and they include visits to girls' schools.

All three services have Specialist Diversity Teams which are heavily engaged in raising awareness and the profile of the armed forces and promoting service careers among the UK's ethnic minority and faith communities. The wide programme of events include: setting up and maintaining community partnerships across the UK; school, college and community visits; major ethnically centred events, including sports with particular ethnic minority interest; gatekeepers (e.g. teachers, community leaders, parents, etc.) visits; and extended campaigns in focused areas of high ethnic minority population.

### Armed Forces: Health Services

**Mr. Hancock:** To ask the Secretary of State for Defence what financial contribution he has made to those primary care trusts with the greatest number of serving and veteran service personnel within their areas. [170214]

**Derek Twigg:** While they are in the armed forces, British service personnel receive free medical treatment through the Defence Medical Services. When they leave the armed forces and when reservists are demobilised, the responsibility for their health care is transferred to the NHS. For in-service personnel and reservists, the Department annually commissions some £29 million of activity (out-patients and in-patient care) from the five NHS trusts hosting MOD Hospital Units (MDHUs) and from University Hospital Birmingham NHS foundation trust (UHBFT). This includes approximately £6.5 million for emergency care that we pay the MDHU host trusts and which is delivered under emergency access standards.

The remainder (some £22.5 million annually) is used to commission accelerated access care over and above current NHS waiting times. Many service personnel are also referred into their local district general hospital by their referring GPs. In addition, we spend just over £1 million annually for other fast track access outside our MDHU host trusts.

Introduced in 1953, NHS Priority Treatment was restricted to veterans with disablements accepted under our Armed Forces Compensation Scheme as service-related. The Health Secretary announced on 23 November that extended priority treatment will be available to all veterans whose conditions are suspected by the general practitioner of being service-related. Any costs will be paid for by the NHS. I announced the launch of the new veterans' mental health pilots in parallel as an important initiative to improve services for those with mental health problems. The MOD will provide start up costs to the six pilot sites participating in the scheme and cover the cost of project evaluation; we expect the total cost of the pilots to the Department to be some £500,000. Any pilot cost beyond this will be the responsibility of the local NHS trusts.

### Armed Forces: Housing

**Dr. Murrison:** To ask the Secretary of State for Defence whether receipts resulting from the return of void married quarters to Annington Homes will be used to improve the quality of the married quarters estate. [166117]

**Derek Twigg:** Within the terms of the Annington contract the return of void married quarters to Annington Homes does not generate a receipt for the MOD. Under the terms of the Profit Share Agreement with Annington Homes Limited, however, when MOD hand back surplus married quarters to Annington Homes and subsequently Annington Homes sell the properties, 22 per cent. of the proceeds of the sales of surplus MOD properties is returned to HM Treasury. These monies enter a consolidated general cash account and are not paid directly back from HM Treasury to the MOD.

**Ann Winterton:** To ask the Secretary of State for Defence in what timescale a service personnel family must leave service quarters *(a)* on the death of a serviceman or woman and *(b)* in respect of a wounded serviceman or woman who is medically discharged; and what assistance is provided for finding civilian quarters in such circumstances. [167747]

**Derek Twigg:** The policy applied in these situations is set out in Tri-Service Accommodation Regulations.

Following the death in service of a serviceman or woman, the bereaved spouse/civil partner and their family have continued entitlement to Service Families Accommodation (SFA) for a reasonable period to assist them in coming to terms with their bereavement and to enable them to determine their longer term housing requirements. A period of two years is offered. Retention of SFA may be extended beyond the two year period at the discretion of the local service commander in consultation with welfare, medical, and educational authorities and with Defence Estates Operations—Housing. The objective of the policy is to help the bereaved spouse/civil partner in their transition back into the civilian community. At no time will a bereaved spouse/civil partner and their families need to leave a property until they have secured suitable alternative accommodation.

Once a decision has been taken to medically discharge an individual from the service, the Defence Medical Services health team who have been caring for that individual will liaise with appropriate civilian healthcare providers (e.g. General Practitioner, primary care trust, civilian mental health team, or NHS Hospital Trust) to ensure the transfer of care and patient history takes place. In addition, specialist health social workers will manage the individual's wider resettlement issues, liaising with relevant civil agencies such as local housing authorities, financial authorities, service welfare and charitable organisations. The objective is again to ensure that the individual's transfer into the civilian environment is as smooth and as seamless as possible.

For personnel compulsorily discharged on medical grounds, 93 days continued use and occupancy of the SFA is permitted after the date of discharge. Thereafter, extensions of up to 93 days at a time may be granted on compassionate grounds at the discretion of Defence Estates Operations—Housing, in consultation with the appropriate local service commander. No personnel discharged will need to leave SFA until an appropriate alternative accommodation has been secured.

The Joint Service Housing Advice Office (JSHAO) is available to all service personnel and their families, offering advice and guidance in sourcing social and private accommodation.

### Armed Forces: Pay

**Mr. Swayne:** To ask the Secretary of State for Defence if he will publish the service level agreement on the resolution of problems encountered by personnel in relation to the operation of the Joint Pay and Allowance System. [169207]

**Derek Twigg** *[holding answer 29 November 2007]*: I will arrange for a copy of the generic service level agreement covering the provision of services in support of service personnel, pay and pensions administration to be placed in the Library of the House. The service level agreement was between the Armed Forces Personnel Administration Agency, now the Service Personnel and Veterans Agency, and the Single Services.

### Armoured Fighting Vehicles

**Ann Winterton:** To ask the Secretary of State for Defence whether consideration has been given to the purchase of the Cheetah vehicle by his Department. [170119]

**Mr. Bob Ainsworth:** The Cheetah has been considered for a protected patrol vehicle programme. It did not, however, meet a number of key user requirements, and was therefore not taken forward.

### Astute Class Submarines

**Mr. Jenkin:** To ask the Secretary of State for Defence what he estimates the lifetime cost of the Astute programme will be. [170639]

**Mr. Bob Ainsworth:** The current whole-life cost estimate for the Astute programme, based on a Seven Boat Class, is £42 billion (outturn, VAT inclusive where applicable), comprising £9 billion for concept, design and manufacture; £32 billion for in-service (includes crew costs, support, maintenance and spares) and £1 billion for disposal.

### Ballistic Missile Defence

**Nick Harvey:** To ask the Secretary of State for Defence what procedures are in place on notification and consultation between the US Administration and the Government before RAF Fylingdales and RAF Menwith Hill could be used to engage hostile missile attacks on the US. [168869]

**Des Browne:** The early warning information that is provided by RAF Fylingdales, and is routed through RAF Menwith Hill, is shared by the US and UK. Appropriate procedures are in place for notification and consultation between the US Administration and the Government.

### Charities: Fees and Charges

**Nick Harvey:** To ask the Secretary of State for Defence how much his Department charged the charity organisers for the RAF Brize Norton 2005 Children in Need concert. [163146]

**Derek Twigg:** I will write to the hon. Member and place a copy of my letter in the Library of the House.

*Substantive answer from Derek Twigg to Nick Harvey:*

I undertook to write to you in answer to your Parliamentary Question of 19 November 2007, (*Official Report*, Column 475W) asking how much the Ministry of Defence charged the charity organisers during the Children in Need concert held at RAF Brize Norton in November 2005.

I can confirm that the charity organisers of the Children in Need event held at RAF Brize Norton in November 2005 were not charged by the MOD, because the BBC met many of the costs and donations from sponsors covered others.

I am placing a copy of this letter in the Library of the House.

### Defence Estates: Charities

**Nick Harvey:** To ask the Secretary of State for Defence which insurance firms his Department uses when insuring charity events on departmental property. [168900]

**Derek Twigg:** The Ministry of Defence does not purchase insurance policies to cover the risks incurred when charity events are held on departmental property. Such events are not part of the Ministry's core publicly funded defence business and therefore the charity is required to indemnify the Ministry of Defence against any resulting claims or costs.

**Nick Harvey:** To ask the Secretary of State for Defence who is responsible for obtaining public liability insurance when charity events are held on his Department's property. [170838]

**Derek Twigg:** Charity events are not part of the Ministry of Defence's core publicly funded defence business. The charity is therefore required to indemnify the Ministry against any resulting claims and is responsible for obtaining public liability insurance.

**Nick Harvey:** To ask the Secretary of State for Defence how much Defence Estates Operation South has charged charity events for *(a)* a defence estates licences, *(b)* defence estates licence preparation costs and *(c)* defence estates licences VAT costs in the last two years. [170839]

**Derek Twigg:** It is not possible to separately identify charges for charity events from other events without incurring disproportionate cost.

**Nick Harvey:** To ask the Secretary of State for Defence which official in Defence Estates Operation South has the authority to waive defence estates licence fees; and what the limits in size of fee are that can be waived. [170840]

**Derek Twigg:** Within Defence Estates Operations South, no officials have authority to waive licence fees.

**Nick Harvey:** To ask the Secretary of State for Defence how much Defence Estates (Warminster) has billed in liability charges for events held on his Department's property since April 2005. [170847]

**Derek Twigg:** It is not possible to separately identify liability charges billed by Defence Estates (Warminster) from other charges for events without incurring disproportionate cost.

### Defence Estates: Official Hospitality

**Nick Harvey:** To ask the Secretary of State for Defence (1) how many decisions to waive the liability charge on Defence Estate (Aldershot) have been made for events since 2006; and what events were involved; [168874]

(2) how much Defence Estate (Andover) has billed in liability charges for events held on his Department's property since April 2005; [168875]

(3) how much Defence Estate (Sutton Coldfield) has billed in liability charges for events held on his Department's property since April 2005; [168876]

(4) how much Defence Estate (Salisbury) has billed in liability charges for events held on his Department's property since April 2005; [168877]

(5) how much Defence Estate (Osbaldwick, York) has billed in liability charges for events held on his Department's property since April 2005; [168878]

(6) how much Defence Estate (High Wycombe) has billed in liability charges for events held on his Department's property since April 2005; [168879]

(7) how much *(a)* Defence Estate (Warminster), *(b)* Defence Estate (Telford) and *(c)* Defence Estate (Rosyth) has billed in liability charges for events held on his Department's property since April 2005; [168901]

(8) how many times Defence Estates (Aldershot) has waived the liability charge for events held on its property since 2006; and for which events the charge was waived. [170846]

**Derek Twigg:** It is not possible to separately identify liability charges billed by each Defence Estates (DE) office from other charges for events without incurring disproportionate cost in each case.

DE Aldershot has made no decisions to waive liability charges for events since 2006.

### Defence Estates: Official Hospitality

**Nick Harvey:** To ask the Secretary of State for Defence with reference to the answer of 24 October 2007, *Official Report*, column 332W, on Defence Estates: Official Hospitality, in reviewing the background of the Sergeant Biddiss Charity event held at RAF Brize Norton what criteria were assessed by officials considering the nature of the event. [170845]

**Derek Twigg:** Officials of Defence Estates took into account the charitable nature of the event and specifically the participants i.e. serving military personnel, and the very low marginal cost where the cost of collecting would be greater than the amount charged.

### Departmental Computers

**Mr. Gauke:** To ask the Secretary of State for Defence how many of his Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168587]

**Derek Twigg:** The following table shows the quantities of computers and laptops reported as stolen in 2007. The estimated replacement cost has been used, as it is not possible to provide the recorded value without incurring disproportionate cost.

| *2007* | *Number/cost* |
|---|---|
| Computers stolen | 7 |
| Laptops stolen | 68 |
| Estimated replacement cost (£) | 130,188 |

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Defence how much was paid in consultancy fees by his Department in each year since 1997. [171995]

**Derek Twigg:** Summaries for the years 1995-96 to 2006-07 of MOD expenditure on external assistance, which includes various categories of consultancy, are available in the Library of the House.

### Departmental Data Protection

**Mr. Walker:** To ask the Secretary of State for Defence whether his Department's information technology and data management systems are BS7799 compliant. [168750]

**Des Browne:** I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Helicopters

**Mr. Hoban:** To ask the Secretary of State for Defence how many journeys by helicopter Ministers in his Department have made since 27 June. [164534]

**Derek Twigg:** All ministerial travel is undertaken in accordance with the Ministerial Code. Since 27 June, Defence Ministers have travelled by helicopter once, on 12 October, when the then Minister of State for Defence Equipment and Support returned to London from the Armed Forces Memorial dedication ceremony at the National Arboretum in Staffordshire.

In addition, all visitors, including Ministers, use helicopters when visiting operational theatres and military exercises. This information is not held centrally and could be provided only at disproportionate cost.

### Departmental Public Participation

**Mr. Hoban:** To ask the Secretary of State for Defence what opinion polls his Department has conducted of *(a)* the public and *(b)* staff since 27 June 2007; and what the (i) name of the firm employed to conduct the poll, (ii) purpose and (iii) cost to the public purse was in each case. [164951]

**Derek Twigg:** The information requested is not held centrally and could be provided only at disproportionate cost.

However, records are available of the polling that relates to recruitment activity by the armed forces, and of the polling carried out by our central communications organisation to establish the attitudes of the public and our personnel to various aspects of defence activity. The following polling in these categories has been completed since 27 June:

| *Purpose* | *Firm employed* | *Cost (all VAT inclusive) £* |
|---|---|---|
| Top level reputation tracking of the MOD and armed forces | Ipsos MORI | 65,155.00 |
| Website visitor survey assessing views on the Royal Marine website | Virtual Surveys[1] | 9,300.00 |
| Army reputation tracking | Populus | 2 polls, 13,275 each |
| Territorial Army recruitment and retention | Cragg Ross Dawson[1] | 38,951.26 |

[1] Procured through Central Office of Information.

### Ex-servicemen: Disabled

**John Barrett:** To ask the Secretary of State for Defence how many veterans in Scotland have been found to have suffered disability as a result of their service in the armed forces but are not eligible for assistance through the Armed Forces Compensation Scheme or the War Pension Scheme. [172608]

**Derek Twigg:** The number of claims made under the Armed Forces Compensation Scheme by claimants living in Scotland with injuries or conditions that have been assessed as being due to service, but not having met the minimum level for compensation are shown in table 1 as follows:

*Table 1: Claims made under the Armed Forces Compensation Scheme to claimants living in Scotland where the minimum tariff level for compensation was not met[1] [2]*

| | *Claims* |
|---|---|
| Total | 20 |
| 2005-06[3] | * |
| 2006-07 | 15 |
| 2007-08[4] | * |

[1] Data have been rounded to the nearest five. "—" refers to a value of zero, while "*" refers to a negligible value (greater than zero, but less than five). Numbers may not add to totals because of rounding.

[2] Data will include claims made from serving personnel as well as veterans.

[3] Data are unavailable for claims registered between 6 April 2005 and 11 November 2005.

[4] This covers the period from 1 April 2007 to 30 September 2007.

The number of first claims made by claimants living in Scotland which resulted in a nil award under the War Pension Scheme since the financial year 2003-04 are shown in table 2 as follows. A nil award is made when the injury or condition claimed for is found to be attributable or aggravated by service, but disability is assessed at 0 per cent. and so no monetary award is made.

*Table 2: Number of Veterans in Scotland given a nil percentage assessment, by financial year[1]*

| | *Nil percentage assessment* |
|---|---|
| 2003-04 | 125 |
| 2004-05 | 115 |
| 2005-06 | 110 |
| 2006-07 | 105 |

[1] Data have been rounded to the nearest five.

### Ex-servicemen: Medals

**Tom Brake:** To ask the Secretary of State for Defence how many veterans in each constituency have applied for the Veterans' Badge; and if he will make a statement. [169373]

**Derek Twigg:** The information is not held in the format requested and could be provided only at disproportionate cost. A total of 532,000 badges had been issued up to and including 23 November 2007.

### Iraq: Aviation

**Dr. Fox:** To ask the Secretary of State for Defence what plans there are to open Basra Airport to commercial flights; and if he will make a statement. [170825]

**Des Browne:** Basra International airport received its first commercial flight, operated by Iraqi Airways, in January 2005. It continues to act as an international airport receiving both commercial and military aircraft.

### Military Aircraft: Helicopters

**Mr. Keetch:** To ask the Secretary of State for Defence how many flying hours RAF helicopter pilots *(a)* are required to have and *(b)* have on average before being deployed on operational duties flying (i) Puma, (ii) Merlin, (iii) Chinook and (iv) Sea King helicopters. [171011]

**Mr. Bob Ainsworth:** The minimum number of flying hours that an RAF helicopter pilot would have before being considered to fly on operational duties are shown, by aircraft type, in the following table. These figures include hours flown on fixed wing and helicopter training aircraft. Figures have been rounded to the nearest five hours.

| *Helicopter type* | *Minimum hours flown* |
|---|---|
| Puma | 270 |
| Merlin | 245 |
| Chinook | 270 |
| Sea King | 290 |

The average number of flying hours that helicopter pilots have flown prior to operational deployment is not held centrally and could be provided only at disproportionate cost.

### Navy: Fisheries

**Bill Wiggin:** To ask the Secretary of State for Defence for how many patrol days in each category of operation each class of fishery patrol vessel was used in each year since 1997; and if he will make a statement. [168227]

**Mr. Bob Ainsworth:** The number of patrol days on fishery protection for each class of fishery patrol vessel for the years 2002-03 were as follows:

| | *Island* | *Hunt* | *River* |
|---|---|---|---|
| 2002-03 | 557 | 363 | 22 |
| 2003-04 | 375 | 250 | 345 |
| 2004-05 | — | 254 | 626 |
| 2005-06 | — | 219 | 636 |
| 2006-07 | | 227 | 618 |

*Note* Figures for the years 1997-98 to 2001-02 are not available.

The operational focus of River and Island classes of vessels during this period was fishery protection. Time not spent on fishery protection was used for standoffs, training, maintenance, passage and visits, and, in the case of River class vessels, unused days owned by VT Group plc. The primary role of the Hunt class vessels is Mine Counter Measure, not fishery protection. Details of the operations conducted by these vessels, apart from fishery patrols, are not held centrally and could be provided only at a disproportionate cost.

### RAF Kinloss: Redundancy

**Angus Robertson:** To ask the Secretary of State for Defence how many Nimrod Line personnel at RAF Kinloss *(a)* requested premature voluntary redundancy and *(b)* took redundancy in 2006; and how many have done so in 2007. [169474]

**Derek Twigg** *[holding answer 29 November 2007]:* The RAF does not retain information on those applicants who requested redundancy but were unsuccessful, and as such it is not possible to provide the number of Nimrod Line personnel at RAF Kinloss who requested redundancy.

Details of Nimrod Line personnel who left the RAF under redundancy terms are given in the following table:

| | *Number* |
|---|---|
| 2006 | 5 |
| 2007 | 10 |

*Notes:* 1. All figures have been rounded to the nearest 5.

### United Kingdom Hydrographic Office

**Mr. Todd:** To ask the Secretary of State for Defence how many consultation events have been held as part of the review of the United Kingdom Hydrographic Office. [171662]

**Derek Twigg:** Consultations took place through meetings and telephone discussions with a wide range of stakeholders from the public and private sectors. International stakeholders were also consulted. Public sector stakeholders consulted throughout the study are the following Departments:

Department for Environment, Food and Rural Affairs;

Department for Transport (including the Maritime and Coastguard Agency);

Her Majesty's Treasury;

Office of Fair Trading; and

Department for Business, Enterprise and Regulatory Reform.

UKHO Government customers and trade unions representing UKHO employees have also been consulted.

Private-sector stakeholders, including two trade associations, shipping fleet operators, distributors of navigational products, manufacturers of 'Electronic Chart Display and Information Systems' and commercial customers and other companies with an interest in public sector information, have been consulted.

International stakeholders consulted include foreign government hydrographic offices, data suppliers and flag states.

Given the continuous nature of this process, we do not hold records of the precise number of meetings and discussions held.

### War Pensions: Edinburgh

**John Barrett:** To ask the Secretary of State for Defence how many veterans in Edinburgh have made successful claims for war pensions as funded by the War Pensions Scheme. [172482]

**Derek Twigg:** Due to the historical nature of the scheme, information on the total number of war disablement pensions awarded is not available. However, as at 30 June 2007 there were 1,065[1] war disablement pensions in payment to veterans living in Edinburgh.

Information is also available on the number of successful claims cleared in the last four financial years, since 2003-04. These are set out in the following table.

*Successful war disablement pension claims in Edinburgh, by financial year*[1]

| | *Successful claims* |
|---|---|
| 2003-04 | 25 |
| 2004-05 | 25 |
| 2005-06 | 15 |
| 2006-07 | 20 |

[1] Figures have been rounded to the nearest five.

### War Pensions: Scotland

**John Barrett:** To ask the Secretary of State for Defence how many veterans in Scotland have made successful claims for war pensions funded by the War Pension Scheme. [172606]

**Derek Twigg:** Due to the historical nature of the scheme, information on the total number of war disablement pensions awarded is not available. However, as at 30 June 2007 there were 17,640[1] war disablement pensions in payment to veterans living in Scotland.

Information is also available on the number of successful claims cleared in the last four financial years, since 2003-04. These are set out in the following table.

*Successful war disablement pension claims in Scotland, by financial year[1]*

| | *Successful claims* |
|---|---|
| 2003-04 | 375 |
| 2004-05 | 350 |
| 2005-06 | 380 |
| 2006-07 | 330 |

[1] Figures have been rounded to the nearest five.

### Young People

**Mr. Hayes:** To ask the Secretary of State for Defence how many staff aged between 16 and 18 were employed by his Department *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171272]

**Derek Twigg:** The following table shows strengths of civilian personnel[1] aged between 16 and 18 at 1 April each year.

[1] Includes industrial and non-industrial personnel and trading funds, and excludes Royal Fleet Auxiliaries and locally engaged civilians.

| | | *Headcount* |
|---|---|---|
| | *Ages 16 to 18* | *Total strength* |
| 1998 | 770 | 110,800 |
| 1999 | 830 | 107,890 |
| 2000 | 810 | 106,210 |
| 2001 | 710 | 104,720 |
| 2002 | 600 | 95,870 |
| 2003 | 490 | 93,550 |
| 2004 | 410 | 93,330 |
| 2005 | 370 | 92,470 |
| 2006 | 350 | 88,660 |
| 2007 | 260 | 83,930 |

*Source:*
DASA (Quad-service)

These numbers cannot be broken down by those employed directly and those employed through an employment agency, as this is not held centrally.

The proportion given time off work to undertake training funded by the MOD is not held centrally and could be provided only at disproportionate cost.

However, all those entitled to day release would have been entitled to the following assistance:

All fees, including those for examinations, for day classes, for evening classes or for block release courses in lieu of classes and relevant text book costs would be paid for by MOD;

Time off in lieu may be taken to compensate for classes undertaken at evenings or weekends.

## INNOVATION, UNIVERSITIES AND SKILLS

### Apprentices

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* apprenticeship and *(b)* advanced apprenticeship places he plans to provide in each year to 2020. [171864]

**Mr. Lammy:** Planned apprenticeship outputs/volumes by academic year to 2010-11 were published in the Learning and Skills Council's Statement of Priorities on 16 November 2007. The breakdown requested by apprenticeships at level 2 and advanced apprenticeships at level 3 is not available. A detailed trajectory to 2020 will be published as part of the review of apprenticeships, which is due for completion in early 2008.

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills how many people who completed a programme-led apprenticeship based at a college went on to complete a full level-3 apprenticeship in the same field in each year since 1997. [172274]

**Mr. Lammy:** Figures for those participating in apprenticeships funded by the Learning and Skills Council (LSC) can be derived from the individualised learner record. The programme-led apprenticeship is an initiative to enable more learners to enter an employed-status apprenticeship programme. When they achieve their agreed goals, learners cease to be on a PLA and then become mainstream apprentices. It is possible to calculate participation for programme-led apprenticeships from the ILR data, but not their progression onto mainstream apprenticeships and therefore the associated framework achievement.

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the number of employers who will have to take on apprentices in order to meet the Government's target for apprenticeships in 2020. [171862]

**Mr. Lammy:** The Government have announced plans to increase overall apprenticeship places from 250,000 today to 400,000 by 2020 but earlier if high-quality employer places are available. We therefore plan to expand the number of employers offering apprenticeships and the number of places offered by employers who are already involved in the programme. However, we do not intend to dictate to individual employers how many apprentices they require to meet their particular skills needs. A detailed trajectory covering the expansion of apprenticeship places to 2020 will be published as part of the review of apprenticeships, which is due for completion in early 2008.

## Departmental Computers

**Mr. Gauke:** To ask the Secretary of State for Innovation, Universities and Skills how many of his Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168604]

**Mr. Lammy:** No computers or laptops have been stolen from the Department in 2007. The value of stolen items is therefore zero.

## Departmental Consultants

**Mr. Walker:** To ask the Secretary of State for Innovation, Universities and Skills what contracts his Department has with external consultants; what the total value, including all VAT and disbursements, of these contracts is for the current financial year; how long each contract lasts; and what the forecast total value is of each contract. [163801]

**Mr. Lammy:** DIUS operates a devolved procurement structure for consultancy contracts. As such there is no central register of contracts let. Therefore this information could be obtained only at disproportionate cost.

## Departmental Data Protection

**Mr. Walker:** To ask the Secretary of State for Innovation, Universities and Skills whether his Department's information technology and data management systems are BS7799 compliant. [168745]

**Mr. Lammy:** The Department currently shares information technology and data management systems with the Department for Business Enterprise and Regulatory Reform and the Department for Children, Schools and Families.

The Department for Business, Enterprise and Regulatory Reform's Information Security Management System is not only compliant but has been independently certified to BS7799 since May 2002. In March 2007 certification was successfully achieved against the new ISO27001 standard. The certificate will be updated to reflect the name change to BERR at the next surveillance audit in 2008.

The Department for Children, Schools and Families systems work to the principles of the BS7799 standard.

## Departmental Manpower

**Danny Alexander:** To ask the Secretary of State for Innovation, Universities and Skills how many people aged *(a)* 30 to 39, *(b)* 40 to 49, *(c)* 50 to 59 and *(d)* 60 to 69 years have (i) applied for jobs, (ii) received interviews and (iii) gained (A) temporary and (B) permanent jobs in his Department in 2007. [165119]

**Mr. Lammy:** The Department was formed as part of the machinery of government changes on 28 June 2007. Numbers of staff recruited to the new Department since then have been small. The figures are set out by the relevant age bands in the following table:

| *Age range* | *Permanent* | *Temporary* |
|---|---|---|
| Age under 30 | 15 | 2 |
| Age 30 to 39 | 10 | 0 |
| Age 40 to 49 | 6 | 0 |
| Age 50 to 59 | 2 | 0 |
| Age 60 to 69 | 1 | 0 |

Detailed information on applicants and interviews is held by individual teams and could be provided only at disproportionate cost.

## Educational Institutions: Registrations

**Damian Green:** To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 26 November 2007, *Official Report*, column 166W, on educational institutions: registrations, how many illegal immigrants were detected at each of the 114 colleges removed from the Register of Education and Training Providers. [170510]

**Mr. Byrne:** I have been asked to reply.

The Border and Immigration Agency is not able to advise how many illegal immigrants were detected at the 114 colleges removed from the Register of Educational Providers since its inception. The Border and Immigration Agency can advise the names of the colleges removed and the numbers of students granted further leave to remain on the basis of their studies at these colleges. However, some of these students may have started their studies in the UK at these colleges, found them to be non bona fide and transferred to a genuine education provider. At present, it is not mandatory for a foreign student to notify the Border and Immigration Agency when they change their place of study. Nor is it mandatory for a foreign student to study at any given establishment, although this will change with the introduction of the points based system.

## Galileo

**Mr. Willis:** To ask the Secretary of State for Innovation, Universities and Skills what ancillary functions have been designed into the Galileo satellite system; what assessment he has made of their contribution to achieving the objectives of the Galileo project; and if he will make a statement. [165180]

**Ian Pearson** *[holding answer 19 November 2007]:* The main characteristics of Galileo were agreed by the Council of European Transport Ministers at their meeting on 9-10 December 2004. There have been no decisions taken on any ancillary functions for the system.

## Higher Education: Closures

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills which UK university *(a)* mathematics, *(b)* chemistry and *(c)* science departments have closed since 1997; and if he will make a statement. [170440]

**Bill Rammell:** Information on the closure, merger or opening of particular university departments has not been collected by the Department and not all science teaching is organised on a departmental basis. However, we have consistently made it clear that, if a physics or chemistry department closes at one institution, the Higher Education Funding Council for England should seek to maintain capacity elsewhere and we announced last year that the Council should report to us on how provision can be maintained in this way. Some science subjects are starting to become more popular and the measures that we are taking to increase demand and the extra £75 million announced last year should help to sustain capacity as demand increases. Physics and chemistry are also taught as major subjects at some 50 and 70 UK institutions, respectively. The latest figures published by the Universities and Colleges Admissions Service show that the number of students who have been accepted for entry to full-time undergraduate courses in chemistry in autumn 2007 is up by nearly 13 per cent. compared to 2005, while the figures for physics have increased by 10 per cent. over the same period.

### Higher Education: Finance

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills on what he plans to spend the £100 million annually previously spent on second degrees. [172265]

**Bill Rammell:** All of the £100 million will be redistributed back to higher education providers to enable more people of all ages and backgrounds to participate in higher education for the first time. We estimate that by 2010-11, 20,000 people will be studying for a first HE qualification who otherwise would not have been able to do so—enough to fill an entire university.

### Members: Correspondence

**Mr. Rob Wilson:** To ask the Secretary of State for Innovation, Universities and Skills what the excepted courses are that are mentioned in his letter of 7 September 2007 to the chairman of the Higher Education Funding Council for England. [171963]

**Bill Rammell:** The excepted courses to which reference was made cover those relating to medicine, initial teacher training, dentistry, veterinary studies, social work, other health professional courses, architecture, landscape design and management, and town and country planning. The courses are kept under review. In addition, we asked HEFCE to consider whether there should be further exceptions or modifications for some categories of student; and on what grounds. The consultation exercise that HEFCE is conducting on how the policy can best be implemented ends on 7 December.

### School Leaving

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills what the basis was for his calculation that the economic benefits of increasing the compulsory education age to 18 years would be £2.4 billion per birth cohort; and if he will place in the Library the documentary sources used to make the calculation. [171859]

**Jim Knight:** I have been asked to reply.

The basis of the estimate of economic benefits of raising the participation age (RPA) is new joint research by Sheffield university and DCSF. The research's central estimate of the additional benefits of RPA is around £2.4 billion for a single cohort of young people, discounted over their lifetimes. This research was published alongside the introduction of the Education and Skills Bill to the House on 29 November. This estimate was derived in three stages:

1. Modelling how many additional young people participate in full-time education as a result of RPA;
2. Modelling the attainment of these additional participants; and
3. Estimating the value of lifetime productivity gains from more young people having attained these extra qualifications.

For further details of the methodology and data sources used to estimate the economic benefits of RPA (and the magnitude of the benefits under alternative scenarios), the full report is accessible at:

http://www.dfes.gov.uk/research/data/uploadfiles/DCSF-RW026.pdf.

The research will also be placed in the House of Commons Library.

### Students: Loans

**Andrew Rosindell:** To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the amount of debt owed to the Student Loan Company by residents from the London Borough of Havering in higher education. [168422]

**Bill Rammell:** On 31 March 2007, 7,744 borrowers from the London borough of Havering owed £58,372,536 for publicly-owned student loans. This is based on the local authority area the borrower lived in at the time of their application for a loan.

**Mr. Evennett:** To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the debt owed to the Student Loan Company by residents from the London Borough of Bexley in higher education. [168647]

**Bill Rammell:** On 31 March 2007, 8,701 borrowers from the London borough of Bexley owed £67,771,064 for publicly-owned student loans. This is based on the local authority area the borrower lived in at the time of their application for a loan.

## HOME DEPARTMENT

### 101 Calls: Leicester

**Sir Peter Soulsby:** To ask the Secretary of State for the Home Department (1) what expenditure her Department incurred in advertising, marketing and promoting the 101 telephone line in Leicester; how many calls to the line resulted in prosecutions for *(a)* antisocial behaviour and *(b)* other criminal offences; on what date the decision was taken to withdraw funding for the line; and on what date this decision was communicated to Leicester city council; [170138]

(2) what representations she has received from Leicester city council in the last 12 months on funding of the 101 telephone line. [170197]

**Mr. McNulty:** The 101 service was launched to the public in Leicester city and Rutland on 4 September 2006 and subsequently in Melton and Harborough, covering a population of approximately 450,000. Around £272,000 was spent by the Home Office on publicising the new service locally and informing the public in these areas how it should be used, resulting in more than 65,000 calls to date from the public being made to the local 101 service.

Information on how many of these calls to the 101 service resulted in prosecutions for *(a)* antisocial behaviour and *(b)* other criminal offences is not collected centrally.

It was decided on 8 November 2007 not to continue to fund centrally the operation of the 101 service in the live areas but to continue to fund the national 101 telephony infrastructure, to ensure that the number remained available for use by those areas who wished to maintain or develop their own locally funded 101 service. Following discussion with my right hon. Friend the Secretary of State for Communities and Local Government, co-sponsors of the 101 Programme, this decision was communicated to Leicester city council on 15 November 2007.

The Home Office has worked closely with Leicester city council and partners over the last 12 months to understand the benefits of the 101 service and to inform options for its future operation. As such, Leicester city council's views were taken into consideration as part of the Home Office's decision on future funding for the 101 service.

## Alcoholic Drinks: Young People

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many prosecutions there were for being drunk and disorderly of 10 to 17-year-olds in *(a)* England and Wales and *(b)* each police force area in each year since 1997. [165676]

**Mr. Coaker:** The information requested on prosecutions is provided in table A.

In addition to prosecutions, the offence of being drunk and disorderly can attract a penalty notice for disorder (PND). The offence was added to the PND scheme on 1 January 2004 and data on the number of PNDs issued in 2004 to 2006 broken down by police force area are provided in table B.

*Number of defendants aged 10 to 17 proceeded against at magistrates courts for being drunk and disorderly[1] by police force area, England and Wales, 1997 to 2006[2, 3]*

| *Police force area* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|---|---|---|---|
| Avon and Somerset | 16 | 12 | 12 | 12 | 25 | 20 | 23 | 18 | 23 | 24 |
| Bedfordshire | 2 | 13 | 6 | 12 | 10 | 5 | 13 | 15 | 11 | 7 |
| Cambridgeshire | 7 | 4 | 13 | 7 | 10 | 3 | 15 | 17 | 11 | 12 |
| Cheshire | 53 | 55 | 46 | 50 | 57 | 59 | 59 | 63 | 11 | 14 |
| City of London | — | 1 | — | — | — | — | — | — | — | — |
| Cleveland | 83 | 74 | 91 | 62 | 74 | 77 | 75 | 66 | 25 | 18 |
| Cumbria | 79 | 62 | 59 | 46 | 52 | 50 | 62 | 53 | 41 | 47 |
| Derbyshire | 24 | 19 | 8 | 18 | 28 | 33 | 34 | 44 | 25 | 18 |
| Devon and Cornwall | 37 | 36 | 30 | 62 | 76 | 60 | 69 | 91 | 63 | 77 |
| Dorset | 17 | 21 | 13 | 22 | 24 | 27 | 30 | 12 | 5 | 10 |
| Durham | 31 | 53 | 65 | 56 | 49 | 60 | 58 | 54 | 75 | 49 |
| Essex | 34 | 37 | 39 | 58 | 47 | 29 | 26 | 27 | 11 | 11 |
| Gloucestershire | 17 | 7 | 10 | 12 | 9 | 9 | 13 | 8 | 8 | 5 |
| Greater Manchester | 55 | 65 | 62 | 106 | 93 | 77 | 66 | 47 | 25 | 21 |
| Hampshire | 47 | 79 | 88 | 78 | 81 | 79 | 81 | 82 | 59 | 32 |
| Hertfordshire | 21 | 14 | 25 | 27 | 30 | 35 | 28 | 20 | 29 | 10 |
| Humberside | 14 | 8 | 22 | 24 | 23 | 24 | 16 | 26 | 17 | 19 |

[1] Offence under the Criminal Justice Act 1967 S.91.

[2] Data are provided on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[2] Not applicable. The British Transport police began issuing PNDs in 2006.

**Dr. Kumar:** To ask the Secretary of State for the Home Department what steps her Department is taking to reduce excessive consumption of alcohol among people under 21 years of age. [171769]

**Mr. Coaker:** The Government are committed to reducing excessive alcohol consumption among young people. In June of this year, the Home Office, Department of Health and Department for Children, Schools and Families jointly launched 'Safe. Sensible. Social. The next steps in the National Alcohol Strategy', which builds on lessons learned and progress made since the Alcohol Harm Reduction Strategy for England (published in March 2004). The renewed strategy outlines the Government's long-term commitment to tackling alcohol-related harms among young people through a combination of robust enforcement of the law, information and awareness-raising through communications campaigns to help them make informed decisions about alcohol, and treatment for those that need it.

We have recently carried out a "Tackling Under Age Sales of Alcohol" campaign, which saw overall failure rates failing to 14 per cent. and have just begun a "Responsible Alcohol" sales campaign. The Department's recent "Confiscation of Alcohol" campaign to support the commencement of new powers and the use of existing powers in relation to the confiscation of alcohol resulted in large volumes of alcohol being seized from young people drinking in public places. In addition, we launched Alcohol Arrest Referral pilots in Cheshire, Ealing, Manchester and Liverpool in October that aim to reduce re-offending by individuals who have been arrested for alcohol-related offences.

We see information and awareness-raising as key to reducing excessive alcohol consumption by young people. The "Know Your Limits" binge drinking campaign has been successful in raising awareness of the dangers of binge drinking. We will, in the new year, launch the next phase of the Government's alcohol communications campaign, which will seek to raise awareness of units and target the tolerance of drunkenness.

## Animal Experiments: Ministers

**Norman Baker:** To ask the Secretary of State for the Home Department if she will list the Ministers in her Department who have had responsibility for animal experiments since 1 May 1997, giving the start and end date of their tenure in each case. [169886]

**Meg Hillier** *[holding answer 3 December 2007]*: The following table lists the available details of Home Office Ministers who have had responsibility for animal experiments since May 1997.

*Approximate date of appointment as Minister responsible for the Animals (Scientific Procedures) Act 1986*

| | Minister |
|---|---|
| May 1997 | Lord Williams of Mostyn |
| September 1998 | George Howarth |
| August 1999 | Mike O'Brien |
| May 2001 | Angela Eagle |
| May 2002 | Bob Ainsworth |
| June 2003 | Caroline Flint |
| May 2005 | Andy Burnham |
| May 2006 | Joan Ryan |
| July 2007 | Meg Hillier |

## Animal Experiments: Primates

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how often overseas centres, approved to supply non-human primates to human laboratories in the UK, are revisited by her Department's inspectors. [169543]

**Meg Hillier:** The Animals (Scientific Procedures) Act 1986 and the standard conditions placed on project licences allow for the sourcing of laboratory animals (listed in Schedule 2 to the Act) from abroad only if authorised and if no suitable animals are available in the United Kingdom.

Visits by the animals inspectorate are risk based, depending on the need to monitor standards of husbandry and care or the progress of improvements. When appropriate, they are timed to coincide with applications for acceptance or continued acceptance of an overseas centre. The Inspectorate will usually consider a visit necessary before giving advice on the continuing acceptability of a centre, and may regard a visit as appropriate if concerns about an accepted centre are raised.

On this basis, an overseas centre approved to supply non-human primates to designated establishments will be visited about every two to four years, depending on the findings from the previous visit, the need to reassess on site and whether animals are being supplied from the site. Between visits, interim assessments are made from information provided by other visitors and responses to specific questions on current care and accommodation

## Anti-Terrorism Control Orders

**Lynne Featherstone:** To ask the Secretary of State for the Home Department pursuant to the answer of 26 November 2007, *Official Report*, columns 177-78W, on anti-terrorism control orders, how many individuals subjected to control orders have been deemed ineligible for employment or other benefits due to the terms of their control order; how much funding these individuals have received in subsistence payments; over what time period; and if she will make a statement. [170729]

**Mr. McNulty:** Since the commencement of the Prevention of Terrorism Act 2005, the Home Office is aware that one individual was assessed as being ineligible for employment related benefits, for a short period, as a result of the terms of the control order. The individual concerned received alternative subsistence payments totalling £240 over an eight-week period in 2006.

## Asylum

**Mr. Hoban:** To ask the Secretary of State for the Home Department when the Asylum Case Resolution Programme will be completed. [164790]

**Mr. Byrne:** In his statement on 19 July 2006, my right hon. Friend the previous Home Secretary advised that the Border and Immigration Agency would resolve its backlog of electronic and paper records relating to unresolved asylum cases in five years or less. It remains our intention to conclude all cases by July 2011.

**Pete Wishart:** To ask the Secretary of State for the Home Department how many *(a)* Iraqi and *(b)* Afghan nationals granted asylum in the UK have settled in (i) England, (ii) Scotland, (iii) Wales and (iv) Northern Ireland in each of the last six years. [169822]

**Mr. Byrne:** The requested information is not available, as we do not require those granted asylum to live in a particular place.

The closest available information is the number of asylum seekers in receipt of support from the Border and Immigration Agency, broken down by Government office region and local authority. This is published on a quarterly and annual basis and the latest publication, covering the third quarter of 2007, is available on the Home Office Research, Development and Statistics website at: http:// www.homeoffice.gov.uk/rds/immigration1.html.
Further breakdowns, of those in receipt of support from BIA, by parliamentary constituency, are also available from the Library of the House.

### Asylum: Sudan

**Ms Abbott:** To ask the Secretary of State for the Home Department what the Government's policy is on returning Darfuri refused asylum-seekers to Sudan; and if she will make a statement. [164411]

**Mr. Byrne:** All applications for asylum, including those from Darfuris from Sudan are considered on their individual merits against the background of the latest case law and country information. Claimants who meet the definition of a refugee in the 1951 convention are granted asylum. Those, whose applications are refused, have a right of appeal to the independent Asylum and Immigration Tribunal. In this way we ensure that protection is afforded to those who need it.

We are investigating the allegations made in a recent Aegis Trust report on ill treatment of returnees. No enforced returns will take place until these investigations are completed.

### Aviation

**Mr. Hayes:** To ask the Secretary of State for the Home Department how much her Department spent on *(a)* business and *(b)* first-class air travel in the last 12 months. [171245]

**Mr. Byrne:** The Department's accounting system does not separately identify expenditure on first class, business class and standard class travel for air travel. Such information could be provided only at disproportionate cost.

The Department expects all official travel to be carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code and the Ministerial Code.

The Cabinet Office produces the annual list of Cabinet Ministers' overseas travel. The list for 2006-07 was published on 25 July 2007.

### Border and Immigration Agency

**Mr. Lidington:** To ask the Secretary of State for the Home Department when the Border and Immigration Agency will provide a substantive reply to the letter of 14 September 2007 from the hon. Member for Aylesbury, reference L1123626 and B25881/7, about Mr. D. L. of Aylesbury. [171368]

**Mr. Byrne** *[holding answer 5 December 2007]:* The Border and Immigration Agency responded to the hon. Member for Aylesbury on 1 October 2007 and resent the reply again on 3 December 2007.

### Commissioner of Police for the Metropolis

**Mr. Amess:** To ask the Secretary of State for the Home Department if she will bring forward legislation to give the Secretary of State for the Home Department powers to remove the Commissioner of Police for the Metropolis from office; what recent representations she has received about the matter; and if she will make a statement. [169456]

**Mr. McNulty:** No. My right hon. Friend the Home Secretary is satisfied with the existing legislative position on this matter, and has had no representations on it other than this question. My right hon. Friend has made clear her support for Sir Ian Blair.

### Community Support Officers

**Philip Davies:** To ask the Secretary of State for the Home Department what competencies are required of police community support officers. [163834]

**Mr. McNulty:** The Police Could You website (www.policecouldyou.co.uk) contains information and guidelines for potential PCSO applicants, as well as a guide to becoming a police community support officer. This guide lists effective communication, community and customer focus, respect for race and diversity, team working and personal responsibility as key qualities needed to become a PCSO.

As set out in section 38 of the Police Reform Act 2002, it is for the chief officer of each force to determine whether a person is suitable for and capable of the role to which he/she is to be deployed. Each chief officer must also ensure that the PCSO is adequately trained to use the powers he/she has been designated.

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many people were detained by a police community support officer in each of the last four years; and in how many cases a police officer took charge of the detainee within half an hour of detention. [165650]

**Mr. McNulty:** The information is not collected centrally.

### Crime: Young People

**Matthew Taylor:** To ask the Secretary of State for the Home Department how many and what proportion of crimes were committed by persons aged between 16 and 25 years in *(a)* Cornwall, *(b)* each parliamentary constituency in Cornwall and *(c)* England in each year since 1979, broken down by category of offence. [166712]

**Mr. McNulty:** The information requested is not collected centrally.

The Home Office collects statistics on the number of offences recorded by the police in England and Wales but no information is collected on the age of the alleged offenders.

### Departmental ICT

**Gordon Banks:** To ask the Secretary of State for the Home Department which manufacturers' software is used in her Department. [167227]

**Mr. Byrne:** In the main, the Home Office no longer chooses specific software. There are a large number of computer systems operated by the Department.

The choice of software to meet the business needs of the Home Office now largely rests with its Strategic IST suppliers who are contracted, largely under the private finance initiative (and public-private partnership arrangements), to meet business requirements and provide value for money solutions, including the consideration of open source solutions.

Within our business requirements, the Home Office ensures that any technical choices should meet relevant Government software standards and provide for interoperability with the public and business partners.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for the Home Department if she will place in the Library a copy of the guidelines issued to staff maintaining her Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170232]

**Mr. Byrne:** The costs of producing revised corporate guidelines was £21,878.50. This was a one-off cost—there is no annual cost for producing further guidelines.

There are no costs associated with complying with the guidelines. The Home Office logo did not change, so no new stationary was required. The guidelines were created to prevent the creation of new logos and identities with the intention of saving the Department money by enforcing the single Home Office logo use on all communication.

A copy of the corporate guidelines has been placed in the House Library.

### Departmental Private Finance Initiative

**Dr. Cable:** To ask the Secretary of State for the Home Department what the value is of the unitary payments of each private finance initiative scheme overseen by her Department over the lifetime of the contract expressed in constant 2007-08 prices; and if she will make a statement. [164229]

**Mr. Byrne:** Details of each private finance initiative scheme overseen by the Home Department with information on estimated unitary charges for 2007-08 is available on HM Treasury's website at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

The estimated unitary charge is based on 2006-07 actual charges and is not simply repayments for capital value of the project but frequently include other factors such as inflation, service provision, capital repayments and major refurbishment.

To provide information on the unitary payments over the lifetime of the contract expressed in 2007-08 prices and discounted to present value would incur disproportionate costs. On average an appropriate discount rate to use for providing a net present value total would be as set out in the Green Book as real discount rate of 3.5 per cent.

The signed deals list covers unitary charges up until 2033-34 and to update the figures to cover the duration of the contract would incur disproportionate cost.

The Secretary of State has no plans to make a statement.

### Deportation

**Mr. Grieve:** To ask the Secretary of State for the Home Department how many non-EU nationals she has been unable to deport since October 2000 due to *(a)* UK courts finding a real risk of them suffering treatment contrary to Article 3 of the European Convention on Human Rights on their return and *(b)* her Department accepting that any such deportation would be in breach of Article 3 rights. [169770]

**Mr. Byrne:** The information requested can only be obtained through the detailed examination of individual case files to ascertain the specific reason for an allowed appeal against deportation or when it has been accepted that deportation should not be pursued. This would incur a significantly disproportionate cost. The chief executive of the Border and Immigration Agency wrote a letter to the Home Affairs Committee on 20 November in which she provided an update on the deportation of foreign national criminals and gave the most robust statistical information available. A copy of this letter is available in the Library of the House.

### Deportation: Complaints

**Mrs. Ellman:** To ask the Secretary of State for the Home Department when she expects the investigation into the alleged mistreatment of Beatrice Guessi during the journey from Yarl's Wood detention centre to Cameroon on 28 August 2007 to be concluded; and if she will make a statement. [170286]

**Mr. Byrne** *[holding answer 3 December 2007]:* The investigation into the alleged mistreatment of Beatrice Guessi was referred by the Border and Immigration Agency to Hampshire Constabulary and is currently being investigated. If appropriate, the BIA investigation will continue once the outcome of the police investigation is known.

### Deportation: Iran

**Lady Hermon:** To ask the Secretary of State for the Home Department how many persons were deported to Iran in each of the last five years. [170467]

**Mr. Byrne:** The following table shows the number of people removed to Iran in each year since 2004.

Information on the destination of persons removed from the UK has been collated only since the start of 2004.

Information on the total number of persons removed between January and September 2007 is based on management information. This information has not been quality assured under National Statistics protocols, should be treated as provisional and is subject to change.

Published statistics on immigration and asylum are available from the Library of the House and the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

*Removals, voluntary departures and assisted returns[1] to Iran, January 2004 to September 2007[2]*

| | | | | *Number of removals* |
|---|---|---|---|---|
| | *2004* | *2005* | *2006[3]* | *January to September 2007[3, 4]* |
| Total removals to Iran | 265 | 435 | 550 | 415 |

[1] Includes enforced removals, persons refused entry at port and subsequently removed (including cases dealt with at juxtaposed controls), persons departing voluntarily after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration and since January 2005 those who it is established have left the UK without informing the immigration authorities.

[2] Figures rounded to the nearest five.

[3] Provisional figures.

[4] Figures for January to September 2007 are based on management information, this information has not been quality assured under National Statistics protocols, should be treated as provisional and is subject to change.

**Lady Hermon:** To ask the Secretary of State for the Home Department on how many occasions the Government were unable to deport a person to Iran because they failed to co-operate with the obtaining of a travel document in each of the last five years. [170468]

**Mr. Byrne:** The information requested could be obtained only by the detailed examination of individual case records at disproportionate cost.

## Deportation: Iraq

**Pete Wishart:** To ask the Secretary of State for the Home Department how many foreign nationals residing in Scotland were (*a*) issued with deportation orders and (*b*) subject to forced returns to Iraq in each month since January 2006. [169479]

**Mr. Byrne:** Information on the region of residence at the time of removal or when a deportation order was issued is available only through the examination of individual records at disproportionate cost. The Chief Executive of the Border and Immigration Agency wrote a letter to the Home Affairs Committee on 20 November providing an up-date to information on the deportation of foreign nationals that have committed crimes within the UK. A copy of this letter is available in the Library of the House.

## Deportation: Overseas Students

**Mr. Willetts:** To ask the Secretary of State for the Home Department how many persons rejected for clearance to study proliferation-sensitive subjects under the voluntary vetting scheme were deported in each year since 1997. [171855]

**Mr. Byrne:** The information requested could be obtained only by the detailed examination of individual records at disproportionate cost.

## Detection Rates

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what the clear-up rate for recorded offences in each police district in England and Wales was in each year since 1997. [166809]

**Mr. McNulty:** The information requested is given in the table.

*Detection rates for all recorded crimes, by police force area from 1997 to 2006-07*

| | | | | | | | | | | | *Percentage* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | *1997* | *1997-98[1]* | *1998-99[1]* | *1999-00[1]* | *2000-01[1]* | *2001-02* | *2002-03[2, 3]* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |

[1] The number of crimes recorded in that financial year using the coverage and rules in use until 31 March 1998.

[2] The number of crimes recorded in that financial year using the expanded offence coverage and revised counting rules which came into effect on 1 April 1998.

[3] Revised detections guidance was implemented on 1 April 1999.

[4] The National Crime Recording Standard was introduced in April 2002. Figures before and after that date are not directly comparable.

[5] Includes the British Transport Police from 2002-03 onwards.

*Note*

The overall detection rate remained broadly stable between 2001-02 and 2003-04. It then rose to reach 27 per cent. in 2005-06 and 2006-07. However, the overall detection rate has been affected by forces limiting the usage of non-sanction detections i.e. where a crime is detected but no further action is taken for a variety of reasons.

### Dyfed Powys Police: Resignations

**Adam Price:** To ask the Secretary of State for the Home Department what advice was *(a)* sought from and *(b)* given by her Department in the case of the Dyfed-Powys police authority and the resignation of the chief constable of Dyfed-Powys police, Mr. Terence Grange. [170143]

**Mr. McNulty** *[holding answer 3 December 2007]:* No advice was sought or given by the Home Office, but the position of the chief constable of Dyfed Powys was discussed as part of regular contact between the police authority and Her Majesty's Inspectorate of Constabulary.

### Emergency Calls: Hoaxes and False Alarms

**Mr. Burns:** To ask the Secretary of State for the Home Department what percentage of emergency calls to the police in 2006-07 were classified as prank calls. [167065]

**Mr. McNulty:** Data on prank calls to emergency services is not collected centrally. This is a matter for the chief constable of each force.

### Entry Clearances: EU Enlargement

**Mr. Hayes:** To ask the Secretary of State for the Home Department what assessment she has made of the consequences of European Court of Justice case C-16/05, 2007/C 269/09 on the application of restrictions on entry to Great Britain to nationals of EU applicant states. [170600]

**Mr. Byrne:** The Secretary of State for the Home Department continues to assess the implications of this judgment in consultation with the Commission and other EU member states.

### European Extradition Warrant

**Frank Dobson:** To ask the Secretary of State for the Home Department (1) how many European extradition warrants have been served on British citizens in each of the 32 categories of crime covered by the warrants; how many British citizens have been extradited to each EU country under a European extradition warrant; how many British citizens extradited under a European extradition warrant have subsequently been found guilty; and how many extradition requests under the European extradition warrant have been refused by a British court; [163060]

(2) what the *(a)* average, *(b)* longest and *(c)* shortest period is which has elapsed between the receipt in the UK of a European extradition warrant and it being served on the person covered by it. [163331]

**Meg Hillier** *[holding answers 12 and 13 November 2007]:* The information which is available without disproportionate cost is as follows.

Since 2004 there have been a total of 900 European arrest Warrant arrests. Of that number 151 were British nationals. There were 122 discharges at court. Of that number, 41 were for British nationals. There have been 533 surrenders. Of that number 64 were British nationals.

The shortest time from certification of an EAW to arrest can be and has been on occasion a matter of hours.

As far as the longest time from certification of an EAW to arrest is concerned, there are EAW warrants dating back to 2004 that are certified but where an arrest has not yet been made. This can be for a number of reasons including lack of intelligence on the location of the individual.

### Foreign Workers: EU Countries

**Colin Burgon:** To ask the Secretary of State for the Home Department what assessment her Department has made of the likely effects of the impending transition of Schengen area EU states including Poland, Slovakia and Hungary on the unskilled and semi-skilled sectors of the UK labour market. [166693]

**Mr. Byrne** *[holding answer 20 November 2007]:* While expansion of the Schengen area may make migration within the Schengen area more attractive to migrants, diverting some who may have come to the UK, this is unlikely to have a big impact on the UK labour market. The Government will continue to monitor migration within Europe.

The UK does not participate in the immigration aspects of the Schengen Acquis. Those travelling from the enlarged Schengen area will be subject to border controls should they wish to enter the UK, just as those travelling from the existing Schengen area do currently.

### Genetics: Databases

**Mr. Vara:** To ask the Secretary of State for the Home Department how many people have provided a sample for the DNA database *(a)* following arrest and *(b)* voluntarily to eliminate themselves from suspicion of involvement in an offence. [164664]

**Meg Hillier:** There were an estimated 4,188,033 persons with a DNA profile retained on the national DNA database (NDNAD) on 31 October 2007. Of these, approximately 4,165,300 had provided a DNA sample following arrest and 22,700 had provided a sample voluntarily. These figures are for the whole NDNAD and cover persons sampled by police forces in England, Wales, Scotland, Northern Ireland and by other UK forces such as the Channel Islands.

Comparable data for forces in England and Wales are as follows.

Approximately 3,916,500 persons with a DNA profile retained on the NDNAD had provided a sample following arrest by police forces in England and Wales; and 21,600 persons provided a sample voluntarily for forces in England and Wales. The number of persons on the database is approximately 13.7 per cent. fewer than the number of subject sample profiles. It is currently estimated that 13.7 per cent. of DNA profiles held on the NDNAD are replicates, i.e. that a profile for a person has been loaded on more than one occasion (one reason for this is that the person gave different names, or different versions of their name, on separate arrests). The presence of these replicate profiles on the NDNAD does not impact on the effectiveness and integrity of the database. Nonetheless, a long-term exercise is under way to identify issues associated with the removal of all such redundant replicate profiles.

### Illegal Immigrants

**Stewart Hosie:** To ask the Secretary of State for the Home Department how many illegal immigrants were found at each of the main ports of entry to the United Kingdom in 2007. [171193]

**Mr. Byrne:** Illegal entry action is initiated against those people who are detected having entered or attempted to enter the country clandestinely or by means of deception, either verbal or documentary. The following table represent those illegal entrants detected at ports of entry from 1 January 2007 to 30 November 2007.[1]

| *Initiating port* | *Total* |
|---|---|
| Ashford | 9 |
| Birmingham International Airport | 2 |
| Brussels Control | 2 |
| Calais Ferryport | 3,199 |
| Calais Hoverport | 1 |
| Cheriton | 10 |
| Coquelles | 721 |
| Dorset Ports Office | 219 |
| Dover East Ports Office | 4 |
| Dunkerque Ports Office | 700 |
| Felixstowe | 86 |
| Heathrow TN3 | 5 |
| Holyhead | 1 |
| Number Ports | 47 |
| Newcastle | 1 |
| Newhaven | 25 |
| North Shields | 2 |

| *Initiating port* | *Total* |
|---|---|
| Portsmouth Ports Office | 21 |
| Ramsgate | 2 |
| Tees Ports Office | 5 |
| Tilbury Ports Office | 14 |
| Grand total | 5,167 |

*Note*
The data provided is based on locally collated management information, which may be subject to change and does not represent published national statistics.

### Illegal Immigrants: Employment

**Keith Vaz:** To ask the Secretary of State for the Home Department by what procedures her Department investigates whether an employer is aware that an employee does not have the right to work in Britain. [169704]

**Mr. Byrne:** All Border and Immigration Agency investigations into potential offences under section 8 of the Asylum and Immigration Act 1996 are undertaken in accordance with the Police and Criminal Evidence Act 1984 and the guidance in chapter 55 of the Border and Immigration Agency's Operational Enforcement Manual entitled "Preventing illegal working", which is published on the Border and Immigration Agency website.

**Mr. Spellar:** To ask the Secretary of State for the Home Department how many firms were *(a)* charged and *(b)* convicted for employing illegal workers in 2006 in (i) England and Wales and (ii) the West Midlands. [170203]

**Mr. Byrne:** Information is not available on the number of employers charged for employing a person subject to immigration control; however, information on those proceeded against is available.

Eleven defendants were proceeded against under section 8 of the Asylum and Immigration Act 1996 for employing a person aged 16 and above subject to immigration control in England and Wales in 2006; of these, seven were found guilty.

One defendant was proceeded against under section 8 of the Asylum and Immigration Act 1996 in the West Midlands police area in 2006; this person was found guilty.

We took steps in 2004 to make the section 8 offence easier to enforce and prosecution activity has increased subsequently. We are committed to bringing forward the implementation of measures contained in the Immigration, Asylum and Nationality Act 2006 to tackle illegal migrant working, which will provide the Border and Immigration Agency with a wider and more effective range of tools with which to tackle non-compliance. The 2006 Act introduces a system of civil penalties for employers who employ illegal migrants through less than diligent practices, alongside a tough new offence for those who knowingly employ illegal migrants, which will carry a maximum two-year prison sentence and/or an unlimited fine. These new measures will come into force on 29 February 2008.

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

### Immigration Controls

**Mr. Clappison:** To ask the Secretary of State for the Home Department what her plans are for changing the resident labour market test under the points-based system; and what definition there will be of employment which will be removed from the requirements of the test. [165425]

**Mr. Byrne:** We have not finalised details of how the resident labour market test will work under tier 2 of the points-based system. We are discussing the operation of the test with employer representatives and others, and will publish details of the test in a statement of intent next year.

### Immigration: Bexley

**Mr. Evennett:** To ask the Secretary of State for the Home Department how many people in the London Borough of Bexley are awaiting a decision on applications for leave to remain in the UK. [171025]

**Mr. Byrne:** The information requested could be obtained in the format required by the detailed examination of individual records only at disproportionate cost.

### Immigration: Children

**Ms Abbott:** To ask the Secretary of State for the Home Department what steps her Department is taking to help children *(a)* who are HIV positive, *(b)* who have malaria and *(c)* who have tuberculosis and are living in immigration removal centres; and if she will make a statement. [172632]

**Mr. Byrne:** Appropriate treatment is provided to all those who enter immigration removal centres with medical problems and they must have available to them the same range and quality of services as the general public receives from the national health service.

For example, the Healthcare Steering Group, which was set up by immigration removal centre doctors, has issued guidance on how HIV/AIDS patients should be managed and this makes clear that those concerned must be treated in the same way as any other member of the community. The same is true for those who may have malaria or tuberculosis.

We take seriously our responsibility for meeting the health needs of those held in detention. This can be further evidenced through our taking into account the need, in relevant cases, for detainees to be offered malaria prophylaxis before returning to a malaria area.

Individuals who are being removed from the United Kingdom are, where appropriate, provided with sufficient medication until such time as they are able to have access to their own country's health care services. This position applies to adults and children.

### Immigration: Hillingdon

**Mr. Randall:** To ask the Secretary of State for the Home Department what discussions she has had with the London Borough of Hillingdon on removing asylum seekers who have exhausted all appeals. [171116]

**Mr. Byrne:** Engagement with partners and stakeholders is key to delivering our business. Border and Immigration Agency staff at various levels are engaging with the London borough of Hillingdon on a regular basis.

### Members: Correspondence

**Mr. Malins:** To ask the Secretary of State for the Home Department when she expects to reply to *(a)* the letter to her predecessor of 29 March 2007, from the hon. Member for Woking regarding Mr. Evans N7737/7 (148492) and *(b)* the question tabled by the hon. Member for Woking on 4 July 2007 on the same subject. [166175]

**Mr. Byrne:** I wrote to the hon. Member on 6 December 2007.

### Metropolitan Police: Complaints

**Harry Cohen:** To ask the Secretary of State for the Home Department what criteria are used in directing complaints relating to the handling of cases by the Metropolitan police to *(a)* the Metropolitan Police Directorate of Professional Standards and *(b)* the Independent Police Complaints Commission; what the outcome has been of the handling of the complaint of Bilan and Hussein Mohamud in relation to the conduct of Kentish Town police station officers; and if she will make a statement. [171397]

**Mr. McNulty:** The Metropolitan police direct all public complaints to their Directorate of Professional Standards (DPS). Under Schedule 3 of the Police Reform Act 2002, the Metropolitan police—and all other police forces in England and Wales—must refer to the Independent Police Complaints Commission (IPCC) specific complaints or incidents that could damage public confidence in the police. The police and the IPCC have a set of criteria for this process, and those criteria identify the following matters as Mandatory Referrals:

Where direct or indirect contact with the police may have caused or contributed to a person's death or serious injury;

Where a member of the police service is alleged to have committed a serious assault or serious sexual assault;

Where a member of the police service is alleged to have committed an offence that could attract a prison sentence of seven years or more;

Where a member of the police service is alleged to have committed a criminal offence / behaviour aggravated by discrimination;

Serious corruption.

Discretionary referrals, outside of the categories above, can also be made to the IPCC if it is desirable to do so in the public interest. Discretionary referral of conduct matters to the IPCC may be done only with the authority of a DPS officer of the rank of Detective Superintendent or above. The IPCC, which has guardianship of the police complaints system, also has the power to call in an investigation where circumstances justify their involvement.

Bilan and Hussein Mohamud made a number of complaints to the Metropolitan police in December 2005, which were investigated by the DPS; the outcome of that investigation was that all matters were found to be un-substantiated. This was conveyed to the solicitors for Mr. and Mrs. Mohamud in January 2007.

### National Asylum Support Service and the Border and Immigration Agency

**Jim Cousins:** To ask the Secretary of State for the Home Department how many people entered National Asylum Support Service and Border and Immigration Agency-supported accommodation in the City of Newcastle upon Tyne in each quarter of *(a)* 2005, *(b)* 2006 and *(c)* 2007; and how many left such accommodation on resolution of their cases in each of those periods. [172046]

**Mr. Byrne** *[holding answer 6 December 2007]*: The information requested could be obtained by the detailed examination of individual case records, only at disproportionate cost.

### National Asylum Support Service: Greater London

**Mr. Evennett:** To ask the Secretary of State for the Home Department how many individuals in *(a)* Bexleyheath and Crayford, *(b)* the London borough of Bexley and *(c)* Greater London received support from the National Asylum Support Service in each of the last five years. [162070]

**Mr. Byrne:** The following table shows the number of asylum seekers recorded as receiving asylum support in Bexleyheath and Crayford, the London borough of Bexley and Greater London as at the end of each year for the last five years.

The numbers of asylum seekers in receipt of support, broken down by Government office region and local authority, are published on a quarterly and annual basis. Copies of these publications are available on the Home Office research, development and statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Further breakdowns of those in receipt of support, by parliamentary constituency, are also available from the Library of the House.

| *As at end of December*[1] | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|
| *Bexleyheath and Crayford* | | | | | |
| Subsistence only[2] | n/a | 15 | 10 | 10 | 15 |
| Dispersed | n/a | 0 | 5 | 0 | 0 |
| Total | n/a | 15 | 15 | 10 | 15 |
| | | | | | |
| *Bexley* | | | | | |
| Subsistence only[2] | 105 | 80 | 70 | 60 | 55 |
| Dispersed | 10 | 5 | 10 | 5 | 5 |

| *As at end of December*[1] | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|
| Total | 115 | 85 | 80 | 65 | 60 |
| *Greater London* | | | | | |
| Subsistence only[2] | 28,560 | 22,025 | 14,505 | 10,000 | 8,110 |
| Dispersed | 2,605 | 2,900 | 1,455 | 1,300 | 1,370 |
| Total | 31,165 | 24,925 | 15,960 | 11,300 | 9,480 |

n/a = not available

[1] Figures are rounded to the nearest five.

[2] Asylum seekers do not necessarily reside in the area where they are recorded as receiving subsistence support.

### Passports: Fraud

**Lady Hermon:** To ask the Secretary of State for the Home Department how many persons were arrested in each of the last 18 months in relation to false passport offences attempting to *(a)* enter and *(b)* exit the United Kingdom. [170470]

**Mr. Byrne:** During the period 1 April 2006 until 30 October 2007, a total of 1,949 persons were arrested by the Border Control Criminal Investigation Teams for a range of offences. Within the same period, 930 persons were convicted or cautioned in relation to false passport or identity offences.

Of these, 619 were convicted or cautioned under section 25 of the Identity Cards Act 2006 and 311 were convicted or cautioned under the Forgery and Counterfeiting Act 1981.

It is not possible to differentiate between those entering and exiting the country, as records are maintained only of the offences dealt with. Note also that these figures include persons detected by these criminal investigation teams at other stages, such as making applications to the Home Office.

A monthly breakdown of figures is not available from April 2006 to March 2007, however during this period, a total of 1,321 persons were arrested with 611 persons convicted or cautioned in relation to false passport or identity offences.

A monthly breakdown of convictions or cautions for these offences for each subsequent month, this financial period, is available in the table.

It should be noted that the figures provided relate only to prosecutions undertaken by the Border and Immigration Agency Border Control Criminal Investigation Teams. The data provided is based on locally collated management information, which may be subject to change and does not represent published national statistics.

| *2007* | *Section 3, Forgery and Counterfeiting Act* | *Section 25, Identity Cards Act* |
|---|---|---|
| April | 5 | 53 |
| May | — | 53 |
| June | — | 45 |
| July | — | 45 |
| August | — | 43 |
| September | — | 47 |
| October | — | 28 |

### Passports: Lost Property

**Ms Keeble:** To ask the Secretary of State for the Home Department how many UK passports were reported as having been lost in each of the last five years. [162053]

**Meg Hillier:** The Identity and Passport Service processed the following reports of lost passports in each of the past five calendar years:

2002: 166,358 combined total including Stolen and Other;

2003:184, 301 combined total including Stolen and Other;

2004: 275,040; Lost 212,745

2005: 286,988; Lost 230,011

2006: 290,996; Lost 237,879

2007: 270,266; Lost 224,873.

The figures for calendar year 2007 are up to 6 November 2007.

### Police Patrolling

**Mr. Burns:** To ask the Secretary of State for the Home Department what estimate she has made of the average amount of time police officers in the Essex central area spent on street patrols in the latest period for which figures are available. [171775]

**Mr. McNulty:** 64.8 per cent. of police officer time in Essex was spent on front-line policing in 2006-07. The existing definition of time spent on patrol excludes other front-line activity. Time spent on patrol refers only to time when an officer is patrolling but engaged in no other duty. Any activity (such as advice to a member of the public or responding to antisocial behaviour) carried out while on patrol is recorded separately. This figure therefore provides a more rounded picture of front-line activity by police officers.

### Police: Bureaucracy

**Mr. Boris Johnson:** To ask the Secretary of State for the Home Department what the average time was spent on patrol by police officers in *(a)* England, *(b)* London and *(c)* each London borough in each year since 1997; and what proportion of police officers' working hours those figures represent in each case. [166944]

**Mr. McNulty:** Information on time spent on patrol by police officers has been collected only since 2003-04 and is set out in the following table, for England and for the Metropolitan Police. The Home Office does not collect data for individual boroughs.

Time spent on patrol refers only to time when an officer is patrolling but engaged in no other duty. It is inappropriate to look at this element in isolation from other activities.

The front-line policing measure provides a fuller picture of police officer activity because it assesses time spent by police officers on core policing duties such as patrol, responding to 999 calls, as well as activities of CID and specialist officers.

*Table 1*

| | *Percentage patrol* | | *Percentage FLP* | |
|---|---|---|---|---|
| | *England* | *Metropolitan Police* | *England* | *Metropolitan Police* |
| 2006-07 | 13.5 | 12.8 | 64.3 | 61.7 |
| 2005-06 | 14.4 | 12.9 | 63.7 | 61.9 |
| 2004-05 | 15.3 | 13.4 | 62.2 | 62.4 |
| 2003-04 | 14.2 | 13.7 | 62.1 | 65.0 |

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what percentage of time on average *(a)* all police officers and *(b)* patrol officers spent on (i) incident-related paperwork, (ii) non-incident-related paperwork, (iii) all paperwork and (iv) patrol in each year since 2001. [166971]

**Mr. McNulty:** Information on time spent on patrol and paperwork by police officers has only been collected since 2003-04 and information for England and Wales is set out in the following tables. Table A contains data for all officers and table B for patrol officers.

Time spent on patrol refers only to time when an officer is patrolling but engaged in no other duty. It is therefore inappropriate to look at this element in isolation from other activities. The front-line policing measure provides a fuller picture of police officer activity because it assesses time spent by police officers on core policing duties such as patrol, responding to 999 calls, as well as activities of CID and specialist officers.

*Table A: All officers*

*Percentage*

| *Year*[1] | *Time spent on incident-related paperwork* | *Time spent on non incident-related paperwork* | *Total time spent on paperwork* | *Time spent on patrol*[2] | *Frontline policing measure*[3] |
|---|---|---|---|---|---|
| 2003-04 | 10.3 | 9.8 | 20.1 | 14.2 | 62.1 |
| 2004-05 | 9.9 | 8.5 | 18.4 | 15.3 | 62.6 |
| 2005-06 | 10.8 | 8.5 | 19.3 | 14.0 | 63.1 |
| 2006-07 | 11.4 | 8.5 | 19.7 | 13.6 | 64.2 |

*Table B: Patrol officers*

*Percentage*

| *Year*[1] | *Time spent on incident-related paperwork* | *Time spent on non incident-related paperwork* | *Total time spent on paperwork* | *Time spent on patrol* |
|---|---|---|---|---|
| 2003-04 | 8.8 | 10.0 | 18.8 | 18.0 |
| 2004-05 | 8.1 | 8.3 | 16.4 | 19.1 |
| 2005-06 | 8.6 | 7.9 | 16.5 | 17.3 |
| 2006-07 | 9.2 | 7.9 | 17.1 | 17.1 |

[1] Data was not collected before 2003. The information is taken from activity analysis, which is collected by all forces over a two-week period in each year and provides a snapshot of how officers are deployed.

[2] Includes officers on foot/car/beat patrol, CID and traffic officers.

[3] Data was not collected before 2003.

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what steps she is taking to reduce the time spent by police officers on paperwork and administrative tasks; and if she will make a statement. [166996]

**Mr. McNulty:** The time spent by police officers on paperwork and other administrative duties remains an inevitable, but often necessary part of the process of protecting the public. We are, however, taking measures to reduce the time spent on these activities in order to increase the time police officers are able to spend on front line duties. These measures include: improving custody management working practices and processes; streamlining and providing greater local flexibility over performance management requirements; and providing a new £50 million capital fund to support wider access to time and paperwork saving innovative electronic fingerprinting and mobile data technologies.

Reducing bureaucracy is one of the four key strands in Sir Ronnie Flanagan's review of policing. There were 13 recommendations on this area alone in his interim report published in September this year.

### Police: Early Retirement

**Adam Price:** To ask the Secretary of State for the Home Department what guidelines are issued to police authorities on applications for early retirement by senior police officers under investigation. [170144]

**Mr. McNulty** *[holding answer 3 December 2007]:* All police officers are entitled to retire after 25 years service (and on full pension after 30 years) unless they are suspended from duty as a result of an investigation into their conduct, when they can retire before the procedures have been concluded only with the agreement of the chief officer or the relevant police authority depending on their rank. The provisions relating to this are contained in regulation 14 and the determination at annex D of the Police Regulations 2003. Guidance, which is available to police forces and police authorities, is contained in the Home Office Guidance on Police Unsatisfactory Performance, Complaints and Misconduct Procedures; there is further clarification of the provisions relating to retirement by officers under investigation/suspension in Home Office circulars 55/2003 and 8/2005, which are available on the Home Office website.

### Police: Emergency Calls

**Mr. Boris Johnson:** To ask the Secretary of State for the Home Department what the average time taken to respond to an emergency telephone call by police was in *(a)* England, *(b)* London and *(c)* each London borough in each year since 1997. [166940]

**Mr. McNulty:** This information is not collected centrally.

**Mr. Hancock:** To ask the Secretary of State for the Home Department what average police emergency response times were in Hampshire for each year since 1997. [172311]

**Mr. McNulty:** This is a matter for the Chief Constable of Hampshire constabulary.

### Police: Firearms

**Harry Cohen:** To ask the Secretary of State for the Home Department whether Operation Kratos remains in force. [164095]

**Mr. McNulty:** Specialised operational tactics to deal with the threat of a deadly attack are operational matters for the police. The Association of Chief Police Officers published its review of the police response to the threat of suicide terrorism on 7 March 2006, which concluded that tactics to deal with the threat of suicide terrorism remained fit for purpose.

All police use of firearms is subject to the usual law on the use of force. The Criminal Law Act 1967 provides that the police may use such force as is reasonable in the circumstances to effect an arrest or to prevent crime. The law applies to the operational tactics developed by police to deal with suspected suicide bombers as it does in any other case.

**Sarah Teather:** To ask the Secretary of State for the Home Department how many armed police officers served each London borough in the latest period for which figures are available. [167416]

**Mr. McNulty:** Information on the number of armed police officers is not collected by the Home Office. Information on authorised firearms officers is collected at police force area level, and the latest published figures show that on 31 March 2006 there were 2,331 AFOs in the Metropolitan police and 86 in the City of London police.

### Police: Hillingdon

**Mr. Randall:** To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police community support officers there were in the London borough of Hillingdon in each year since 1997 for which figures are available. [171089]

**Mr. McNulty:** Police officer figures for Hillingdon have been collected centrally since 2003, and police community support officer figures since 2005. They are shown in the following table.

*Number of police officers and police community support officers in the London borough of Hillingdon: 2003-07*

| *31 March each year* | *Police officers (FTE)*[1] | *Police community support officers (FTE)*[1] |
|---|---|---|
| 2003 | 458 | — |
| 2004 | 484 | — |
| 2005 | 498 | [2]56 |
| 2006 | 506 | [2]56 |
| 2007 | 495 | 84 |

[1] All figures are full time equivalents (FTE) rounded to the nearest whole number.

[2] Figures relate to 30 June, and are from an ad hoc collection. These figures may not be directly comparable to the others in the table.

### Police: Information and Communications Technology

**Keith Vaz:** To ask the Secretary of State for the Home Department how much has been spent since 1997 on information technology for police forces in Britain; and what UK computer networks exist to ensure that forces are aware of previous criminal activity of people they are investigating. [169843]

**Mr. McNulty:** It is not possible to provide the total expenditure on police Information Technology systems since 1997 as this information is not held centrally.

Police forces use a variety of national computer systems linked to their own networks, to identify individuals that may have been involved in previous criminal activity and to assist their investigations. These comprise:

The Police National Computer (PNC)

IMPACT Nominal Index (INI)

National Automated Fingerprint Identification System (IDENT1)

The Violent and Sex Offender Register (ViSOR)

The National Video Identification Database

In addition, police forces can access the National DNA Database, although this is not a database which holds information on previous criminal convictions.

### Police: Manpower

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many police officers in England and Wales were in post on the most recent date for which figures are available, broken down by rank; and how many in each rank were *(a)* black and *(b)* Asian. [165672]

**Mr. McNulty:** The most recent date for which figures are available is 31 March 2007; these data are given in the following table:

*Police officer strength (full-time equivalent) in England and Wales, as at 31 March 2007*

| *Police ranks* | *Total all police officers* | *Total Black or Black British* | *Total Asian or Asian British* |
|---|---|---|---|
| ACPO[1] | 206 | 1 | 4 |
| Chief Superintendent | 469 | 3 | 6 |
| Superintendent | 987 | 8 | 10 |
| Chief inspector | 1,848 | 10 | 18 |
| Inspector | 7,034 | 35 | 72 |
| Sergeant | 21,949 | 179 | 235 |
| Constable | 109,399 | 1,113 | 1,766 |
| Total all ranks | 141,892 | 1,349 | 2,111 |

[1] ACPO refers to the Association of Chief Police Officers.

*Note:* This table contains full-time equivalent figures that have been rounded to the nearest whole number.

**Sarah Teather:** To ask the Secretary of State for the Home Department how many *(a)* police officers, *(b)* police community support officers and *(c)* police ancillary staff were employed in each London borough in each year since 1997. [167410]

**Mr. McNulty:** The requested information has been collected centrally at London borough level since 2003 only. It is shown in the following tables.

*Number of police officers, police community support officers and police staff by London borough: 2003-07*[1]*, as at 31 March each year*

*Table A: Police officers (FTE)*[1]

| | *2003* | *2004* | *2005* | *2006* | *2007* |
|---|---|---|---|---|---|
| Barking and Dagenham | 360 | 384 | 419 | 426 | 427 |

| Lewisham | 168 | 131 | 170 | 188 | 136 |
| Merton | 79 | 75 | 105 | 105 | 84 |
| Newham | 171 | 156 | 208 | 226 | 148 |
| Redbridge | 116 | 106 | 144 | 152 | 100 |

*Table C: Police staff (FTE)[1, 3]*

| | 2003 | 2004 | 2005 | 2006 | 2007 |
|---|---|---|---|---|---|
| Richmond upon Thames | 77 | 92 | 114 | 116 | 83 |
| Southwark | 223 | 214 | 233 | 244 | 194 |
| Sutton | 88 | 78 | 105 | 125 | 80 |
| Tower Hamlets | 161 | 170 | 218 | 250 | 152 |
| Waltham Forest | 131 | 124 | 148 | 157 | 114 |
| Wandsworth | 168 | 149 | 177 | 179 | 129 |
| City of London | 46 | 48 | 67 | 64 | 44 |

[1] All figures are full time equivalents (FTE) rounded to the nearest whole number.

[2] PCSO figures included in all police staff totals for 2003-06, as separate figures below police force area collected centrally from 2007 only.

[3] 'All police staff' figures include designated officers, police staff and traffic wardens for the whole period. Also includes PCSOs up to and including 31 March 2006. Figures for 31 March 2007 exclude PCSOs, as they are listed separately in table B above.

**Jo Swinson:** To ask the Secretary of State for the Home Department what proportion of police officers were *(a)* men, *(b)* women, *(c)* black and minority ethnic (BME) men and *(d)* BME women in each of the last 10 years. [170585]

**Mr. McNulty:** The requested data are published annually in the Home Office Statistical Bulletin series "Police Service Strength, England and Wales" which are available online and in the Library of the House.

The available data are given in the following table.

*Proportion[1] of police officers by gender and ethnicity[2] as at 31 March 1998 to 2007*

*Percentage*

| | | | Minority ethnic | |
|---|---|---|---|---|
| 31 March each year | Male | Female | Male | Female |
| 1998 | 84.3 | 15.7 | 1.6 | 0.4 |
| 1999 | 83.9 | 16.1 | 1.6 | 0.4 |
| 2000 | 83.5 | 16.5 | 1.8 | 0.5 |
| 2001 | 82.8 | 17.2 | 1.9 | 0.5 |
| 2002 | 82.1 | 17.9 | 2.1 | 0.5 |
| 2003 | 81.0 | 19.0 | 2.3 | 0.6 |
| 2004 | 79.8 | 20.2 | 2.6 | 0.7 |
| 2005 | 78.8 | 21.2 | 2.8 | 0.8 |
| 2006 | 77.7 | 22.3 | 2.9 | 0.8 |
| 2007 | 76.7 | 23.3 | 3.0 | 0.9 |

[1] Based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between the totals and the sums of constituent items.

[2] Minority ethnic officers only, does not include those officers whose ethnicity is listed as "not stated".

### Police: Racial Violence

**Mr. Jeremy Browne:** To ask the Secretary of State for the Home Department how many incidents of religious hate crime against police officers were recorded in each police force area in each of the last five years. [172602]

**Mr. McNulty:** The information requested is not available centrally. The Home Office collects statistics on the number of recorded offences of racially or religiously aggravated offences but details regarding the victim are not collected.

### Police: Vehicles

**Mr. Goodwill:** To ask the Secretary of State for the Home Department if she will make an assessment of the use of upright electronic personal transporter vehicles by police forces in other countries. [171113]

**Mr. McNulty:** We have no current plans to do so.

### Proscribed Organisations Appeals Commission

**Mr. Gale:** To ask the Secretary of State for the Home Department if she will implement the findings of the Proscribed Organisations Appeals Commission and remove the proscription from the Peoples' Mujahadeen Organisation of Iran. [172754]

**Mr. McNulty:** As we have already made clear, we are disappointed with the judgment handed down by the Proscribed Organisations Appeals Commission on 30 November, and will be appealing. No action will be taken to remove the Peoples' Mujahadeen Organisation of Iran from the proscribed list in the interim.

### Railways

**Mr. Hayes:** To ask the Secretary of State for the Home Department how much was spent by her Department on first class train tickets in the last 12 months. [171258]

**Mr. Byrne:** The Department's accounting system does not separately identify expenditure on first class and standard class train travel. Such information could be provided only at disproportionate cost.

The Department expects all official travel to be carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code and the Ministerial Code.

The Cabinet Office produces the annual list of Cabinet Ministers Overseas Travel, and the one for 2006-07 was published on 25 July 2007.

### Terrorism

**Mr. Hayes:** To ask the Secretary of State for the Home Department what the Government's policy is on the role of *(a)* Europol and *(b)* other EU institutions in the Bureau de Liaison network for EU-wide information-sharing on terrorist incidents. [170588]

**Mr. McNulty:** Europol has a role to play in combating terrorism across the EU by providing support to the European law enforcement community through their research and analysis capability. By member states providing information to Europol on terrorist incidents, member states can assist that organisation to analyse and identify trends and possible terrorist threats within the EU. It also enables Europol to provide alerts to the law enforcement agencies throughout Europe.

The provision of terrorist incident data to Europol by the law enforcement community also allows them through their analysis of all data they receive, to identify any association or connection between a terrorist suspect and other possible suspects based elsewhere in Europe. Again, Europol must advise national law enforcement of any cross-match identifications.

The Government remain clear that only UK counter-terrorism agencies have an operational and investigative remit but the UK's overall counter-terrorism capacity is strengthened by our close collaboration with international partners including Europol.

The Bureau de Liaison network is a stable and reliable means of exchange of information. All member states, as well as the General Secretariat, Commission and Europol are linked to the liaison office network.

### Terrorism: Detainees

**Mr. David Hamilton:** To ask the Secretary of State for the Home Department what research she has *(a)* commissioned and *(b)* evaluated on periods of detention without charge in relation to counter-terrorism in other EU member states. [164009]

**Mr. McNulty:** My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs published a document entitled "Counter-Terrorism Legislation and Practice: A Survey of Selected Countries" in October 2005. This can be found at:

www.fco.gov.uk/Files/kfile/QSpercent20Draftpercent2010percent20FINAL1.pdf

We remain informed on the counter-terrorism legislative systems of other European Union countries.

### Terrorism: Expenditure

**Mr. Ellwood:** To ask the Secretary of State for the Home Department how much was spent on combating terrorism in the UK in each of the last five years. [166492]

**Mr. McNulty** *[holding answer 20 November 2007]:* Details of the Home Office's spending on counter-terrorism and intelligence in each of the last five years are set out in Chapter 5 of the 2007 Departmental Report, which can be found on the Home Office website at the following address:

http://www.homeoffice.gov.uk/documents/ho-annual-report-07?version=1

Further information on total Government spending on counter-terrorism is not held by the Home Office.

### Yarl's Wood Immigration Removal Centre

**Ms Abbott:** To ask the Secretary of State for the Home Department how many social workers are working at Yarl's Wood Immigration Removal Centre; how many days they spend a week at the centre; and if she will make a statement. [172634]

**Mr. Byrne:** There are two social workers, employed by Bedford county council, who work mainly at Yarl's Wood Immigration Removal Centre. They work core office hours from Monday to Friday, spending the majority of their time at the centre.

### Young People

**Mr. Hayes:** To ask the Secretary of State for the Home Department how many staff aged between 16 and 18 were employed by her Department *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by her Department. [171271]

**Mr. Byrne:** We are unable to provide data before April 2004 without incurring a disproportionate cost. This is due to a change in the databases used to store and collect staff data in 2004; data before this period are held on the old system.

The following tables show the number of staff aged 16 to 18 that were recruited either directly or through an agency by the Home Office and the Border and Immigration Agency since 31 March 2005.

*1 April 2004 to 31 March 2005*

*Number*

| | *Age 16* | *Age 17* | *Age 18* |
|---|---|---|---|
| BIA Permanent | 0 | 0 | 0 |
| BIA Agency | 0 | 0 | 0 |
| HO Permanent | 0 | 1 | 5 |
| HO Agency | 0 | 0 | 0 |

*1 April 2005 to 31 March 2006*

*Number*

| | *Age 16* | *Age 17* | *Age 18* |
|---|---|---|---|
| BIA Permanent | 0 | 0 | 7 |
| BIA Agency | 0 | 0 | 12 |
| HO Permanent | 1 | 1 | 4 |
| HO Agency | 0 | 0 | 0 |

*1 April 2005 to 31 March 2007*

*Number*

| | *Age 16* | *Age 17* | *Age 18* |
|---|---|---|---|
| BIA Permanent | 0 | 22 | 41 |
| BIA Agency | 0 | 5 | 31 |
| HO Permanent | 0 | 2 | 1 |
| HO Agency | 0 | 0 | 0 |

The Identity and Passport Service (IPS) is unable to provide information on how many staff it employs aged between 16 and 18 years, directly or through recruitment agencies in each of the last 10 years as the personnel management system is inaccessible due to updating during the target period for this question and the records are not held manually.

The Criminal Records Bureau has been in existence only since 2002. Its records show that it has not employed anyone between the ages of 16 and 18.

In answer to the second part of the question regarding training it is not possible to supply data without incurring a disproportionate cost.

We do not routinely invest in training temporary staff beyond the basic need for the post for which they are recruited.

## DUCHY OF LANCASTER

### Central Office of Information: Publications

**Mr. Maude:** To ask the Chancellor of the Duchy of Lancaster when the Cabinet Office first published the Central Office of Information's White Book; when publication of the next edition is planned; and for what reasons the Trades Union Congress is listed in the current edition. [171385]

**Edward Miliband:** The White Book was first published in 1978. The next edition will be published in February 2008.

The White Book contains details of a wide range of information contacts in Government Departments and in many other bodies with which Government deals, including organisations such as the CBI, the BBC and Ofcom. The Trades Union Congress is included as a body that comes under this broad category and has been listed since 1994.

### Data Protection

**Mr. Dai Davies:** To ask the Chancellor of the Duchy of Lancaster what steps have been taken to establish dark tunnel transfer of sensitive data between Government Departments, agencies and non-departmental public bodies. [168612]

**Gillian Merron:** Government Departments and a number of their agencies and non-departmental public bodies have access to the Government Secure Intranet (Gsi); x-Gsi and the Intelligence Management Network for electronic communication among themselves.

### Iraq Conflict

**Mr. Keith Simpson:** To ask the Chancellor of the Duchy of Lancaster how many studies by the Cabinet Office have been *(a)* started and *(b)* completed into the Iraq war and lessons learnt; and if he will place copies of each in the Library. [169783]

**Edward Miliband:** This is a matter for the Ministry of Defence. I refer the hon. Member to the answer given to him on 19 November 2007, *Official Report*, column 480W, by my right hon. Friend the Secretary of State for Defence.

### Millennium Volunteers Programme

**Greg Clark:** To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 December 2007, *Official Report*, column 849W, on the Millennium Volunteers programme, which of the first 18 organisations listed *(a)* did not make an application and *(b)* were unsuccessful at the expression of interest stage. [172645]

**Phil Hope:** The organisations that did not submit an application are:

1. Barnsley metropolitan borough council
2. Doncaster metropolitan borough council
3. Family Education Development Trust
4. Leeds college of technology
5. Nottingham city council
6. Youth Voice
7. Hackney Voluntary Action

The following organisations were unsuccessful in applying for funding at expression of interest stage:

8. CEDAR Projects
9. Dearne Valley Venture
10. Henshaws Society for Blind People
11. Read on Write Away
12. Sports Volunteering North West
13. Stoke on Trent college
14. Student Community Action Newcastle (SCAN)
15. Studentforce for Sustainability
16. Torridge Voluntary Services
17. Wandsworth Voluntary Sector Development Agency
18. Wycombe Youth Action

## CULTURE, MEDIA AND SPORT

### Licensing Act: Town Centres

10. **Anne Milton:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the Licensing Act 2003 on town centres. [172206]

**James Purnell:** I refer the hon. Member to the answer I gave earlier.

15. **Mr. Mackay:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the Licensing Act 2003 on town centres. [172211]

**James Purnell:** I refer the right hon. Member to the answer I gave earlier.

### Access to the Arts

11. **Christine Russell:** To ask the Secretary of State for Culture, Media and Sport what steps he is taking to improve access for young people to arts and culture. [172207]

**James Purnell:** We are committed to giving young people access to high quality cultural activities.

We continue to make significant investment in this area. For example, the Government recently announced a total investment of £332 million in school music over the next three years.

Building on this, in the forthcoming Children's Plan we will set out the steps we will take to give all young people access to five hours of culture a week, in and out of the curriculum.

### Licensing Act 2003

12. **Mr. Robathan:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effects of the Licensing Act 2003. [172208]

**James Purnell:** As the Prime Minister reiterated in July, we are monitoring and reviewing the impact of the Act and have been since it came into force. We expect to complete an evaluation of the impact of the Act in the new year.

### Gambling

13. **Mr. David Jones:** To ask the Secretary of State for Culture, Media and Sport what assessment his Department has made of the effects of internet gaming on problem gambling. [172209]

**Mr. Sutcliffe:** The British Gambling Prevalence Survey 2007 found that 6 per cent. of the adult population has used the internet to gamble in the last year and the total level of problem gambling remains at 0.6 per cent. The Gambling Commission is commissioning further analysis of these findings. I have also asked it to undertake a review of the level of funding and structures for problem gambling research, education and treatment.

### Seaside Towns

14. **Mr. Marsden:** To ask the Secretary of State for Culture, Media and Sport if he will make a statement on Government policy on heritage and regeneration in seaside towns. [172210]

**Margaret Hodge:** My right hon. Friend the Secretary of State announced a new funding programme for coastal resorts last week.

This will see £45 million of investment over three years to help regeneration through heritage and culture.

### Commonwealth Games: Glasgow

16. **John Robertson:** To ask the Secretary of State for Culture, Media and Sport what support he will provide for the 2014 Commonwealth Games in Glasgow. [172212]

**Mr. Sutcliffe:** We are committed to working with the organising company and the Scottish Executive to ensure a successful Commonwealth games in 2014. The UK Government have already provided a number of guarantees to the bid team including agreement in principle to a ban on unauthorised ticket resale for the games to extend to England and Wales.

The Secretary of State has also proposed a regular quadripartite meeting between representatives of the UK Government and the bid partners with a view to determining how the UK Government can offer support to the Glasgow games in reserved policy areas included in the bid document.

### Live Music

17. **Mr. Whittingdale:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effects of the Licensing Act 2003 on the performance of live music. [172213]

**Mr. Sutcliffe:** My Department established the Live Music Forum in 2004 to assess, among other things, the impact of the Licensing Act 2003 on the performance of live music. In its report and recommendations, published in July 2007, the forum concluded that the impact of the Act had been broadly neutral. The results of the second stage of our own research study into the current provision of live music will be published on the Department's website later this month.

### Community Regeneration

18. **Mr. Allen:** To ask the Secretary of State for Culture, Media and Sport what discussions he has had with Sport England on the contribution of sport to community regeneration; and if he will make a statement. [172214]

**Mr. Sutcliffe:** I have had no specific discussions with Sport England on this subject.

However I have recently discussed with them how they will develop a new strategy to become more focused on building a world class community sports infrastructure through excellent clubs, coaches and volunteers for all.

Sport is a key player in a number of areas of community social regeneration. Sports projects can have a significant impact by breaking down barriers and providing positive opportunities for people to mix with others. Sport can also help reduce crime and antisocial behaviour; and increase peoples' levels of trust and community involvement.

### Mountaineering

19. **John Mann:** To ask the Secretary of State for Culture, Media and Sport what financial and other support his Department provides to British mountaineering. [172215]

**Mr. Sutcliffe:** Between 2005-08, Sport England will have invested almost £635,000 of Lottery and Exchequer funding in the British Mountaineering Council, the national governing body for mountaineering.

In addition, Sport England provides over £1 million per annum towards the Plas-y-Brenin National Mountain Centre in Wales, one of its five national sports centres across the UK; and over £20,000 per annum to the British Mountaineering Council as a management fee for the operation of Harrisons Rocks in Kent.

UK Sport has also given over £145,000 in funding to British mountaineering during 2005-08 to contribute to expeditions and the Mountain Leaders Training UK.

### Video Games

20. **Paul Rowen:** To ask the Secretary of State for Culture, Media and Sport if he will review the classification system of video games with a view to bringing forward proposals for its improvement. [172216]

**Margaret Hodge:** Dr. Tanya Byron is currently conducting a review into children's access to potentially harmful or inappropriate content on the internet and in video games.

This review will assess the effectiveness and adequacy of existing measures in place and make recommendations for improvements or additional action.

Consideration of any need to review the existing classification system will await Dr. Byron's recommendations, which are expected in March next year. We would not want to prejudge those recommendations.

### Anti-Semitism

**Mr. Amess:** To ask the Secretary of State for Culture, Media and Sport which Ministers from his Department attended the cross-Government working group on anti-Semitism on 11 October; and if he will make a statement. [172410]

**Mr. Sutcliffe:** No Ministers attended the meeting on 11 October 2007.

**Mr. Amess:** To ask the Secretary of State for Culture, Media and Sport how many officials from his Department attended the cross-government working group on anti-Semitism on 11 October, broken down by grade; and if he will make a statement. [172409]

**Mr. Sutcliffe:** My Department contributed fully to consideration of the recommendations of the All-Party Inquiry into Anti-Semitism, including attendance by one official at one of the two meetings of the officials' working group convened to consider the Government's response, which was published on 29 March 2007 (Cm 7059). No officials attended the meeting on 11 October 2007.

### Arts: Finance

**Mr. Vaizey:** To ask the Secretary of State for Culture, Media and Sport with reference to his answer to the hon. Member for South-West Surrey (Mr. Hunt) of 23 October 2007, *Official Report*, columns 204-06W, on arts: finance, how the total figures allocated for spending on *(a)* the arts and *(b)* heritage by his Department are calculated. [171784]

**Margaret Hodge:** The figures provided in answer to the hon. Member for South-West Surrey's (Mr. Hunt) parliamentary question were extracted from the Department for Culture, Media and Sport's Audited Appropriation Accounts and Resource Accounts for the years in question. Using the Voted Parliamentary Estimate lines we consolidated the data under the specific headings and then adjusted them to 2007-08 prices using the GDP deflators provided by HM Treasury.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Culture, Media and Sport how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172250]

**Mr. Sutcliffe:** DCMS is committed to achieving work force reductions of 27 posts by the end of 2007-08. This is a net target and no posts will be reallocated to the frontline as part of it.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for Culture, Media and Sport if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170237]

**Mr. Sutcliffe:** DCMS does not produce new editions of its guidelines annually so there are no such costs.

The Department has 0.5 full-time equivalent staff responsible for brand management and marketing at an annual cost of £13,000.

The Department will deposit a copy of its guidelines in the Library.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Culture, Media and Sport whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibit the assignment of debt. [172322]

**Mr. Sutcliffe:** The DCMS when using standard terms and conditions in the procurement of goods and services from the private sector includes a standard clause that prohibits the assignment of debt.

### Departmental Reviews

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department is (i) responsible for and (ii) scheduled to undertake; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [169500]

**Margaret Hodge:** Details of current and scheduled consultations, reviews and taskforces in my Department are summarised in the following table.

| Name | Type (review, taskforce, consultation) | Start date | Scheduled completion | Purpose |
|---|---|---|---|---|
| *Current* | | | | |
| Consultation on draft regulations for museums on the publication of information about cultural objects on loan under part 6 of the Tribunals, Courts and Enforcement Act 2007 | Consultation | 21 September 2007 | 21 December 2007 | To invite comments on the content of draft regulations for museums on the publication of information about cultural objects they intend to borrow from abroad for temporary exhibitions and which will be immune from seizure under part 6 of the Tribunals, Courts and Enforcement Act 2007. The consultation also invites views on how far in advance museums should be required to publish the information |
| Consultation on proposal to introduce a simplified process for minor variations to premises licences and club premises certificates | Consultation | 28 November 2007 | 20 February 2008 | To reduce the administrative burden on applicants for making small alterations to premises licences or club premises certificates under the Licensing Act 2003, where those changes will have no impact on the statutory licensing objectives. This is expected to result in cost savings to licence holders of £1.5 - £2.8 million |
| Byron Review | Review reporting jointly to DCMS and the Department for Children, Schools and Families | September 2007 | March 2008 | The aim of the review is to assess the risk to children of exposure to harmful or inappropriate material online and in video games, to assess existing measures of protection and explore what changes or additional actions should be taken |
| McMaster Review of Excellence in the Arts | Review | August 2007 | December 2007 | To consider:<br>How the system of public sector support for the arts can encourage excellence, risk taking and innovation<br>How artistic excellence can encourage wider and deeper engagement with the arts by audiences<br>How to establish a light touch and non-bureaucratic method to judge the quality of the arts in the future |
| Sport England Review | Review | 28 November 2007 | End December 2007 | To review how Sport England will deliver a world-class sporting infrastructure of excellent sports clubs, coaches and volunteers to sustain and increase participation and develop people's talent |
| Regional Work of Public Bodies | Review | 12 November 2007 | Mid-January 2008 | To highlight areas for collaborative working, and identify opportunities for improving the effectiveness and efficiency of the regional presence |

| *Name* | *Type (review, taskforce, consultation)* | *Start date* | *Scheduled completion* | *Purpose* |
|---|---|---|---|---|
| World Heritage Review | Review | March 2007 | March 2008 | To determine our future approach to identifying, protecting, managing and promoting World Heritage Sites in the UK, its Crown Dependencies and Overseas Territories |
| Convergence Think Tank | Taskforce | Early 2008 | Late 2008 | To consider the policy implications of convergence in broadcasting and communications |
| Creative and Cultural Education Advisory Board | Taskforce | November 2006 | December 2007 | To construct a more coherent creativity and culture offer that builds strong connections between existing work and the emerging policy contexts |
| Digital Radio Working Group | Taskforce | Early 2008 | December 2008 | To consider the future of digital radio in the UK |
| *Scheduled* | | | | |
| AVMS Directive | Consultation | To be confirmed | To be confirmed | Implementation of certain areas of the new directive by December 2009 |

### Film: Industrial Action

**Mr. Evennett:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the impact of strikes by the Writers Guild of America on the British film industry. [171027]

**Margaret Hodge:** The Department has not made a formal assessment but will continue to monitor the situation closely.

### Football: Corruption

**Dr. Kumar:** To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of levels of corruption in football; and if he will make a statement. [171954]

**Mr. Sutcliffe:** We have been clear that the football authorities and clubs must demonstrate modern, competent governance and financial transparency if they are to protect the future integrity of the game.

Good progress has been made and I welcome the introduction of the semi-autonomous Football Regulatory Authority (FRA), the fit and proper persons test for club directors and the FA's revised agents regulations which seek to prevent dual representation and other potential conflicts of interest.

I also welcome Lord Stevens' recent inquiry into transfer dealings and fully support football authorities and City of London police in their on-going investigations in this area.

The Government are committed to ensuring that all clubs are run in the best possible way and can remain a focal point of their local community.

We have invested substantially in Supporters Direct to ensure fans have a central role in this process.

### Licensing Act 2003

**Mr. Hollobone:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the provisions of the Licensing Act 2003 on town centres. [172399]

**James Purnell:** I refer the hon. Member to the answer I gave earlier today.

### Members: Correspondence

**Mr. Burns:** To ask the Secretary of State for Culture, Media and Sport when he expects to respond to the letter from the hon. Member for West Chelmsford of 16 August on his constituent, Mr. C. Metcalf (Ref. 79811); and what the reasons are for the time taken to reply. [171776]

**Mr. Sutcliffe:** I plan to facilitate a meeting with key representatives of Ice Hockey early in the new year to discuss issues challenging the sport and the way forward. I will respond to the letter from the hon. Member for West Chelmsford in the near future.

### Museums: Finance

**Mr. Vaizey:** To ask the Secretary of State for Culture, Media and Sport how much was paid to museums sponsored by his Department in each year since the introduction of free admission in 2007-08 prices. [171783]

**Margaret Hodge:** The total amounts paid to the 22 museums sponsored by the Department at 2007-08 prices are shown in the table. Free admission for all was introduced in December 2001.

| | *Amount (£ million)* |
|---|---|
| 2001-02 | 287.21 |
| 2002-03 | 305.68 |
| 2003-04 | 309.65 |
| 2004-05 | 308.33 |
| 2005-06 | 313.35 |
| 2006-07 | 328.86 |
| 2007-08 | 340.30 |

## Olympic Games 2012: Finance

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport what proportion of Olympics Legacy Trust funding will be spent on *(a)* cultural activities and *(b)* sporting activities. [172081]

**James Purnell:** The £40 million endowment for the Legacy Trust is made up of a £6 million grant from DCMS, £5 million from Arts Council England (ACE), £5 million from the Big Lottery Fund (BiG), and £24 million from the Millennium Commission (which has since been transferred to BiG). In its bid for this endowment, the Legacy Trust stated its aim is to spend approximately *(a)* 70 per cent. of its funding on cultural projects and *(b)* 30 per cent. on sporting projects. The trust also stated its aim to support programmes, where possible, that span both arts and sport.

The trust plans to support a small number of national programmes, including the UK School Games, a schools cultural programme, and the World Festival of Youth Culture (working title). There will be one further UK-wide programme (currently under discussion) which will focus on a cultural theme with specific communities and volunteering elements.

The remainder of the endowment (approximately 50 per cent.) will be distributed throughout the three nations (Scotland, Wales and Northern Ireland) and nine English regions. The ideas for programmes will come from the regions and nations themselves, but the trust is advising them that they should broadly aim for a 70 per cent. culture and 30 per cent. sport split.

While the trust will focus on culture and sport, it is within its remit to support programmes that could be classified as education or physical activity (well being), and to use culture and sport to raise issues of environmental sustainability.

## Olympic Games 2012: Private Sector

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how much he expects the private sector to contribute to the Olympics Legacy Trust. [172080]

**James Purnell:** The £40 million endowment for the Legacy Trust is made up of a £6 million grant from DCMS, £5 million from Arts Council England (ACE), £5 million from the Big Lottery Fund (BiG), and £24 million from the Millennium Commission (which has since been transferred to BiG). The aim is to double the endowment to £80 million by 2012.

In the fundraising strategy in its bid for the endowment, the Trust set out the definition of doubling the £40 million endowment to £80 million not just on a cash basis, but via the leveraging of in-kind assistance.

The budget in the fundraising strategy, showing where the Trust anticipates the additional £40 million coming from, is as follows:

| | *£ million* |
|---|---|
| Trusts/Foundations | 10 |
| Public Sector/Government | 15 |
| Business/Commerce | 15 |

## Opera: Finance

**Jeff Ennis:** To ask the Secretary of State for Culture, Media and Sport what the highest award is that the Arts Council for England granted to an amateur operatic society in each of the last five years. [171919]

**Margaret Hodge:** The figures are as follows:

| | *Amateur operatic society* | *Grant (£)* |
|---|---|---|
| 2003-04 | Dorset Opera | 5,000 |
| 2004-05 | Opera in the Orchard | 4,840 |
| 2005-06 | Dorset Opera | 5,000 |
| 2006-07 | Opera Minima | 5,000 |
| 2007-08 (to November 2007) | Dorset Opera | 9,000 |

Applicant organisations self-define their status as amateur or professional on the Arts Council's application form.

## Regional Development Agencies: Finance

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport what funding his Department is providing to each of the regional development agencies in 2007-08. [172182]

**Mr. Sutcliffe:** The Department for Culture, Media and Sport's contribution towards the funding of regional development agencies (RDAs) is £3.6 million for 2007-08. We are unable to disaggregate the DCMS total to each RDA, as once contributions from Government Departments go into the RDAs' single programme budget, it is not ring-fenced for particular sectors, but is available to the RDAs to spend as they see fit to achieve the regional priorities identified in their regional economic strategies and the targets set by them in their corporate plans.

## Sports: Schools

**Mr. Bone:** To ask the Secretary of State for Culture, Media and Sport what percentage of state-funded secondary schools play competitive cricket. [172346]

**Mr. Sutcliffe:** The school sport survey does not provide data on competition for individual sports. However, we are able to provide the following information:

The 2006-07 school sport survey shows that 98 per cent. of secondary schools offer cricket to their pupils and 77 per cent. of secondary schools have links to a local cricket club.

### Sports: Summertime

**Mr. Yeo:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the potential effect on participation in sport and outdoor recreation of introducing British Summer Time in winter and double British Summer Time in summer. [172342]

**Mr. Sutcliffe:** We have not carried out research to assess the potential effect of introducing British Summer Time in winter and double British Summer Time in summer on participation rates in sport and outdoor recreation.

### Sports: Young People

**Andrew Rosindell:** To ask the Secretary of State for Culture, Media and Sport what initiatives and programmes are in place to encourage the development of rowing facilities and encourage the sport among young people before the London 2012 Olympics. [172196]

**Mr. Sutcliffe:** The Amateur Rowing Association is one of the 25 national governing bodies of sport which help to deliver the Step into Sport and Club Links workstrands of the National School Sport Strategy. The National School Sport Survey 2006-07 demonstrated that 7 per cent. of schools offered rowing and 3 per cent. of schools had a link with a rowing club.

Since 2003, Sport England has allocated over £3.2 million of Community Club Development Programme funding to the Amateur Rowing Association to help community sports clubs to develop or redevelop their sports facilities.

### Television: Licensing

**James Duddridge:** To ask the Secretary of State for Culture, Media and Sport (1) what representations he has received on the continuation of black and white television licences after digital switchover; [169323]

(2) whether the black and white television licence will continue in place *(a)* before, *(b)* during and *(c)* after digital switchover. [169325]

**James Purnell:** Continuation of the black and white TV licence after digital switchover has occasionally been referred to in correspondence. Under the current regulations a black and white licence covers a digital set top box installed and used solely in conjunction with a television set or monitor able to display television programmes in black or white only. We have no plans to change this.

**James Duddridge:** To ask the Secretary of State for Culture, Media and Sport how many *(a)* black and white and *(b)* colour television licences were issued in each year since 2000. [169324]

**James Purnell:** The number of *(a)* black and white and *(b)* colour television licences in force at March of each year was as follows:

| | *Black and white* | *Colour* |
|---|---|---|
| 2000 | 212,625 | 22,474,018 |
| 2001 | 155,070 | 22,765,568 |
| 2002 | 117,622 | 23,121,842 |
| 2003 | 93,834 | 23,461,130 |
| 2004 | 75,011 | 23,858,786 |
| 2005 | 58,664 | 24,204,055 |
| 2006 | 49,295 | 24,437,516 |
| 2007 | 40,758 | 24,560,034 |

*Note:*
The figure for 2007 is provisional and will be subject to change until March 2008.

### Tourism: Floods

**Miss McIntosh:** To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the cost of the floods in the summer of 2007 to the tourism industry. [169855]

**Margaret Hodge:** Full estimates of the costs of the flooding to the national tourism industry will not be possible until statistics on domestic holidays and day trips for the whole of 2007 are available next year.

The Southwest and West Midlands Development Agencies have recently commissioned research on the economic costs of the flooding, to include the costs to the tourism industries of these regions.

### VisitBritain

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport how much his Department has allocated to VisitBritain in 2007-08. [172597]

**Margaret Hodge:** DCMS has allocated grant-in-aid of £50.65 million to VisitBritain for 2007-08. This includes £750,000 in additional funding for domestic marketing support following the summer's flooding, and £300,000 for capital expenditure.

### Wombwell and District Amateur Operatic Society: Finance

**Jeff Ennis:** To ask the Secretary of State for Culture, Media and Sport how much grant aid Arts Council England awarded to the Wombwell and District Amateur Operatic Society in each of the last five years. [171920]

**Margaret Hodge:** Arts Council England has not awarded a grant to the Wombwell and District Amateur Operatic Society in the last five years.

## COMMUNITIES AND LOCAL GOVERNMENT

### Business: Non-domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the presence of fire sprinklers is taken into account in business rate valuations. [171589]

**John Healey:** I refer the hon. Member to the answer given to the hon. Member for Surrey Heath (Michael Gove) on 21 March 2007, *Official Report*, columns 991-92W.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect of supplementary business rates on the take up of business improvement districts. [171596]

**John Healey:** It will be for individual local authorities, in developing proposals for business rate supplements, to consider the potential impact on local business and on business improvement districts (BIDs). This will include considering whether there should be an offset for ratepayers contributing to BIDs. Such decisions will need to be determined locally, as circumstances, including potential benefits to be derived from a business rate supplement and BID activities, will depend on the particular case concerned.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether a wall-mounted satellite dish is taken into account in the assessment of a business property for business rate purposes. [171586]

**John Healey:** The installation of a wall-mounted satellite dish does not affect a property's rateable value because it is not an item named in The Valuation for Rating (Plant and Machinery) (England) Regulations 2000 (SI 2000 No. 540) and is not, as a consequence, rateable.

### Citizenship: Education

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government what progress has been made in preparing and disseminating guidance for teaching materials to be used in citizenship courses in madrassahs; and what the uptake of such material has been amongst the UK's madrassahs. [169614]

**Mr. Dhanda:** Muslim communities in a number of areas have pioneered the development of citizenship programmes in madrassahs, most notably the Nasiha project in Bradford. Like other supplementary schools madrassahs are not specifically regulated. Therefore, we do not have a definitive account of the number of madrassahs that have implemented citizenship curricula. Communities and Local Government and the Department for Children, Schools and Families are working with Muslim communities to develop a programme of work to identify and disseminate good practice and facilitate increased take-up.

### Climate Change

**Lembit Öpik:** To ask the Secretary of State for Communities and Local Government when the Climate Change planning Policy Statement will be published. [165210]

**Yvette Cooper:** I refer the hon. Member to the answer given to the hon. Member for Bexhill and Battle (Gregory Barker) on 24 October 2007, *Official Report*, column 376W.

**Rob Marris:** To ask the Secretary of State for Communities and Local Government what steps her Department *(a)* has taken and *(b)* intends to take by (i) 2012 and (ii) 2020 in relation to adaptation to the effects of climate change as they affect her departmental responsibilities; and if she will make a statement. [166421]

**Mr. Dhanda** *[holding answer 6 December 2007]:* My Department has taken a number of steps to build adaptation to the effects of climate change into its policies. These include:

Water scarcity—announcing regulations to be introduced on the water efficiency of new homes;

Flood risk—publishing Planning Policy Statement 25: Development and Flood Risk, and publishing guidance on resilient construction. PPS25 is an important part of climate change adaptation policy, providing a risk-based approach to managing future changes in flood risk to new development due to climate change;

Overheating—Limiting temperature rise by controlling the effects of solar gain through passive measures is one of the five main criteria that have to be met to comply with the energy efficiency requirements of the Building Regulations for new homes. To help limit the reliance for air conditioning due to hotter summers new homes will need to be designed with both hot and cold weather in mind if they are to be zero carbon;

Planning—publishing a draft Planning Policy Statement: Planning and Climate Change, which is due to be finalised shortly, and including a duty on planning authorities in relation to climate change in the Planning Reform Bill;

Local Government—consulting on an indicator on climate change adaptation, to be included in the new Local Government Performance Framework;

Emergency response—publishing guidance to the Fire and Rescue Service on responding to the effects of climate change;

Existing buildings—work with the London Climate Change Partnership and the three regions (London, South East, East of England) exploring what needs to happen to homes for purposes of adaptation and resilience.

The Department will be working with Whitehall on the development of a cross-Government Adaptation Framework, due for publication in the spring.

The Climate Change Bill, once enacted, will require Government to report at least every five years on current and predicted impacts of climate change and on its proposals and policy for adapting to these. The Department will consider and address the risks that climate change presents to its policies and programmes as part of that process.

### Community Relations: Christmas

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) what guidance and advice she has provided public authorities on celebrating Christmas in a manner conducive to promoting community cohesion; [171556]

(2) what guidance *(a)* her Department and *(b)* its agencies have given to local authorities on celebrating Christmas; and if she will make a statement. [171561]

**Mr. Dhanda:** Communities and Local Government has not provided guidance to local authorities on celebrating Christmas.

### Council Tax

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what proportion of those eligible to vote in local elections have *(a)* full and *(b)* partial liability for council tax. [171631]

**John Healey:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Council Tax: Empty Property

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans she has to commission research on the council tax discount on empty properties. [171594]

**John Healey:** Communities and Local Government shortly expects to commission researchers to investigate the extent to which local authorities are exercising their discretionary council tax power in respect of long-term empty homes and the impact this has had.

### Council Tax: Valuation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what *(a)* qualitative and *(b)* quantitative research the Office of the Deputy Prime Minister commissioned in relation to council tax revaluations prior to the discontinuance of that Office. [171720]

**John Healey:** None.

### Departmental Foreign Workers

**David Simpson:** To ask the Secretary of State for Communities and Local Government how many *(a)* EU foreign nationals and *(b)* non EU foreign nationals are employed by her Department. [168112]

**Mr. Dhanda:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Departmental Publicity

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the guidelines issued to staff maintaining her Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170238]

**Mr. Dhanda:** The corporate identity guidelines for Communities and Local Government are an evolving document available to staff through the Department's intranet. I have placed a copy of the relevant pages in the Library of the House.

For costs relating to corporate identity, I refer the hon. Member to the answers I gave him today to PQs 167310 and 167352.

Information for our agencies is not held centrally and could be provided only at disproportionate cost.

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government how many full-time equivalent staff are responsible for brand management and marketing in her Department and its agencies. [165232]

**Mr. Dhanda:** The members of the Department's Communications directorate are listed in The White Book, published by COI, which is available in the Library of the House. Information for our agencies is not held centrally and could be provided only at disproportionate cost.

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government how much her Department and its agencies spent on staff working on *(a)* marketing and *(b)* branding in the last 12 month period for which figures are available. [167310]

**Mr. Dhanda:** In the financial year 2006-07 Communities and Local Government spent *(a)* £533,414.52 on staff working on publicity and *(b)* £35,474.96 on staff working on re-branding following machinery of government changes.

Figures for our agencies are not held centrally and could be provided only at disproportionate cost.

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government how much her Department and its agencies spent on managing their corporate identities in the last 12 month period for which figures are available. [167352]

**Mr. Dhanda:** I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 27 March 2007, *Official Report*, column 1420W. Information for our agencies is not held centrally and could be provided only at disproportionate cost.

### Departmental Standards

**Mr. Hoban:** To ask the Secretary of State for Communities and Local Government when she expects to publish her Department's autumn performance report. [164878]

**Mr. Dhanda:** We published the Departmental autumn performance report on 7 December. Copies are available in the Libraries of the House.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Communities and Local Government how much her Department spent on overnight accommodation for Ministers overseas in the last year. [171337]

**Mr. Dhanda:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the "Overseas Travel by Cabinet Ministers" list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the "Ministerial Code".

## Elderly People

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government if she will rank local authorities in order of those with the highest proportion of their populations aged 65 years and over; and if she will make a statement. [170875]

**Angela Eagle:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician, I have been asked to reply to your question asking for the rank of local authorities in order of those with the highest proportion of their populations aged 65 years and over. (170875)

The latest population estimates available are for mid-2006. The attached Table 1 shows the percentage of the population aged 65 and over by Local/ Unitary Authority.

Christchurch has the greatest proportion of the population aged 65 and over at 30%, whilst Tower Hamlets has the lowest proportion (8%).

*Table 1. Percentage of the population of local/unitary authorities in England and Wales aged 65 and over in mid-2006 in descending order*

## Elderly: Herefordshire

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the population of Herefordshire that are aged 65 years and over, in each year since 1997; and if she will make a statement. [170881]

**Angela Eagle:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician, I have been asked to reply to your question asking the estimate has been made of the population of Herefordshire aged 65 years and over in each year since 1997. (170881)

Table 1 shows the population aged 65 and over for Herefordshire for the years requested.

The latest population estimates available are for mid-2006.

*Table 1: Population aged 65 and over for Herefordshire*

| *Mid-year* | *65+* |
|---|---|
| 1997 | 32,000 |
| 1998 | 32,000 |
| 1999 | 33,000 |
| 2000 | 33,000 |
| 2001 | 34,000 |
| 2002 | 34,000 |
| 2003 | 35,000 |
| 2004 | 35,000 |
| 2005 | 36,000 |
| 2006 | 36,000 |

*Note:*
Data are rounded to the nearest 1,000.
*Source:*
Office for National Statistics.

## Emergency Services: Hampshire

**Mr. Hancock:** To ask the Secretary of State for Communities and Local Government what average fire and rescue appliance response times were in Hampshire in each year since 1997. [172315]

**Mr. Dhanda:** The following table shows the average response times taken by the fire and rescue services in Hampshire between 1997 and 2005, the most recent calendar year for which data are available. The table shows the time from the initial call to attendance, and the time from mobilisation to attendance (i.e. the actual driving time).

*Average response time to fires by brigade area and year of call, Hampshire, 1997 to 2005*[1,2,3]

*Minutes*

| | *First call to attendance* | *Mobilisation to attendance* |
|---|---|---|
| 1997 | 6.5 | 6.3 |
| 1998 | 6.7 | 6.2 |
| 1999 | 7.1 | 6.6 |
| 2000 | 6.9 | 6.3 |
| 2001 | 7.0 | 6.3 |
| 2002 | 7.0 | 5.8 |
| 2003 | 7.4 | 6.5 |
| 2004 | 7.4 | 6.2 |
| 2005 | 7.5 | 6.4 |

[1] Excluding late call and heat and smoke damage only incidents.
[2] Excluding incidents not recorded during periods of industrial action in 2002 and 2003.
[3] A small number of incidents with response time greater than an hour have been excluded so that results are not skewed by likely reporting errors.

### Empowerment Champions

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what she expects the *(a)* purpose, *(b)* function and *(c)* annual cost of the proposed empowerment champions to be. [171642]

**John Healey:** Eighteen local authorities are members of the network of empowerment champions. Their purpose is to promote effective empowerment practices so that they are more widely adopted. The function of the network is to achieve this by identifying effective practices, publicising them, and increasing their adoption through a peer learning programme. It will also enable network members to contribute to national learning from their experience. The network's activities will be supported by up to £500,000 a year.

### Empty Property

**Mr. Ruffley:** To ask the Secretary of State for Communities and Local Government how many empty properties there have been in each local authority area in the East of England in each year since 1997. [169961]

**Mr. Iain Wright:** I refer the hon. Member to the answer given today to my hon. Friend the Member for Pendle (Mr. Prentice). (PQ 166966).

**Mr. Gordon Prentice:** To ask the Secretary of State for Communities and Local Government how many empty domestic properties there were in each local authority area in England for the latest year for which figures are available. [166966]

**Mr. Iain Wright:** A table showing the number of vacant dwellings as reported by each local authority in England, at October 2006, has been placed in the Library of the House. The total vacancies and those vacant for longer than six months are presented. Figures are as reported by local authorities through the Council Tax Base (CTB1) form.

### Empty Property: Greater London

**Mr. Boris Johnson:** To ask the Secretary of State for Communities and Local Government what the vacancy rate was of *(a)* homes, *(b)* social rented homes and *(c)* commercial properties in each London borough in each of the last 10 years. [169815]

**Mr. Iain Wright:** Vacancy rates for *(a)* all dwellings and *(b)* social rent dwellings for each London borough since 1997 are presented in the following table. Vacancy rates include long-term vacancies (those empty for more than six months) and short-term vacancies.

*Vacancy rates of social rent housing (local authority plus registered social landlords) for London boroughs, 1997 to 2006*

| | | | | | | | | | | Percentage |
|---|---|---|---|---|---|---|---|---|---|---|
| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |

For 1997-2001 Housing Strategy Statistical Appendix as reported by local authorities

2002-06 Council tax base return from local authorities

Estimated vacancy rates for *(c)* commercial and industrial properties are available for 1998-99 to 2004-05 and are presented in the following table.

These estimated vacancy rates are derived from the amount of business rate relief given for empty and partially empty properties in each local authority as reported in financial returns to Communities and Local Government.

*Estimated vacancy rates of commercial and industrial property, London boroughs, 1998-99 to 2004-05*

*Percentage*

## First Time Buyers: Mortgages

**Mr. Boris Johnson:** To ask the Secretary of State for Communities and Local Government what proportion of first-time buyers in *(a)* London, *(b)* the South East and *(c)* England took out a mortgage with a repayment schedule expected to last more than (i) 20, (ii) 25, (iii) 30, (iv) 35, (v) 40 and (vi) 60 years in *(A)* 1997, *(B)* 2000, *(C)* 2003 and *(D)* 2006. [171820]

**Mr. Iain Wright:** The proportion of first-time buyers in London, South East and England that took out mortgages expected to last more than 20, 25, 30, 35, 40 and 60 years for 2006 is shown in the following table.

Data for 1997, 2000 and 2003 is unavailable.

*Proportion of FTBs that took out mortgages expected to last more than 20, 25, 30, 35, 40 and 60 years, 2006*

| | Greater than 20 | Greater than 25 | Greater than 30 | Greater than 35 | Greater than 40 | Greater than 60 |
|---|---|---|---|---|---|---|
| London | 90.13 | 19.47 | 4.71 | 0.31 | 0.00 | 0.00 |
| South East | 89.73 | 34.89 | 12.59 | 0.61 | 0.00 | 0.00 |
| England | 90.17 | 37.06 | 13.79 | 0.60 | 0.00 | 0.00 |

Communities and Local Government Statistical Releases: Green Belt Statistics, England 2006.

## Homelessness

**Grant Shapps:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of people in England who were *(a)* squatting, *(b)* facing eviction, *(c)* in temporary accommodation, *(d)* living in severe overcrowding and *(e)* staying with friends or family because they have no accommodation at the latest date for which figures are available. [165786]

**Mr. Iain Wright:** The information requested is as follows.

*Temporary accommodation*

Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level, in respect of households rather than people. Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. This data is published in our quarterly statistical release on Statutory Homelessness, available on our website and placed in the Library each quarter. The latest release was published on 10 September 2007 and contains data for the period April to June 2007:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/homelessnessstatistics/publicationshomelessness/

The latest figures show that there were 84,900 households in temporary accommodation in England on 30 June 2007. This is down from 101,000 in December 2004.

*Overcrowding*

Over the period 2003-04 to 2005-06 it is estimated, from Survey of English Housing figures, that there were 47,000 households in England living in severely overcrowded conditions.

The benchmark for assessing whether or not a household is overcrowded or severely overcrowded is the Bedroom Standard. This is determined for each household in accordance with its age/sex/marital status composition and the relationship of the members to one another. A separate bedroom is required:

for each married or cohabiting couple;

for any other person aged 21 or over;

for each pair of adolescents aged 10-20 of the same sex;

for each pair of children under 10.

Further, any unpaired person aged 10-20 is paired, if possible with a child under 10 of the same sex, or, if that is not possible, he or she is counted as requiring a separate bedroom, as is any unpaired child under 10.

This standard is then compared with the actual number of bedrooms (including bed-sitters) available for the sole use of the household. Bedrooms converted to other uses are not counted as available unless they have been denoted as bedrooms by the residents. Bedrooms not actually in use are counted unless uninhabitable.

If a household has fewer bedrooms than implied by the standard then it is deemed to be 'overcrowded'. Since one bedroom will be sufficient for single person households and for married/cohabiting couples, these households cannot be overcrowded according to the bedroom standard. If a household has two or more bedrooms fewer than implied by the standard then it is deemed to be 'severely overcrowded'.

The Government are committed to addressing overcrowding and to updating the standards. We have already announced our intention to increase the numbers of affordable housing, including family sized social properties, to help to support a reduction in overcrowding.

*Households facing eviction*

Data from the Ministry of Justice indicate that in the year to 30 September 2007, there were 61,532 outright landlord orders. This figure should not be taken as an indication of how many households have been repossessed through the courts, since not all orders result in actual eviction.

No reliable information on the number of squatters, or people staying with family or friends because they have no accommodation, is collected centrally.

## Housing

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the reasons for the reduction in the number of new residential dwellings built on previously developed land in the last 12 months; and what proportion of new residential dwellings were built on previously developed land in *(a)* 2005 and *(b)* 2006 in (i) England and (ii) each Government Office Region. [171715]

**Mr. Iain Wright:** In 2006, on a provisional estimate, 74 per cent. of all new dwellings were built on previously developed ("brownfield") land, compared to 77 per cent. in 2005. The figures for each region and both years, including and excluding conversions of buildings into dwellings, can be seen in the following table.

Due to the way the data are collected, all statistics are subject to revision, and the 2006 statistics are marked as provisional because they are more susceptible to change. There is an inevitable time-lag between land use change occurring and it being recorded causing these revisions.

The statistics are the best estimates available; however the Department is constantly researching the figures to ensure they are as robust as possible.

No assessment has yet been made of this reduction. The target for development on previously developed land remains 60 per cent. and this is being achieved.

*New dwellings built on previously-developed land*

| | *Excluding conversions* | | *Including conversions* | |
|---|---|---|---|---|
| | *2005* | *2006*[1] | *2005* | *2006*[1] |
| North East | 69 | 71 | 71 | 72 |
| North West | 81 | 83 | 83 | 85 |
| Yorkshire and the Humber | 73 | 67 | 77 | 70 |

| South West | 62 | 58 | 67 | 63 |
| England | 74 | 72 | 77 | 74 |

[1] Provisional

*Notes:*

1. There is an inevitable time-lag between land use change occurring and it being recorded, therefore data are constantly being updated.

2. The data in the table are based on records received from Ordnance Survey up to June 2007, published in October 2007 in Land Use Change in England to 2006: Additional Tables LUCS-22A.

## Housing Market Pathfinder Programme

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government when her Department will respond to the most recent National Audit Office report on the Housing Market Pathfinder programme. [171503]

**Yvette Cooper:** The National Audit Office report has now been considered by the Public Accounts Committee, which will report in due course. The Government will then respond to its recommendations.

## Housing: Public Participation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of each of the responses from external organisations and individuals to the recent Housing Green Paper. [171509]

**Yvette Cooper:** As we indicated in the recent Housing Green Paper, my Department will publish a summary of responses to the consultation on the Green Paper in early 2008.

## Housing: Sales

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government (1) what projections she has made of the number of properties with two or more bedrooms to be made available to buy through *(a)* Social HomeBuy, *(b)* New Build HomeBuy, *(c)* Open Market HomeBuy and *(d)* the First Time Buyers Initiative in each of the next three financial years; [170355]

(2) what projections she has made of the number of homes to be made available to buy through *(a)* Social HomeBuy, *(b)* New Build HomeBuy, *(c)* Open Market HomeBuy and *(d)* the First Time Buyers Initiative in each of the next three financial years. [170356]

**Yvette Cooper:** As stated in our Housing Green Paper, we are aiming to provide at least 25,000 shared ownership and shared equity homes in each of the next three years.

Funding for housing is distributed between the Regions on the basis of an analysis of relative need which takes account of local authority need. Announcements as to the levels of funding to be made available for affordable housing for the next three years will be made shortly.

The funding is being made available to bids from both housing associations, developers and local authorities through the Housing Corporation's bidding round for the National Affordable Housing Programme. Investment in 2008-11 and completions and size of units will depend on the bids received by the Housing Corporation.

## Housing: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the Government's targets for new house-building in England were in each year since 1997-98. [171568]

**Mr. Iain Wright:** Detailed housing targets are not directly set by Government, but are set out in regional and local plans which are developed through regional and local planning processes. The Government set the overall strategy for housing supply in England. The 2003 Sustainable Communities Plan set out a target to increase housing supply from 900,000 to 1.1 million in the RPG9 area (the wider South East) over the course of the plan, and the Government's 2005 response to the Barker review of Housing Supply announced an ambition to increase housing supply in England from 150,000 to 200,000 per annum by 2016.

The Housing Green Paper, "Homes for the Future: more affordable, more sustainable" (CM 7191), published in July, set out a target to increase housing supply to 240,000 additional homes per annum by 2016.

## Institute for Public Policy Research: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what funding has *(a)* her Department and *(b)* its agencies provided to (a) the IPPR and (b) IPPR Ltd. in relation to community cohesion in the last 24 months; and for what projects. [171612]

**Mr. Dhanda:** Communities and Local Government has not commissioned work from IPPR on cohesion in the last 24 months. However, the Commission on Integration and Cohesion did. This was a thinkpiece about challenging attitudes, perceptions and myths, which informed their work and was published on their website. The Commission was funded by Communities and Local Government.

### Lee Valley Regional Park Authority

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the levy on authorities in *(a)* Essex, *(b)* Hertfordshire and *(c)* Greater London by the Lee Valley Regional Park Authority was (i) in cash terms and (ii) expressed as the average addition to a Band D council tax bill in each year since 1997-98. [171621]

**John Healey:** Details of the levy raised by the Lee Valley Regional Park Authority on authorities in Essex, Hertfordshire and Greater London, both in cash terms and expressed as the average addition to a Band D council tax bill in each year since 1997-98, are shown in the following tables. These data have been provided by the Lee Valley Regional Park Authority.

### Local Authorities

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government if she will publish the business plans developed by the six local authorities on her Department's opt out pilot and reports from the opt out pilot group. [168632]

**Mr. Iain Wright** *[holding answer 27 November 2007]:* The model business plans developed by the six local authorities who took part in the project to test the costs and benefits of operating outside the housing revenue account subsidy system contain material provided on a confidential basis and therefore will not be published. The project group is however preparing a report for publication which summarises its findings, including data from the model business plans, anonymised where appropriate.

### Local Authorities: Disclosure of Information

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what guidance she has given to the regional chambers on whether they are subject to environmental information regulations, by virtue of carrying out functions of public administration. [171504]

**John Healey:** Guidance on the general principles of voluntary designation was issued to Regional Assemblies by the Minister of Communities and Local Government on 29 March 2006. Paragraph 20 of that guidance states that

"Assemblies should also be mindful of their duties under the Environmental Information Regulations".

### Local Government Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the real terms percentage change in Government funding for local authorities, excluding education spending, was in each year since 1997-98. [171628]

**John Healey:** It is not possible to provide a figure for the amount of Government funding which has been provided for non-education expenditure because a significant proportion of expenditure was funded by Revenue Support Grant and redistributed non-domestic rates. These are not hypothecated to a particular service, and authorities are able to decide on their own spending priorities.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether revenue raised from the local authority business growth incentive scheme is ring-fenced. [171712]

**John Healey:** The Local Authority Business Growth Incentives scheme is designed to reward local authorities for increasing their business rateable value base by paying grant to authorities where business growth exceeds a certain level. Revenues under the scheme are not ring-fenced in any way.

The Government have published an issues paper on possible reforms to the scheme:

http://www.communities.gov.uk/publications/localgovernment/labgischemereforms

This seeks views from respondents on a wide-range of issues, including on ring-fencing of business growth incentives payments.

### Local Government Finance: Disabled People

**Mr. Harper:** To ask the Secretary of State for Communities and Local Government whether funding for the disabled facilities grant is included in the Local Government Finance Settlement. [168773]

**Mr. Iain Wright:** Funding for Disabled Facilities Grant (DFG) does not form part of the Local Government Finance Settlement. An announcement on funding for DFG will be made shortly.

### Local Government Network: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what payments her Department has made to the Local Government Network in the last 24 months. [171592]

**Mr. Dhanda:** None.

### Planning: Land Use

**Mr. Hancock:** To ask the Secretary of State for Communities and Local Government which areas of green belt she has earmarked for *(a)* development and *(b)* mitigation; and what areas of brownfield land she expects to be built on in the next 10 years. [165864]

**Yvette Cooper:** Local authorities, rather than the Secretary of State, have primary responsibility for planning and managing development in their areas. Local authorities are responsible for defining their green belt boundaries, in line with national policy, through their development plans. National Government policy on the green belt was confirmed in the Planning White Paper and Housing Green Paper. Government have set a national target that at least 60 per cent. of new housing development should be on brownfield land; currently around three quarters of housing development is on brownfield land.

### Planning: North West Region

**Helen Jones:** To ask the Secretary of State for Communities and Local Government if she will give guidance to the Government Office for the North West on liaison with hon. Members when major projects in their constituencies are under consideration by the Office. [172799]

**Mr. Dhanda:** Guidance is currently being prepared and will be circulated to all Government Office officials shortly.

### Planning: Public Participation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans she has to produce a summary of responses to the consultation on the recent Planning White Paper. [171507]

**Mr. Iain Wright:** Alongside her written statement and publication of the Planning Bill on 27 November, my right hon. Friend the Secretary of State published "Planning White Paper Consultation: Government response to consultation replies" which is a summary of consultation replies and the Government's response. The summary can be found on the Communities and Local Government website at:

http://www.communities.gov.uk/publications/planningandbuilding/pwpgovernmentresponse

### Planning: Renewable Energy

**Tom Brake:** To ask the Secretary of State for Communities and Local Government what representations she has received on maintaining the Merton Rule in the forthcoming Climate Change Planning Policy Statement. [164002]

**Yvette Cooper:** I refer the hon. Member to the answer given on 24 October 2007, *Official Report*, column 380W, to the hon. Member for Bexhill and Battle (Gregory Barker).

### Planning: Retail Trade

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans she has to review the needs test in planning guidance on out-of-town retail development. [171713]

**Mr. Iain Wright:** As set out in the "Planning White Paper Planning for a Sustainable Future" in May 2007, we are reviewing the current approach in "Planning Policy Statement 6: Planning for Town Centres" (PPS6) to assessing the impact of proposals outside town centres. We will replace the need and impact tests with a new test which has a strong focus on our town centre first policy, and which promotes competition and improves consumer choice, avoiding the unintended effects of the current need test.

It remains our intention to take forward our White Paper commitment, and to consult on revisions to PPS6 in the new year.

### Planning: Schools

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what planning guidance and circulars are in force in relation to planning permission for *(a)* new schools and *(b)* expansion of existing schools. [171593]

**Mr. Iain Wright:** Planning applications for the development of new schools or the expansion of existing schools need to take account of all of the Government's planning policies.

'Planning Policy Statement 1: Delivering Sustainable development', will be of key relevance. This sets out the Government's overarching planning policies on the delivery of sustainable development through the planning system and asks local authorities to promote socially inclusive communities by having policies which address accessibility for all members of the community to education, leisure and community facilities.

Other relevant policies include 'Planning Policy Guidance note 13: Transport' (PPG13), which sets out general policy on the location of a range of facilities and car parking provision, and 'Planning Policy Statement 7: Sustainable development in rural areas' (PPS7) which sets out the Government's policy on community services and facilities in rural areas, including schools. 'Planning Policy Guidance note 17: Planning for Open Space, Sport and Recreation' (PPG17) will also be of relevance as it relates to the planning for public and private sports facilities, playing fields and children's play areas. Circular 09/98: 'Town and Country Planning (playing fields) (England) Direction 1998' which relates to the loss of playing fields, whether for schools or for the wider community, will also be directly relevant.

### Population: Herefordshire

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government if she will break down the population of Herefordshire, by age group; and if she will make a statement. [170879]

**Angela Eagle:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 10 December 2007:*

The National Statistician has been asked to reply to your question asking for the breakdown of the population of Herefordshire by age group. I am replying in her absence. (170879)

Table 1 shows the population by quinary age group for Herefordshire for mid-2006. These are the latest population estimates available.

*Table 1: Mid-2006 population for Herefordshire UA, by quinary age group*

| *Age group* | *Thousand* *Population* |
|---|---|
| All Ages | 178 |
| 0 | 2 |
| 1-4 | 7 |
| 5-9 | 10 |
| 10-14 | 11 |
| 15-19 | 11 |
| 20-24 | 8 |
| 25-29 | 7 |
| 30-34 | 9 |
| 35-39 | 12 |
| 40-44 | 14 |
| 45-49 | 13 |
| 50-54 | 12 |
| 55-59 | 14 |
| 60-64 | 12 |
| 65-69 | 10 |
| 70-74 | 9 |
| 75-79 | 7 |
| 80-84 | 6 |
| 85-89 | 3 |
| 90+ | 2 |

*Note:*
Figures may not add due to rounding.

Office for National Statistics.

### Regional Development Agencies

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what powers local authorities will have in relation to the integrated regional strategies of regional development agencies. [171514]

**John Healey:** The review of sub-national economic development and regeneration published on 17 July makes it clear that regional development agencies will be expected to work closely with local authorities and other partners to develop single regional strategies.

The Government will be consulting on the detailed implementation of regional strategies early in 2008.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the *(a)* composition of the boards and *(b)* procedures used to select board members for regional development agencies will be amended following the transfer of responsibilities for regional housing and planning from regional assemblies. [171643]

**Mr. Timms:** I have been asked to reply.

RDA boards will remain business-led bodies. The expanded responsibilities of the RDAs as they assume their new role as the regional planning body, subject to parliamentary approval, will mean that the board will need to have a broader skills-set than at present. This will be reflected in specifications for appointments which are put out for consultation. RDA board appointments will continue to be made in accordance with the code on public appointments.

### Regional Government

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what research has been conducted into public *(a)* approval of regional government and *(b)* awareness and approval of Government Office regions. [171508]

**Mr. Dhanda:** The information requested is as follows.

*(a)* None by this Department or its predecessor, the Office of The Deputy Prime Minister.

*(b)* In 2005 the Government Offices commissioned a survey of stakeholders. This will be repeated in 2008. A copy of the 2005 survey results will be placed in the House of Commons Library.

### Rented Housing

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government when she expects to publish a summary and analysis of the responses to her Department's consultation on the Mechanism for Setting Guideline Rents in Housing Revenue Account subsidy 2008-09 and 2009-10. [164191]

**Yvette Cooper:** The summary and analysis of responses to the August 2007 consultation document 'Mechanism for setting guideline rents in housing revenue account subsidy 2008-09 and 2009-10' will form part of the draft housing revenue account subsidy determination 2008-09, which will be published shortly.

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government if she will place in the Library copies of her Department's consultation on the 'Mechanism for setting guideline rents in housing revenue account subsidy 2008-09 and 2009-10'. [164193]

**Yvette Cooper:** I have arranged for copies of the August consultation document 'Mechanism for setting guideline rents in housing revenue account subsidy 2008-09 and 2009-10' to be deposited in the Library of the House.

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect on tenants of the rental constraint allowance mechanism in the last three years. [164194]

**Yvette Cooper:** The rental constraint allowance (RCA) was part of the housing revenue account (HRA) subsidy regime for 2006-07 and 2007-08. Audited figures for 2006-07 will not be available until January 2008, meaning no formal assessment has been possible so far.

### Schools: Transport

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the average cost per capita of school transport in predominantly *(a)* rural and *(b)* urban local authorities; and if she will make a statement. [170878]

**Jim Knight:** I have been asked to reply.

The predicted average cost of school transport for the financial year 2007-08 per pupil in predominantly rural and urban local authorities is shown in the following table. The estimated costs are averaged across all pupils attending maintained schools: most do not use school transport. The costs in urban areas mainly relate to transport arrangements made for children with special educational needs.

*The Education (Budget Statements) (England) Regulations 2007, budgeted net expenditure per pupil[1, 2] by local authorities[3] in England on school transport[1]: 2007-08[4], cash terms figures[4, 5] as reported by local authorities as at 30th November 2007*

| | *Budgeted net expenditure on school transport[1] per pupil[2] (£)* |
|---|---|
| England | 120 |
| Predominantly urban local authorities[3] | 110 |
| Predominantly rural local authorities[3] | 200 |

[1] Includes all elements of school transport for school pupils. This is drawn from local authorities' 2007-08 Section 52 Budget Statements (Table 1 lines 1.2.5 - SEN transport, 2.4.6 - Home to school transport [SEN transport] and 2.4.7 - Home to school transport [other home to school transport]).

[2] The January 2007 pupil numbers used to calculate the per pupil amounts are as reported by the local authority on their Section 52 Budget Statement (Table 2 column 13a) comprising of the full-time equivalent number pupils registered at the school used for the initial determination of the school's budget share under the local authority's allocation formula.

[3] The classification of local authorities into those which are predominately urban and predominately rural is based upon The Rural and Urban Area Classification (2004) sponsored by the Countryside Agency (CA), the Department for Environment, Food and Rural Affairs (DEFRA), Office for National Statistics (ONS), the Office of the Deputy Prime Minister (ODPM) and the Welsh Assembly Government. Predominantly rural local authorities are classified as those which consist of more than 50 per cent. rural Output Areas.

[4] 2007-08 data remains provisional and subject to change by the local authority.

[5] Figures are rounded to the nearest £10.

### Shared Ownership Schemes

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many shared ownership completed sales were facilitated through her Department's homebuy schemes in 2006-07. [171560]

**Yvette Cooper:** There were 14,656 shared ownership completed sales through the Housing Corporation's Affordable Housing Programme in 2006-07.

### Shared Ownership Schemes: North East Region

**Mr. Henderson:** To ask the Secretary of State for Communities and Local Government what her forecast is of the number of home purchases through *(a)* New Build Homebuy and *(b)* other shared ownership schemes in the North East over the next 12 months; and how many such purchases were made in each case in the last 12 months. [168302]

**Yvette Cooper:** The New Build HomeBuy scheme was launched in April 2006 to enable social tenants, key workers and other priority groups buy a share of a newly built property while paying rent on the remainder.

Details of the number of purchases over the next 12 months are not yet available. The Housing Corporation are currently analysing the bids received for their 2008-11 programme following the bidding round which closed on 2 November.

119 homes have been purchased through the New Build HomeBuy and other share-ownership schemes between April 2006 and September 2007 in the North East.

### Rough Sleepers

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether funding for rough sleepers announced by her Department on 13 November was transferred funding from another area within the Government's spending plans over the last three years. [171590]

**Mr. Iain Wright:** The £70 million Places of Change programme announced on 13 November is new funding from the recent comprehensive spending review (CSR) for the next three years. This funding will continue the work over the past three years under the £90 million Hostels Capital Improvement Programme (which runs until March 2008) and will build upon its success. In total, the Department has invested £160 million since 2005 towards helping rough sleepers to move away from the streets and to enable them to move into independent or more appropriate supported accommodation.

### Small Businesses: Non-Domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many firms, defined as small businesses, were on the Valuation Office Agency's Ratings List in the latest period for which figures are available. [171528]

**Mr. Dhanda:** There were 1,049,791 non-domestic properties, known as hereditaments, in England as at 17 November 2007 with a rateable value up to £10,000, the threshold for potentially qualifying for relief under the small business rate relief scheme. In addition, there were 57,908 hereditaments with rateable values between £10,001 and £21,499 in Greater London and 130,532 such properties with rateable values between £10,001 and £14,999 outside Greater London who may also qualify to have their rate liability calculated using the small business non-domestic rating multiplier. However, as well as not exceeding the relevant rateable value threshold, one of the conditions for relief is that the ratepayer may occupy only one hereditament in England. Those occupying multiple properties are not therefore eligible for relief, although small hereditaments with a rateable value below £2,200 are disregarded when considering whether the occupancy condition is met.

### Social Rented Housing: Antisocial Behaviour Orders

**James Brokenshire:** To ask the Secretary of State for Communities and Local Government what right tenant management organisations and arm's length management organisations have to obtain antisocial behaviour orders. [167550]

**Mr. Iain Wright:** Local authorities have been provided with the discretion to decide whether they wish to delegate some or all of their antisocial behaviour order (ASBO) functions to arm's length and tenant management organisations since 11 May 2007 when regulations were made.

This means an arm's length management or a tenant management organisation may apply to the courts for an ASBO when they and the parent local authority have agreed this is appropriate.

### Standards Board for England: Sustainable Development

**John McDonnell:** To ask the Secretary of State for Communities and Local Government whether her Department has conducted a sustainability appraisal in the light of the recent relocation announcement of the Standards Board for England. [171062]

**Mr. Dhanda** *[holding answer 4 December 2007]:* A sustainability appraisal was not conducted when the Standards Board for England recently relocated. The Standards Board for England is not covered by the Sustainable Operations on the Government Estate targets and associated mandates, which include the requirement to conduct sustainability appraisals when relocating offices.

### Tourism: West Midlands

**Mr. Jim Cunningham:** To ask the Secretary of State for Communities and Local Government what steps the Government have taken to promote tourism in the west midlands since 1997. [167512]

**Margaret Hodge** *[holding answer 26 November 2007]:* I have been asked to reply.

The Department for Culture, Media and Sport (DCMS) has provided the national tourism agency, VisitBritain (and its predecessor bodies), with funding since 1997 to promote Britain internationally, and England domestically, as an attractive tourist destination. The west midlands has benefited from this support for the sector, in common with the rest of the country.

From 1997-98 to 2002-03, funding passed from the English Tourist Council (ETC, formerly the English Tourist Board) to the Heart of England Tourist Board (HETB), which represented both the east and west midlands. In 2003, the regional development agencies, including Advantage West Midlands (AWM), took on strategic responsibility for tourism support in the regions. Since then, AWM has worked with partners in the region to reorganise tourism support structures, including the development of Tourism West Midlands to oversee the delivery of the West Midlands Visitor Economy Strategy, and has allocated revenue funding to the development and promotion of tourism.

AWM has led significant capital investment in tourism infrastructure and facilities through a number of funding streams, including European structural funds. Businesses in the tourism sector also benefit from access to skills and training programmes funded by the Learning and Skills Council, and business support schemes delivered through Business Link West Midlands.

In addition, DCMS has made substantial investment in heritage, arts and culture since 1997. These sectors, in addition to their intrinsic value to the nation's cultural life, benefit the visitor economy by attracting visitors.

## FOREIGN AND COMMONWEALTH OFFICE

### Bangladesh: Politics and Government

**Mr. Stewart Jackson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the *(a)* political and *(b)* economic situation in Bangladesh. [172773]

**Dr. Howells:** We welcome the Caretaker government's commitment to hold elections by the end of 2008. Credible elections are vital to sustaining democracy in Bangladesh in the longer term. In creating the conditions for those credible elections, and healthier sustainable democracy, it is vital that the Caretaker government retains respect for individuals' rights and democratic and judicial processes.

The rising cost of living in Bangladesh is a matter of concern for all Bangladeshis. The impact of Cyclone Sidr is expected to place further pressure on the economy. Effective management of the economy will be key over the next year and beyond.

### Bosnia: Politics and Government

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed the political and security situation in Bosnia-Herzegovina with the High Representative, Miroslav Lajcak. [170329]

**David Miliband:** Our ambassador in Sarajevo routinely discusses the political and security situation in the country with the High Representative Miroslav Lajcak.

### Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions he has accepted corporate hospitality in the last 12 months. [171298]

**David Miliband:** Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

### Crime of Aggression Special Working Group

**Adam Price:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 28 November 2007, *Official Report*, column 497W, on Crime of Aggression Special Working Group, what the Government's policy is on the proposal that a crime of aggression should not be investigated by the court in circumstances where the Security Council has not made a determination due to the use of the veto by one or more of the permanent members. [172704]

**Dr. Howells:** Under the terms of the Rome Statute of the International Criminal Court no proposal to amend the Statute may be made until July 2009 at the earliest. If a proposal is made, the Government will give it full consideration in the light of circumstances at the time.

The Government's view, as we continue to state in the Special Working Group, is that any proposal in relation to the crime of aggression must reflect the primary responsibility of the UN Security Council for the maintenance of peace and security as enshrined in the UN Charter.

### Departmental Data Protection

**Mr. Moore:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many security breaches regarding access to personal data have occurred within his Department in each year since 1997. [169981]

**David Miliband:** It has been the policy of successive Administrations not to comment on security matters other than in exceptional circumstances when it is in the public interest to do so.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172253]

**Meg Munn:** The Foreign and Commonwealth Office (FCO) is committed to achieving workforce reductions of 310 over the period April 2004 to April 2008. This is a net target and no posts reallocated to the frontline are included in this figure. The target for reduction excludes the FCO public services, Consular and UKvisas, which are fully funded by passport and visas income and have expanded in response to increased demand for their services.

**Mrs. May:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* men and *(b)* women of each civil service grade are employed by his Department. [172740]

**Meg Munn:** The Foreign and Commonwealth Office (FCO) publishes diversity statistics for its UK-based staff in its Annual Departmental Report (Table 10). The Office for National Statistics also publishes the statistics in its Annual Civil Service Statistics. The figures from the most recent departmental report (as at 1 February 2007) are:

| *FCO grade* | *Civil service—wide equivalent* | *Men* | *Women* |
|---|---|---|---|
| Senior management structure | Senior Civil Servant | 347 | 72 |
| D Band | Grades 6/7 | 700 | 326 |
| C Band | Senior Executive Officer/ Higher Executive Officer | 1,145 | 720 |
| B Band | Executive Officer | 761 | 782 |
| A Band | Administrative Officer/ Administrative Assistant | 521 | 671 |

Copies of the departmental report are available from the Library of the House.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170234]

**Meg Munn:** The Foreign and Commonwealth Office does not produce guidelines on maintaining its corporate identity.

### Departmental Responsibilities

**Mr. Moore:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department is (i) responsible for and (ii) scheduled to undertake; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [170524]

**David Miliband:** Information relating to ad hoc reviews, groups and taskforces is published at www.fco.gov.uk. Information on consultations is published on the 10 Downing street website at:

www.pm.gov.uk

I announced in July a review of priorities for the Foreign and Commonwealth Office (FCO). This review, alongside the comprehensive spending review and the capability review, provides us with the opportunity to align our departmental priorities, resources and people. Following input from the public and other stakeholders, this exercise is now reaching a conclusion. We are working out the details and will inform Parliament and key stakeholders in due course. In addition the FCO is conducting a number of internal reviews aimed at improving our effectiveness. The FCO is participating in several cross-Whitehall reviews led by other Government Departments.

### Embassies

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many British embassies and consulates have been *(a)* closed and *(b)* opened in each of the last 10 years; and if he will list the closures by country. [170324]

**David Miliband:** The Foreign and Commonwealth Office (FCO) has closed eight British embassies, six British high commissions, and 18 British consulates since May 1997. Operations were also suspended at the British embassy, Abidjan, in April 2005 and the British consulate at Port-au-Prince in July 2005 owing to the security situation there.

During the same period, the FCO opened seven British embassies, four British embassy offices, one British office and six British consulates. Three British consulates were also upgraded to British embassies.

The FCO continuously reviews the deployment of its resources and aligns them flexibly in line with UK interests.

In respect of the missions that have closed in the last 10 years, I refer the right hon. Member to the reply my right hon. Friend the then Minister for Europe (Mr. Hoon) gave to the hon. Member for Bournemouth, East (Mr. Ellwood) on 6 February 2007, *Official Report*, columns 821-22W. Since this reply was given, the following missions have closed:

In 2006-07, the British high commission in Kingstown, St.Vincent and the Grenadines.

In 2007-08, the British high commissions in St. Johns, Antigua and Barbuda and St. Georges, Grenada are to be closed.

### EU Reform: Treaties

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the likely training requirements for officials of the EU External Action Service if the Treaty of Lisbon is ratified; [170659]

(2) what estimate he has made of the likely *(a)* size and *(b)* budget of the EU External Action Service if the Treaty of Lisbon is ratified; [170660]

(3) what assessment he has made of the likely recruitment procedure for officials of the EU External Action Service if the Treaty of Lisbon is ratified; [170661]

(4) whether his Department will have access to all documents produced by the EU External Action Service after ratification of the Treaty of Lisbon. [170681]

**Mr. Jim Murphy:** No decisions have yet been taken on the organisation and functioning of the European External Action Service (EEAS), which will be agreed by member states. It is therefore too early to make an accurate assessment of its size, budget, information sharing procedures, staff training requirements, recruitment process or the funding arrangements for staff seconded from member states' diplomatic services to the EEAS.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to ensure that the final version of the European Union Reform Treaty is made available to hon. Members before the Treaty is signed on 14 December. [172173]

**Mr. Jim Murphy:** The final draft version of the EU Reform Treaty text, which will be prepared for formal signature on 13 December, was sent to the Clerks of the Foreign Affairs Committee, European Scrutiny Committee and the Lords EU Select Committee and to the Libraries of both Houses on 4 December. Once the Treaty is signed it will be laid before Parliament.

### Germany: Foreign Relations

**Mr. MacShane:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent bilateral contacts he has had with the Foreign Minister of Germany. [170268]

**Mr. Jim Murphy:** My right hon. Friend the Foreign Secretary has frequent meetings and telephone contact with his German counterpart, in London, Berlin and in international fora, not least every month at the EU General Affairs and External Relations Council.

We use these contacts to discuss the full range of bilateral, EU and international issues.

I also have regular contact with my German counterpart, Europe Minister Günter Closer and most recently met him during my visit to Berlin in November. Discussions covered the Global Europe agenda, the EU Reform Treaty, Kosovo and the forthcoming EU/Africa Summit.

### Guantanamo Bay: Detainees

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he formally requested the return of British residents from Guantanamo detention facility; when he expects this to occur; and if he will make a statement. [171092]

**Dr. Howells:** The Government requested on 7 August 2007 the release from Guantanamo Bay and return to the UK of five men who, while not UK nationals, were legally resident here prior to their detention. We have made representations to the US in respect of these individuals. In some cases the resulting discussions are still ongoing; and despite media coverage over the weekend we cannot guarantee that representations in respect of any of these individuals will be successful. We are in touch with the families and legal representatives of all five individuals about the status of these discussions.

### India: Abortion

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what checks are initiated by High Commission staff in New Delhi to ensure that no medical staff recommended by the High Commission are involved in practices associated with female foeticide. [172619]

**Dr. Howells:** Our high commission in New Delhi selects doctors on the basis of their professional qualifications and skills, English language proficiency, experience with foreign patients, and on account of their exposure to and acknowledged adherence to a high standard of ethical medical practice. They are interviewed, visited, monitored and regularly assessed by the regional medical officer (a UK general practitioner) and by the health care team at the high commission.

### Languages

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs on what date the decision to close his Department's Diplomatic Service Language Centre was made; and if he will make a statement. [170323]

**David Miliband:** I am committed to maintaining the excellent language skills of Diplomatic Service staff and to modernising the ways in which those skills are acquired. Following a review of the provision of language training, Foreign and Commonwealth Office (FCO) Services concluded in 2006 that its language teaching services cost between 15 and 40 per cent. more than comparable providers and that it should no longer provide language teaching services to the FCO.

At the same time, the FCO conducted a policy review of language training which recommended a number of reforms, including more group and in-country teaching. These changes would further increase the cost of in-house teaching. The FCO therefore concluded that it would be a better use of public money to outsource the language teaching requirement. A key element in the new arrangements was a strict quality control and monitoring component to ensure that the quality of teaching was maintained.

My right hon. Friend the then Foreign Secretary (Margaret Beckett) approved the decision to close the Language Centre on 9 March 2007. Since then we have taken a number of further actions to implement this decision, culminating in the closure of the Language Centre in October 2007.

### Languages: Education

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer of 25 June 2007, *Official Report*, column 205W, on languages: education, if he will place in the Library copies of the two reviews FCO Services conducted of its language training provision; and if he will make a statement. [170512]

**David Miliband:** A copy of the Foreign and Commonwealth Office (FCO) review of language training policy (1 May 2007) has been placed in the Library of the House.

The FCO Services review, in relation to the competitiveness of FCO Services' provision of language training, contains commercially sensitive information and therefore will not be placed in the Library of the House.

### Mexico: Human Rights

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Mexico on the safety of human rights defenders in that country with particular regards to Francisco, Emiliana and Alejandro Cerezo; and if he will make a statement. [172158]

**Meg Munn:** The EU has guidelines for the protection of human rights defenders. Human rights and the protection of human rights defenders, is a regular part of the dialogue between our embassy in Mexico City and the Mexican Government.

Specific representations have not been made to the Mexican authorities about Francisco, Emiliana and Alejandro Cerezo. However, our embassy in Mexico City was represented at a meeting with Francisco Cerezo and Peace Brigades International on 3 December along with several other EU member states representatives.

### Middle East: Peace Negotiations

**James Duddridge:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial, *(b)* staffing and *(c)* other resources the Government have provided for the former Prime Minister in his role as Middle East Envoy for the Quartet. [172178]

**Dr. Howells:** I refer the hon. Member to the reply my right hon. Friend the Foreign Secretary gave to the hon. Member for Berwickshire, Roxburgh and Selkirk (Mr. Moore) on 15 November 2007, *Official Report*, column 392W.

**James Duddridge:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial, *(b)* staffing and *(c)* other resources the Government plan to provide over each of the next three years for the former Prime Minister in his role as Middle East Envoy for the Quartet. [172179]

**Dr. Howells:** The Government will keep under close review how it can best support Mr. Blair's work.

The UK has so far provided £400,000 to a UN Development Programme Trust Fund which provides operational and technical support to Mr. Blair's office in Jerusalem. The UK has also seconded four staff to his team. Other international donors are also supporting his work.

The Government strongly support the work of the right hon. Tony Blair as Quartet representative. He is well placed to drive forward Palestinian capacity building, which is a clear priority. The Middle East Peace Process is one of our top priorities and the UK will continue to support the Quartet (US, EU, UN and Russia) and their representative, Mr. Blair, in their work.

**James Duddridge:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether details of *(a)* the role of the right hon. Tony Blair as the Middle East Envoy for the Quartet, *(b)* his salary, *(c)* his team, *(d)* his costs and *(e)* funding for the role will be published by the Quartet. [172596]

**Dr. Howells:** The right hon. Tony Blair has been appointed by, and reports to, the Quartet (US, EU, UN and Russia). On 27 June, the Quartet principals announced the right hon. Tony Blair's appointment as Quartet representative. As set out in the Quartet statement of 27 June, his mandate is to:

> mobilise international assistance to the Palestinians, working closely with donors and existing co-ordination bodies;
>
> help to identify, and secure appropriate international support in addressing, the institutional governance needs of the Palestinian state, focusing as a matter of urgency on the rule of law;
>
> develop plans to promote Palestinian economic development, including private sector partnerships, building on previously agreed frameworks, especially concerning access and movement; and
>
> liaise with other countries as appropriate in support of the agreed Quartet objectives.

Mr Blair is not paid a salary.

It will be a matter for the Quartet to determine whether to publish details of Mr. Blair's team, costs and funding.

### Pakistan: Politics and Government

**Tom Brake:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Pakistan. [169394]

**Dr. Howells:** The progress that has been made in recent weeks in Pakistan is to be welcomed. President Musharraf's announcement of elections on 8 January, his stepping down as Chief of the Army on 28 November and the declaration that the State of Emergency will be lifted on 16 December and the constitution restored are all important steps forward. The UK looks forward to the lifting of all remaining restrictions so that all parties are able to participate fully in the elections. There must be a level playing field for all to ensure the elections are free and fair. We fully support the decision of the Commonwealth Heads of Government Meeting in Kampala last month to suspend Pakistan from the Councils of the Commonwealth. We hope that Pakistan will rapidly meet the conditions which will allow full membership of the Commonwealth to be restored.

### Russia: Military Aircraft

**Mr. Keith Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Russian government on the recent incident in November when a Russian military aircraft penetrated UK airspace along the Wash. [172172]

**Mr. Jim Murphy:** Russian military aircraft have not entered UK national airspace without permission and we have not made any representations to the Russian government.

### Russia: Ukraine

**Sarah Teather:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of negotiations between Russia and the Ukraine on the price of gas; and if he will make a statement. [171883]

**Mr. Jim Murphy:** The hon. Member will be aware that Russia and the Ukraine announced an agreed gas price for 2008 of US$179.5 per 1,000 cubic metres on 4 December 2007. The Government encourage parties to negotiations such as these to come to a commercially viable, transparent price settlement that ensures predictability and reliability of supply, both to domestic and external customers.

### Saudi Arabia

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met representatives of the Saudi Arabian government; and if he will make a statement. [171879]

**Dr. Howells:** My right hon. Friend the Foreign Secretary last met his Royal Highness Prince Saud at Annapolis on 26 to 27 November.

### Somalia: Armed Conflict

**Mark Pritchard:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations has he received from the government of Ethiopia requesting military *(a)* equipment and *(b)* advice to assist them in operations in Somalia. [171353]

**Meg Munn:** The Government have not received any requests from Ethiopia to provide military equipment for, or advice on, Ethiopia's operations in Somalia. Nor has any such assistance been offered.

### Thomas Hurndall

**Richard Burden:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance he is giving to the Hurndall family in their representations to the Israeli Government of the case of the killing of Tom Hurndall and the subsequent conviction of an Israeli soldier. [171869]

**Dr. Howells:** I understand that the Hurndall family is pursuing a private compensation claim through the Israeli courts. It would not be appropriate for the Government to intervene in a case currently before the courts, but officials continue to encourage the Israeli government to reach a settlement with the family.

I wrote to the Hurndall family on 4 July 2007, to reaffirm our continued interest in a resolution to this case. Officials stand ready to provide any further advice and consular assistance on this matter.

### Timor-Leste: Human Rights

**Mr. Don Foster:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* correspondence and *(b)* discussions he has had in response to the finding in November of the Coroner of New South Wales that British citizens Brian Peters, Malcolm Rennie and other newsmen were killed deliberately in Timor-Leste in 1975; and if he will make a statement. [172874]

**Meg Munn:** Neither my right hon. Friend the Foreign Secretary nor I have had any discussions nor received any correspondence on the recent verdict of the New South Wales Coroner's Court inquest into the death of Brian Peters. Nor have we had any discussions or received any correspondence regarding Malcolm Rennie or the other journalists killed in 1975.

We have noted the verdict of the inquest which is the outcome of a judicial process run by the New South Wales Coroner's Court. The New South Wales Deputy Coroner has said that she will now refer the matter to the Australian Attorney-General. It will be for the Australian Attorney-General to decide how to take this forward. We will continue to follow this case closely.

### Turkmenistan: Oppression

**Mr. Carmichael:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent representations his Department has made to the Turkmenistan authorities on freeing people imprisoned for acts of peaceful political dissent; [171931]

(2) what recent representations his Department has made to the Turkmenistan authorities on allowing independent international monitors free access to places of detention and detainees; [171932]

(3) what recent representations his Department has made to the Turkmenistan Government on that country's use of foreign travel restrictions. [171933]

**Mr. Jim Murphy:** My hon. Friend the Minister for Energy (Malcolm Wicks) raised human rights concerns during his visit to Turkmenistan in September. Our embassy in Ashgabat will continue to lobby the Turkmen Government with our EU partners in support of individual cases. Mufti Ibadullah and Geldy Kyarisov were among a number of prisoners of concern who were released this year, after UK and EU lobbying. Maral Yklimova too was allowed to leave the country.

An ad hoc meeting on human rights took place in the margins of the EU's Joint Committee meeting with the Turkmen Government in Ashgabat in September 2007. Issues raised included the importance of allowing the International Committee of the Red Cross access to prisoners, further relaxing restrictions on foreign travel and individual prisoners of concern. Human rights were also raised during President Berdimuhamedov's visit to Brussels in November when he met Mr. Barroso, Mr. Solana and the Foreign Affairs, Trade and Energy Commissioners.

We welcome the action the Turkmen Government has taken so far to begin to relax travel restrictions and to encourage Turkmens to travel and study abroad, but there remains a long way to go. We hope that the recent willingness by the Turkmen Government to engage with the EU, the UN Educational, Scientific and Cultural Organisation, the UN and the Organisation for Security and Co-operation in Europe under President Berdimuhamedov will lead to positive, substantive progress on human rights and democratic reform. We will continue to work with international partners to build on the work the Turkmen Government has begun on fulfilling its human rights obligations through civil society development, good governance and the rule of law.

### Venezuela

**Colin Burgon:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 29 November 2007, *Official Report*, column 705W, on Venezuela, what specific assessment he has made of *(a)* the personnel involved and *(b)* the funding streams of the Venezuelan chapter, Transparencia Venezuela, of Transparency International. [172724]

**Dr. Howells:** I refer my hon. Friend to the reply I gave him on 29 November 2007, *Official Report*, column 705W.

### Whales

**Dr. Kumar:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek to change international law to prevent whaling being undertaken under the guise of scientific research. [171768]

**Meg Munn:** The UK takes every appropriate opportunity to condemn all lethal whaling operations carried out under the guise of 'scientific' research. Japan carries out this research legally under the International Convention on the Regulation of Whaling (ICRW), the parent treaty of the International Whaling Commission (IWC).

The UK believes the IWC is the internationally recognised body for the management and conservation of whale stocks and any amendment to the ICRW would need to be ratified by all parties. The UK sees no advantage in pressing for the termination or renegotiation of the 1948 International Whaling Convention, as this is the legal instrument by which a general moratorium on commercial whaling has been upheld since 1986. In addition, Japan is unlikely to sign up to a new convention that restricts her current 'scientific' whaling.

# Written Answers to Questions

*Monday 10 December 2007*

## INTERNATIONAL DEVELOPMENT

### Afghanistan: Electricity

**Dr. Fox:** To ask the Secretary of State for International Development what projects his Department has implemented to improve the availability of electricity to local nationals in Southern Afghanistan; and how much money was spent on such projects in each year since 2005. [170816]

**Mr. Douglas Alexander:** Over 2006-08, DFID committed £7 million to Quick Impact Projects (QIPs) in Helmand for reconstruction and development projects.

In 2006-07, as a QIPs project, we allocated £15,000 to fix three electricity generators in Sangin District in Helmand Province. This provided immediate access to electricity for approximately 500 homes in the district.

### Afghanistan: Reconstruction

**Mr. Hague:** To ask the Secretary of State for International Development pursuant to the answer of 26 November 2007, *Official Report*, column 153W, on Afghanistan: reconstruction, if he will place in the Library copies of the last three studies by the Afghanistan Research and Evaluation Unit on the effect of humanitarian and development programmes in Afghanistan. [170410]

**Mr. Malik:** The last three studies by the Afghanistan Research and Evaluation Unit on the impact of humanitarian and development programmes are:

1. Cops or Robbers? The Struggle to Reform the Afghan National Police, by Andrew Wilder
2. A Matter of Interests: Gender and the Politics of Presence in Afghanistan's Wolesi Jirga, by Anna Wordsworth
3. Finding the Money: Informal Credit practices in Rural Afghanistan, by Floortje Klijn and Adam pain

Copies of these studies will be placed in the Library of the House.

**Mr. Hague:** To ask the Secretary of State for International Development pursuant to the answer of 26 November 2007, *Official Report*, column 153W, on Afghanistan: reconstruction, if he will *(a)* place in the Library a copy of his Department's funded study by the Peace Dividend Trust and *(b)* state how many Peace Dividend Trust studies relating to Afghanistan his Department has funded. [170411]

**Mr. Malik:** A copy of the DFID-funded Peace Dividend Trust study 'Afghan Compact Procurement Monitoring' will be placed in the Library of the House.

We have not funded the Peace Dividend Trust to produce any further studies relating to Afghanistan.

### Afghanistan: Transport

**Dr. Fox:** To ask the Secretary of State for International Development what projects his Department has implemented to improve ground transport for local nationals in Southern Afghanistan; and how much was spent on such projects in each year since 2005. [170819]

**Mr. Douglas Alexander:** Over 2006-08, DFID committed £7 million to Quick Impact Projects (QIPs) in Helmand for reconstruction and development projects.

Under QIPs, we have spent £2.8 million on improving ground transport in Helmand Province. This includes projects such as bridge repairs, support to Afghanistan traffic police, provision of road building machinery and a bus station.

In addition, in 2007 under the DFID-supported Helmand Agricultural and Rural Development Programme (HARDP), £696,310 has been spent on the provision of 59 km of road in Lashkar Gar District, Helmand Province.

### Bangladesh: Overseas Aid

**Lynne Featherstone:** To ask the Secretary of State for International Development from which budget the recently announced £7 million to aid relief efforts in Bangladesh following Cyclone Sidr will be taken; and whether this money is additional funding that has not previously been announced. [170294]

**Mr. Malik:** The £7 million for cyclone relief has not previously been announced. Of this total, £4.5 million has been allocated from underspends this financial year in the Bangladesh country programme—caused mainly by the complex political situation in Bangladesh—and £2.5 million from DFID's central humanitarian and emergency aid budget. The reallocated underspend reflects normal in-year adjustments against forecast spending; these funds have not been diverted from existing projects or programmes.

**Mr. Andrew Smith:** To ask the Secretary of State for International Development what recent assessment he has made of the effectiveness of the relief effort in Bangladesh following Cyclone Sidr. [172183]

**Mr. Thomas:** The emergency response has been rapid, especially that of the Government of Bangladesh, who have taken a strong co-ordination lead. Relief efforts have reached nearly all affected areas, but there is room for better co-ordination in reaching the ultra-poor and most needy. The water availability crisis has passed, owing to the high attention given to this by the Government, supported by others including the military and some donors. However, a large number of people remain in makeshift camps that are still in urgent need of water, sanitation and hygiene support. The UK is looking to support meeting these short to medium-term needs by allocating £2.5 million, from our £7 million pledge for cyclone relief, to CARE, OXFAM GB, and Save the Children UK. This will focus on water, sanitation and hygiene promotion in the most affected areas.

**Mr. Andrew Smith:** To ask the Secretary of State for International Development what *(a)* financial and *(b)* other aid has been pledged by the UK to the Bangladesh relief effort; and what progress is being made on the delivery of this aid. [172184]

**Mr. Thomas:** The UK has pledged £7 million for Cyclone Sidr relief in Bangladesh. The first tranche of £2.5 million went through the United Nations Development Programme and has been providing immediate assistance in the form of food, clean and safe water, medical treatment and housing repairs since the relief operations started. The second tranche of £2.5 million has been programmed through Save the Children UK, Oxfam GB and CARE to focus on water, sanitation and hygiene promotion needs. These NGOs are already operational in the cyclone affected areas. Out of the remaining £2 million, the UK Government have provided non-food items, such as blankets and jerry cans, to 70,000 families in the worst affected districts and 12 boats to help with the relief operation—of which four have been provided to Save the Children, four to the Bangladesh Rural Advancement Committee and four to the Government of Bangladesh for the emergency disaster response. The remaining funds are being programmed for the restoration of livelihoods and disaster management co-ordination.

### Bangladesh: Politics and Government

**Ms Buck:** To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Bangladesh. [170638]

**Mr. Malik:** As of 1 December 2007, the Government of Bangladesh have reported 3,275 dead, 39,773 injured and 871 missing. They also estimate that the cyclone has affected approximately 30 of Bangladesh's 64 districts, primarily in Barisal and Khulna Divisions, with more than 8.5 million people affected.

The UK Government has provided £7 million for Cyclone Sidr relief in Bangladesh. The first tranche of £2.5 million went through the United Nations Development Programme (UNDP) to provide immediate assistance in the form of food, clean and safe water, medical treatment, and housing repairs. The second tranche of £2.5 million will be programmed through Save the Children UK, Oxfam GB, and CARE, to focus on short to medium-term needs such as water, sanitation and hygiene promotion. The remaining £2 million will be for improving access, provision of non-food items such as blankets, disaster management co-ordination and the restoration of livelihoods.

### Corporate Hospitality

**David Simpson:** To ask the Secretary of State for International Development on how many occasions he has accepted corporate hospitality in the last 12 months. [171302]

**Mr. Douglas Alexander:** Chapter 7 of the 'Ministerial Code' sets out the rules on the registration of hospitality.

### Departmental Travel

**Mr. Hayes:** To ask the Secretary of State for International Development (1) how much his Department spent on *(a)* business and *(b)* first class air travel in the last 12 months; [171249]

(2) how much was spent by his Department on first class train tickets in the last 12 months. [171262]

**Mr. Thomas:** DFID's expenditure on flights booked centrally for the 12-month period April 2006 to March 2007 was £6,876,805, including business class flights costing £5,726,318 and first class flights costing £41,922.

Staff rules preclude use of first class travel, except by Ministers, officials accompanying them, and the most senior members of the senior civil service. Rules relating to the use of air travel and fare entitlements are set out in the Staff Handbook.

DFID's expenditure on UK train tickets for the 12-month period April 2006 to March 2007 was £366,684.

Data distinguished between classes of travel are not routinely maintained and could not be produced without the incurring of disproportionate cost. Staff may travel first class when they are travelling overnight or expected to work during the journey.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for International Development how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171335]

**Mr. Douglas Alexander:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the 'Overseas Travel by Cabinet Ministers' list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

### Environmental Transformation Fund: Sustainable Development

**Jo Swinson:** To ask the Secretary of State for International Development how he plans to ensure that projects funded by the Environmental Transformation Fund—International Window meet sustainability standards. [172600]

**Mr. Thomas:** The £800 million Environmental Transformation Fund International Window (ETF-IW) will support development and poverty reduction through better environmental protection and help poor countries respond to climate change. We want to make the ETF-IW part of a wider multilateral effort and we are working with the World Bank, recipient countries, implementing agencies and key stakeholders on the design of a new multi-donor trust fund.

During this design process, criteria will be agreed to ensure that all the investments made from the fund are sustainable, support poverty reduction and maximise environmental transformation. All investments made from the multi-donor fund will also need to meet the Equator Principles as well as the safeguard standards of the World Bank and the respective implementing agencies.

### Ghana: Schools

**Mr. Hands:** To ask the Secretary of State for International Development what support his Department provides for the construction of new schools or existing schools in *(a)* Ghana and *(b)* Nigeria. [171124]

**Mr. Thomas:** DFID provides support for the construction of new school buildings through two programmes which provide budget support to the Government of Ghana for the implementation of its education sector plan:

In 2007-08, £40 million is being provided through the general multi-donor budget support programme. Of this sum, over 30 per cent. will be channelled into education, along with funds from other sources, including the Government's own revenues;

An additional £10 million has been provided by DFID in sector budget support, earmarked for education.

A large proportion of these funds are used for construction of new school infrastructure in both new and existing schools. The Ministry of Education reports that 2,322 new classrooms have been built in 2007 (in primary and junior secondary schools). Toilet blocks, furniture and, in some poorer areas, housing for teachers are also provided. Smaller amounts of UK funding are also provided for school construction through EC micro-projects, through the World Bank, and through the Education For All fast track initiative.

For the last six years, DFID has been supporting the Government of Nigeria, at both state and federal level, to build the capacity to use its own resources more effectively in the provision of basic education including school construction. Support is focused on three major initiatives all of which seek to improve school facilities:

DFID's capacity building for universal basic education project (CUBE) supports capacity building in Kano, Kaduna and Kwara states, including in the implementation of the World Bank's state education sector project (SESP). The wider SESP will support the renovation and construction of classrooms in 98 schools in the three states;

The £26 million girls education project (GEP) is funded by DFID and implemented by UNICEF in six Nigerian states (all six of which have large numbers of girls out of school). GEP provides support for educational materials, some minor renovation work and water points and toilets for 720 schools in the six states.

From 2008, DFID's new £106 million education sector support programme in Nigeria (ESSPIN) will provide technical assistance to up to six Nigerian states to improve the planning, procurement and construction of schools, including the provision of small grants to communities to help them manage and improve local facilities.

### Howard Horsley

**Mr. Dunne:** To ask the Secretary of State for International Development whether his Department followed all the provisions of its *(a)* approved departmental performance appraisal process and *(b)* departmental disciplinary procedure, including contingent provisions, in relation to the dismissal of Howard Horsley. [170565]

**Mr. Malik:** Mr. Howard Horsley's dismissal in January 2000 was entirely consistent with the processes and terms and conditions of his employment under his fixed term Technical Co-operation Officer contract.

### Illegal Immigrants

**Damian Green:** To ask the Secretary of State for International Development how many illegal immigrants were discovered working for his Department and its agencies in the last year for which figures are available. [170502]

**Mr. Thomas:** No illegal immigrants have been discovered working in DFID or its agencies in the last year. Employment in the civil service is done in accordance with the civil service nationality rules, which are available at:

www.civilservice.gov.uk/nationality

### Postal Services

**Mr. Hayes:** To ask the Secretary of State for International Development (1) how many items of post sent by his Department were reported missing by the intended recipient in each year since 1997; [171290]

(2) what steps his Department has taken to protect the personal data on members of the public which it holds. [171420]

**Mr. Douglas Alexander:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report,* column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Schools: Construction

**Andrew Stunell:** To ask the Secretary of State for International Development what percentage of school buildings approved by his Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172293]

**Mr. Thomas:** No buildings have been constructed or approved by DFID in the UK in the last five years. The last construction project prior to this period was a new annexe to our East Kilbride office, which achieved an excellent rating against the Building Research Establishment Environmental Assessment Method.

### South East Asia: Rain Forests

**Mr. Scott:** To ask the Secretary of State for International Development what recent discussions he has held on measures to end the destruction of tropical forest caused by the expansion of biofuel plantations in South East Asia. [171119]

**Mr. Woolas:** I have been asked to reply.

My Department has had discussions on this issue, at both ministerial and official level, with the Indonesian and Malaysian Governments, and with other UK Government Departments and industry stakeholders.

The Government are pursuing measures at home, in the EU and internationally to help ensure biofuels are produced sustainably, without the destruction of tropical forests.

### Sudan: Overseas Aid

**Ms Keeble:** To ask the Secretary of State for International Development how much development assistance he has been provided to *(a)* the people of *(b)* NGOs working in and *(c)* the Government of Sudan in the last 12 months. [171958]

**Mr. Thomas:** In 2006-07, the last year for which complete figures are available, DFID provided £110 million in humanitarian and development assistance to Sudan. Of this, £27 million went directly to NGOs operating in Sudan. The remainder was channelled through the United Nations and other development agencies such as the World Bank. The majority of this funding, however, was directed to NGOs as project implementing partners. No DFID assistance was given directly to the Government of Sudan.

### Sudan: Politics and Government

**Mr. Andrew Mitchell:** To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Darfur, Sudan. [169111]

**Mr. Thomas:** The humanitarian situation in Darfur remains critical. Malnutrition rates have risen sharply since the heavy rains in the autumn, particularly in the camps. Ongoing violence has led to a further 260,000 people being displaced this year alone, adding to the more than 2 million people already living in camps across the region. The camps are overstretched and becoming increasingly volatile. The increase in needs has been compounded by an escalation of attacks by armed groups against humanitarian agencies. This is having a serious impact on the ability of humanitarian agencies to deliver vital aid to those in need.

The UK is the second largest bilateral donor in Sudan, having given over £275 million in humanitarian aid since 2004, over £145 million of which has gone to Darfur. The UK is playing a leading role in improving the effectiveness of the humanitarian response such as the £40 million 2007 contribution to the Common Humanitarian Fund. The UK is also a strong supporter of international efforts to build on local-level peace-building and the AU-UN-led Darfur peace talks which commenced on 27 October in Libya. We urge all parties to commit to full participation in the next phase of talks.

### Young People

**Mr. Hayes:** To ask the Secretary of State for International Development how many staff aged between 16 and 18 were employed by his Department *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171275]

**Mr. Malik:** The number of new staff aged between 16 and 18 employed directly by DFID in the last 10 years is as follows:

| | *1998* | *2000* | *2001* | *2004* | *2006* | *Total* |
|---|---|---|---|---|---|---|
| Age 16 | 0 | 1 | 2 | 0 | 0 | 3 |
| Age 17 | 0 | 1 | 1 | 0 | 0 | 2 |
| Age 18 | 1 | 1 | 1 | 1 | 1 | 5 |
| Total | 1 | 3 | 4 | 1 | 1 | 10 |

DFID has no central record of the proportion of these staff undertaking some form of training, or the funding arrangements. This information could be gathered only at a disproportionate cost. DFID does not hold age-related information for agency staff.

### Zimbabwe: Politics and Government

**Mr. Hollobone:** To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Zimbabwe. [172398]

**Mr. Thomas:** The humanitarian situation in Zimbabwe continues to deteriorate, as a result of economic mismanagement made worse by the effects of a severe drought during the last growing season. An estimated 4.1 million people will need international food aid by the end of the year. Malnutrition has reached concerning levels in a number of districts. The collapse of urban water and sanitation systems in Zimbabwe's main cities has increased numbers of life-threatening diarrhoea outbreaks. HIV/AIDS remains a major problem with 1.8 million affected.

DFID's aid programme is providing substantial direct assistance to protect the livelihoods of more than 1.5 million poor people in Zimbabwe, tackle HIV/AIDS and help meet humanitarian needs. This year we have made an additional contribution of £8 million to the World Food Programme to ensure that food aid reaches those who need it most and £1 million to UNICEF to prepare for and respond to emergency disease outbreaks.

## JUSTICE

### Administrative Law

**Mr. Soames:** To ask the Secretary of State for Justice how many applications for judicial review were lodged on behalf of failed asylum seekers facing removal in each of the last five years; what percentage were granted in each year; what proportion these cases comprised of the number of cases before the Administrative Court in each year; and what the approximate cost was of each case. [172789]

**Maria Eagle:** The information requested is set out in the following tables.

*(a) Number of applications for judicial review lodged on behalf of failed asylum seekers facing removal in each of the last five years*

| | *Number* |
|---|---|
| 2007 to 5 December | 2,849 |
| 2006 | 2,841 |
| 2005 | 2,265 |
| 2004 | 1,343 |
| 2003 | 2,062 |

*(b) What percentage were allowed in each year*

| | *Percentage* |
|---|---|
| 2007 to 5 December | 0.46 |
| 2006 | 0.88 |
| 2005 | 1.02 |
| 2004 | 1.27 |
| 2003 | 1.45 |

*Note:* The statistics provided are for those applications lodged and those applications allowed within a specified calendar year only. However it will not be the case that the applications allowed within a particular calendar year are the same applications that were lodged in that year. For example an application lodged in 2003 may well have been allowed in 2004.

*(c) What proportion did these cases comprise of the total number of cases before the administrative court*

| | *Percentage* |
|---|---|
| 2007 to 5 December | 0.12 |
| 2006 | 0.23 |
| 2005 | 0.21 |
| 2004 | 0.24 |
| 2003 | 0.42 |

For the data in parts (b) and (c) it has been assumed that the reference to "granted" is intended to mean "allowed". If a judicial review is allowed this indicates that the court is satisfied that the claimant has established his or her case. The remedy will be at the discretion of the court.

*(d) What was the approximate cost of each case*

To provide a complete breakdown of approximate costs for each case is not possible since this information is not recorded by the Administrative Court Office. To do so would be to incur disproportionate cost. The most recent estimates for approximate costs for judicial review applications include the cost of administrative staff time and judicial time for the permission hearing only. These estimates were produced in June 2006 and amount to £473.17 per case.

This estimate does not take into account middle and senior management time, other judicial time—particularly, but not limited to, the substantive hearing—or any overheads such as heating, lighting and other accommodation costs. Further, it does not take into account the legal funding costs which would be a matter for the Legal Services Commission.

## Carter Report

**Colin Burgon:** To ask the Secretary of State for Justice pursuant to his statement of 5 December 2007 on the Carter Report, whether the three titan prisons referred to will be run and staffed by the public sector. [172755]

**Mr. Hanson:** It is anticipated that the provision of up to three large titan prisons will be subject to a competitive procurement exercise. Each case will, however, will be considered on its own merits.

## Compensation: Industrial Diseases

**Mr. Pope:** To ask the Secretary of State for Justice with reference to the answer of 29 October 2007 to the hon. Member for Paisley and Renfrewshire, North (Jim Sheridan), *Official Report*, column 798W, on compensation: industrial diseases, if he will reconsider his decision not to bring forward legislative proposals to provide for compensation to people who have contracted pleural plaque as a result of exposure to asbestos in the workplace. [172279]

**Bridget Prentice:** In my answer of 29 October 2007, *Official Report*, column 798W, to the hon. Member for Paisley and Renfrewshire, North (Jim Sheridan), I indicated that the Government had decided that it would not be appropriate to legislate on this issue. That remains the Government's view.

The House of Lords reached a unanimous decision that pleural plaques do not constitute actionable or compensatable damage. The decision is based on fundamental principles of the law of negligence—first that compensation can only be payable where there is actual damage, and secondly that compensation is not payable simply for the risk or the worry that something might happen in the future.

Overturning these fundamental principles in the case of pleural plaques would create uncertainty in the law and could raise the possibility of claims being made much more widely for the risk of an illness occurring or for worry that something might happen. This would considerably increase the level of litigation and the possibility of weak or spurious claims, and could have damaging effects on business and the economy.

## Departmental Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Justice how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171443]

**Maria Eagle:** This is the first year that a Ministry of Justice Christmas card has been produced by our print room. To date, 6,000 have been ordered at a cost of 34 pence each, totalling £2,040. These cards are not centrally funded, and business areas will cover the costs of the cards they have ordered from their stationery budgets.

It is not possible to get information for previous years' spend on Christmas cards as these will have been ordered by each business area separately, and will be recorded in the Department's accounts under "stationery".

Christmas parties are not funded by the Department. Staff will contribute to the cost of Christmas parties themselves, contributions will be made by senior staff, or awards will be made through reward and recognition in line with departmental guidelines.

The cost of trees and decorations for the central London HQ buildings is as follows:

*2007*

Trees—£460.40 plus VAT

Decorations—£325.90 plus VAT

*2003-06*

Records were not kept for these years, however due to a change in our financial record keeping this information is now documented.

*Archway Tower*

*2006*

Trees, decorations and labour—£809.00 plus VAT

*2005*

Trees, decorations and labour—£966.00 plus VAT

*2003-04*

Records not kept beyond this date.

*Conquest House*

No money has been spent on Christmas trees and decorations since 2002.

*Chancery Lane*

Nil response due to no records kept.

The information for agencies can only be gathered at a disproportionate cost, as each building would order its own trees and decorations.

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Justice (1) how much has been paid in consultancy fees by his Department since its establishment; [172077]

(2) how much was paid in consultancy fees by the Lord Chancellor's Department from 1997 to 2000-01. [172100]

**Maria Eagle:** From April 1997 until March 2001, the amounts spent by the Lord Chancellor's Department's on external consultants was as follows:

| | *£ million* |
|---|---|
| 1997-98 | 0.7 |
| 1998-99 | 1.2 |
| 1999-2000 | 1.9 |
| 2000-01 | 2.6 |

Spend with external consultants since the Ministry of Justice was established on 9 May 2007 is not available and could be obtained only at disproportionate cost.

However, from April 2007 until September 2007, the former Department for Constitutional Affairs and those bodies that were formerly part of the Home Office and which are now part of the Ministry of Justice, spent £5.5 million with external consultants.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for Justice if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170229]

**Maria Eagle:** My Department, the Ministry of Justice, has placed copies of Ministry of Justice, Her Majesty's Courts Service, Office for Criminal Justice Reform, National Offender Management Service, Office of the Public Guardian and Tribunals Service corporate identity guidelines in the Libraries of the House. HM Prison Service does not have guidelines available.

My Department spent the following on producing guidelines. These are one-off costs (excluding VAT) that occur in the year indicated when each organisation was established. My Department does not produce new guidelines every year.

| | *Date* | *£* |
|---|---|---|
| Ministry of Justice HQ | May 2007 | 27,800 |
| Her Majesty's Courts Service | April 2005 | 13,130 |
| Office of the Public Guardian | October 2007 | 30,000 |

For my other agencies, the Office for Criminal Justice Reform (established 2004), the National Offender Management Service (established 2005), the Tribunals Service (established 2006) and HM Prisons Service, figures are not available and to attempt to provide a figure would be disproportionate to the cost.

I am unable to identify how much staff time is spent on complying with the corporate guidelines without incurring disproportionate costs.

### Leeds Magistrates Court

**Greg Mulholland:** To ask the Secretary of State for Justice how many outstanding Failure to Appear warrants there were in each year since 1997 *(a)* in England and Wales and *(b)* issued at Leeds magistrates court. [171696]

**Maria Eagle:** The information requested has only been collected since April 2005, although a snapshot of performance was conducted in August 2004. The figures relate only to failure to appear warrants (FTAs) and demonstrate a 54 per cent. reduction in outstanding warrants since August 2004.

The data that are available are summarised as follows:

| *Warrants issued* | *England and Wales*[1] | *West Yorkshire*[1] | *Warrants outstanding* | *England and Wales*[2] | *West Yorkshire*[2] |
|---|---|---|---|---|---|
| Pre 2005 | [3]— | [3]— | As at August 2004 | 65,321 | 1,640 |
| During 2005-06 | 163,993 | 10,643 | As at April 2005 | 50,457 | 1,423 |
| | | | As at March 2006 | 37,541 | 992 |
| During 2006-07 | 146,936 | 9,531 | As at March 2007 | 30,907 | 802 |
| April to June 2007 | 35,678 | 2,219 | As at June 2007 | 29,790 | 729 |

[1] Figures are totals issued in the period specified.

[2] Figures are a snapshot of the rolling total of all FTA warrants outstanding in the specified month, regardless of when they were issued. They do not simply relate to those warrants outstanding that were issued in that same year.

[3] Data not collected.

## Offenders: Learning Disability

**Mr. Hurd:** To ask the Secretary of State for Justice what national standards exist for the level of care and support for offenders with learning difficulties while *(a)* in custody and *(b)* after release. [172304]

**Maria Eagle:** People with learning disabilities have the same rights as other citizens. Under the Disability Discrimination Act (1995, and as revised in 2005), all public bodies must not discriminate against disabled people or provide a poorer quality of service because of their disability. The Act extends to people with learning disabilities.

To help ensure they receive the extra support to which they are entitled under the Disability Discrimination Act, the Care Services Improvement Partnership (CSIP), part of the Department of Health, has produced the document 'Positive Practice: Positive Outcomes: A handbook for Professionals in the Criminal Justice System working with Offenders with Learning Disabilities' (CSIP, 2007).

This sets out the support that must be provided by the police, the courts, in prisons and on probation.

A copy is available in the Library by and it is also available on the CSIP website at,

http://www.kc.csip.org.uk/viewresource.php?action=viewdocument&doc=98519&grp=1

## Offenders: Saudi Arabia

**Keith Vaz:** To ask the Secretary of State for Justice what estimate he has made of the number of Saudi Arabian nationals with criminal convictions *(a)* conducting business and *(b)* living in the United Kingdom. [171881]

**Mr. Hanson:** The requested information is not available. The recording by the police on the police national computer of the nationality of offenders in England and Wales is optional as there is no legislative obligation on individuals to provide this information. For this reason reliable statistics on the nationality of offenders cannot be compiled. In addition, the police national computer does not hold information on whether offenders are conducting business or currently living in the UK.

## Penalty Notices: Alcoholic Drinks

**Mr. Randall:** To ask the Secretary of State for Justice how many *(a)* 10 to 13, *(b)* 14 to 15 and *(c)* 16 to 17-year-olds were (i) cautioned, (ii) prosecuted and (iii) in receipt of a penalty notice for disorder for purchasing alcohol under age in (A) the Uxbridge constituency, (B) Greater London, broken down by London borough and (C) England, in the last three years for which figures are available. [171484]

**Mr. Coaker:** I have been asked to reply.

The information requested on prosecutions, cautions and penalty notices in England in the years 2004 to 2006 is provided in the table. There were no court proceedings, cautions or PNDs reported to the Ministry of Justice for the offences requested in Greater London.

Data broken down by constituency area and London borough are not held by the Ministry of Justice.

*Number of defendants aged 10 to 17 proceeded against at magistrates courts, offenders cautioned and the number of penalty notices for disorder (PNDs) issued for purchasing alcohol illegally by age group. England 2004 to 2006[1, 2, 3, 4]*

| | *Defendants proceeded against at magistrates courts* | | | *Offenders cautioned* | | | *PNDs issued[4]* |
|---|---|---|---|---|---|---|---|
| | *10-13* | *14-15* | *16-17* | *10-13* | *14-15* | *16-17* | *16-17* |
| 2004 | — | 1 | 9 | — | 7 | 20 | [5]— |
| 2005 | — | — | 12 | — | 7 | 15 | 16 |
| 2006 | — | 2 | 7 | 1 | 3 | 9 | 58 |

[1] From 1 June 2000 the Crime and Disorder Act removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings.

[2] These data are on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] The offence of illegal purchasing of alcohol by an underage person was added to the penalty notice for disorder scheme on the 4 April 2005.

[5] Not applicable.

## Peterborough Rape Crisis

**Mr. Stewart Jackson:** To ask the Secretary of State for Justice (1) what assessment he has made of the effect on the work of the Peterborough Rape Crisis organisation of the withdrawal of Victims Fund grant monies from 1 January 2008; and if he will make a statement; [171948]

(2) how much of the £3 million funding for specialist services for sexual crimes will be allocated to the Peterborough Rape Crisis organisation; and if he will make a statement. [171949]

**Maria Eagle:** I refer the hon. Member to my reply on 6 December 2007, *Official Report,* column 1460W.

## Police National Computer

**Greg Mulholland:** To ask the Secretary of State for Justice (1) on how many occasions cases involving recordable sexual offences have not been placed on the Police National Computer in *(a)* Leeds and *(b)* England and Wales; [171694]

(2) how many case conclusions involving recordable offences have so far been identified as not having been placed on the Police National Computer in *(a)* Leeds and *(b)* England and Wales; [171703]

(3) how many Leeds magistrates court employees *(a)* have been and *(b)* are the subject of disciplinary proceedings related to the (i) recording of outcomes of cases, (ii) updating of the Police National Computer and (iii) withdrawal of warrants; when such disciplinary proceedings began; and what the outcomes were of those proceedings which have been completed; [171704]

(4) pursuant to the written ministerial statement of 29 November 2007, *Official Report*, columns 44-46WS, on Leeds magistrates court, in what ways the Government's 2006 guidance was breached in those cases where a warrant was withdrawn in error; [171706]

(5) how many defendants due to come before Leeds magistrates court have been identified as having had warrants wrongly withdrawn. [171728]

**Mr. Straw:** I refer the hon. Member to my written statement on 29 November 2007, *Official Report*, columns 44-46WS, on Leeds magistrates courts. Her Majesty's Chief Inspector of Courts Administration has been asked to work with the chief inspectors for the constabulary and the Crown Prosecution Service, to conduct a thorough inspection and prepare a report to Ministers on the resulting and warrant processes at Leeds magistrates court.

An experienced judge, district judge (magistrates court) Tony Browne, has also been appointed to conduct an investigation of the judicial responsibilities of legal advisers at Leeds magistrates court. We have also started investigating the national processes and practices for withdrawing warrants across the CIS agencies. HMCS have also been asked to look again at the information they gathered in their pro-active national review of the effectiveness of resulting processes in magistrates courts (in January 2007), and report on any outstanding issues.

It is these inspections and investigations which should provide the reliable data of the kind sought by the hon. Member.

It would be wrong to pre-empt the outcome of those investigations. I will make a further statement to the House on the findings and facts relating to all these matters, the action that has been taken and the action that will be taken when the investigations have concluded. The inspectorate report will be published to Parliament.

### Prisoners: Video Games

**Anne Main:** To ask the Secretary of State for Justice pursuant to the answer of 28 November 2007, *Official Report*, columns 486-87W, on prisoners: video games, what criteria and guidance the Government issue to prohibit prisoners from accessing computer games which may have extreme violent, racist or sexually inappropriate themes; which games have been banned from prisons under these criteria; and if he will make a statement. [172055]

**Mr. Hanson:** Prison service order 1250 Prisoners Property provides guidance to governors about all items of in possession property, a copy of which has been placed in the Library. Governors prohibit any item they consider to be a potential risk to security, health and safety, or the good order or discipline of the establishment such as computer games that are of an extreme violent, racist or sexual nature. There are no central data available about which games have been prohibited by governors.

### Prisons: Learning Disability

**Mr. Hurd:** To ask the Secretary of State for Justice what recent discussions have taken place between those responsible for the Dore programme and the Prison Service. [171974]

**Mr. Hanson:** There have been no discussions that have taken place between the Prison Service and those responsible for the Dore programme as there are no formal links with the provider. The Dore programme no longer runs at HMP Stafford or any other prison. The programme does however continue to be run independently within the community and prisoners are referred to the programme on release.

### Prisons: Manpower

**Mr. Hoyle:** To ask the Secretary of State for Justice what assessment he has made of the appropriateness of prison officers younger than 21 years old working in prisons where the youngest prisoners are aged 21 years. [170864]

**Maria Eagle:** No assessment has been made of prison officers working in prisons where the youngest prisoners are aged 21 or over, nor has this been raised formally as an issue. Out of a total of 25,303 prison officers, only 83 (0.3 per cent.) are below the age of 21.

The recruitment process for prison officers is by way of a job simulation assessment centre to assess that candidates are competent to undertake the role. If they are successful in the assessment process, they are deemed capable to work in any prison establishment.

The Employment Equality (Age) Regulations 2006, which came in to force on 1 October 2006, outlaw the use of minimum recruitment ages unless they can be objectively justified.

While on duty, prison officers hold the powers of a constable and currently share a common minimum recruitment age of 18 with the police services.

The minimum age requirement for prison officers was first reduced from 21 to 20 years in 1987.

### Prisons: Mental Health

**Mr. Hurd:** To ask the Secretary of State for Justice what reception screening is in place for mental health needs in prisons. [172360]

**Maria Eagle:** All prisoners, both new prisoners and those transferred in from one prison to another, benefit from a new health screening process, introduced across the prison estate in 2004, that is designed to detect physical and mental health problems.

Work by Professor Grubin and colleagues led to the roll-out of a new two-part health screening tool, the first part intended to gather information pertinent to the addressing of immediate health concerns, and the second part intended to act as a "well woman/man" consultation, analogous to that in use in primary care settings in the wider community.

Prisoners who are identified as needing further help can be referred to a mental health in-reach team, who will arrange further assessment and follow up referral.

### Reoffenders

**Philip Davies:** To ask the Secretary of State for Justice pursuant to the answer of 14 November 2007, *Official Report*, column 295W, on reoffenders, how much was spent on approved premises in each of the last five years. [171868]

**Maria Eagle:** The following data set out what has been spent in total on the approved premises estate in each of the last five years.

| | £ |
|---|---|
| 2002-03 | 52,219,391 |
| 2003-04 | 61,998,242 |
| 2004-05 | 63,567,929 |
| 2005-06 | 73,358,001 |
| 2006-07 | 84,599,882 |
| Total | 335,743,445 |

## Sick Leave: Dismissal

**David Simpson:** To ask the Secretary of State for Justice how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last five years. [163697]

**Maria Eagle:** The information requested is not held centrally for the former Department for Constitutional Affairs and could be obtained only at disproportionate cost. However, this information is now being recorded centrally by the Ministry of Justice and figures will be available shortly.

Sickness absence can become a disciplinary issue when someone is off sick without authority (either absent from work for more than seven days without providing a doctor's certificate or failing to ring their line manager on the day of their absence) and does not improve following a meeting and an agreed action plan.

Appropriate warning levels can be issued at any stage. Warnings are not issued because someone is unwell; they are issued for non-attendance at work, and are part of the process for managing absence. If someone were found to have misled their employers about the absence they would be dealt with under the conduct policy.

The health referral can be used at any stage, and is not a disciplinary sanction. For example, if someone had a pattern of frequent short-term absence, a referral could be done to see if there were any underlying medical problems. Similarly if someone disclosed diagnosis of a serious medical condition, a referral could be done immediately to identify any reasonable adjustments that could be made.

Within Her Majesty's Prison Service, Prison Service Order 8403 Management of Attendance Procedures contains the policy on dealing with sickness absence. A total of 2,066 members of HM Prison Service staff have been dismissed for the reason of medical inefficiency or medically retired over the last five years.

This breaks down as:

| | Number |
|---|---|
| *2002-03* | |
| Dismissals | 200 |
| Medical retirements | 240 |
| Total | 440 |
| *2003-04* | |
| Dismissals | 297 |
| Medical retirements | 231 |
| Total | 528 |
| *2004-05* | |
| Dismissals | 212 |
| Medical retirements | 172 |
| Total | 384 |
| *2005-06* | |
| Dismissals | 219 |
| Medical retirements | 141 |
| Total | 360 |
| *2006-07* | |
| Dismissals | 221 |
| Medical retirements | 133 |
| Total | 354 |

Within the Office for Criminal Justice Reform (OCJR) and the National Offender Management Service (NOMS), staff with a poor sickness absence record are managed under attendance management policies operated within Home Office headquarters.

Information on the number of attendance management warnings and dismissals is only available from 2005, and breaks down as follows:

| | *OCJR* | *NOMS* |
|---|---|---|
| *2005* | | |
| Disciplined | 0 | 3 |
| Dismissed | 0 | 0 |
| *2006* | | |
| Disciplined | 1 | 7 |
| Dismissed | 0 | 0 |
| *2007* | | |
| Disciplined | 0 | 1 |
| Dismissed | 0 | 2 |

The figures are inclusive of staff disciplined and dismissed under both the long and short-term sick policies used within the Home Office.

## Stafford Prison: Learning Disability

**Mr. Hurd:** To ask the Secretary of State for Justice what plans he has to extend the programme of the Dore achievement centres and the Dyslexia, Dyspraxia and Attention Deficit Disorder treatment programme within Stafford Prison to other prisons. [171975]

**Mr. Hanson:** The Dore programme is no longer run at HMP Stafford and there are no plans to extend the programme to any other prison. The programme does however continue to be run independently within the community and prisoners are referred to it on release.

### Television: Licensing

**Mr. MacShane:** To ask the Secretary of State for Justice how many *(a)* men and *(b)* women are serving prison sentences for non-payment of the BBC licence fee. [170269]

**Maria Eagle:** Non-payment for a television licence is not an imprisonable offence. Offenders are dealt with by way of a fine. Non-payment of a fine may result in a short custodial sentence. At 31 October 2007 there were no fine defaulters in prison establishments in England and Wales whose main offence was non-payment for a TV licence.

This information has been drawn from administrative IT systems which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

### Young Offender Institutions

**Colin Burgon:** To ask the Secretary of State for Justice what costs were incurred due to vandalism in young offender institutions in *(a)* 2005 and *(b)* 2006. [172725]

**Mr. Hanson:** The costs of vandalism in the 34 young offender institutions is held at each establishment and forms part of the overall maintenance costs. This information is not held centrally and could be gathered only at disproportionate cost within the given time scale.

**Colin Burgon:** To ask the Secretary of State for Justice what steps his Department takes to ensure the safety of staff within young offender institutions when dealing with disruptive behaviour by inmates. [172726]

**Mr. Hanson:** Staff are trained in a number of techniques to effectively and safely manage violent or refractory young prisoners. These techniques include the use of de-escalation and interpersonal/communication skills, personal safety techniques and as a last resort control and restraint. The procedures for use of control and restraint are laid out in Prison Service Order 1600.

**Colin Burgon:** To ask the Secretary of State for Justice whether there is a uniform application of "lights out" policies across all young offender institutions. [172727]

**Mr. Hanson:** There is no uniform "lights out" policy for young offender institutions. This is a local operational matter for the governor to decide.

## WORK AND PENSIONS

### Children: Maintenance

**Mike Penning:** To ask the Secretary of State for Work and Pensions if he will take steps to ensure that English wine is served exclusively or at the request of guests at meals, parties and receptions hosted by his Department; and if he will make a statement. [164298]

**Mrs. McGuire:** All public procurement procedures must comply with the EU directives. The key principles of the treaty, from a public procurement point of view, are the free movement of goods and services, and non-discrimination on the grounds of nationality. This legislation is designed to ensure that all public procurement across the European Union is fair, transparent and non-discriminatory.

This means that the DWP cannot specify that it will only buy goods (e.g. wine) from a particular country or locality, as that would discriminate against producers from other EU member states.

However, the Government are committed to increase opportunities for small and local suppliers to tender for contracts, thus increasing competition and securing better value for money.

### Christmas

**Danny Alexander:** To ask the Secretary of State for Work and Pensions what health and safety advice is issued to his Department's agencies on Christmas decorations. [171846]

**Mrs. McGuire:** The Department for Work and Pensions provides sensible and simple guidance for staff about the potential hazards associated with the use of Christmas decorations in buildings.

This provides practical advice on how to reduce the risk of injury from slips, trips and falls by avoiding trailing wires and not standing on furniture when hanging decorations, and advice that all Christmas lights should be properly tested and checked before use.

### Departmental Conditions of Employment

**Mrs. Gillan:** To ask the Secretary of State for Work and Pensions if he will take steps to ensure that his Department provides references for the translators no longer being used by the Department. [169779]

**Mrs. McGuire:** Guidance to suppliers on the provision of references is given within the terms and conditions detailed on the "Supplying DWP" section of the Department's internet site. The link to this section is:

http://www.dwp.gov.uk/supplyingdwp/doing_business with_dwp/ppn7-03.pdf

### Departmental Food

**Mr. Roger Williams:** To ask the Secretary of State for Work and Pensions what percentage of *(a)* beef, *(b)* lamb, *(c)* pork and *(d)* dairy products used in his departmental headquarters were imported products in the most recent period for which figures are available. [166656]

**Mrs. McGuire:** It is not possible to obtain figures solely for individual headquarter sites.

The following table provides information on the percentage of each product imported for the period 1 July 2006-30 June 2007.

| | Percentage |
|---|---|
| Beef | 30 |
| Lamb | 48 |
| Pork | 35 |
| Dairy products | 20 |

### Departmental Industrial Disputes

**Mr. Waterson:** To ask the Secretary of State for Work and Pensions what contingency plans he has to help those who could be affected by the proposed strikes within his Department; and if he will make a statement. [170773]

**Mrs. McGuire:** Our contingency plans, which are flexible and proven, include prioritising our resources to ensure that our top priority—to make payments to our customers—is maintained throughout any strike action by staff. We will also maintain access to our services by telephone and wherever possible face to face.

### Departmental Manpower

**Lynne Featherstone:** To ask the Secretary of State for Work and Pensions how many civil servants in his Department *(a)* transferred to other Government Departments and *(b)* left the civil service in each of the last five years. [162729]

**Mrs. McGuire:** I refer the hon. Member to the reply given by the Exchequer Secretary to the Treasury, my hon. Friend the Member for Wallasey (Angela Eagle) on 13 November 2007, *Official Report*, columns 203-07W.

### Departmental Official Hospitality

**David Taylor:** To ask the Secretary of State for Work and Pensions what entertainment or hospitality members of his Department's management board have received in each of the last three financial years; and if he will make a statement. [164738]

**Mrs. McGuire:** Paragraph 4.3.5 of the Civil Service Management Code sets out the rules on the registration of hospitality. The Government are committed to publishing an annual list of hospitality received by members of departmental boards. The first list for 2007 will be published as soon as it is ready after the end of the current calendar year.

### Departmental Pay

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many bonuses were awarded to senior civil servants working at his Department and its agencies in 2006-07; and what the total cost of those bonuses was. [166829]

**Mrs. McGuire:** There were 242 bonuses awarded to senior civil servants working at the Department for Work and Pensions and its agencies in 2006-07.

The total cost of those bonuses was £1,787,847.

| *Bonus type* | *Number* | *Amount (£)* |
|---|---|---|
| 2006-07 DWP senior civil service pay round bonuses | 200 | 1,675,366 |
| Other bonus payments[1] | 42 | 112,481 |
| Total | 242 | 1,787,847 |

[1] Includes bonuses paid outside the DWP senior civil service pay round to:
Permanent secretaries (performance bonuses);
Staff transferring in from other Government Departments (performance bonuses awarded by the other Department);
Newly promoted staff as part of their junior pay award, and
Senior civil servants as special bonuses (through the DWP special bonus scheme for staff).

**Sarah Teather:** To ask the Secretary of State for Work and Pensions how many people in his Department and its predecessors were paid over £100,000 in each year since 1997. [167204]

**Mrs. McGuire:** The information is in the following table.

*Employees with full-time equivalent gross salary (excluding bonuses) greater than £100,000*

| | *Number* |
|---|---|
| September 2006 | 40 |
| April 2005 | 30 |
| April 2004 | 20 |
| April 2003 | 20 |
| April 2002 | 20 |
| April 2001 | — |
| April 2000 | — |
| April 1999 | — |
| April 1998 | — |
| April 1997 | — |

Numbers less than five are represented by '—'.
*Notes:*
1. Numbers are rounded to the nearest 10.
2. DSS and Employment Service prior to 2002.
*Source:*
Mandate provided by ONS.

### Departmental Redundancies

**Mr. Hoban:** To ask the Secretary of State for Work and Pensions what the cost was of redundancies in the Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [166287]

**Mrs. McGuire:** Over the three-year period only one member of staff was made compulsorily redundant in the Department. However, in addition, as part of its efficiency programme, the Department has run a number of staff early release schemes on a voluntary basis.

The Department reports financial information based on financial years over the periods April to March. Information is therefore not available on the cost of early release in any of the 12-month periods ending 30 June. Information on the cost of on early release in the 12 months ending 31 March 2004, 31 March 2005 and 31 March 2006 is in the following table.

| *Financial Year* | *Total cost (£ million)* |
|---|---|
| 2003-04 | 16.1 |
| 2004-05 | 29.6 |
| 2005-06 | 140.0 |

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Work and Pensions how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171331]

**Mrs. McGuire:** Details of the cost of overseas travel, including the cost of travel and accommodation, are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

### Employment

**Danny Alexander:** To ask the Secretary of State for Work and Pensions what plans he has to increase the involvement of private and voluntary sector organisations in the design and delivery stages of the city strategy. [170113]

**Caroline Flint:** We are currently in discussion with providers from the private and voluntary sectors and plan to hold an event in January at which we will update them on the city strategy and its progress to date.

At this event, they will also have an opportunity to outline how they plan to work with the pathfinder consortia, influence policy decisions, and play a part in the commissioning strategy. This will enable all parties to work together to improve the way in which support for individual jobless people is co-ordinated and delivered on the ground.

**David Simpson:** To ask the Secretary of State for Work and Pensions how many people seeking to *(a)* return to work and *(b)* obtain their first job his Department has assisted to compile a curriculum vitae in each of the last three years. [171519]

**Caroline Flint:** The information requested is not available.

Jobcentre Plus personal advisers provide information, advice and guidance to help people identify, apply for and secure employment. Tailoring this to individual need, advisers offer support on a range of jobsearch skills, including, where required, help to compile a curriculum vitae (CV). However, we do not maintain data about the number of people personal advisers help personally to compile a CV, or who they may direct to other sources of help, such as programme provision, self-help material such as the Jobcentre Plus Job Kit or local help organisations.

### Employment: Marfan Syndrome

**Dr. Gibson:** To ask the Secretary of State for Work and Pensions what support his Department makes available to people with Marfan syndrome in job applications. [169342]

**Mrs. McGuire:** The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

*Letter from Lesley Strathie, dated 10 December 2007:*

The Secretary of State has asked me to reply to your question about the support made available to people with Marfan syndrome in job applications. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Customers with Marfan Syndrome can access the wide range of programmes provided by Jobcentre Plus. In particular, they may be interested in Pathways to Work or Disability Employment Adviser support.

Pathways to Work currently operates in 18 Jobcentre Plus Districts and will be available everywhere by April 2008. This initiative encourages customers to consider starting or returning to work with the help of the Incapacity Benefit Personal Adviser. Support includes a series of work focused interviews and access to the "Choices" package. The package includes financial incentives, in work support and if appropriate, participation in a joint NHS / Jobcentre Plus Condition Management programme, so they can understand and manage their condition with a view to returning to work. The adviser identifies when, and if other specialist advice or provision is needed.

Anyone who has been diagnosed with Marfan syndrome and who needs to look for specific types of work can seek additional specialist help from the Disability Employment Adviser.

The Disability Employment Adviser can provide information about the range of mainstream and specialist programmes and services that can support disabled people into work. These include New Deal for Disabled People, Work Preparation, Access to Work, WORKSTEP and Residential Training Colleges. The Disability Employment Adviser and customer will draw up an action plan to help the customer move into employment.

If a customer is concerned about losing their job or one they are about to start, because of a disability, the Disability Employment Adviser can provide advice about Access to Work. Access to Work can assist people with a disability or health condition who need support to overcome work-related obstacles resulting from disability, allowing them to stay in or start their job.

I hope this is helpful.

### Employment: New Deal Schemes

**Danny Alexander:** To ask the Secretary of State for Work and Pensions if he will set out a timetable for the implementation of proposals made in "In work, better off: next steps to full employment" document published in July 2007. [169914]

**Caroline Flint:** The consultation period for the Green Paper 'In work, better off' closed at the end of October. We are currently studying the submissions we received and will respond shortly.

### Incapacity Benefit: Inverness

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how much the Highland ward of Merkinch received from the deprived areas fund in 2006-07; and how much it is estimated to receive in 2007-08. [169911]

**Caroline Flint:** In 2006-07, the Deprived Areas Fund allocated to the Jobcentre Plus Highlands, Islands and Clyde Coast, and Grampian district included £10,495 for the Merkinch ward. The amount for 2007-08 is £32,340.

### Incapacity Benefits: Chronic Fatigue Syndrome

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what plans he has to revise his guidance to lay decision-makers assessing claims for disability living allowance from sufferers of myalgic encephalopathy, chronic fatigue syndrome; and if he will make a statement. [170263]

**Mrs. McGuire:** Updated medical guidance on myalgic encephalomyelitis and chronic fatigue syndrome for disability living allowance decision-makers was published in July 2007. The guidance is available on the Department's website. There are no current plans for further revision, but officials will continue to monitor new research and evidence in this area.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what recent representations he has received from *(a)* myalgic encephalopathy, chronic fatigue syndrome (ME/CFS) charities, *(b)* medical professionals and *(c)* individuals with ME/CFS on his Department's advice on claimants suffering from this illness. [170270]

**Mrs. McGuire:** The guidance published in July 2007 was written in consultation with medical experts from relevant medical specialities, including an expert nominated by groups representing people with myalgic encephalomyelitis and chronic fatigue syndrome (CFS). Consultation with groups representing people with CFS included three face-to-face meetings. Their comments and views were taken into account.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions, what scientific studies underlie his Department's guidance on benefit applicants with myalgic encephalopathy, chronic fatigue syndrome. [170271]

**Mrs. McGuire:** The Department did not use any specific scientific studies to inform the revision of its guidance to disability living allowance decision-makers, but used instead a range of recognised experts in the field to help with drawing up the guidance. This process included engagement with bodies representing people with myalgic encephalopathy and chronic fatigue syndrome.

### Job Creation

**Mr. Hoban:** To ask the Secretary of State for Work and Pensions (1) what estimate his Department has made of the number of new jobs for *(a)* British citizens and *(b)* non-British citizens that the British jobs for British workers policy will produce; [164769]

(2) what steps the Government have taken to promote British jobs for British workers; and what estimate he has made of the number of such jobs that will be created over the next *(a)* year, *(b)* three years and *(c)* decade. [164808]

**Caroline Flint:** "British jobs for British workers' refers to the Government's commitment to help disadvantaged people in this country who have been on benefits, often for prolonged periods of time, to move into work.

Our Welfare Reform Green Paper "In work, better off: next steps to full employment" sets out our proposals for moving further towards our aspiration of 80 per cent. employment. We will concentrate on helping the most disadvantaged individuals and families. Tackling inactivity, particularly among those on benefits, remains our top priority.

We have joined major employers to create Local Employment Partnerships (LEPs), which will help over 250,000 disadvantaged people into work over the next three years.

These measures are designed to build on the record of success since 1997 which has seen an increase in employment of 2.8 million and a reduction of over 1 million people on key out-of-work benefits.

### Jobcentre Plus: Autism Spectrum Disorder

**Annette Brooke:** To ask the Secretary of State for Work and Pensions what guidance his Department has provided to Jobcentre Plus employees on working with local authorities to meet the needs of adults with an autism spectrum disorder. [170551]

**Mrs. McGuire** *[holding answer 30 November 2007]*: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

*Letter from Lesley Strathie, dated 10 December 2007:*

The Secretary of State has asked me to reply to your question asking what guidance has been provided to Jobcentre Plus employees on working with local authorities to meet the needs of adults with autism spectrum disorder. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

There is no specific guidance provided to Jobcentre Plus employees on working with local authorities to meet the needs of those with autism spectrum disorder.

However, Jobcentre Plus has a Service Level Agreement with local authorities setting out the joint activities Jobcentre Plus and local authorities undertake for their shared customers. This ensures both organisations continue to work together effectively and deliver a quality service to customers.

Furthermore, any customers who need extra support because of their disability, including those with Autistic Spectrum Disorder, can get help from a Jobcentre Plus Disability Employment Adviser. The Disability Employment Adviser will tell them about specialised programmes available for disabled people and any suitable job vacancies. There are no Jobcentre Plus programmes specifically targeted at people with autism spectrum. All of these programmes work with customers across the full range of disabilities and health conditions, including those with autism spectrum disorder.

Disability Employment Adviser training includes periods of consolidation after training where they research into local organisations and provision for the benefit of customers. This develops effective working relationships with partners and would include local employers, the local authority, voluntary organisations and social services.

I hope this is helpful.

## Jobseeker's Allowance

**Chris Grayling:** To ask the Secretary of State for Work and Pensions what estimate he has made of the number of jobseeker's allowance claimants who are contacted *(a)* more frequently than every two weeks, *(b)* every two weeks and *(c)* less than every two weeks about their claim. [166578]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

*Letter from Lesley Strathie, dated 10 December 2007:*

The Secretary of State for Employment and Welfare Reform has asked me to reply to your question about the estimated number of Jobseeker's Allowance claimants who are contacted about their claim more frequently than every two weeks; every two weeks; and less than every two weeks. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The vast majority of people claiming Jobseeker's Allowance are required to attend the Jobcentre at least every two weeks to show they are actively seeking and available for work, and therefore remain entitled to payment. During certain key stages of the claim people are required to attend more frequently for short periods.

In 2006/07 there were 2.3 million claims for Jobseekers Allowance. Of these, about 60% (1.3 million) left before 13 weeks, and will have attended a Jobcentre Plus office on a fortnightly basis during that time. Those claiming beyond 13 weeks (about 965,000) will have had a combination of weekly/fortnightly contacts, depending upon the duration of their claim.

Additionally, in 2006/07 there was a total of 29,350 interviews with 7,337 customers suspected of working while claiming benefit, but where there was not enough evidence to warrant a full fraud investigation. These customers were required to attend the Jobcentre Plus office for a series of interviews arranged to take place on days other than their normal day of attendance in order to disrupt any potential work pattern.

The only exception to the requirement to attend the Jobcentre fortnightly or weekly is people who are able to maintain their claim by post, for example because of the distance they live from their nearest Jobcentre Plus office. While these people are not required to actually attend the Jobcentre as frequently as other customers, they are required, by post, to show they are actively seeking and available for work on a similar fortnightly or weekly basis, depending upon the length of their claim. We do not have information on the number of postal claimants, but the (postal) eligibility rules mean they only ever represent a small percentage of the overall number claiming Jobseekers Allowance.

**Mr. Rooney:** To ask the Secretary of State for Work and Pensions (1) whether jobseeker's allowance claimants are permitted to refuse an offer of employment if they would not be made financially better off by accepting the offer; [170279]

(2) what factors are included in determinations of lone parent claimants being better off by Jobcentre Plus. [170280]

**Caroline Flint** *[holding answer 3 December 2007]*: Jobseeker's allowance regulations do not normally allow claimants to refuse an offer of employment if they would not be made financially better off by accepting the offer. However, there are easements which allow good cause for refusing a job which are considered by an independent decision maker. They will look at all the available evidence, and it is possible that they will consider the claimant has good cause for refusing an offer of employment, if they would not be made financially better off by accepting the offer.

The impact of these measures was considered in our Green Paper, "In Work, Better Off: Next Steps to Full Employment", and in the subsequent consultation on its proposals. We will be responding to these in our White Paper Response.

## Lone Parents: Work-Focused Interviews

**Mr. Rooney:** To ask the Secretary of State for Work and Pensions how many *(a)* first, *(b)* second and *(c)* subsequent work-focused interviews for lone parents were booked between March 2006 and September 2007; and how many claimants were sanctioned for non-attendance in each category. [170274]

**Caroline Flint** *[holding answer 3 December 2007]*: The available information is in the following table.

*Work focused interviews for lone parents for the period March 2006 to August 2007*

| *Work Focused Interviews (WFI)* | *Number of WFIs booked* | *Number of lone parents sanctioned for failing to attend WFI* |
|---|---|---|
| First | 343,900 | 4,840 |
| Second | 335,900 | 23,640 |
| Subsequent | 566,400 | 29,640 |

*Sources:*
1. National Benefits Database.
2. Work and Pensions Longitudinal Study.

## Minimum Wage

**Stephen Hesford:** To ask the Secretary of State for Work and Pensions whether consideration has been given to ending the age-related graduated structure of minimum wage rates. [172581]

**Mr. McFadden:** I have been asked to reply.

The Government's regulations implementing the European Employment Directive (Council Directive 2007/78/EC) came into force on 1 October 2006 (Employment Equality (Age) Regulations 2006) and provided an exemption from age discrimination for employers using the youth (16-17 year-old) or development rates (18-21 year-old) of the minimum wage. The Government keep the position under review.

## New Deal Schemes

**Danny Alexander:** To ask the Secretary of State for Work and Pensions whether he has any plans to exempt certain groups of lone parents from new requirements of conditionality outlined in "In work, better off: next steps to full employment". [169918]

**Caroline Flint:** The proposed changes from October 2008 would only affect those lone parents who are in receipt of income support solely on the basis that they are the parent of a child aged 12 or over. Further proposals are that this age may be brought down to a youngest child who will be seven years old by October 2010.

The Green Paper proposed that

"Other lone parents would be able to claim the appropriate benefit for their circumstances. For example, lone parents receiving carer's allowance for disabled children (or for caring for others) will be able to continue to claim income support should they wish."

### Pensions: Finance

**Kelvin Hopkins:** To ask the Secretary of State for Work and Pensions if he will estimate the net annual cost for each year from 2008 to 2025 of *(a)* paying the basic state pension at its current level, increased annually in line with average earnings to all pensioners, *(b)* raising the basic state pension to the current level of the Pensions Credit Guarantee, increased annually in line with average earnings and paying it to all pensioners and *(c)* raising the basic state pension to 60 per cent. of median population income, increased annually in line with average earnings and paying it to all pensioners. [164652]

**Mr. Mike O'Brien:** The information is in the following table.

*Estimated net additional costs for all UK pensioners*

*£ billion (2007-08 prices)*

| *Financial year* | *(a) Basic state pension increased annually in line with average earnings* | *(b) Basic state pension increased to pension credit standard minimum guarantee increased annually in line with average earnings* | *(c) Basic state pension increased to 60 per cent. of median population income increased annually in line with average earnings* |
|---|---|---|---|
| 2008 | 6 | 23 | 22 |
| 2009 | 7 | 24 | 23 |
| 2010 | 8 | 25 | 24 |
| 2011 | 8 | 26 | 25 |
| 2012 | 8 | 26 | 25 |
| 2013 | 8 | 26 | 26 |
| 2014 | 8 | 27 | 26 |
| 2015 | 8 | 27 | 26 |
| 2016 | 7 | 27 | 26 |
| 2017 | 7 | 28 | 27 |
| 2018 | 7 | 28 | 27 |
| 2019 | 7 | 28 | 27 |
| 2020 | 7 | 29 | 28 |
| 2021 | 7 | 29 | 28 |
| 2022 | 7 | 30 | 29 |
| 2023 | 7 | 31 | 30 |
| 2024 | 7 | 32 | 30 |
| 2025 | 7 | 32 | 30 |

*Notes:*

1. Estimates are presented in net terms meaning that estimated savings from reduced income related benefit payments (pension credit, housing benefit and council tax benefit) have been deducted. The proportions of additional expenditure saved through reduced income related benefit payments in 2008-09 have been estimated using the Department's Policy Simulation Model. This proportion is assumed to remain constant in future years.
2. Column 2 is based on paying UK pensioners the current full value of the basic state pension of £87.30 per week uprated by the relevant Average Earnings Index of 3.5 per cent. and rounded to the nearest five pence, which gives a figure of £90.35 in 2008-09.
3. Column 3 is based on the value of the current level of the pension credit standard minimum guarantee of £119.05 per week for a single person, uprated by the relevant Average Earnings Index of 3.5 per cent. and rounded to the nearest five pence, which gives a figure of £123.20 in 2008-09.
4. Column 4: Sixty per cent. of median population income for a single person with no children after deducting housing costs was £108 per week in 2005-06 (Households Below Average Income: An analysis of the income distribution 1994/95—2005/06 (Revised), DWP). This figure has been uprated by average earnings to £121.60 per week in 2008-09.
5. In the financial years up to and including 2013-14 Treasury economic assumptions have been used to model earnings uprating. After this point a long term earnings growth assumption of 4.93 per cent. has been applied.
6. No changes have been made to the current or projected level of the savings credit threshold.
7. 'All pensioners' is defined as all individuals over state pension age living in the United Kingdom. The estimates do not include pensioners claiming a UK pension, but living overseas. Including this group would increase the estimated costs.
8. The estimates are consistent with mid-2004 GAD population projections. We are currently in the process of revising our expenditure projections in line with the mid-2006 ONS population projections.
9. Estimates are in 2007-08 prices and have been rounded to the nearest £ billion.

*Source:*
DWP modelling

### Performance Appraisal

**Danny Alexander:** To ask the Secretary of State for Work and Pensions when his Department's year ends for the purpose of assessing staff performance; and when staff receive performance bonuses. [172126]

**Mrs. McGuire:** The performance year for the Department for Work and Pensions runs from 1 April to 31 March for all grades including the senior civil service.

Performance bonuses are one element of the annual pay award, which is effective from 1 July. This year, owing to protracted pay negotiations with trade unions, performance bonuses were paid with the pay award in November.

Senior civil service bonuses are usually paid in July in DWP, but this year they were paid in November in line with Cabinet Office instruction.

### Remploy

**Adam Price:** To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Welsh Assembly Government on the future of the *(a)* Trefforest, *(b)* Brynaman and *(c)* Ystradgynlais Remploy factories. [171381]

**Mrs. McGuire** *[holding answer 4 December 2007]:* The Secretary of State discussed those Remploy factories with a number of Welsh Assembly Government Ministers, including the First Minister, the Minister for Environment, Sustainability and Housing and the Deputy Minister for Regeneration.

### Social Fund

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions (1) if he will list the organisations which provide advice on the making of decisions on applications to the social fund; [164487]

(2) what information his Department records on the decisions of the social fund; [164488]

(3) what assessment his Department has made of the *(a)* quality and *(b)* appropriateness of advice offered by staff to social fund applicants; [164653]

(4) if he will take steps to ensure that applicants requiring assistance who have had a social fund application rejected are directed to more appropriate sources of funding; [164654]

(5) what criteria his Department uses to ensure that community care grants are awarded to the applicants who are most in need of them. [164655]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

*Letter from Lesley Strathie, dated 10 December 2007:*

The Secretary of State has asked me to reply to your questions relating to the operation of the discretionary Social Fund scheme. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus is solely responsible for administering the Social Fund, including making initial decisions on applications for loans and Community Care Grants and providing the first tier of review for applicants dissatisfied with their original decision. Decision makers must adhere to the Directions issued by the Secretary of State for Work and Pensions and take account of guidance he has given. They should also have regard to the state of the budget in the Social Fund unit they are attached to. Decision makers are fully trained in the principles of decision making and the rules relating to the Social Fund.

Social Fund Inspectors working at the Independent Review Service for the Social Fund (an independent statutory body) provide the second tier of the review for customers dissatisfied with the review decision made by the decision maker in Jobcentre Plus. Customers who are still dissatisfied may apply for Judicial Review. Inspector's decisions are returned to Jobcentre Plus and are used as a learning resource for decision makers. The Social Fund Commissioner, the head of the Independent Review Service, has provided assistance to Jobcentre Plus by making his staff available to assist us in training our decision makers. Inspector's decisions have always been a useful resource for Jobcentre Plus decision makers. We are now formalising that as part of an enhanced checking regime designed to improve the standard of decision making.

The particulars of each application are recorded on the national Social Fund Computer System. For Budgeting Loans this includes the reasons for the decision and repayment terms. For Community Care Grants and Crisis Loans, in addition to recording the details on the computer system, decision makers are required to complete a written decision which explains in details the reasons why an award has been made or refused.

Jobcentre Plus monitors customer service through the Mystery Shopper Programme, which is an independent measure of the accuracy and comprehensiveness of information given to customers. The scenarios used by the Mystery Shopper include some questions about elements of the Social Fund. Performance against these questions contributes to the wider Customer Service Target.

Social Fund decision makers are advised to alert customers, where appropriate, to charitable sources of funding such as the Family Fund. Decision makers refusing an award from one part of Social Fund will as a matter of routine consider whether an application to another part of the fund might be successful. When a decision is made to refuse a Community Care Grant the decision maker will automatically consider whether a crisis loan can be awarded. Similarly, if a Crisis Loan is refused the decision maker should consider whether the award of a Community Care Grant is appropriate. Where neither is appropriate consideration should be given to issuing a Budgeting Loan application form to the customer as legislation does not permit us to treat an application for a Community Care Grant or Crisis Loan as a Budgeting Loan.

The Community Care Grant scheme operates within the constraints of a cash limited budget and awards are made based on prioritisation of customer need which ensures that available funding goes to those with the highest priority needs. In each case the decision maker considers the nature, extent and urgency of need and whether the priority of the need can be met from the relevant budget allocation.

I hope that this is helpful.

### Social Security Benefits: Eastbourne

**Mr. Waterson:** To ask the Secretary of State for Work and Pensions what the value of *(a)* attendance allowance and *(b)* disability living allowance payments for people over the retirement age living in Eastbourne was in (i) 1996-97 and (ii) 2006-07. [165398]

**Mrs. McGuire:** The available information is in the following tables.

*Attendance allowance and disability living allowance expenditure for people over retirement age in the Eastbourne parliamentary constituency—cash terms*

| | Status | Annual expenditure (£ million) |
|---|---|---|
| *Attendance allowance* | | |
| 1997-98 | Outturn | 5.4 |
| 2006-07 | Provisional Outturn | 9.7 |
| *Disability living allowance* | | |
| 1997-98 | Outturn | 2.0 |
| 2006-07 | Provisional Outturn | 3.9 |

*Attendance allowance and disability living allowance expenditure for people over retirement age in the Eastbourne parliamentary constituency—2007-08 prices*

| | Status | Annual expenditure (£ million) |
|---|---|---|
| *Attendance allowance* | | |
| 1997-98 | Outturn | 7.0 |
| 2006-07 | Provisional Outturn | 10.0 |
| | | |
| *Disability living allowance* | | |
| 1997-98 | Outturn | 2.6 |
| 2006-07 | Provisional Outturn | 4.0 |

*Notes:*
1. All figures have been rounded to the nearest hundred thousand pounds.
2. All figures are consistent with the 2007 pre-Budget report and comprehensive spending review, as well as expenditure information published on the internet at www.dwp.gov.uk/asd/asd4/expenditure.asp
3. The 1997-98 caseloads used in the apportionment of expenditure are based on 5 per cent. samples, which have been calibrated to 100 per cent. data. 100 per cent. data have been used to apportion expenditure for 2006-07.
4. Parliamentary constituency data are not available prior to February 1997.

*Source:*
Expenditure has been taken from departmental accounting systems and combined with 100 per cent. statistical data to identify the proportion of expenditure paid to people over retirement age living in Eastbourne parliamentary constituency.

### Social Security Benefits: EU Nationals

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many A8 nationals claimed *(a)* income support, *(b)* jobseeker's allowance, *(c)* housing benefit, *(d)* council tax benefit and *(e)* pension credit in each quarter since 1 May 2004, broken down by nationality. [162347]

**Mr. Plaskitt:** The information is not available in the format requested.

Some information is available in the "Accession Monitoring Report; May 2004-September 2007", a joint report by the Border and Immigration Agency, Department for Work and Pensions, HM Revenue and Customs and Department for Communities and Local Government, copies of which have been placed in the Library.

The Accession Monitoring Report only gives the total of applicants for tax funded income related benefits (income based jobseeker's allowance , income support and state pension credit) broken down by A8 nation.

### Staff Survey

**John McDonnell:** To ask the Secretary of State for Work and Pensions why his Department cancelled its autumn staff survey; what consultations his Department had with the trade union side before deciding to cancel; what costs were incurred in drafting the survey before it was cancelled; and when his Department next plans to survey its staff. [171836]

**Mrs. McGuire** *[holding answer 6 December 2007]:* The Department for Work and Pensions postponed its November 2007 staff survey until January 2008. The decision to defer was made following a range of feedback suggesting that a review of the questionnaire content and overarching strategy was needed. A letter to the DTUS secretary, on 24 October 2007, outlined the rationale and gave advance viewing of a Department-wide announcement on 25 October 2007. The DWP will share the revised content of the survey questionnaire with the DTUS (which it does routinely each year). A total of £14,535 was incurred in external supplier costs in preparation for the postponed survey.

### Stevenage

**Mr. Harper:** To ask the Secretary of State for Work and Pensions whether his Department is responsible for *(a)* the ministerial salary and *(b)* the provision of support to the ministerial office of the hon. Member for Stevenage. [170006]

**Mrs. McGuire** *[holding answer 3 December 2007]:* The Government Equalities Office will meet the ministerial salary of my hon. Friend the Member for Stevenage (Barbara Follett) and will meet most of the costs of her Private Office. The Department for Work and Pensions, the Cabinet Office and the Government Offices for the Regions also provide some support services for the Private Office.

### Unemployment: Prisoners

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many ex-prisoners have entered Progress 2 work/link up in each year since its inception; and how many of these have found sustained employment. [162683]

**Caroline Flint:** The available information is in the following table.

*Ex-prisoner[2] starters on the Progress2work and Progress2work-linkUP programmes in Great Britain*

| | Starters | Jobs | Sustained jobs |
|---|---|---|---|
| 2002 | 210 | 30 | 10 |
| 2003 | 2,840 | 520 | 120 |
| 2004 | 5,330 | 1,350 | 300 |
| 2005 | 5,580 | 1,360 | 350 |
| 2006 | 5,560 | 1,080 | 400 |

*Notes:*
1. Figures are rounded up to the nearest 10 for data protection reasons; totals may not sum due to rounding.
2. The figures relate to customers who volunteered the information that they had served a custodial sentence; it will necessarily be an under-count as some customers will not wish to disclose this type of information.
3. In the case of earlier years the 'sustained jobs' figure is the number of customers who did not claim benefit again within 13 weeks of their job start. Later information, since September 2006, comes from information provided by contractors in the management information they give to the DWP.
4. Progress2work was rolled out early in 2002, initially in 27 pathfinders. Progress2work provision was available in around 60 Jobcentre Plus districts by June 2003 and was rolled out to the remaining districts by April 2004.

### Westmorland

**Tim Farron:** To ask the Secretary of State for Work and Pensions whether his Department plans to move any of its offices to Westmorland and Lonsdale constituency. [166559]

**Mrs. McGuire:** The only building that the DWP occupies in this constituency is Kentmere house, Kendal. DWP service delivery plans are regularly reviewed and there are currently no plans to move any further offices to the Westmorland and Lonsdale constituency.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Aviation

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its predecessor spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171250]

**Mr. Thomas:** The amount spent on first class and business flights for the period November 2006 to October 2007 was as follows:

| | £ |
|---|---|
| *(a)* Business Class Flights | 2,307,278 |
| *(b)* First Class Flights | 98,506 |

The figures include both UK and overseas flights.

### Climate Change

**Rob Marris:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department *(a)* has taken and *(b)* intends to take by (i) 2012 and (ii) 2020 in relation to adaptation to the effects of climate change as they affect his departmental responsibilities; and if he will make a statement. [165576]

**Malcolm Wicks** *[holding answer 6 December 2007]*: The Climate Change Bill, which was introduced to Parliament on 14 November, will require Government to assess the risks that climate change poses to the UK, and to report to Parliament. The first national risk assessment, which includes energy issues, will be carried out within three years of enactment of the Bill, with subsequent assessments being published at least every five years. In addition, the Bill will also require the Government to publish and regularly update an adaptation programme. This will set out the Government's objectives in relation to adaptation to climate change and their proposals and policies for meeting those objectives. As part of preparations for developing this programme, the Government will be publishing an adaptation policy framework in spring 2008 .

BERR has been actively engaged in those adaptation responsibilities included in its remit. The Department's responsibilities primarily affected by the impacts of climate change include those relating to energy, telecoms and regional economic performance. In relation to the energy sector, there are already a number of existing obligations relating to security of supply which help to ensure that adaptation to climate change occurs. The electricity companies have general obligations in relation to continuity of supply via the Electricity Safety, Quality and Continuity Regulations, which are enforced by BERR. Electricity and gas utilities also have a general legal duty under the terms of their licence to ensure adequate levels of security of supply. These are enforced by Ofgem, which has powers to require electricity and gas utilities to provide it with the information necessary for Ofgem to assess compliance with the duty.

As evidenced by the response during the flooding in the summer, Government are working and will continue to work closely with industry—including telecoms—to ensure that services are restored to customers as soon as possible following any weather-related or other events which may cause disruption to service.

In relation to the Department's regional responsibilities, the Review of sub-national economic development and regeneration published in July indicated that it was essential for every region to plan to ensure that it is resilient to a changing climate. The review confirmed that the Government propose to give the regional development agencies executive responsibility for developing single integrated regional strategies which set out the economic, social and environmental objectives for each region.

### Companies House: Disclosure of Information

**Mr. Steen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform for what reasons Companies House returned to Book Keeping Services Devon Ltd of Kingsbridge confidential information about a company in Falmouth following its request for an increase in ordinary share capital of a different company based in South Devon; and if he will make a statement. [170675]

**Mr. Timms** *[holding answer 6 December 2007]*: This was the result of an administrative error. The information relating to the company in Falmouth was not confidential, but was intended for the public record.

### Departmental Carbon Emissions

**Chris Huhne:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the total amount of carbon dioxide emissions produced by his Department and its predecessor in each year since 1997. [172345]

**Mr. Thomas:** BERR is, as was the DTI, committed to the targets for energy efficiency and reduction in carbon emissions set out in the Framework for Sustainable Operations on the Government Estate.

*Building carbon emissions:*

During the period 1990-2000 (Baseline year) to 2006-07, BERR and the former DTI HQ and its agencies have achieved a 14 per cent. reduction in carbon emissions from their buildings, as has been reported annually in the annual Sustainable Operations on the Government Estate (SOGE) reports published through the SDC and is shown in the table as follows.

*Total emissions from buildings*

| | *Percentage change since 1999-2000 base year* |
|---|---|
| Carbon emissions 1990-2000 Kgc | 5,152,249 |

*Total emissions from buildings*

| | *Percentage change since 1999-2000 base year* |
|---|---|
| 2000-01 | 2 |
| 2001-02 | -6 |
| 2002-03 | 5 |
| 2003-04 | -14 |
| 2004-05 | -15 |
| 2005-06 | -17 |
| 2006-07 | -14 |

*Travel carbon emissions:*

There has been an increase of 3.8 per cent. in carbon emissions from administrative road-based travel since baseline levels relative to 2005-06 levels, although the Department remains confident it will hit the 2010 target.

### Departmental Computers

**James Brokenshire:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many attempted hackings or suspected cyber attacks or other malicious computer security breaches were committed against the computer systems of *(a)* his Department and *(b)* the Registrar of Companies in each of the last three years for which information is available; and if he will make a statement. [167975]

**Mr. Thomas:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report,* column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Consultants

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform which private consultancy firms *(a)* his Department and *(b)* agencies which report to his Department engaged in each of the last three years; which programmes or projects each firm worked on; and what the approximate cost to the Department or agency of each engagement was. [164502]

**Mr. Thomas:** Central records indicate that the Department has spent the following on consultancy services:

| *Financial year* | *£ million* |
|---|---|
| 2005-06 | 53.6 |
| 2006-07 | 40.2 |
| 2007-08 | [1] 16.3 |

[1] to date

I have placed in the Library of the House a list of companies that received payments for consultancy services in each of the last three financial years, together with details of the total amount paid to each.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the Library a copy of his Department's rules and procedures on the protection of confidential data kept by his Department on individuals, businesses and other organisations. [168308]

**Mr. Thomas** *[holding answer 26 November 2007]:* I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report,* column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

**Mr. Evans:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many confirmed data security breaches there have been from his Department in the last 36 months; and what action was taken after each occurrence. [169899]

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12-month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before its transfer; and what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures. [168330]

**Keith Vaz:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what procedures are in place in his Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168481]

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169369]

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department has taken to protect the personal data on members of the public which it holds. [171421]

**Mr. Thomas:** I refer the hon. Members to the statement made by my right hon. Friend the Prime

Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental ICT

**Gordon Banks:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform which manufacturers' software is used in his Department. [167233]

**Mr. Thomas:** The following table provides the list of manufacturers supplying software applications to the Department for Business, Enterprise and Regulatory Reform.

| *Application* | *Version* | *Developer/Supplier* |
|---|---|---|
| Access | 2003 | Microsoft |
| Acrobat Reader | 7.0.7 | Adobe |
| AMO Client | — | CA |

### Departmental Labour Turnover

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the percentage turnover of staff was in *(a)* his Department and *(b)* his Department's agencies in (i) the last 12-month period and (ii) the last 24-month period for which figures are available. [169029]

**Mr. Thomas** *[holding answer 27 November 2007]*: The annual turnover rate for the Department for Business, Enterprise and Regulatory (BERR) from August 2007 to September 2007 was 18 per cent. The annual turnover rate for the same period for BERR plus UK Trade and Investment and the Office of Manpower Economics was 19 per cent.

The annual turnover rate for the Department of Trade and Industry (DTI) from August 2005 to September 2006 was 19 per cent. The annual turnover rate for the same period for the DTI plus UKTI and The Office of Manpower Economics was 18 per cent.

The turnover rate for the Department's agencies is not held centrally. Therefore the cost of preparing an answer for the agencies would be disproportionate to the benefit to be derived.

### Departmental Publicity

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department, its predecessors and its agencies spent on managing their corporate identities in the last 12 month period for which figures are available. [167355]

**Mr. Thomas:** In the last full financial year (2006 to 2007), the former Department of Trade and Industry spent £7,910 on a revision of its brand guidelines through its central marketing team.

Identification of other spending on the management of its identity (i.e. through staff time) could be provided only at disproportionate cost.

Costs for the former DTI's agencies for this period are not held centrally.

**David Simpson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been spent by his Department and its predecessor on advertising in the last 12 months. [167965]

**Mr. Thomas:** In the last full financial year (2006-07) the then DTI and its agencies spent £821,830 on advertising via the Central Office of Information.

| *Activity in 2006-07* | *Amount (£)* |
|---|---|
| Consumer Direct—Thomson Directories 2006-07 | 581,424 |
| DTI classified recruitment 2006-07 | 11,457 |
| ACAS miscellaneous advertising activity 2006-07 | 228,949 |
| Total | 821,830 |

### Departmental Sick Leave

**David Simpson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff in his Department have *(a)* been disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last five years. [163678]

**Mr. Thomas:** The Department's Human Resources Directorate holds central data for only 2006 and 2007 on staff who were formally warned (disciplined) as a result of a poor sick record:

2007: Eight (includes six who returned to effective working; two who were dismissed)

2006: 19 (includes 13 who returned to effective working; two who were successful in their applications for medical retirement; and four who were dismissed).

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171342]

**Mr. Thomas:** Details of the cost of overseas travel, including the cost of travel and accommodation, are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

### Energy: EU Action

**Mr. Dai Davies:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on UK energy policy of the European Commission Communication on a European Strategic Energy Technology Plan (SET-Plan), COM (2007) 723, of 22 November. [171863]

**Malcolm Wicks:** The European Strategic Energy Technology Plan discusses the technology development needed to meet the EU's 2020 targets and 2050 vision, and proposes a number of actions to increase international collaboration and guide the EU's energy technology work going forward. These include:

The establishment of a Steering Group for Energy Research and Innovation, composed of representatives of member states, and designed to foster increased coordination of technology policies and programmes in member states.

A European energy technology summit, to bring together stakeholders in the entire innovation system, from industry to customers, as well as representatives of European institutions, the financial community and international partners.

The launching of European Industrial Initiatives in several energy technology areas. The Fuel Cell and Hydrogen Joint Technology Initiative is an example of a new form of collaboration, with Community Research Framework Programme funding being used to co-finance a programme of research and demonstration with industry in a European public-private partnership.

Creating a virtual European Energy Research Alliance, whereby the European Commission intends to begin dialogue with heads of research institutes and higher education establishments with significant programmes, aiming to encourage enhanced collaboration in delivering coordinated research programmes.

The UK believes that collaboration in developing energy technology is an important part of the development of new energy technologies, and UK Government and industry currently engage with a wide range of EU programmes, including the Framework

Programme for Research and Technological Development, which provides funding for collaborative research. We are also closely involved in developing the Fuel Cells and Hydrogen Joint Technology Initiative.

A number of new initiatives may emerge from the ongoing development of the SET-plan, in particular with regard to the proposed European industrial Initiatives, and we intend to engage closely with the EU in developing these initiatives.

### Energy: Meters

**Mr. Caton:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to the answer of 17 October 2007, *Official Report*, column 1150W, on energy: meters, when he intends to bring forward the necessary statutory instrument to enable consumers of energy to request real-time consumption display devices from their suppliers. [170563]

**Malcolm Wicks:** In August 2007, the Government consulted on a range of matters in respect of gas and electricity metering and billing. That consultation ended on 31 October, and the Government are considering responses, including those on the provision of display devices by electricity suppliers. The Government expect to respond to the consultation early in 2008.

### Engineering: Manpower

**Mr. Olner:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the age profile of the UK engineering work force. [166295]

**Mr. Timms:** My Department has made no such assessment. Official statistics for the age profile of the manufacturing work force are as follows:

| *Age* | *Percentage* |
|---|---|
| 16 to 19 | 2 |
| 20 to 24 | 7.2 |
| 25 to 49 | 62.2 |
| 50+ | 28.6 |

*Source:*
ONS Annual Population Survey workplace analysis (Nomis 2007)

### Engineering: Young People

**Mr. Olner:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to encourage young people to undertake engineering courses. [166296]

**Jim Knight:** I have been asked to reply.

The Government are committed to increasing the number of young people studying science, technology, engineering and maths (STEM) as set out in the Science and Innovation Investment Framework and 2006 Next Steps. These commitments are focused on encouraging young people to study STEM subjects throughout the education system from the early stages and beyond. The Government are providing support for activities that help enthuse young people about engineering and science. For example, the Department for Children, Schools and Families sponsors the science and engineering after-school clubs run by STEMNET and the engineering education scheme which engages engineering companies with schools.

The DCSF is also in the process of commissioning a programme of careers support and guidance and a communications campaign, both with the aim of informing young people more about the varied and exciting opportunities that exist in STEM in pre and post-16 education and beyond.

From September 2008 young people will have the option of taking the Diploma in Engineering which will be available at all three levels 1, 2 and 3. The nature of the 14-19 Diploma programme means that young people acquire the education they need to progress to further learning and employment within the sectors that relate to their diploma of choice, and outside too.

The Department for Innovation, Universites and Skills funds the Science and Engineering Ambassadors scheme, run by STEMNET, for scientists and engineers to act as role models for schoolchildren. The DIUS also sponsors the Royal Academy of Engineering. One element of their work includes developing programmes to enthuse and engage young people in engineering subjects, for example, the Technology and Engineering in Schools Strategy (TESS), through which the professional community of engineering institutions and other stakeholders are taking a co-ordinated approach to work within schools to promote engineering and technology.

At HE level the Higher Education Funding Council for England (HEFCE) is funding the National Engineering Programme (NEP), of which the London Engineering project is the first part to get off the ground. After creating a successful working model with the London pilot project, the programme will extend to six other cities in England. Managed by the Royal Academy of Engineering, aims the programme to change the face of UK higher education in engineering, widening participation and strengthening engineering as a strategic subject.

### Fuel Poverty

**Mr. Randall:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many households in *(a)* the Uxbridge constituency, *(b)* each London borough and *(c)* England (i) are classified as living in fuel poverty and (ii) were classified as living in fuel poverty in each year since 1997; and if he will make a statement. [171485]

**Malcolm Wicks:** Regional estimates of fuel poverty are available only for 2003 and are taken from the Fuel Poverty Indicator dataset—available online at

http://www.fuelpovertyindicator.org.uk/

For Uxbridge constituency the dataset shows that there were an estimated 2,300 fuel poor households.

The following table shows fuel poverty levels for all the London boroughs.

| *London borough* | *Estimate of number of fuel poor households* |
|---|---|
| Barking and Dagenham | 3,900 |
| Barnet | 6,700 |
| Bexley | 5,000 |
| Brent | 5,300 |

| *London borough* | *Estimate of number of fuel poor households* |
|---|---|
| Bromley | 6,700 |
| Camden | 4,800 |
| City of London | 200 |
| Croydon | 7,700 |
| Ealing | 6,100 |
| Enfield | 6,000 |
| Greenwich | 5,300 |
| Hackney | 4,600 |
| Hammersmith and Fulham | 3,800 |
| Haringey | 5,200 |
| Harrow | 4,000 |
| Havering | 5,000 |
| Hillingdon | 4,800 |
| Hounslow | 4,300 |
| Islington | 4,200 |
| Kensington and Chelsea | 4,100 |
| Kingston upon Thames | 3,200 |
| Lambeth | 6,100 |
| Lewisham | 5,900 |
| Merton | 4,200 |
| Newham | 5,800 |
| Redbridge | 5,200 |
| Richmond upon Thames | 4,100 |
| Southwark | 5,400 |
| Sutton | 3,900 |
| Tower Hamlets | 3,800 |
| Waltham Forest | 5,300 |
| Wandsworth | 5,900 |
| Westminster | 5,600 |
| Grand Total | 162,200 |

An estimate of the number of households in fuel poverty in England can be found in Chapter 2 of the "The UK Fuel Poverty Strategy: Fourth Annual Progress Report 2006", available online at

http://www.berr.gov.uk/files/file29688.pdf

*Number of households in fuel poverty in England, 1996 to 2004 (Bracketed figures in millions are based on levels using the basic income definition)*

| | *1996* | *1998* | *2001* | *2002* | *2003* | *2004* |
|---|---|---|---|---|---|---|
| Total fuel poor | 5.1<br>(5.5) | 3.4<br>(4.0) | 1.7<br>(2.3) | 1.4<br>(2.0) | 1.2<br>(1.5) | 1.2<br>(1.4) |
| Vulnerable | 4.0<br>(4.3) | 2.8<br>(3.2) | 1.4<br>(1.9) | 1.2<br>(1.6) | 1.0<br>(1.2) | 1.0<br>(1.1) |
| Non-vulnerable | 1.1<br>(1.2) | 0.6<br>(0.8) | 0.2<br>(0.4) | 0.2<br>(0.4) | 0.2<br>(0.3) | 0.3<br>(0.3) |

## Fuel Poverty: North West Region

**Sir Nicholas Winterton:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of households in the north-west were classified as living in fuel poverty in the most recent period for which figures are available; and if he will make a statement. [172063]

**Malcolm Wicks:** Regional estimates of fuel poverty are available only for 2003 and are taken from the Fuel Poverty Indicator dataset—available online at

http://www.fuelpovertyindicator.org.uk/

In the north-west of England, there were approximately 2.8 million homes, of which an estimated 190,000 were fuel poor, giving a percentage of 6.7 per cent.

## Fuel Poverty: Tamworth

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of *(a)* households and *(b)* vulnerable households in fuel poverty in Tamworth constituency in each year since 1997. [173266]

**Malcolm Wicks:** Constituency level estimates of fuel poverty are available only for 2003 from the fuel poverty indicator dataset, available online at

http://www.fuelpovertyindicator.org.uk/

This estimates that there were approximately 1,800 households in fuel poverty in Tamworth. The dataset does not hold breakdowns between vulnerable and non-vulnerable households.

## Industrial Diseases: Compensation

**John Mann:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform which external solicitors representatives of his Department have met to discuss miners' compensation; and on how many occasions this has happened in the last three years. [170553]

**Malcolm Wicks:** From the Department's records we identified meetings with the co-ordinating group representing claimants' solicitors which includes representatives of Thompsons, Irwin Mitchell and Hugh James, with whom regular meetings are held to progress issues arising.

Officials have also met Beresfords to recover overpayment of Optional Risk Offer Scheme costs. In 2005, there was a meeting with Browell Smith to discuss service improvements.

In addition, the Department's representatives Capita at meet the solicitors with the most claims through their solicitor liaison programme, and the Department's officials meet claimants' representatives through regular monitoring group meetings.

**John Mann:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many letters he has received from claimants over his Department's handling of miners' compensation; and how many of those expressed *(a)* favourable and *(b)* critical views of his Department's performance. [170555]

**Malcolm Wicks:** Since September 2002 the Department has received 7,189 pieces of correspondence either directly from claimants or through their respective MPs with respect to the coal health compensation schemes. The Department does not maintain statistical information in the format requested. However, the majority of letters received from claimants are seeking information about the progress of their claims.

## Insolvency: Fees and Charges

**Stephen Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance he has issued on obligations for the liquidator of an insolvent firm to *(a)* consider the Official

Receiver's Rate when setting his fees and *(b)* ensure that a fair and proportionate percentage of the assets owned by the bankrupt firm are used to compensate the creditors. [171181]

**Mr. McFadden** *[holding answer 6 December 2007]*: Statement of Insolvency Practice 9 provides regulatory guidance which insolvency practitioners must follow when seeking approval for their fees. Matters to be considered by the approving body (usually the creditors) include the effectiveness with which the insolvency practitioner has carried out his duties and the value and nature of the assets with which he has had to deal. In October 2004 the court issued a practice statement which provides guidance on matters that will be taken into account when the court is dealing with an application for review of remuneration.

Schedule 6 to the Insolvency Rules 1986 provides the percentage rates that may be charged on both the realisation and the distribution of assets where the remuneration of a liquidator or trustee has not been fixed by the liquidation/creditors' committee or the creditors at a general meeting. The percentage scale provided in Schedule 6 is taken from the scale that at one time was applicable to official receivers. However, provisions in the Enterprise Act 2002 introduced a new financial regime for official receivers, whereby creditors pay for the costs of the official receiver's administration of cases. Such costs are now provided for in a Fees Order and do not relate to the remuneration limits set out in Schedule 6.

### Macfarlan Smith Ltd

**Mr. Lansley:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 25 October 2007, *Official Report*, columns 495-6W, on Macfarlan Smith's: monopolies, what the terms of reference of the analysis of the effect of Macfarlan Smith's position are; when the work began; when the analysis is expected to be completed; which Department is undertaking the work; and if he will make a statement. [168654]

**Mr. Thomas:** The terms of reference are as set out in the Government response to the Office of Fair Trading, published on 5 September 2006, looking at the prices charged in the UK by MSL and, where possible, contrasting this with the position in other countries. The Home Office is undertaking this work.

### National Nuclear Skills Academy: Public Appointments

**Mr. Dai Davies:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to announce the appointment of the first chief executive of the National Skills Academy for Nuclear; and when the appointment will begin. [168626]

**Malcolm Wicks** *[holding answer 29 November 2007]*: The shadow board of the academy appointed Jean Llewellyn to the post of chief executive earlier this month. The appointment was announced on the academy and Cogent websites and in press releases.

I am delighted that Jean has been appointed. Her sterling work as leader of the development team for the academy has given her unparalleled knowledge of the issues and I know she will make a success of the academy.

I will formally launch the academy at an event at the London Science museum on the evening of 31 January.

### Nuclear Decommissioning Authority

**Mr. Vaizey:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the fulfilment by the Nuclear Decommissioning Authority of its statutory obligations under section 9(2)(a) of the Energy Act 2004 in relation to its dealings with the Harwell site. [171819]

**Malcolm Wicks:** The Nuclear Decommissioning Authority set out its approach to maintaining a skilled workforce in line with its duties under section 9(2)(a) of the Energy Act 2004 in its Strategy, which was subject to full public consultation and approved by the Secretary of State prior to its publication in March 2006. The implementation of all aspects of that Strategy is set out in Annual Plans, which are approved by the Secretary of State and against which progress is monitored. There is no requirement for and has been no site-specific monitoring of the application of section 9(2)(a) to individual sites by the Secretary of State.

### Nuclear Power Stations

**Mr. Liddell-Grainger:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussion he has had on changing funding allocations to improve the way in which high hazard facilities are dealt with at Sellafield and Dounreay; what assessment he has made of the likely effect on Magnox funding of an increase in funding for Sellafield and Dounreay; and whether any consideration has been given to mothballing the Magnox site. [167068]

**Malcolm Wicks:** The comprehensive spending review 2007 (CSR07) provides a generous settlement which will enable the NDA to fund a substantial programme of work across its estate in line with its duties, responsibilities and priorities. It is the responsibility of the NDA to allocate its budget in line with its priorities in consultation with its contractors and other stakeholders.

The NDA's draft business plan for 2008-09 was published for consultation on 7 November and the consultation period closes on 31 January 2008. This sets out the NDA's key objectives and plans for delivering its priorities over the next three years, for all the NDA sites and is available on the NDA website at

www.nda.gov.uk

### Nuclear Power Stations: Decommissioning

**Mr. Gordon Prentice:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the retiring nuclear power stations are to be fully decommissioned and dismantled before any new nuclear power stations are constructed in the same precincts. [171227]

**Malcolm Wicks:** The Department is currently considering responses to the consultation on nuclear power. If the Government were to confirm their preliminary view that it would be in the public interest to allow private sector energy companies the option of investing in new nuclear power stations, we have proposed to undertake a strategic siting assessment (SSA), in combination with a strategic environmental assessment, to develop robust, objective and transparent criteria for assessing the suitability of sites for new nuclear power stations.

With regard to the question of 'whether retiring nuclear power stations are to be fully decommissioned and dismantled before any new nuclear power stations are constructed in the same precincts', any future uses of retiring nuclear power stations would need to comply with the existing site licence conditions of the Health and Safety Executive, as well as with other relevant safety and environmental regulations.

### Nuclear Power Stations: Terrorism

**Mr. Gordon Prentice:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether there will be enhanced specifications for any new nuclear power stations to strengthen resistance against the possibility of terrorist attacks; and if he will make a statement. [171125]

**Malcolm Wicks:** The Government set out their preliminary view on the future of nuclear power in the consultation document, published on 23 May. In the consultation document the Government recognise that although nuclear power stations pose some unavoidable terrorism risks, the Office for Civil Nuclear Security (OCNS), the security regulator, is satisfied that the existing security regime is robust and effective and that allowing new nuclear power stations to be built would be unlikely to materially increase the risks to the UK, because any proposals for new nuclear power stations would only be permitted to proceed if they met the stringent regulatory requirements in full, based on the most up-to-date threat assessments. For any new nuclear power stations, the OCNS would be involved in the generic design assessment stage with a view to security being built into the design, rather than retrofitted.

The consultation ended on 10 October and the Government are currently carefully considering the responses received before they make the decision in the new year.

### Political Levy

**Mr. Maude:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether *(a)* trade unions and *(b)* employers are required to (i) notify in advance and (ii) inform trade union members paying through their salaries by check-off should the amount and value of the political levy on their trade union subscriptions change. [171479]

**Mr. McFadden:** There is no statutory requirement on either the trade union or the employer to notify workers in advance if their check-off payments are to change.

### Post Offices: Closures

**Mr. Jenkin:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the findings of the consultations on proposed post office closures will be published; and if he will extend the consultation period. [170640]

**Mr. McFadden:** I understand from Post Office Ltd that the consultation period for the east Essex and Suffolk area plan closed on 19 November and that it expects to announce final decisions on its proposals for post office closures and new outreach services on 13 December. No closures will take place until after the Christmas period.

As the Government's response to the national public consultation on the post office network explained, the arguments for a longer local consultation period were considered but the Government decided to confirm their decision on a six-week local consultation period reflecting the approach followed during the latter stages of the urban reinvention programme. The early stages of developing Post Office Ltd's area plan proposals involve detailed plan development discussions with Postwatch and the involvement of local authorities in advance of formal public consultation. The Government believe that when combined with the subsequent six weeks of public consultation, this enables sufficiently robust consultations to take place at a local area level. We are also mindful of the fact that the organisation representing sub-postmasters argued for a speedy local consultation to minimise uncertainty for sub-postmasters and customers.

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices have closed in each of the 41 area plan areas for each year in which figures are available since 1997. [172711]

**Mr. McFadden:** This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Library of the House.

### Post Offices: Sussex

**Tim Loughton:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the Post Office's compliance with the Cabinet Office's good practice guidance on public consultations in relation to its current consultation in Sussex. [170121]

**Mr. McFadden:** The Cabinet Office code of practice on consultation applies to Government Departments and agencies. As required by the code, the Government consulted for 12 weeks on their proposals for the post office network.

Post Office Ltd's six-week local public consultations on its area plans are not on the principle of whether there should be post office closures and new outreach services, but on how such changes are to be implemented at the local level. This was made clear in the letter sent to MPs in July which said,

> "As you will understand, the consultation in respect of the Local Area Plan will not concern the principle of the need for change of the Network, nor its broad extension and distribution. Rather consultation will be seeking representations on the most effective way in which Government policy—as set out in the Response Documents—can be best implemented in the particular Area in question".

Before these local public consultations begin, Post Office Ltd seeks detailed input from Postwatch, local authorities and sub-postmasters in developing its proposals.

### Postal Services

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many items of post sent by his Department and its predecessor were reported missing by the intended recipient in each year since 1997. [171291]

**Mr. Thomas:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Radioactive Materials: Transport

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he last discussed the security implications of nuclear waste being transported through London with *(a)* the Mayor of London and *(b)* the Commissioner of the Metropolitan Police; and if he will make a statement. [169397]

**Malcolm Wicks:** The Government's security regulator for the civil nuclear industry, the Office for Civil Nuclear Security (OCNS, part of the Health and Safety Executive), has had no discussions with the Mayor of London on the security implications of spent nuclear fuel being transported through London. However, the OCNS has discussed this matter with the Metropolitan police and on a regular basis with the British Transport police.

### Radioactive Wastes: Waste Management

**Mr. Gordon Prentice:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are being taken to ensure that radioactive waste from nuclear power stations is secure; and if he will make a statement. [171126]

**Malcolm Wicks:** Security measures at licensed nuclear sites and for the transportation of nuclear material (including spent nuclear fuel) are kept under continuing review in light of the prevailing threat and we are satisfied that existing procedures are robust and effective.

The Office for Civil Nuclear Security (OCNS), part of the Health and Safety Executive, is the Government's regulator for security in the civil nuclear industry and is responsible for ensuring, inter alia, that the industry complies with the demanding requirements of the Nuclear Industries Security Regulations 2003 (NISR 03).

The NISR 03 make provision for the protection of nuclear material, both on sites and in transit, against the risks of theft and sabotage, and for the protection of sensitive nuclear information, such as site security arrangements.

### Railways

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department and its predecessor on first-class train tickets in the last 12 months. [171263]

**Mr. Thomas:** The Department spent £1,077,296 on first-class train tickets during the 12-month period November 2006 to October 2007.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

### Regional Planning and Development

**Mrs. May:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what advice he has received on regional strategies and regional development agencies from the Ministers for *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and the Humber, *(d)* London, *(e)* the South East, *(f)* the South West, *(g)* the East Midlands, *(h)* the West Midlands and *(i)* the East of England. [166596]

**Mr. Timms:** Two of the nine RDAs, Advantage West Midlands and the East of England development agency, are in the process of reviewing the Regional Economic Strategies (RES): the other RES were reviewed prior to the appointment of Regional Ministers. The Ministers for the West Midlands and the East of England have worked with RDAs both on finalising the RES and on the work of the RDAs in their regions more generally. All the regional Ministers outside London have given advice on appointments to the boards of the RDAs, using the specifications, panel report and supporting documentation supplied by the selection panel for the RDA board appointments.

### Renewable Energy

**Mr. Dai Davies:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what renewable energy developments are now being investigated where hitherto Britain has not led the way, with reference to the Prime Minister's answers to questions following his speech on climate and energy policy on 19 November 2007. [167911]

**Malcolm Wicks:** In order to meet the challenging target of 20 per cent. of the EU's energy to come from renewable sources by 2020, we are taking steps to increase the amount of electricity, heat and transport fuel generated from renewable resources. I understand the question relates to my right hon. Friend's comments on biomass, marine and tidal range power and wind, each of which has a part to play in meeting this target.

We already plan to increase the capacity of offshore wind farms from the 400 MW currently installed to more than 8 GW, and we will shortly be announcing proposals to allow a further significant expansion. We are considering the barriers to further deployment, including the potential difficulties that wind farms pose to air traffic and defence radar and ensuring an appropriate balance between enabling offshore wind farms and protecting shipping. We will ensure that the new Marine Bill responds sensitively to the environmental issues that are posed by offshore wind farm development.

We are also exploring the potential for major new investment in energy from wave and tidal sources, and we have already announced a study of the feasibility of generating tidal energy from the River Severn. This alone could provide 5 per cent. of Britain's electricity needs. We have also announced that we will include tidal lagoons and barrages below 1 GW capacity within the scope of the renewable obligation, potentially benefiting projects such as those being proposed for Rhyl and Swansea Bay.

Meeting our target will also require greater use of renewables to heat our homes and our buildings, so we will introduce new measures to bring forward renewable heat with a call for evidence in January prior to a full consultation. And as we expand renewable heat we will need to ensure that wherever feasible and economic we generate electricity and heat together. So instead of all our energy being generated remotely, more can be supplied locally, making more efficient use of our energy resources. In transport we will do more to stimulate sustainable forms and sources of bio fuels.

We are also legislating to reform the renewables obligation and bring forward newer technologies, and we will introduce in our Planning Bill new measures to speed up the planning system for major infrastructure projects while ensuring that public are properly consulted.

### Wi-Fi: Public Buildings

**Mr. Jim Cunningham:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government have taken to provide Wi-Fi access to the general public in public buildings. [166958]

**Mr. Timms:** Some public authorities make wireless access available to the public in their buildings. For example, some 23 per cent. of library services currently deliver Wi-Fi with 42 per cent. actively planning to offer Wi-Fi in the future. Most of these services are providing Wi-Fi entirely free to the end user. This is a matter for public authorities individually. There is no Government policy on Wi-Fi access to the public in public buildings.

### Wylfa Power Station

**Jenny Willott:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what is the estimated cost of extending the life of Wylfa power station for nine months beyond its planned closure date; and if he will make a statement. [167010]

**Malcolm Wicks:** The Nuclear Decommissioning Authority (NDA) has asked Magnox Electric Ltd to prepare a business case for extending the life of Wylfa power station by nine months beyond its planned closure date for consideration in early 2009. The business case will include a robust estimate of the costs of an extension. An initial study in November 2005 estimated that the cost of an extension would be some £110 million.

## CHILDREN, SCHOOLS AND FAMILIES

### Academies: Admissions

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families if his Department will collect information on the number of academies which use *(a)* selection by aptitude and *(b)* selection using banding as part of their admission arrangements; and if he will make a statement. [172132]

**Jim Knight:** We do not collect this information. Academies must abide by the schools admissions code as it applies to maintained schools, which includes statutory requirements on selection by aptitude and selection using banding.

### Academies: Pupil Exclusions

**Helen Jones:** To ask the Secretary of State for Children, Schools and Families what consideration he has given to making academies set up prior to the 2006 model funding agreement more accountable for any permanent exclusions. [169306]

**Jim Knight** *[holding answer 29 November 2007]*: Following the consultation exercise that ended in September 2007, Ministers will shortly consider a range of options for the financial consequences of permanent exclusion from academies.

Any decisions about new arrangements that might be introduced, including those affecting academies that already have signed funding agreements, will be announced in due course.

### Assessments: Standards

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what steps he plans to take to create an independent body to assess and report upon examination results and standards; and if he will make a statement. [171925]

**Jim Knight:** We plan to publish a consultation paper setting out our proposals for the future of qualifications regulation and the Qualifications and Curriculum Authority shortly. This will set out the steps we plan to take to create the new independent regulator. My right hon. Friend the Secretary of State will make a statement to the House to announce the start of the consultation.

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what marks were required in Key Stage 2 tests in *(a)* English and *(b)* mathematics to achieve a level (i) 4 and (ii) 5 in (A) 1999, (B) 2006 and (C) 2007. [172503]

**Jim Knight:** The following tables give the marks required to achieve a level 4 and a level 5 in the Key Stage 2 English and mathematics tests in 1999, 2006 and 2007.

*1999—Key Stage 2 English and mathematics*

| *Level* | *Mark range* |
|---|---|
| *English* | |
| 4 | 48-69 |
| 5 | 70-100 |
| *Mathematics* | |
| 4 | 52-79 |
| 5 | 80-100 |

*2006—Key Stage 2 English and mathematics*

| *Level* | *Mark range* |
|---|---|
| *English* | |
| 4 | 43-69 |
| 5 | 70-100 |
| *Mathematics* | |
| 4 | 46-77 |
| 5 | 78-100 |

*2007—Key Stage 2 English and mathematics*

| *Level* | *Mark range* |
|---|---|
| *English* | |
| 4 | 43-69 |
| 5 | 70-100 |
| *Mathematics* | |
| 4 | 46-78 |
| 5 | 79-100 |

## Building Schools for the Future Programme

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of schools built under the Building Schools for the Future programme have *(a)* up to and including 1,000 pupils, *(b)* 1,001 to 1,500 pupils, *(c)* 1,501 to 2,000 pupils and *(d)* more than 2,000 pupils; [170787]

(2) how many and what proportion of schools to be built under the Building Schools for the Future programme are expected to have *(a)* up to and including 1,000 pupils, *(b)* 1,001 to 1,500 pupils, *(c)* 1,501 to 2,000 pupils and *(d)* more than 2,000 pupils. [170788]

**Jim Knight:** The number of pupils in the schools that are expected to be rebuilt or refurbished in waves 1 to 3 of Building Schools for the Future is set out in the following table. This includes the early wins and the Bristol Brunel academy, which opened in September.

These are the current plans, which may change as projects develop. Plans for schools in later waves of the programme have not yet been finalised.

| *Number of pupils* | *Number of schools* | *Percentage of total* |
|---|---|---|
| 0 to 1000 | 230 | 56 |
| 1,001 to 1,500 | 155 | 38 |
| 1,501 to 2,000 | 22 | 5 |
| 2,000+ | 5 | 1 |

*Notes:*
1. Includes mainstream and special schools.
2. Waves 1 to 3 only.
3. Does not include recently built schools which are only receiving ICT funding under BSF.

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what estimate he has made of each local authority's likely total spending on the Building Schools for the Future programme; what the timetable of the programme is in each authority; and if he will make a statement. [172112]

**Jim Knight:** The latest allocation details for each local authority in Building Schools for the Future waves 1 to 4 are set out in the following table. For wave 4 authorities the detailed split between conventional funding (capital grant) and PFI credits is still to be determined. Some of these allocations may also be subject to change as projects develop, particularly for wave 4. Work is ongoing on initial funding envelopes for waves 5 and 6. Local authorities joining the programme in wave 7 or later will receive their allocations on or after 2011-12.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families when waves 7 to 14 of the Building Schools for the Future programme will be completed. [169124]

**Jim Knight:** Building Schools for the Future aims to renew all secondary schools in England where there is need, in fifteen waves of investment which started in 2005-06. We have now launched six waves of Building Schools for the Future projects, which include 72 authorities, allocating funding until 2010-11.

We are reviewing the roll-out of waves 7-15 of Building Schools for the Future and will consult on this shortly. Following the consultation, local authorities will be able to resubmit their expressions of interest, and we will publish the revised national programme for waves 7-15 later in 2008. This will give schools, planning authorities and the private sector good time to get themselves ready to deliver waves 7 and 8.

### Building Schools for the Future Programme: Closures

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families (1) how many *(a)* secondary and *(b)* primary schools built under the Building Schools for the Future programme closed in each local authority area in each year since 2004; [171946]

(2) how many *(a)* secondary and *(b)* primary schools built under the Building Schools for the Future programme are planned for closure in each local authority area. [171947]

**Jim Knight:** No schools which have been built or improved through Building Schools for the Future investment have closed or are planned for closure. Building Schools for the Future aims to renew all secondary schools in England where there is need in 15 waves of investment which started in 2005-06. Primary schools are not included in the Building Schools for the Future programme but in the Primary Capital Programme which starts in 2008-09 with 23 pathfinder authorities, and includes all authorities from 2009-10. Its aim is to improve at least 50 per cent. of all primary schools in 14 years, subject to future public spending decisions.

As authorities plan their investment in either of these programmes, they may include the closure of existing schools, for instance to reflect population movement. School organisation is a local matter, and there are clear statutory procedures including local consultation where changes to schools are proposed.

### Children: Disabled

**Mr. Laurence Robertson:** To ask the Secretary of State for Children, Schools and Families what discussions he has had with European Union counterparts on the treatment of children with physical and mental disabilities; and if he will make a statement. [171222]

**Jim Knight:** My right hon. Friend the Secretary of State has not had any discussions specifically on this topic with his European Union counterparts.

This is an area of policy where the European Union does not have any formal competence and which is normally reserved to member states. However member states may agree to cooperate and share good practice where this adds value. UK Ministers and officials do take part in discussions on a variety of issues affecting children and young people, including disability, within the European Union, for example by responding to the Commission's recently published Communication on the Rights of the Child.

### Children: Hyperactivity

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what support is available to parents whose children have attention deficit and hyperactivity disorder; and if he will make a statement. [170789]

**Jim Knight:** Agencies addressing children's needs are encouraged to work closely with parents and carers. For example, schools and local authorities are statutorily required to have regard to the special educational needs (SEN) code of practice; among other things, the code stresses the importance of all professionals (in schools, local authorities and other agencies) actively seeking to work with parents, valuing the contribution they make. The code also reminds local authorities that section 332A of the Education Act 1996 requires them to arrange for the parent of any child in their area with special educational needs to be provided with advice and information about matters relating to those needs.

The Children Act 2004 provides a statutory framework for cooperation between local authorities, partner agencies and other relevant organisations to improve outcomes for all children including those who have been diagnosed as experiencing an attention deficit and hyperactivity disorder (ADHD). Given that this disorder often entails difficult or challenging behaviour, supporting the child to address his or her behaviour is in itself helpful to his or her parents.

Drug treatment for ADHD should only be initiated by an appropriately qualified health care professional with relevant expertise and should be based on comprehensive assessment and diagnosis. Continued prescribing and monitoring of drug therapy may be performed by general practitioners, under shared care arrangements.

Health care professionals are encouraged to work closely with education and social care services to ensure appropriate interventions are offered. These interventions should include focusing on the child's behaviour in the context of his or her relationships at home and in the classroom.

If there are concerns that a child may have additional needs which require a range of services, or it is unclear what his or her needs are, agencies are increasingly using the common assessment framework (CAP) to identify appropriate ways forward. Within the CAP and its associated guidance, there are prompts for practitioners to consider a wide range of factors and the potential role of other agencies.

### Children: Literacy

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to encourage parents to assist their children with learning to read at home. [167896]

**Jim Knight** *[holding answer 26 November 2007]:* The Department is currently supporting a range of initiatives that are designed to encourage parents to become more actively involved in supporting their children with learning to read at home:

the provision of Bookstart and Booktime book packs to parents of all children in England aged between six-nine months, 18 months, and three years and at reception age, that encourages the sharing of books and reading aloud to their children;

the Family Reading Campaign with a focus on reaching homes where reading is not part of the family culture;

the Primary National Strategy's Communication, Language and Literacy Development (CLLD) programme that offers parents information sheets called 'Helping your child with speaking, listening, reading and writing';

family literacy, language and numeracy (FLLN) a programme that is designed to enable parents and their children to improve their literacy, language and numeracy skills together.

Looking ahead, the 2008 National Year of Reading will create a powerful focus for these initiatives so that parents and children better understand how reading can benefit their lives.

### Chronic Fatigue Syndrome

**Mr. Hancock:** To ask the Secretary of State for Children, Schools and Families if he will commission research into the underlying biomedical cause of myalgic encephalomyelitis/chronic fatigue syndrome; and if he will make a statement. [170254]

**Ian Pearson:** I have been asked to reply.

The Department for Innovation, University and Skills does not commission medical research. The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. Chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) is a strategic priority area for the MRC and the council is continuing to promote research in this area.

### City Technology Colleges: Free School Meals

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what proportion of children at each city technology college established prior to 1 May 1997 are eligible for free school meals at each such school. [169837]

**Jim Knight:** The latest available information relates to January 2007 and is shown in the table.

*City technology colleges[1], number and percentage of pupils known to be eligible for free school meals[2], as at January 2007*

| | | | Pupil achievement and attainment tables[2] | |
|---|---|---|---|---|
| *LEA number* | *School name* | *Number of pupils* | *Number of pupils known to be eligible for free school meals* | *Percentage of pupils known to be eligible for free school meals* |
| Southwark | Bacon's College | 882 | 279 | 31.6 |
| Wandsworth | ADT College | 885 | 219 | 24.7 |
| Croydon | BRIT School for Performing Arts and Technology | 271 | 31 | 11.4 |
| Solihull | The City Technology College | 1,199 | 238 | 19.8 |
| Gateshead | Emmanuel College | 970 | 65 | 6.7 |
| South Gloucestershire | John Cabot City Technology College | 795 | 60 | 7.5 |
| Kent | The Leigh City Technology College | 1,109 | 73 | 6.6 |
| Northamptonshire | Brooke Weston CTC | 913 | 36 | 3.9 |
| Telford and Wrekin | Thomas Telford School | 839 | 100 | 11.9 |
| Croydon | Harris City Technology College | 866 | 99 | 11.4 |

[1] City technology colleges established prior to 1 May 1997.

[2] Includes pupils with sole and dual registration who are full-time and aged 0 to 15 (inclusive) and those who are part-time and aged five to 15 (inclusive).

School Census

## Class Sizes

**Mr. Randall:** To ask the Secretary of State for Children, Schools and Families what the ratio of teachers to children in *(a)* primary and *(b)* secondary schools in (i) the Uxbridge constituency, (ii) each London borough and (iii) England was in each year since 1997. [169975]

**Jim Knight:** The following tables provide the pupil:teacher ratio in local authority maintained primary and secondary schools in Uxbridge constituency, London local authorities and England in each January 1997 to 2007.

*Pupil:teacher ratio in local authority maintained primary schools in Oxbridge constituency, each London local authority and England, January 1997 to 2007*

## Curriculum and Standards Framework: Greater London

**Andrew Rosindell:** To ask the Secretary of State for Children, Schools and Families how much Curriculum and Standards Framework funding was received by schools in *(a)* Romford, *(b)* the London Borough of Havering and *(c)* London in the latest period for which figures are available. [171209]

**Jim Knight:** The Department allocates education funding to local authorities so the requested information for the Romford constituency is not available. The London borough of Havering has been allocated £17.92 million of revenue funding through the standards fund and school standards grants for 2007-08. Local authorities in Greater London have been allocated a total of £721.69 million of revenue funding through the standards fund and school standards grants. These allocations are in addition to the main revenue funding for schools, through the dedicated schools grant, of £141.74 million for London borough of Havering and £4,660.55 million for Greater London for 2007-08.

## Education Maintenance Allowance

**Anne Main:** To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 19 November 2007, *Official Report*, column 629W, on education maintenance allowance, when he expects a copy of the Learning and Skills Council's analysis of the effect of the Education Maintenance Allowance Scheme to be placed in the Library. [172119]

**Jim Knight:** The Learning and Skills Council (LSC) is responsible for the operation of the Education Maintenance Allowance (EMA) Scheme. An analysis of the impact of EMA on participation and attainment has been commissioned by the LSC and I understand that the LSC placed a copy of the results of this analysis, with a summary of the key findings in the House Library, on 3 December 2007.

## Education: Expenditure

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what education spending in England as a proportion of gross domestic product was in each year since 1996-97, expressed to two decimal places; what estimate he has made of the equivalent proportions in each year until 2011-12; and if he will make a statement. [172115]

**Jim Knight:** Education spend as a proportion of GDP is only available for the UK. The Government will increase UK spending in education as a proportion of GDP from 4.68 per cent. in 1996-97 to 5.64 per cent. in 2010-11. The full run of figures from 1996-97 to 2010-11 are shown in the following table.

*Total Government UK education spend as a proportion of GDP*[1]

| | Percentage |
|---|---|
| 1996-97 | 4.68 |
| 1997-99 | 4.51 |
| 1998-99 | 4.43 |
| 1999-2000 | 4.40 |
| 2000-01 | 4.58 |
| 2001-02 | 4.89 |
| 2002-03 | 4.90 |
| 2003-04 | 5.14 |
| 2004-05 | 5.23 |
| 2005-06 | 5.37 |
| 2006-07 | 5.41 |
| 2007-08 | 5.53 |
| 2008-09 | 5.56 |
| 2009-10 | 5.55 |
| 2010-11 | 5.64 |

[1] Calculated as the ratio of UK education spend to UK GDP.

ONS and HMT Public Expenditure Database

### Education: Gender

**Jo Swinson:** To ask the Secretary of State for Children, Schools and Families what effect biological differences between boys and girls have on their respective attainment *(a)* in literacy and *(b)* overall, with reference to the answer of 15 October 2007, *Official Report*, columns 870-71W, on education: gender. [170298]

**Jim Knight** *[holding answer 3 December 2007]*: As stated in the reply given on 15 October 2007, *Official Report*, column 870W, the reasons for girls' better attainment in literacy and indeed overall are complex, but appear mainly related to biological differences, differences in maturation, and differences in attitudes to learning and reading at different ages. The Department is unable to estimate the differential impact of these factors, but the research evidence is summarised in chapter 14 of the previously cited paper "Gender and education: the evidence on pupils in England".

### Educational Psychology

**Annette Brooke:** To ask the Secretary of State for Children, Schools and Families when it will be possible for new entrants to submit applications for educational psychologist courses commencing in 2008. [170550]

**Jim Knight** *[holding answer 3 December 2007]*: It is anticipated that the Children's Workforce Development Council will publish the handbook and application forms for courses for trainee educational psychologists (commencing in September 2008) in January 2008.

Further information can be accessed via the CWDC website at:

www.cwdcouncil.org.uk/educationalpsychology

### Foundation Schools

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families if he will list by local authority area those schools which have *(a)* applied for and *(b)* been granted (i) trust and (ii) foundation status since 1 September 2006; and if he will make a statement. [169800]

**Jim Knight:** Schools do not have to apply to the Department for Children, School and Families to become a trust or foundation school. A change of school category to foundation and the acquisition of a trust are "prescribed alterations". To make such a prescribed alteration the governing body must publish proposals in accordance with provisions in the Education and Inspections Act 2006, regulations made under that Act and having regard to guidance issued by the Secretary of State under that Act. The proposals are then decided by the governing body (or the Schools Adjudicator where proposals to acquire a trust have been referred by the local authority). There is no role for Ministers in the decision-making process.

A list of schools that have published and approved proposals to change category to foundation and schools that have published and approved proposals to become trust schools since the date specified has been lodged with the House of Commons Library.

*Schools that, as of 29 November 2007, have published proposals to become a foundation school (without a foundation) since 1 September 2006 (by local authority)*

| Local authority | School | Publication date | Decision date | Proposed implementation date | Decision type |
|---|---|---|---|---|---|
| Barnet | Hollickwood Primary School | 3 January 2007 | 18 April 2007 | 1 September 2007 | Approved with modification |
| Bath and North East Somerset | Norton Hill School | 23 April 2007 | 24 May 2007 | 1 September 2007 | Approved |
| Bexley | Erith School | 27 February 2007 | 18 April 2007 | 4 June 2007 | Approved with modification |
| Brent | Sudbury Primary School | 11 January 2007 | 15 February 2007 | 1 April 2007 | Approved |
| Bromley | Cator Park School | 21 May 2007 | 20 June 2007 | 3 September 2007 | Approved |
| Cheshire | The Whitby High School | 30 October 2006 | 27 November 2006 | 1 January 2007 | Approved |

## Further Education: Absences

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what mechanism is used to measure the number of pupils aged 16 to 18 years attending *(a)* maintained sixth form colleges, *(b)* further education colleges and *(c)* maintained secondary schools being reported absent. [169150]

**Jim Knight:** The requested information is not collected centrally.

## General Certificate of Secondary Education

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what percentage of pupils in maintained schools achieved five A* to C grades in 2007, excluding equivalents. [169125]

**Jim Knight:** The percentage of pupils in maintained schools who achieved 5 A* to C grades in the academic year 2006/07, excluding equivalents, is 51.9 per cent. If GCSE short courses and GCSEs in vocational subjects are included, this figure increases to 53.9 per cent.

This figure relates to pupils who were 15-years-old at the start of the academic year, i.e. on 31 August 2006. It includes any attempts and achievements by these pupils in previous academic years.

The 2006/07 data are provisional. Schools are given the opportunity to amend their results as part of the data checking exercise before the revised data is published in January.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) how many pupils eligible for free school meals achieved five A* to C grades in English, mathematics, science and a modern foreign language in the latest period for which figures are available; [169126]

(2) how many and what proportion of pupils eligible for free school meals studied for a modern foreign language at GCSE in the latest period for which figures are available; [169127]

(3) how many and what proportion of the pupils who achieved five A* to C grades at GCSE gained English, mathematics, science and a modern foreign language GCSEs in the latest period for which figures are available. [169131]

**Jim Knight:** The information can be provided only at disproportionate cost.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many pupils studied *(a)* history, *(b)* geography and *(c)* a modern language GCSE in each year since 1997. [169128]

**Jim Knight:** The available information is given in the table.

*Number of 15-year-old pupils[1] entered for a GCSE in specific subjects in all schools, 1997 to 2007*

| | *History* | *Geography* | *Modern foreign language* |
|---|---|---|---|
| 1997 | 207,486 | 259,809 | 432,459 |
| 1998 | 189,070 | 235,908 | 444,704 |
| 1999 | 188,934 | 229,802 | 455,385 |
| 2000 | 190,279 | 217,087 | 459,379 |
| 2001 | 195,231 | 220,378 | 473,393 |
| 2002 | 193,945 | 208,274 | 461,359 |
| 2003 | 194,801 | 200,127 | 453,914 |
| 2004 | 205,539 | 197,123 | 437,214 |
| 2005 | 202,591 | 186,706 | 372,704 |
| 2006 | 206,517 | 184,978 | 324,703 |
| 2007[2] | 202,781 | 183,304 | 299,174 |

[1] Those pupils aged 15 at 31 August at the start of the academic year.

[2] Provisional

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many pupils studied for *(a)* 14, *(b)* 15, *(c)* 16, *(d)* 17 and *(e)* 18 or more GCSEs in each of the last three years. [169130]

**Jim Knight:** The information can be provided only at disproportionate cost.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what the proportion of male pupils eligible for free school meals obtained 5 A* to C GCSE grades including English and mathematics in the latest period for which figures are available, broken down by ethnicity. [169140]

**Jim Knight:** The available information has been placed in the Library. The figures have been taken from the Statistical First Release 'National Curriculum Assessment, GCSE and Equivalent Attainment and Post-16 Attainment by Pupil Characteristics in England 2005/06 (Provisional)' which is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000693/index.shtml

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what proportion of pupils achieving combined Level 4 at key stage 2 reading, writing and mathematics tests in each year between 1997 and 2002 subsequently went on to achieve five GCSEs at A* to C. [169142]

**Jim Knight:** The information can be provided only at disproportionate cost.

**Tom Brake:** To ask the Secretary of State for Children, Schools and Families what percentage of pupils in each London borough achieved more than five A* to C grades at GCSE in each year since 1997; and if he will make a statement. [169238]

**Jim Knight:** The available information has been placed in the Library.

## General Certificate of Secondary Education: Mathematics

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils who achieved Level 5 at Key Stage 3 mathematics in each year between 1997 and 2004 subsequently went on to achieve a C grade or above at GCSE mathematics. [169143]

**Jim Knight:** The information requested is in the following table. The figures relate to pupils in maintained mainstream schools in England.

| | *Number of pupils at Level 5 in KS3 maths who achieved A*-C in GCSE maths* | *Percentage of pupils at Level 5 in KS3 maths who achieved A*-C in GCSE maths* | *Number of pupils at Level 5 or above in KS3 maths who achieved A*-C in GCSE maths* | *Percentage of pupils at Level 5 or above in KS3 maths who achieved A*-C in GCSE maths* |
|---|---|---|---|---|
| 2001/02 | 42,600 | 32.7 | 251,800 | 70.6 |
| 2002/03 | 37,000 | 27.5 | 253,900 | 67.3 |
| 2003/04 | 35,800 | 27.6 | 271,500 | 68.5 |
| 2004/05 | 31,100 | 24.6 | 284,600 | 68.8 |
| 2005/06 | 29,100 | 23.4 | 298,800 | 69.0 |
| 2006/07 (provisional) | 32,400 | 26.1 | 313,400 | 71.0 |

## General Certificate of Secondary Education: Standards

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many pupils gained (*a*) no GCSEs and (*b*) fewer that five A* to G grades including English and mathematics at GCSE in each year since 1999. [171159]

**Jim Knight:** Information on the percentages who achieve at least five or more A*-G at GCSE and equivalent, including English and maths GCSE and the percentages who achieve any qualification is in the following table and in table 1 of SFR 34/2007 'GCSE and equivalent results in England, 2006/07 (Provisional)'.

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000754/index.shtml

The underlying numbers can be provided only at disproportionate cost.

*Table 1: Time series of GCSE and equivalent attempts and achievements in all schools: years 1995/96 to 2006/07[1] (provisional)[2], coverage: England*

| | | *Percentage who achieved* | |
|---|---|---|---|
| | *Number of pupils[3]* | *5+ A*-G grades inc English and mathematics GCSEs* | *Any passes[4]* |
| *15-year-olds* | | | |
| 1995/96 | 594,035 | 83.4 | 92.2 |
| 1996/97[5] | 586,766 | 83.9 | 92.3 |
| 1997/98 | 575,210 | 83.8 | 93.4 |
| 1998/99 | 580,972 | 85.8 | 94.0 |
| 1999/2000 | 580,393 | 86.8 | 94.4 |
| 2000/01 | 603,318 | 86.9 | 94.5 |
| 2001/02 | 606,554 | 87.1 | 94.6 |
| 2002/03 | 622,122 | 86.5 | 94.8 |
| 2003/04[6] | 643,560 | 86.7 | 95.9 |
| 2004/05 | 636,771 | 86.9 | 96.4 |
| 2005/06 | 648,942 | 86.8 | 96.7 |
| 2006/07 | 656,667 | 86.1 | 97.3 |
| *Pupils at End Key Stage 4* | | | |
| 2004/05 | 633,414 | 88.0 | 97.4 |
| 2005/06 | 645,931 | 87.8 | 97.8 |
| 2006/07 | 648,752 | 87.7 | 99.1 |

[1] Including attempts and achievement in previous academic years

[2] Figures for 2006/07 are provisional, all other figures are final

[3] Number of pupils on roll aged 15 at the start of the academic year or from 2004/05 end of Key Stage 4 figures are the number of pupils at the end of Key Stage 4 in that academic year

[4] From 2003/04 this includes attempts in entry level qualifications which do not contribute towards A*-C or A*-G thresholds

[5] Percentages from 1996/97 include GCSEs and GNVQs

[6] Percentages from 2003/04 include GCSEs and other equivalent qualifications approved for use pre-16

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) how many pupils in maintained schools sat English language, mathematics, biology, chemistry, physics, a foreign language and history or geography GCSEs in 2007; and how many of them achieved A* to C grades in all of these subjects; [171160]

(2) how many pupils in maintained schools sat English language, English literature, mathematics,

biology, chemistry, physics, a foreign language, history and geography GCSEs in 2007; and how many achieved A* to C grades in all of these subjects. [171161]

**Jim Knight:** The information in the following table provides figures for pupils in all schools. Figures for maintained schools can be provided only at disproportionate cost.

*GCSE attempts and achievements in selected subjects of pupils at the end of Key Stage 4 in schools (numbers): Years 2006/07 (provisional) coverage: England*

| | | *Thousand* |
|---|---|---|
| | *Number attempted* | *Number achieved A*-C* |
| English | 618.3 | 389.5 |
| Mathematics | 617.0 | 354.1 |
| Physics | 53.6 | 46.9 |
| Chemistry | 51.0 | 46.8 |
| Biological Sciences | 54.1 | 48.7 |
| Geography | 185.0 | 123.4 |
| History | 204.2 | 136.9 |
| Any Modern Language | 301.4 | 200.2 |
| English Literature | 522.2 | 359.7 |

This information can be found in table 7 of SFR 34/2007 'GCSE and equivalent results in England, 2006/07 (Provisional)'

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000754/index.shtml

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families which 20 English schools achieved the lowest GCSE success rates in the latest available year on the basis of *(a)* five A*-C at GCSE and *(b)* five A*-C at GCSE, including English and mathematics, and what the (i) local authority and (ii) school type was of each; and if he will make a statement. [172502]

**Jim Knight:** The information required is in the Library, in the Schools and Colleges Achievement and Attainment Tables.

Data for the academic year 2006/07 are not yet published. They will be available from the Library in January 2008.

## Head Teachers: Qualifications

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families whether the National Professional Qualification for Headship will be compulsory for all new head teachers, including those changing schools; and if he will make a statement. [169796]

**Jim Knight:** The National Professional Qualification for Headship (NPQH) will be compulsory for all new heads in maintained schools or non-maintained special schools, both for primary and secondary head teachers, but not deputies. The Education (Headteachers' Qualifications) (England) Regulations 2003, SI 3111 apply. This requires them to have, or be working towards, NPQH if they took up their first headship post in a local authority maintained school or a special school after April 2004. It will be mandatory to hold the qualification (rather than be working towards it) from 1 April 2009. The NPQH prepares candidates for the role of headship and is a benchmark qualification underpinned by the National Standards for Headteachers.

## Mathematics and Science: Teachers

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) how many mathematics graduates entered the teaching profession in each year since 1997; [171035]

(2) how many science graduates entered the teaching profession in each year since 1997. [171036]

**Jim Knight:** Data relating to all mathematics and science graduates entering the teaching profession are not held centrally.

The following tables show the number of mainstream final year postgraduate Initial Teacher (ITT) Trainees who have a first degree or a related degree in the subject of their ITT training and are known to have entered a teaching post six months after gaining Qualified Teacher Status (QTS) for trainees in:

*(a)* Mathematics

*(b)* Science

*(a) Mathematics*

| | *Number of final year mathematics ITT trainees known to enter a teaching post six months after gaining QTS* | |
|---|---|---|
| | *First degree in mathematics* | *First degree in mathematics related subject* |
| 1998/99 | 360 | 40 |
| 1999/2000 | 410 | 40 |
| 2000/01 | 390 | 30 |
| 2001/02 | 400 | 40 |
| 2002/03 | 420 | 280 |
| 2003/04 | 590 | 380 |
| 2004/05 | 610 | 370 |
| 2005/06 | 580 | 390 |

*Source*
TDA's Performance Profiles

*(b) Science*

| | *Number of final year science ITT trainees known to enter a teaching post six months after gaining QTS* | |
|---|---|---|
| | *First degree in science* | *First degree in science related subject* |
| 1998/99 | 870 | 270 |
| 1999/2000 | 910 | 260 |
| 2000/01 | 900 | 360 |
| 2001/02 | 970 | 440 |
| 2002/03 | 490 | 840 |
| 2003/04 | 550 | 1,060 |

*(b) Science*

| | *Number of final year science ITT trainees known to enter a teaching post six months after gaining QTS* | |
|---|---|---|
| | *First degree in science* | *First degree in science related subject* |
| 2004/05 | 530 | 1,020 |
| 2005/06 | 570 | 1,190 |

*Notes*

1. Mainstream includes universities and other higher education institutions, SCITT and OU, but excludes employment based routes (EBR).

2. Figures are rounded to the nearest 10.

3. Data relating to the employment status of trainees through EBR are not currently collected.

4. The method of classifying degree subjects changed as a result of the introduction of the JACS coding structure in 2002/03. Data collected prior to this date under the HESA coding system cannot be directly compared using the direct match alone. Therefore figures which a direct match and a related match to the subject of ITT training have been presented.

5. Performance profiles data are collected at the end of a trainees first year, therefore 2006/07 data are collected in autumn 2007 and will be published in July 2008.

6. The table above only covers those who hold a first degree in the subject of their ITT training course, it does not cover those who have a first degree in mathematics or science but are entering an ITT course which is not mathematics or science.

7. There are additional postgraduate trainees on mathematics and science ITT courses where the first degree is unknown, so there are potentially more mathematics and science graduates entering teaching posts.

8. Figures include trainees who enter maintained schools, non-maintained schools and schools where the sector is unknown.

9. Trainees known not to be employed in teaching posts six months after gaining QTS include those who are seeking a teaching post and those who are not seeking a teaching post and those with an unknown destination.

10. The above figures only cover those who are known to enter a teaching post six months after gaining QTS, therefore those who enter teaching after this will not be covered. This will also not include graduates who enter teaching who are not Newly Qualified Teachers.

*Source:*

TDA's Performance Profiles

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many mathematics graduates entered training to become secondary school teachers in each year since 1997. [171037]

**Jim Knight:** The following table shows the number of Mathematics graduates and the number of graduates with a degree relating to Mathematics who were entering postgraduate Initial Teacher Training (ITT) courses to qualify as a secondary school teacher in mathematics, through Mainstream ITT and Employment Based Routes (EBR), between 1998/99 and 2005/06

| | *Number of mathematics graduates entering ITT courses in mathematics* | | *Number of graduates with a degree relating to mathematics entering ITT courses in mathematics* | |
|---|---|---|---|---|
| *Year of entry* | *Mainstream* | *EBR* | *Mainstream* | *EBR* |
| 1998/99 | 470 | — | 60 | — |
| 1999/2000 | 570 | — | 70 | — |
| 2000/01 | 540 | — | 40 | — |
| 2001/02 | 550 | — | 60 | — |
| 2002/03 | 620 | 100 | 440 | 180 |
| 2003/04 | 790 | 190 | 560 | 200 |
| 2004/05 | 810 | 230 | 570 | 170 |
| 2005/06 | 800 | 250 | 580 | 140 |

*Notes*

1. Mainstream includes Universities and other Higher Education institutions, SCITT and OU, but excludes employment based routes.

2. Figures are rounded to the nearest 10.

3. Data relating to postgraduates first degree was not collected prior to 2002/03 for trainees entering ITT through EBR.

4. The method of classifying degree subjects changed as a result of the introduction of the JACS coding structure in 2002/03. Data collected prior to this date under the HESA coding system cannot be directly compared using the direct match alone. Therefore figures which a direct match and a related match to mathematics have been presented.

5. Performance profiles data is collected at the end of a trainees first year, therefore 2006/07 data is collected in autumn 2007 and will be published in July 2008.

6. The table above only covers those who hold a first degree in the subject of their ITT training course, it does not cover those who have a first degree in mathematics but are entering an ITT course which is not mathematics.

7. There are additional postgraduate trainees where the first degree is unknown.

| 1999/2000 | Mainstream | 1,320 | 1,110 | 370 | 300 |
| | EBR | — | — | — | — |
| 2000/01 | Mainstream | 1,230 | 1,060 | 500 | 420 |
| | EBR | — | — | — | — |
| 2001/02 | Mainstream | 1,310 | 1,120 | 570 | 490 |
| | EBR | — | — | — | — |
| 2002/03 | Mainstream | 710 | 630 | 1,180 | 1,030 |
| | EBR | 180 | 160 | 220 | 200 |
| 2003/04 | Mainstream | 790 | 680 | 1,520 | 1,280 |
| | EBR | 200 | 170 | 250 | 220 |

| | Route to ITT | Postgraduate science trainees with a degree in science: Total number final year of trainees | Postgraduate science trainees with a degree in science: Number of final year trainees gaining QTS | Postgraduate science trainees with a degree in a science related subject: Total number final year of trainees | Postgraduate science trainees with a degree in a science related subject: Number of final year trainees gaining QTS |
|---|---|---|---|---|---|
| 2004/05 | Mainstream | 750 | 620 | 1,450 | 1,200 |
| | EBR | 30 | 30 | 560 | 520 |
| 2005/06 | Mainstream | 750 | 660 | 1,720 | 1,430 |
| | EBR | 110 | 100 | 510 | 440 |

*Notes:*

1. Mainstream includes Universities and other Higher Education institutions, SCITT and OU, but excludes employment based routes.

2. Figures are rounded to the nearest 10. * represents values which round to under 10

3. Data relating to postgraduates first degree was not collected prior to 2002/03 for trainees entering ITT through EBR

4. The method of classifying degree subjects changed as a result of the introduction of the JACS coding structure in 2002/03. Data collected prior to this date under the HESA coding system cannot be directly compared using the direct match alone. Therefore figures which a direct match and a related match to science have been presented.

5. Performance profiles data is collected at the end of a trainees first year, therefore 2006/07 data is collected in autumn 2007 and will be published in July 2008.

6. The table above only covers those who hold a first degree in the subject of their ITT training course, it does not cover those who have a first degree in science but are entering an ITT course which is not science.

7. There are additional postgraduate trainees on science ITT courses where the first degree is unknown, so there are potentially more science graduates gaining QTS in science ITT.

8. Trainees who have not gained QTS include final year trainees who are yet to complete their course, those with withheld QTS (including those where their skills test was not met, their standards were not met and where both their standards and skills test were not met) and those where the skill test has not been taken (include those whose standards were met and those whose standards were not met).

TDA's Performance Profiles

## National Council for Educational Excellence

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many times the National Council for Educational Excellence has met since June 2007; what recommendations it has produced; and if he will publish its *(a)* agendas and *(b)* conclusions. [172097]

**Jim Knight:** The council met on 18 July, 13 September and 20 November 2007.

Copies of the agenda, summary note and full minutes for each meeting have been placed in the Library, as well as a report of council members' views and advice about setting 10 year goals for world class education performance. These papers provide an overview of the council's work to date.

## Children's Plan: Primary Education

**Robert Key:** To ask the Secretary of State for Children, Schools and Families what plans he has to extend the academies programme to primary and junior schools; and if he will make a statement. [169289]

**Jim Knight:** There are currently no plans for the Academies programme to extend to schools solely catering for pupils of primary or junior school age. However, the programme does extend to all-age academies and there are currently eight all-through academies (providing education for all ages from three to 19), with a further six in the pipeline.

Sponsors may also enter an academy proposal in any of the competitions now required under the Education and Inspections Act 2006 for most new and replacement primary and secondary schools.

## Primary Education: Admissions

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many pupils were in maintained primary schools in each year since 1997. [169805]

**Jim Knight:** The available information is largely published in SFR 30/2007 "Schools and Pupils in England: January 2007 (Final)", which can be found via the following link: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml. The information requested is given in the following table:

*Number of pupils in LA maintained primary[1] schools: Position in January each year: 1997 to 2007: England*

| | Number of pupils (headcount)[2] |
|---|---|
| 1997 | 4,429,040 |
| 1998 | 4,460,650 |
| 1999 | 4,460,170 |
| 2000 | 4,435,350 |
| 2001 | 4,406,220 |
| 2002 | 4,363,340 |
| 2003 | 4,309,030 |
| 2004 | 4,252,540 |
| 2005 | 4,204,500 |
| 2006 | 4,148,950 |
| 2007 | 4,107,680 |

[1] Includes middle schools that are deemed primary schools.

[2] Excludes dually registered pupils.

*Source:*

School Census

## Primary Education: Teachers

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what the proportion of applicants accepted on to a primary teacher training course was in each year since 1997; and if he will make a statement. [169803]

**Jim Knight:** Applications for primary initial teacher training (ITT) can be for either an undergraduate or postgraduate course. The number of trainees accepted to undergraduate ITT courses is not held centrally so it is not possible to calculate the overall proportion of applications which are accepted.

The following table shows the number of postgraduate applicants and acceptances to primary ITT courses in England along with the proportion of these applications which were accepted in each year between 2001/02 and 2007/08.

| *Year of application* | *Number of applications to primary postgraduate ITT courses* | *Number of acceptances to primary postgraduate ITT courses* | *Proportion of postgraduate application to primary ITT courses which are accepted (Percentage)* |
|---|---|---|---|
| 2001/02 | 14,200 | 6,610 | 47 |
| 2002/03 | 16,690 | 7,770 | 47 |
| 2003/04 | 19,450 | 8,850 | 45 |
| 2004/05 | 20,180 | 9,320 | 46 |
| 2005/06 | 19,960 | 9,110 | 46 |
| 2006/07 | 20,000 | 8,540 | 43 |
| 2007/08 | 19,070 | 8,330 | 44 |

*Notes:*

1. Data prior to 2001/02 is not available on a consistent basis for England only.
2. Figures are rounded to the nearest 10.
3. Some applications for postgraduate ITT courses are made independently of the Graduate Teacher Training Registry and are not included in the figures.
4. The aforementioned figures include trainees to primary courses and do not include trainees to middle year's courses.
5. Data are as at the end of the application process so are subject to change.
6. Membership to the GTTR changes between years, therefore the higher education institutes covered may vary.

Graduate Teacher Training Registry (GTTR).

The figures are published on the GTTR website at:

http://www.gttr.ac.uk/stats.html

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many qualified primary school teachers worked in maintained primary schools in each year since 1997. [169804]

**Jim Knight:** The available information is given in table 2 of SFR29/2007 School Workforce in England (including pupil: teacher ratios and pupil: adult ratios), January 2007 (Revised) which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000743/index.shtml

The following table shows the available figures, in thousands, for full-time equivalent regular qualified teachers in maintained nursery and primary schools as at January each year.

| | *Qualified regular teachers* |
|---|---|
| 1997 | 190.7 |
| 1998 | 189.0 |
| 1999 | 189.9 |
| 2000 | 191.6 |
| 2001 | 192.6 |
| 2002 | 193.1 |
| 2003 | 191.9 |
| 2004 | 190.4 |
| 2005 | 189.9 |
| 2006 | 192.0 |
| 2007 | 191.6 |

## Children's Plan: Public Participation

**Mr. Henderson:** To ask the Secretary of State for Children, Schools and Families what progress his Department has made in its consultation on the proposed children's plan; and when he expects the consultation process to be completed. [168311]

**Ed Balls:** The consultation on the Children's Plan was conducted during September, October and early November 2007. We obtained views from children, young people, parents and those working with children and young people. 3,181 responses were received. The responses, alongside the views of 400 parents, young people, teachers and people working with children who attended deliberative debates are captured in a report of the key themes emerging from the consultation. The findings of three expert groups, remitted to look at services affecting children and young people, are also big considered.

The consultation process is now complete.

## Pupil Referral Units

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many pupils were sent to a pupil referral unit within six months of reaching the end of key stage 4 in the past year. [171038]

**Jim Knight:** The information is not collected centrally.

## Pupils: Accidents

**Mr. Yeo:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the potential effect on the number of road accidents involving school children of introducing British summer time in winter and double British summer time in summer. [172343]

**Jim Fitzpatrick:** I have been asked to reply.

A Government commissioned report by the Transport Research Laboratory published in October 1998, investigated the effects of the UK adopting single/double summertime (i.e. GMT + one hour in the winter, from October to March, and GMT + two hours in the summer, from March to October) thereby making the evenings lighter throughout the year. It concluded that, there could be a net saving of over 400 people killed or seriously injured per year in Great Britain, including over 100 deaths.

The 1998 research did not identify casualty savings by age.

## Pupils: Attendance

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many pupils attended secondary schools in which there were *(a)* over 1,000, *(b)* over 1,500 and *(c)* over 2,000 pupils in each year since 1997. [169139]

**Jim Knight:** To provide a full-time series since 1997 would involve disproportionate cost. Therefore the available information for a selection of years between 1997 and 2007 are given in the following table:

*Maintained secondary schools, city technology colleges and academies[1]: number of schools and pupils by size of school[2], England*

*Schools with up to and including 1,000 pupils*

| Position in January each year | Number of schools | Number of pupils | Percentage of pupils[3] |
|---|---|---|---|
| 1997 | 2,429 | 1,612,510 | 52.8 |
| 1999 | 2,322 | 1,557,650 | 49.6 |
| 2000 | 2,226 | 1,497,750 | 46.8 |
| 2002 | 1,997 | 1,384,420 | 42.2 |
| 2005 | 1,839 | 1,296,690 | 38.7 |
| 2006 | 1,830 | 1,292,490 | 38.6 |
| 2007 | 1,841 | 1,290,040 | 38.8 |

*Schools with 1,001 to 1,500 pupils*

| Position in January each year | Number of schools | Number of pupils | Percentage of pupils[3] |
|---|---|---|---|
| 1997 | 1,019 | 1,216,690 | 39.8 |
| 1999 | 1,080 | 1,292,450 | 41.2 |
| 2000 | 1,146 | 1,377,020 | 43.1 |
| 2002 | 1,236 | 1,492,860 | 45.5 |
| 2005 | 1,296 | 1,572,330 | 47.0 |
| 2006 | 1,295 | 1,573,270 | 47.0 |
| 2007 | 1,270 | 1,539,480 | 46.3 |

*Schools with 1,501 to 2,000 pupils*

| Position in January each year | Number of schools | Number of pupils | Percentage of pupils[3] |
|---|---|---|---|
| 1997 | 130 | 215,010 | 7.0 |
| 1999 | 167 | 275,210 | 8.8 |
| 2000 | 186 | 308,740 | 9.7 |
| 2002 | 225 | 374,980 | 11.4 |
| 2005 | 261 | 435,420 | 13.0 |
| 2006 | 259 | 433,640 | 13.0 |
| 2007 | 266 | 444,480 | 13.4 |

*Schools with more than 2,000 pupils*

| Position in January each year | Number of schools | Number of pupils | Percentage of pupils[3] |
|---|---|---|---|
| 1997 | 6 | 12,650 | 0.4 |
| 1999 | 6 | 12,790 | 0.4 |
| 2000 | 7 | 14,900 | 0.5 |
| 2002 | 13 | 27,990 | 0.9 |
| 2005 | 20 | 43,240 | 1.3 |
| 2006 | 21 | 45,090 | 1.3 |
| 2007 | 22 | 47,540 | 1.4 |

*All schools*

| Position in January each year | Number of schools | Number of pupils | Percentage of pupils[3] |
|---|---|---|---|
| 1997 | 3,584 | 3,056,870 | 100.0 |
| 1999 | 3,575 | 3,138,090 | 100.0 |
| 2000 | 3,565 | 3,198,410 | 100.0 |
| 2002 | 3,471 | 3,280,250 | 100.0 |
| 2005 | 3,416 | 3,347,680 | 100.0 |
| 2006 | 3,405 | 3,344,490 | 100.0 |
| 2007 | 3,399 | 3,321,530 | 100.0 |

[1] Includes middle schools as deemed.

[2] Based on a headcount of pupils. Excludes dually registered pupils.

[3] The number of pupils by size band of schools expressed as a percentage of the total number of pupils in maintained secondary schools, city technology colleges and academies.

*Note:*

Pupil numbers have been rounded to the nearest 10.

*Source:*

School Census

## Pupils: Per Capita Costs

**Sir Peter Soulsby:** To ask the Secretary of State for Children, Schools and Families what the average spending per secondary school pupil was in *(a)* the city of Leicester, *(b)* Leicestershire and *(c)* England in the last period for which figures are available. [170770]

**Jim Knight:** The information requested is contained within the following table:

*School based expenditure[1] [2] per pupil[3] by local authority maintained secondary schools in Leicester, Leicestershire and England during 2006-07[4]*

| Local authority name | Secondary school based expenditure per pupil[1] [2] [3] [4] [5] (£) |
|---|---|
| England | 4,320 |
| Leicestershire | 3,890 |
| Leicester | 4,600 |

[1] School-based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.

[2] Secondary school based expenditure includes any expenditure on 6th form pupils attending maintained secondary schools.

[3] Pupil numbers include only those pupils attending maintained secondary schools and are drawn from the DCSF Annual Schools Census adjusted to be on a financial year basis.

[4] 2006-07 data is subject to change by the local authority.

[5] Figures are rounded to the nearest 10.

[6] Cash term figures as reported by local authorities as at 29 November 2007.

## Reading: Teaching Methods

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what steps his Department has taken to promote synthetic phonics for the teaching of reading in primary schools. [169163]

**Jim Knight:** The importance of phonics in the teaching of reading has always played a key part in our guidance to primary schools. Following the publication of Sir Jim Rose's "Independent review of the teaching of early reading", we accepted all of the review's recommendations, and we have paid particular attention to the recommendation that phonics should be taught as the prime approach to learning to read. We have renewed the Primary National Strategy's framework for teaching literacy to reflect this. The renewed framework now says that systematic phonics is the best route to teach children to read. With help from Jim Rose, we have developed a high quality systematic phonics teaching programme, Letters and Sounds, to support teachers in implementing these changes. To help schools that wish to choose a commercial scheme instead, we have published guidance on a set of criteria which define the key features of an effective phonics teaching programme and which build directly on the review's recommendations for high quality phonic work. Publishers of such schemes are able to provide a self-evaluation against these criteria on our phonics website.

We have taken steps to ensure that local authorities have the capacity and expertise to support schools in developing effective phonics teaching. The Primary National Strategy's Communication, Language and Literacy Development programme has provided training in early reading for every local authority and funded additional consultants to lead this work in 50 targeted local authorities. This programme will build greater quality and capacity in the teaching of early literacy through developing work on speaking and listening and strengthening leadership and management of early literacy in schools.

We are also working with local authorities and the Training and Development Agency to ensure that newly qualified practitioners are equipped with the necessary skills to implement the recommendations from Sir Jim Rose's review.

### School Leaving

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what sanctions may be applied to young people aged 16 to 18 years who fail to pay fines imposed as a consequence of not being in education or training at age 16 to 18 years under the Education and Skills Bill if enacted; and if he will make a statement. [171927]

**Jim Knight:** The young person can avoid the enforcement process, as it is designed as a deterrent. They can do this by complying with their duty to participate; having a reasonable justification as to why they were not participating; or by showing that they are taking the right steps towards participation. In these cases the young person would not get a fixed penalty notice. If the young person does not pay the fixed penalty notice the local authority will have the power to prosecute them in the Youth court. If a fine is unpaid, it is enforceable using the Youth court's usual powers, such as taking the money from wages or imposing an unpaid work requirement.

### Schools: Biometrics

**Ms Buck:** To ask the Secretary of State for Children, Schools and Families what guidance his Department has issued on the *(a)* use of and *(b)* merits of consultation with parents in relation to the sharing and disposal of data on change of school in relation to biometric identification systems in schools. [167621]

**Jim Knight:** Guidance on the implementation and use of biometric data in schools is available on Becta's website at:

http://schools.becta.org.uk/index.php?section=lv&catcode=ss_lv_saf_dp_03&rid=14160

The guidance, published in July 2007 by Becta and developed in consultation with the Department for Children, Schools and Families and the Information Commissioner's Office, advises schools to fully involve parents in any decision to introduce biometric or fingerprint technology to run cashless lunch queues, school libraries and attendance systems.

The guidance underlines that head teachers and governing bodies should be clear and open with all parents and pupils about this and all aspects of their education. The guidance also signposts further advice and support for schools to assist them in meeting their obligations under the Data Protection Act, including ensuring that personal data is kept safe and secure and is not held for longer than necessary. As soon as any pupil leaves a school, their biometric identification data collected for administrative technology systems should be destroyed.

In addition, the Information Commissioner's Office have published their view on the use of biometric technologies in schools. This is available at:

http://www.ico.gov.uk/upload/documents/library/data_protection/detailed_specialist_guides/fingerprinting_final_view.pdf

### Schools: Catering

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what target he has set for the number of schools which should have kitchens with cooking facilities; and if he will make a statement. [172111]

**Jim Knight:** The Department has not set a target for the number of schools which should have kitchens with cooking facilities. Schools can deliver hot food in a number of different ways, some of which do not require kitchen facilities.

The Government are making a significant capital investment to improve school buildings. This includes a specific fund of £150 million for local authorities from 2008 to support the provision of new kitchens in local authorities with the greatest need.

### Schools: Closures

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many *(a)* secondary and *(b)* primary schools closed in each local authority area in each year since 1997. [171945]

**Jim Knight:** Tables showing the number of secondary and primary schools closed in each year since 1997, by local authority, have been placed in the Library.

Schools can be closed for a number of reasons including: to meet demographic changes (population decline); as part of an amalgamation; to allow a Fresh Start school to replace a school in special measures; to allow a school with a religious character to replace a school without a religious character; or as part of another type of local reorganisation.

The figures also show closures as part of the Local Government Reorganisation programme.

It was not mandatory to supply school closure dates prior to January 2002 and therefore the figures for the years 1997 to 2002 may not be complete.

### Schools: Construction

**Andrew Stunell:** To ask the Secretary of State for Children, Schools and Families what percentage of school buildings approved by his Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172290]

**Jim Knight:** The Department does not approve school projects. DCSF did however issue guidance on 'BREEAM Schools' ratings in the spring of 2005 including the expectation that all new and refurbished schools above a threshold size and value should be built to achieve a 'BREEAM Schools' rating of very good or excellent. We consider this to be a challenging but achievable target in the majority of schools. We do not know if the school buildings certified to BREEAM Schools at the design and procurement stage have actually been built to the BREEAM standards 'Very Good' or 'Excellent' as they have not undergone a post construction review. We do however know the numbers of ratings that have been achieved at the design and procurement stage.

'BREEAM Schools' was introduced by the Building Research Establishment in October 2004. No schools were registered for assessment before 1 April 2005. In the financial year 1 April 2005 to 30 March 2006, 126 schools were registered with BRE for a BREEAM assessment. From 1 April 2006 until 30 November 2006 a further 221 schools were registered for an assessment and by the end of this period four schools had been assessed. From 1 December 2006 until 6 December 2007 a further 254 schools were registered for an assessment and a further 18 schools were assessed. This brings the total number of schools that have been registered to 601 and the number assessed to 22. The ratings achieved so far are broken down as follows:

| *Type of school* | *Number of pass ratings* | *Number of good ratings* | *Number of very good ratings* |
|---|---|---|---|
| Primary | 1 | 6 | 5 |
| Secondary | 1 | 1 | 1 |
| Academy | 1 | 4 | 2 |

Some of the early schools may have been at an advanced stage of design when DCSF issued guidance in 2005 on the ratings expected and may also have suffered from a lack of experience of sustainable design. As designers get more experience of designing sustainable schools we expect to see a higher proportion of schools achieving the expected standard. There will always however be schools where site constraints mean that some of the BREEAM credits are unavailable making it very difficult and probably uneconomic to achieve a very high rating in these cases. It should be remembered that BREEAM credits are only given where designs exceed regulatory minimum standards as laid out in the building regulations and the like.

We will be monitoring the results as they come in for the 579 schools that have been registered for an assessment but for which the assessments have yet to be completed. We do not know the names or the construction costs of the schools.

### Schools: Crimes of Violence

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many assaults on school staff by pupils were recorded in each of the last three years. [169160]

**Jim Knight:** Information on the number of assaults on school staff is not collected centrally.

For information on the number of assaults on adults which resulted in exclusion from school, I refer the hon. Member to the reply given to the hon. Member for Yeovil (Mr. Laws) on 14 November 2007, *Official Report*, column 276W.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many incidences of violence have been reported in *(a)* secondary and *(b)* primary schools in the past three years. [171034]

**Jim Knight:** Information on the number of reported incidents of violence is not collected centrally.

### Schools: English Language

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many *(a)* secondary schools and *(b)* primary schools there were where more than (i) 30 per cent., (ii) 50 per cent. and (iii) 70 per cent. of pupils spoke English as a second language in the latest period for which figures are available, broken down by local authority. [169138]

**Jim Knight:** The requested information is as follows, and has been placed in the Library.

*Maintained Primary and Secondary Schools: Number of Schools by Percentage of School Population whose First Language is Known or Believed to be other than English[1, 2, 3], by Local Authority Area, as at January 2007*

| | | *Number of Schools by Percentage of School Population whose First Language is Known or Believed to be other than English* | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | *Primary* | | | | | *Secondary* | | | | |
| | | *Up to and including 30 per cent.* | *31 per cent. to 50 per cent.* | *51 per cent. to 70 per cent.* | *More than 70 per cent.* | *Total* | *Up to and including 30 per cent.* | *31 per cent. to 50 per cent.* | *51 per cent. to 70 per cent.* | *More than 70 per cent.* | *Total* |
| | England | 15,465 | 753 | 574 | 569 | 17,361 | 2,991 | 157 | 112 | 83 | 3,343 |

*Maintained Primary and Secondary Schools: Number of Schools by Percentage of School Population whose First Language is Known or Believed to be other than English[1, 2, 3], by Local Authority Area, as at January 2007*

n/a = Not applicable, no schools of this type. [1] Includes middle schools as deemed. Excludes city technology colleges and academies. [2] Pupils of compulsory school age and above are classified according to their first language. This analysis is based on percentages rounded to the nearest whole number. [3] Excludes dually registered pupils. *Source:* School Census.

## Schools: Finance

**Bill Wiggin:** To ask the Secretary of State for Children, Schools and Families (1) what the reasons were for the amount allocated to Herefordshire for the school funding settlement for 2008-09 to 2010-11; and if he will make a statement; [170962]

(2) when he decided the school funding settlement for 2008-09 to 2010-11; what consideration he gave to rural factors; what rural factors he takes into account; and if he will make a statement. [170963]

**Jim Knight:** Herefordshire local authority will receive a basic increase per pupil in their allocation of dedicated schools grant (DSG) of 3.1 per cent. for 2008-09, and 2.9 per cent. for 2009-10 and 2010-11, together with funding for the following ministerial priorities: personalised learning and SEN; and bringing the authority up to the level of the funding formula in 2005-06. This results in increases of 4.7 per cent. 3.9 per cent. and 4.5 per cent. per pupil, and an above average increase of 13.6 per cent. for the three year period as a whole. Further details of the calculation of Herefordshire's DSG allocations can be found at:

http://www.teachernet.gov.uk/docbank/index.cfm?id=12222

The starting point for the calculation of Herefordshire's 2008-09 DSG allocation is its DSG guaranteed unit of funding per pupil, which in turn depends on the amount the authority budgeted to spend in 2005-06. This was closely related to the schools formula spending share (FSS) calculation, which took account of the needs of rural authorities through an addition for pupils in primary schools: this recognised the additional costs faced by rural authorities in keeping open more small primary schools than other authorities.

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how much deprivation-related school funding was *(a)* allocated by his Department and *(b)* passed on by local authorities in each local authority area in the latest year for which information is available. [172101]

**Jim Knight:** The following table sets out the amount of deprivation funding in each local authority's indicative allocation of Dedicated Schools Grant in percentage terms for 2007-08. We have asked all local authorities to set out how much of this funding they currently pass on to schools through factors for social deprivation in their funding formulae for schools, and we are currently quality assuring their responses: we expect to publish this information in the new year.

## Schools: Standards

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many schools have been placed in special measures more than once since 1997. [171033]

**Jim Knight:** Between 1 September 1997 and 3 December 2007, 51 schools have been placed in special measures more than once following an inspection by Ofsted. This number represents 2.9 per cent. of the total number of schools placed in the special measures category during this period. 11 of the 51 schools have now closed.

## Secondary Education: Standards

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many pupils at Key Stage 4 gained *(a)* no qualifications and *(b)* no GCSEs in 2007. [169141]

**Jim Knight:** The available information is published in table 1 and table 8 of the Statistical First Release "GCSE and equivalent results in England 2006/07 (provisional)" which is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000754/index.shtml

The percentage of pupils at the end of Key Stage 4 who gained no qualifications was 0.9 per cent.

The percentage of pupils at the end of Key Stage 4 who did not gain at least a grade G in any GCSE subject was 3 per cent.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what proportion of the total number of pupils at Key Stage 4 who gained no qualifications in the latest period for which figures are available were eligible for free school meals. [169144]

**Jim Knight:** The available information is published in table 8 of the Statistical First Release "National Curriculum Assessment, GCSE and Equivalent Attainment and Post-16 Attainment by Pupil Characteristics, in England 2006/07" which is available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000759/index.shtml

The percentage of pupils at the end of Key Stage 4 who were eligible for free school meals who achieved no qualifications (i.e. did not achieve the equivalent of a grade G at GCSE in any subject in 2006/07) was 5.4 per cent., with 94.6 per cent. achieving the equivalent of at least one pass. The corresponding percentage of pupils who were not eligible for free school meals was 1.9 per cent., with 98.1 per cent. achieving the equivalent of at least one pass.

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many maintained mainstream schools there were in which pupils at Key Stage 4 achieved no qualifications in the latest period for which figures are available. [169145]

**Jim Knight:** 2007 data are not yet published. The data will be published in January and then placed in the House of Commons Library where the data for previous years can already be found.

## Special Educational Needs

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what his latest estimate is of the average time to statement a child in each local authority area. [169839]

**Jim Knight:** The Department for Children, Schools and Families has not made any estimate of average time taken to conduct a statutory assessment and prepare a statement for a child with special educational needs (SEN).

The Audit Commission collect and publish information on the performance of local authorities against Best Value Performance Indicators (BVPIs). BVPI 43 (a) and (b) measure the percentage of draft SEN statements prepared within the statutory 18 weeks and issued by the authority in a financial year. Guidance on these indicators and published data is available from the Audit Commission's website.

From April 2008, we plan to replace BVPI 43 with a national indicator as part of the national indicator set, on which the Department for Communities and Local Government are currently consulting. The indicator will look at the percentage of statements finalised within 26 weeks.

## Specialist Schools and Academies Trust National Conference

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families for what reasons his speech to the Specialist Schools and Academies Trust National Conference was deferred from 28 November to 29 November; and if he will make a statement. [172176]

**Ed Balls:** I moved my speech at the Specialist Schools and Academies Trust National Conference from 28 November to 29 November due to urgent parliamentary business.

## Studio Schools

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what research he has commissioned into studio schools. [169132]

**Jim Knight:** The former Department for Education and Skills' (DFES) Innovation Unit provided funding to the Young Foundation to develop its Studio Schools concept as follows:

*DFES Innovation Unit*

2006-07—£12,000 (Studio Schools concept)

*The IU Ltd.*

2006-07—£25,000 (Phase II of the Studio Schools concept)

2007-08—£25,000 (Phase III of the Studio Schools project)

2007-08—£60,000 pending as field trial grant

In September 2007 a national trial of the Studio Schools concept commenced at Barnfield College, Luton (linked with Barnfield West Academy) where 28 students will be following a Studio Schools-designed curriculum. This pilot is run by the Innovation Unit and the Young Foundation. It will run for a year and involve 90 students. Another short pilot is planned for Newham over summer next year (2008) to give 60 students a six week studio school experience.

The lessons from these pilots will be used by the Young Foundation and the Innovation Unit to inform the development of other studio schools.

The Department for Children, Schools and Families (DCSF) is exploring how Studio Schools might link with the Academies programme. To inform this work

DCSF has engaged consultants to look at the current Studio School pilot in Luton and to discuss the concept with the Young Foundation and other local authorities which have expressed an interest.

### Teachers: Labour Turnover

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many head teachers left the profession in each year between 1997 and 2007. [169137]

**Jim Knight:** Information on the number of teachers leaving service is not available broken down by grade including head teachers.

### Teaching: Standards

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to increase standards of teaching in the West Midlands. [167897]

**Jim Knight** *[holding answer 26 November 2007]*: Standards of teaching and learning in primary and secondary schools have risen substantially since 1997. This is as a result of a number of factors, including challenge and support through the Primary and Secondary National Strategies. They provide; continuing professional development to primary and secondary schools to support them in raising standards in teaching; support better use of pupil performance data and challenge schools and local authorities to set ambitious targets for their pupils. In 2007-08 funding of £45 million was provided for the West Midlands in 2007-08 to support improvement programmes in teaching and learning with specific focus on core subjects through the National Strategies.

Earlier this year, the Government announced that the Black Country—which includes Dudley, Sandwell, Walsall and Wolverhampton—had been chosen as one of the regions to benefit from the new City Challenge programme. This programme will be formally launched in April 2008, and the region will receive about £28 million over the next three years to support around 190,000 pupils in those local authorities.

The main objectives of the programme are:

A sharp drop in underperforming schools, particularly focusing on English and Maths

More outstanding schools

Significant improvements in educational outcomes for disadvantaged children.

### Youth Unemployment and Training Greater London

**Mr. Boris Johnson:** To ask the Secretary of State for Children, Schools and Families how many *(a)* 16, *(b)* 17, *(c)* 18 and *(d)* 19 year old (i) women and (ii) men were receiving education or training but were not in employment in each London borough in each of the last 10 years. [169829]

**Jim Knight:** The Department's estimates of the number and proportion of young people in education, employment or training cannot be disaggregated to regional or local authority level. However, it is possible to produce estimates of the number and proportion of 16 to 19-year-olds[1] in education or training but not in employment by local authority using the Annual Population Survey (APS), formerly the Local Labour Force Survey (LLFS). The estimates for London boroughs are shown in the following table. It is not possible to break down the estimates by gender or single age because of insufficient sample sizes. Figures are only available since 2001/02.

As with all survey estimates, the estimates from the APS and LLFS are subject to sampling error. Estimates from the APS and LLFS will not be directly comparable to the Department's national participation estimates, which are available at the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/index.shtml

[1] The percentage of 16 to 19-year-olds in employment or training but not in employment relates to academic age and is the average over a whole year.

[2] Data for City of London were included with Westminster in the APS and LLFS data.

### Vocational Education: Finance

**Matthew Taylor:** To ask the Secretary of State for Children, Schools and Families what central Government funding was for vocational higher education in *(a)* Cornwall and *(b)* England in each year since 1979. [166708]

**Bill Rammell:** I have been asked to reply.

It is not possible to answer the question in precisely the way it has been asked. Total Government funding for higher education has risen from around £500 million in 1979 to some £10 billion today, but successive Governments have not allocated funding on the basis of particular areas or types of provision, but largely on the basis of supply and demand. We are keen to raise both the demand for and supply of sustainable higher education opportunities in Cornwall and will continue to work with a range of partners to try to achieve this.

### Young People: Employment

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the likely effects of the provisions of the Education and Skills Bill if enacted on the employment of young people aged 16 to 18 years; and if he will make a statement. [171926]

**Jim Knight:** Under the policy to raise the participation age 16 and 17-year-olds will still be able to work, as long as they are in some form of education or training alongside this. There will be no effect on those currently in full-time employment, and there will never be a situation in which full time employees suddenly have to change to part time working—the first 16-year-olds to be affected are aged 10 now. Young people will know before entering employment at 16 that they have to be in learning part time. And they will not all necessarily work part time. Some will work full time and be provided will accredited training by their employer, and we will encourage employers to do this. Some may rearrange their working hours to attend part time training, rather than working fewer hours. The impact assessment for the Education and Skills Bill was published alongside the Bill on 29 November and copies have been placed in the Library of the House. The impact assessment sets out that the estimated foregone productivity cost to the economy of some young people being released for education or training for one day a week who might otherwise have worked full-time is estimated to be around £4.3 million per cohort.

### Young People: Unemployment

**Mr. Hepburn:** To ask the Secretary of State for Children, Schools and Families how many people aged *(a)* 16 and *(b)* 17 in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK were not in education, employment or training in each year since 1997. [169841]

**Beverley Hughes:** The Department publishes annual estimates of the number of 16 and 17-year-olds not in education, employment or training (NEET) in England. Figures for 1997 to 2006 are shown in the following table. Equivalent information for the UK is not available.

| | *16 year-olds NEET* | *17 year-olds NEET* |
|---|---:|---:|
| 1997 | 38,100 | 48,000 |
| 1998 | 44,900 | 49,800 |
| 1999 | 41,800 | 41,800 |
| 2000 | 42,400 | 43,700 |
| 2001 | 45,900 | 59,000 |
| 2002 | 49,800 | 55,000 |
| 2003 | 51,400 | 47,500 |
| 2004 | 51,000 | 59,000 |
| 2005 | 53,000 | 73,300 |
| 2006 (provisional) | 42,800 | 62,700 |

The 16 and 17-year-old population has risen from 1.217 million to 1.322 million during this period.

These estimates cannot be disaggregated to regional, local authority or constituency level. However, we can use information collected by the Connexions Service to estimate the number NEETs at local authority level since 2005, and regionally since 2003. This is shown in the following table.

| | *As at December each year* | *South Tyneside* | *North East* | *England* |
|---|---|---:|---:|---:|
| *Age 16* | 2003 | — | 2,370 | 31,170 |
| | 2004 | — | 2,250 | 29,680 |
| | 2005 | 120 | 2,190 | 29,650 |
| | 2006 | 100 | 1,960 | 27,160 |
| *Age 17* | 2003 | — | 4,090 | 53,340 |
| | 2004 | — | 4,030 | 49,530 |
| | 2005 | 260 | 4,140 | 52,190 |
| | 2006 | 200 | 3,710 | 47,200 |

Figures are not available for Jarrow constituency.

The DCSF and Connexions estimates are collected very differently. They use different definitions of age and NEET. As a result, Connexions estimates are lower, although the two sets of figures generally show a similar trend across a period of time.

## TREASURY

### Bank Services

**Mr. Fallon:** To ask the Chancellor of the Exchequer on what date he or another Minister in his Department was first advised by the Bank of England of its view that the bank depositors' protection scheme needed improvement. [162908]

**Kitty Ussher** *[holding answer 12 November 2007]*: The UK compensation scheme is significantly more generous than the minimum requirements set in EU legislation. The Tripartite Authorities, following an exercise involving the then Economic Secretary, the Governor of the Bank of England and the chairman of the Financial Services Authority in November 2006, came to a shared view that work should be undertaken on potential reforms to the Financial Services Compensation Scheme. The Tripartite Authorities were regularly updated on the progress of this work throughout 2007, which culminated in the proposals contained in FSA document 'Financial Services Compensation Scheme—Funding Review (March 2007)' and the Tripartite discussion document 'Banking Reforms—Protecting Depositors: A discussion Paper (October 2007)'.

### Breast Cancer

**Mr. Andy Reed:** To ask the Chancellor of the Exchequer how many *(a)* women and *(b)* men have been diagnosed with breast cancer at the most recent date for which figures are available. [172091]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many *(a)* women and *(b)* men have been diagnosed with breast cancer at the most recent date for which figures are available. [172091]

The latest available figures for newly diagnosed cases (incidence) of malignant neoplasm of breast are for the year 2004, and are available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vink=8843&Pos=&ColRank=1&Rank=272

In England, *(a)* 36,939 women and *(b)* 272 men were diagnosed in 2004.

## Low-carbon vehicles: allowances for businesses

**Mr. Hancock:** To ask the Chancellor of the Exchequer if he will extend the current system of offering enhanced capital allowances to enable businesses to write-down the capital costs of low-carbon vehicles during the first year of ownership to cover scooters. [172577]

**Angela Eagle:** The 100 per cent. first year allowance (FYA) for expenditure on cars with low carbon dioxide emissions expires next March.

As announced at the 2007 pre-Budget report, the Government are currently considering options for the taxation of business cars and there will be further announcements at Budget 2008.

## Cancer: Death

**Mark Simmonds:** To ask the Chancellor of the Exchequer what the death rates from cancer in under 75-year-olds were in *(a)* England, *(b)* each strategic health authority area and *(c)* each primary care trust area in each year since 2000. [172582]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician, I have been asked to reply to your recent question asking what the death rates from cancer in under 75 year olds were in (a) England, (b) each strategic health authority area, and (c) each primary care trust area in each year since 2000. (172582)

Mortality rates for the current NHS organisations in England are available from 2002 onwards. The attached table provides the age-standardised mortality rate from all cancers for persons under 75 years old, in (a) England, (b) strategic health authorities and (c) primary care organisations, from 2002 to 2006 (the latest year available). A copy has been placed in the House of Commons Library.

*Table 1. Age-standardised mortality rate from cancer1.2, all persons aged under 75 years, in England, strategic health authorities and primary care organisations[3], 2002-06[4]*

| Swindon | 117 | 115 | 101 | 120 | 126 |
| Torbay | 138 | 115 | 101 | 112 | 105 |
| Wiltshire | 115 | 108 | 100 | 97 | 104 |

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes COO to C97.

[2] Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages.

[3] Based on boundaries as of 2007. The 152 primary care organisations include 148 primary care trusts (PCTs), and four care organisations (CO's).

[4] Figures are for deaths registered in each calendar year.

### Capital Gains Tax

**Dr. Cable:** To ask the Chancellor of the Exchequer pursuant to the answer of 26 November 2007, *Official Report*, column 47W, on capital gains tax, if he will estimate the revenue implications of taxing capital gains at the same marginal rates as income tax, with indexation from April 2008. [171466]

**Jane Kennedy** *[holding answer 5 December 2007]:* The revenue yield from taxing all capital gains at the income tax rates announced for 2008-09 with indexation allowance but without applying taper relief would be of the order of £3 billion a year by comparison with the current (2007-08) regime. This is a broad estimate that assumes continuation of the tax-free annual exempt amount and takes into account the likely taxpayer response to the change.

**Paul Holmes:** To ask the Chancellor of the Exchequer what estimate he has made of the capital gains tax (CGT) revenues received by the Exchequer from sales of residential properties in each of the last five years; and what estimate he has made of the net effect on this CGT revenue stream of the proposed reforms to CGT announced in the October 2007 pre-Budget report. [172798]

**Jane Kennedy:** Capital gains tax paid depends on the taxpayer's total gains, losses, reliefs and marginal rate, so it is not possible to attribute amounts of tax to separate disposals. Statistics on the number of disposals, disposal value and gains made on assets disposed of in 2004-05 by type of asset, including residential property, are available in National Statistics table 14.4 on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/capital_gains/menu.htm

The 2007 pre-Budget report announced a reform of the capital gains tax regime for individuals. From 6 April 2008, all disposals that attract capital gains tax will do so at a rate of 18 per cent.

### Capital Gains Tax: Private Equity

**Mr. Drew:** To ask the Chancellor of the Exchequer what assessment he has made of the effect of proposed changes in capital gains tax on private equity firms. [172636]

**Jane Kennedy:** The 2007 pre-Budget report announced a reform of the capital gains tax regime for individuals. From 6 April 2008, all disposals that attract capital gains tax will do so at a rate of 18 per cent. Along with changes to address loopholes and anomalies in the residence and domicile rules, these changes will increase the fairness of the tax system including for individuals in the private equity industry.

### Child Benefit Office: Pay

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many staff in the IT department at the Child Benefit Office received bonuses in the last 12 months for which figures are available; and how much was paid out in such bonuses in total. [168945]

**Jane Kennedy** *[holding answer 27 November 2007]:* The Child Benefit Office is one of a number of HMRC business units responsible for delivering child benefit. 18 HMRC staff work in IT support for child benefit IT systems. The director of Information Management Systems recognises exceptional performance through a recognition bonus scheme.

Due to the small size of the IT team that supports child benefit IT systems it may be possible to identify individuals from this information and consequently it is not appropriate to say whether and how many bonuses were paid during the last 12 month period for which figures are available.

### Child Benefit: Personal Records

**Mr. Chope:** To ask the Chancellor of the Exchequer (1) when HM Revenue and Customs was first informed by the National Audit Office of the non-arrival of information from the child benefit database despatched on 18 October; [167702]

(2) how many officials in his Department have had access to the child benefit database in 2007; and what action he has taken to reduce the numbers having such access. [167703]

**Jane Kennedy** *[holding answer 26 November 2007]:* It would be inappropriate to comment on these issues as there is an on-going police investigation.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

**Mr. Gauke:** To ask the Chancellor of the Exchequer (1) how many HM Revenue and Customs (HMRC) officials had access to a full copy of HMRC's data on the payment of child benefits as at 18 October 2007; [167771]

(2) how many CD copies have been made of the full copy of HM Revenue and Customs' data on the payment of child benefit in the last 12 months. [167772]

**Jane Kennedy** *[holding answer 26 November 2007]:* It would be inappropriate to comment on these issues as there is an ongoing police investigation.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Lynne Jones:** To ask the Chancellor of the Exchequer what steps he plans to take to help alleviate concerns of child benefit recipients whose data was lost by HM Revenue and Customs on possible *(a)* identity fraud and *(b)* criminal use of bank or building society account details. [168651]

**Jane Kennedy:** I refer the hon. Member to the statement given in the House by my right hon. friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04. The Acting Chairman of HMRC has also written to all customers affected, reassuring them that the police continue to have no reason to believe that the data has found its way into the wrong hands and setting out the advice that my right hon. friend the Chancellor offered in his statement.

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many staff work in the Child Benefit Office's IT department. [168909]

**Jane Kennedy:** The Child Benefit Office is one of a number of HMRC business units responsible for delivering child benefit. 18 HMRC staff work in IT support for Child Benefit IT systems.

### Child Benefit: Pregnant Women

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer what representations he received in favour of the introduction of child benefits in pregnancy before his 2006 pre-Budget speech; and if he will place copies in the Library. [172933]

**Jane Kennedy:** HM Treasury received a wide number of representations before the 2006 pre-Budget report on tax and benefits issues, which formed part of the process of policy development for the 2006 pre-Budget report.

### Defence: Expenditure

**Mr. Streeter:** To ask the Chancellor of the Exchequer what percentage of total Government expenditure in the last financial year was spent on *(a)* defence and *(b)* conflict prevention and resolution. [172295]

**Andy Burnham:** Table 4.3 of Public Expenditure Statistical Analyses 2007 sets out total expenditure on services in real terms and the proportion spent on defence. Separately, section 2 of MOD's annual report and accounts 2006-07 sets out the spend in that year directly attributable to conflict prevention.

### Departmental Data Protection

**Keith Vaz:** To ask the Chancellor of the Exchequer how much was budgeted by his Department in the last 12 months for ensuring the security of personal information. [168470]

**Jane Kennedy:** The information requested is not available. The costs of information security are included in the overall costs of running HMRC.

### Departmental Expenditure

**Justine Greening:** To ask the Chancellor of the Exchequer how much his core Department spent on *(a)* staff salaries and *(b)* administrative costs in each year since 2003-04; and if he will make a statement. [170348]

**Angela Eagle:** Details of salaries paid to staff in core Treasury in each year since 2003-04 are as follows:

| | *Salary paid (£)* |
|---|---|
| 2003-04 | 61,396,000 |
| 2004-05 | 60,878,000 |
| 2005-06 | 63,757,000 |
| 2006-07 | 64,354,000 |

Details of administrative costs spending can be found in Table 7.4 of the Treasury's Annual Report and Accounts 2006-07, HC 518. A copy of the document can be found at

hm-treasury.gov.uk.

### Departmental ICT

**Mark Williams:** To ask the Chancellor of the Exchequer what the latest forecasted cost is of the delivery of the ASPIRE IT support project. [169318]

**Jane Kennedy** *[holding answer 4 December 2007]:* The current projected cost, before inflation, of the ASPIRE IT Services contract, which now runs until 2017, is £7.7 billion, £800 million less than the projected cost disclosed at PAC last year.

### Departmental Manpower

**Tom Brake:** To ask the Chancellor of the Exchequer how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172262]

**Angela Eagle:** HM Treasury Group publishes the progress against efficiency targets in its Spring Annual Report and Accounts and Autumn Performance Report. The 2007 Autumn Performance Report will be published shortly.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170225]

**Angela Eagle:** I refer the hon. Gentleman to the answer I gave him on 8 October 2007, *Official Report*, columns 217-18W.

### Departmental Public Expenditure

**Justine Greening:** To ask the Chancellor of the Exchequer how much of the core Treasury's Strategic Reserve was spent on activities *(a)* not defined as and *(b)* not previously categorised as strategic reserve-funded activities in each year since 2003-04; and if he will make a statement. [170345]

**Angela Eagle:** I refer the hon. Member to the answer I gave her on 20 November 2007, *Official Report*, column 702W.

### Excise Duties: Fuels

**Bill Wiggin:** To ask the Chancellor of the Exchequer how much revenue he received from taxation on fuel used by local authorities and by services contracted by local authorities in each year since 1997; and if he will make a statement. [170957]

**Angela Eagle:** Estimates are not available for the revenue received from taxation on fuel used by local authorities and by services contracted by local authorities. Registered traders pay the duty to HMRC and information on the customer is not recorded on the return.

VAT charged to local authorities, and with respect to services contracted out by them, is normally recoverable in full by the purchaser; and so does not represent net revenue receipts.

### Government Departments: Wastes

**Mr. Hoban:** To ask the Chancellor of the Exchequer what volume of waste was generated by each central Government Department over the last 12 months, as recorded by the Electronic Property Information Mapping Service database. [165550]

**Angela Eagle:** This data is not currently held within the Electronic Property Information Mapping Service database. It is planned to capture this information for the first time in 2008.

### HM Revenue and Customs

**Mr. Gauke:** To ask the Chancellor of the Exchequer pursuant to his statement of 20 November 2007, *Official Report*, columns 1101-18, on HM Revenue and Customs, what representations he has received from banks requesting that he delay announcing the loss of personal data by HM Revenue and Customs. [168796]

**Jane Kennedy** *[holding answer 27 November 2007]*: I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04 and to his subsequent remarks to the House on 28 November 2007, *Official Report*, column 306.

### HM Revenue and Customs: Delivery Services

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many people are employed by HM Revenue and Customs to monitor deliveries placed with mail carriers and at what cost to his Department in the latest period for which figures are available. [169864]

**Jane Kennedy:** It would be inappropriate to comment on this as there is an ongoing police investigation.

On 20 November the Chancellor announced an independent review of HMRC's security processes and procedures for data handling led by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at: http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm and a copy has been placed in the Library of the House.

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer if he will list all mail carriers employed by HM Revenue and Customs to handle outgoing mail. [169939]

**Jane Kennedy:** The following companies handle outgoing mail for HM Revenue and Customs (HMRC):

Royal Mail;
TNT UK Ltd.;
Lynx Express Ltd.;
The DX Group Ltd.; and
G4S Ltd.

### HM Revenue and Customs: Public Appointments

**Harry Cohen:** To ask the Chancellor of the Exchequer what the role is of the director of information technology at HM Revenue and Customs; what his salary is; how many staff there are in his team; and what responsibility he had for the systems in operation prior to the loss of child benefit data. [170011]

**Jane Kennedy:** The chief information officer (CIO) is the head of Information Management Solutions, the directorate that develops and runs the IT systems and solutions that help HMRC achieve its objectives.

The current CIO heads the 1,538 members of staff in the IMS directorate, the equivalent of 1,491 full-time posts. It would not be appropriate to provide details of his salary.

### Home Responsibilities Protection

**David Taylor:** To ask the Chancellor of the Exchequer what recent discussions he has had with HM Revenue and Customs on retrospective applications for entitlement to home responsibilities protection in the tax years immediately after the scheme was introduced in April 1978; and if he will make a statement. [169390]

**Jane Kennedy:** Home responsibilities protection is provided automatically for people in receipt of child benefit, or income support with a carer's premium. In these cases, where a national insurance record does not fully reflect an individual's entitlement to home responsibilities protection there is no time limit to retrospective correction of the record.

For other groups with an entitlement to home responsibilities protection, in some cases a claim must be made within set time limits. However, retrospective applicants for home responsibilities protection for years between April 1978 and 5 April 2002 may be made at any time up to state pension age.

### Income Tax: Newcastle upon Tyne

**Jim Cousins:** To ask the Chancellor of the Exchequer if he will estimate the receipts from a one pence rate of income tax in the City of Newcastle upon Tyne in *(a)* 2006-07 and *(b)* 2007-08. [172585]

**Jane Kennedy:** The approximate tax liability from a one pence rate of income tax charged on the total income of taxpayers living in the metropolitan district of Newcastle upon Tyne can be estimated from the information on the number of taxpayers and their mean income provided in table 3.14 "Income and tax by borough district and unitary authority" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314.

Estimates are available for 2003-04 and 2004-05 and are based on the Survey of Personal Incomes.

**Jim Cousins:** To ask the Chancellor of the Exchequer if he will estimate the total number of income taxpayers in the City of Newcastle in *(a)* 2006-07 and *(b)* 2007-08; and how many of these were pensioners. [172586]

**Jane Kennedy:** Information on the number of taxpayers in the metropolitan district of Newcastle upon Tyne can be found in table 3.14 "Income and tax by borough district and unitary authority" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314.

Estimates are available for 2003-04 and 2004-05 and are based on the Survey of Personal Incomes.

### Inheritance Tax

**Mr. Dunne:** To ask the Chancellor of the Exchequer what the estimated cost would be to the Exchequer for the tax year *(a)* 2008-09 and *(b)* 2009-10 of raising the individual inheritance tax allowance to £1,000,000 if (i) allowances remained transferable between spouses and civil partners as announced in the 2007 Pre-Budget Report and (ii) the system operated as it did prior to the changes announced in the 2007 Pre-Budget Report. [172529]

**Jane Kennedy:** I refer the hon. Gentleman to the answer I gave the hon. Member for West Suffolk (Mr. Spring) on 4 December 2007, *Official Report*, column 1200W.

### Office of Government Commerce

**Justine Greening:** To ask the Chancellor of the Exchequer what assessment he has made of the effect on the Office of Government Commerce Buying Solution's expenditure of the relocation of London-based posts to Liverpool in each year since 2003-04; and if he will make a statement. [165226]

**Angela Eagle:** HM Treasury Group publishes progress against its headcount reduction and relocation targets in its Spring Annual Report and Accounts and Autumn Performance Report. The 2007 Autumn Performance Report will be published shortly.

### Pensioners: Income

**Jenny Willott:** To ask the Chancellor of the Exchequer how many pensioners aged between 60 and 64 have an annual income between £5,700 and £16,500; and if he will make a statement. [171522]

**Kitty Ussher:** In 2008-09, there will be an estimated 0.5 million pensioners aged between 60 and 64 with an annual income between £5,700 and £16,500.

Estimates are based on the Survey of Personal Incomes 2004-05 and projected in line with PBR 2007 assumptions.

### Registration of Births Deaths Marriages and Civil Partnerships

**Mr. Lidington:** To ask the Chancellor of the Exchequer what he expects the cost to the public funds to be of the General Register Office's Magpie project; what the timetable is for the implementation of the project; and if he will make a statement. [169523]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking what the expected cost will be to the public funds of the General Register Office's Magpie project; what the timetable is for the implementation of the project; and if he will make a statement. (169523)

A revised business case for the MAGPIE project is still in preparation. Estimates of costs and timetables will be available when the business case has been finalised and approved.

**Mr. Lidington:** To ask the Chancellor of the Exchequer what the cost to the public funds *(a)* has been and *(b)* is expected to be in total of the General Register Office's Dove project; and how much was originally budgeted for the cost of the project. [169524]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking what the cost to the public funds *(a)* has been and *(b)* is expected to be in total of the General Register Office's Dove project; and how much was the original sum budgeted for the cost of the project. (169524)

Almost all of the costs of DOVE project are capitalised. To date, capital expenditure on the project is £8.1 million and total capital expenditure is currently projected to be £18.1 million. The capital cost of the project was estimated in the business case as £20 million.

**Mr. Lidington:** To ask the Chancellor of the Exchequer when he expects the digitisation of records of births, marriages and deaths to be *(a)* completed and *(b)* made available to the public online; and if he will make a statement. [169525]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 10 December 2007:*

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking when the digitisation of records of births, marriages and deaths will be *(a)* completed and *(b)* made available to the public online: and if he will make a statement. (169525)

The current estimate is that the digitisation of records of births, marriages and deaths will be complete by August 2009. The date by which index data derived from the digitisation contract will be available for on-line access by the public will depend on the revised business case for the General Register Office's MAGPIE project, still in the course of preparation. Assuming the business case is approved and the necessary funding confirmed, it is hoped that the project can be completed by the end of 2009.

### Revenue and Customs: Data Protection

**Keith Vaz:** To ask the Chancellor of the Exchequer when officials from HM Revenue and Customs last met representatives of the security industry. [168469]

**Jane Kennedy:** HMRC has frequent contact with a range of representatives of the security industry to discuss all aspects of security.

### Tax Evasion

**Mr. Oaten:** To ask the Chancellor of the Exchequer what estimate he has made of the revenue lost to tax evasion in each of the last five years. [171839]

**Jane Kennedy** *[holding answer 6 December 2007]:* There are no robust estimates of the revenue lost specifically to tax evasion for each of the last five years. However, HMRC have recently published two documents on tax losses alongside the 2007 pre-Budget report.

Measuring Indirect Tax Losses 2007 presents the latest annual update of HMRC's estimates of revenue losses for indirect taxes.

Developing Methodologies for Measuring Direct Tax Losses includes estimates of direct tax losses for individuals subject to income tax self assessment, small and medium-sized companies, and small and medium-sized employers.

While the estimates given in these documents include evasion they also encompass other causes of losses, including avoidance and error.

### Taxation: Domicil

**Mr. Dunne:** To ask the Chancellor of the Exchequer (1) how many non-domiciled individuals are estimated to have been resident in the UK for more than *(a)* seven, *(b)* 10 and *(c)* 17 tax years; [162005]

(2) how many requests for domicile rulings were made to the Capital Taxes Office and its successor HM Revenue and Customs Inheritance Taxes in each tax year since 1979-80; how many of these people were non-UK resident at the time of the request; and what information is available on their current residence status; [162006]

(3) how many people indicated non-domicile status in a P86 form in each tax year since 1979-80; of these how many *(a)* did not also file a DOM 1 form in each year, *(b)* are no longer resident in the UK; and *(c)* submitted self-assessment returns for tax year 2005-06; [162007]

(4) how many people filed DOM 1 forms with HM Revenue and Customs in each tax year since 1979-80; how many of these people are no longer resident in the UK; and how many of them submitted self-assessment returns for tax year 2005-06; [162008]

(5) what his most recent estimate is of the number of UK residents who would be eligible to be taxed under the remittance basis as a result of non-domicile status; [162009]

(6) what estimate he has made of the number of people expected to be affected in the years 2008-09 to 2011-12 by the measures announced in the pre-Budget report to amend the current rules to remove flaws and anomalies that allow individuals using the remittance basis of taxation to sidestep UK tax, where it is due on foreign income and gains and who are assumed to complete self-assessment tax returns; [162010]

(7) what estimate he has made of the amount of revenue expected to be raised as a result of the removal of income tax personal allowances from people claiming the remittance basis in each year from 2008-09 to 2011-12; and how many people are expected to be affected in each year; [162153]

(8) what estimate he has made of the amount of revenue expected to be raised as a result of changes to the residence rules so that days of arrival in and departure from the UK will count towards establishing residence in each year from 2008-09 to 2011-12; and how many people are expected to be affected by these changes in each year; [162154]

(9) what estimate he has made of the amount of revenue expected to be raised through *(a)* payment of the £30,000 annual charge on non-domiciles and *(b)* payment of UK income tax and capital gains tax on unremitted income and gains as a result of individuals choosing not to claim the remittance basis who would have claimed it in the absence of the charge in each of the years from 2008-09 to 2011-12; [162155]

(10) how much revenue is estimated to be raised as a result of measures announced in the pre-Budget report to amend the current rules to remove flaws and anomalies that allow individuals using the remittance basis of taxation to sidestep UK tax, where it is due on foreign income and gains in each year from 2008-09 to 2011-12; how many people are expected to be affected in each year; and on what assumptions these figures are based; [162341]

(11) what estimate he has made of the number of individuals who will choose *(a)* to pay the full £30,000 annual charge on non-domiciles and *(b)* not to claim the remittance basis but would have claimed it in the absence of the charge in each year from 2008-09 to 2011-12. [162342]

**Jane Kennedy:** Information on the numbers affected by and the yield expected from the measures announced on residence and domicile at the recent PBR can be found in 'Paying a fairer share: a consultation on residence and domicile', published on 6 December.

No part of HMRC gives domicile rulings for inheritance tax purposes. Domicile is considered only as and when it is directly relevant in determining the scope of a charge to inheritance tax following an actual chargeable event. The requested information about residence is not available.

I regret that the information requested on forms P86 and DOM 1 is not available.

**Dr. Cable:** To ask the Chancellor of the Exchequer what assumptions he made in estimating the revenue raised from modernisation of residence and domicile taxation in table B4, page 164 of the pre-Budget report about *(a)* the number of non-domiciles who would pay the new £30,000 charge, *(b)* the gain from non-domiciles who choose to bring their tax affairs on-shore and *(c)* other factors for (i) 2009-10 and (ii) 2010-11; and if he will make a statement. [164230]

**Jane Kennedy:** Information on the numbers affected by and the yield expected from the measures announced on residence and domicile at the recent PBR will be part of the consultation document published recently. The document includes a summary of the analysis held and answers a number of questions that have been asked in this area. A copy has been placed in the Library of the House.

### Taxation: Pensioners

**Jenny Willott:** To ask the Chancellor of the Exchequer what estimate he has made of the number of pensioners aged between 60 and 64 who will have a greater tax liability as a result of the changes to age-related tax allowances introduced in the 2007 Budget; and if he will make a statement. [171520]

**Kitty Ussher:** Only taxpayers aged 65 and over receive age related tax allowances subject to an income taper.

For the overall effect of changes to net tax introduced in the 2007 Budget on taxpayers' liabilities, I refer my hon. Friend to the reply given to my right hon. Friend the Member for Birkenhead (Mr. Field) on 18 October 2007, *Official Report*, columns 1266W-68W.

### Taxation: Sports

**Mr. Hancock:** To ask the Chancellor of the Exchequer (1) what leisure activities are classed as sports for tax purposes by HM Revenue and Customs; and if he will make a statement; [172815]

(2) if he will seek to discuss the decision by HM Revenue and Customs not to recognise racing pigeons as a sport for tax purposes with the Royal Pigeon Racing Association. [172816]

**Jane Kennedy:** Sports clubs that meet certain criteria are able to register with HM Revenue and Customs (HMRC) as a Community Amateur Sports Club (CASC). HMRC do not however decide which sports are eligible sports for the CASC scheme. Eligible sports are defined by Treasury Order, by reference to the Sports Councils' list of recognised activities. The list can be accessed at

www.sportengland.org/index/get_resources/resource_ul.htm.

### VAT: Nicotine Patches

**David Taylor:** To ask the Chancellor of the Exchequer if he will discuss with HM Revenue and Customs extending the lower rate of VAT to all products that are intended for use as smoking cessation aids. [172783]

**Jane Kennedy:** The 5 per cent. reduced VAT rate currently applies to all pharmaceutical products designed to help people to stop smoking tobacco. This is the widest reduced rate for smoking cessation aids possible under European VAT agreements.

### Video Games: Research

**Mr. Hunt:** To ask the Chancellor of the Exchequer pursuant to the answer of 21 November 2007, *Official Report*, column 926W, on video games: research, for what reasons the information on HM Revenue and Customs research and development units for the computer games industry is not available; and what breakdown by industry sector and recipient can be provided of the allocation of £150 million by HMRC. [172605]

**Angela Eagle:** Information on claims for R&D tax credits for the computer games industry is not available because the data is broken down by industry sector using the UK Standard Industrial Classification of Economic Activities (SIC), and the computer games industry is not identified as a separate sector in this classification.

No industry breakdown is available of the figure of £150 million, which relates only to the payable credit element of the R&D tax credit scheme. However, a breakdown is available for the National Statistics published on the total claims made for R&D tax credits and total support claimed. This shows that companies in the computer and related services sector accounted for over a fifth of the total 6,300 claims made for R&D tax credits in 2004-05, and a tenth of the £580 million of support in these 6,300 claims. Whilst many companies involved in the computer games industry may appear in this industry sector, some may have other classifications.

### Welfare Tax Credits: Overpayments

**Mr. Gauke:** To ask the Chancellor of the Exchequer how many tax credit claimants who ceased to be entitled to tax credit by reason of working less than 16 hours a week have been informed that overpayments will be remitted; and what the value was of the remittances made to such tax credit claimants. [165090]

**Jane Kennedy** *[holding answer 19 November 2007]*: An amount of £186 million was remitted in the 2006-07 accounts in respect of this issue. The relevant notes to the 2006-07 Trust Statement can be found on page 100 of the HMRC Accounts published at http://www.hmrc.gov.uk/about/hmrc-06-07-acc.pdf.

### Young People: Scotland

**David Mundell:** To ask the Chancellor of the Exchequer how many young people were not in education, employment or training in Scotland in *(a)* 1997 and *(b)* the latest date for which figures are available, broken down by Westminster constituency. [172414]

**Angela Eagle:** This is a devolved matter for the Scottish Executive.

## HEALTH

### Accident and Emergency Departments

**Mike Penning:** To ask the Secretary of State for Health what the 10 most frequent causes of repeat visits to accident and emergency wards were in the latest period for which figures are available; and what estimate has been made of the avoidable costs which accrued from such visits. [170538]

**Mr. Bradshaw:** Information on reasons for attendance at accident and emergency (A and E) departments is not routinely collected and therefore information is not available on causes of visits or repeat visits to A and E.

It is a matter for the local national health service to ensure that they provide urgent and emergency care services that are responsive to people's needs.

### Air Ambulance Services

**Mike Penning:** To ask the Secretary of State for Health (1) how many air ambulances were operating in the UK in the latest period for which figures are available; what estimate he has made of their operating cost in that period; and how much of the cost was paid by the public purse; [170591]

(2) what the average annual staff cost was of an air ambulance in the latest period for which figures are available; and what estimate he has made of the average annual *(a)* insurance and *(b)* running costs of an air ambulance. [170974]

**Mr. Bradshaw:** The Department is not responsible for air ambulances, and does not routinely collect air ambulance data centrally. However, the Department has previously commissioned research into helicopter emergency ambulance services. The research undertaken estimated that there were 16 air ambulances operating across 14 organisations in England and Wales and that an the average annual operating costs of an individual air ambulance were around £0.8 million a year (based on data from 11 of the 14 organisations, ranging from 2000 to 2001-02). In addition, representatives from ambulance trusts and air ambulance charities are currently working together to seek to improve joint working practices and procedures and undertook a survey of air ambulance charities in August/September 2007 to which 14 air ambulance organisations responded. Those responses indicated that there were 24 helicopters and that the average expenditure per helicopter per annum was £0.8 million. Neither piece of work provided information on insurance costs.

Since 1 April 2002, the Department has made clear that it would normally expect the national health service to meet the cost of clinical staff on air ambulances, but the levels of such funding are not collected centrally. It is for NHS ambulance trusts to decide whether they provide any additional funding to the air ambulance charities.

**Mike Penning:** To ask the Secretary of State for Health how many people were airlifted by air ambulances in the last 12 months for which figures were available. [170593]

**Mr. Bradshaw:** The information is not collected centrally.

### Ambulance Services: Shropshire

**Mark Pritchard:** To ask the Secretary of State for Health if he will take steps to ensure that there is an appropriate number of West Midlands Ambulance Trust's ambulances in Shropshire to respond to emergency calls during the day and at night. [171486]

**Mr. Bradshaw:** It is for the West Midlands Ambulance Service to ensure appropriate provision of resources to meet local demand.

### Ambulance Services: Standards

**Mike Penning:** To ask the Secretary of State for Health what the average response time was for *(a)* air ambulances and *(b)* road ambulances in areas in which air ambulances operated in the latest period for which figures are available. [170592]

**Mr. Bradshaw:** The information requested is not collected centrally. The ambulance response time data that is collected covers ground ambulances in England only. It does not include average response times, but does include data on performance, by each ambulance trust, against current national targets. The data is published annually. The latest statistical bulletin, "Ambulance Services, England, 2006-07" was published in June 2007, a copy is available in the Library.

**Mr. Spring:** To ask the Secretary of State for Health what the average time taken to respond to an emergency telephone call by the ambulance service was in Suffolk in each of the last five years. [171619]

**Mr. Bradshaw:** The Department does not collect information on the average response times to emergency calls by national health service ambulance trusts.

The data that the Department does collect on ambulance response times is published on an annual basis in the statistical bulletin, Ambulance services, England. These documents are available in the Library and on the Information Centre for Health and Social Care website at:

www.ic.nhs.uk/statistics-and-datacollections/audits-and-performance/ambulance/ambulance-services-england-2006-07

## Ambulances: Hygiene

**Mr. Dai Davies:** To ask the Secretary of State for Health what reports he has received on the cleanliness of ambulances; and whether he plans to take steps to improve cleaning of ambulances. [169727]

**Mr. Bradshaw:** No reports have been received by the Department on the cleanliness of ambulances recently.

Ambulance trusts are covered by the code of practice on the prevention and control of healthcare associated infections.

The Ambulance Service Association has issued guidance to ambulance trusts onmaintaining high standards of hygiene to prevent the spread of infection.

The National Patient Safety Agency (NPSA) have also produced guidance on ambulance design recommending easy-to-clean surfaces and materials to ensure rapid decontamination.

In addition, the NPSA cleanyourhands campaign is now being extended to ambulances. In September 2007, two trusts in England (South East Coast and West Midlands) have started to pilot the campaign.

## Assura Group

**Ben Chapman:** To ask the Secretary of State for Health what assessment has been made of the effectiveness of the involvement of Assura Group with primary care trusts. [169117]

**Mr. Bradshaw:** This is not a matter for the Department. It is for primary care trusts to manage the performance and effectiveness of those providers delivering services on their behalf.

**Ben Chapman:** To ask the Secretary of State for Health what the role of Assura Group is in the NHS; and if he will make a statement. [169118]

**Mr. Bradshaw:** It is for primary care trusts to commission services that reflect the needs of the local population and to determine who to contract with to deliver these services. The Department does not collect information about contracts which are agreed locally between primary care trusts and providers.

## Barking, Havering and Redbridge NHS Trust: Finance

**Andrew Rosindell:** To ask the Secretary of State for Health if he will make a statement on the financial position of Barking, Havering and Redbridge NHS Trust. [170852]

**Mr. Bradshaw:** At the end of quarter two of 2007-08, Barking, Havering and Redbridge Hospitals NHS Trust is forecasting a financial year-end deficit of £34.6 million.

**Andrew Rosindell:** To ask the Secretary of State for Health whether he expects Barking, Havering and Redbridge NHS Trust to break even by the end of financial year 2007-08. [170854]

**Mr. Bradshaw:** At the end of quarter two of 2007-08, Barking, Havering and Redbridge Hospitals NHS Trust is forecasting a financial year-end deficit of £34.6 million.

## Blood: Donors

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how much blood was donated via the National Blood Donor Scheme in each year that the scheme has been running. [172932]

**Dawn Primarolo:** It is not possible to provide data on how much blood has been donated since blood collection first began.

The National Blood Service (NBS) is responsible for managing the blood supply in England and north Wales. Since it was established, the NBS has collected the following amounts.

| | *Units of blood collected*[1] *(million units)* |
|---|---|
| 1992-93 | 2.208 |
| 1993-94 | 2.210 |
| 1994-95 | 2.255 |
| 1995-96 | 2.330 |
| 1996-97 | 2.356 |
| 1997-98 | 2.389 |
| 1998-99 | 2.397 |
| 1999-2000 | 2.427 |
| 2000-01 | 2.356 |
| 2001-02 | 2.376 |
| 2002-03 | 2.323 |
| 2003-04 | 2.285 |
| 2004-05 | 2.143 |
| 2005-06 | 2.012 |
| 2006-07 | 1.969 |

*Note:*
These figures are rounded to the nearest 10,000.

## Care Homes: Complaints

**Mr. Willis:** To ask the Secretary of State for Health what the procedure is for investigating complaints about standards of care and abuse and neglect in care homes; and what the procedure was before 2006. [172825]

**Mr. Ivan Lewis:** All care homes are subject to the Care Homes Regulations 2001, which include a requirement that the provider has an effective complaints procedure. All residents have access to this. Normally, the expectation is that in the first instance the complaint should be raised with the provider. In addition, people whose care needs have been assessed by local authorities, or whose care is commissioned or funded by local authorities, have access to the statutory local authority social services complaints procedure. If the local authority response does not satisfy the complainant, they are entitled to refer the matter to the local government ombudsman.

People can also raise concerns with the Commission for Social Care Inspection (CSCI). CSCI welcomes representations about the standard of care in care homes and reports of suspected abuse, and will respond to these as appropriate. CSCI's role in doing so is that of a regulator, where issues are raised that impact upon the safety of services and compliance by the provider with the regulations. However, CSCI does not have a role in resolving complaints for individuals.

In addition, anyone receiving national health service health care, irrespective of their circumstances, is able to make a complaint under the NHS complaints procedure, for example, care home residents registered with a general practitioner.

The procedures for complaints relating to care homes have not altered since the current regulatory regime for care homes was introduced in 2002.

### Care Homes: Inspections

**Mr. Willis:** To ask the Secretary of State for Health what plans he has to ensure that standards of nursing care in nursing homes in England are inspected by registered nurses. [172826]

**Mr. Ivan Lewis:** The Commission for Social Care Inspection (CSCI) is responsible for all aspects of regulation and inspection of care homes in England, including those providing nursing care. CSCI employs inspectors with a range of professional skills for dealing with a mixed caseload, including approximately 300 inspectors who are registered nurses. Where possible, CSCI will assign inspectors with a nursing background to inspect nursing homes.

CSCI expects non-nurse inspectors to discuss any clinical issues arising at inspection with nursing colleagues in their team. As part of this process, CSCI has good practice guidance, known as "clinical triggers", for inspectors in respect of several areas such as nutrition, continence management and medication. These triggers alert inspectors as to when it would be appropriate to instruct the service provider to contact local health services to arrange specialist nursing assessment for a resident or, to seek advice from a clinical colleague within CSCI to ascertain whether enforcement action may be necessary.

CSCI has a source of specialist nursing advice in its Head of Health Policy and Quality. CSCI also has a head pharmacist; where there are concerns around medication, a pharmacist inspector will inspect the service. All inspectors receive training in all methodologies and tools.

**Mr. Willis:** To ask the Secretary of State for Health what arrangements are in place for the inspection of *(a)* nursing homes and *(b)* hospital wards for elderly patients. [172926]

**Mr. Ivan Lewis:** The Commission for Social Care Inspection (CSCI) is responsible, under the Care Standards Act 2000 and associated Regulations, for all aspects of regulation and inspection of care homes providing nursing care.

Up until April 2005, all care and nursing homes were required to be inspected twice yearly. From April 2005, CSCI's inspectors started using new ways of inspecting social care providers, based on the aims set out in the consultation document, "Inspecting for Better Lives". The new inspection methodology is designed to place the people who use social care services and their experiences at the heart of the way CSCI inspects and regulates care services.

From April 2005, CSCI has carried out key inspections for care and nursing homes at a frequency determined by the quality of the service. A key inspection is a thorough, detailed inspection, under which CSCI will assess all of the key national minimum standards. For example, a "poor" quality service will receive a minimum of two key inspections a year, an "adequate" service will receive a minimum of one key inspection a year, a "good" service will receive a minimum of one key inspection every two years, and an "excellent" service will receive a key inspection a minimum of once every three years.

CSCI also carries out "random" and "thematic" inspections, which are short, focused inspections on a specific theme or area.

The Healthcare Commission is responsible for inspecting hospitals. The Healthcare Commission checks annually that core standards are in place across each national health service trust. If inspected, a trust is required to provide evidence that standards are in place in each part of the organisation. This includes wards for older patients. About 20 per cent. of trusts are selected for a core standards inspection each year.

In addition, in February 2007, the Healthcare Commission carried out a more in-depth review of dignity and care arrangements for older patients in hospital. Twenty-three hospitals were visited and a range of observations and interviews of ward staff were undertaken. The report of the findings can be found on the Healthcare Commission website at:

www.healthcarecommission.org.uk.

### Chan Wheeler

**Chris Grayling:** To ask the Secretary of State for Health what contractual arrangements the NHS has in place to allow the Commercial Director of the NHS, Chan Wheeler, to participate in the legal actions in which he is involved in the United States of America. [169497]

**Mr. Bradshaw:** Mr. Channing Wheeler, Director General, Commercial Directorate, is employed by the Department. He holds a senior civil service contract and is subject to the Department's standard leave policies. Mr. Wheeler has not taken leave to participate in any legal actions since taking up appointment on 18 June 2007. There are no contractual arrangements in place between Mr. Wheeler and the national health service.

### Chase Farm Hospital: Manpower

**Joan Ryan:** To ask the Secretary of State for Health how many *(a)* nurses and *(b)* doctors were relocated away from the Chase Farm hospital site by Barnet and Chase Farm NHS trust in each of the last 10 years. [169689]

**Mr. Bradshaw:** This information is not held centrally. Workforce planning is a matter for determination by the local national health service, as they are best placed to asses the health care needs of their local populations.

## Chiropody: Greater London

**Mr. Randall:** To ask the Secretary of State for Health (1) what the average waiting time to see a chiropodist was in *(a)* Uxbridge constituency and *(b)* the London borough of Hillingdon in each year since 1997 for which figures are available; [171095]

(2) how many patients received chiropody treatment in *(a)* Uxbridge constituency and *(b)* the London borough of Hillingdon in each year since 1997 for which figures are available; [171096]

(3) what plans he has to improve NHS chiropody services in *(a)* Uxbridge and *(b)* the London borough of Hillingdon; [171097]

(4) what chiropody services there are in *(a)* Uxbridge constituency and *(b)* the London borough of Hillingdon. [171098]

**Mr. Bradshaw:** It is the responsibility of primary care trusts to ensure that the services they commission meet the needs of the populations that they serve, including chiropody services.

## Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Health how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171431]

**Mr. Bradshaw:** The Department has spent the following on official Christmas cards since 2002:

| | *Cost (£)* |
|---|---|
| 2002 | 1,243.15 |
| 2003 | 2,689 |
| 2004 | 3,480 |
| 2005 | 2,854 |
| 2006 | 3,001.92 |

All expenditure incurred in the purchase and postage of official Christmas cards is made in accordance with the Department's guidance on financial procedures and propriety, based on principles set out in "Government Accounting".

The Department has spent the following on Christmas trees and tree decorations:

| | *Cost (£)* |
|---|---|
| 2002 | 2,987.64 |
| 2003 | 3,082.51 |
| 2004 | 3,390.69 |
| 2005 | 3,546.38 |
| 2006 | 1,997.50 |

The Department has not spent anything on Christmas parties in each of the last five years. Information about what agencies spend on these items is not held centrally.

## Community Hospitals

**Mr. Meacher:** To ask the Secretary of State for Health how many community or cottage hospitals were operating in 1980; how many were closed in each subsequent year; and what the change was in the number of bed spaces as a result in each year. [165157]

**Mr. Bradshaw:** These figures are not routinely collected. We are however aware that since 1980 some small hospitals have closed and some new health premises have opened. The policy developments for community hospitals contained in the "Our health, Our care, Our say" White Paper are leading to a wider range of provision of local health and social care services and this is supported by a £750 million capital investment programme for community hospitals and services.

## Dental Services

**Sir Paul Beresford:** To ask the Secretary of State for Health which primary care trusts are operating waiting lists for patients wishing to access primary dental care. [172716]

**Ann Keen:** This information is not held centrally. It is for primary care trusts to make local arrangements to support patients in accessing national health service dental services.

**Sir Paul Beresford:** To ask the Secretary of State for Health when his Department last conducted an assessment of the level of *(a)* need and *(b)* demand for NHS primary dental care. [172752]

**Ann Keen:** Primary care trusts (PCTs) are responsible for providing or commissioning primary dental care services to reflect local needs. PCTs have function within The Functions of Primary Care Trusts (Dental Public Health) (England) Regulations 2006 (SI No 2006/185) to undertake oral health surveys to assess and monitor oral health needs within their area. This is a local rather than centrally managed process. The Department has issued guidance to the local national health service on developing local dental commissioning plans. Additional support is available through the National Primary Care Contracting Team.

**Sir Paul Beresford:** To ask the Secretary of State for Health what proportion of the value of the dental health care market was borne by *(a)* the NHS and *(b)* private practice in each year since 1997; and how this is calculated. [172753]

**Ann Keen:** The Department does not collect data on expenditure on private dentistry which would allow it to identify the total value of the dental health care market and its apportionment between the national health service and private sectors.

## Departmental Consultants

**Mike Penning:** To ask the Secretary of State for Health (1) for which of his Department's programmes the total cost to date of employing consultants has surpassed £500,000; [170613]

(2) for which programmes his Department employs consultants at a cost of more than £100,000 per annum. [170614]

**Mr. Bradshaw:** The Department does not collect information on consultants in the format requested. To do so would attract disproportionate cost.

A new system will be introduced in April 2008 called SHOWA, which will be able to gather such information for the Department.

## Departmental Cost Effectiveness

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 15 November 2007, *Official Report*, column 377WA, on Doctors' and Dentists' Review Body, if he will place in the Library a copy of the value for money delivery plan that his Department prepared as part of the comprehensive spending review. [169867]

**Mr. Bradshaw:** In line with the requirements on all Government departments as part of the comprehensive spending review, we will be publishing our value for money delivery agreement by the end of December, following clearance by HM Treasury.

**Mike Penning:** To ask the Secretary of State for Health what progress has been made on implementing savings under the Gershon programme; and how much was saved in the most recent year for which figures are available; and if he will make a statement. [170439]

**Mr. Bradshaw:** In the period up to June 2007 the Department had achieved £5,524 million towards its target of £6,470 million by March 2008.

We will be providing full details of progress up to September 2007 in our autumn performance report, which will be published in December and a copy will be placed in the Library.

## Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Health (1) what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if *(a)* his Department and *(b)* his Department's agencies will undertake a review of their compliance with data protection laws; [168089]

(2) on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168255]

(3) how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disc; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168275]

**Keith Vaz:** To ask the Secretary of State for Health what procedures are in place in his Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168475]

**Mr. Vara:** To ask the Secretary of State for Health (1) on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years; [168812]

(2) how many breaches of data protection security there were in *(a)* his Department and *(b)* his Department's agencies in each of the last five years; and if he will provide details of each breach. [168828]

**Mr. Hayes:** To ask the Secretary of State for Health what steps his Department has taken to protect the personal data on members of the public which it holds. [171418]

**Mr. Bradshaw:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

**Tom Brake:** To ask the Secretary of State for Health whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169223]

**Mr. Bradshaw:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review.

## Departmental Orders and Regulations

**Alan Duncan:** To ask the Secretary of State for Health how many regulations his Department has *(a)* made and *(b)* revoked in the last 12 months. [167082]

**Mr. Bradshaw:** In the year ending November 2007, the Department made 99 statutory instruments and revoked 28 and part of one other.

## Departmental Pay

**Sarah Teather:** To ask the Secretary of State for Health how many people in his Department earned a salary over £100,000 in each year since 1997. [167193]

**Mr. Bradshaw:** The following table presents the data for the years as requested. Figures for 1997 to 2006 are taken from departmental annual reports. The 2007 figure is taken directly from the Department's payroll system.

| *In post date (1 April each year)* | *Number of staff earning a salary over £100,000 on that date* |
|---|---|
| 2007 | 56 |
| 2006 | 64 |
| 2005 | 71 |
| 2004 | 56 |
| 2003 | 52 |
| 2002 | 39 |
| 2001 | 30 |
| 2000 | 23 |
| 1999 | 16 |
| 1998 | 12 |
| 1997 | 8 |

**Mr. Philip Hammond:** To ask the Secretary of State for Health how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171542]

**Mr. Bradshaw:** The following table presents the total amount of bonuses paid in each year since 2004-05. The Department changed its payroll provider in 2003-04. Information on performance bonuses paid prior to those presented is only available from individual payslips. To retrieve the information for years prior to those presented would therefore involve disproportionate cost.

| | | *Total paid out as bonus* | | |
|---|---|---|---|---|
| *Year in which bonus paid* | *Year to which bonus applies* | *Department (£)* | *Medicines and Healthcare products and Regulatory Agency (£)* | *NHS Purchasing and Supply Agency (£)* |
| 2007-08 | 2006-07 | 1,382,549 | 593,223 | 21,644 |
| 2006-07 | 2005-06 | 1,400,049 | 349,836 | 31,758 |
| 2005-06 | 2004-05 | 1,252,140 | 276,592 | 8,600 |
| 2004-05 | 2003-04 | 1,064,465 | n/a | 9,781 |

n/a = Not available

## Departmental Postal Services

**Mr. Carmichael:** To ask the Secretary of State for Health which companies are under contract to his Department to provide mail services. [170167]

**Mr. Bradshaw:** The Department has a 'standing arrangement' with Royal Mail for the delivery and collection of mail and an annual trading agreement with Parcelforce.

The Department has a formal contract with Point 2 Point for the delivery of urgent items.

In conjunction with Department for Transport the Department has a service level agreement with the Government Car Service for the delivery of mail between official buildings.

## Departmental Public Expenditure

**Mr. Lansley:** To ask the Secretary of State for Health what policy proposals above his Department's delegated limits were approved by HM Treasury as part of the Comprehensive Spending Review process. [165709]

**Mr. Bradshaw:** Approval for policies above delegated limits is agreed with Her Majesty's Treasury as and when this is needed. This is a separate process from the Comprehensive Spending Review. No specific approvals were given for expenditure above delegated limits as part of the Comprehensive Spending Review settlement.

**Mr. Lansley:** To ask the Secretary of State for Health on what dates his Department made formal written submissions to HM Treasury as part of the Comprehensive Spending Review process; and what the purpose of each submission was. [165710]

**Mr. Bradshaw:** The Department made formal written submissions to Her Majesty's Treasury as part of the Comprehensive Spending Review 2007 on 15 December 2006, 2 March and 7 September 2007. The submissions outlined the Department's plans for 2008-09 to 2010-11 for discussion with HM Treasury.

## Dermatology: Primary Health Care

**Mr. Burstow:** To ask the Secretary of State for Health what assessment his Department has made of the effect practice-based commissioning for dermatology services is expected to have on equity of access for treatment for primary care patients. [170029]

**Mr. Bradshaw:** The Department considers practice-based commissioning to be a key route for improving access to services, including dermatology. Practice-based commissioning has the potential to benefit patients by enabling access to a greater variety of services from a larger number of providers in settings that are closer to home or more convenient for them.

## Emergency Services: Disciplinary Proceedings

**Mike Penning:** To ask the Secretary of State for Health on how many occasions emergency service personnel have been disciplined for misuse of blue lights in the last 12 months for which figures are available. [170542]

**Mr. Bradshaw:** This information is not collected centrally.

### English Language

**Damian Green:** To ask the Secretary of State for Health how many people sat the Professional and Linguistic Assessment Board test in each testing centre in each of the last five years. [169563]

**Mr. Bradshaw:** The Secretary of State does not hold information on how many people sat the Professional and Linguistic Assessment Board test in each testing centre in each of the last five years. This information can be obtained from the General Medical Council (GMC).

### General Practitioners

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 600W, on general practitioners, how many of the 100 new practices will be delivered in each of the primary care trusts identified. [169878]

**Mr. Bradshaw:** The Department continues to discuss with the national health service how many practices will be established in each of the 38 primary care trusts (PCTs) identified as having the poorest provision. A final decision will be made in January 2008 following completion of PCT delivery plans.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 600W, on general practitioners, by what date he expects the discussions on timescales to be completed. [169879]

**Mr. Bradshaw:** Primary care trusts are currently developing their timescales as part of their local delivery plans which are expected to be completed by January 2008.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 600W, on general practitioners, what guidance he has issued to primary care trusts to ensure that they procure innovative solutions and models of provision that will contribute to improvements in access and outcomes for patients. [169880]

**Mr. Bradshaw:** The Department will shortly be publishing a procurement framework which will contain practical tools and guidance that primary care trusts (PCTs) will need to manage local procurements. The framework will explain how PCTs should work with clinicians and patients locally to develop service specifications that reflect local need and maximise innovation, including, for health centres, the extent to which they co-locate and integrate with other services, for example pharmacy, diagnostics and social care.

**Mr. Lansley:** To ask the Secretary of State for Health what indicators his Department used to determine comparative levels of GP provision in primary care trusts. [169956]

**Mr. Bradshaw:** The indicators that have been used to determine the 25 per cent. of primary care trusts with poorest provision are listed as follows and reflect the criteria identified in 'Our NHS, Our Future', i.e. fewest primary care clinicians, poorest health outcomes and lowest patient satisfaction.

*Primary care clinicians*

Whole time equivalents (wte) general practitioners (GPs) per 100,000 weighted population; and wte practice nurses per 100,000 weighted population.

*Health outcomes*

male life expectancy;

female life expectancy;

cancer mortality among under 75s;

cardiovascular mortality among under 75s;

index of multiple deprivation (health);

percentage of patients with diabetes in whose glycated haemoglobin is 7.5 mg or less;

percentage of patients with hypertension in whose blood pressure reading is 150/90 or less.

*Patient satisfaction*

percentage of patients seen within 48 hours;

percentage of patients able to book an appointment more than 2 days ahead;

percentage of patients satisfied with their practice telephone system;

percentage of patients able to see a specific GP; and

percentage of patients satisfied with practice opening hours.

### General Practitioners: Databases

**Jeremy Wright:** To ask the Secretary of State for Health when he expects sealed envelope software is likely to be available for testing in each of the main established GP systems; and what plans he has to pilot the software within established discrete General Practice databases before being rolled out to databases accessible by multiple providers. [168953]

**Mr. Bradshaw:** The 'sealed envelope' is a set of requirements for the management of patient data which is in accordance with undertakings given in the NHS Care Record Guarantee. The requirements were developed in consultation with general practitioners (GPs) and reflect existing security mechanisms found in the main established GP systems, but will operate with a consistent naming convention and a consistent set of procedures. The sealed envelope functionality therefore does not require new or innovative software to be developed for GP systems but will require compliance testing with the Spine when this functionality is available in mid-2008.

Under the recently-awarded GP Systems of Choice (GP SoC) contract NHS Connecting for Health will engage with GP system suppliers to agree compliance plans for sealed envelope and other information governance controls.

### General Practitioners: Greater London

**Mr. Randall:** To ask the Secretary of State for Health how many GPs there were in *(a)* Uxbridge constituency, *(b)* Hillingdon Primary Care Trust and *(c)* Greater London in each year since 1997. [169676]

**Mr. Bradshaw:** The information requested can be found in the following table which shows the number of General Medical Practitioners (excluding retainers and registrars)[1] for London, Hillingdon Health Authority (HA) and Hillingdon Primary Care Trust (of which Uxbridge is a part) for the period 1997 to 2006 (which is the latest data available).

*Number (headcount)*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|---|---|---|---|
| England | 28,046 | 28,251 | 28,467 | 28,593 | 28,802 | 29,202 | 30,358 | 31,523 | 32,738 | 33,091 |
| London | 4,324 | 4,273 | 4,275 | 4,307 | 4,301 | 4,327 | 4,531 | 4,695 | 4,896 | 4,868 |
| Hillingdon HA | 127 | 128 | 127 | 127 | [1]— | [1]— | [1]— | [1]— | [1]— | [1]— |
| Hillingdon PCT | [1]— | [1]— | [1]— | [1]— | 132 | 129 | 131 | 144 | 138 | 143 |

[1] Denotes data not available.

[1] General Medical Practitioners (excluding retainers and registrars) includes general practitioner (GP) providers and GP others.

## General Practitioners: Publications

**Mike Penning:** To ask the Secretary of State for Health which NHS publications have been sent to general practitioners since May 2005. [170622]

**Mr. Bradshaw:** In the period since May 2005 there have been a programme of publications sent to all general practitioners (GPs) via a regular mailout. The details of these are as follows.

Added to this, there have been a number of ad hoc mailings of national health service publications to individual general practitioners or groupings of general practitioners. As well as this, the Department has also sent to general practices a number of NHS publications to practices with the intention that these be made available to members of the public in waiting rooms. We do not have figures for either ad hoc mailings to general practitioners or for publications aimed at the general public, and to identify these numbers would involve disproportionate costs.

The following NHS publications were sent to all GPs since May 2005:

GP bulletin and GP and Practice Team bulletin: 10-12 bulletins per year. If registered via the Department's website GPs will have received these via an e-mail link. Otherwise hard copies have been sent by post.

16 May 2005: GP Bulletin—May 2005—Issue 40

17 May 2005: GP Bulletin—May 2005—Issue 40 reissue

7 June 2005: GP Bulletin—June 2005—Issue 41

4 July 2005: GP Bulletin—July 2005—Issue 42

5 August 2005: GP Bulletin—August 2005—Issue 43

5 September 2005: GP Bulletin—September 2005—Issue 44

6 October 2005: GP Bulletin—October 2005—Issue 45

4 November 2005: GP Bulletin—November 2005—Issue 46

5 December 2005: GP Bulletin—December 2005/January 2006—Issue 47

6 February 2006: GP Bulletin—February 2006—Issue 48

24 February 2006: GP Bulletin—March 2006—Issue 49

24 March 2006: GP Bulletin—April 2006—Issue 50

28 April 2006: GP Bulletin—May 2006—Issue 51

26 May 2006: GP Bulletin—June 2006—Issue 52

30 June 2006: GP Bulletin—July 2006—Issue 53

1 August 2006: GP Bulletin—August 2006—Issue 54

25 August 2006: GP Bulletin—September 2006—Issue 55

29 September 2006: GP Bulletin—October 2006—Issue 56

27 October 2006: GP Bulletin—November 2006—Issue 57

23 November 2006: GP and Practice Team Bulletin—December 2006—Issue 58

26 January 2007: GP and Practice Team Bulletin—February 2006—Issue 59

2 March 2007: GP and Practice Team Bulletin—March 2007—Issue 60

2 April 2007: GP and Practice Team Bulletin—April 2007—Issue 61

11 May 2007: GP and Practice Team Bulletin—May 2007—Issue 62

8 June 2007: GP and Practice Team Bulletin—June 2007—Issue 63

10 July 2007: GP and Practice Team Bulletin—July 2007—Issue 64

3 August 2007: GP and Practice Team Bulletin—August 2007—Issue 65

7 September 2007: GP and Practice Team Bulletin—September 2007—Issue 66

11 October 2007: GP and Practice Team Bulletin—October 2007—Issue 67

2 November 2007: GP and Practice Team Bulletin—November 2007—Issue 68

Chief Medical Officer (CMO) Updates. Ordinarily there are between two-four editions per year, although in 2007 there was only one.

July 2005: CMO Update—Issue 42

January 2006: CMO Update—Issue 43

August 2006: CMO Update—Issue 44

October 2006: CMO Update—Issue 45

November 2007: CMO Update—Issue 46

British National Formulary (BNF): There are two editions per year (sent to general practitioners in March and October of each year), plus one Children's BNF in addition to this (sent to GPs in September of each year).

NHS Choices Magazine: a hard copy mailout of this publication was sent to all GPs in August 2007.

### General Practitioners: Questionnaires

**Mike Penning:** To ask the Secretary of State for Health which departmental questionnaires have been sent to general practitioners since May 1997. [170621]

**Mr. Bradshaw:** The Department regularly carries out surveys of the national health service. There have been no surveys specifically targeted at general practitioners, although a survey carried out for the Departments "What Matters to Staff" earlier this year included 3,000 General Practice staff.

### General Practitioners: Working Hours

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 13 November 2007, *Official Report*, column 178W, on GP service provision, what the dates were of meetings held between his officials and the group of out-of-hours providers brought together by the NHS Alliance in the last 12 months; and if he will place the *(a)* agenda and *(b)* minutes of each meeting in the Library. [167757]

**Mr. Bradshaw:** The dates of meetings held between officials and the group of out-of-hours providers brought together by the NHS Alliance in the last 12 months are:

20 February 2007
22 May 2007
9 October 2007

A copy of the agenda and minutes for each of the meetings, with the exception of minutes for the meeting on 22 May 2007, when the meeting was brief and minutes were not recorded, have been placed in the Library.

### Health and Social Care Information Centre

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what items of information are available through the Information Centre for Health and Social Care's catalogue; whether each item of information is available to *(a)* the NHS, *(b)* other interested parties and *(c)* the public; what (i) additions and (ii) deletions from the catalogue he anticipates taking place over the next 12 months; what changes in the availability of access to information contained in the catalogue he anticipates taking place over the next 12 months; and if he will make a statement. [170034]

**Mr. Bradshaw:** The Information Centre for health and social care's catalogue can be accessed at the Information Centre's website at www.ic.nhs.uk. The Catalogue lists over 600 data collections and identifies where data are published. The Information Centre is currently reviewing which data should be made available in the catalogue in the future.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what discussions *(a)* the Information Centre for Health and Social Care and *(b)* the NHS Business Services Authority has had with (i) the British Medical Association, (ii) the Royal College of Nursing and (iii) other interested parties on data collection in each month since June 2007; what the content was of these discussions; and if he will make a statement. [170035]

**Mr. Bradshaw:** The Information Centre for health and social care and the National Health Service Business Services Authority have had discussions since June 2007 with a wide range of stakeholders, including the British Medical Association, the Royal College of Nursing and other interested parties. Contact with stakeholders may be formal or informal and will cover data collections and standards where this is relevant.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what the Information Centre for Health and Social Care's priority projects are for 2008-09. [170071]

**Mr. Bradshaw:** The Information Centre's priority projects for 2008-09 will be made available in March 2008 and published on its website at

www.ic.nhs.uk.

### Health Hazards: Asbestos

**Mike Penning:** To ask the Secretary of State for Health what estimate he has made of the likely cost of asbestos disposal in NHS properties in each of the next three years; and if he will make a statement. [170623]

**Mr. Bradshaw:** This information is not collected centrally. Responsibility for the disposal of asbestos found in any national health service property is a matter for local management. The NHS, along with all other industries has been alert to the risks associated with asbestos for many years, and managers are aware of their responsibilities under the Health and Safety at Work etc. Act 1974 and the Control of Asbestos at Work Regulations 2002.

### Health Professions: Conditions of Employment

**Mr. Lansley:** To ask the Secretary of State for Health who is the senior official responsible for the Modernising Medical Careers Programme Board. [172486]

**Ann Keen:** The Director General Workforce, as the Programme's Departmental Management Board sponsor, and the Chief Medical Officer, as the Department's medical lead, are responsible for the Modernising Medical Careers Programme Board.

### Health Services

**Mr. Burstow:** To ask the Secretary of State for Health which primary care trusts have *(a)* completed and *(b)* not yet completed a strategic services development plan; and in which year each completed plan was completed. [168928]

**Mr. Bradshaw:** Strategic service development plans (SSDPs) are required as part of the overall partnership agreements underpinning primary care trusts (PCTs) and other trusts who are parties to local improvement finance trust (LIFT) agreements. Part of that partnership agreement is a contractual obligation on the parties to update the SSDP on an annual basis. There is no requirement for SSDPs to be completed in non-LIFT areas.

No central record is kept of the status of individual SSDPs. The following information lists PCTs with LIFT agreements.

Ashton, Leigh and Wigan
Barking and Dagenham
Barnet
Barnsley
Bassetlaw
Bedfordshire

## Health Services: Armed Forces

**Mr. Hancock:** To ask the Secretary of State for Health what estimate he has made of the potential numbers of *(a)* serving and *(b)* veteran services personnel who (i) are eligible for and (ii) have received priority for treatment in the NHS in each of the last three years. [170210]

**Mr. Bradshaw:** The recent extension of long-standing arrangements for priority treatment for war pensioners to all veterans, for service-related conditions, does not affect the current arrangements for serving military personnel to get accelerated access to the national health service in certain circumstances.

There are about 4.8 million veterans. Most veterans with service-related conditions are already receiving any health care that they need for those conditions, sometimes with priority access as war pensioners. Our view is that the extension of the priority treatment arrangements will be relevant to only a small number of veterans.

**Mr. Hancock:** To ask the Secretary of State for Health what assessment he has made of the effects on the *(a)* 10 primary care trusts with the highest concentrations of serving and veteran service personnel and *(b)* the NHS of the decision to give priority treatment to serving and veteran service personnel. [170213]

**Mr. Bradshaw:** Information is not available about which primary care trusts (PCTs) have the highest concentration of veterans. The extension of priority treatment to all veterans will not affect serving military personnel, as their arrangements for accelerated access to the national health service are not changing. As with the current arrangements for priority treatment for war pensioners, decisions about priority treatment for all veterans will be made by the relevant clinicians, and will be subject to clinical need. There should be no significant additional cost: the policy is about prioritisation of future referrals.

### Health Services: EC Accession

**Mr. Philip Hammond:** To ask the Secretary of State for Health what assessment he has made of the effect of migration from A8 countries on health spending per capita in each Government Office region. [167650]

**Mr. Bradshaw:** Funding is allocated to primary care trusts (PCTs) on the basis of the relative needs of their populations. A weighted capitation formula is used to determine each PCTs' share of available resources, to enable them to commission similar levels of health services for populations in similar need.

The 2006-07 and 2007-08 revenue allocations are based on 2003 based long-term sub-national population projections published by the Office for National Statistics. Population projections forecast the population from a base year estimate, taking into account ageing and assumptions based on past trends about births, deaths and migration.

The Home Office recently sought information on the effect of migration from A8 countries from each regional Government office for a presentation given by the Minister for Borders and Immigration to the Migration Impacts Forum (MIF). This was based mainly on anecdotal evidence from regional sources but many regions did in fact point to the young demographic and implicit good health of recent arrivals. We will be using future meetings of the MIF to discuss and consider in more detail health issues related to migration.

### Health Services: Foreigners

**Lynne Jones:** To ask the Secretary of State for Health if he will publish the submissions to the 2004 consultation Proposals to Exclude Overseas Visitors from Eligibility to Free NHS Primary Medical Services. [169116]

**Mr. Bradshaw:** The responses to the 2004 consultation, 'Proposals to Exclude Overseas Visitors from Eligibility to Free NHS Primary Medical Services' were both extensive and inconclusive. They highlighted a range of difficult and sensitive issues.

As a result, all these issues are now being considered as part of the joint Department of Health and Home Office review of the rules governing access to the national health service by foreign nationals. The review was announced on 7 March in the Home Office publication, 'Enforcing the Rules: A new strategy to ensure and enforce compliance with our immigration laws'.

The review is due to be completed shortly and will then be followed by a full public consultation. The responses to the 2004 consultation are being considered as part of this review, we will publish the responses to the 2004 consultation when the Review of Access to the NHS by foreign nationals goes out to public consultation in spring 2008.

### Health Services: Gloucestershire

**Mr. Drew:** To ask the Secretary of State for Health what discussions Stroud District Council has had with Gloucestershire Primary Care Trust on the proposal to increase primary care provision in the new settlement of Hunts Grove, with particular reference to *(a)* numbers of GPs and *(b)* dentistry provision. [171018]

**Mr. Bradshaw:** It is for primary care trusts (PCTs) in conjunction with other local stakeholders and their strategic health authorities to make assessments of health needs and to commission services accordingly.

Therefore, this is a matter between Stroud district council and Gloucestershire PCT.

My hon. Friend may wish to approach the council or the PCT directly on this matter.

### Health Services: NHS Direct

**Mr. Lansley:** To ask the Secretary of State for Health whether he has plans to integrate the services provided by NHS walk-in centres with NHS Direct. [166447]

**Mr. Bradshaw:** There are no plans nationally to integrate these services. NHS Direct offers telephone advice and refers callers to NHS walk-in centres and other local services where face-to-face contact is needed.

### Health Services: Private Sector

**Ben Chapman:** To ask the Secretary of State for Health what recent estimate he has made of the levels of expenditure by private companies on primary care premises and polyclinics; and if he will make a statement. [169195]

**Mr. Bradshaw:** This information is not collected centrally. It is for primary care trusts to agree locally with providers the level of investment into primary care premises.

### Health Services: Publicity

**Mr. Lansley:** To ask the Secretary of State for Health what the cost was of creating his Department's End Waiting, Change Lives brand, broken down by *(a)* internal and *(b)* external consultancy costs. [170193]

**Mr. Bradshaw:** The creative design cost to develop the End Waiting, Changes Lives identity was £96,691.50. The cost includes developing and testing creative routes, refining the chosen route and applying it across materials and account management.

There were no internal consultancy costs.

## Health Services: Reform

**David Taylor:** To ask the Secretary of State for Health when the next Government Professional Health Reform Implementation Programme National Advisory Conference will take place; and what steps he is taking to ensure the representation of the public and patients. [169177]

**Mr. Bradshaw:** The Council for Healthcare Regulatory Excellence has been asked to host the next meeting of the National Advisory Group, which was proposed in 'Trust, Assurance and Safety', in spring 2008. A precise date and time has yet to be arranged. The Council has been asked to ensure that at least 50, of an estimated 500, places are available to patient and the public representatives.

**David Taylor:** To ask the Secretary of State for Health whether the final reports to Ministers from the chairpersons of each of the seven Government Professional Health Reform Implementation Programme work streams are required to reflect a consensus position of all chairpersons. [169186]

**Mr. Bradshaw:** Chairpersons of each of the seven national working groups will not be required to reflect a consensus position of all chairpersons of the seven working groups. Each chairperson has been selected for their personal expertise in a particular area and the recommendations which they make will be considered in their totality by Ministers.

**David Taylor:** To ask the Secretary of State for Health what responses his Department has received as a result of the work of each of the seven Government Professional Health Reform Implementation Programme work streams; and what the dates were of those responses. [169187]

**Mr. Bradshaw:** As yet none of the working groups have reported, although we expect the Enhancing Confidence in Healthcare Professional Regulators chair to submit the report from his working group to the Department by the end of November.

**David Taylor:** To ask the Secretary of State for Health which representatives of which public and patient organisations attended each of the seven Government Professional Health Reform Implementation Programme work streams; when each was invited to participate; how many of these meetings each attended; what estimate he has made of the period of time between the receipt of papers for meetings and the dates of those meetings; and whether patient and public representatives have been given opportunities to make formal presentations at those meetings. [169188]

**Mr. Bradshaw:** The information requested is shown in the following table.

Patient and public representatives have been asked to contribute to working groups on an equal basis to other working group members.

*Working group meetings and patient and public representation*

| *Working group* | *Sub-group* | *Meeting dates* | *Papers circulated on* | *Patient and public representatives* | *Date invited* | *Number of meetings attended* |
|---|---|---|---|---|---|---|
| Enhancing Confidence in the Professional Regulators | | 6 November 2007 | 2 November 2007 | Ms Margaret Goose, Chair of the Royal College of Physicians of London, Patient and Carer Involvement Steering Group | 17 August 2007 | Two of Three |
| | | 12 October 2007 | 9 October 2007 | | | |
| | | 21 September 2007 | 19 September 2007 | | | |

*Working group meetings and patient and public representation*

| *Working group* | *Sub-group* | *Meeting dates* | *Papers circulated on* | *Patient and public representatives* | *Date invited* | *Number of meetings attended* |
|---|---|---|---|---|---|---|
| | | | | Dr. Ron Walton (Vale of Glamorgan Community Health Council) | 24 October | One of One |
| Tackling Concerns Nationally | | TBA | n/a | TBC | Invitations have not yet been sent | Group has yet to meet |

**David Taylor:** To ask the Secretary of State for Health what steps he plans to take to enhance public and patient confidence in each of the seven Government Professional Health Reform Implementation Programme work streams. [169194]

**Mr. Bradshaw:** We are proposing an event specifically for patient and public representatives in new year 2008 once all of the working groups have met. The purpose of the event will be to present the programme as a whole to representatives and to seek their feedback. This is in addition to the continuing involvement of patient and public representatives in the working groups and the National Advisory Group meeting. We are also planning to increase the number of public and patient representatives at the next National Advisory Group meeting.

## Health Services: Standards

**Mr. Lansley:** To ask the Secretary of State for Health how much additional funding his Department has provided for NHS communicators to support the End waiting, change lives campaign, broken down by financial year. [170191]

**Mr. Bradshaw:** The Department provided each strategic health authority with an additional £50,000 during the 2007-08 financial year.

## Hillingdon Hospital: Hospital Beds

**Mr. Randall:** To ask the Secretary of State for Health how many bed spaces there were on average at Hillingdon hospital in each year since 1997. [169679]

**Mr. Bradshaw:** The information requested can be found in the following table, which shows the number of average available and occupied beds at Hillingdon hospital NHS trust since 1997 to 2006.

*The Hillingdon Hospital NHS Trust*

| | *Total (available)* | *Total (occupied)* |
|---|---|---|
| 1997-98 | 566 | 516 |
| 1998-99 | 567 | 498 |
| 1999-2000 | 573 | 519 |
| 2000-01 | 654 | 581 |
| 2001-02 | 661 | 585 |
| 2002-03 | 668 | 594 |
| 2003-04 | 539 | 472 |
| 2004-05 | 512 | 441 |
| 2005-06 | 538 | 433 |
| 2006-07 | 480 | 395 |

*Source:*
Department of Health form KH03

## Hillingdon Primary Care Trust: Finance

**Mr. Randall:** To ask the Secretary of State for Health what the financial position is of Hillingdon Primary Care Trust. [171094]

**Mr. Bradshaw:** The current financial position of Hillingdon Primary Care Trust (PCT) shows that at quarter two 2007-08 the PCT is forecasting a year-end breakeven position.

## Hospital Wards: Closures

**Mike Penning:** To ask the Secretary of State for Health (1) how many hospitals have closed wards since May 1997; and in which constituencies they are located; [170627]

(2) which hospitals have closed since May 1997, broken down by parliamentary constituency. [170628]

**Mr. Bradshaw:** This information is not collected centrally.

National health service organisations will decide locally what constitutes the best configuration of health care services and facilities for their populations, working in conjunction with clinicians, patients and other stakeholders.

In some localities, services may be provided in large centralised hospitals, while others may offer the same services in a community setting. The number, type and configuration of wards will depend on the range and extent of services to be provided.

## Hospitals: Housing

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health whether trusts are able to rent hospital accommodation to *(a)* persons who are not junior doctors and *(b)* persons who are not health professionals. [170567]

**Mr. Bradshaw:** National health service trusts may carry out property transactions that are linked to their ability to carry out their functions.

In addition, NHS trusts have income generation powers under the National Health Service Act 2006 allowing them to raise additional income by marketing any spare capacity provided it does not, to any significant extent, interfere with the performance by trusts of their functions. These powers include "supplying accommodation to any person".

### Hospitals: Parking

**Daniel Kawczynski:** To ask the Secretary of State for Health (1) what guidance he has issued on NHS hospitals levying car parking charges on disabled parking bays; and if he will make a statement; [171867]

(2) how many NHS hospital trusts in England charge patients and visitors who are disabled badge holders for parking at their hospitals. [171887]

**Mr. Bradshaw:** The Department issued revised guidance to the national health service in December 2006 entitled Income Generation: Car Parking Charges—Best Practice for Implementation on the issues to be considered when setting up a car parking scheme or when reviewing existing ones, including what charges to impose and what concessions to consider. This guidance strongly encourages the NHS to be sensitive to those patients who have to use their car parks regularly, by, for instance, offering them reduced price or free car parking. The guidance also stresses the importance of considering the needs of disabled users.

There is no statistical information collected on the number of NHS trusts in England which charge disabled badge holders for parking at their hospitals. It is therefore not possible to provide this information.

**Dr. Kumar:** To ask the Secretary of State for Health how many hospitals in *(a)* England and *(b)* Teesside follow his Department's guidance on providing car parking concessions for patients travelling regularly for treatment; and what steps he has taken in relation to hospitals which do not follow the guidance. [171966]

**Mr. Bradshaw:** There is no statistical information collected on the number of hospitals in England that provide car parking concessions for patients travelling regularly for treatment. It is therefore not possible to provide this information.

Guidance issued to the national health service in December 2006 entitled "Income Generation: Car Parking Charges—Best Practice for Implementation" strongly encourages national health service bodies to be sensitive to those patients who have to use their car parks regularly, by, for instance, offering them reduced price or free car parking. However, NHS bodies are autonomous organisations and are not statutorily obliged to implement this best practice. It is for individual NHS bodies to set the level of charges on their premises, taking account of all the relevant local factors.

### Medical Equipment

**Anne Milton:** To ask the Secretary of State for Health (1) what the evidential basis is for the statement on page 7 of the consultation document Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—to Primary Care that there are indications that underlying manufacturing costs have gone down; [163866]

(2) which companies supplying products listed in Part IX of the Drug Tariff have provided information to his Department of a decline in manufacturing costs; [163867]

(3) which products were used to set the benchmark price in the proposed new pricing model for catheter, incontinence and stoma items; and when they were first listed on the Drug Tariff. [163870]

**Mr. Bradshaw:** About £200 million a year is spent on appliances listed in part IXA (catheter-related), part IXB (continence-related) and part IXC (stoma-related) of the Drug Tariff.

Arrangements for reimbursement of these remained largely unchanged for 20 years and information obtained through the consultation process to date indicates that efficiencies have been achieved in the manufacturing process. If this is not the case, the current consultation gives all parties the opportunity to provide evidence to the contrary.

The proposed levels of reimbursement for catheter, continence and stoma-related appliances was set by using a pricing model that is set out in annex C of the consultation document entitled "Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—to Primary Care. Revised proposals".

Within each subcategory, the market share for products is measured as a percentage of total annual net ingredient cost spend. To determine the pricing model benchmark price, products with very low market share are excluded—as they may not represent a valid benchmark for pricing comparison. In relation to stoma and incontinence appliances, the Department proposed that products of less than 0.1 per cent. of market share should be excluded for benchmarking purposes.

This model was applied to the 5,000 plus items that are listed in parts IXA, B and C. As proposed, these items have been classified into 228 categories. To identify the date that the items that were at the benchmark price were first listed in the Drug Tariff could be done only at disproportionate cost to the Department. Information provided during meetings and in correspondence and has been offered commercial in confidence.

### Medical Records: Databases

**Jeremy Wright:** To ask the Secretary of State for Health under what circumstances a patient's wishes expressed as a section 10 opt-out from the summary care record are expected to be overridden. [168955]

**Mr. Bradshaw:** The Data Protection Act 1998 makes it clear that a section 10 request should only be overridden where the purpose served by processing the data is sufficiently important to warrant doing so even where it is accepted that substantial harm or distress is being caused. We do not expect there to be many, if any, circumstances where this would arise in the case of an individual who is competent to make decisions. We are, however, taking legal advice, and consulting with the Department for Children, Families and Schools, about the position in respect of those that lack competence, where all decisions should be taken in the individual's best interests.

**Jeremy Wright:** To ask the Secretary of State for Health whether it will be lawful for the secondary users database to be searched at the request of the police and for the police to be provided with the identity of individuals whose medical records contain specific information. [168956]

**Mr. Bradshaw:** Data from the secondary uses service will only be disclosed to the police where it is in the overriding public interest, for example to prevent, or support detection of, extremely serious crimes, where there is statutory authority, or where the courts have made an order requiring disclosure.

**Jeremy Wright:** To ask the Secretary of State for Health who the data controller will be in respect of the information stored on the secondary users database. [169023]

**Mr. Bradshaw:** The data controller for information held within the secondary users service is the Department. Other organisations lawfully permitted access to data held within the secondary users service will be data controllers in common for the subset of data that they can access.

**Jeremy Wright:** To ask the Secretary of State for Health under what circumstances he may be designated the data controller in relation to personal data processed on a detailed care record. [169025]

**Mr. Bradshaw:** With regard to detailed care records provided as part of the national health service care records service, the Department is data controller in common with the NHS organisations providing health care to patients. Although key data controller responsibilities such as overall network and technical system security are managed through the Department's contracts, most data controller responsibilities will be discharged by local organisations. However, there may be occasions, for example due to an organisation ceasing to exist or function, where the Department is the sole data controller for the data concerned.

## Midwives: Greater London

**Tom Brake:** To ask the Secretary of State for Health how many midwives worked in each London primary care trust on the 1 July in each of the last 10 years. [169376]

**Mr. Bradshaw:** The information requested is shown in the following table.

However, midwives are employed primarily by acute trusts, so the figures shown are for all organisations which employ midwives in the London Strategic Health Authority area. The non-medical workforce census, which the figures are taken from, is collected as at 30 September.

*National health service hospital and community health services: Qualified midwifery staff in the London Strategic Health Authority area by organisation as at 30 September each specified year*

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total workforce figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent., of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration when analysing trends over time.

*Note*

Data are presented for NHS organisations in existence for each year.

## NHS Business Services Authority

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health if he will list the NHS Business Services Authority's priority projects for 2008-09. [170032]

**Mr. Bradshaw:** The NHS Business Services Authority's (NHSBSA) priority projects for 2008-09 are as follows:

full implementation of the capacity improvement programme;

implementation of the new NHS pension scheme;

modernisation of the NHS pension service;

review of major contractual arrangements;

NHS supply chain benefits realisation;

review of injury benefits;

enhancing dental information services;

supporting the development of electronic prescription service and ensuring NHSBSA readiness; and

improving our operational value for money through efficiency plans and benchmarking.

## NHS Direct

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 611WA, on NHS Direct, what the *(a)* date and *(b)* subject was of each ad hoc meeting held in the past 12 months. [169875]

**Mr. Bradshaw:** This information is not available. These meetings are generally informal and therefore a record is not maintained.

## NHS Direct: Nurses

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 612WA, on NHS Direct, how many *(a)* health advisers and *(b)* nurse advisers were employed at NHS Direct in each month. [169876]

**Mr. Bradshaw:** This is a matter for NHS Direct NHS Trust. They have provided the data in the following table.

| *Month* | *Nurse advisers* | *Health advisers* |
|---|---|---|
| November 2005 | 1,043 | 679 |
| December 2005 | 1,035 | 662 |
| January 2006 | 1,022 | 652 |
| February 2006 | 1,014 | 653 |
| March 2006 | 998 | 649 |
| April 2006 | 989 | 649 |
| May 2006 | 960 | 632 |
| June 2006 | 942 | 611 |
| July 2006 | 916 | 584 |

| January 2007 | 800 | 538 |
| February 2007 | 861 | 617 |
| March 2007 | 933 | 656 |
| April 2007 | 858 | 656 |
| May 2007 | 836 | 607 |

| *Month* | *Nurse advisers* | *Health advisers* |
|---|---|---|
| June 2007 | 830 | 602 |
| July 2007 | 834 | 574 |
| August 2007 | 817 | 572 |
| September 2007 | 810 | 591 |

### NHS Treatment Centres: Cornwall

**Andrew George:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, columns 612-4W, on NHS Treatment Centres: Cornwall, what assessment he has made of the likely effect of the transfer of waiting list patients from the Royal Cornwall Trust to the Independent Sector Treatment Centre on the funding that the Royal Cornwall Trust receives through the Payment by Results system. [169401]

**Mr. Bradshaw:** Independent sector treatment centres (ISTCs) have been able to provide additional surgical capacity in the south-west while offering patients a wider choice of hospitals for their treatment. The treatment centres have helped local national health service hospitals in achieving their own maximum waiting time targets. Prior to the opening of the treatment centres, the local NHS used private sector capacity in an unstructured way to manage demand from general practitioners, but the introduction of treatment centres has reduced the requirement for this.

We do not expect any hospital trust which is providing high quality, accessible services that meet patient needs to sustain a negative impact under Payment by Results, but ultimately it will be for patients to decide where they are treated under Choice.

### NHS: Administration

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how much was spent on *(a)* administration and *(b)* management in the NHS in each year since 1992 (i) in gross terms and (ii) as a percentage of the total NHS budget. [164593]

**Mr. Bradshaw:** The information requested is shown in the following table.

| | *Administration* | | *Management* | |
|---|---|---|---|---|
| | *Total costs (£ million)* | *As a percentage of total national health service expenditure* | *Total costs (£ million)* | *As a percentage of total national health service expenditure* |
| 1992-93 | 1,545 | 5.5 | 497 | 1.8 |
| 1993-94 | 1,605 | 5.5 | 612 | 2.1 |
| 1994-95 | 1,637 | 5.4 | 716 | 2.3 |
| 1995-96 | 1,699 | 5.3 | 789 | 2.5 |
| 1996-97 | 1,786 | 5.4 | 867 | 2.6 |
| 1997-98 | 1,825 | 5.3 | 912 | 2.6 |
| 1998-99 | 1,936 | 5.3 | 952 | 2.6 |
| 1999-2000 | 2,078 | 5.2 | 1,054 | 2.6 |
| 2000-01 | 2,279 | 5.2 | 1,187 | 2.7 |
| 2001-02 | 2,597 | 5.3 | 1,332 | 2.7 |
| 2002-03 | 2,893 | 5.4 | 1,571 | 2.9 |
| 2003-04 | 3,188 | 5.0 | 1,777 | 2.8 |
| 2004-05 | 3,412 | 4.9 | 2,098 | 3.0 |
| 2005-06 | 3,648 | 4.8 | 2,213 | 2.9 |
| 2006-07 | 3,619 | 4.5 | 2,088 | 2.6 |

*Note*:

Figures for 2004-05, 2005-06 and 2006-07 exclude data for foundation trusts.

*Sources*:

Annual financial returns (unaudited) for primary care trusts, (strategic) health authorities and NHS trusts 1992-93 to 2006-07

NHS total expenditure (England) 1992-93 to 2006-07

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how much was spent on *(a)* administration and *(b)* management (i) as a percentage of the total budget and (ii) as the cost per head of population in the areas covered by each (A) primary care trust, (B) acute trust, (C) ambulance trust, (D) mental health trust, (E) foundation trust, (F) strategic health authority, (G) special health authority and (H) NHS arms length body in England in the last year for which figures are available. [164594]

**Mr. Bradshaw:** Information available (2006-07) for primary care trusts, all national health service trusts and strategic health authorities has been placed in the Library.

It is not possible to show cost per head of population figures for NHS trusts because they do not serve discrete areas of population.

This information is not held for foundation trusts, special health authorities or arms length bodies.

### NHS: Data Protection

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) if he will list the titles of all items of guidance *(a)* the Information Centre for Health and Social Care and *(b)* the NHS Business Services Authority has issued to its staff on the handling of personally-identifiable data; if he will place copies of these items of guidance in the Library; and if he will make a statement; [170074]

(2) what recent assessment the *(a)* Information Centre for Health and Social Care and *(b)* NHS Business Services Authority has made of the security of the personally-identifiable data it collects. [170075]

**Mr. Bradshaw:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### NHS: Databases

**Sandra Gidley:** To ask the Secretary of State for Health under what circumstances *(a)* a GP's surgery and *(b)* another NHS organisation may pass on a patient's personal data to a third party. [168995]

**Mr. Bradshaw:** Patient personal data is held by national health service organisations under legal and ethical obligations of confidentiality and subject to the provisions of the Data Protection Act 1998. It may be passed to third parties when identifying details have been removed so the patient cannot be identified; or in accordance with statutory provisions or where required under court order; or where the public interest is such that obligations of confidentiality and the competing public interest in the provision of confidential health services need to be overridden, for example serious crime or child protection; or with the consent of the patient concerned.

Guidance to the NHS is provided in the Department's publication 'Confidentiality: NHS Code of Practice' published in November 2003 is available in the Library.

### NHS: Finance

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 615WA, on NHS finance, for what reason additional cash limits were given to NHS trusts in 2006-07. [169871]

**Mr. Bradshaw:** In 2006-07 the informal system of cash brokerage and planned support that had previously operated across the national health service, was replaced for primary care trusts (PCTs) by a formal system of cash limit additions. The requirements for cash limit additions were identified in conjunction with strategic health authorities, and were provided to finance historic working capital issues that had previously been financed informally through the cash brokerage system. Cash limit additions will be reversed over time in line with financial recovery in the PCTs.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 615WA, on NHS finance, which cash limit deductions were applied to NHS trusts in 2006-07, broken down by trust. [169872]

**Mr. Bradshaw:** Cash limit adjustments were not applied to national health service trusts in 2006-07 in respect of these transactions.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to his written ministerial statement of 22 November 2007, *Official Report*, column 145WS, on primary care trusts (revenue allocations), for what reason the extension has been granted; what steps he has taken to allow primary care trusts to enter into three year agreements with local partners; and what assessment he has made of any risks primary care trusts may incur as a result of the delay in their funding settlement. [169877]

**Mr. Bradshaw:** The Advisory Committee on Resource Allocation (ACRA) has requested additional time to finalise its review of the weighted capitation formula to ensure that its proposed recommendations on changes to the formula are as robust as possible. This extension was granted to ACRA, as it is important that the allocations to primary care trusts (PCTs) are fair and equitable.

As a result of granting ACRA an extension to its work programme, it was not possible to announce three-year allocations to PCTs in time to give them sufficient planning time. Therefore, it was decided to make a one-year allocation to PCTs for 2008-09.

The operating framework, due to be published in December, will set out the national priorities for the year ahead in the context of the comprehensive spending review (CSR), which set out the high level priorities for the period 2008-09 to 2010-11. Together with the high level growth figures announced in the CSR, this should allow each PCT to make reasonable assumptions for their longer term plans.

Therefore, even though PCTs have received a one-year allocation only for 2008-09, they should still be able to plan financially and it should not prevent PCTs from entering into three-year agreements with local partners.

The announcement of the 2009-10 and 2010-11 revenue allocations will be made by summer 2008.

**Mr. Harper:** To ask the Secretary of State for Health pursuant to the written ministerial statement of 22 November 2007, *Official Report*, column 145WS, on primary care trusts (revenue allocations) what the terms of reference are of the review of the formula in support of revenue allocations. [169952]

**Mr. Bradshaw:** The Advisory Committee on Resource Allocation (ACRA) continually oversees the development of the weighted capitation formula. Prior to each revenue allocation round, ACRA carries out a work programme to support the allocations to primary care trusts. The main items on ACRA's current work programme cover:

a review of the market forces factor;

a review of the need element of the formula; and

determining a robust population base for the allocations.

ACRA's terms of reference are:

to advise the Secretary of State for Health on the distribution of resources across primary and secondary care, in support of the goal of equitable access to health care for all; and

to develop and apply methods which are as objective and needs-based as available data and techniques permit.

ACRA is taking forward its work programme under these terms of reference.

In addition, the objective for the review of the need element of the formula is to contribute to:

equal opportunity of access to health care for people at equal risk; and

the reduction in avoidable health inequalities.

**Mr. Lansley:** To ask the Secretary of State for Health what his *(a)* highest and *(b)* lowest estimate is of the likely NHS surplus in 2007-08. [170181]

**Mr. Bradshaw:** As stated in 'The Quarter', released on 30 November 2007, the projected aggregate surplus for national health service organisations, excluding foundation trusts, at quarter two is £1,789 million (£1.789 billion).

**Mr. Lansley:** To ask the Secretary of State for Health what steps his Department is taking to manage the risk to the NHS of the drop in its funding growth rate from 2008-09. [170195]

**Mr. Bradshaw:** There are a number of factors that mean the national health service is well positioned to manage with a reduced rate of funding growth while continuing to deliver significant improvements to patient care.

In the years covered by the 2007 comprehensive spending review (2008-09 to 2010-11) the NHS will receive real terms growth of 4 per cent. per year. This is significantly higher than the long-term average of around 3 per cent., so we should not consider the next three years as a period of low growth. On top of the growth in funding, the NHS will deliver annual average value for money improvements of 3 per cent., and the cash released will be available to improve patient care. The Department will publish the value for money agreement in December, which will support local delivery of the savings. In addition, the NHS is now in a sound financial position and better able to cope with reduction in the growth in funding.

## NHS: ICT

**Mr. Lansley:** To ask the Secretary of State for Health who has been the senior official responsible for user involvement in the National Programme for IT/Connecting for Health Programme since its inception, with the periods for which each official was responsible. [172487]

**Mr. Bradshaw:** Since May 2005 to date, Mr. Richard Jeavons, Director of Service Implementation and senior responsible officer (SRO) for service implementation has had this responsibility, reporting to the NHS Chief Executive and overall SRO for the national programme for information technology. Previously the role was filled by Mr. Alan Burns (November 2004 to May 2005), and Professor Aidan Halligan (April 2004 to November 2004). Prior to April 2004 responsibility for arrangements for engaging with key stakeholders across the NHS was part of the responsibility of the then overall SRO for the programme, Sir John Pattison.

**Mr. Lansley:** To ask the Secretary of State for Health what the date was on which each renegotiation of his Department's Connecting for Health contracts was completed; and what the additional costs were arising out of each renegotiation. [169955]

**Mr. Bradshaw:** There has been no renegotiation of primary supplier contracts let by NHS Connecting for Health under the national programme for information technology. There have been 'resets' of the contracts within the original terms and conditions to accommodate changes in subcontractor, development and deployment dates and, in one case, novation of the contract. All these changes continue to support the evolving needs of the national health service, but there has been no substantial change in contract scope or risk allocation. Suppliers continue to be responsible for delivering the overall requirements against the original terms and conditions, and within the original costs.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what progress his Department has made on its review of health informatics; with which *(a)* individuals and *(b)* organisations his Department has had discussions for the purposes of contributing to the review; what the content was of these discussions, when he intends to publish the results of the review; whether he intends to consult on any recommendations contained in the review; what interim findings have emerged from the review to date; and if he will make a statement. [170093]

**Mr. Bradshaw:** The informatics review is in the initial stages of analysing collected data and information, and the process of consulting stakeholders has begun. To date the review team has met with staff from the information centre for health and social care, the Department's Information Services Division and NHS Connecting for Health, suppliers, and the national health service to discuss informatics issues and by its conclusions will have consulted a wide range of other stakeholders.

The informatics review is planned to report in alignment with the next stage review being led by my noble Friend the Lord Darzi. So far there have been no interim findings.

## NHS: Negligence

**Mr. Baron:** To ask the Secretary of State for Health when he expects to answer question 167022, on the NHS Litigation Authority, tabled by the hon. Member for Billericay on 19 November. [172850]

**Ann Keen:** A reply was given on 6 December 2007, *Official Report*, column 1438W.

## NHS: Personal Records

**Jeremy Wright:** To ask the Secretary of State for Health if he will take steps to ensure that the version of the patient record that can be accessed by the patient can be invisibly edited so that selected information can be removed at the patient's request, while remaining visible in the summary care record accessible to clinicians. [169178]

**Mr. Bradshaw:** We are aware that both clinicians and patients may find functionality of this nature desirable and we are considering whether the clinician's sealed envelope functionality that is to be deployed in detailed care records might also be used in the summary care record.

## NHS: Procurement

**Mike Penning:** To ask the Secretary of State for Health on how many occasions over the last 12 months NHS suppliers have been required to resupply stock at their own expense. [170615]

**Mr. Bradshaw:** The Department does not collect this information centrally.

Suppliers to the national health service through NHS Purchasing and Supply Agency or NHS Supply Chain national framework agreements are required to adhere to terms and conditions. It is part of these standard terms and conditions that if goods are not delivered within specified timescales, the NHS body that placed the contract is able to purchase replacement goods from an alternative source and recover any difference in cost from the contracted supplier.

It is also possible that suppliers may be asked to re-supply goods at their own expense, for example where the original goods supplied are damaged, faulty or sub-standard.

### NHS: Property

**Mike Penning:** To ask the Secretary of State for Health which NHS properties are vacant and awaiting final disposition. [170624]

**Mr. Bradshaw:** This information is not collected centrally.

### NHS: Reform

**David Taylor:** To ask the Secretary of State for Health if he will take steps to make *(a)* agendas and *(b)* other papers of each Government Professional Health Reform Implementation Programme work stream meeting available on his Department's website in advance of each such meeting. [169775]

**Mr. Bradshaw:** All working groups have agreed to make agendas, papers and minutes of meetings available after working group meetings, where agreed by working group members. It would not be appropriate to publish papers widely before members of working groups have had the opportunity to comment on them.

### NHS: Repairs and Maintenance

**Mike Penning:** To ask the Secretary of State for Health on how many occasions NHS contractors have been required to provide repairs at their own expense over the last 12 months. [170539]

**Mr. Bradshaw:** The information is not held centrally and could be obtained only at disproportionate cost.

### Nutrition: Medical Equipment

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health whether nutritional screening equipment for use in the NHS is purchased through the NHS Purchasing and Supply Agency. [170077]

**Mr. Bradshaw:** Nutritional screening equipment for use in the national health service is not purchased through the NHS Purchasing and Supply Agency.

### Obesity

**Norman Lamb:** To ask the Secretary of State for Health when the Quality Outcome Framework for GPs will be reviewed; whether there are plans to make tackling obesity part of the framework; and if he will make a statement. [171690]

**Mr. Bradshaw:** Quality and Outcome Framework (QOF) is kept under ongoing review and discussions between the General Practitioner Committee (GPC) and NHS Employers (NHSE) over contractual matters, including QOF continue to take place. Arrangements for improving the health of patients and delivering heath services for key components of the general practitioner contract, are covered by essential, additional and enhanced services as well as the QOF. Decisions on the most appropriate interventions detailed by general practice form part of the on going negotiations between GPC and NHSE. It would be inappropriate for the Department to pre-empt the outcome of those confidential contract discussions.

### Paramedical Staff: Private Sector

**Mike Penning:** To ask the Secretary of State for Health what his policy is on underwriting indemnity insurance for private sector paramedic providers; and if he will make a statement. [170544]

**Mr. Bradshaw:** There is no departmental policy held on underwriting indemnity insurance for private sector paramedic providers. This is a matter for the private ambulance providers to manage themselves.

**Mike Penning:** To ask the Secretary of State for Health what his policy is on competition in service provision by paramedics; and if he will make a statement. [170545]

**Mr. Bradshaw:** The Department has not issued guidance on competition in service provision by paramedics. It is up to the NHS Ambulance Trust locally to decide how to resource its front-line response to meet demand.

The Department, has however made clear that in commissioning patient transport services, contracts/service level agreements with providers should set out standards and requirements relating to a range of areas to ensure high quality, safe services.

### Part IX Drug Tariff

**Dr. Richard Taylor:** To ask the Secretary of State for Health how many errors, inaccuracies and omissions were identified by industry within his Department of Health's new part IX drug tariff categories; and if he will make a statement. [171196]

**Mr. Bradshaw:** Following publication of arrangements under the Part IX of the Drug Tariff for the provision of stoma and incontinence appliances and related services to Primary Care revised proposals on 6 September 2007, the Department received a number of representations that indicated that some errors highlighted in the item classification table in the November 2006 consultation had not been corrected in the latest published consultation document.

In summary, 478 editorial changes have been requested; the majority could be considered errors, for example incorrect reference codes.

In addition, 124 omissions have been identified mainly as a result of companies change of ownership during the course of this consultation.

Departmental officials are currently considering the best way to incorporate these corrections. All stakeholders will be advised once a decision has been made.

**Dr. Richard Taylor:** To ask the Secretary of State for Health when his Department will publish the revised categories for part IX of the drug tariff, which have been amended as a result of corrections and revisions submitted by industry prior to 9 November 2007. [171199]

**Mr. Bradshaw:** Departmental officials are currently reviewing the best way to incorporate the corrections and revisions received from all stakeholders. When a decision has been reached all stakeholders will be advised.

**Mr. Allen:** To ask the Secretary of State for Health (1) what redress companies will have in the event of a dispute about the accuracy of a product's classification under proposed changes to Part IX of the Drug Tariff; [165372]

(2) what changes he proposes to make to the classification in Part IX of the Drug Tariff; what consultation he proposes to hold on changes to this classification; and if he will make a statement; [165819]

(3) what assessment he has made of the effect of the proposed classification of stoma and incontinence appliances under Part IX of the Drug Tariff on the introduction of innovative treatments in this field; and if he will make a statement. [165820]

**Mr. Bradshaw:** The consultation entitled "Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—to Primary Care. Revised Proposals" sets out the proposed changes to the classification of Part IX stoma and incontinence appliances. Copies of the consultation are available in the Library and is also available at

www.dh.gov.uk/en/Consultations/Liveconsultations/DH_078135

The consultation is the mechanism through which interested parties may comment on these proposals. Companies are encouraged to advise of errors or suggestions during the consultation which runs until 28 December 2007.

One of the stated objectives of the Part IX review is the facilitation of innovative solutions. Views are sought on this by way of the consultation process and we have been reliant on the responses of stakeholders, including industry, in relation to the effects of these proposals may have. This in ongoing until the end of the consultation.

## Patient Choice Schemes

**Sandra Gidley:** To ask the Secretary of State for Health what proportion of hospital appointments were made using Choose and Book in the last period for which figures are available, broken down by primary care trust. [164059]

**Mr. Bradshaw:** The following table gives the percentage of general practitioners referrals to first consultant out-patient appointments booked using Choose and Book in September 2007, broken down by primary care trust (PCT). The overall percentage was 39 per cent. rising to 47 per cent. in October 2007 (for which final results are not yet available by PCT).

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what progress the Information Centre for Health and Social Care has made in its project supporting the patient choice agenda, as stated on the Our Priorities for 2007-08 section of its website; what outcome measures which can be used to support choice have been identified; and if he will make a statement. [170033]

**Mr. Bradshaw:** Good progress has been made in supporting the patient choice agenda. The Information Centre for health and social care is making a substantial contribution to the new national health service choices website. The Information Centre also provides information on a number of outcome measures, in particular:

- an online database of general practitioner practice results under the Quality and Outcomes Framework, available at www.qof.ic.nhs.uk;
- provision of information for the Healthcare Commission's web tool that enables heart patients to get easy access to information giving reliable facts and figures about survival rates; and
- a website to give parents and carers of children with congenital heart disease information to help them make decisions about their child's treatment, including survival rates for the most common types of treatment.

## Pharmacy: Standards

**Mr. Vara:** To ask the Secretary of State for Health what assessment his Department has made of the effect of pharmaceutical regulations on dispensing doctors' surgeries; and if he will make a statement. [169252]

**Mr. Bradshaw:** The National Health Service (Pharmaceutical Services) Regulations 2005 contain provisions that relate to both community pharmacy and dispensing doctors. These provisions include the procedures that are to be followed by primary care trusts in deciding whether a new provider can enter the market and the impact of any decision on existing local services. The operation of these provisions is kept under review and discussed with the various representative bodies as necessary.

## Prescriptions: Information and Communications Technology

**Mr. Oaten:** To ask the Secretary of State for Health when he expects to agree the model for the smartcards required for the second phase of electronic prescribing. [167662]

**Mr. Bradshaw:** In the near future. The model will conform with the commitments given in the care record guarantee, which requires access to patient-identifiable information to be controlled by use of individual user smartcards, a valid pass code, role-based access controls and a user profile linked to the organisation in which the user is working. Officials are now working with stakeholders to agree the operational detail which will underpin these requirements and this work is expected to complete shortly.

**Mr. Oaten:** To ask the Secretary of State for Health if he will wait until all system suppliers have received NHS Connecting for Health accreditation before he moves to the second stage of live electronic prescribing. [167785]

**Mr. Bradshaw:** Programme management best practice recommends an incremental approach to implementation for large-scale information technology-enabled change programmes. This approach was adopted for the electronic prescription service (EPS) release 1 and we intend to adopt the same best-practice approach for release 2.

A number of initial implementer primary care trusts (PCTs) have been identified for deployment of release 2 of the EPS. Following achievement of technical accreditation, systems will be rolled out on a limited basis in these PCTs prior to wider accreditation and national deployment.

## Primary Care Trusts: Finance

**James Brokenshire:** To ask the Secretary of State for Health what the financial position of each primary care trust was at the most recent date for which figures are available; and if he will make a statement. [170425]

**Mr. Bradshaw:** This information is shown in the following table.

Department of Health financial monitoring

## Queen's Hospital Romford: Food

**Andrew Rosindell:** To ask the Secretary of State for Health how much has been spent by his Department on food outlets at the new Queen's Hospital, Romford. [170850]

**Mr. Bradshaw:** The information requested is not held centrally. It is for individual national health service organisations to determine the level and type of refreshments provided for people visiting their relatives, friends or attending out-patient clinics at NHS establishments.

## Queen's Hospital Romford: Private Finance Initiative

**James Brokenshire:** To ask the Secretary of State for Health what annual payments are required to be made by *(a)* Barking, Havering and Redbridge NHS hospitals trust and *(b)* other NHS bodies under the private finance initiative contract for the Queen's hospital in Romford; to whom such payments are made; and what the duration of the contract is. [170427]

**Mr. Bradshaw:** Based on the latest service payment invoice for the period covering the quarter to 15 January 2008, the annualised value of the service payments is approximately £40.7 million per year. This figure excludes value added tax (VAT), but VAT is reclaimable under current national health service arrangements.

The payments are made to Catalyst Healthcare (Romford) Ltd.

The contract term is 36 years, covering the construction and operational period, which expires on 15 January 2040.

## Retirement

**Mr. Gordon Prentice:** To ask the Secretary of State for Health whether his Department requires its employees to retire at the latest at 65 years of age; and if he will make a statement. [169618]

**Mr. Bradshaw:** The retirement age for employees of the Department, as of 1 October 2006, is 65 years of age. Employees who reach age 60 after 1 October 2006 can elect whether to retire or remain in employment for a period of their choosing, up to age 65. Employees also have the right to request to work beyond age 65. Agreement will normally be given unless there are valid business reasons for turning down a request. Employees making such requests are subject to the usual requirements of conduct and capability to carry out their duties. Extensions after age 65 are not normally agreed for more than one year at a time.

## Social Services: Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health pursuant to the answer of 20 November 2007, *Official Report*, columns 838-9W, on social services: finance, whether the official steering group is the same as the review of the social care funding group announced by the hon. Member for Birmingham, Hodge Hill (Mr. Byrne) on 30 March 2006. [172898]

**Mr. Ivan Lewis:** The official steering group, led by Her Majesty's Treasury, is not the same as the Department of Health Comprehensive Spending Review social care working group, which was announced by the then Parliamentary-under Secretary of State, the hon. Member for Birmingham, Hodge Hill (Mr. Byrne), on 30 March 2006.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what assessment the review of social care funding group announced by the hon. Member for Birmingham, Hodge Hill (Mr. Byrne) on 30 March 2006 made of *(a)* the long-term costs and cost pressures associated with social care, *(b)* who should pay for social care services, *(c)* secondary products relevant to long-term care and *(d)* options for whole system reform. [172931]

**Mr. Ivan Lewis:** The Department's Comprehensive Spending Review Social Care Working Group considered a range of issues around the long term funding of social care. The Group's work was factored in to the Departments plans for social care funding in relation to the Comprehensive Spending Review 2007.

## St. George's Hospital Hornchurch: Hospital Beds

**James Brokenshire:** To ask the Secretary of State for Health what the average bed occupancy rate was at St. George's hospital, Hornchurch in each month of the last three years. [170426]

**Mr. Bradshaw:** The information is not held in the format requested. Information on average bed occupancy rates are only held at trust level. The following table shows average daily bed occupancy rates at North East London Mental Health Trust, which includes St. George's hospital, for the last three years.

| | Occupancy rate (occupied/available beds x 100 per cent.) |
|---|---|
| 2006-07 | 92.7 |
| 2005-06 | 93.1 |
| 2004-05 | 97.1 |

Department of Health from KH03

## Surgery: Greater London

**Tom Brake:** To ask the Secretary of State for Health how many operations were cancelled at each London hospital within *(a)* seven days and *(b)* 24 hours of the appointment in each of the last five years. [169375]

**Mr. Bradshaw:** The information requested is shown in the following table.

*Cancelled operations for non clinical reasons, NHS organisations in London, 2002-03 to 2006-07 and 2007-08 Q1 only*

| | | *Number of last minute cancs for non clinical reasons* | | | | | |

[1] Q1 only

*Notes:*

The table shows the organisations as they existed, at the time of each collection.

A last minute cancellation is one that occurs on the day the patient was due to arrive, after they have arrived in hospital or on the day of their operation.

Some common non-clinical reasons for cancellations by the hospital include: ward beds unavailable; surgeon unavailable; emergency case needing theatre; theatre list over-ran; equipment failure; admin error; anaesthetist unavailable; theatre staff unavailable; and critical care bed unavailable.

An operation which is rescheduled to a time within 24 hours of the original scheduled operation should be recorded as a postponement and not as a cancellation. The QMCO collection does not record the number of postponements.

# Written Answers to Questions

*Tuesday 11 December 2007*

## DUCHY OF LANCASTER

### Data Protection

**Greg Clark:** To ask the Chancellor of the Duchy of Lancaster when he read the report, Independent Review of Government Information Assurance; and what steps he has taken in response to the report. [168805]

**Edward Miliband** *[holding answer 27 November 2007]:* The discussion document on the Independent Review of Government Information Assurance, published for the Information Assurance Conference on 27 June 2007, helped to inform development of the Government's Information Assurance Strategy, published on the same day. Information Assurance procedures within departments and agencies are being reviewed by the Cabinet Secretary, 21 November 2007, *Official Report*, column 1179.

### Retirement

**Mr. Gordon Prentice:** To ask the Chancellor of the Duchy of Lancaster whether the Cabinet Office requires its employees to retire at the latest at 65 years of age; and if he will make a statement. [169619]

**Gillian Merron:** The Cabinet Office has a retirement age of 65 for its employees. Employees who wish to remain beyond that age may exercise their statutory right to request to remain under the Employment Equality (Age) Regulations 2006. Requests to remain beyond the age of 65 are considered against clearly defined criteria that meet business needs as well as ensuring fair and equal treatment for all employees.

The Department's retirement policy recognises the wealth of valuable experience that all employees can bring to the organisation and supports its business by providing a skilled and professional work force with opportunities for development and advancement, irrespective of age.

## PRIME MINISTER

### Political Parties: Public Appointments

**Andrew Mackinlay:** To ask the Prime Minister what appointments to the House of Lords arising from *(a)* nominations from political parties, *(b)* non-party political nominations and *(c)* by other means, indicating in each case whether nominations were made by (i) the Prime Minister, (ii) the Leader of the Opposition, (iii) the Leader of the Liberal Democrats, (iv) leaders of other parties and (v) others. [173092]

**The Prime Minister:** Appointments to the House of Lords are announced in *The London Gazette* and affiliation is a matter of public record.

## ELECTORAL COMMISSION COMMITTEE

### Labour Party: Donors

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission if he will make a statement on the timetable for the investigation by the Electoral Commission into whether there has been any failure to comply with the Political Parties, Elections and Referendums Act 2000 in connection with a number of donations made to the Labour party announced on 26 November. [171468]

**Peter Viggers:** The Electoral Commission informs me that it opened its inquiry on 27 November and formally referred the matter to the Metropolitan Police Service on 30 November.

### Meetings: Political Parties Panel

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission if he will place in the Library copies of the minutes of meetings held between the Political Parties Panel and the Electoral Commission held since June 2001. [171470]

**Peter Viggers:** The Electoral Commission informs me that it has done so.

### Political Impartiality

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether restrictions apply to the staff of the Electoral Commission *(a)* joining political parties, *(b)* donating to political parties, *(c)* donating to registered third parties and *(d)* contributing to trade union political funds. [171471]

**Peter Viggers:** Under the terms of schedule 1 to the Political Parties, Elections and Referendums Act 2000 any member of staff, except the chief executive, may be a member of a political party.

Under the Act, Electoral Commission staff are not permitted to make recordable donations to registered political parties or to recognised third parties.

The Electoral Commission informs me that there are no restrictions on its staff contributing to trade union political funds.

### Political Parties: Donors

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the Electoral Commission's policy is on the *(a)* publication and *(b)* other uses of lists of impermissible donors. [171454]

**Peter Viggers:** The Electoral Commission informs me that it is statutorily required under section 69 of the Political Parties, Elections and Referendums Act 2000 to maintain a publicly available register of recordable donations. That register includes information on impermissible donations. The register is available on the Commission's website and at its offices.

The Commission uses the registered information on impermissible donations to inform periodic updates of its guidance.

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what guidance the Electoral Commission has produced on the procedure and obligations applying to individuals making donations to political parties on behalf of third parties. [171469]

**Peter Viggers:** The Electoral Commission informs that it publishes on its website at:

www.electoralcommission.org.uk

'Donations and loans: guidance for political parties in Great Britain' which details the reporting requirements on donations to political parties, including those made on behalf of others.

### Political Parties: Trade Unions

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what guidance the Electoral Commission has provided on reporting aggregated trade union affiliation fees paid to a political party as a donation where each individual affiliation fee is below the £200 reporting threshold. [171388]

**Peter Viggers:** The Electoral Commission informs that it publishes "Donations and loans: guidance for political parties in Great Britain" which includes the reporting requirements on aggregated donations. The guidance is available on the Commission's website at www.electoralcommission.org.uk

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Electoral Commission has undertaken into trade union funding of the *(a)* Labour, *(b)* Conservative and Unionist and *(c)* Liberal Democrat Party. [171389]

**Peter Viggers:** The Electoral Commission informs me that it published a report in 2004 entitled "The Funding of Political Parties", which included information on funding provided by trade unions. Copies of this report are available in the House of Commons Library. The Commission publishes on its website, www.electoralcommission.org.uk, details of donations and loans to all political parties, including those reported from trade unions.

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what estimate the Electoral Commission has made of the amount donated by trade union organisations to political parties, in *(a)* cash and *(b)* non-cash donations in (i) 2005 and (ii) 2006. [171455]

**Peter Viggers:** The Electoral Commission informs me that the information requested is as set out in the following table.

£

| | *Cash* | *Non-cash* |
|---|---|---|
| 2005 | 11,782,225.00 | 203,595.02 |
| 2006 | 8,600,158.09 | 14,522.00 |

### Politicians: Trade Unions

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what guidance the Electoral Commission has given on declaration and registration of trade union sponsorship of *(a)* hon. Members and *(b)* parliamentary candidates. [171387]

**Peter Viggers:** The Electoral Commission informs me that it produces guidance for Members of Parliament on their reporting requirements under the Political Parties, Elections and Referendums Act 2000. A copy of the most recent version of the guidance, "Donations and loans: guidance for Members of Parliament", published in November 2006, has now been placed in the House of Commons Library. The guidance covers the types of donations, including sponsorship, that must be reported to the Commission.

Guidance for parties, candidates and agents is provided to those involved in elections to Westminster, the European Parliament, Scottish Parliament, Northern Ireland Assembly, National Assembly for Wales and for all local government elections.

## OLYMPICS

### Corporate Hospitality

**David Simpson:** To ask the Minister for the Olympics on how many occasions she has accepted corporate hospitality in the last 12 months. [171306]

**Tessa Jowell:** Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

## WALES

### Ministers: Salaries

**Mr. Harper:** To ask the Secretary of State for Wales whether the Wales Office pays any proportion of his Ministerial salary. [173399]

**Mr. Hain:** Ministerial salaries are paid in accordance with the Ministerial and Other Salaries Act 1975. Details of ministerial salaries are available at http://www.parliament.uk/documents/upload/m06.pdf and in the Library of the House.

## LEADER OF THE HOUSE

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Leader of the House whether the standard terms and conditions of purchase used by her Office in the procurement of goods and services from the private sector prohibit the assignment of debt. [172438]

**Helen Goodman:** The Office of the Leader of the House of Commons is part of the Cabinet Office for these purposes. The information requested will be contained in the response given by that Department.

### Labour Party: Finance

**Mrs. May:** To ask the Leader of the House what declarations she has made under the Ministerial Code in relation to donations received in relation to her deputy leadership of the Labour Party campaign; and to whom, and in respect of what donations, such declarations were made. [173089]

**Ms Harman:** Information was provided to the permanent secretary at the Department of Constitutional Affairs at the appropriate time and in line with the Ministerial Code.

### Public Bill Committees

**Mr. Hancock:** To ask the Leader of the House what assessment she has made of the effect of public bill committees on the legislative process. [172756]

**Helen Goodman:** The changes in procedure relating to the committee stage of Bills taken off the Floor of the House, including the renaming of standing committees on Bills by the more descriptive title of 'Public Bill Committees', which were agreed by the House on 1 November 2006, have been generally welcomed.

Oral evidence taking in Public Bill Committees began in January 2007. Four Bills which began their passage in session 2006-07 took such evidence, and in the current session it will now be standard practice for all programmed Government Bills starting in the Commons to hold sessions of oral evidence. The ability of such committees to take oral evidence before proceeding to clause by clause scrutiny has brought benefits to the consideration of Bills. Good co-operation between the Government and other representatives on the committee, and the House authorities, can maximise the effectiveness of the process. The power for such committees to receive written evidence is increasingly made use of by a range of organisations and individuals. The initial view is that these processes have helped to improve the opportunities for those outside Parliament to engage with the legislative process.

## WOMEN AND EQUALITY

### Departments: Manpower

**Jo Swinson:** To ask the Minister for Women and Equality whether the legal advisers working alongside the Government Equalities Office, as referred to in the answer of 29 October 2007, *Official Report*, column 609W, on Departments: manpower work exclusively for the Government Equalities Office. [171344]

**Barbara Follett:** The legal advisers identified as working alongside the Government Equalities Office in the answer of the 29 October 2007, were those working solely for the Government Equalities Office.

## TREASURY

### Arthritis: Death

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer how many people *(a)* under 16 years of age and *(b)* 16 years and over died from rheumatoid arthritis in each year since 1997, broken down by Government Office Region. [172912]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked top reply.

*Letter from Colin Mowl, dated 11 December 2007:*

> The National Statistician has been asked to reply to your recent question asking how many people *(a)* under 16 years of age and *(b)* 16 years and over died from rheumatoid arthritis in each year since 1997, broken down by Government Office Region. I am replying in her absence. (172912)
>
> The attached table provides *(a)* the number of deaths from juvenile rheumatoid arthritis in children under 16 and *(b)* rheumatoid arthritis in persons aged 16 and over, broken down by English Government Office Region from 1997 to 2006 (the latest year available).

*Table 1: Number of deaths with a cause of juvenile rheumatoid arthritis (under 16 years) or rheumatoid arthritis (16 years and over)[1] English Government Office Region, 1997-2006[2,3]*

*Deaths (persons)*

| | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 | 2006 |
|---|---|---|---|---|---|---|---|---|---|---|
| *North East* | | | | | | | | | | |

| **All rheumatoid arthritis** | 101 | 89 | 86 | 90 | 132 | 103 | 108 | 93 | 107 | 81 |

---

[1] Cause of death for juvenile rheumatoid arthritis was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 714.0-714.9 and Tenth Revision (ICD-10) codes M05.0-M06.9, M080.0, M08.2, M08.3 and M08.9, where there was any mention of these codes on the death certificate, and the person was aged under 16 years. Cause of death for rheumatoid arthritis (16 years and over) was defined using ICD-9 codes 714.0-714.9 and ICD-10 codes M05.0-M06.9, M08.0, M08.2, M08.3 and M08.9, where this was recorded as the underlying cause of death, and the person was aged 16 years or over. The introduction of ICD-10 in 2001 means that the numbers of deaths from this cause before 2001 are not completely comparable with later years.

[2] Based on parliamentary constituency and local authority boundaries as of 2007.

[3] figures are for deaths registered in each calendar year.

### Aviation

**Chris Huhne:** To ask the Chancellor of the Exchequer (1) how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result; [172242]

(2) what estimate he has made of the total amount of carbon dioxide emissions produced by his Department in each year since 1997; [173348]

(3) how many miles he and other Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172570]

**Angela Eagle:** The Treasury began collecting data on air mileage and emissions in 2006-07. The available data are set out in the table. It is not possible to give a further break down of ministerial air travel within these data. The Treasury offsets all official and ministerial air travel.[1]

| | *Kilometres* | *$CO_2$ emissions-tonnes* |
|---|---|---|
| Short-haul air travel by Ministers and officials (2006-07) | 3,146,011 | 944 |
| Long-haul air travel by Ministers and officials (2006-07) | 2,469,318 | 543 |
| Total for 2006-07 | 5,615,329 | 1,487 |

The Treasury has been measuring the carbon emissions for the office estate since 1999-2000. Figures from this date to 2005-06 are set out in the annex. Estate emissions for 2006-07 were 1,110,615 kg carbon. All electricity used is generated from renewable sources, and emissions have fallen by 19 per cent. during this period.[2]

The department also now estimates that in 2006-07 12 tonnes of carbon were emitted from road based travel and 19.3 tonnes of carbon were emitted from rail travel.[3]

Data for short haul air mileage and emissions from April 2007 to the current month will be available shortly.

[1] *Source:* DEFRA methodology: Government Carbon Offsetting Fund—an explanation of this methodology is available at: http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

[2] The Building Research Establishment Ltd. provides annual analysis of energy consumption and emissions data for government departments and the Sustainable Development Commission. These data are used to monitor progress against government targets.

[3] The methodology used follows guidance set out for government departments by the Sustainable Development Commission and the July 2005 DEFRA "Greenhouse Gas conversion factors for Company Reporting".

### Bank of England: Public Appointments

**Mr. Laws:** To ask the Chancellor of the Exchequer what plans he has to appoint the Governor of the Bank of England to a second term in office; and if he will make a statement. [171921]

**Kitty Ussher:** Under the Bank of England Act 1998, the Queen is responsible for appointing the Governor of the Bank of England.

### Banks: Fees and Charges

**Mr. Laws:** To ask the Chancellor of the Exchequer what steps he plans to take to speed up the payment of compensation to consumers who have experienced excessive overdraft charges; and if he will make a statement. [172748]

**Kitty Ussher:** There is currently a test case before the courts, taken by the Office of Fair Trading, to determine whether charges for unauthorised overdrafts come within the Unfair Terms in Consumer Contracts Regulations 1999, and if so whether such charges are fair. This test case is expected to be heard in the new year. It would not be appropriate for the Chancellor to comment further while the case is ongoing.

### Cancer

**Mr. Jamie Reed:** To ask the Chancellor of the Exchequer what the incidence of cancer was in each *(a)* constituency, *(b)* primary care trust area, *(c)* hospital trust area, *(d)* region and *(e)* social demographic group in the most recent period for which figures are available. [171907]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.[1]

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the incidence of cancer was in each (a) constituency, (b) primary care trust area, (c) hospitals trust area, (d) region and (e) social demographic group in the most recent period for which figures are available. I am replying in her absence. (171907)

It is not possible to calculate incidence rates of cancer by (a) constituency and (c) hospitals trust area because the relevant populations are not available.

Incidence rates of all cancers excluding non-melanoma skin cancer in England by (b) primary care trust area and (d) government office region for 2004, the latest year for which figures are available, are given in Tables 1 and 2 below. Figures for government office regions are also available on the National Statistics website at

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=8843&Pos=&ColRank=1&Rank=272

Incidence rates of all cancers excluding non-melanoma skin cancer in England and Wales by (e) social demographic group are not available. However, the latest incidence rates for the three main cancers (breast, lung and prostate), which make up around 40 per cent of all cancers, by (e) social demographic group are given in Table 3 below.

*Table 1: Incidence rates[1] of all cancers[2] per 100,000 population, by primary care trust[3] and sex, England, 2004*

| | *Males* | *Females* |
|---|---|---|
| *Primary care trust* | | |
| England | 480 | 454 |
| South Gloucestershire | 633 | 534 |
| Havering | 437 | 325 |
| Kingston | 422 | 344 |

---

## Civil Servants

**Jo Swinson:** To ask the Chancellor of the Exchequer what proportion of the Civil Service are *(a)* male, *(b)* female, *(c)* black and minority ethnic male and *(d)* black and minority ethnic female. [171380]

**Angela Eagle** *[holding answer 4 December 2007]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your recent Parliamentary Question concerning what proportion of the Civil Service are *(a)* male, *(b)* female, *(c)* BME male and *(d)* BME female. I am replying in her absence. (171380)

Statistics on the gender of civil servants are published every quarter in table 6 of the Public Sector Employment First Release. The latest published statistics are for June 2007.

http://www.statistics.gov.uk/pdfdir/pse0907.pdf

More detailed diversity statistics, including statistics on gender and ethnic origin are published in Civil Service Statistics, an on-line article available from the National Statistics website.

http://www.statistics.gov.uk/cci/article.asp?id=1885

The latest period for which the statistics are available is the year to September 2006.

*Civil Service—permanent employees by gender and ethnic origin 30 September 2006*

| | | *Percentage* |
|---|---|---|
| | *Male* | *Female* |
| All | 47 | 53 |
| Ethnic minority [1] | 3.3 | 5.2 |

[1] Ethnic minority is calculated as a percentage of known ethnic origin

Mandate and Departmental Returns

## Death

**Mr. Jenkins:** To ask the Chancellor of the Exchequer how many deaths there were in the home in the following age groups *(a)* under 16, *(b)* 16 to 24, *(c)* 25 to 65 and *(d)* over 65 in each of the last five years. [173552]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your recent question asking how many deaths there were in the home in the following age groups (a) under 16, (b) 16 to 24, (c) 25 to 65 and (d) over 65 in each of the last five years. I am replying in her absence. (173552)

The latest figures are for deaths registered in the calendar year 2006. The table below shows the number of deaths which occurred at home by age group between 2002 to 2006.

*Number of deaths which occurred at home,[1] by age group, England and Wales, 2002-2006[2]*

| | *Under 16* | *16-24* | *25-65* | *66 and over* |
|---|---|---|---|---|
| 2002 | 490 | 589 | 25,210 | 71,526 |
| 2003 | 437 | 595 | 25,510 | 70,696 |
| 2004 | 430 | 569 | 24,925 | 68,258 |
| 2005 | 413 | 528 | 25,049 | 68,255 |
| 2006 | 436 | 576 | 25,581 | 68,846 |

[1] Deaths at home are those at the usual residence of the deceased (according to the informant who registered the death), where this was not a communal establishment.

[2] Figures are for deaths registered in each calendar year.

## Delivery Unit: Academies

**Mr. Laws:** To ask the Chancellor of the Exchequer which academies have been *(a)* visited and *(b)* contacted as part of the Delivery Unit Review of Academies; and if he will make a statement. [172500]

**Andy Burnham:** The joint PMDU/DCSF review is studying progress across the full Academy programme. My Department considers that the release of the names of the Academies either visited or contacted by the review team would have an inhibiting effect on the free and frank discussions required in priority reviews and would disrupt our ability to meet our wider objectives, both in this review and in future PMDU work. PMDU reviews are confidential advice to Ministers; we do not disclose the recommendations or publish any report.

## Departmental Corporate Hospitality

**David Simpson:** To ask the Chancellor of the Exchequer on how many occasions he has accepted corporate hospitality in the last 12 months. [171311]

**Angela Eagle:** Chapter 7 of the "Ministerial Code" sets out the rules on the registration of hospitality.

## Departmental ICT

**Justine Greening:** To ask the Chancellor of the Exchequer what e-procurement innovations in relation to *(a)* how information is communicated and *(b)* the use of online booking tools have been introduced in core Treasury; what estimate of generated cost savings has been made; and if he will make a statement. [170347]

**Angela Eagle:** The Treasury have introduced the following eProcurement tools and online booking systems:

Oracle Finance System enabled to allow purchase orders to be issued electronically, electronic invoicing capability, electronic remittance advice and automatic payment;

Treasury uses OGCbuying.solutions Catalist ITQ (Invitation To Quote) system;

Online systems for ordering goods and services such as stationery, business cards, paper supplies and temporary staff;

An online learning management booking system;

An online travel booking system.

Cost savings attributable specifically to these tools are not recorded and could be provided only at disproportionate cost.

## Departmental Manpower

**Mrs. May:** To ask the Chancellor of the Exchequer how many *(a)* men and *(b)* women of each Civil Service grade are employed by his Department. [172741]

**Angela Eagle:** The latest available statistics on grade and gender of civil servants in departments and agencies are as at 30 September 2006 and are published in "Civil Service Statistics 2006" at Table H. This document and associated tables are produced by the Office for National Statistics and can be accessed from the following website addresses:

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

http://www.statistics.gov.uk/downloads/theme_labour/CivilService2006TablesandCharts.xls

### Departmental Opinion Polls

**Mr. Hoban:** To ask the Chancellor of the Exchequer what opinion polls his Department has conducted of *(a)* the public and *(b)* staff since 27 June 2007; and what the (i) name of the firm employed to conduct the poll, (ii) purpose and (iii) cost to the public purse was in each case. [164958]

**Angela Eagle:** HM Treasury does not maintain records in the way requested and the information could be obtained only at disproportionate costs.

### Departmental Orders and Regulations

**Alan Duncan:** To ask the Chancellor of the Exchequer how many regulations his Department has *(a)* made and *(b)* revoked in the last 12 months. [167083]

**Angela Eagle:** 136 regulations were made by the Treasury in the last 12 months.

No central record is held of revocations as these can be effected by either primary or secondary legislation.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer whether the standard terms and conditions of purchase used by his Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172435]

**Angela Eagle:** There is no express provision prohibiting the assignment of debt in the standard terms and conditions of purchase. However, there is a provision prohibiting the contractor from assigning any portion of the Contract without the prior written consent of the Lords Commissioners of HM Treasury (or such other person or persons duly appointed by them). On the basis that a prohibition on 'assignment of debt' includes a prohibition on the contractor from assigning money owed to it under a contract to a third party, the legal team take this provision to mean that under HMT's standard terms and conditions of purchase a contractor may not assign its debts without HMT's prior consent.

### Departmental Recycling

**Mr. Hayes:** To ask the Chancellor of the Exchequer what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172515]

**Angela Eagle:** The Treasury's performance currently exceeds the government's target of recycling 40 per cent. of waste by 2010 as shown in the figures in the table.

| | *Volume (metric tonnes)* | *Percentage recycled* |
|---|---|---|
| 2002-03 | 61.34 | 25.59 |
| 2003-04 | 176.86 | 51.56 |
| 2004-05 | 204.10 | 54.62 |
| 2005-06 | 197.46 | 45.86 |
| 2006-07 | 189.47 | 43.10 |

### Departmental Telephone Services

**Julia Goldsworthy:** To ask the Chancellor of the Exchequer which telephone contact centres are within the responsibility of his Department. [173097]

**Angela Eagle:** HM Treasury does not have a designated 'call centre' telephone contact centre as such. Telephone enquiries to HM Treasury are dealt with within the general Correspondence and Enquiry Unit along with email and letter correspondence handling.

**Julia Goldsworthy:** To ask the Chancellor of the Exchequer if he will list the information collected by his Department on contact centre operations. [173099]

**Angela Eagle:** HM Treasury operates a Correspondence and Enquiry Unit which is the central point of contact for those contacting the Department whether by telephone, email or letter. It handles approximately 1,000 contact items per week from Members of Parliament and the public. Details and performances are provided in the Department's annual report and via an annual written parliamentary answer.

### Financial markets

**Mr. Laws:** To ask the Chancellor of the Exchequer what plans he has to ensure liquidity in the financial markets following recent instability in the UK financial sector; and if he will make a statement. [163546]

**Kitty Ussher:** As the Governor made clear in his statement to TSC on 29 November, the Tripartite authorities keep conditions in international and UK financial markets under constant review. On 29 November the Governor of the Bank of England told the Treasury Committee of actions the bank is taking to assure banks of liquidity over the forthcoming year-end. The Federal Reserve and the European Central Bank have announced similar measures. The bank stands ready to take further measures in order to keep overnight rates in line with bank rate.

### Foreigners: Saudi Arabia

**Keith Vaz:** To ask the Chancellor of the Exchequer what estimate he has made of the number of Saudi Arabian nationals living in the United Kingdom; and if he will make a statement. [171880]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your recent question concerning what estimate has been made of the number of Saudi Arabian nationals living in the United Kingdom. I am replying in her absence. (171880)

Between July and September 2007, there were an estimated 12,000 Saudi Arabian nationals living in the UK. This figure is based on Labour Force Survey data and, as with any sample survey, is subject to a margin of uncertainty.

### Insurance: Public Participation

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer pursuant to the answer of 27 November 2007, *Official Report*, column 393W, on insurance: public participation, how his Department monitors the compliance of the Financial Services Authority (FSA) with the provisions of the Financial Services and Markets Act 2000 on requiring the FSA to consult on proposed rules and to produce a cost benefit analysis; and if he will make a statement. [172987]

**Kitty Ussher:** The Financial Services and Markets Act 2000 (FSMA) requires the FSA to consult on rules it proposes to make. The consultation must include a cost benefit analysis and an explanation of the purpose of the proposed rules.

The FSA is independent of Government but accountable to Parliament, Government, the public and industry in a number of ways. For example, the FSA must make an annual report to the Treasury on the discharge of its functions and the extent to which its regulatory objectives have been met—this report is then published. The independent Practitioner and Consumer Panels, whose status is set out in FSMA, ensure that the views of consumers and the industry are taken into account by the FSA. The FSA is required to respond formally to their representations.

### International Monetary Fund: Iraq

**Harry Cohen:** To ask the Chancellor of the Exchequer what successor programme has been negotiated between the government of Iraq and the International Monetary Fund; what the key features of this programme are; and if he will make a statement. [170255]

**Kitty Ussher:** The UK is not party to discussions between the International Monetary Fund (IMF) and the government of Iraq. However, we understand that officials from the IMF continue to meet with representatives of the government of Iraq, both in the region and in Washington, to discuss progress on economic reform.

Such discussions include focus on implementing the government of Iraq's economic reform programme supported by the current IMF stand-by arrangement (SBA), approved on 23 December 2005. Following the completion of the most recent and fifth review under the SBA on 2 August 2007, the IMF executive board approved a three-month extension of the SBA until 28 December 2007, to allow an IMF policy framework to remain in place while preparations were undertaken for successor arrangements.

The government of Iraq and the IMF are currently preparing for these arrangements, which will build on the reforms identified in current and previous IMF programmes, to enhance macroeconomic stability and economic development in Iraq.

More details of the current programme, as well as reports from IMF staff and the government of Iraq's memorandums on economic and financial policies, are available on the IMF's website at:

www.imf.org.

### Meningitis: Death

**Mr. Hepburn:** To ask the Chancellor of the Exchequer how many people have died from meningitis in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [172972]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your recent question asking how many people have died from meningitis in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. I am replying in her absence. (172972)

The attached table provides the number of deaths from bacterial and viral meningitis and other meningococcal diseases in *(a)* Jarrow parliamentary constituency, *(b)* South Tyneside local authority, *(c)* North East Government Office Region, and *(d)* the UK, from 1997 to 2006 (the latest year available).

*Table 1: Number of deaths from bacterial and viral meningitis and other meningococcal diseases[1] Jarrow parliamentary constituency, South Tyneside local authority, North East Government Office Region, and UK, 1997-2006[2, 3, 4]*

*Deaths (persons)*

| | Jarrow | South Tyneside | North East | UK |
|---|---|---|---|---|
| 1997 | 0 | 0 | 29 | 517 |
| 1998 | 0 | 3 | 27 | 463 |
| 1999 | 1 | 0 | 22 | 433 |
| 2000 | 0 | 3 | 24 | 464 |
| 2001 | 0 | 0 | 17 | 430 |
| 2002 | 0 | 1 | 11 | 331 |
| 2003 | 0 | 1 | 14 | 379 |
| 2004 | 1 | 1 | 14 | 309 |
| 2005 | 0 | 0 | 14 | 311 |
| 2006 | 0 | 0 | 5 | 247 |

[1] Cause of death selected using the International Classification of Diseases, Ninth Revision (ICD-9) codes 036, 047, 320 and 322 for 1997 to 2000 and Tenth Revision (ICD-10) codes A39, A87 and G00-G03 for 2001 to 2006. The introduction of ICD-10 in 2001 means that the numbers of deaths from this cause before 2001 are not completely comparable with later years.

[2] Based on parliamentary constituency and local authority boundaries as of 2007.

[3] Figures are for deaths registered in each calendar year.

[4] Figures include data provided by the Registrars General for Scotland and Northern Ireland.

### Northern Rock

**Mr. Hoban:** To ask the Chancellor of the Exchequer whether he was involved in the appointment of Sir Bryan Sanderson as Chairman of Northern Rock; and if he will make a statement. [166291]

**Kitty Ussher:** The decision to appoint Sir Bryan Sanderson as Chairman of Northern Rock was made by the board of Northern Rock plc.

**Dr. Cable:** To ask the Chancellor of the Exchequer what reports he has received on the stability of Northern Rock in each of the last 12 months. [166507]

**Kitty Ussher:** On 14 August 2007, the Financial Services Authority told the Bank of England and the Treasury about its concerns about Northern Rock and its vulnerability to the tightening wholesale funding markets. The Chancellor was informed on 15 August and has received regular written and oral updates since then.

**Mr. Redwood:** To ask the Chancellor of the Exchequer (1) what proportion of Northern Rock's assets are free of specific charge as collateral for loans; [168523]

(2) what proportion of the lending to Northern Rock by his Department and the Bank of England is unsecured. [168526]

**Kitty Ussher:** On 14 September 2007 the Chancellor of the Exchequer authorised the Bank of England to provide a liquidity support facility to Northern Rock. A further facility was announced on [illegible] October 2007.

Lending for both facilities is on a secured basis and is secured against all of the assets of the company. Under the first facility lending is secured against collateral deemed to be eligible by the Bank of England, with an appropriate margin applied and by a charge over all of Northern Rock's assets. Lending under the second facility is secured by a charge over all of Northern Rock's assets.

**Mr. Redwood:** To ask the Chancellor of the Exchequer (1) what value of assets the Bank of England has accepted as collateral for loans to Northern Rock; [168524]

(2) what proportion of the Bank of England's total assets are represented by claims on Northern Rock and its assets. [168527]

**Kitty Ussher:** The sum borrowed by the company is confidential.

**Mr. Redwood:** To ask the Chancellor of the Exchequer what due diligence his Department and the Bank of England completed before lending money to Northern Rock. [168525]

**Kitty Ussher:** The Bank of England, supported by external auditors, has conducted due diligence with regard to the processes used to manage the facility and the quality of the assets taken as collateral.

**Mr. Redwood:** To ask the Chancellor of the Exchequer (1) what repayment scheme has been put in place for lending by the Bank of England and his Department to Northern Rock; [168529]

(2) what guarantees his Department has offered the Bank of England on its loans to Northern Rock. [168532]

**Kitty Ussher:** I refer the right hon. Gentlemen to the letters the Chancellor sent to the chairs of the Public Accounts Committee and the Treasury Select Committee on 11 October 2007, which are available in the House Library.

## Northern Rock: Deutsche Bank

**Mr. Stewart Jackson:** To ask the Chancellor of the Exchequer whether he has had recent discussions with representatives of Deutsche Bank on the acquisition of Northern Rock; and if he will make a statement. [172851]

**Kitty Ussher:** Treasury Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

## Northern Rock: Finance

**Mr. Laws:** To ask the Chancellor of the Exchequer for what reasons he decided not to sanction a public loan to facilitate the takeover of Northern Rock by Lloyds TSB; and if he will make a statement. [171923]

**Kitty Ussher:** I refer the hon. Gentleman to the answer I gave the hon. Member for West Suffolk (Mr. Spring) on 29 October 2007, *Official Report*, column 899W.

## Office of Government Commerce

**Justine Greening:** To ask the Chancellor of the Exchequer what estimate he has made of the level of reductions in *(a)* salary and *(b)* administration costs made by the Office of Government Commerce in each year since 2003-04; and if he will make a statement. [165223]

**Angela Eagle:** The following table shows OGC's total net administration costs and salary cost contained therein for the years 2003-04 to 2006-07. These figures are consistent with the resource accounts for those years.

*£000*

| *Resource accounts* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|
| Net administration costs | 31,984 | 34,896 | 44,271 | 44,908 |
| *Of which:* | | | | |
| Salaries | 15,403 | 18,406 | 23,974 | 25,585 |

The OGC's expenditure increased between 2004-05 and 2005-06 due to an expansion of its remit in that period, particularly on improving efficiency across the public sector.

## Organisation for Economic Co-operation and Development: Israel

**Mr. Amess:** To ask the Chancellor of the Exchequer (1) if he will make it his policy to support the application of Israel to join the Organisation for Economic Co-operation and Development (OECD); what discussions he has had with the OECD on the issue; and if he will make a statement; [172470]

(2) what discussions *(a)* he and *(b)* Ministers and officials from his Department have had since July with the government of Israel on its application to join the Organisation for Economic Co-operation and Development; and if he will make a statement; [172471]

(3) what discussions *(a)* he and *(b)* Ministers and officials from his Department have had since July with the US Administration on the application of Israel to join the Organisation for Economic Co-operation and Development; and if he will make a statement. [172472]

**Kitty Ussher:** The OECD member states decided by consensus that they should start accession negotiations with Israel, Chile, Estonia, Russia and Slovenia. The UK supported this decision. Roadmaps for the accession process were prepared by the Secretary-General and approved by the OECD Council of member states. These set out the conditions each individual candidate country is expected to meet before they are invited to become members of the OECD. The FCO leads on the OECD for Her Majesty's Government.

Treasury Ministers and officials discuss a wide range of issues with their counterparts in the OECD and accession countries on an ongoing basis.

### Private Equity

**Mr. Drew:** To ask the Chancellor of the Exchequer what assessment he has made of the transparency of private equity finance; if he will bring forward proposals to increase such transparency; and what research he has commissioned or supported to this end. [172637]

**Kitty Ussher:** The Government's objectives in the field of private equity are the same as their objectives in relation to other forms of ownership: to promote an environment of long-term, sustainable business success, underpinned by a strong culture of clear disclosure to, and engagement with, underlying investors and stakeholders. The Government's assessment also suggests that it is in the interests of the private equity industry to provide information which will improve public understanding of the industry by demonstrating the extent of its contribution to the UK economy and employment.

The Government also welcomed the announcement earlier this year by leading private equity houses and the British Venture Capital Association that it would undertake a review to draw up a comply-or-explain code to improve levels of disclosure. Sir David Walker's code is an important step forward in improving the transparency of the industry. He has set a challenge for the private equity industry and the Government will watch with interest to see how the industry responds to this.

### Revenue and Customs: Data Protection

**Chris Grayling:** To ask the Chancellor of the Exchequer what estimate he has made of the cost of purchasing software that would enable all HM Revenue and Customs data to be encrypted. [171798]

**Jane Kennedy:** On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers. This will consider all aspects of data security. His interim report is expected to be received shortly.

### Self-employed: Herefordshire

**Bill Wiggin:** To ask the Chancellor of the Exchequer what the average income was of a person in Herefordshire who was self-employed in each year since 1997; and if he will make a statement. [170960]

**Angela Eagle:** The average income of self-employed taxpayers in Herefordshire can be found in table 3.14 "Income and tax by borough and district or unitary authority" on the HM Revenue and Customs website at

http://www.hmrc.gov.uk/stats/income_distribution/menuby-year.htm#314

These tables are only available for 2003-04 and 2004-05 and are based on the Survey of Personal Incomes.

### Self-employed: Income

**Bill Wiggin:** To ask the Chancellor of the Exchequer what the national average income was of a self-employed person in each year since 1997; and if he will make a statement. [170961]

**Angela Eagle:** The mean total income of people with self-employment sources of income is shown in 3.10 "Income of individuals with self employment sources, by range of self employment income and source" on the HM Revenue and Customs website at

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#310

The tables are based on the Survey of Personal Incomes and are available for 1999-2000 to 2004-05. Information for earlier years can be found in the annual Inland Revenue Statistics publications available in the Library.

### Self-employed: Suffolk

**Mr. Spring:** To ask the Chancellor of the Exchequer how many and what percentage of people in Suffolk were self-employed in each year since 1997. [173453]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your Parliamentary Question asking how many and what percentage of people in Suffolk were self-employed in each year since 1997. I am replying in her absence. (173453)

The Office for National Statistics compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

The table attached shows numbers of self-employed people, and these numbers as the percentage of all employed persons, in Suffolk, for the 12 month periods ending in February from 1998 to 2004 from the annual local area LFS and for the 12 months ending in March from 2005 to 2007 from the APS.

Estimates for a subset of the population in a small geographical area are based on very small sample sizes, and are therefore subject to large margins of uncertainty. Changes over time should be treated with particular caution.

*Self-employed people resident in Suffolk*

| *12 months ending* | *Self-employed (Thousand)* | *Self-employed as a percentage of all employed (percentage)* |
|---|---|---|
| February 1998 | 38 | 12 |
| February 1999 | 49 | 15 |
| February 2000 | 43 | 13 |
| February 2001 | 37 | 12 |
| February 2002 | 43 | 13 |
| February 2003 | 43 | 13 |
| February 2004 | 40 | 13 |
| March 2005 | 38 | 12 |
| March 2006 | 42 | 13 |
| March 2007 | 48 | 15 |

*Notes:*

1. Estimates are subject to sampling variability.
2. Changes in the estimates over time should be treated with caution.

*Source:*

Annual local area Labour Force Survey; Annual Population survey.

## Self-employed: Tamworth

**Mr. Jenkins:** To ask the Chancellor of the Exchequer how many and what percentage of people in Tamworth were self-employed in each year since 1997; and if he will make a statement. [173441]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your Parliamentary Question asking how many and what percentage of people in Tamworth were self-employed in each year since 1997. I am replying in her absence. (173441)

The Office for National Statistics compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

The table attached shows numbers of self-employed people, and these numbers as the percentage of all employed persons, in the Tamworth constituency, for the 12 month periods ending in February from 1998 to 2004 from the annual local area LFS and for the 12 months ending in March from 2005 to 2007 from the APS.

Estimates for a subset of the population in a small geographical area are based on very small sample sizes, and are therefore subject to large margins of uncertainty. Changes over time should be treated with particular caution.

*Self-employed people resident in Tamworth constituency*

| *12 months ending* | *Self-employed (Thousand)* | *Self-employed as a percentage of all employed (percentage)* |
|---|---|---|
| February 1998 | 5 | 12 |
| February 1999 | 6 | 14 |
| February 2000 | 8 | 16 |
| February 2001 | 7 | 13 |
| February 2002 | 4 | 8 |
| February 2003 | 4 | 8 |
| February 2004 | 3 | 7 |
| March 2005 | 5 | 11 |
| March 2006 | 4 | 9 |
| March 2007 | 8 | 15 |

*Notes:*

1. Estimates are subject to sampling variability.
2. Changes in the estimates over time should be treated with caution.

*Source:*

Annual local area Labour Force Survey; Annual Population survey.

## Stamp Duties

**Mr. Boris Johnson:** To ask the Chancellor of the Exchequer what the *(a)* mean and *(b)* median values of stamp duty paid in (i) England, (ii) South East England and (iii) London by (A) first time buyers, (B) all other house purchasers and (C) all house purchasers were in the last 12 months. [171800]

**Kitty Ussher:** No estimate has been made of the stamp duty land tax paid by first time buyers. For all house purchasers, the estimated mean and median amount of stamp duty land tax paid in 2006-07 is as follows:

| | | £ |
|---|---|---|
| | *Mean* | *Median* |
| England | 3,940 | 1,550 |
| South East England | 5,020 | 1,870 |
| London | 7,940 | 2,210 |

## Strokes: Suffolk

**Mr. Spring:** To ask the Chancellor of the Exchequer how many people have died from stroke related illnesses in Suffolk in each of the last five years. [173455]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated December 2007:*

The National Statistician has been asked to reply to your recent question asking how many people have died from stroke related illnesses in Suffolk in each of the last five years. I am replying in her absence. (173455)

The table below provides the number of deaths where stroke was the underlying cause of death in Suffolk county, for 2002 to 2006 (the latest year available).

*Table 1: Number of deaths where stroke was the underlying cause of death,[1] Suffolk county,[2] 2002 to 2006[3]*

| | *Suffolk county (persons)* |
|---|---|
| 2002 | 887 |
| 2003 | 831 |
| 2004 | 805 |
| 2005 | 741 |
| 2006 | 681 |

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10), codes I60-I69.

[2] Based on boundaries as of 2007.

[3] Figures are for deaths registered in each calendar year.

### VAT: Fraud

**Sarah Teather:** To ask the Chancellor of the Exchequer what estimate he has made of the cost to the UK economy of VAT fraud in each of the last five years; and if he will make a statement. [171860]

**Jane Kennedy:** No estimate has been produced for the cost to the UK economy of VAT fraud. HMRC published annual estimates of VAT losses, and the level of MTIC fraud alongside PBR 2007 in "Measuring Indirect Tax Losses—2007", which is available from the House of Commons Library or from the HMRC website:

http://www.hmrc.gov.uk/pbr2007/mitl.pdf

### Welfare Tax Credits

**Danny Alexander:** To ask the Chancellor of the Exchequer how much was spent on average per year on the administration of tax credits over the last five years; and what proportion was spent on the delivery of frontline services. [172615]

**Jane Kennedy:** The costs of managing and paying child and working tax credit in the financial years from 2003-04 are shown at figure 1 in chapter 2 of the NAO 2006-07 Standard Report Costs relating to 2007-08 will be published in the Departmental Trust Statement at the end of June 2008.

Information on the proportion of costs spent in the delivery of tax credits frontline services is not available.

### Welfare Tax Credits: Telephone Services

**Danny Alexander:** To ask the Chancellor of the Exchequer if he will place in the Library a copy of telephone scripts used by call centre staff for the tax credits helpline. [172616]

**Jane Kennedy:** Advisers do not use scripts, but do have access to online support and advice tools to help them in answering customer's questions. To put these online tools into a format suitable for publication would incur disproportionate cost. However the tax credit manual and the tax credit technical manual are already publicly available on the HMRC website at:

http://www.hmrc.gov.uk/manuals/ntcmanual/index.html

and

http://www.hmrc.gov.uk/manuals/tctmanual/index.html

respectively.

**Danny Alexander:** To ask the Chancellor of the Exchequer what proportion of calls received by the tax credits helpline were from a mobile phone in the last period for which figures are available. [172618]

**Jane Kennedy:** HMRC estimate that around 21 per cent. of the calls made to the tax credit helpline during the November 2007 were made from a mobile phone.

### Winter: Death

**Shona McIsaac:** To ask the Chancellor of the Exchequer how many people aged over 65 resident in Cleethorpes constituency died during the winter months in each year since 1997; and if he will make a statement. [172712]

**Jane Kennedy:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 11 December 2007:*

The National Statistician has been asked to reply to your recent question asking how many people aged over 65 resident in Cleethorpes constituency died during the winter months in each year since 1997. I am replying in her absence. (172712)

Figures for winter deaths are calculated using a definition of winter as a four-month period from December of one year to March of the next year. The table below provides the number of winter deaths of people resident in Cleethorpes parliamentary constituency over the age of 65, for the years 1996/97 to 2005/06 (the latest available).

*Table 1: Winter deaths of persons over the age of 65[1], Cleethorpes parliamentary constituency[2], 1996-97 to 2005-06*

| | *Deaths (persons)*<br>*Cleethorpes* |
|---|---|
| 1996-97 | 288 |
| 1997-98 | 301 |
| 1998-99 | 268 |
| 1999-2000 | 306 |
| 2000-01 | 284 |
| 2001-02 | 309 |
| 2002-03 | 292 |
| 2003-04 | 300 |
| 2004-05 | 278 |
| 2005-06 | 266 |

[1] Winter deaths are defined as those occurring in December of one year, plus those occurring in January to March of the following year.

[2] Using boundaries as of 2007 for all years.

### World Customs Organisation

**Anne Main:** To ask the Chancellor of the Exchequer what response he has made to the European Union's decision to implement the World Customs Organisation's ruling that mobility scooters should be classified as leisure vehicles for tax purposes; and if he will make a statement. [172130]

**Jane Kennedy:** Officials from HM Revenue and Customs are advising the industry on the options available to pursue a change to the customs classification. The officials have written to the European Commission asking to have the classification referred back to the World Customs Organisation. The submission also included a request for an import duty suspension to be introduced while the scooters remain classified in a heading that attracts import duty.

Classification for import duty purposes under the Customs regime has no direct bearing on VAT liability, which is determined by VAT law. For VAT purposes, mobility scooters may qualify for the zero-rating that applies when disabled people purchase certain 'carriages' or other equipment specifically designed to meet their needs. The Government have no plans to change the scope of this VAT relief.

### Written Questions

**Mr. Fallon:** To ask the Chancellor of the Exchequer when he will answer question 162908 tabled by the hon. Member for Sevenoaks on 7 November on the bank depositors' protection scheme; and what the reasons are for the time take to reply. [173215]

**Kitty Ussher:** I answered the hon. Gentleman's question yesterday and regret not having been in a position to do so earlier.

## JUSTICE

### Royal Prerogative

11. **Mr. Joyce:** To ask the Secretary of State for Justice what steps he is taking to increase Parliament's ability to scrutinise the Government's actions under the Royal Prerogative. [172669]

**Mr. Wills:** On 25 October the Ministry of Justice jointly published with the MOD and FCO a public consultation document which proposes reforms to the way the powers to make decisions to deploy the armed forces into armed conflict abroad and to ratify of treaties are exercised. The consultation closes on 17 January 2008.

The "Governance of Britain" Green Paper also states that the Government would undertake a wider review of the remaining prerogative powers.

### Young People Reoffending

12. **Chris Mole:** To ask the Secretary of State for Justice what steps his Department is taking to prevent young people reoffending. [172670]

23. **Sarah McCarthy-Fry:** To ask the Secretary of State for Justice what steps he is taking to prevent young people reoffending. [172681]

**Mr. Hanson:** Between 2000 and 2005 youth re-offending has reduced by 2.5 per cent. The Youth Justice Board have worked with partners to improve practice, ensure the right performance frameworks and indicators are in place and put in place a delivery plan to reduce youth reoffending.

### Adult Reoffending

13. **Dr. Iddon:** To ask the Secretary of State for Justice what steps he is taking to reduce adult reoffending. [172671]

20. **Ms Butler:** To ask the Secretary of State for Justice what steps he is taking to reduce adult re-offending. [172678]

**Mr. Hanson:** The Government are committed to reducing adult reoffending. The latest figures show that reoffending is down by 5.8 per cent. since 2000. We are now consulting on a new strategic plan to build on our success in reducing reoffending.

### Community Sentences

14. **Mr. Philip Hammond:** To ask the Secretary of State for Justice if he will take steps to enhance public confidence in community sentences. [172672]

**Maria Eagle:** Community sentences are already widely used and are associated with reduced reoffending. Activity is already underway to communicate the effectiveness of community sentences and the professionalism of probation officers to the public.

### Forced Marriages

15. **Gordon Banks:** To ask the Secretary of State for Justice what steps he is taking to improve the protection afforded by the criminal justice system to those vulnerable to forced marriages. [172673]

**Bridget Prentice:** The Forced Marriage (Civil Protection) Act 2007 will provide civil remedies for those who are being forced into marriage or have been forced into a marriage. Existing criminal offences also offer protection for those being forced into marriage. These include common assault, kidnapping, child abduction, rape and threatening to kill.

### Party Funding

16. **Martin Horwood:** To ask the Secretary of State for Justice what plans he has to restart the cross-party talks on party funding. [172674]

**Bridget Prentice:** Arrangements are in hand for my right hon. Friend the Secretary of State and Lord Chancellor (Mr. Straw) to meet with other political parties.

### Burglary: Assault

17. **Miss McIntosh:** To ask the Secretary of State for Justice what plans he has to bring forward proposals to amend the law to change the test for the defence of self-defence put forward by residents accused of assault during the course of burglary. [172675]

**Mr. Straw:** I announced my intention to review the law on self-defence at the Labour Party Conference in the autumn. Our aim has been to complete this work in time for the issue to be addressed in the Criminal Justice and Immigration Bill. That remains the case and we intend to table amendments to the Bill for Report.

### Sentencing Policy

18. **Tony Lloyd:** To ask the Secretary of State for Justice what plans he has to amend guidelines issued by his Department on sentencing policy; and if he will make a statement. [172676]

**Mr. Hanson:** The Government do not issue guidelines on sentencing. Sentencing guidelines are issued by the independent Sentencing Guidelines Council or in some cases by the Court of Appeal.

The Government have accepted a recommendation from Lord Carter of Coles' report on prisons to set up a working group to consider the advantages, disadvantages and feasibility of a structured sentencing framework and permanent Sentencing Commission.

### Youth Custody: Education and Training

19. **Jeff Ennis:** To ask the Secretary of State for Justice what steps he is taking to improve the access of young people in custody to education and training; and if he will make a statement. [172677]

**Mr. Hanson:** My right hon. Friend the Secretary of State for Children, Schools and Families announced that we will consult in the new year on whether and how local authorities should lead on education and training in custody. This would mean that for the first time young people in custody would have access to education services that are consistent with what happens in schools, colleges and wider providers across the country.

### Corston Report

21. **Ms Barlow:** To ask the Secretary of State for Justice what steps he is taking to implement the recommendations of the Corston report; and if he will make a statement. [172679]

**Mr. Hanson:** I refer my hon. Friend to my written ministerial statement of 6 December 2007, *Official Report*, column 96WS, which announced the publication of the Government's response to the Corston report. The response sets out the commitments that have been made across government to take forward the recommendations. The response provides a summary of timescales for actions over the next 12 months.

### Prison Overcrowding

22. **Mr. Fraser:** To ask the Secretary of State for Justice what assessment he has made of the effect of prison overcrowding on prisoner rehabilitation programmes. [172680]

**Maria Eagle:** The main risk entailed by population pressures is that prisoners do not complete offending behaviour programmes because they are transferred to another establishment before the programme is completed.

The Prison Service monitors the delivery of all offending behaviour programmes closely. Less than 1 per cent. of those who started offending behaviour programmes in 2006-07 failed to complete because of transfer.

### Anthony Sweeney

**Bob Russell:** To ask the Secretary of State for Justice if he will order an independent inquiry into the circumstances which allowed Anthony Sweeney to be released from prison on a temporary basis. [173395]

**Mr. Hanson:** There has been an investigation by the Prison Service into Mr. Sweeney's release. I believe his release was in accordance with Prison Service policy. I will however, write to the hon. Gentleman shortly.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Justice how many and what proportion of posts in his Department have been recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172258]

**Maria Eagle:** No posts have been reclassified from back office to frontline posts in the Ministry of Justice.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Justice whether the standard terms and conditions of purchase used by his Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172439]

**Maria Eagle:** The Ministry of Justice's standard terms and conditions of contract contain a clause preventing third parties from deriving any benefits from the contract, unless this is explicitly agreed by both parties to the contract. This clause would prevent the supplier assigning the benefits of the contract to meet obligations such as debts. We also have a clause that prevents the supplier from assigning the contract without our consent.

### Disclosure of Information: Government Departments

**Jim Cousins:** To ask the Secretary of State for Justice what guidance has been given to Departments about the inclusion of provisions limiting freedom of information disclosures in their contracts with consultants or contractors. [172583]

**Mr. Wills:** The Secretary of State issues the code of practice on the Discharge of Public Authorities' Functions under part I of the Freedom of Information Act 2000. It was laid before Parliament in November 2004. Part V sets out guidance on freedom of information and confidentiality obligations.

Further guidance on freedom of information and confidentiality obligations is available on the Ministry of Justice Freedom of Information and Office of Government Commerce websites.

### Legal Representation: Armed Forces

**Mrs. Humble:** To ask the Secretary of State for Justice what funds have been made available in each year since 2003 for legal representation of bereaved families at inquests into deaths of service personnel who have lost their lives as a result of *(a)* hostile action and *(b)* any other cause of death while serving in HM Armed Forces. [172299]

**Maria Eagle:** Although legal aid is not normally available for representation at inquests, it can be made available under the Access to Justice Act 1999 in certain specified circumstances. Since 2003, the following number of applications for representation of bereaved families at inquests into deaths of service personnel have been granted.

| | *Death as a result of hostile action* | *Death for other reasons* |
|---|---|---|
| 2003 | 0 | 1 |
| 2004 | 0 | 1 |
| 2005 | 0 | 1 |
| 2006 | 1 | 1 |
| 2007 | 4 | 1 |

### Political Parties, Elections and Referendums Act 2000

**Mr. Amess:** To ask the Secretary of State for Justice if he will make a statement on the operation of the Political Parties, Elections and Referendums Act 2000. [172424]

**Mr. Straw:** It was announced in the Queen's Speech on 6 November that the Government would bring forward proposals on the regulation of party funding and expenditure. I am happy to receive any representations from the hon. Member.

**Mr. Amess:** To ask the Secretary of State for Justice what *(a)* amendments have been made to and *(b)* recent representations he has received about the operation of the Political Parties, Elections and Referendums Act 2000; and if he will make a statement. [172426]

**Mr. Straw:** The Electoral Administration Act 2006 amended the Political Parties, Elections and Referendums Act 2000 to apply similar rules of transparency and permissibility to loans as already applied to donations. The 2006 Act also made some minor technical amendments relating to the control of donations. The Northern Ireland (Miscellaneous Provisions) Act 2006 made amendments to the 2000 Act in order to align the rules for donations more closely with those that apply to the rest of the United Kingdom.

I have received no recent formal representations in my capacity as Secretary of State for Justice on the operation of the Political Parties, Elections and Referendums Act 2000.

It was announced in the Queen's Speech on 6 November that the Government would bring forward proposals on the regulation of party funding and expenditure.

**Mr. Amess:** To ask the Secretary of State for Justice what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents he (i) has issued and (ii) plans to issue in the next 12 months consequential to the provisions of the Political Parties, Elections and Referendums Act 2000; and if he will make a statement. [172427]

**Mr. Straw:** I have issued no statutory instruments, departmental circulars or other documents consequential to the provisions of the Political Parties, Elections and Referendums Act 2000. It was announced in the Queen's Speech on 6 November that the Government would bring forward proposals on the regulation of party funding and expenditure.

## Political Parties: Finance

**Richard Ottaway:** To ask the Secretary of State for Justice what guidance his Department has published on compliance with the law governing donations to political parties. [172658]

**Bridget Prentice:** The Electoral Commission is the body responsible for issuing guidance on the law governing donations to political parties.

## Prisoners Release

**Justine Greening:** To ask the Secretary of State for Justice how many prisoners were granted early release under the home detention curfew scheme in each year since its introduction, broken down by prison from which the prisoners were released; and if he will make a statement. [173411]

**Maria Eagle:** The figures requested are in the following table.

*HOC releases by prison, 1999 to 2006*

| *Prison name* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|---|---|
| Total | 14,847 | 15,510 | 13,649 | 20,456 | 21,188 | 19,294 | 17,296 | 13,666 |
| | | | | | | | | |
| Acklington | 100 | 70 | 80 | 140 | 110 | 50 | 90 | 70 |
| Aldington | 50 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| Altcourse | 90 | 90 | 140 | 280 | 350 | 280 | 270 | 260 |
| Ashfield | 0 | [1]— | [1]— | [1]— | 20 | [1]— | [1]— | 10 |
| Ashwell | 50 | 190 | 120 | 190 | 250 | 190 | 130 | 100 |
| Askham Grange | 120 | 110 | 100 | 120 | 130 | 100 | 70 | 80 |
| Aylesbury | 10 | 10 | [1]— | 20 | 10 | 10 | 10 | [1]— |
| Bedford | 70 | 60 | 50 | 100 | 130 | 190 | 180 | 120 |
| Belmarsh | 80 | 140 | 120 | 80 | 120 | 90 | 90 | 50 |
| Birmingham | 560 | 380 | 240 | 310 | 450 | 770 | 400 | 310 |
| Blakenhurst | 230 | 320 | 310 | 150 | 190 | 180 | 300 | 230 |
| Blundeston | 20 | 20 | 10 | 30 | 40 | 50 | 30 | 40 |
| Brinsford | 40 | 70 | 60 | 70 | 60 | 60 | 60 | 30 |
| Bristol | 50 | 60 | 30 | 60 | 50 | 90 | 40 | 10 |
| Brixton | 160 | 110 | 40 | 60 | 90 | 50 | 60 | 30 |

[1] Number of cases less than 10.

*Note:*

Figures rounded to the nearest 10.

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

## Prisons

**Mr. Evans:** To ask the Secretary of State for Justice how many prison places he estimates there will be in England and Wales in *(a)* 2008, *(b)* 2009, *(c)* 2010, *(d)* 2011 and *(e)* 2012. [172836]

**Mr. Hanson:** Following the publication of Lord Carter's review of prisons, Securing the Future, the proposed building and modernisation programme is aimed to bring overall net capacity of the prison estate to just over 96,000 places by 2014.

The individual projects and the time frame to deliver this capacity are being developed.

**Bob Russell:** To ask the Secretary of State for Justice (1) how many safe cells have been installed in each of the last 10 years for which figures are available; [173211]

(2) how many prisoners committed suicide in each of the last 10 years for which figures are available; and how many of these suicides occurred in safe cells. [173212]

**Maria Eagle:** Finding out the number of safer cells installed during the last 10 years would incur disproportionate cost. However, there are to date in excess of 5,000 safer cells installed across the prison estate.

The following table provides figures for apparent self-inflicted deaths in each of the last 10 years. There have been 14 such deaths of prisoners located in safer cells in that time.

| | *Self-inflicted deaths*[1] | *Self-inflicted deaths in safer cells*[1] |
|---|---|---|
| 1998 | 83 | 0 |
| 1999 | 91 | 0 |
| 2000 | 81 | 0 |
| 2001 | 73 | 2 |
| 2002 | 95 | 3 |
| 2003 | 94 | 3 |
| 2004 | 95 | 1 |
| 2005 | 78 | 0 |
| 2006 | 67 | 4 |
| 2007[2] | 83 | 1 |
| Total | 840 | 14 |

[1] The Prison Service definition of self-inflicted deaths is broader than the legal definition of suicide and includes all deaths where it appears that a prisoner has acted specifically to take their own life. This inclusive approach is used in part because inquest verdicts are often not available for some years after a death (some 20 per cent. of these deaths will not receive a suicide or open verdict at inquest). Annual numbers may change slightly from time to time as inquest verdicts and other information become available.

[2] To 7 December 2007.

The Prison Service has "safer cells"—no cell can be considered totally "safe" that can complement a regime providing care of at risk prisoners and reduce risks around impulsive suicide attempts. The use of this type of accommodation should be seen as just one part of the comprehensive suicide prevention strategy. The design of safer cells has several features which can assist staff in the task of managing those at risk from suicide, such as specially designed furniture and fixtures which are manufactured and installed to make the attachment of ligatures very difficult, and access to window bars prevented via-non-opening windows with integral ventilation grills.

**Bob Russell:** To ask the Secretary of State for Justice (1) how many of the 9,500 extra prison places in the building programme already underway will be safe cells; [173213]

(2) pursuant to his oral statement of 5 December 2007, *Official Report*, columns 827-30, on prisons (Carter Review), how many of the additional 10,500 prison places will be safe cells. [173394]

**Maria Eagle:** Existing Prison Service guidance, Prison Service Order 2700 Suicide Prevention and Self Harm Management, on the introduction of safer cells states that for new accommodation all cells in category A, category B and local prisons will be fitted with safer cells to the full safer cell specification and 25 per cent. of category C accommodation will be fitted with safer cells to the full specification.

All projects within both the existing 9,500 place programme and the additional programme for 10,500 places are assessed individually in response to local requirements. The individual projects to deliver the new capacity are being developed.

### Rape: Convictions

**Jo Swinson:** To ask the Secretary of State for Justice what research the Government has *(a)* commissioned and *(b)* evaluated on differential conviction rates in rape cases in different police force areas in England and Wales. [171356]

**Mr. Coaker:** I have been asked to reply.

Home Office Research entitled "Investigating and Detecting Recorded Offences of Rape" was published on 20 July 2007. It looked at factors affecting detection and conviction rates using case files from eight police forces. The research included a comparison of the conviction rates across the force areas.

### Young Offenders: Learning Disability

**Mr. Hurd:** To ask the Secretary of State for Justice how many young offenders in England had a learning disability or difficulty at the latest date for which figures are available. [172956]

**Mr. Hanson:** The study "Mental Health Needs and Effectiveness of Provision for Young Offenders in Custody and in the Community" (Professor Richard Harrington and Professor Sue Bailey, Youth Justice Board for England and Wales 2005), identified 23 per cent. of young offenders as having learning difficulties, that is having an IQ of 70 or less.

The research method used, however, was not able to differentiate between intrinsic learning disabilities and low IQ scores where lack of education was a contributory factor.

## NORTHERN IRELAND

### Demonstrations

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland when he expects to receive the *(a)* interim and *(b)* final report from the Strategic Review of Parading in Northern Ireland. [172839]

**Paul Goggins:** I expect to receive the interim report from the Strategic Review of Parading in the new year. The date of their final report will depend on the time it takes to complete their consultations once the interim report has been published.

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what plans he has to publish *(a)* an interim and *(b)* the final report from the Strategic Review of Parading in Northern Ireland. [172840]

**Paul Goggins:** I expect to publish the interim report from the Strategic Review of Parading in the new year. The final report will be published later in 2008.

### Members: Correspondence

**Lady Hermon:** To ask the Secretary of State for Northern Ireland when he expects to reply to the letter of 27 September 2007 from the hon. Member for North Down on police officers' pay; and if he will provide an explanation for the delay in replying. [170472]

**Paul Goggins:** Police officer pay in Northern Ireland is considered as part of the national Police Negotiating Board process. I understand that the hon. Lady wrote in identical terms to Home Office Ministers and received a substantive response setting out the Government's position on police pay.

In view of this Ministers did not send a separate response. I apologise for the confusion and will write setting out the current position with regard to the 2007 police pay award.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Carbon Sequestration

**Mr. Swire:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what capacity building he has undertaken to increase carbon *(a)* capture and *(b)* storage infrastructure. [164386]

**Malcolm Wicks:** The Government have undertaken a series of measures to build capacity in both carbon capture and carbon dioxide storage. These include:

supporting one of the world's first commercial scale demonstrations of the full chain of carbon capture and storage (CCS) technology on a coal-fired power station;

developing a regulatory regime for the storage of $CO_2$ (framework to be outlined in the forthcoming Energy Bill);

establishing a fund, in 2005, of £25 million (since increased to £35 million) to encourage the industry-led demonstration of carbon abatement technologies including CCS;

funding a three-year programme of research, through the Natural Environment Research Council, into issues related to CCS, particularly storage of carbon dioxide;

supporting CCS research projects through the Technology Strategy Board programme (during the period 2004-08 we have allocated £11.2 million for research projects into all carbon abatement technologies);

working with the North Sea Basin Task Force to publish a report focusing specifically on the possibilities for developing a pipeline infrastructure in the North sea for transporting $CO_2$ for permanent storage; and working very closely with the Chinese government to support an EU initiative for a near zero emissions coal project in China which will incorporate CCS technology.

### Coal: Pollution Control

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the relative effectiveness of pre-combustion and post-combustion clean coal technologies; and if he will make a statement. [167045]

**Malcolm Wicks** *[holding answer 22 November 2007]:* My Department has funded two studies, the reports from which will shortly be available at:

www.berr.gov.uk

which have looked at pre- and post-combustion technologies. These show that both technologies are potentially capable of capturing 85 to 90 per cent. of carbon dioxide produced.

We have selected post-combustion capture for the UK demonstration project since this meets our objective of demonstrating technology that is relevant and transferable to key global markets—particularly in emerging economies. However, we consider that all CCS technologies have the potential to make valuable contributions to reducing carbon emissions and we expect to see all CCS options rolled out once they have been successfully demonstrated.

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the potential contribution of pre-combustion clean coal technologies in meeting UK carbon reduction targets. [167046]

**Malcolm Wicks** *[holding answer 22 November 2007]:* A modelling study, available at:

www.berr.gov.uk/files/file19834

undertaken to inform the UK's Carbon Abatement Technologies strategy showed that carbon capture and storage (involving the deployment of both pre- and post-combustion technologies) would contribute to the UK's carbon reduction targets from about 2020.

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans his Department is considering for the encouragement of the use of pre-combustion coal technologies. [167047]

**Malcolm Wicks** *[holding answer 22 November 2007]:* The Department has a £35 million programme to support all carbon abatement technologies, including pre-combustion capture technologies and we have funded two research projects, the reports from which will shortly be available at:

www.berr.gov.uk

looking specifically at pre-combustion technologies. We are also supporting the wider deployment of all CCS technologies through the development of a regulatory framework to govern the storage of carbon dioxide and other ongoing policy work.

We selected post-combustion capture for the UK demonstration project since this meets our objective of demonstrating technology that is relevant and transferable to key global markets—particularly in emerging economies. However, we consider that all CCS technologies have the potential to make valuable contributions to reducing carbon emissions and we expect to see all CCS options rolled out once they have been successfully demonstrated.

### Radioactive Materials: Transport

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he has taken to consult *(a)* London residents and *(b)* local authorities in London on the transportation by rail through London of nuclear waste; and if he will make a statement. [169388]

**Jim Fitzpatrick:** I have been asked to reply.

For the purposes of this question 'nuclear waste' will be taken to mean irradiated nuclear fuel (INF) which is transported by rail from nuclear power stations to Sellafield in Cumbria.

The Government set out their preliminary view on the future of nuclear power in the consultation document, published on 23 May. Chapter 7 of the consultation document considers transport issues. In it the Government believe that the risks of transporting nuclear materials are very small and that there is an effective regulatory framework in place which ensures that these risks are minimised and sensibly managed by industry. The consultation included a question on the transport of nuclear materials, which was:

> "Do you agree or disagree with the Government's views on the transport of nuclear materials? What are your reasons? Are there any significant considerations that you believe are missing? If so, what are they?"

The Government wrote to all local authorities to make them aware of the consultation and all were invited to the stakeholder meetings we held. The consultation ended on 10 October and the Government are currently carefully considering the responses received before they makes the decision in the new year.

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the risks arising from the movement of nuclear waste by rail through *(a)* tunnels and *(b)* inner city areas; and if he will make a statement. [169396]

**Jim Fitzpatrick:** I have been asked to reply.

Under health and safety legislation it is the responsibility of the organisation carrying out any activity to carry out a risk assessment. In the specific case of activities involving radioactive material this is a requirement of the Ionising Radiations Regulations 1999 (1999 No. 3232).

For the purposes of this question "nuclear waste materials" will be taken to mean irradiated nuclear fuel (INF) which is transported by rail from nuclear power stations to Sellafield in Cumbria.

Particular activities carried out by the DfT in assessing risks associated with INF transport are detailed in my answer to PQ 169395. One of the reports referred to in 169395 (NRPB-W66) looks specifically at the radiological impact of INF transports through London and concludes that it is low.

Trains transporting INF are timetabled to avoid passing through tunnels at the same time as other trains carrying dangerous goods.

## CULTURE, MEDIA AND SPORT

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Culture, Media and Sport how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171436]

**Mr. Sutcliffe:** The information is as follows.

*(a) Expenditure on Christmas cards*

| | *Cost (£)* |
|---|---|
| 2002 | 1,985 |
| 2003 | 3,209 |
| 2004 | 3,235 |
| 2005 | 2,135 |
| 2006 | 1,962 |

*(b) Expenditure on Christmas receptions for NDPBS*

| | *Cost (£)* |
|---|---|
| 2002 | 8,735 |
| 2003 | 10,023 |
| 2004 | 6,596 |
| 2005 | 11,378 |
| 2006 | 14,137 |

*(c) Expenditure on Christmas decorations*

| | *Cost (£)* |
|---|---|
| 2002 | 659 |
| 2003 | 685 |
| 2004 | 1,235 |
| 2005 | 814 |
| 2006 | 944 |

### Cost Review Group

**Mr. Hoban:** To ask the Secretary of State for Culture, Media and Sport if he will place in the Library copies of the minutes of the meeting of the Cost Review Group on 9 March 2006. [164780]

**Tessa Jowell:** I have been asked to reply as Minister for the Olympics.

The meeting of the Cost Review Group on 9 March was not minuted.

The minutes of the other Cost Review Group meetings will not be placed in the House Library as they are being used to inform the development of our ongoing policy for managing the Olympic project.

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Culture, Media and Sport how much was paid in consultancy fees by his Department in each year since 1997. [172076]

**Mr. Sutcliffe:** The amount paid in consultancy fees by the Department since 1997 are as follows:

| | £ |
|---|---|
| 1997-98 | 465,336 |
| 1998-99 | 329,911 |
| 1999-2000 | 588,321 |
| 2000-01 | 194,075 |
| 2001-02 | 318,416 |
| 2002-03 | 469,480 |
| 2003-04 | 473,785 |
| 2004-05 | 643,924 |
| 2005-06 | 1,161,306 |
| 2006-07 | 852,525 |

### Tourism: Finance

**Mr. Whittingdale:** To ask the Secretary of State for Culture, Media and Sport if he will provide a breakdown of the £350 million spent by Government annually on supporting tourism, with reference to his evidence to the Culture, Media and Sport Committee on 25 October 2007. [171956]

**James Purnell:** Public sector tourism spending in 2006-07 is estimated as follows:

| *Organisation* | *Spend (£ million)* |
|---|---|
| VisitBritain | 49.9 |
| VisitScotland | 44.0 |
| VisitWales | 22.0 |
| Northern Ireland Tourist Board | 18.7 |
| Northern Ireland Tourist Board to the joint Northern Ireland/Eire Tourism Ireland marketing body | 12.6 |
| London Development Agency | 22.0 |
| London Unlimited (additional marketing and promotional funding for London) | 6.0 |
| Non-London Regional Development Agencies | 29.8 |
| English local authorities | 126.0 |
| Scottish local authorities | 4.4 |
| Welsh local authorities | 13.0 |
| Total | 348.4 |

### Tourism: Marketing

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how much was spent by *(a)* his Department, *(b)* regional development agencies and *(c)* local authorities on marketing the UK as a tourist destination in each of the last three years. [171677]

**Margaret Hodge** *[holding answer 5 December 2007]:* CMS has allocated the following amounts to marketing the UK and its constituent parts:

| | | | *£ million* |
|---|---|---|---|
| | *2005-06* | *2006-07* | *2007-08* |
| VisitBritain—Britain marketing | 35.50 | 35.50 | 35.50 |
| VisitBritain—England marketing | 13.40 | 14.40 | 15.15 |
| London Development Agency | 1.90 | 1.90 | 1.90 |
| Total | 50.80 | 51.80 | 52.55 |

Regional development agencies are not asked to account specifically for there expenditure on tourism marketing. Their definitions are therefore not consistent and reliable. They have, however, provided us with the following estimates of expenditure:

| | *£ million* |
|---|---|
| 2005-06 | 31.70 |
| 2006-07 | 27.90 |
| 2007-08 | 20.10 |

The £1.9 million a year in grant in aid from DCMS to the London Development Agency is included in these figures.

An additional £3.6 million a year in DCMS grant in aid was made available to the regional development agencies for each of these years for tourism support These amounts were not earmarked specifically for marketing.

It is not possible to provide figures for local authorities. Most local authorities across the UK support their local tourism industries through marketing and promotional spending. This is not, however, recorded separately from investment in general tourism support.

## DEFENCE

### Afghanistan: Peacekeeping Operations

**Patrick Mercer:** To ask the Secretary of State for Defence what estimate he has made of the number of Taliban commanders who have surrendered in Afghanistan as a result of *(a)* diplomatic and *(b)* military action. [172152]

**Des Browne:** Between 1 May 2005, when the Program-Tachim-e Sol' scheme was begun by the Government of Afghanistan, and 1 November 2007, some 4,600 former insurgents have sought reconciliation. No breakdown is available of the past status of these individuals or whether they entered the scheme as a result of diplomatic or military means.

### Armed Forces: Deployment

**Patrick Mercer:** To ask the Secretary of State for Defence (1) what length of time he expects to elapse before the 2nd Battalion the Yorkshire Regiment is sent on its next operational tour; [172167]

(2) what the peace establishment was of the 2nd Battalion the Yorkshire Regiment before deployment to Afghanistan; what the strength was of the Battalion; how many reinforcements to the Battalion were received from *(a)* the regular Army, *(b)* the Territorial Army and *(c)* the regular Army Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Battalions Battle casualty replacement policy is. [172168]

**Mr. Bob Ainsworth** *[holding answer 10 December 2007]:* Prior to their recent deployment to Afghanistan, the peace time establishment of the 2nd Battalion the Yorkshire Regiment was 600; the Battalion's strength was 500; it received additional reinforcements of 200 Regular Army, fewer than 100 Territorial Army personnel and none from the Regular Army Reserves. Fewer than 100 soldiers remained in the United Kingdom on recruitment duties or were physically unfit to deploy. The rear party is made up of approximately 200 personnel, including a number of appropriately trained theatre reserve soldiers who can be deployed immediately if required.

The policy on battle casualty replacement is to use rear party deployable personnel. Should this not suffice to rectify a deficiency in a specific skill, replacements would be requested from other units in theatre.

As disclosure of exact numbers would be likely to prejudice the capability, effectiveness and security of our armed forces. I have rounded all numbers to the nearest 100.

The force package for each operational tour is announced once it has been finalised. I cannot comment at this stage on the timing of the battalion's next operational tour.

### Armed Forces: Housing

**Lady Hermon:** To ask the Secretary of State for Defence how many emergency maintenance requests were made for properties occupied by service personnel and their families in each of the last 12 months; and what the average length of time taken to carry out the maintenance was in each month. [170452]

**Derek Twigg:** The actual length of time taken to carry out the maintenance for individual requests is not recorded. Two areas within Northern Ireland routinely categorise all calls as urgent and have therefore not been included in this response. For the other three areas, the pro rata number of emergency requests made by service personnel and their families during the last 12 months was:

| | *Number of emergency requests made* |
|---|---|
| November 2006 | 22 |
| December 2006 | 13 |
| January 2007 | 19 |
| February 2007 | 16 |
| March 2007 | 21 |
| April 2007 | 8 |
| May 2007 | 4 |
| June 2007 | 2 |
| July 2007 | 4 |
| August 2007 | 1 |
| September 2007 | 2 |
| October 2007 | 7 |

**Mr. Bellingham:** To ask the Secretary of State for Defence what account is taken of the standards of accommodation for serving military personnel in the Government's overall policy for the armed forces; and if he will make a statement. [170999]

**Derek Twigg:** The Government recognise that decent accommodation is a fundamental part of the package we give to our armed forces personnel and their families. We are taking a targeted and long-term approach to investing in accommodation, taking account of defence priorities across the board and the need to ensure value from public money.

### Departmental Conditions of Employment

**Tom Brake:** To ask the Secretary of State for Defence how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172251]

**Derek Twigg:** The Ministry of Defence is committed to achieving work force reductions of 10,000 civilians and 5,000 military administrative and support posts by the end of 2007-08. These are net targets and no posts will be reallocated to the frontline as part of them.

### Departmental Coordination

**Mr. Spellar:** To ask the Secretary of State for Defence pursuant to the answer of 27 November 2007, *Official Report*, column 309W, on departmental co-ordination, on what date the Foreign and Commonwealth Office consulted his Department about the Bruges speech; and on what date his Department replied. [170435]

**Des Browne:** I refer my right hon. Friend to my previous answer on 27 November 2007, *Official Report*, column 309W. The normal consultation between the FCO and the MOD on the Foreign Secretary's speech to the College of Europe in Bruges on 15 November occurred during the drafting of the speech.

### Departmental Official Hospitality

**Dr. Fox:** To ask the Secretary of State for Defence how much his Department spent in near cash terms on entertainment and hospitality as listed in his Department's resource account code hierarchy in each financial year since 2000-01. [169344]

**Derek Twigg:** I refer the hon. Member to my answer of 22 October 2007, *Official Report*, column 11W, to the hon. Member for Upper Bann (David Simpson).

### Departmental Pay

**Mr. Hayes:** To ask the Secretary of State for Defence how many and what proportion of his Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171404]

**Derek Twigg:** The strength and proportion of civilian personnel employed within each salary band is shown as follows:

*Strength and proportion of civilian personnel[1] by grade as at 1 April 2007*

| | *Strength* | *Headcount Percentage* |
|---|---|---|
| Senior civil service and equivalent[2] | 290 | 0.3 |
| Pay Band B | 2,520 | 2.5 |
| Pay Band C | 17,230 | 16.9 |
| Pay Band D | 12,430 | 12.2 |
| Pay Band E | 26,760 | 26.2 |
| Other non-industrial | 860 | 0.8 |
| Industrial | 13,600 | 13.3 |

*Strength and proportion of civilian personnel[1] by grade as at 1 April 2007*

| | Strength | Headcount Percentage |
|---|---|---|
| Trading Fund staff | 10,250 | 10.1 |
| Royal Fleet Auxiliary (RFA) | 2,360 | 2.3 |
| Locally engaged civilians | 15,650 | 15.4 |
| Total | 101,940 | 100 |

[1] Data include permanent and casual personnel employed by the Department, the Royal Fleet Auxiliaries, Trading Funds and locally engaged civilians.
[2] The senior civil service was formed in 1996. The totals include about 50 personnel outside the senior civil service but of equivalent grade.
[3] All strengths are rounded to the nearest 10. Totals and sub-totals have been rounded separately and so may not equal the sum of their rounded parts.
*Source:*
DASA (Quad-Service)

The Ministry of Defence employs staff in many hundreds of different roles. I have placed in the Library of the House a complete list of the departmental grades, job families and job codes.

*(a)* Staff in the non-industrial broader banded groups and industrial skill zones (excluding Trading Funds) are eligible to receive end of year bonus awards based on relative assessment of performance against their peers. In 2007 up to 75 per cent. of non-industrial staff and 100 per cent. of industrial staff could be awarded one of three tiers of bonuses. For the senior civil service, bonuses are used to reward excellent performance during the year and the award is based on a judgment of how well an individual has performed against their peers. Fixed term employees brought into the Department through fair and open competition have contracts which allow for payment of a non-consolidated, performance related bonus, usually of a maximum of 10 per cent. of basic salary. Individual performance is judged by line managers and, for those who are agency chief executives, there is an annual audit of performance against agency key targets. The Agency owner then takes a view of the individual's performance guided by the independent audit agency and the remuneration committee. MOD also operates a special bonus scheme to reward civilian staff for exceptional performance in a specific task or for the achievement of professional qualifications which benefit MOD and the individual. Staff in Trading Funds are subject to separate arrangements which meet their business needs.

*(b)* All MOD civil servants are eligible to belong to a pension scheme. Most belong to the principal civil service pension scheme (PCSPS)—although there are a number of different schemes under the overall PCSPS umbrella. Some analogue grades—such as lecturers, teachers and medical grades—belong to the pension scheme appropriate to that profession such as the teachers pension scheme, the Scottish teachers pension scheme and the NHS pension scheme.

*(c)* An MOD employed civil servant is eligible to claim for the reasonable extra expense of travel and subsistence while on official duty. This may mean travel expenses by public transport, official or private vehicle, the actual bed and breakfast costs where overnight accommodation is required and the reimbursement of actual and reasonable additional meal and refreshment costs while undertaking the official duty.

*(d)* The total costs directly attributed to civilian staff, for travel and subsistence since 2003-04 (excluding Trading Funds, details for which are not held centrally) are:

| | *£ million* |
|---|---|
| 2003-04 | 117.01 |
| 2004-05 | 127.61 |
| 2005-06 | 133.69 |
| 2006-07 | 135.78 |

There are additional costs in respect of personnel movements which include car hire, for both military and civilian personnel, which are attributed to one accounting code, for which the civilian cost element can be separately identified only at disproportionate cost.

Travel costs prior to 2003-04 were attributed to a common accounting code for both military and civilian personnel. Costs for civilian personnel could be extracted only at disproportionate cost.

*(e)* The average age of departmental employees is shown as follows:

*Average age of MoD personnel[1] as at 1 April 2007*

| | Average age |
|---|---|
| Senior civil service and equivalent[2] | 51.7 |
| Pay Band B | 48.4 |
| Pay Band C | 46.7 |
| Pay Band D | 44.8 |
| Pay Band E | 44.4 |
| Other non-industrial | 44.7 |
| Industrial | 47.4 |
| Trading Fund Staff | 42.5 |
| Total | 45.3 |

1. Data include permanent and casual personnel employed by the Department, but exclude Royal Fleet Auxiliary personnel and locally engaged civilians for whom age data are not centrally held.
[2] The senior civil service was formed in 1996. The totals include about 50 personnel outside the senior civil service but of equivalent grade.
*Source:*
DASA (Quad-Service)

*(f)* The number of (i) women and (ii) men employed by the Department is shown as follows:

*Strength of civilian personnel[1] by sex and grade as at 1 April 2007*

| | Female | Male | Headcount Total |
|---|---|---|---|
| Senior civil service and equivalent[2] | 40 | 250 | 290 |
| Pay Band B | 520 | 2,000 | 2,520 |
| Pay Band C | 4,730 | 12,500 | 17,230 |
| Pay Band D | 4,630 | 7,800 | 12,430 |
| Pay Band E | 14,880 | 11,870 | 26,760 |
| Other non-industrial | 630 | 230 | 860 |
| Industrial | 2,740 | 10,850 | 13,600 |
| Trading Fund Staff | 2,150 | 8,100 | 10,250 |
| Sub total | 30,320 | 53,610 | 83,930 |
| Royal Fleet Auxiliary (RFA)[3] | [4]— | [4]— | 2,360 |

*Strength of civilian personnel[1] by sex and grade as at 1 April 2007*

| | Female | Male | Headcount Total |
|---|---|---|---|
| Locally engaged civilians[3] | [4]— | [4]— | 15,650 |
| Total | [4]— | [4]— | 101,940 |

[1] Data include permanent and casual personnel employed by the Department, the Royal Fleet Auxiliaries, Trading Funds and locally engaged civilians.

[2] The senior civil service was formed in 1996. The totals include about 50 personnel outside the senior civil service but of equivalent grade.

[3] Gender data are not available for royal Fleet Auxiliary personnel and locally engaged civilian personnel.

[4] Not available.

*Note:*

All numbers are rounded to the nearest 10. Totals and sub-totals have been rounded separately and so may not equal the sum of their rounded parts.

*Source:*

DASA (Quad-Service).

*(g)* The ethnic composition of the Department is shown as follows:

*Strength of civilian personnel[1] by ethnic origin and grade, as at 1 April 2007*

| | White | Ethnic minorities | Unknown | Headcount Total |
|---|---|---|---|---|
| Senior civil service and equivalent[2] | 240 | [3]— | 50 | 290 |
| Pay Band B | 2,080 | 50 | 400 | 2,520 |
| Pay Band C | 14,020 | 400 | 2,820 | 17,230 |
| Pay Band D | 10,520 | 340 | 1,570 | 12,430 |
| Pay Band E | 22,430 | 880 | 3,450 | 26,760 |
| Other non-industrial | 660 | 30 | 170 | 860 |
| Industrial | 9,620 | 180 | 3,790 | 13,600 |
| Trading Fund Staff | 7,900 | 170 | 2,180 | 10,250 |
| Sub total | 67,450 | 2,060 | 14,430 | 89,930 |
| | | | | |
| Royal Fleet Auxiliary (RFA)[4] | [5]— | [5]— | [5]— | 2,360 |
| Locally engaged civilians[4] | [5]— | [5]— | [5]— | 15,650 |
| Total | [5]— | [5]— | [5]— | 101,940 |

[1] Data include permanent and casual personnel employed by the Department, the Royal Fleet Auxiliaries, Trading funds and locally engaged civilians.

[2] The senior civil service was formed in 1996. The totals include about 50 personnel outside the senior civil service but of equivalent grade.

[3] Value less than 10.

[4] Ethnicity data are not available for Royal Fleet Auxiliary personnel and locally engaged civilian personnel.

[5] Not available.

*Note:*

All numbers are rounded to the nearest 10. Totals and sub-totals have been rounded separately and so may not equal the sum of their rounded parts.

*Source:*

DASA (Quad-Service).

### Nuclear Weapons

**Nick Harvey:** To ask the Secretary of State for Defence what the projected expenditure on the Nuclear Warhead Capability Sustainment Programme is *(a)* in each year from 2008-09 to 2010-11 and *(b)* over the lifetime of the programme from 2005 to 2015. [170843]

**Des Browne:** Our financial planning for the Atomic Weapons Establishment (AWE) from 1 April 2008 makes no distinction between management and operation costs and those associated with the Nuclear Warhead Capability Sustainment Programme (NWCSP), which we announced on 19 July 2005, *Official Report*, column 59WS. This reflects the incorporation of the NWCSP into the core AWE programme, expenditure on which over the next three years is expected to be:

| | £ million at outturn prices |
|---|---|
| 2008-09 | 800 |
| 2009-10 | 900 |
| 2010-11 | 950 |

On the same basis, expenditure at AWE over the last three years was:

| | £ million at outturn prices |
|---|---|
| 2005-06 | 493 |
| 2006-07 | 687 |
| 2007-08 (provisional) | 799 |

In line with our announcement of July 2005, some £1.1 billion of the expenditure for the years 2005-06 to 2007-08 is associated with sustaining key skills and facilities.

Spending plans for 2011-12 and beyond will be set as part of the Government's spending review process.

### RAF Menwith Hill

**Norman Baker:** To ask the Secretary of State for Defence on what date the decision was taken to give permission to the US Administration to use Menwith Hill in the Missile Defense system; who took the decision; and what *(a)* formal agreement and *(b)* memorandum of understanding was produced. [172359]

**Des Browne:** The Government's agreement to missile warning data being routed through RAF Menwith Hill for use in the US missile defence system was given in an exchange of classified letters between the US Defense Secretary (dated 29 June 2007) and the UK Secretary of State for Defence (dated 17 July 2007).

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture: Subsidies

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government has been obliged to pay to the European Commission as a result of late payments under the new Single Farm Payment Scheme. [165965]

**Jonathan Shaw:** The current estimate of the total financial correction to be imposed on the UK for failure to meet payment deadlines in respect of the 2005 Single Payment Scheme (SPS) is around £70 million. No such corrections are expected for subsequent scheme years.

### Angling: Welsh Assembly Government

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether he has received any representations on amending or reforming the main concordat with the Welsh Assembly Government on fishing; and if he will make a statement; [172024]

(2) whether he plans to change the main concordat with the Welsh Assembly Government on fishing; and if he will make a statement. [172025]

**Jonathan Shaw:** I currently have no such plans, nor am I aware of any representations to change the concordat with the Welsh Assembly Government in respect of fisheries.

### Avian Influenza: Disease Control

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what restrictions he has placed on the holding of *(a)* pigeon shows and *(b)* other bird shows because of avian influenza; and if he will make a statement. [170645]

**Jonathan Shaw** *[holding answer 3 December 2007]*: EU legislation requires that all bird gatherings are banned unless the member state is satisfied that a risk assessment shows that gatherings would not significantly increase the risk of avian influenza. Therefore, consistent with previous outbreaks, following confirmation of avian influenza in Suffolk on 12 November, all bird gatherings, including falconry displays, fairs, markets, shows (including pigeon shows), exhibitions and pigeon races, were banned throughout Great Britain. This is because in the immediate aftermath of an outbreak there is great uncertainty over undetected infection elsewhere in the country, which means that all bird gatherings are high risk activities.

This ban was kept under constant review, and following a veterinary risk assessment, all bird gatherings outside non-restricted areas were permitted again from 23 November. As before, this is under the normal general licence conditions of good biosecurity, notification to Animal Health seven days prior to an event and record-keeping. Also, birds coming from outside the British Isles (for example, the UK, Republic of Ireland and the Isle of Man but excluding the Channel Islands for these purposes) cannot be taken to a gathering for 28 days after their importation, and pigeons must be isolated from other birds for at least seven days after a race.

### Avian Influenza: Pigeons

**Mr. Todd:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from the Royal Pigeon Racing Association on movement restrictions imposed as a result of avian influenza; and if he will make a statement. [171660]

**Jonathan Shaw:** We have received representations from the Royal Pigeon Racing Association as a result of the most recent avian influenza outbreak. They questioned the proportionality of placing a ban on all bird gatherings nationwide, which includes pigeon shows, markets and racing.

In the immediate aftermath of an outbreak, there is great uncertainty over undetected infection elsewhere in the country, which means that all bird gatherings are high risk activities. Following confirmation of avian influenza in Suffolk on 12 November, and consistent with EU requirements and previous outbreaks, all bird gatherings were banned throughout Great Britain.

In the case of the current outbreak and the outbreak at Holton earlier this year, we established within two weeks that the risk of disease circulating outside the restricted zones had returned to the normal low level. The ban was therefore lifted, outside restricted areas, from 23 November.

### Avian Influenza: Suffolk

**Mr. Ruffley:** To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent on accommodation for officials in Suffolk since the outbreak of avian influenza at Park Farm in Redgrave; and for *(a)* how many officials and *(b)* how long such accommodation was provided. [170125]

**Jonathan Shaw:** The latest information available indicates that the cost of providing hotel accommodation for officials working on the avian influenza outbreak between 12 November and 2 December was £121,300. 160 individuals were provided with accommodation for a total of 1,295 nights. These figures are subject to revision to take account of any confirmed changes to accommodation from our booking agent.

In an emergency, a large number of staff need to be found hotel rooms near to the local disease control centre at very short notice. DEFRA employs the services of an external provider to ensure that the most appropriate accommodation is secured and provides the best value for money.

### Climate Change: United Nations

**Kate Hoey:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many officials are travelling to the United Nations Climate Change Conference in Bali; and what estimate he has made of the *(a)* cost and *(b)* volume of carbon dioxide produced by their flights; [172017]

(2) what consideration he gave to minimising carbon dioxide emissions in the organisation of the UN Climate Change Conference in Bali; and whether consideration was given to replacing the Conference with multi-lateral conference calls. [172018]

**Mr. Woolas:** The total number of UK Government (including agencies) delegates, including officials and Ministers, attending the UNFCCC conference in Bali is 47. The carbon dioxide emissions attributable to the Defra delegation's flights has been calculated to be 209 tonnes of $CO_2$ equivalent. The cost to offset this quantity of $CO_2$, via the Government Carbon Offsetting Fund (GCOF), which offsets all UK Government ministerial and official travel overseas, is £2,071.19.

While much necessary contact can be made by electronic means, it is not possible to reach agreement among 192 countries on complex issues without meeting.

Significant multilateral and bilateral conference calls do of course, take place.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if *(a)* his Department and *(b)* his Department's agencies will undertake a review of their compliance with data protection laws; [168087]

(2) how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disc; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were; [168273]

**Keith Vaz:** To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place in his Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely; [168477]

**Tom Brake:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data; [169216]

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to protect the personal data on members of the public which it holds. [171419]

**Jonathan Shaw:** I refer the hon. Members to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review.

**Mr. Philip Hammond:** To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168253]

**Mr. Vara:** To ask the Secretary of State for Environment, Food and Rural Affairs how many breaches of data protection security there were in *(a)* his Department or *(b)* his Department's agencies in each of the last five years; and if he will provide details of each breach; [168837]

**Mr. Rob Wilson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many breaches of the Data Protection Act 1998 requiring investigation there have been in the last five years in his Department; what the nature of such breaches were; and what the results of the investigations were in each case. [169257]

**Jonathan Shaw:** I refer the hon. Members to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

In addition to this I also refer the hon. Member to a previous response made on 13 June 2007, *Official Report*, column 1028W, regarding the number of breaches.

**Mr. Vara:** To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years. [168811]

**Jonathan Shaw:** There have been no occasions where the Information Commissioner has been contacted by the Department to report breaches of data protection security.

In addition to this response I also refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [169898]

**Jonathan Shaw:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

In addition to this, I also refer the hon. Member to a previous response made on the 13 June 2007. *Official Report*, column 1028W, regarding the number of breaches.

## Departmental Pay

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of his Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171405]

**Jonathan Shaw:** In DEFRA, staff pay bands generally equate to administrative grade equivalents. The number and proportion of DEFRA staff employed in each grade equivalent as at 30 November 2007 is shown in the following table.

| *Grade equivalent* | *Full-time equivalents* | *Percentage* |
|---|---|---|
| AA | 116.81 | 3.5 |
| AO | 580.55 | 17.3 |
| EO | 603.00 | 18.0 |
| HEO | 844.28 | 25.1 |
| SEO | 372.53 | 11.1 |
| Grade 7 | 527.23 | 15.7 |
| Grade 6 | 158.01 | 4.7 |
| SCS | 156.57 | 4.7 |
| Total | 3,358.98 | 100.0 |

The bonus structure is as follows:

*For the SCS*

Non-consolidated cash payments, otherwise known as bonuses, reward in-year performances in relation to agreed objectives, or short term personal contribution to wider organisational objectives. Bonuses are paid in addition to base pay increases and do not count towards pension.

Bonuses are allocated by departments from a 'pot' expressed as a percentage of the SCS salary bill, which is agreed centrally each year following the SSRB recommendations. The intention is that bonus decisions should be differentiated in order to recognise the most significant deliverers of in-year performance.

*For Staff at Grade 6 and below*

The high performance bonus awards scheme introduced in April 2005 provide DEFRA staff with recognition and reward for delivery of an outstanding outcome or performance that significantly exceeds normal expectations. The process should provide staff at all grades with an opportunity to earn a bonus, and ensure that achievements in operational, policy and corporate services areas are recognised as being of equal esteem.

There are two types of award:

> In-year high performance bonuses paid to individuals or teams in recognition of one-off achievements during the year; and
>
> Annual high performance bonuses which are paid to the top 10 per cent. of performers in each group for delivery of an outstanding outcome or performance sustained throughout the whole year.

The latest published information on the gender breakdown and ethic composition of civil servants is as at 30 September 2006 and is available in tables N and O at:

> http://www.statistics.gov.uk/downloads/theme_labour/CivilService2006TablesandCharts.xls.

The other information requested could be provided only at disproportionate cost.

**Mr. Philip Hammond:** To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171548]

**Jonathan Shaw:** Payment of non-consolidated performance bonuses reflects the principle across the civil service of rewarding performance through one-off, non-consolidated payments. End-of-year bonuses are awarded to staff for high performance sustained throughout the whole year.

The following table shows details of end-of year bonuses awarded to SCS staff in core-Defra and its Executive Agencies in accordance with Cabinet Office arrangements; and for staff below the SCS in core-Defra and those Agencies covered by the core-Department's reward arrangements (Animal Health, Pesticides Safety Directorate, Veterinary Medicines Directorate, Marine Fisheries Agency and Government Decontamination Services). Data prior to 2005 are available only at disproportionate cost due to systems changes.

| | *Defra (£)* |
|---|---|
| 2003 | — |
| 2004 | — |
| 2005 | 2,765,045 |
| 2006 | 2,568,449 |
| 2007 | 2,854,598 |

The total sums paid annually in performance bonuses equate to a little over 1 per cent. of paybill.

For staff below SCS in Defra's other Executive Agencies (Central Science Laboratory, Centre for Environment Fisheries and Aquaculture Science, Rural Payments Agency and Veterinary Laboratories Agency), who have pay delegation, the following table illustrates the amount of end-of year bonus payments over the last five years. For the RPA, data prior to 2004 are available only at disproportionate costs due to systems changes; and 2007 end-of-year bonuses have not yet been finalised.

£

| | *2003* | *2004* | *2005* | *2006* | *2007* |
|---|---|---|---|---|---|
| CSL | 117,937 | 140,095 | 143,743 | 176,901 | 233,049 |
| CEFAS | 310,000 | 360,000 | 530,000 | 650,000 | 680,000 |
| RPA | — | 323,567 | 249,025 | 243,072 | — |
| VLA | 33,065 | 30,777 | 35,034 | 39,120 | 45,357 |

## Departmental Postal Services

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs how many items of post sent by his Department and its predecessor were reported missing by the intended recipient in each year since 1997. [171289]

**Jonathan Shaw:** I refer the hon. Member to the statement made by my right hon. friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and Agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

## Departmental Public Participation

**Mr. Hoban:** To ask the Secretary of State for Environment, Food and Rural Affairs what opinion polls his Department has conducted of *(a)* the public and *(b)* staff since 27 June 2007; and what the (i) name of the firm employed to conduct the poll, (ii) purpose and (iii) cost to the public purse was in each case. [164952]

**Jonathan Shaw:** The following surveys have been carried out by or on behalf of DEFRA since 27 June 2007:

| *Survey title* | *Purpose* | *Contracted research company* | *Anticipated cost (£)* |
|---|---|---|---|
| RPA Customer Satisfaction survey | Measure progress and impact of organisational changes and to identify areas for business improvement | Kadence | 80,928 |
| Plant Health and Seeds Inspectorate Customer satisfaction survey | To monitor performance and customer satisfaction | DEFRA—in house | 1,740 |
| Veterinary Medicine Directorate Feedback Survey | To ensure that VMD can improve the services it provides to "paying" customers and formally show that it cares about its customers views | Cognition Market Intelligence | 50,000 |
| Natural England Stakeholder Survey | Establishing relationships with partner organisations which help to achieve outcomes for the natural environment | Market Research Services | 40,000 |
| Business Attitudes to Resource Efficiency | To monitor any changes in attitudes to the opportunities provided by the Business resource Efficiency and Waste (BREW) programmes | Continental research | 10,000 |
| Attitudes to Climate Change—wave 6 | To monitor attitudes towards, and understanding of, Climate Change following the implementation of its Climate Change Strategy | ICM | 31,436 |
| Chewing Gum Action Group Campaign evaluation | Tracking research to measure campaign awareness and to re-gauge attitudes | BMRB Social Research | 59,150 |
| Registration, Evaluation, Authorisation and restrictions of Chemicals (REACH) Awareness Raising Campaign tracking research | Tracking research to measure campaign success and to determine levels of awareness and implications of the policy | GFK | 31,350 |
| Natural Environment Communications Research | Baseline research about general attitudes and behaviour among citizens towards the Natural Environment | Edcomms | 41,200 |
| Identifying Key Water Saving Messages | To identify consumer awareness and attitudes towards water resources as well as citizens' ability to adopt water efficient practices | MVA Consultancy | 30,356 |
| Waste Infrastructure Research | To identify public awareness of knowledge and attitudes to waste disposal | Navigator | 58,550 |

## Energy: Conservation

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what investigations he has undertaken of the Cheltenham Rule to increase energy efficient methods in new builds and reduce the level of carbon dioxide emissions. [163637]

**Mr. Iain Wright:** I have been asked to reply.

I understand the Cheltenham Rule is a proposal for metering energy use by developers. I have received no representations about the rule and I am not aware of any local authorities which have implemented anything equivalent.

In the Energy White Paper we set out our ambitions for all homes to incorporate smart meters and real time display devices. The Department for Business, Enterprise and Regulatory Reform consultation on these proposals closed at the end of October 2007, and the Government are considering all views received during this consultation period and will make a further announcement in the new year.

## Fisheries: EU Law

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 19 July 2007, *Official Report*, columns 512-13W, on fisheries: EU law, how the estimated costs of implementing the European rules on electronic recording and reporting of fishing activities have changed; and if he will make a statement. [171725]

**Jonathan Shaw:** The discussions between member states and the Commission on the detailed rules for the implementation of Council Regulation 1966/2006 on electronic recording and reporting of fishing activities and [illegible] of remote sensing will be completed shortly. Until these discussions are concluded, the estimates of costs provided to the House in July (19 July 2007, *Official Report*, columns 512-13W ) are still believed to be the best estimates available.

### Fisheries: Protection

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what contingency provisions are in place to provide fisheries enforcement in the event of all three river class offshore patrol vessels being unavailable for operation at the same time under the terms of the contract for the use of the Fishery Protection Squadron which enters into force on 1 April 2008; and if he will make a statement. [171681]

**Jonathan Shaw:** The agreement drawn up, which enters into force with effect from 1 April 2008, does not provide any contingency for a situation where all three River Class vessels are unavailable for fishery protection duties. In discussion with the Ministry of Defence, the Marine and Fisheries Agency considered that the risk of having no fishery protection cover for any lengthy period was low. Nonetheless, the Ministry of Defence would seek to provide suitable replacement patrol vessels if there is extended "time off task" by one of the River Class Patrol vessels.

### Fisheries: Subsidies

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the press release issued on 27 November 2007 by his Department, how much funding the Government plan to provide to the fishing industry in addition to that provided by the European Fisheries Fund; and if he will make a statement. [171726]

**Jonathan Shaw:** The amount of money the Government intend to make available will be indicated in the financial tables of the draft Operational Programme for the European Fisheries Fund which will be subject to a consultation. This will be a 12-week consultation which I expect to commence early in 2008.

### Foot and Mouth Disease: Compensation

**Mr. Carmichael:** To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid to Scottish farmers and crofters by the UK Government consequent upon the 2001 outbreak of foot and mouth disease; and what proportion of this was compensation for *(a)* the culling of livestock and *(b)* economic losses. [167731]

**Jonathan Shaw:** Based on the Economic Report on Scottish Agriculture, the total compensation payments made to Scottish farmers and crofters for animals culled during the 2001 foot and mouth disease outbreak was £189.713 million. No payments were made for economic losses.

### Foot and Mouth Disease: Wiltshire

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs how much of the compensation allocated to farmers following the foot and mouth crisis in August has been allocated to Wiltshire. [171022]

**Jonathan Shaw:** The Animal Health Act 1981 and Human Rights legislation requires that compensation is paid for animals compulsorily killed and property compulsorily destroyed to prevent the spread of disease. Therefore, as there was no foot and mouth disease in Wiltshire, no compensation has been paid to farmers there.

As part of the £12.5 million support package announced on 8 October, farmers in Wiltshire will benefit from the £2 million allocated to promote the sales of lamb, beef and pork domestically and in our export markets, which we are doing all we can to return to normal within the EU by January. They will also have access to the support provided through a donation of up to £1 million to the Arthur Rank Centre for disbursement to Farming Help charities, which provide advice and practical and emotional support to farming families.

### Gleadthorpe Farm

**John Mann:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* the market value and *(b)* his Department's valuation is of his Department's Gleadthorpe Cottages in Meden Vale. [170559]

**Jonathan Shaw** *[holding answer 3 December 2007]*: The 15 residential dwellings at Gleadthorpe farm reverted back to direct Departmental management following the surrender of the ADAS farm tenancy on 28th September 2007.

The only valuation the Departmental has commissioned to date is a market valuation assuming vacant possession for the purposes of making 'offers to purchase' to the qualifying tenants in line with the right to buy provisions under the Housing Act. This is the appropriate valuation basis for the market value provided.

The market value of the cottages as reported by the Department's valuer is £1,825,000.

The Department does not currently have any other valuations of the cottages.

### Health Insurance

**Norman Lamb:** To ask the Secretary of State for Environment, Food and Rural Affairs how many officials in *(a)* his Department and *(b)* each of its agencies have private health insurance provided as part of their employment package. [167933]

**Jonathan Shaw:** Neither DEFRA nor its executive agencies provide private health insurance to any members of staff as part of their employment package.

## Livestock: Disease Control

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for the Department's plans to introduce cost-sharing with farmers for the control of animal diseases. [170648]

**Jonathan Shaw:** We aim to consult before the end of the year on principles and possible options for implementing responsibility and cost-sharing measures for the control of animal diseases.

## Opinion Leader Research

**Mrs. May:** To ask the Secretary of State for Environment, Food and Rural Affairs how many contracts were awarded by his Department to Opinion Leader Research in each year since 1997; and what was *(a)* the title and purpose, *(b)* the cost to the public purse and *(c)* the dates of (i) tender, (ii) award, (iii) operation and (iv) completion and report to the Department in each case. [165269]

**Jonathan Shaw:** DEFRA came into being in June 2001. From information held centrally the core-department's expenditure with Opinion Leader Research in the financial years 2003-04 to 2007-08 (to date) is as follows:

| *Financial year* | *Expenditure* |
|---|---|
| 2003-04 | 38,661.36 |
| 2004-05 | 116,207.50 |
| 2005-06 | 88,953.62 |
| 2006-07 | 171,017.72 |
| 2007-08 (to date) | 48,833.59 |

The department does not hold centrally the title and purpose of each project, and the dates on which the project was put to tender, carried out, completed and its findings put to the department. This information could be provided only at disproportionate cost.

## Poultry Meat: Labelling

**Mr. Swire:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has considered taking to introduce clearer labels and guidance on poultry meat for consumers; and if he will make a statement. [171072]

**Jonathan Shaw** *[holding answer 5 December 2007]:* Labelling and guidance for consumers on poultry meat extends to various product attributes and advice on cooking and handling and the Food Standards Agency is the lead Government Department on general food labelling and guidance. Labelling on poultry meat, in common with all foods, is also subject to the legislative requirements on food labelling. Specific provisions governing marketing standards and labelling of (uncooked) poultry meat are laid down in EU regulations, notably Council Regulation No. 1906/90 and Commission Regulation No. 1538/91 (both as amended). As the EU Commission are in the process of reviewing the latter, decisions on labelling in these areas are likely to await the outcome of this.

## Radioactive Materials: Waste Management

**Mr. Dai Davies:** To ask the Secretary of State for Environment, Food and Rural Affairs what his policy is on the extent to which proposers of any new nuclear stations should be responsible for the costs of nuclear waste management, with reference to his reply on a blog on energy and environmental policy hosted by the No. 10 Downing Street website on 19 November, that it would be for the proposers of any nuclear power stations to cover the cost of nuclear waste primarily. [167910]

**Malcolm Wicks** *[holding answer 6 December 2007]:* I have been asked to reply.

The Government set out in our recent public consultation "The Future of Nuclear Power" our preliminary view that it is in the public interest to give private sector energy companies the option of investing in new nuclear power stations. In the event that we confirm our preliminary view, the consultation sets out in detail, a process to design financing arrangements that will ensure nuclear power station operators accumulate sufficient funds to meet their costs of waste disposal and decommissioning and that these funds are secure, even in extreme situations, such as insolvency. This mechanism would be set out in legislation.

## Sugar Beet

**Mark Pritchard:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will seek to ensure that British Sugar's application to surrender quota back to the EU is not agreed unless British Sugar agrees terms for compensation to Shropshire *(a)* sugar beet growers and *(b)* contractors whose businesses are affected. [171166]

**Jonathan Shaw:** British Sugar's application, including these elements, is under active consideration and we shall announce in due course the envisaged distribution of aid in the event that the application is approved.

## Young People

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs how many staff aged between 16 and 18 were employed by his Department and its predecessors *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171274]

**Jonathan Shaw:** Information on the age of new entrants to the Department is available only from 2004 and is shown in the following table.

| | *Number of 16 to 18-year-olds recruited* |
|---|---|
| 2004 | 23 |
| 2005 | 23 |
| 2006 | 6 |
| 2007 (to 30 November) | 3 |

The other information requested could be provided only at disproportionate cost.

## INTERNATIONAL DEVELOPMENT

### Afghanistan: Airports

**Dr. Fox:** To ask the Secretary of State for International Development what assessment he has made of the significance of civilian use of Kandahar International Airport to the economic development of Regional Command South in Afghanistan. [170820]

**Mr. Douglas Alexander:** DFID has made no assessment of the significance of civilian use of Kandahar International airport to the economic development of Regional Command South. However, the United States Agency for International Development (USAID) is planning to commission an assessment of civil use of the airport in January 2008, as part of a wider economic assessment of the region. We shall seek a copy of their assessment in due course.

### Africa: Health Services

**Chris McCafferty:** To ask the Secretary of State for International Development what assessment he has made of the Maputo Plan of Action; and how he intends to support the African Union and African national governments' implementation of the Maputo Plan of Action. [173218]

**Mr. Thomas:** DFID fully supports the aims of the African Union Maputo Plan of Action on Maternal health which is consistent with the DFID strategy 'Reducing maternal deaths: evidence and action'.

At regional level, DFID works closely with the African Union Commission and others responsible for the Maputo Plan.

DFID recently pledged an additional £100 million over five years to the UNFPA global programme for reproductive health commodity security (GPRHCS). The aim is to increase sexual and reproductive health supplies in developing countries and to develop capacity to resolve problems of sexual reproductive health commodity insecurity

We will continue to work closely with governments. For example, in Sierra Leone we are providing £50 million over the next 10 years to rebuild the health system to deliver basic services in sexual, reproductive and child health. In Kenya DFID is supporting a £7.5 million essential health services project over five years, working alongside the government and with the United Nations Children's Fund (UNICEF), the World Health Organisation (WHO), the United Nations Fund for Population Activities (UNFPA) and the European Commission (EC). This will include strengthening reproductive maternal health services (in Nyanza province) and the provision of socially marketed contraceptives.

### AIDS: Children

**Mr. Hancock:** To ask the Secretary of State for International Development if he will make a statement on the progress of his strategy for supporting children with AIDS. [172499]

**Mr. Thomas:** Tackling the needs and rights of children affected by AIDS remains at the heart of the DFID response. DFID is committed to spending at least £150 million to meet the needs of children affected by AIDS over three years to 2008.

DFID is working with UNICEF to support national orphans and vulnerable children plans in 13 African countries, to help ensure such plans are fully in line with broader national HIV/AIDS plans, and other social sector plans, especially education, health and social welfare.

Strengthening health services is the most sustainable way to improve child health and to address the health aspects of HIV and AIDS. The International Health Partnership, launched by the Prime Minister in September 2007, will help ensure that donor resources are better co-ordinated, that they back strong national health development plans and that they focus on strengthening the health systems that deliver better services.

We are also supporting social protection interventions in seven African countries. These programmes are providing predictable and regular cash transfers to households looking after vulnerable children which have been shown to be a simple and cost-effective way to ensure children get the nutrition, education and health care they need.

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for International Development how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171442]

**Mr. Douglas Alexander:** The Department for International Development (DFID) has produced its own Christmas cards since 2004 for partners and stakeholders. Prior to this DFID purchased cards from UNICEF.

The information requested is in the following table:

| | £ |
|---|---|
| 2003 | [1]4,500 |
| 2004 | [2]2,211 |
| 2005 | [2]2,102 |
| 2006 | [2]2,169 |
| 2007 | [3]2,674 |

[1] 6,000 cards purchased from UNICEF. [2] 7,000 cards. [3] Expected costs (7,000 cards).

DFID does not pay for Christmas parties or decorations.

### Ethiopia: Foreign Exchange

**Mr. Scott:** To ask the Secretary of State for International Development what currency transactions over the value of £25,000 have been made by his Department involving changing pounds sterling into local currency in Ethiopia in the last six months. [171960]

**Mr. Thomas:** In the last six months DFID Ethiopia has made the following transfers from sterling into Ethiopian birr:

| Date | £<br>Value |
|---|---|
| 27 July 2007 | 250,627.57 |
| 8 October 2007 | 250,000.00 |

### Indonesia: Overseas Aid

**Mr. Clifton-Brown:** To ask the Secretary of State for International Development what development projects his Department has sponsored in the Papua region of Indonesia; and what their budgets are for *(a)* 2007-08 and *(b)* 2008-09. [172056]

**Mr. Thomas:** DFID has funded the following programmes in Papua province during the period in question:

(i) through the decentralisation support facility, assistance is being provided to the provincial government of Papua to strengthen its capacity in areas such as public financial management, infrastructure and community-driven development. It is difficult to identify precise budgets for these activities as they form part of a broader programme for Eastern Indonesia, but approximate figures are £150,000 for calendar year 2007, and £300,000 for 2008.

(ii) the UK-Indonesia multi-stakeholder forestry programme (MFP) has operated in Papua, among other regions. Activities under this programme include support for forest policy reform, indigenous and other local community land rights, economic livelihoods, and tackling deforestation and illegal logging. Further information on this innovative programme can be found in the book 'Aid That Works', published in 2006 and available from DFID. Funding under MFP for Papua in 2007-08 is likely to amount to approximately £120,000. Funding levels for 2008-09 have not yet been set.

(iii) through the Indonesia Partnership Fund for HIV/AIDS (IPF), DFID is supporting the strengthening of the two Provincial AIDS Commissions for Papua and West Papua, as well as district AIDS Commissions, primarily through the National AIDS Commission Secretariat. In addition, Family Health International and the Indonesian HIV Prevention and Care Project both have HIV programmes in Papua and West Papua which receive support from DFID through the IPF. This work focuses on health system strengthening, providing care, support and treatment to people living with HIV, and prevention of sexual transmission of HIV in the two provinces. It is not possible to disaggregate the financial disbursement data sufficiently to indicate expenditure by province without incurring disproportionate costs.

### Iraq: Electricity

**Dr. Fox:** To ask the Secretary of State for International Development what projects his Department has implemented to improve the availability of electricity to local people in *(a)* Basra, *(b)* Maysan, *(c)* Dhi Qar and *(d)* Al Muthanna provinces; and how much was spent on such projects in each year since 2003. [170815]

**Mr. Douglas Alexander:** Since 2003, DFID has allocated over £100 million for infrastructure regeneration projects. This has helped create employment for several thousand Iraqis in repairing some of southern Iraq's key infrastructure. We have already added or secured 415 MW of electricity to the Iraqi national grid, and will be adding or securing a further 60 MW over the next few months—this is the equivalent to providing 24 hour electricity for around one million people. This has been achieved by repairing damaged electricity transmission and distribution networks, including transmission lines from Al-Hartha power station to Basra city (securing electricity supplies for 1.5 million residents), and the Al-Hartha power station chimney (securing electricity supplies for 340,000 people).

Since 2003, we have spent the following amounts to improve electricity in southern Iraq (we do not have this information broken down by individual governorates).

|  | *£ million*<br>*Support to electricity sector* |
|---|---|
| 2003-04 | 8 |
| 2004-05 | 6 |
| 2005-06 | 7 |
| 2006-07 | 7 |

### Kuwait

**Dr. Fox:** To ask the Secretary of State for International Development how many of his Department's personnel were based in Kuwait in support of Operation Telic in each year since 2003. [170821]

**Mr. Douglas Alexander:** Five DFID staff were based in Kuwait in early 2003 and were involved in civil/military liaison and co-ordination with UN agencies. From April 2003, all DFID personnel moved to either Baghdad or Basra.

### Microcredit Summit Campaign

**Annette Brooke:** To ask the Secretary of State for International Development what steps his Department is taking to help achieve the targets of the Microcredit Summit Campaign to ensure that 175 million of the world's poorest families, especially women, are receiving credit for self-employment and other financial and business services by the end of 2015. [173090]

**Mr. Thomas:** DFID regards microcredit as part of a broader strategy to promote financial sectors that are stronger and more inclusive of the needs of poor people, including women. The UK's 2006 White Paper on International Development commits us to tackle the barriers that prevent poor people from gaining access to markets and financial services, and supporting microfinance initiatives, particularly in partnership with banks and regulators.

DFID currently supports 58 financial sector initiatives, which include microcredit and business development services, in 25 countries. By May 2007, DFID had contributed approximately £180 million to financial sector programmes. A further £140 million has already been committed to support existing programmes in future years.

### Reviews

**Lynne Featherstone:** To ask the Secretary of State for International Development what *(a)* reviews, *(b)* consultations and *(c)* task forces his Department is (i) responsible for and (ii) scheduled to initiate; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [169858]

**Mr. Thomas:** Information on consultations is published on the 10 Downing street website at:

www.pm.gov.uk.

Other reviews, consultations and task forces currently under way are listed in the following table.

DFID's Evaluation Department carries out 20 to 25 independent evaluations per year, which are published on the website at:

www.dfid.gov.uk.

When drawing up its country assistance plans and other policies, DFID uses various means of consultation, including using working groups and formal written consultations to engage with local, regional and UK stakeholders. These often include partner governments, local and UK civil society, other donors, international agencies, academia and other UK Government Departments.

| | *Start* | *Finish* | *Purpose* |
|---|---|---|---|
| *Consultations* | | | |
| Burundi country engagement plan | Around February 2008 | Not yet specified | Preparation of country engagement plan. |
| Hunger Alliance | Regular discussions | Ongoing | Discussions with NGOs about hunger in Africa. |
| Kenya country assistance plan | December 2007 | January 2008 | Preparation of country assistance plan. |
| Indonesia strategy | Autumn 2007 | Early 2008 | Consultation on programmes with government, donors and other stakeholders. |
| *Task force* | | | |
| UK remittances task force. (This is an industry task force led by the private sector, with banks, money transfer operators and industry associations as members.) | February 2006 | No specific time line has been defined for this task force. | The aim is to reduce barriers to remittance flows from the UK to developing countries. |

### Sierra Leone: Politics and Government

**Jo Swinson:** To ask the Secretary of State for International Development what support his Department plans to give to the newly elected Members of Parliament in Sierra Leone. [173417]

**Mr. Thomas:** Under the programme Promoting Information and Voice for Transparency on Elections' DFID is funding the Westminster Foundation for Democracy (WFD) to provide a number of seminars to newly elected Members of Parliament (MPs) in Sierra Leone. On 19 and 20 November, a cross-party delegation of UK MPs delivered the first seminar on 'Becoming an Effective MP'. A further two seminars, on the role of MPs in Opposition and the role of MPs in Government, will be delivered in January/February 2008.

In addition, under the first phase of a new Parliamentary Strengthening Programme', delivered through the National Democratic Institute (NDI), DFID is supporting a co-ordinated induction programme for new MPs in the Sierra Leone Parliament. This includes an assessment of the existing capacity/needs of MPs, development of a Members' Directory and training on the representative responsibilities of MPs.

Support to specific Parliamentary Committees is also planned. This will include assistance to the Public Accounts Committee to effectively scrutinise public accounts on the basis of the Auditor General's reports. If Parliament requests, DFID may fund a further phase of this 'parliamentary strengthening programme'.

## TRANSPORT

### Biofuels

**Mr. Spellar:** To ask the Secretary of State for Transport what assessment her Department has made of the potential of second-generation bio-fuels. [170549]

**Jim Fitzpatrick:** Advanced biofuel production processes, including so-called "second generation" biofuels, offer the potential to deliver very high levels of greenhouse gas savings from the transport sector in a highly sustainable way. This is principally because they may allow liquid transport fuels to be produced efficiently from a much wider range of sources than is possible today (including wood, agricultural residues and the organic fraction of municipal waste).

Many of these processes are proven at laboratory scale, and a number of demonstration projects are up and running in various parts of the world. There remains considerable uncertainty, however, as to whether, and if so when, they will become viable at commercial scale.

European Union Heads of Government have made clear that future biofuel targets (including the 10 per cent. by 2020 target agreed at the March 2007 European Council) should be conditional on second generation biofuels becoming commercially available. This is to ensure that these targets can be delivered in a sustainable and cost-effective way.

The UK Government are aiming to incentivise the development of advanced biofuels under the Renewable Transport Fuel Obligation. Further details of how this might be done are set out in a policy paper which is available via the Department's website at:

http://www.dft.gov.uk/pgr/roads/environment/rtfo/secrtfostake/informalpolicypaper.

### Crossrail Line

**Mrs. Villiers:** To ask the Secretary of State for Transport (1) what oversight will be provided by *(a)* her Department and *(b)* the Mayor of London of cost management of Crossrail construction; [163300]

**Mrs. Villiers:** To ask the Secretary of State for Transport (2) what estimate she has made of the proportion of the contribution to Crossrail to be made by London business identified in the pre-Budget report which will be made by *(a)* the Corporation of London, *(b)* the Canary Wharf Group and *(c)* BAA; [164558]

(3) what her Department's responsibilities are regarding the oversight of the construction of Crossrail; what responsibilities she is delegating to the Mayor of London; and if she will make a statement. [164559]

**Mr. Tom Harris:** I refer the hon. Member to the written statement on Crossrail made by the Secretary of State on 26 November 2007, *Official Report*, columns 4-5WS.

### Departmental Carbon Emissions

**Chris Huhne:** To ask the Secretary of State for Transport what estimate she has made of the total amount of carbon emissions produced by her Department in each year since 1997. [172344]

**Jim Fitzpatrick:** The Department for Transport has submitted annual returns on energy usage and road mileage to the Sustainable Development Commission. The following represents those figures in the form of carbon emissions.

| | *Carbon emissions (kgC)* |
|---|---|
| 2002-03 | 6,864,725 |
| 2003-04 | 7,903,546 |
| 2004-05 | 9,615,941 |
| 2005-06 | 10,580,772 |
| 2006-07 | 10,632,494 |

### Departmental Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Transport how much her Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171446]

**Jim Fitzpatrick:** The information requested is set out in the following table. Figures are inclusive of VAT.

£

| *Christmas:* | *2006* | *2005* | *2004* | *2003* | *2002* |
|---|---|---|---|---|---|
| *Central Department* | | | | | |
| *(a)* | 2,058 | 1,780 | 2,114 | 2,055 | 859 |
| *(b)* | — | — | — | — | — |
| *(c)* | 1,972 | 1,042 | 801 | [1]— | [1]— |
| *Highways Agency* | | | | | |
| *(a)* | 3,750 | 3,050 | — | 3,930 | [1]— |
| *(b)* | — | — | — | — | — |
| *(c)* | — | — | — | — | — |
| *Maritime and Coastguard Agency* | | | | | |
| *(a)* | 8,484 | 1,769 | 5,902 | 4,865 | 5,147 |
| *(b)* | 6,839 | 6,621 | 5,991 | — | — |
| *(c)* | — | — | — | — | — |
| *Vehicle and Operator Services Agency* | | | | | |
| *(a)* | — | 664 | 309 | 282 | n/a |
| *(b)* | — | — | — | — | n/a |
| *(c)* | — | — | — | — | n/a |
| *Vehicle Certification Agency* | | | | | |
| *(a)* | — | — | — | 174 | [1]— |
| *(b)* | — | — | — | — | [1]— |
| *(c)* | — | — | — | — | [1]— |
| *Driver and Vehicle Licensing Agency* | | | | | |
| *(a)* | 2,879 | 2,981 | 3,465 | [1]— | [1]— |
| *(b)* | — | — | — | — | — |
| *(c)* | — | — | — | — | — |
| *Driving Standards Agency* | | | | | |
| *(a)* | 2,641 | 3,213 | 1,034 | 2,009 | [1]— |
| *(b)* | — | — | — | — | — |
| *(c)* | — | — | — | — | — |
| *Government Car and Despatch Agency* | | | | | |
| *(a)* | — | — | n/a | n/a | n/a |
| *(b)* | — | — | n/a | n/a | n/a |
| *(c)* | [1]— | [1]— | n/a | n/a | n/a |

[1] No data.

*Notes:*

1. Vehicle and Operator Services Agency was formed in 2003.
2. Government Car and Despatch Agency became an agency of the Department in 2005

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Transport (1) how much was paid in consultancy fees by the Department for Transport, Local Government and the Regions between 1997 and May 2002; [171781]

(2) how much was paid in consultancy fees by her Department in each year since its establishment. [171997]

**Jim Fitzpatrick:** For details of consultancy fees paid by the Department in each year since it was established I refer the hon. Member to my answer given to the hon. Member for Chipping Barnet (Mrs. Villiers) of 3 December 2007, *Official Report*, columns 852-53W.

Due to machinery of government changes that took place in May 2002 information on what predecessor Departments spent on consultancy is not held centrally and could be provided only at disproportionate cost.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Transport how many and what proportion of posts in her Department have been recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172261]

**Jim Fitzpatrick:** The Department is committed to achieving work force reductions of 700 full-time equivalent posts by the end of 2007-08. The Department's response to Sir Peter Gershon's efficiency review does not include plans for any recategorisation of posts, only to achieve a net reduction.

### Departmental Official Hospitality

**David Simpson:** To ask the Secretary of State for Transport on how many occasions she has accepted corporate hospitality in the last 12 months. [171310]

**Jim Fitzpatrick:** Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Transport whether the standard terms and conditions of purchase used by her Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172434]

**Jim Fitzpatrick:** The standard terms and conditions used for the purchase of goods and services prohibit the assignment of debt without the prior written consent of the Department.

### Departmental Publicity

**David Simpson:** To ask the Secretary of State for Transport how much has been spent by her Department on advertising in the last 12 months. [167947]

**Jim Fitzpatrick:** The last full year for which these figures are available is the 2006-07 fiscal year. In that fiscal year, the Department and its agencies spent £23,966,258 on advertising.

The majority of advertising investment by the central Department is in support of the THINK! road safety and Act on $CO_2$ campaigns. Figures for recruitment advertising for specific posts are not included in this figure. These are not collected centrally and could be provided only at disproportionate cost.

**Mr. Philip Hammond:** To ask the Secretary of State for Transport if she will place in the Library a copy of the guidelines issued to staff maintaining her Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170226]

**Jim Fitzpatrick:** Corporate identity guidelines are generally published electronically on intranets. There is no annual cost.

The annual cost of guidelines that are produced as printed documents for staff in the Department and agencies is £1,325.

In producing publications and other relevant materials there are no additional costs involved in complying with corporate guidelines. Using corporate templates generally reduces design costs.

### Departmental Relocation

**Tim Farron:** To ask the Secretary of State for Transport whether her Department plans to move any of its offices to Westmorland and Lonsdale constituency. [166561]

**Jim Fitzpatrick:** There are no plans in place to relocate any of the Department's offices to the Westmorland and Lonsdale constituency. The Department remains firmly committed to examining the possibility of relocation opportunities in the future where this meets business need and delivers benefits.

### Departmental Travel

**Mrs. Villiers:** To ask the Secretary of State for Transport what steps she is taking to reduce the amount of travel her officials undertake. [168680]

**Jim Fitzpatrick:** The Department for Transport and its agencies have policies in place which require officials to consider alternative communication methods, such as video and teleconferencing, before deciding to travel, and then to travel only when strictly necessary. The Department has introduced a sustainable travel policy which requires officials to plan their travel effectively considering not only economy, but also environmental impact in choice of travel mode.

Across the wider Department further initiatives to reduce business travel and its impact are being introduced. These include car and lift sharing schemes, national travel plans and reductions in travel budget targets.

Measures are also being introduced to reduce the impact of commuting including flexible and remote working and cycle to work schemes.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Transport how much her Department spent on overnight accommodation for Ministers overseas in the last year. [171328]

**Jim Fitzpatrick:** Details of the cost of overseas travel, including the cost of travel and accommodation, are contained in the "Overseas Travel by Cabinet

Ministers" list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

### Fisheries: Compensation

**Bob Spink:** To ask the Secretary of State for Transport what assessment she has made of whether the arrangements made by London Gateway Port for a disturbance compensation scheme comply with the conditions of approval for the development. [172163]

**Jim Fitzpatrick:** The London Gateway Port disturbance payments scheme is a commercial matter between London Gateway Port Ltd. and local fishermen affected by dredging operations for port construction. The scheme is not a condition of the Secretary of State's approval for the development.

### Fishing Vessels

**Bill Wiggin:** To ask the Secretary of State for Transport how many UK fishing vessels have been lost at sea in the last 12 months. [171683]

**Jim Fitzpatrick:** Between 1 December 2006 and 30 November 2007 reports of 13 accidental losses at sea of UK registered fishing vessels were received by the Marine Accident Investigation Branch.

### Great Western Trains

**Mrs. Villiers:** To ask the Secretary of State for Transport what assessment she has made of the performance of First Great Western in operating its train franchise. [170740]

**Mr. Tom Harris:** Improving rail performance is a key objective for the Department for Transport. Joint action plans are in place between Network Rail and First Great Western to address performance issues. Additionally, First Great Western has implemented a 40-point recovery plan. These are monitored monthly. I recently met with First Great Western's new chief operating officer and Network Rail's new route director to discuss performance.

In the year to 13 October 2007 FGW achieved an average punctuality of 82.6 per cent. across the franchise as a whole and 84.5 per cent. during the preceding four week period.

### Heathrow Airport: Noise

**Mrs. Villiers:** To ask the Secretary of State for Transport what assessment she has made of the role continuous descent approach can play in mitigating noise from Heathrow airport. [170672]

**Jim Fitzpatrick:** Aircraft landing at Heathrow are required whenever practicable to follow continuous descent approach or "low power, low drag" procedures, although the main noise benefits are outside the 57dBA Leq noise contour. This is consistent with the recommendations in the industry Code of Practice "Noise from Arriving Aircraft ; An Industry Code of Practice" on the benefits of CDA as a means of reducing both fuel burn and noise. The Code of Practice can be accessed on the Department's website (www.dft.gov.uk).

### Heathrow Airport: Publicity

**Justine Greening:** To ask the Secretary of State for Transport how many households have been sent the Adding Capacity at Heathrow Airport Summary consultation document, broken down by *(a)* London borough and *(b)* ward; and if she will make a statement. [172715]

**Jim Fitzpatrick** *[holding answer 10 December 2007]:* More than 200,000 households around Heathrow have been sent a copy of the Adding Capacity at Heathrow Airport summary consultation document and response form. This included over 165,000 households in 54 wards in seven London boroughs.

By London borough the breakdown of households which received these documents is as follows (all figures rounded to the nearest 100).

| *London borough* | *Delivery addresses* |
|---|---:|
| Ealing | 4,600 |
| Hammersmith and Fulham | 22,700 |
| Hillingdon | 10,100 |
| Hounslow | 71,400 |
| Kensington and Chelsea | 300 |
| Richmond upon Thames | 36,900 |
| Wandsworth | 19,100 |

By ward the breakdown is as follows:

| *Ward* | *Borough* | *Delivery address* |
|---|---|---:|
| Elthorne | Ealing | 100 |
| Northfield | Ealing | 1,800 |
| Norwood Green | Ealing | 800 |
| Southall Green | Ealing | 1,900 |
| Fulham Broadway | Hammersmith and Fulham | 1,700 |
| Fulham Reach | Hammersmith and Fulham | 800 |
| Munster | Hammersmith and Fulham | 4,200 |
| Palace Riverside | Hammersmith and Fulham | 3,000 |
| Parsons Green and Walham | Hammersmith and Fulham | 4,000 |
| Sands End | Hammersmith and Fulham | 4,800 |
| Town | Hammersmith and Fulham | 4,200 |
| Botwell | Hillingdon | 400 |
| Heathrow Villages | Hillingdon | 4,400 |
| Pinkwell | Hillingdon | 3,800 |
| Townfield | Hillingdon | <50 |
| West Drayton | Hillingdon | 1,500 |
| Bedfont | Hounslow | 2,900 |
| Brentford | Hounslow | 5,300 |
| Chiswick Homefields | Hounslow | 1,400 |
| Chiswick Riverside | Hounslow | 4,800 |
| Cranford | Hounslow | 4,000 |

| *Ward* | *Borough* | *Delivery address* |
|---|---|---|
| Feltham North | Hounslow | 3,900 |
| Hanworth | Hounslow | 1,800 |
| Hanworth Park | Hounslow | 1,500 |
| Heston Central | Hounslow | 3,800 |
| Heston East | Hounslow | 3,900 |
| Heston West | Hounslow | 4,000 |
| Hounslow Central | Hounslow | 4,300 |
| Hounslow Heath | Hounslow | 4,600 |
| Hounslow South | Hounslow | 3,900 |
| Hounslow West | Hounslow | 3,700 |
| Isleworth | Hounslow | 5,000 |
| Osterley and Spring Grove | Hounslow | 4,400 |
| Syon | Hounslow | 5,300 |
| Turnham Green | Hounslow | 2,800 |
| Cremorne | Kensington and Chelsea | 300 |
| Barnes | Richmond upon Thames | 3,100 |
| East Sheen | Richmond upon Thames | 3,900 |
| Heathfield | Richmond upon Thames | 3,900 |
| Kew | Richmond upon Thames | 5,100 |
| Mortlake and Barnes Common | Richmond upon Thames | 4,900 |
| North Richmond | Richmond upon Thames | 4,700 |
| South Richmond | Richmond upon Thames | 3,600 |
| St. Margarets and North Twickenham | Richmond upon Thames | 1,200 |
| Twickenham Riverside | Richmond upon Thames | 200 |
| West Twickenham | Richmond upon Thames | 3,300 |
| Whitton | Richmond upon Thames | 3,000 |
| East Putney | Wandsworth | 100 |
| Latchmere | Wandsworth | 4,000 |
| Queenstown | Wandsworth | 1,500 |
| Roehampton | Wandsworth | 900 |
| St. Mary's Park | Wandsworth | 5,400 |
| Thamesfield | Wandsworth | 4,700 |
| West Putney | Wandsworth | 2,600 |

### Heathrow Airport: Security

**Mrs. Villiers:** To ask the Secretary of State for Transport what recent discussions she has had with the Home Secretary on the efficiency of security procedures at Heathrow; and what discussions she has had with BAA on reducing security queuing times at Heathrow. [168667]

**Jim Fitzpatrick:** My right hon. Friend has regular discussions with the Home Secretary, Home Office Ministers and companies in the aviation sector on a range of issues of mutual interest, including airport security. We recently published 'Improving the Air Passenger Experience' which explains what the end-to-end journey experience looks like for passengers using Heathrow and sets out what improvements are already under way.

### Level Crossings: Frinton-on-Sea

**Mr. Carswell:** To ask the Secretary of State for Transport what assessment she has made of the effects on safety of changing the protected manual railway gate at Frinton-on-Sea railway crossing to a gate controlled remotely and monitored by closed circuit television. [172313]

**Mr. Tom Harris:** I refer the hon. Member to my answer of 13 November 2007, *Official Report*, column 92W.

### Lewes-Uckfield Railway Line

**Mrs. Villiers:** To ask the Secretary of State for Transport what work her Department is undertaking on the possibility of re-opening the Lewes to Uckfield rail link. [170757]

**Mr. Tom Harris:** The Department is not currently undertaking any work on the possibility of re-opening the Lewes to Uckfield railway. Local stakeholders are sponsoring a study into the re-opening which we expect to be completed in 2008.

### Motor Vehicles: Exhaust Emissions

**Mrs. Villiers:** To ask the Secretary of State for Transport whether she continues to support the European Commission target of reducing average emissions from new cars sold in the EU to 130g/km by 2012. [164631]

**Jim Fitzpatrick:** We want to see challenging but achievable new car $CO_2$ targets. Ambitious mandatory targets are the best way to send strong signals to manufacturers to make major investments in new technology confidently. We therefore welcome the ambition shown by the Commission in suggesting a target of 130 g/km by 2012 but we also recognise, as the European Parliament recently has, that this would be extremely challenging given the length of lead times in the automotive sector.

We also believe that continued improvement is best achieved by setting a framework for the longer term. We are pressing for a second ambitious EU target, of 100g/km by 2020, or no later than 2025.

### Newcastle A1 Western Bypass

**Mrs. Villiers:** To ask the Secretary of State for Transport whether the Government plans to widen the Newcastle A1 western bypass; and if she will make a statement. [168659]

**Mr. Tom Harris:** The Highways Agency is currently investigating options for widening the A1 Newcastle western bypass. This work will help to inform a decision in due course on whether to take forward a widening scheme. The Highways Agency is also holding discussions with the developers of Newcastle Great Park regarding a planning condition attached to this development which requires them to widen the section of the A1 between the A696 and North Brunton junctions once they have reached a particular level of development on the site.

### Oxford-Cambridge Railway Line

**Mrs. Villiers:** To ask the Secretary of State for Transport what work her Department is undertaking on *(a)* the possible re-opening of the York to Beverley rail-link and *(b)* in relation to the section of new track needed to create a Cambridge to Oxford rail link. [170748]

**Mr. Tom Harris:** The Department is not undertaking any work on the possible re-opening of the York to Beverley rail link or the Cambridge to Oxford rail link.

East Riding of Yorkshire council has undertaken some work on the former and the East-West Rail Consortium has commissioned a detailed study into the Cambridge to Oxford rail link which should be completed shortly. The Department is in discussion with the Consortium.

### Passports: Postal Services

**Stewart Hosie:** To ask the Secretary of State for Transport how many passports returned by the Driver and Vehicle Licensing Authority have been delivered by *(a)* standard mail and *(b)* recorded delivery in the last 12 months. [171191]

**Jim Fitzpatrick:** The information is not held in the form requested.

### Railway Stations: Greater London

**Mrs. Villiers:** To ask the Secretary of State for Transport whether upgrading London Bridge station is included in the £150 million allocated by Delivering a Sustainable Railway White Paper to station improvements. [170753]

**Mr. Tom Harris:** The upgrading of London Bridge station is part of the £5.5 billion Thameslink programme which was fully authorised in July 2007.

### Railway Stations: Reading

**Mrs. Villiers:** To ask the Secretary of State for Transport what the budget is for the upgrade of Reading station, as proposed in Delivering a Sustainable Railway, broken down by subheading; and when she expects work to *(a)* start and *(b)* finish on the upgrade. [170744]

**Mr. Tom Harris:** The amount currently allocated for improvements at Reading station is some £425 million. The majority of this is for construction-related work but upwards of £70 million may be required for design and the necessary planning approvals. Work has already started on the design aspects and final completion of the project is planned for spring 2015.

**Mrs. Villiers:** To ask the Secretary of State for Transport if she will place in the Library a copy of the contracts which have been let for work on the upgrade of Reading station, as set out in Delivering a Sustainable Railway. [170746]

**Mr. Tom Harris:** The work to enlarge Reading station is led by Network Rail, and contracts are a matter for them.

However, the company is required to improve capacity and performance, within agreed timescales and resources.

Network Rail can be contacted at:

Network Rail
40 Melton street
London
NW1 2EE

### Railways: Consultants

**Mrs. Villiers:** To ask the Secretary of State for Transport how much her Department has spent on *(a)* consultants and *(b)* other costs relating to the Inter-city Express programme. [170736]

**Mr. Tom Harris:** The Department has committed a total of £6.7 million since late 2005 relating to the Inter-City Express programme, all of which was on consultants.

### Railways: Fares

**Mrs. Villiers:** To ask the Secretary of State for Transport what assessment her Department has made of the recent increases in unregulated rail fares. [164635]

**Mr. Tom Harris:** In the absence of specific grounds for doing so, the Department has made no formal assessment of the recent increases in unregulated fares. However, we keep unregulated fares under review. The Department continues to listen to the representations of Passenger Focus and has invited them to take a greater role in commenting on the specification of future franchises.

**Ben Chapman:** To ask the Secretary of State for Transport whether she plans to increase consumer protection in relation to unregulated rail fares. [172884]

**Mr. Tom Harris** *[holding answer 10 December 2007]*: There are currently no plans to increase consumer protection in relation to unregulated rail fares.

The setting of unregulated rail fares is a commercial decision for each train operating company. It is in their interests to provide an attractive range of fares and to encourage more passengers to use the railway.

The Department continues to listen to the representations of Passenger Focus and has invited them to take a greater role in commenting on the specification of future franchises.

### Railways: Franchises

**John McDonnell:** To ask the Secretary of State for Transport (1) what premium was received by her Department from each rail franchise in the last year for which figures are available; [171981]

(2) what subsidy was provided to each rail franchise in the last year for which figures are available. [171982]

**Mr. Tom Harris:** Details of subsidies and premiums received from, and paid by franchised train operating companies are available in 'National Rail Trends', which is published by the Office of Rail Regulation (ORR). Copies are available in the Library of the House and on the ORR website at:

www.rail-reg.gov.uk

### Railways: Land

**Mrs. Villiers:** To ask the Secretary of State for Transport of which disused rail lines her Department authorised the sale in each of the last 10 years; and which disused rail lines her Department is considering re-opening. [170749]

**Mr. Tom Harris:** The disposal of non operational property owned by BRB (Residuary) Ltd. (BRBR) is governed by guidance issued to the company on 26 July 2007 which I outlined in my statement to Parliament on that date. A listing of all properties, including disused railway lines that are either held by BRBR or have been sold by the company is available on their website at:

http://www.brbr.gov.uk/property/property_listings

The disposal of railway property owned by Network Rail is undertaken in accordance with the conditions of their network license. Compliance with these conditions are monitored and enforced by the Office of Rail Regulation.

The Government priorities for rail as set out in the White Paper in July are improved reliability and safety and dealing with growth on the existing network. This does not envisage reopening lines in the period to March 2014. However, the Government would consider proposals for re-opening where these offer value for money and are fundable—it is for local promoters to make a case.

### Railways: Public Holidays

**Mrs. Villiers:** To ask the Secretary of State for Transport on which railway lines services will not be running on Boxing Day. [172170]

**Mr. Tom Harris** *[holding answer 10 December 2007]*: Full details of amended services over the Christmas period are available at

http://www.nationalrail.co.uk/service_bulletins/Christmas_and_New_Year_Summary2007.html.

### Railways: Southampton

**Mrs. Villiers:** To ask the Secretary of State for Transport what schemes her Department is considering to improve rail links to the port of Southampton. [170750]

**Mr. Tom Harris:** The Department announced on 29 October 2007, *Official Report*, column 28WS, £44 million of funding through the productivity element of the Transport Innovation Fund towards rail gauge enhancement from the port of Southampton to the West Coast Main Line. The enhancement, when completed, will enable 9' 6" high containers to be conveyed on standard wagons on the route.

### Railways: Standards

**Mr. Hancock:** To ask the Secretary of State for Transport if she will seek the views of passengers who travel in Desiro Class 450 Units, on mainline services between Portsmouth and London on passenger comfort. [172134]

**Mr. Tom Harris:** Stagecoach South Western Trains (SSWT) has carried out an ergonomic study on the Class 450s based on customer (specifically Portsmouth passengers) feedback. The findings of this report have been independently reviewed by Passenger Focus, the passenger representation body and have been made public by SSWT on their website.

### Renewable Transport Fuel Obligation

**Chris Huhne:** To ask the Secretary of State for Transport what estimate she has made of the percentage of the Government's renewable transport fuels obligation which will come from *(a)* imports and *(b)* sustainable sources in 2010. [172136]

**Jim Fitzpatrick:** I refer the hon. Member to my answer of 5 December 2007, *Official Report*, column 1233W.

### Roads: Rural Areas

**Mr. Hollobone:** To ask the Secretary of State for Transport what recent assessment she has made on the effect on the quality of life in rural communities of standards of roads and levels of road usage; and if she will make a statement. [172400]

**Ms Rosie Winterton** *[holding answer 10 December 2007]*: Local highways in England are the responsibility of local highways authorities, and it is generally for them to determine standards of service and priorities. The Department's Guidance on Local Transport Plans (LTPs) for the period 2006 to 2011 indicated that in preparing their plans local authorities should consider how they could improve quality of life in their communities, including in rural areas. Authorities have been asked to assess progress in implementing their plans during 2008-09.

### Roads: West Midlands

**Mr. Jenkins:** To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* serious injuries were sustained by people aged (i) under 16, (ii) between 16 and 24, (iii) between 25 and 65 and (iv) over 65 years as a result of road traffic accidents in the West Midlands in each of the last five years. [173488]

**Jim Fitzpatrick:** The number of casualties *(a)* killed and *(b)* seriously injured, who were (i) under 16, (ii) between 16 and 24, (iii) between 25 and 65 and (iv) over 65 years, resulting from reported personal injury road accidents in the West Midlands Government office region in each of the last five years is shown in the table.

*Number of casualties*

| | Killed | | | | | Seriously injured | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | *Under 16* | *16-24* | *25-64* | *65+* | *Total*[1] | *Under 16* | *16-24* | *25-64* | *65+* | *Total*[1] |
| 2002 | 20 | 72 | 158 | 56 | 306 | 414 | 782 | 1,375 | 259 | 2,879 |
| 2003 | 14 | 86 | 170 | 51 | 321 | 333 | 744 | 1,288 | 241 | 2,666 |
| 2004 | 14 | 80 | 137 | 54 | 286 | 348 | 709 | 1,241 | 217 | 2,565 |
| 2005 | 11 | 67 | 157 | 44 | 281 | 347 | 657 | 1,102 | 213 | 2,393 |
| 2006 | 16 | 89 | 148 | 51 | 304 | 272 | 645 | 1,073 | 215 | 2,278 |

[1] Includes cases where age was not given.

## Rolling Stock: Expenditure

**Mrs. Villiers:** To ask the Secretary of State for Transport (1) how much her Department has spent on the procurement of the 1,300 carriages to be added to the rail network; [170741]

(2) how much her Department has spent on consultants in relation to the procurement of the 1,300 extra carriages to be added to the rail network. [170742]

**Mr. Tom Harris:** The Department has been involved in some initial procurement work, and has spent £226,000 on consultants. This is to assess the business case and technical specifications, to ensure they represent best value to the taxpayer.

## South West Trains: Rolling Stock

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 29 November 2007, *Official Report*, column 605W, on South West Trains: rolling stock, what assessment she has made of the difference in seated passenger comfort between the Desiro Class 450 units and the previous stock on the mainline journeys between Portsmouth and London; and if she will make a statement. [172149]

**Mr. Tom Harris:** Stagecoach South Western Trains (SSWT) have carried out an ergonomic study on the Class 450s compared with previous rolling stock. The findings of this report have been independently reviewed by Passenger Focus, the passenger representation body and have been made public by SSWT on their website.

## Southeastern Railway Company: Franchises

**Derek Conway:** To ask the Secretary of State for Transport what procedures her Department followed in making the recent franchise agreement with Southeastern Railway Company; and what assessment was made of the likely effect on fares for travellers from Sidcup and Albany Park stations before agreeing the franchise. [172556]

**Mr. Tom Harris:** In competing and awarding rail franchises, the Department's procedures comply with relevant procurement legislation and Office of Government Commerce guidelines. Evaluations of bids include checking compliance with the Department's fares policy. Such an assessment would not have been made at the level of detail to determine the impact on travellers from Sidcup and Albany Park stations.

The Southeastern franchise is limited to an average annual increase in regulated fares (including those for season tickets, full fare singles and returns) of RPI +3 per cent. for five years from 2007 reflecting the very significant investment in the franchise in recent years including more than £600 million in new rolling stock (some 408 new carriages) and £93 million in power supply, stations, depots and infrastructure.

A new zonal fares structure introduced Oyster Pay-As-You-Go smart ticketing on Southeastern in 2007 and will enable the introduction across national rail in London from 2009. It simplifies the current complex system of individually priced station-to-station fares.

In order to achieve this, and to maintain a coherent and balanced fare structure, some season ticket fares have been permitted to be increased above the otherwise maximum level.

## Southeastern Railway Company: Public Participation

**Derek Conway:** To ask the Secretary of State for Transport what assessment she has made of the potential benefits to travellers from Sidcup and Albany Park stations of the formation of a stakeholder advisory board by the Southeastern Railway Company as part of the franchise agreement conducted by her Department. [172546]

**Mr. Tom Harris:** Part of the successful bid to operate the Integrated Kent Franchise was the formation a company stakeholder advisory board.

Our review of the bid concluded that this proposal offered sufficient passenger benefit that it was included as a requirement of the franchise agreement. This was completed by April 2007. No specific assessment was made of the likely effect on a stakeholder advisory board on travellers from Sidcup and Albany Park stations.

## Transport Act 1981

**Mr. Amess:** To ask the Secretary of State for Transport what files are held by her Department on Part Four of the Transport Act 1981; and if she will make a statement. [172408]

**Jim Fitzpatrick:** Part IV, covering sections 19 to 31 of the Act was repealed by the Road Traffic (Consequential Provisions) Act 1988. The Road Traffic Act 1988, or other legislation as appropriate, will contain any successor provisions. The Department will hold files on the range of topics mentioned in Part IV. If the hon. Member has a particular interest he should write with specific details and, within reason, the Department will seek to provide an informative response.

### Transport: Exhaust Emissions

**Mr. Hancock:** To ask the Secretary of State for Transport what plans she has to include two-wheeled transport in her Department's review of low-carbon technologies. [172575]

**Angela Eagle:** I have been asked to reply.

Budget 2007 announced that the Chancellor commissioned Professor Julia King to conduct a review into the fuels and technologies which over the next 25 years could de-carbonise transport. I refer the hon. Member to the terms of reference published by the review on 11 June 2007.

### West Coast Railway Line: Rolling Stock

**Mrs. Villiers:** To ask the Secretary of State for Transport when she expects new Pendolino carriages to be *(a)* procured for and *(b)* in operation on the West Coast Mainline. [170738]

**Mr. Tom Harris:** Negotiations continue with Network Rail, Virgin Trains and Alstom to determine the optimal way of increasing capacity on the West Coast Main Line. I hope to be in a position to make a further announcement in the new year.

# Written Answers to Questions

*Tuesday 11 December 2007*

## FOREIGN AND COMMONWEALTH OFFICE

### Bosnia: Peacekeeping Operations

**Mr. Francois:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent by the Government *(a)* through the EU and *(b)* on a bilateral basis in Bosnia-Herzegovina since the Dayton Peace Accords in November 1995. [170780]

**Mr. Jim Murphy** *[holding answer 3 December 2007]*: The inputted UK share of official development assistance (ODA) to Bosnia and Herzegovina through the EC, between 1995 and 2005, was £186 million. The total ODA through the EC was £1.06 billion. Other significant donors were Germany (approximately £220 million), France (approximately £174 million) and Italy (approximately £144 million).

The UK bilateral ODA to Bosnia and Herzegovina from 1995 to 2006 was £42 million.

### Entry Clearances: Internet

**Jo Swinson:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether his Department plans to make provision for visa applicants to apply online from British visa offices in those countries from which applications must now be made online; [173387]

(2) what accessibility criteria were considered when deciding to accept only online visa applications from nationals of certain countries; [173388]

(3) what the basis was of the decision to accept only online visa applications from nationals of certain countries. [173389]

**Dr. Howells:** UKvisas has not decided to prioritise certain nationals over others as a matter of policy. The on-line application facility was initially made available in North America and Europe where internet penetration is high and the technical obstacles to implementation were more easily addressed. The gradual roll-out to other countries is linked to the roll-out of the biometric visa programme.

Applications through Visa4UK are not mandatory. UKvisas will work with its commercial partners to facilitate take-up, depending on local needs.

### Slovakia: Terrorism

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the recent arrest in Slovakia of persons seeking to sell radioactive material to make a dirty bomb; and if he will make a statement. [173203]

**Mr. Jim Murphy:** We have received reports that on 28 November two Hungarian nationals and one Ukrainian national were arrested trying to sell Uranium near the Slovak-Hungarian border. The matter is still under investigation.

## INNOVATION, UNIVERSITIES AND SKILLS

### Adult Education

**Helen Jones:** To ask the Secretary of State for Innovation, Universities and Skills what discussions he has had with *(a)* the Department of Health and *(b)* Department for Communities and Local Government on the health and social effects on older people of continued participation in learning. [167765]

**Bill Rammell** *[holding answer 26 November 2007]*: We recognise the many wider benefits of participation in learning and its vital contribution to personal health and wellbeing, community involvement and quality of life as people age. Learning helps older people to fulfil themselves as active citizens and as members of their families and communities. People who keep mentally and physically active not only live longer but live happier and more fulfilled lives and pursuing learning can play a real part in this. We remain committed to ensuring the continuing availability of a wide range of suitable learning opportunities in every area for adult learners, including older people, and have safeguarded funding for learning for personal and community development at £210 million through to 2010-11.

We continue to work closely with ministerial colleagues in the context of the Cabinet Sub-Committee on Ageing Policy (DA(AP)), to take forward the Government's opportunity age strategy, to ensure that longer life is healthy and fulfilling and that older people can participate fully in society. Colleagues at the Department for Work and Pensions lead on Opportunity Age and we are working with them to deliver the opportunities for older people proposed in World Class Skills and in the Green Paper: In Work, Better Off, both published in July this year.

My officials are also working closely with their counterparts in Department of Health and Department for Communities and Local Government on the Opportunity Age Strategy Partnership Group, as well as its Sub-Group on Education and Training, and on the Task Group we have established to steer our reforms in Personal and Community Development Learning.

I know that there are concerns about the impact of the Employment Equality (Age) Regulations 2006 on fee concessions for older learners and I must make clear that the regulations do not bar providers from offering fee discounts for learners aged 65 and over. They allow for such positive action provided that it can be objectively justified. I refer my hon. Friend to my written statement on 16 May 2007, *Official Report*, column 35WS.

### Apprentices: Bexley

**Mr. Evennett:** To ask the Secretary of State for Innovation, Universities and Skills (1) how many apprenticeships were *(a)* started and *(b)* completed in the London borough of Bexley in each of the last five years; [171009]

(2) how many people failed to complete apprenticeships in the London borough of Bexley in each of the last five years. [171026]

**Mr. Lammy:** Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). The table shows the number of apprenticeship starts, achievements and success rates (the proportion of those who complete apprenticeships in each year and achieve the full apprenticeship framework) from August-July in each year in East London local LSC area.

(Achievements and success rates for 2002/03 and figures at local authority level are not readily available.) The number of learners who started an apprenticeship and the number of achievements and success rates in each year are mutually exclusive.

| | *Starts (thousand)* | | *Achievements (thousand)* | | *Success rates (percentage)* | |
|---|---|---|---|---|---|---|
| | *Advanced apprenticeships*[1] | *Apprenticeships*[1] | *Advanced apprenticeships*[1] | *Apprenticeships*[1] | *Advanced apprenticeships*[1] | *Apprenticeships*[1] |
| 2002/03 | 0.6 | 1.5 | — | — | — | — |
| 2003/04 | 0.7 | 2.1 | 0.2 | 0.3 | 30.0 | 21.6 |
| 2004/05 | 0.7 | 2.2 | 0.1 | 0.5 | 23.8 | 28.3 |
| 2005/06 | 0.6 | 1.9 | 0.3 | 1.0 | 46.6 | 45.4 |
| 2006/07 | 0.5 | 1.6 | 0.3 | 1.1 | 60.0 | 59.7 |

[1] Figures for 2002/03 and 2003/04 are for Advanced Modern Apprenticeships and Foundation Modern Apprenticeships.
*Source:*
LSC's ILR

## Departmental Ministerial Policy Advisers

**Mr. Hoban:** To ask the Secretary of State for Innovation, Universities and Skills what the office costs for his Department's special advisers for 2007-08 are expected to be, including costs of support staff; and how many full-time equivalent civil servants work in support of such special advisers. [164925]

**Mr. Lammy:** Two civil servants support the Secretary of State's special advisers. Both provide support of a non-political nature in accordance with the code of conduct for special advisers.

Individual civil servants' salary details are not disclosed in order to protect the privacy of the individual concerned.

## Engineering: Education

**Mr. Boris Johnson:** To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* foundation degrees and *(b)* apprenticeships were offered in subjects related to (i) construction and (ii) engineering by each institution in London in each of the last five years. [169812]

**Bill Rammell:** The information requested is shown in the following tables. For *(a)*, the latest available information for Foundation Degree provision is shown in Table 1. Figures are not available for the years prior to 2004/05. The list for 2007-08 is provisional since the exercise of collating courses from all institutions is not yet completed. There are also some courses which are currently in development and these are listed separately.

For *(b)* the figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). Table 2 shows the number of apprenticeship starts in subjects related to construction and engineering from August-July in each year in the Greater London Region. Figures are shown for the last four years. Figures at institution level and figures for 2002/03 by Region are not readily available.

*Table 1: Construction and Engineering Foundation degrees in London*

| *Course title* | *Validating institution* | *Delivering institution* |

LSC's ILR

## Higher Education: Admissions

**Mr. Willis:** To ask the Secretary of State for Innovation, Universities and Skills how many undergraduates entered UK universities by socio-economic grouping in each year between 1996 and 2007. [173209]

**Bill Rammell:** The available information is shown in the table. The figures show proportions of UK-domiciled young (aged under 21) entrants to full-time first degree courses at higher education institutions in the UK, who were from lower social classes over the period 1997-98 to 2001-02, and the proportions from lower socio-economic classes over the period 2002-03 to 2005-06. The social classification in the student data changed in the 2002-03 academic year, and the two classifications are not comparable.

This information is taken from the annual Performance Indicators in Higher Education, which are currently published by the Higher Education Statistics Agency.

*UK-domiciled young (under 21) full-time first degree entrants to higher education institutions in the UK*

| *Academic Year* | *Lower social classes (IIIM, IV, V)* | *Lower socio-economic groups (4, 5, 6, 7)* |
|---|---|---|
| 1997-98 | 24.9 | n/a |
| 1998-99 | 25.1 | n/a |
| 1999-2000 | 25.3 | n/a |
| 2000-01 | 25.4 | n/a |
| 2001-02 | 25.8 | n/a |
| 2002-03 | n/a | 28.4 |
| 2003-04 | n/a | 28.6 |
| 2004-05 | n/a | 28.2 |
| 2005-06 | n/a | 29.3 |

n/a = not available

*Note:*

The socio-economic group classification was introduced in 2002-03 to replace the social class groupings. The two classifications are not directly comparable

*Source:*

Performance Indicators in Higher Education, published by HEFCE/HESA

Figures are not available for earlier years. Figures for 2006-07 will become available in 2008.

The proportion of students from low social classes/low socio-economic classes has been calculated using information on students whose social class/socio-economic class background is known. A significant proportion of students' social backgrounds are unknown and so exact numbers cannot be determined.

## Postgraduate Medical Deaneries

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills how many people are employed in each of the postgraduate medical deaneries; what the payroll costs are for each deanery in 2007-08; and what the size is of the budget each deanery administers in 2007-08. [166866]

**Ann Keen:** I have been asked to reply.

Information on the number of staff employed in each postgraduate medical deanery is not held centrally. It is therefore not possible to provide payroll cost information in respect of these staff.

Medical and dental education levy (MADEL) funding is not allocated directly to the postgraduate medical deaneries. It is included in the multi professional education and training (MPET) budget allocated to strategic health authorities (SHAs). It is up to each SHA to decide how much of the MPET allocation it will spend on postgraduate medical and dental education. The amount of MADEL funding included in each SHAs MPET allocation in 2007-08, is shown in the following table.

*Medical and dental education levy budget 2007-08*

| *Strategic health authority* | *£000* |
|---|---|
| East Midlands | 114,992 |
| East of England | 141,546 |
| London | 351,911 |
| North East | 99,551 |
| North West | 201,582 |
| South Central | 116,055 |
| South East Coast | 107,141 |
| South West | 145,281 |
| West Midlands | 152,452 |

## Reviews

**Sarah Teather:** To ask the Secretary of State for Innovation, Universities and Skills what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department is (i) responsible for and (ii) scheduled to undertake; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [169932]

**Mr. Lammy:** External reviews, consultations and taskforces being undertaken or scheduled to be undertaken by DIUS are as follows:

| *Name* | *Type* | *Start date* | *Completion date* | *Purpose* |
|---|---|---|---|---|
| Review of variable fees for full-time undergraduates | Review | To be determined | To be determined | Independent review of the first three years of the new system of variable fees, which started in the academic year 2006/07 |
| Review of operation of new foundation degree awarding powers for further education colleges | Review | May 2013 | To be determined | To review the operation of the new foundation degree awarding powers for further education colleges. This review is required under the Education and Training Act 2007 |
| Higher Education Regulatory Review Group (HERRG) | Taskforce | 2004 | Ongoing | To serve as a "gatekeeper" advising on the potential burden of policies and proposals; and generally to advise the Government on better regulation of higher education |
| Compacts project (with HEFCE) | Review | November 2007 | March 2008 | To establish the range and nature of HE compact schemes |
| Schwartz Review Project (through SPA) | Review | November 2007 | July 2008 | To examine the extent to which the Schwartz recommendations have been implemented; changes that have occurred in response to the Schwartz recommendations; and how the implementation of the recommendations has supported the five principles of fair admissions |
| New civil space strategy | Review | Summer 2006, followed by a public consultation January to May 2007. | Publication of the new strategy is planned for early 2008 | The British National Space Centre is developing a new civil space strategy for the UK to replace the current "UK space strategy 2003 to 2006 and beyond: space for science, enterprise and environment". |
| Licensing re use of outer space | Review | 2005 | 2005 Consultation 2008 | The provisions of Outer Space Act provide the principal means of UK compliance with international treaties on the use of outer space. The Government held a review of their implementation in 2005 with a view to modernising the licensing process required by the Act. As a result of the review, we have improved guidance to licence applicants and pre-licensing assessments. We expect to conclude this process with a public consultation on further proposals to revise the licensing process in 2008. |
| Science Review of the Home Office and ministry of Justice | Review | January 2007 | December 2007 | The Government Office for Science runs a rolling programme of "Science Reviews" looking at how departments of state identify their science requirements, use science and scientific advice; and commission, manage and quality-assure science.[1] |
| Science Review of the Department of Health | Review | July 2008 | May 2008 | [1]— |
| Review of Weights & Measures legislation | Review | 2 November 2007 | 2008 | It is likely that a consultation on proposals for legislative changes will follow the review some time in 2009. |
| Possible changes to existing secondary legislation on measuring instruments. | Consultation | 16 November 2007 | 8 February 2008. | Proposals identified as a result of this review will be subject to further consultation as part of the legislative change process. |
| Improvement in the Further Education Sector | Consultation | 4 December 2007 | 25 January 2008 | A consultative prospectus for a new sector-owned organisation |
| Changes to the regime governing specified quantities. | Consultation | The consultation is anticipated during 2008, though no date has been set. | | Legislation is necessary to implement Directive 2007/45/EC on specified quantities for pre-packages and may also provide an opportunity make reforms to the regime for non pre-packaged products which would simplify the legislation and remove any unnecessary burdens on business. (We expect to consult on draft legislation by October 2008 so that new legislation can be in place by April 2009.) |

| *Name* | *Type* | *Start date* | *Completion date* | *Purpose* |
|---|---|---|---|---|
| IPO Fastrack consultation | Consultation | — | 14 December 2007 | The Gowers Report on IP recommendation that the UK Intellectual Property Office provide a speedier process for granting patents and trade marks, subject to the payment of a higher fee. This consultation will close on 14 December 2007. |
| Research Exemption | Consultation | January 2008 | — | This process will commence with a discussion paper to identify key issues for inclusion in the consultation. It responds to a recommendation made by Gowers which calls for greater clarity about what can or cannot be done by researchers using patented processes and products. |
| Copyright | Consultation | Taking place in 2008. No dates yet set[2] | | Changes to copyright exceptions taking forward the recommendations of the Gowers Review. |
| Hours of Business | Consultation | [2]— | | This consultation concerns the dates/days of the week and times of the day during which the UK-IPO is able to accept date-sensitive transactions such as filing of applications. |
| Patent Office Fees | Consultation | [2]— | | This was a recommendation of Gowers, with the purpose of realigning UK Patent Office administrative fees to cover costs more closely on Patent Office operations (e.g. granting patents). |
| Copyright issues | Consultation | [2]— | | This may be needed to reframe some aspects of the Copyright, Designs and Patents Act in relation to copyright exceptions. |
| Train to Gain | Review | July 2007 | November 2007 | To review the effectiveness and operation of Train to Gain to ensure we can expand the service to meet the needs of all employers in all sectors. |
| Review of Investors in People | — | 23 October 2007 | End of December 2007 | Review the remit of Investors in People to consider how IiP UK and its products, including the standard itself, should be reshaped to support delivery of the UK world class skills ambition |
| Consultation on changes to the machinery of post-16 skills delivery, consequential to the 2007 MoG changes | Consultation | Feb 2008 | May 2008 | Joint with DCSF. To consult on proposals to (i) effect the transfer of strategic leadership for 16-19 education and skills to local authorities and (ii) reform the post-19 skills landscape. |
| Consultation on informal adult education | Consultation | January 2008 | March 2008 | To consult sector partners, learners and potential learners on the planning and delivery of informal adult education for the 21st century |
| Consultation on focusing ESOL on community cohesion | Consultation | To be determined | To be determined | Explore how to prioritise the most excluded in the funding and delivery of ESOL training. |
| Mortgage Style Student Loans | Review | Spring 2005 | Summer 2006 | To establish new strategies for overseeing Mortgage Style Loans to optimise cost effectiveness on both the Government's retained and sold loan portfolios. |
| Apprenticeships | Review | Autumn 2007 | Early 2008 | To review the Government's apprenticeships programme and identify improvements to assist in the delivery of policy aims, including the achievement of published targets. |
| Regulation of qualifications | Consultation | December 2007 | Spring 2008 | To consult on the Government's plans to establish a new independent regulator for qualifications. Joint with DCSF. |

## Students: Loans

**Tom Brake:** To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the debt owed to the Student Loans Company by residents of each London borough. [169371]

**Bill Rammell:** The available data are shown in the table.

*Number of borrowers with publicly-owned student loans, March 2007 amount of loan balance[1] by loan type, by London borough[2]*

| *London borough* | *Borrowers* | *Amount of loan balance (£000)*<br>*Mortgage-style loans* | *Income-contingent loans* | *All loans* |
|---|---|---|---|---|
| Barking and Dagenham | 5,300 | | 40,405 | 42,356 |
| Barnet | 20,900 | 8,641 | 149,495 | 158,135 |
| Bexley | 8,700 | 2,781 | 64,990 | 67,771 |
| Brent | 19,100 | 9,241 | 140,108 | 149,349 |

## CHILDREN, SCHOOLS AND FAMILIES

### Academies: Free School Meals

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the proportion of children on free school meals in each academy; and what percentage were on free school meals in the predecessor schools in the two years before academy status was granted. [172090]

**Jim Knight:** The latest available information on pupils known to be eligible for free school meals in academies relates to January 2007 and is shown in the following table.

Information on the percentage of pupils known to be eligible for free school meals in the predecessor schools in the two years before academy status was granted can be provided only at disproportionate cost.

*Academies: number and percentage of pupils eligible for free school meals, as at January 2007*

| | | *Pupil Achievement and Attainment Tables[1]* | | |
|---|---|---|---|---|
| *LA name* | *School name* | *Number of pupils* | *Number of pupils known to be eligible for free school meals* | *Percentage of pupils known to be eligible for free school meals* |

School Census.

## Academies: Sponsorship

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families (1) who the *(a)* sponsors and *(b)* co-sponsors are of academies approved since June 2007; and if he will make a statement; [168194]

(2) if he will list for each academy approved since 1st June 2007 the *(a)* lead sponsor and *(b)* co-sponsors; and if he will make a statement. [169838]

**Jim Knight:** The Secretary of State for Children, Schools and Families has approved Funding Agreements for 29 academies between 1 June 2007 and 28 November 2007. The names of the sponsors and co-sponsors for these academies are shown in the following table:

| *Academy* | *Sponsor* | *Co-sponsor* |
|---|---|---|
| Eastbourne Church of England Academy | Diocese of Durham and David and Anne Crossland | — |
| Bristol Brunel Academy | John Cabbot Academy Trust | — |
| Harris City Academy, Crystal Palace | CTC Trust/Harris Federation of South London Schools Trust | — |
| St. Michael and All Angels CofE | Southwark Diocesan Board of Education | TocH |
| St. Anne's Academy | The Manchester Diocese and David and Anne Crossland | — |
| Bacon's, A Church of England Sponsored Academy | CTC Trust, Southwark Diocesan Board of Education and the Phillip and Pauline Harris Charitable Trust | — |
| Shireland Collegiate Academy | Ormiston Trust and Shireland Learning | — |
| George Salter Collegiate Academy | Ormiston Trust and Shireland Learning | — |
| Cornwallis Academy | Cornwallis Online Learning | Kent CC |
| Marsh Academy | Microsoft and Tonbridge School | Kent CC |
| Swindon Academy | ULT | — |
| North Oxfordshire Academy | ULT | — |
| Havelock Academy | David Ross | — |
| New Line Learning Academy | Cornwallis Online Learning | Kent CC |
| John Cabot Academy | John Cabot CTC Trust | — |
| Walworth Academy | ARK | — |
| Evelyn Grace Academy | ARK | — |
| The Samworth Church Academy | David Samworth and Diocese of Southwell and Nottingham | — |
| New Charter Academy | New Charter Housing Trust | — |
| Q3 Academy | Grace Trust | — |
| The Globe Academy | ARK | — |
| Grace Academy | Bob Edmiston | — |
| Pennywell/Quarry View Academy | Gentoo Group | Sunderland CC |

| Nottingham University Samworth Academy | University of Nottingham and David Samworth | — |
| Milton Keynes | Edge Foundation | — |
| Castle View Academy | Northumbrian Water | Sunderland CC |
| Brooke Weston Academy | Brooke Weston CTC Trust | — |

## Children: Databases

**Tim Loughton:** To ask the Secretary of State for Children, Schools and Families what safeguards he plans to put in place to prevent unauthorised access to data held on ContactPoint. [170433]

**Kevin Brennan:** Security is, and always has been, of paramount importance to the ContactPoint project and we are mindful that the Data Protection Act 1988 requires that the level of technical and organisational security must be appropriate.

In relation to practitioner access to ContactPoint, I refer the hon. Member to the reply given on 3 December 2007, *Official Report*, columns 926-27W.

In relation to the storage and use of data, on Tuesday 20 November my right hon. Friend, the Secretary of State for Children, Schools and Families, asked the Department's Permanent Secretary to conduct an immediate assessment of how personal data are stored and protected in the Department. The Permanent Secretary reported back within 24 hours to confirm the Department is confident that we have very robust procedures in place. In light of the security breach at the HMRC, we are continuing to check our procedures to ensure standards are as high as they can be. On Wednesday 21 November, the Prime Minister confirmed this approach when he asked all Departments to check their procedures for the storage and use of data. Given the obvious importance of ensuring that ContactPoint has extremely robust security measures in place, on Tuesday 20 November, the Secretary of State also asked for an independent assessment of ContactPoint's security procedures. This will be conducted by Deloitte.

In line with best practice, ContactPoint will be routinely backed up. This will be done only by specifically identified system operators within Capgemini, with whom we have contracted for the build and initial host of ContactPoint. Two Capgemini staff will have to be present when back-ups take place. This dual control is considered best practice. The backup tapes will be encrypted, protected with a strong (complex) password and stored in a fire-proof safe in a secure room. The limited number of Capgemini staff who do have access to these data must have enhanced CRB clearance.

There is no facility that would allow users to copy personal identifiable information to a file, other than when files need to be backed up as indicated. The vast majority of users will only be able to view child data on the screen — they will not be able to extract files in a personally identifiable form. A very limited number of people will be able to extract identifiable data, one record at a time, from ContactPoint in order to meet legal requirements as set out in The Children Act 2004 Information Database (England) Regulations 2007, including responding to Subject Access Requests. There is a clear right under the Data Protection Act 1998 for children and young people (or their parents or carers when acting appropriately on their behalf) to have access to their information on ContactPoint and for it to be corrected if it is found to be inaccurate.

A very limited number of people in local authorities and the national ContactPoint team will be able to run reports to, for example, produce aggregated data or support data quality checks. These reports will be in an anonymised form and will not contain personally identifiable data. The only exception to this is a report produced to support local authorities in their duty to identify children who are missing education. The information provided in this report is restricted by regulations and can only contain child name, address, date of birth, unique identifying number, parent/carer contact details and the details of start and end dates for educational institutions attended by the child or young person.

## Delivery Services

**Mr. Carmichael:** To ask the Secretary of State for Children, Schools and Families which companies are under contract to his Department to provide mail services. [170161]

**Kevin Brennan:** The Department for Children, Schools and Families use the following postal companies to handle mail dispatched from its head office buildings: Royal Mail; Parcel Force; Copley Couriers; Central Dispatch Couriers.

## Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Children, Schools and Families on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before their transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations. [168249]

**Mr. Walker:** To ask the Secretary of State for Children, Schools and Families whether his Department's information technology and data management systems are BS7799 compliant. [168753]

**Mr. Vara:** To ask the Secretary of State for Children, Schools and Families on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years. [168820]

**Kevin Brennan:** I refer the hon. Members to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Land

**Mr. Drew:** To ask the Secretary of State for Children, Schools and Families what land surplus to his Department's requirements it is *(a)* selling, *(b)* leasing and *(c)* planning to (i) sell and (ii) lease; and what the size and name of each relevant site is. [168849]

**Kevin Brennan:** The Department for Children, Schools and Families has no land falling in these categories.

### Departmental Standards

**Mr. Hoban:** To ask the Secretary of State for Children, Schools and Families when he expects to publish his Department's autumn performance report. [164879]

**Kevin Brennan:** The Department published its autumn performance report on Friday 7 December 2007.

### Education Maintenance Allowance

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the cost of extending the education maintenance allowance to cover all provision approved by local authorities; [169183]

(2) how many young persons are on courses approved by local authorities which are not eligible for funding under the education maintenance allowance. [169165]

**Jim Knight:** Since 5 November 2007 the Learning and Skills Council (LSC) have been trialling a new definition of valid provision for the Education Maintenance Allowance (EMA). Local authority funded learning programmes that meet the criteria being trialled will become eligible for EMA during the trial period which will be up to 18 months.

The LSC estimate that around 2,000 extra learners could become eligible for EMA during the trial period at a cost of about £2 million a year. We do not know how many of those extra learners will be undertaking local authority approved courses. The LSC will be closely monitoring take up during the trial period and will undertake an evaluation of impact and cost to inform future policy decisions.

During the trials a young person will be able to apply for EMA provided:

> the programme of study is not less than twelve guided learning hours a week for a minimum of 10 weeks
>
> the provision is inspected by a public body that assures quality,

and is either:

> (i) funded or co-financed by the Learning and Skills Council in England;

or

> (ii) leads to a qualification that is accredited by the Qualifications and Curriculum Authority pursuant to section 24 of the Education Act 1997 (b);

or

> leads to a qualification that is approved by the Secretary of State pursuant to section 98 of the Learning and Skills Act 2000 (c).

### Education Maintenance Allowance: Young Offenders

**Nick Herbert:** To ask the Secretary of State for Children, Schools and Families if he will estimate the additional cost of allowing all children detained in young offenders' institutions the full rate of education maintenance allowance. [166584]

**Jim Knight:** Young people in custody are not eligible to receive education maintenance allowance. However, they can apply while they are in custody and their applications will be assessed in the same manner as those from children in local authority care, or foster care. This ensures that custodial staff can help young offenders apply as part of the resettlement process. EMA is only payable after the young person has been released from custody and begins a valid course with an approved provider.

### General Certificate of Secondary Education

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of persistent truants gained *(a)* fewer than five A* to C grades, *(b)* fewer than five A* to G grades and *(c)* no GCSEs in the latest period for which figures are available; [169146]

(2) how many and what proportion of pupils who were given a fixed period exclusion gained *(a)* fewer than five A* to C grades, *(b)* fewer than five A* to G grades and *(c)* no GCSEs in the latest period for which figures are available; [169147]

(3) how many and what proportion of pupils permanently excluded gained *(a)* fewer than five A* to G grades, *(b)* fewer than five A* to C grades and *(c)* no GCSEs in the latest period for which figures are available. [169148]

**Kevin Brennan:** The information can be provided only at disproportionate cost.

### Geronimo Communications

**Mr. Stewart Jackson:** To ask the Secretary of State for Children, Schools and Families what work was undertaken by Geronimo Communications in financial years *(a)* 2006-07 and *(b)* 2007-08 to date for his Department; and if he will make a statement. [168807]

**Kevin Brennan** *[holding answer 28 November 2007]*: Geronimo has provided media relations support within departmental information campaigns (often concentrating on local and regional media and specialist media outlets). While in some campaigns their contribution has worked alongside advertising, in many others it is the main plank of the campaign strategy.

The campaigns in which Geronimo has worked are as follows:

*2006-07*

Aim Higher
Attendance
London Challenge
City Academies

*2007-08*

Aim Higher
Children's Plan Consultation
Early Years Careers
Child Care and Early Learning
Extended Schools
London Challenge and City Challenge
Attendance
City Academies
Student Finance Fulfilment
Diplomas

The campaigns for 2007-08 include ones for the newly created Department for Universities, Innovation and Skills, where these relate to areas formerly the responsibility of the Department for Education and Skills.

## Head Teachers: Qualifications

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many candidates successfully completed the National Professional Qualification for Headship in each academic year since 2003-04; and if he will make a statement. [169793]

**Jim Knight:** The number of candidates who successfully completed the National Professional Qualification for Headship in each academic year since 2003/04 is as follows. The academic year 2007/08 is ongoing so the figure given is not complete.

| | *Number* |
|---|---|
| 2003/04 | 3,524 |
| 2004/05 | 4,101 |
| 2005/06 | 4,400 |
| 2006/07 | 4,354 |
| 2007/08 | 109 |

## Pupil Exclusions

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) how many primary school pupils received a *(a)* fixed period exclusion and *(b)* permanent exclusion in the last 12 months, broken down by (i) reason for exclusion and (ii) local authority; [169149]

(2) how many *(a)* permanent exclusions and *(b)* fixed term exclusions there were in primary schools in each of the last three years, broken down by (i) age of the child and (ii) reason for exclusion. [169185]

**Jim Knight:** Local authority level tables showing the number of permanent and fixed period exclusions by reason for 2003/04, 2004/05 and 2005/06 have been placed in the Library. The latest year for which data are available for primary schools is 2004/05. The tables include national and regional totals.

The readily available information on exclusions by age relates to pupils excluded from primary, secondary and special schools and is provided in the table:

*Maintained primary, secondary and special schools[1] [2]: Number of permanent and fixed period exclusions by age England, 2003/04 (estimates)[3] and 2004/05 (estimates)[3]*

| | *2003/04 (estimates)* | | *2004/05 (estimates)* | |
|---|---|---|---|---|
| | *Permanent exclusions* | *Fixed period exclusions* | *Permanent exclusions* | *Fixed period exclusions* |
| *Number of exclusions* | | | | |
| *Age[4]:* | | | | |
| 4 and under | 20 | 1,180 | 60 | 960 |
| 5 | 50 | 2,030 | 40 | 2,150 |
| 6 | 90 | 2,950 | 60 | 3,080 |
| 7 | 160 | 4,650 | 110 | 5,270 |
| 8 | 230 | 7,220 | 190 | 7,490 |
| 9 | 370 | 10,700 | 300 | 11,430 |
| 10 | 410 | 15,070 | 420 | 15,980 |
| 11 | 680 | 36,420 | 650 | 40,960 |
| 12 | 1,540 | 60,240 | 1,590 | 68,020 |
| 13 | 2,470 | 76,720 | 2,410 | 88,610 |
| 14 | 2,750 | 78,330 | 2,580 | 91,250 |
| 15 | 1,070 | 47,640 | 980 | 52,740 |
| 16 | 30 | 920 | 40 | 990 |
| 17 | 20 | 360 | 10 | 370 |
| 18 | * | 60 | * | 40 |
| 19 and over | * | 30 | 0 | 40 |
| Total[5] | 9,830 | 344,510 | 9,440 | 389,560 |
| *Percentage of school population[6]* | | | | |
| *Age[4]:* | | | | |
| 4 and under | 0.00 | 0.14 | 0.01 | 0.12 |
| 5 | 0.01 | 0.36 | 0.01 | 0.38 |
| 6 | 0.02 | 0.50 | 0.01 | 0.54 |
| 7 | 0.03 | 0.81 | 0.02 | 0.90 |
| 8 | 0.04 | 1.24 | 0.03 | 1.31 |

| 11 | 0.11 | 6.03 | 0.11 | 7.04 |
| 12 | 0.25 | 9.89 | 0.26 | 11.26 |
| 13 | 0.41 | 12.74 | 0.40 | 14.59 |
| 14 | 0.46 | 13.26 | 0.43 | 15.22 |
| 15 | 0.18 | 8.11 | 0.17 | 9.09 |
| 16 | 0.01 | 0.49 | 0.02 | 0.51 |
| 17 | 0.01 | 0.25 | 0.01 | 0.25 |
| 18 | * | 0.40 | * | 0.31 |
| 19 and over | * | 3.49 | 0.00 | 3.21 |
| Total[5] | 0.13 | 4.49 | 0.12 | 5.12 |

* = Less than 5, or a rate based on less than 5.

[1] Includes middle schools as deemed.

[2] For permanent exclusions includes both maintained and non-maintained special schools. For fixed period exclusions excludes non-maintained special schools.

[3] Figures relating to permanent exclusions are estimates based on incomplete pupil-level data.

[4] Age as at 31 August 2003 and as at 31 August 2004.

[5] There were 17 permanent exclusions for which gender is unclassified as well as 140 fixed period exclusions of boys and 41 fixed period exclusions of girls for whom age was not known—these were included in the 'total' column only.

[6] The number of exclusions expressed as a percentage of the number (headcount) of pupils of each age in primary, secondary and special schools (excluding dually registered pupils in special schools) in January each year.

*Note:*

Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

*Source:*

Schools Census and Termly Exclusions Survey

### Pupils: Assessments

**Mr. Andrew Turner:** To ask the Secretary of State for Children, Schools and Families what percentage of schools in *(a)* England and *(b)* the Isle of Wight Council area permit pupils to take Key Stage 3 tests in (i) year eight and (ii) years eight and nine. [165033]

**Jim Knight** *[holding answer 19 November 2007]:* Information is not available in the format requested. Head teachers of maintained schools are required to enter pupils for Key Stage 3 tests in the school year in which they complete the relevant National Curriculum programmes of study. Each pupil may take each test only once. Most such pupils are in year nine but others take the Key Stage 3 tests in an earlier or later year, for example in year eight where their school delivers a two-year Key Stage 3 programme for some or all of its pupils.

### Rosemellin Community Interest Company

**Julia Goldsworthy:** To ask the Secretary of State for Children, Schools and Families what correspondence his Department has had with the Rosemellin Community Interest Company on their proposals to meet community needs with a one stop shop facility; if he will place in the Library copies of that correspondence; and if he will make a statement. [169317]

**Kevin Brennan** *[holding answer 29 November 2007]:* This Department received a letter, and a booklet, from the Rosemellin Community Interest Co. on 6 November, 2007. Officials will be responding in due course. A copy will, of course, be sent to the House of Commons Library as requested.

### School Leaving

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families what his latest estimate is of the cost of implementing the proposed raising of the school participation age to 18 years. [169161]

**Jim Knight:** The estimated costs of raising the participation age were set out in the initial regulatory impact assessment published alongside the Green Paper on 22 March 2007. Annual costs were estimated at around £700 million per cohort of young people, but recurring annual benefits were around £1,400 million. This can be accessed at:

http://www.dfes.gov.uk/consultations/downloadableDocs/RIA%20[FINAL]%20word%20version.pdf

and I have placed a copy in the Library of the House.

These projections have been updated, and revised figures will feature in the regulatory impact assessment that was published alongside the Bill. This was placed in the Library of the House on 29 November.

### Schools: Crime

**Tom Brake:** To ask the Secretary of State for Children, Schools and Families how many students in each London borough were charged with a criminal offence for incidents that took place *(a)* in educational institutions and *(b)* on school property in each of the last five years. [169232]

**Jim Knight:** The information requested is not collected centrally.

### Schools: Transport

**Dan Rogerson:** To ask the Secretary of State for Children, Schools and Families what consideration he has given to the funding of free transport to enable students over the age of 16 to reach schools and colleges if the school leaving age is raised to 18. [170526]

**Jim Knight:** We will be looking very carefully at the structure of financial support to ensure that it continues to be as effective as possible in the context of the raised participation age, including support for transport and other learning-related costs.

### Specialised Diplomas

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how much his Department has paid to consultants looking into the implementation of the new diplomas. [169167]

**Kevin Brennan:** Between April 2006 and November 2007, the Department has paid £2.52 million to consultants for advice and support on the implementation of diplomas.

## WORK AND PENSIONS

### Child Support Agency: Manpower

**Jim Cousins:** To ask the Secretary of State for Work and Pensions how many whole-time equivalent staff were employed by the Child Support Agency *(a)* in each region and *(b)* in Newcastle and North Tyneside (i) in 2005-06, (ii) in 2006-07 and (iii) on the most recent date for which figures are available; and how many are expected to transfer to the Agency's successor organisation in 2008. [168860]

**Mr. Plaskitt:** The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty dated 11 December 2007:*

In reply to your recent parliamentary question about the child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and pensions, how many whole-time equivalent staff were employed by the Child Support Agency *(a)* in each region and *(b)* in Newcastle and north Tyneside (i) in 2005-06 in 2006-07 and (iii) on the most recent date for which figures are available; and how many are expected to transfer to the Agency's successor organisation in 2008. [168860]

The total number of people employed by Government office Region is provide in the attached Table 1, and the number employed in Newcastle and North Tyneside is attached in Table

2. Figures are based on the Office of national Statistics (ONS) standard, for use in the calculation of all public sector employment statistics.

All people who carry out functions of the Child Support Agency in Great Britain will move to the Child Maintenance and Enforcement Commission, at the same time as the functions of the Agency are transferred.

I hope you find this answer helpful.

*Table 1: Child Support Agency people in post (whole time equivalent) by Government Office Region 2005-06 and 2006-07*

| *Counting methodology* | *Office of national Statistics (ONS)* | | *ONS* |
|---|---|---|---|
| *Government Office Region* | *March 2006* | *March 2007* | *October 2007* |
| East Midlands | 187 | 139 | 115 |
| Eastern | 439 | 336 | 355 |
| London | 68 | 115 | 93 |
| North East | 1,303 | 1,652 | 1,590 |
| North West | 2,318 | 2,422 | 2,177 |
| Scotland | 1,718 | 1,746 | 1,591 |
| South East | 1,187 | 1,267 | 1,113 |
| South West | 1,750 | 1,601 | 1,442 |
| Wales | 125 | 126 | 118 |
| West Midlands | 1,544 | 1,458 | 1,323 |
| Yorkshire and Humberside | 395 | 362 | 331 |
| Grand total | 11,034 | 11,225 | 10,248 |

Notes:

1. The Office of National Statistics standard has been used from November 2005.

2. The North West Government office Region includes Merseyside.

*Table 1: Child Support Agency people in post for Newcastle and North Tyneside (whole time equivalent) 2005-06 and 2006-07*

| *Counting methodology* | *Office of national Statistics (ONS)* | | *ONS* |
|---|---|---|---|
| | *March 2006* | *March 2007* | *October 2007* |
| *North East* | | | |
| Newcastle and North Tyneside | 965.65 | 1,154.24 | 1,135.68 |

Notes:

1. The Office of National Statistics standard has been used from November 2005.

## Conditions of Employment: Mental Health

**Mr. Harper:** To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on mental health and employment, how many advice and support services for employers he will pilot; where each will be based; when he expects each to start; and if he will make a statement. [169959]

**Mrs. McGuire:** On 27 November we announced our intention to pilot a new advice and support service for employers, in particular smaller businesses, to help them in managing and supporting people with mental health conditions to remain in or return to work.

We will be developing detailed proposals for the scope and delivery mechanisms of these pilots over the coming months, working closely with employers and their representative organisations to ensure that the pilot service best meets the needs of business.

**Mr. Harper:** To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on Mental health and employment, how many Pathways Advisory Service pilots there are; where each is based; and where subsequent pilots will be located. [169960]

**Caroline Flint:** The current Pathways Advisory Service is a small scale pilot to test the impact of delivering an outreach service in health settings. The pilot is currently based in six Jobcentre Plus districts: Highlands and Islands; Clyde Coast and Grampian; Gateshead and South Tyneside; Bridgend, Rhondda, Cynon Taff; East Lancashire; and Somerset.

We are planning to expand the scope of the pilots to ensure that we gain robust evidence and learn as much as possible about the impact that joint working in this way can achieve. We are still considering the exact plans for implementation of this expansion, which will have a particular focus on supporting people with mental health problems.

## Departmental Aviation

**Mr. Hayes:** To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171251]

**Mrs. McGuire:** Between November 2006 and October 2007, the Department for Work and Pensions spent £554,605 on business class air travel and £7,653 on first class flights.

## Departmental Cost Effectiveness

**Mr. Philip Hammond:** To ask the Secretary of State for Work and Pensions how much of the £960 million in efficiency savings that his Department is projected to make under the spending review 2004 efficiency review is cashable. [169506]

**Mrs. McGuire:** The Department for Work and Pensions' efficiency target for spending review 2004 is that at least half of the £960 million efficiency savings must be cash releasing. By September 2007, annual cash releasing savings of £952 million had been achieved.

## Departmental Postal Services

**Mr. Hayes:** To ask the Secretary of State for Work and Pensions how many items of post sent by his Department and its predecessor were reported missing by the intended recipient in each year since 1997. [171292]

**Mrs. McGuire:** DWP dispatches some 200 million items of mail per year to its customers via documented and undocumented postal services from its individual businesses, offices and processing centres. The information requested is not held centrally and to provide it would be at a disproportionate cost.

## Departmental Responsibilities

**Danny Alexander:** To ask the Secretary of State for Work and Pensions what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department is (i) responsible for and (ii) scheduled to implement; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [171788]

**Mrs. McGuire:** The information is not held centrally and could be obtained only at a disproportionate cost.

## Departmental Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions what information his Department collects and monitors in relation to the telephone contact centres for which his Department is responsible. [166523]

**Mrs. McGuire:** The following lists provide examples of the range of measures collected by the Departments Contact Centres.

In addition Business units collect a vast amount of individual pieces of information at various levels (individual, team, command, business unit, etc.) and by frequency. To obtain and list each individual piece of information would incur disproportionate costs.

The Department monitors the effectiveness of its contact centres through a scorecard that measures performance across a balanced range of measures. Performance is reported on a monthly basis to the Department's Contact Centre Advisory Team and, each quarter, to the DWP Planning, Performance and Risk Committee. Performance is also monitored by the Contact Centre Performance Working Group whose remit is to: understand and improve performance; identify common performance pressure points, share good practice; and support common performance improvement initiatives.

In addition, each Business Unit employs a range of performance management measures and tools to monitor the effectiveness of its centres which, for example, include: real time and historic performance measurement; mystery shopping; and the reviewing of the performance of individual agents.

The Department also now reports on the performance of its contact centres to the Contact Council established following Sir David Varney's recommendations in his report "Service transformation: A better service for citizens and businesses, a better deal for the taxpayer".

Examples of measures currently reported into the DWP Contact Centre Scorecard and Cabinet Office are:

Percentage Demand Forecast Accuracy
Percentage Calls Answered by Agents
Percentage Service Level
Percentage Agent Utilisation
Average Speed of Answer
Percentage Calls Blocked and Failed
Absence Levels
Staff Attrition
Cost per Contact Minute
Budget Tolerance
Percentage Staff Satisfaction and Engagement
Percentage Scheduled Adherence
Seat Utilisation

In addition to the aforementioned measures individual business units employ a range of performance management measures and tools to monitor the effectiveness of its centres. Examples listed as follows:

Telephone based customer surveys
Call quality assessment
Side by side and remote call listening
Monthly report on complaints and praise received
Mystery Shopping
Exit interviews
Claims Received (The Pension Service)
Claims Processed (The Pension Service)
Percentage Accuracy (The Pension Service)
Changes Received (The Pension Service)
Changes Processed (The Pension Service)
Real Time Monitoring
Average Wait Time
Average Call Handling Time

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions how much each telephone contact centre for which his Department is responsible has *(a)* cost and *(b)* generated in income in each financial year since their establishment. [166524]

**Mrs. McGuire:** The information is as follows.

*(a)* The information requested on how much each contact centre costs is shown in the following table.

*(b)* DWP Contact Centres do not generate income. However, the Department's use of 0845 numbers does attract a small rebate from BT and has been running at approximately £0.5 million per annum which is offset against DWP telephony costs. Obtaining the rebate information by individual site and for the period requested would incur disproportionate costs.

[1] Costs include staff and non-staff costs (excluding estates and IS/IT).
[2] Costs for DCS Customer Services Group (includes non contact centre costs).
[3] Costs combined for Benefit Enquiry Line and DLA/AA Helpline.
[4] Costs up to October 2007 ytd.
[5] Costs not available by individual site. The total administrative expenditure of the agency is disclosed each year in the annual report and accounts.
[6] Costs include staff and non-staff costs including IS/IT, estates, contracts and recharges. 2006-07 post and stationery costs managed from central budget.
[7] Costs include staff and non staff costs (excluding estates and other centrally held budgets).
[8] Costs include staff, non-staff costs, estates and IS/ IT.
[9] Full years forecast costs for 2007-08.

## Housing: Low Incomes

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how much his Department has spent on *(a)* advice on and *(b)* overall implementation of local housing allowance in the nine pathfinder areas. [169088]

**Mr. Plaskitt:** The Department has paid out around £9.7 million for the overall implementation of the local housing allowance in the nine pathfinder authority areas. This money was for a range of implementation activity. The payments were made at regular intervals to the pathfinder authorities and included funds for money management advice, IT costs, training, communications and advertising.

It is not possible to provide a breakdown of expenditure by each activity.

## Jobcentre Plus: Applications

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions what the average time taken for Jobcentre Plus to process applications for crisis loans and community care grants was in each of the last five years, broken down by outcome of application. [173402]

**Mr. Plaskitt:** I refer the hon. Member to the answer I gave to her on 3 December 2007, *Official Report*, columns 883-84W, for information on average clearance times. We are not able to break down the average clearance times by outcome.

## Jobcentre Plus: Telephones

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions what estimate he has made of the number of calls received from a mobile telephone by *(a)* the Social Fund and *(b)* Jobcentre Plus in the latest period for which figures are available; and what proportion of the total number of calls received this represented in each case. [173401]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

*Letter from Mel Groves, dated 11 December 2007:*

The Secretary of State has asked Lesley Strathie to reply to your question asking what estimate he has made of the number of calls received from a mobile phone by *(a)* Social Fund *(b)* Jobcentre Plus in the latest period for which figures are available; and what proportion of the total number of calls received this represented in each case. This is something which falls within the responsibilities delegated to Ms Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

Jobcentre Plus is unable to establish the origin of each call received through any of our telephones. Our telephony systems do not record if a customer's call is made from a land line or mobile phone.

I hope this is helpful.

## Jobseeker's Allowance: Lone Parents

**Ms Buck:** To ask the Secretary of State for Work and Pensions if he will make an assessment of the suitability of the procedures for jobseeker's allowance for lone parents; and if he will make a statement. [170680]

**Mr. Plaskitt:** There are already a number of lone parents who are claiming Jobseeker's Allowance (JSA) rather than Income Support who are able to meet the conditions for receipt of JSA and make use of the help available to get back to work.

JSA conditions already have flexibilities with the necessary scope to allow carers, including lone parents, to tailor their availability for work to suit their personal circumstances. These include: changing their pattern of availability during school holidays; limiting availability to a minimum of 16 hours and; being treated as available and actively seeking work if there is a domestic emergency. Each case is judged on its own merit and all the available evidence is considered in reaching a decision. However, these flexibilities are subject to them having a reasonable prospect of finding work and being available for work for at least 16 hours a week.

The impact of these measures and how they can best be tailored to lone parents, were considered in our Green Paper 'In work, better off: next steps to full employment' and in the subsequent consultation on its proposals. We will be responding to these in our Green Paper response.

## Local Authorities: Equal Opportunities

**Mr. Harper:** To ask the Secretary of State for Work and Pensions what guidance his Department issued to local authorities on the provision of access to disability information services for disabled people. [162800]

**Mrs. McGuire:** Within my Department the Office for Disability Issues has been working with central and local government and disability organisations to look at how disabled people get information about public services, what they think of it, and how access to that information can be improved.

Two reports were published earlier this year as a result of the project's work, aimed at communicators and practitioners. One, 'Improving Information for Disabled People' summarised the progress that had been made and the other, 'Five principles for producing better information for disabled people' set out the five core information principles that have been identified 'as essential to make sure that services and information are designed and delivered to a high standard.'

The project is continuing to work in partnership with four local authority-led projects in England, Cheshire, North Tyneside, Surrey and Croydon, aimed at improving provision of services locally.

### Departmental Relocation

**Chris Grayling:** To ask the Secretary of State for Work and Pensions what relocations are planned by his Department over the next two years; what the current locations of those posts are; and where they are being relocated to. [168961]

**Mrs. McGuire:** In line with its commitment to the Lyons Review of Public Sector Relocation, as at 31 October 2007 (latest data available) the Department for Work and Pensions had relocated a total of 3,992 full-time equivalent posts from London and the south-east to other parts of the United Kingdom. A further 28 full-time equivalent relocations are planned over the next two years. Details of the planned relocations are set out in the following table.

| *Current Location* | *New Location* | *Number of Posts* |
|---|---|---|
| London North East | Bridgend | 17 |
| Hastings | Halifax | 7 |
| Aldershot, Newport and Portsmouth | Derby | 12 |
| London South | Taunton | 7 |
| Kent | Derby | 2 |

### New Deal for Long Term Unemployed: Employment

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many of the entrants to the New Deal 25 plus found sustained employment during *(a)* the four month Gateway Period and *(b)* the period of activity on mandatory options in each year since the inception of the programme; and what percentage of those engaged in each option found sustained employment. [162677]

**Caroline Flint:** New Deal 25 plus is mandatory for people aged 25 and over who have claimed jobseeker's allowance (JSA) for 18 out of the last 21 months. Participants enter a Gateway of intensive job search and specialist help to improve job prospects which lasts for a maximum of 16 weeks.

Those still claiming JSA at the end of the Gateway take part in the Intensive Activity Period (IAP). This lasts for a minimum of 13 weeks and is designed to give people the skills and experience they need to move into work. IAP provision includes basic employability training, self-employment support, education and training opportunities, and flexible packages of support, which can combine work experience or placements, work-focused training and help with motivation and soft skills. Those still unemployed at the end of the IAP period are referred to the Follow-Through phase of the programme.

The available information requested has been placed in the Library.

### New Deal for Young People: Peterborough

**Mr. Stewart Jackson:** To ask the Secretary of State for Work and Pensions how many individuals who participated in new deal for young people in the Peterborough constituency were not in either full-time or part-time work 12 months after completing the scheme in each year since 1998; and if he will make a statement. [170604]

**Caroline Flint** *[holding answer 4 December 2007]*: Information is not available on how many individuals who participated in new deal for young people in the Peterborough constituency were not in either full-time or part-time work 12 months after completing the scheme in each year since 1998.

The available information on the immediate destination of leavers from new deal for young people in the Peterborough constituency is in the following tables.

*New deal for young people—immediate destination on leaving. Peterborough parliamentary constituency*

*Number*

| | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* | *Total* |
|---|---|---|---|---|---|---|---|---|---|---|
| Sustained employment | 70 | 200 | 170 | 140 | 170 | 180 | 120 | 120 | 140 | 1,390 |
| Employment and benefits | 0 | 20 | 20 | 10 | 20 | 10 | 10 | 10 | 0 | 100 |
| Jobseeker's allowance | 10 | 30 | 40 | 40 | 20 | 30 | 20 | 30 | 30 | 270 |
| Income support | 0 | 20 | 10 | 10 | 10 | 10 | 10 | 0 | 10 | 90 |
| Incapacity benefit | 0 | 10 | 10 | 10 | 10 | 10 | 10 | 0 | 10 | 70 |
| Income support and incapacity benefit | 10 | 30 | 20 | 30 | 30 | 20 | 20 | 20 | 30 | 210 |
| Benefits—other/unknown benefits | 10 | 10 | 10 | 10 | 0 | 10 | 10 | 10 | 10 | 90 |
| Other known | 10 | 20 | 10 | 20 | 10 | 20 | 20 | 20 | 10 | 160 |
| Off benefits/unknown | 40 | 90 | 100 | 90 | 120 | 130 | 110 | 110 | 140 | 1,010 |
| Total | 150 | 430 | 390 | 360 | 390 | 420 | 330 | 340 | 380 | 3,400 |

*Notes*:
1. Latest complete year data are 2006.
2. Immediate destination is measured within two weeks of leaving new deal, using information from the Work and Pensions longitudinal study (WPLS).
3. People recorded as leaving to Employment and Benefits have evidence of both employment and an active benefit.
4. Figures are in thousands and rounded to the nearest 10.

### New Deal Schemes

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions what proportion of those leaving *(a)* the New Deal for Young People, *(b)* New Deal 25 plus and *(c)* the New Deal for Lone Parents have entered unsubsidised, sustained employment in each year since the inception of these schemes. [162356]

**Caroline Flint:** The available information has been placed in the Library.

### Pensions

**Mr. Drew:** To ask the Secretary of State for Work and Pensions (1) for what reasons the Government's response to the Deregulatory Review of Private Pensions recommended the introduction of a statutory override to allow schemes to implement the Pensions Act 2004 changes which reduced the limited price indexation cap from five per cent. to 2.5 per cent.; and if he will place in the Library the advice he received on this matter; [163647]

(2) for what reasons the Government's response to the Deregulatory Review of Private Pensions recommended the reduction of the cap for revaluation of deferred rights from five per cent. to 2.5 per cent.; and if he will place in the Library the advice he received on this matter. [163648]

**Mr. Mike O'Brien:** Introducing a statutory override of scheme rules in relation to the change in the cap on indexation for future rights, and a reduction in the cap on revaluation from 5 per cent. to 2.5 per cent. for future rights, together with the other measures outlined in the Government response, aims to help employers to keep defined benefit schemes open, to the benefit of scheme members. The Government response seeks views on those proposals accordingly.

The Government carefully considered the areas where deregulation would be of most benefit to good quality defined benefit schemes, while bearing in mind the need to balance any changes to legislation with protection for members. It accepted the reviewers' important recommendation that no changes should be made to rights which have already been built up.

The issues on the proposed statutory override and change to the revaluation cap are fully set out in the reviewers' report and the Government response. Copies of the report and response have been placed in the Library of the House.

### Social Security Benefits: Chronic Fatigue Syndrome

**Bob Russell:** To ask the Secretary of State for Work and Pensions what medical assessments are made of people who apply for benefits following a diagnosis of chronic fatigue syndrome or myalgic encephalomyelitis; and if he will make a statement. [167739]

**Mrs. McGuire:** Entitlement to disability or sickness related benefits is decided in the same way for people with chronic fatigue syndrome or myalgic encephalomyelitis as for other conditions. Assessments are based on the effects of the condition on each person's physical and mental function or their care or mobility needs.

For claimants of incapacity benefits, the Personal Capability Assessment is applied from the outset of the claim to people who have not recently been working in a regular occupation and to all other claims after 28 weeks of incapacity. For claimants of disability living allowance or attendance allowance, a medical examination would only take place if the decision maker feels that it is necessary.

### Social Security Benefits: Overseas Residence

**Chris Grayling:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of the use of overseas mail clearing services for his Department's post to overseas benefits recipients on the time taken for letters to be delivered to those recipients. [171797]

**Mrs. McGuire:** DWP's international mail is collected daily from DWP benefit processing output centres and is sorted into EU, Non-EU and Rest Of World destinations for despatch via air.

The mail is then handed to the National Postal Authority (in which the recipient lives) for final delivery via an undocumented service. All mail travels as 'Priority' which is equivalent to a first class service.

Average Transit times are:

Rest of World countries: seven to 10 days.

European Countries: five to seven days.

The factors which have adversely affected a country's transit time include: Weather (flood, snowfall etc.), political and civil unrest, flight delay affected by weather etc.

Regular contact between DWP and Spring Global Mail (our international mail providers) establishes any service failures and investigate as appropriate to indicate whether there are problems affecting delivery to certain countries.

### Single Equality Bill

**Mr. Harper:** To ask the Secretary of State for Work and Pensions what discussions he has had with the Minister for Equality, the hon. Member for Stevenage (Barbara Follett) on proposals for a Single Equality Bill. [170005]

**Mrs. McGuire** *[holding answer 3 December 2007]:* I have regular discussions with ministerial colleagues on a range of issues.

## HOME DEPARTMENT

### Antisocial Behaviour Disorders

**Mr. Hoban:** To ask the Secretary of State for the Home Department what programmes designed to combat anti-social behaviour are administered by her Department; and what the budget for each was for the last five years for which figures are available. [164797]

**Mr. Coaker:** Since 2003-04, the Home Office has made £34.4 million available in each year specifically and solely to tackle antisocial behaviour. This includes funding for the Respect programme, which is now the responsibility of the Department for Children, Schools and Families, and a grant for antisocial behaviour co-ordinators.

In 2005-06, in England the antisocial co-ordinators grant was pooled within the safer and stronger communities fund. This pooled budget supports the delivery of outcomes contained in local area agreements (LAAs). All LAAs include for this year (2007-08) mandatory outcomes and indicators relating to antisocial behaviour.

There are many funding streams that impact on antisocial behaviour. A more detailed account can be found in the report by the National Audit Office "Tackling Anti-Social Behaviour" (HC99 2006-07, December 2006). Other Home Office led activities also act to tackle antisocial behaviour, for example the introduction of community support officers, but a monetary value cannot be assigned to that contribution. Similarly, other Government Departments fund services that directly bear upon antisocial behaviour. For example the Crown Prosecution Service provides a network of specialist antisocial behaviour prosecutors, and Her Majesty's Court Service provides specialist antisocial behaviour response courts. There are many other programmes and services that contribute, sometimes indirectly, to tackling antisocial behaviour, including diversionary activities for young people, action against enviro-crime such as fly-tipping, neighbourhood wardens, as well as neighbourhood policing and neighbourhood management. A more detailed account can be found in the report of, and evidence to, the Home Affairs Select Committee's report on anti-social behaviour (Fifth Report, Session 2004-05, HC80).

### Antisocial Behaviour Orders

**Mr. Quentin Davies:** To ask the Secretary of State for the Home Department (1) how many anti-social behaviour orders were issued in Lincolnshire in the last 12 months for which figures are available; [162963]

(2) how many anti-social behaviour orders were issued in England and Wales in the last 12 months for which figures are available. [162965]

**Mr. Coaker:** The number of antisocial behaviour orders (ASBOs) issued at all courts in England and Wales from January to December 2005 (latest available) is 4,060.

The number of antisocial behaviour orders issued at all courts in the Lincolnshire criminal justice system area from January to December 2005 (latest available) is 20.

**Mr. Henderson:** To ask the Secretary of State for the Home Department how many anti-social behaviour orders were made in the City of Newcastle-upon-Tyne in each year since their introduction. [172757]

**Mr. Coaker:** The number of antisocial behaviour orders issued in each year where the prohibitions specify an area within the city of Newcastle upon Tyne is shown in the table.

*Number of ASBOs issued at all courts, as reported to the Home Office by the Court Service, by period and where restrictions are imposed within the local authority area of the city of Newcastle upon Tyne, up to 31 December 2005*[1]

| | *1 June 2000 to 31 December 2000* | *1 January 2001 to 31 December 2001* | *1 June 2002 to 31 December 2002* | *1 January 2003 to 31 December 2003* | *1 January 2004 to 31 December 2004* | *1 January 2005 to 31 December 2005* | *1 June 2000 to 31 December 2005* |
|---|---|---|---|---|---|---|---|
| City of Newcastle upon Tyne | — | 4 | 4 | 4 | 12 | 34 | 58 |

[1] Between 1 April 1999 to 31 May 2000 data were collected on aggregate numbers only by police force area (pfa).

*Notes:*

1. This local authority area table differs from criminal justice system area (cjsa) tables in that an issuing court can be outside the area in which the restrictions have been imposed. For example, an issuing court may be in Hampshire (cjsa) but restrictions apply solely to a local authority area within Dorset.
2. Previously issued data have been revised following joint Home Office/Court Service data reconciliation exercises.
3. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

*Source:*

RDS-OCJR

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many *(a)* anti-social behaviour orders and *(b)* acceptable behaviour contracts were (i) breached and (ii) breached leading to a conviction in each police force area in each year for which figures are available; [172872]

(2) how many *(a)* anti-social behaviour orders and *(b)* acceptable behaviour contracts were issued by each police force in each year for which figures are available. [172858]

**Mr. Coaker:** Data on acceptable behaviour contracts (ABCs) are not collected by the Home Office as they are voluntary agreements and therefore not suitable for central data collection. However, surveys carried out by the Respect Task Force of the Crime and Disorder Reduction Partnerships (CDRPs) indicated that over 25,000 ABCs have been made since October 2003.

Antisocial behaviour orders are issued by the courts. Statistics on breaches of antisocial behaviour order are collected centrally only where the breach has been proven in court. Criminal justice system (CJS) areas are coterminous with police force areas. The available information is shown in the tables.

*Number of ASBOs proven in court to have been breached at least once between 1 June 2000 and 31 December 2005 by CJS area*[1]

| *CJS area* | *Number breached* |
|---|---|
| Avon and Somerset | 103 |
| Bedfordshire | 32 |
| Cambridgeshire | 34 |
| Cheshire | 90 |
| Cleveland | 74 |
| Cumbria | 68 |
| Derbyshire | 51 |
| Devon and Cornwall | 53 |
| Dorset | 51 |
| Durham | 71 |
| Dyfed Powys | 16 |
| Essex | 81 |
| Gloucestershire | 41 |
| Greater London | 463 |
| Greater Manchester | 686 |
| Gwent | 46 |
| Hampshire | 133 |
| Hertfordshire | 54 |
| Humberside | 100 |
| Kent[2] | 22 |
| Lancashire | 176 |

## Antisocial Behaviour Orders: Children

**Mr. Hoban:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders were issued in respect of 10 to 17-year-olds for the longest period for which figures are available, broken down by local authority area. [164779]

**Mr. Coaker:** The information is available at Criminal Justice System Area level only. Annual data from April 1999 to 31 December 2005 (latest available), are given in the table.

[1] No age details available for the period April 1999 to May 2000.

*Notes:*

1. Previously issued data have been revised following joint Home Office/Court Service data reconciliation exercises.

2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used. Prepared by RDS-OCJR.

## Asylum: Sleeping Rough

**Mr. Frank Field:** To ask the Secretary of State for the Home Department what recent representations she has received on the number of asylum seekers living on the streets. [163634]

**Mr. Byrne** *[holding answer 13 November 2007]:* The information requested is not collated and could be obtained only at disproportionate cost.

## British Nationality

**Mark Pritchard:** To ask the Secretary of State for the Home Department whether she plans to extend the time period before non-UK citizens resident in the United Kingdom can apply for naturalisation. [162038]

**Mr. Byrne:** We keep under continuing review all relevant periods for qualification for entry into the UK, settlement, and naturalisation.

### Chinese Community: Greater London

**Mr. Dismore:** To ask the Secretary of State for the Home Department what steps she is taking to work with Chinatown employers on the issue of migrant workers; and if she will make a statement. [162699]

**Mr. Byrne:** The Border and Immigration Agency is working with the Chinese community and has agreed to hold workshops to inform local employers on their legal responsibilities when employing migrant workers.

### Databases: Genetics

**Mr. Amess:** To ask the Secretary of State for the Home Department what recent meetings she has had with the Director of Public Prosecutions on *(a)* terrorism and *(b)* an increase of the 28 days maximum pre-charge detention of suspected terrorists; what the (i) location and (ii) duration of each meeting was; whether a record of each meeting was kept; who attended each meeting; what the cost was of each meeting, broken down by (A) administrative costs and (B) other costs; and if she will make a statement. [169432]

**Mr. McNulty:** Ministers have not met the Director of Public Prosecutions recently on terrorism-related issues. However, we have undertaken an extensive consultation on proposals for forthcoming counter-terrorism legislation, including extending the maximum period of pre-charge detention for terrorist suspects, and this approach has been widely welcomed. The Director of Public Prosecutions has been involved in discussions at official level on this issue.

### Departmental Manpower

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many civil servants in her Department *(a)* transferred to other Government departments and *(b)* left the Civil Service in each of the last five years. [162736]

**Mr. Byrne:** I refer the hon. Member to the answer given to her by the Exchequer Secretary to the Treasury, my hon. Friend the Member for Wallasey (Angela Eagle) on 13 November 2007, *Official Report*, column 203W.

**Mr. Walker:** To ask the Secretary of State for the Home Department what the full-time equivalent headcount in her Department is; what the forecast full-time equivalent headcount for her Department is for *(a)* 2008-09 and *(b)* 2009-10; and if she will make a statement. [163974]

**Mr. Byrne:** The number of staff in the Home Office is published in the quarterly Public Sector Employment report at:

www.statistics.gov.uk/pdfdir/pse0907.pdf

The Home Office is unable to provide information on projected staff figures for 2008-09 and 2009-10. The Department has yet to finalise work force forward projections.

**Danny Alexander:** To ask the Secretary of State for the Home Department how many people aged *(a)* 30 to 39, *(b)* 40 to 49, *(c)* 50 to 59 and *(d)* 60 to 69 years have (i) applied for jobs, (ii) received interviews and (iii) gained (A) temporary and (B) permanent jobs in her Department in 2007. [165121]

**Mr. Byrne:** The Home Office, which includes the Border and Immigration Agency, Identity and Passport Service and the Criminal Records Bureau, does not hold the information requested. Applicants for employment are asked but not required to provide this information.

### Departmental Public Expenditure

**Mr. Hoban:** To ask the Secretary of State for the Home Department which agencies and programmes in her Department will have a real terms reduction in their budget in 2008-09 arising out of the conclusions of the comprehensive spending review. [164787]

**Mr. Byrne:** The Home Office budget for 2008-09 to 2010-11 was settled in the Budget of 2006 and maintained expenditure in real terms over this period. The subsequent 2007 comprehensive spending review allocated additional resource of over £220 million per year to 2010-11 for counter-terrorism and security—taking real growth in the Department's total budget to over 1 per cent. per year over the CSR 07 period.

Budget allocations for 2008-09 onwards are currently under discussion and have not yet been delegated to individual directorates, agencies or programmes at this time.

The provisional police funding settlement for the CSR years will be announced in early December as in previous years.

### Departments: Official Hospitality

**David Simpson:** To ask the Secretary of State for the Home Department if she will break down the figures referred to in the answer of 29 October 2007, *Official Report*, column 9233W, on Departments: official hospitality, to give the amounts spent on each function at which hospitality expenses were incurred. [162191]

**Mr. Byrne:** A breakdown of the figures, given in the answer of 29 October, 2007, could not be provided without incurring disproportionate cost.

### Deportation

**Mr. Garnier:** To ask the Secretary of State for the Home Department how many *(a)* foreign nationals and *(b)* foreign national prisoners were (i) deported or removed and (ii) informed that they were not subject to deportation or removal proceedings after receiving a non-custodial sentence in each year since 1997. [163708]

**Mr. Byrne:** The information requested can be obtained only through the detailed examination of individual case records at disproportionate cost. The chief executive of the Border and Immigration Agency has written regularly to the Home Affairs Committee over the past 18 months providing the most robust and accurate data relating to foreign national prisoners. Copies of this correspondence are available in the Library of the House.

### Entry Clearances: Employment

**Mr. Clappison:** To ask the Secretary of State for the Home Department what employment-related schemes there are under which non-EU citizens are able to obtain *(a)* leave to enter or *(b)* leave to remain in the UK; and how many non-EU citizens have obtained such leave since (i) 1997 and (ii) 2004, broken down by scheme. [162141]

**Mr. Byrne:** The main employment routes available to non-EU nationals are listed as follows.

Au Pairs Business Persons
Domestic Workers in Private Households
Fresh Talent Working in Scotland Scheme (FTWISS) Gap Year Students Highly Skilled Migrant Programme (HSMP)
Innovator
International Graduate Scheme
Investor
Sole Representative
Japan Youth Exchange Minister of Religion
Overseas Government Employee
Representative of Overseas Newspapers
UK Ancestry
Working
Work Permit

In addition to these there are a number of smaller infrequently utilised employment categories such as provision for Aircrew and Off Shore Workers.

Statistical information on each scheme in the format provided could be provided only at disproportionate cost. However, the 'Control of Immigration: Statistics United Kingdom 2006' command paper gives the most up to date information on leave to enter and extensions of leave to remain granted to non-EEA nationals available at that time. A link for ease of reference follows:

http://www.official-documents.gov.uk/document/cm71/7197/7197.asp.

Copies are also available in the House Library.

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many EU A8 nationals have been registered under the worker registration scheme since 1 May 2004, broken down by *(a)* nationality, *(b)* year and *(c)* quarter. [162345]

**Mr. Byrne:** Information concerning the number of A8 nationals is published quarterly in The Accession Monitoring Report. This report currently gives data from 1 May 2004 to 30 June 2007 and a copy has already been deposited in both House Libraries.

The information you require is published in table 3 of the report, at the following link:

http://www.ind.homeoffice.gov.uk/aboutus/reports/accession_monitoring_report

The next Accession Monitoring Report will be published on 20 November 2007.

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many *(a)* highly skilled and *(b)* dependents of highly skilled migrants have been given leave to enter the UK in each year since the inception of the scheme, broken down by nationality. [162672]

**Mr. Byrne:** The available data are in the following table and relate to the number of highly skilled migrants approved for the highly skilled migrant programme during the period 2002 to September 2007.

Dependant information is not centrally recorded.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

*HSMP applications granted between 1 January 2002 and 30 September 2007—out of country applications only*

[1] 1 January 2007 to 30 September 2007

[2] Indicates 1 or 2

Notes:

1. Figures are rounded to nearest five.
2. Because of rounding, figures may not add up to totals shown.
3. The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

## Foreigners: Crime

**Damian Green:** To ask the Secretary of State for the Home Department how many foreign nationals have been convicted of crimes related to the *(a)* possession of firearms and *(b)* selling of illegal drugs in each of the last five years for which figures are available. [163778]

**Mr. Coaker:** The courts proceedings database does not hold information regarding the nationality of those convicted for any offence—including offences involving firearms or the sale of illegal drugs.

### Illegal Immigrants: Security Guards

**Mrs. Villiers:** To ask the Secretary of State for the Home Department whether any individuals identified as working in the security industry without valid immigration status are working in Chipping Barnet constituency. [164621]

**Mr. Byrne:** This information is not available. The SIA holds only the domestic addresses of licence holders, not their work addresses.

As the Home Secretary announced to Parliament on 13 November, work is under way on retrospective right to work checks on the estimated 40,000 non-EEA nationals who were granted licences before 2 July 2007. The Home Secretary will report again to Parliament in December when this work is complete.

**David T.C. Davies:** To ask the Secretary of State for the Home Department when she was first alerted to the fact that illegal immigrants were being issued with licences by the Security Industry Association; and if she will make a statement. [165931]

**Mr. Coaker** *[holding answer 21 November 2007]:* I refer to the statement I made to the House on 13 November about Security Industry Authority licensing checks and the issue of entitlement to work in the United Kingdom.

### Immigration: Heathrow Airport

**Mr. Evans:** To ask the Secretary of State for the Home Department what the average waiting time was at immigration for non-EEA citizens entering the UK via London Heathrow Terminal *(a)* Two, *(b)* Three and *(c)* Four in the first six months of 2007. [163093]

**Mr. Byrne** *[holding answer 12 November 2007]:* We recognise that we have a responsibility to process genuine passengers without delay but the safety and security of the public is our priority.

There are arrangements in place at selected ports to benchmark performance. The ports in question are using a 45 minutes (non-EEA) and 25 minutes (EEA) queuing time as such a benchmark. This in turn informs staff deployment as well as informing considerations on further investment. We are clear that the averages are well within these benchmarks but will continue to reduce the occasions of exceeding those figures.

The figures held do not constitute part of National Statistics as they are based on internal management information. This information has not been quality assured under National Statistics protocols and is currently treated as provisional.

*Figures available from Heathrow showing percentage of non-EEA passengers waiting under 45 minutes for the first six months of 2007*

| Terminal | January | February | March | April | May | June |
|---|---|---|---|---|---|---|
| T2 | 100 | 100 | 100 | n/a | n/a | 100 |
| T3 | 100 | 93 | 100 | 95 | 95.28 | 96.8 |
| T4 | 100 | 100 | 100 | n/a | 95 | 100 |

n/a = Not available.

### Missing Persons: Children

**Mr. MacShane:** To ask the Secretary of State for the Home Department how many children under the age of five years who went missing in the UK and are still unaccounted for went missing in each year since 2000. [169708]

**Mr. McNulty:** At the present time, the information requested is not collated centrally. Working with the Association of Chief Police Officers (ACPO), the National Policing Improvement Agency (NPIA) has been tasked with setting up a new and enhanced Police National Missing Person's Bureau (PNMPB) and to identify and promulgate good practice in the capture, recording and sharing of data around missing persons. The PNMPB will begin its work on 1 April 2008.

### Motor Insurance Database

**Mr. Stewart Jackson:** To ask the Secretary of State for the Home Department how many vehicles in the Cambridgeshire Constabulary area were impounded following reference to the Motor Insurance Database in each year since May 2004; and if she will make a statement. [172838]

**Mr. Coaker:** Information in the form requested is not available. I understand from the chief constable of Cambridgeshire that between April 2006 and October 2007 the force seized 3,825 vehicles for being driven by a someone without valid insurance.

**Mr. Stewart Jackson:** To ask the Secretary of State for the Home Department how many times Cambridgeshire Constabulary accessed the Motor Insurance Database in each month since May 2004; and if she will make a statement. [172841]

**Mr. Coaker:** This information is not recorded centrally.

### Offensive Weapons

**Mr. Spellar:** To ask the Secretary of State for the Home Department how many people were killed in gun or knife attacks in *(a)* London, *(b)* Lewisham, *(c)* Lambeth, *(d)* Brent, *(e)* Hackney, *(f)* Southwark, *(g)* Leicester, *(h)* Birmingham, *(i)* Liverpool and *(j)* Manchester in each of the last five years. [164093]

**Mr. Coaker:** Available information relates to the number of homicides recorded at police force area level during the period 2001-02 to 2005-06 where the apparent method of killing was 'sharp instrument' or 'shooting'.

*Homicides currently recorded[1] where apparent method of killing is sharp instrument[2] or shooting[3], selected police force areas, 2001-02 to 2005-06[4]*

| | | Year offence initially recorded as homicide[5] | | | | |
|---|---|---|---|---|---|---|
| Police force area | Apparent method of killing | 2001-02 | 2002-03 | 2003-04 | 2004-05 | 2005-06 |
| London[6, 7] | Sharp instrument | 68 | 68 | 61 | 60 | 48 |
| | Shooting | 43 | 31 | 22 | 27 | 22 |
| Leicestershire[8] | Sharp instrument | 2 | 4 | 9 | 3 | 3 |
| | Shooting | 1 | 0 | 1 | 1 | 0 |
| West Midlands[8] | Sharp instrument | 19 | 17 | 22 | 21 | 21 |
| | Shooting | 7 | 9 | 6 | 6 | 5 |
| Merseyside[7] | Sharp instrument | 3 | 12 | 10 | 14 | 10 |
| | Shooting | 6 | 5 | 5 | 8 | 1 |
| Greater Manchester[8] | Sharp instrument | 23 | 19 | 17 | 15 | 11 |
| | Shooting | 11 | 6 | 9 | 8 | 5 |

[1] As at 9 October 2006; figures are revised as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Includes knives as well as other sharp instruments.
[3] Includes shooting by crossbows. Excludes cases where firearm was used as a blunt instrument.
[4] Data for 2006-07 are scheduled to be published in late January 2008.
[5] Homicide offences are shown according to the year in which the police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.
[6] Figures for Lewisham, Brent, Hackney and Southwark cannot be provided as data from the Homicide Index cannot be broken down to borough level.
[7] Homicides recorded by the Metropolitan police service and City of London police.
[8] Figures for Leicester, Birmingham, Liverpool and Manchester cannot be provided as data from the Homicide Index cannot be broken down to city level.

## Police: Databases

**Keith Vaz:** To ask the Secretary of State for the Home Department (1) what procedures exist to ensure that all police records are updated on people *(a)* being held in custody and *(b)* wanted for arrest; [169845]

(2) what procedures exist to ensure that all police forces are aware of updated information on criminals *(a)* being held and *(b)* wanted for arrest. [169846]

**Mr. McNulty:** There are national standards on data entry and quality standards on the Police National Computer (PNC) which are contained in the PNC manual. The manual provides information on those procedures that are applicable for updating PNC records with information regarding individuals detained in custody and wanted for arrest. This is interpreted, and supplemented, by individual police forces' own local procedures. The PNC manual is updated at six-monthly intervals and is made available to all police forces.

In addition, police forces can, depending on the business need, broadcast a message via PNC to other forces regarding individuals who are either wanted or who have been detained. Her Majesty's Inspectorate of Constabulary conducts audits of force procedures for compliance with this manual and other Association of Chief Police Officers policy.

## Police: Migrants

**Mark Williams:** To ask the Secretary of State for the Home Department (1) what data her Department uses to estimate the numbers of migrants in police authorities in England and Wales; [162090]

(2) what adjustments are made to the police formula grant for police authorities in *(a)* England and *(b)* Wales to take account of the numbers of migrants in individual police authority areas. [162091]

**Mr. McNulty** *[holding answer 12 November 2007]:* When calculating formula grant allocations, we use the best available data that treat all authorities on a consistent basis.

For population, these are the population estimates and projections produced by the Office for National Statistics. Recent methodological changes have been made to improve the account of the effects of international migration.

## Police: Terrorism

**Mr. Frank Field:** To ask the Secretary of State for the Home Department how many terrorist operations have been foiled in each year for which records are available. [162273]

**Mr. McNulty** *[holding answer 12 November 2007]:* We are unable to provide a breakdown of terrorist operations for each year. However the Security Service and police have disrupted 12 major plots since 2000.

## Prisoners: Compensation

**Mr. Garnier:** To ask the Secretary of State for the Home Department how much was paid to foreign prisoners in compensation for unlawful detention in custody beyond the end of their sentences in each of the last 10 years. [163351]

**Mr. Byrne:** The information requested is not available centrally and can be collected only at disproportionate cost.

The chief executive of the Border and Immigration Agency wrote to the Home Affairs Committee on 19 February and provided an update on the issue of compensation payments to foreign national prisoners who had been detained unlawfully. A copy of this letter is available from the Library of the House.

### Prisoners: Deportation

**Mr. Garnier:** To ask the Secretary of State for the Home Department how many foreign national prisoners are subject to deportation notices. [163345]

**Mr. Byrne:** The chief executive of the Border and Immigration Agency has written regularly to the Home Affairs Committee over the past 18 months providing the most robust and accurate data relating to foreign national prisoners. Copies of this correspondence are available from the Library of the House.

**Andrew Selous:** To ask the Secretary of State for the Home Department if she will make it her policy to seek the deportation of foreign prisoners from the date of their conviction; and if she will make a statement. [163723]

**Mr. Byrne** *[holding answer 13 November 2007]:* Under the UK Borders Act, the Secretary of State must make a deportation order where a foreign national is imprisoned for 12 months or more or for any length of time for a particularly serious offence. This will bring greater certainty to the deportation process. A foreign criminal will know from the point of conviction that they will face deportation, save where one of the five exceptions specified in the Act applies.

### Research, Information and Communications Unit

**Norman Baker:** To ask the Secretary of State for the Home Department when the Research, Information and Communications Unit was instigated; what factors underlay the decision to create this unit; how many officials are employed in the unit; and if she will make a statement. [172384]

**Mr. McNulty** *[holding answer 10 December 2007]:* The creation of a Research, Information and Communication Unit (RICU) was announced by my right hon. Friend the Prime Minister in March 2007, alongside the creation of the Office of Security and Counter-Terrorism (OSCT), as part of wider machinery of Government changes. RICU is a cross-Government resource, based in the Home Office, reporting to my right hon. Friends the Home Secretary, the Foreign Secretary and the Secretary of State for Communities and Local Government and staffed from a wide range of Government Departments.

The decision to create this Unit was taken to address the need for coherent and effective communications across Government in countering terrorism—in particular to support the strategy of tackling violent extremism locally, nationally and internationally.

A small team is being established, which as at 7 December employs 13 officials. We are in the process of expanding that capacity.

### Security Guards: Licensing

**Frank Dobson:** To ask the Secretary of State for the Home Department if she will list all those private security firms accredited by the Security Industry Authority which carry out security services for Government Departments and non-departmental government bodies which are known to have employed people not entitled to work in the UK. [165948]

**Mr. Coaker** *[holding answer 19 November 2007]:* This information is not available. The Security Industry Authority licences individuals rather than companies.

Security firms are not required to be approved or accredited by the SIA. The SIA manages a voluntary approved contractor scheme (ACS) which provides a framework for setting, improving and monitoring the standards of business management and organisation among companies that provide private security services. As at 12 November, 404 companies, employing close to 100,000 individuals, had been granted approval under the ACS.

As the Home Secretary announced to Parliament on 13 November, work is under way on retrospective right to work checks on the estimated 40,000 non-EEA nationals who were granted licences before 2 July 2007. The Home Secretary will report again to Parliament in December when this work is complete.

**Keith Vaz:** To ask the Secretary of State for the Home Department what the process is by which the Security Industry Authority (SIA) investigates a person for grant of a licence to work in the security industry; and what methods are used by the SIA to check *(a)* EU, *(b)* British and *(c)* other applicants' (i) identity and (ii) criminal background. [166470]

**Mr. Coaker:** Information on the criteria which the Security Industry Authority (SIA) apply in determining whether to grant a licence, and on other aspects of the licensing process, is contained in the SIA's booklet "Get Licensed". The booklet includes guidance on the activities for which a licence is required, the qualifications required and the checks which the SIA make. The SIA's booklet "SIA Licence Application Form Guidance Notes", gives further details of the information which the SIA require to process an application. Both documents are available on the SIA website at:

http://www.the-sia.org.uk/home/about_sia/publications/publications_licensing.htm

**Keith Vaz:** To ask the Secretary of State for the Home Department what the functions of the Security Industry Authority (SIA) are; and what the purpose is of the licences that the SIA issues. [166471]

**Mr. Coaker:** The functions of the Security Industry Authority (SIA) are set out in section 1 of the Private Security Industry Act (PSIA) 2001.

The SIA issues licences to individuals who engage in any licensable conduct so defined under schedule 2 of the PSIA 2001. This compulsory licensing helps ensure that those working within the industry are fit and proper persons who have received adequate vocational training for the role they perform. It is a criminal offence to engage in licensable conduct without a licence.

**Keith Vaz:** To ask the Secretary of State for the Home Department how many applicants for a Security Industry Authority licence since 1 October have been refused one as a result of being found not to have the right to work in the UK. [166477]

**Mr. Coaker:** It is the legal duty of all employers to ensure that those they employ are entitled to work in the UK. However, while under no legal obligation to do so, since 2 July the SIA has carried out full right to work checks on all applications for SIA licences.

The SIA publishes a weekly update of its licensing statistics which include the type and number of licences refused. This is available on the SIA's website at:

http://www.the-sia.org.uk/home/licensing/stats_2.htm

As the Home Secretary announced to Parliament on 13 November, work is under way on retrospective right to work checks on the estimated 40,000 non-EEA nationals who were granted licences before 2 July 2007. The Home Secretary will report again to Parliament when this work is complete.

**Damian Green:** To ask the Secretary of State for the Home Department how many licence applications to the Security Industry Association were turned down in each year since 2004. [168345]

**Mr. Coaker:** The numbers of licence applications refused by the Security Industry Authority (SIA) in the financial years 2004-05 to 2007-08 are set out in the following table.

The figure for 2007-08 is for the year to date.

| *Financial year* | *Licence applications refused* |
|---|---|
| 2004-05 | 1,067 |
| 2005-06 | 2,378 |
| 2006-07 | 3,422 |
| 2007-08[1] | 2,815 |

[1] Up to 16 November.

### Sick Leave: Dismissal

**David Simpson:** To ask the Secretary of State for the Home Department how many staff in her Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last five years. [163700]

**Mr. Byrne:** Staff with a poor sickness absence record are managed under Attendance Management policies operated within Home Office Headquarters, the Border and Immigration Agency (BIA), the Criminal Records Bureau (CRB) and the Identity and Passport Service (IPS). The number of attendance management warnings and dismissals recorded on central information systems held by Home Office HQ, BIA and CRB for the calendar years 2005, 2006 and 2007 (to 31 October 2007) are in the table.

Central records were not held prior to 2005 within Home Office HQ or BIA and data could be obtained only at disproportionate cost. The table does not include attendance management warnings issued by the Criminal Records Bureau or the Identity and Passport Service.

The Criminal Records Bureau does not hold this information centrally and it could only be obtained at disproportionate cost. Fewer than five members of CRB staff were dismissed under the Attendance Management policy in 2003 and 2004. Further information about those cases is withheld on grounds of confidentiality.

Attendance issues within the Identity and Passport Service are managed using its Managing Attendance policy which has due regard for individuals with disabilities. Employment can be terminated by medical retirement or capability dismissal with or without compensation.

Seven staff were dismissed from the Identity and Passport Service in 2005-06 and 13 staff were dismissed in 2006-07 on grounds of inefficiency linked to a poor attendance record. Previous years' information is not recorded centrally and could be provided only at disproportionate cost.

| | *Total* |
|---|---|
| *2005* | |
| Dismissal | 5 |
| Final formal warning | 10 |
| First formal warning | 63 |
| Grand total | 78 |
| *2006* | |
| Dismissal | 26 |
| Final formal warning | 46 |
| First formal warning | 197 |
| Grand total | 269 |
| *2007 (to 30 October 2007)* | |
| Dismissal final | 29 |
| Formal warning first | 41 |
| Formal warning | 202 |
| Grand total | 272 |

### Terrorism: Detainees

**Mr. David Hamilton:** To ask the Secretary of State for the Home Department what assessment she has made of the risks of premature charging of suspects in terrorism cases due to the impending expiry of the 28 day limit on detention without charge; and if she will make a statement. [164008]

**Mr. McNulty:** There is no evidence to suggest that premature charging of suspects in terrorism cases occurs. Crown prosecutors are responsible for deciding whether a person should be charged with a criminal offence, and if so, what that offence should be. They make these decisions in accordance with the Code for Crown Prosecutors and the Director's Guidance on Charging. The code sets out the general principles Crown prosecutors should follow when they make decisions on cases. In cases where it is proposed to keep the suspect in custody after charge, but the evidence required to apply the Full Code Test is not yet available, the Threshold test can be used. This test is frequently used in terrorism cases and a charge is brought at the earliest opportunity. It is already possible to make a judicial challenge to unlawful detention through the use of habeas corpus proceedings. No such challenge has been made in terrorism cases.

### Terrorism: Expenditure

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how much was spent on counter-terrorism measures by her Department in 2006; and if she will provide a breakdown of this spending by main category of expenditure. [162051]

**Mr. Byrne:** The Home Office 2007 departmental report, published in July 2007, details spending on counter terrorism and intelligence for the period 2005-06. It also provides an estimated outturn for the period 2006-07, which we expect to report against in the 2008 departmental report.

The 2007 departmental report can be found on the Home Office website at the following address:

http://www.homeoffice.gov.uk/documents/ho-annual-report-07?version=1

## HEALTH

### Alcoholic Drinks: Misuse

**Stephen Hesford:** To ask the Secretary of State for Health how many alcohol-related emergency admissions to hospitals in Wirral West constituency there have been since 1997. [171047]

**Ann Keen:** The information is not available in the format requested. The following table shows the numbers of patients admitted to hospital for alcohol related conditions at Wirral University Teaching Hospital NHS Foundation Trust.

| | *Finished admission episodes* |
|---|---|
| 2005-06 | 2,686 |
| 2004-05 | 2,484 |
| 2003-04 | 2,131 |
| 2002-03 | 1,781 |
| 2001-02 | 1,809 |
| 2000-01 | 1,148 |
| 1999-2000 | 1,179 |
| 1998-99 | 1,033 |
| 1997-98 | 1,051 |

*Notes:*

1. The table shows finished admission episodes for patients admitted to hospital as an emergency with a primary or secondary diagnosis of any of the following diagnoses, for Wirral University Teaching Hospital NHS Foundation Trust only:

Mental and behavioural disorders due to use of alcohol;
Alcoholic liver disease; and
Toxic effect of alcohol.

*Source:*

Hospital Episode Statistics

### Ambulance Services: Hampshire

**Mr. Hancock:** To ask the Secretary of State for Health what average ambulance response times were in each primary care trust area in Hampshire in each year since 1997. [172314]

**Mr. Ivan Lewis:** This information requested is not held centrally.

### Ambulance Services: Pay

**Mike Penning:** To ask the Secretary of State for Health if he will make a statement on planned changes to the pay scales of ambulance drivers. [170541]

**Ann Keen:** Following resolution of the 2007-08 pay dispute, the pay scales for ambulance drivers and all other non medical national health service staff on "Agenda for Change" contracts have been revised. The NHS Employers organisation issued "Pay Circular (Agenda for Change) 4/2007" on 17 October to reflect the agreed pay uplift for 2007-08. This information has been placed in the Library and is also available at:

www.nhsemployers.org/restricted/downloads/download.asp?ref=3027&hash=8f331fb4e855b06293989d4ae2c4b3ba&itemplate=e_pay_conditions_3col_payrates_pay-conditions-217

### Arthritis

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) with reference to the answer to the hon. Member for Southend West of 20 October 2003, *Official Report*, column 470W, on rheumatoid arthritis, what his latest estimate is of the number of people that anti-TNF drugs help; and what the evidential basis for this figure is; [172900]

(2) what plans he has to introduce a national strategy for the care and treatment of people with rheumatoid arthritis. [172934]

**Ann Keen:** There are no plans to introduce a national strategy for rheumatoid arthritis.

The technology appraisal guidance, "Guidance on the use of etanercept and infliximab for the treatment of rheumatoid arthritis", published in March 2002 by the National Institute for Health and Clinical Excellence, estimated that approximately 15,000 people in England and Wales would initially be eligible for anti-TNF treatment. Using an incidence of 0.5 per thousand population, an additional 950 people were estimated to become eligible for this treatment each year.

This estimate was based on a prevalence for rheumatoid arthritis of eight per thousand population, and information derived from the Norfolk Arthritis Register, a large database of all cases of arthritis recorded in Norfolk.

We are not aware of any revised estimate having been made for the number of people with rheumatoid arthritis who would benefit from this treatment.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) how many new cases of rheumatoid arthritis were diagnosed in each of the last five years; [172911]

(2) what estimate he has made of the number of people in England diagnosed with rheumatoid arthritis in each *(a)* strategic health authority area and *(b)* primary care trust area in the most recent year for which figures are available; [172913]

(3) what estimate he has made of the total cost to *(a)* the NHS and *(b)* social services of rheumatoid arthritis in the latest period for which figures are available. [172935]

**Ann Keen:** Information on the number of newly diagnosed cases of rheumatoid arthritis is not collected.

We have made no estimate of the number of people diagnosed with rheumatoid arthritis within each strategic health authority or primary care trust area.

We have made no estimate of the cost of rheumatoid arthritis to the national health service and social services.

### Atkinson Morley Hospital

**Stephen Hammond:** To ask the Secretary of State for Health pursuant to the answer of 26 November 2007, *Official Report*, column 232W, on Atkinson Morley Hospital, in which years the expenditure referred to was incurred; and if he will break down the total given down by main budget heading for each such year. [172646]

**Mr. Bradshaw** *[holding answer 10 December 2007]:* London strategic health authority has advised that over the period 2002-03 to 2006-07, records from St. George's Health Care NHS Trust shows the trust incurred a total expenditure on the sale of the Atkinson Morley hospital site of £1.598 million. This total is after deducting the contribution of £165,000 from the St. George's hospital charity for the fees applicable to their property, the Firs.

The following table from the trust shows a breakdown of the costs incurred for the disposal of the Atkinson Morley hospital site.

| | | | | | | *£000* |
|---|---|---|---|---|---|---|
| *Budget heading* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* | *Total* |
| Planning | 34 | 233 | 90 | 79 | 1 | 437 |
| Legal | 33 | 324 | 17 | 46 | 6 | 426 |
| Design | 80 | 89 | 108 | 11 | 0 | 288 |
| Estate Agents | 0 | 0 | 0 | 122 | 0 | 122 |
| Ecological services | 25 | 49 | 22 | 21 | 0 | 117 |
| Engineering services | 8 | 36 | 34 | 22 | 0 | 100 |
| Property advisers | 33 | 0 | 4 | 9 | 2 | 48 |
| Communications | 0 | 5 | 19 | 10 | 0 | 34 |
| Project management | 0 | 5 | 12 | 13 | 0 | 30 |
| Other, miscellaneous | 16 | 26 | 103 | 15 | 0 | 160 |
| SGHC contribution re: Firs | 0 | 0 | -79 | -85 | 0 | -164 |
| Total | 229 | 767 | 330 | 263 | 9 | 1,598 |

### Barking, Havering and Redbridge NHS Trust

**Andrew Rosindell:** To ask the Secretary of State for Health (1) if he will take steps to ensure that the number of nurses per 100 beds in Barking, Havering and Redbridge NHS Trust matches the national average; [170851]

(2) if he will take steps to ensure that the number of doctors per 100 beds in Barking, Havering and Redbridge NHS Trust matches the national average for other trusts. [170853]

**Ann Keen:** It is the responsibility of individual national health service organisations to ensure that adequate levels of staff are available to ensure that patient safety is not compromised. The following table shows the number of NHS staff in England and the Barking, Havering and Redbridge Hospital NHS Trust in each specified group per 11 'total available beds[1]' as at 30 September 2006[2] (which is the latest data available).

| | *Medical and dental staff* | *Qualified nursing, midwifery and health visiting staff* |
|---|---|---|
| England | 56 | 47 |
| Barking, Havering and Redbridge Hospitals NHS Trust | 54 | 57 |

*Source:*
The information centre for health and social care Non-Medical Workforce Census Department of Health KH03.

### Barking, Havering and Redbridge NHS Trust: Infectious Diseases

**Andrew Rosindell:** To ask the Secretary of State for Health how many cases of *(a)* MRSA and *(b)* *clostridium difficile* have been recorded in Barking, Havering and Redbridge NHS Trust since 1997. [167290]

**Ann Keen:** The information is not collected in the format requested.

Data on methicillin-resistant *Staphylococcus aureus* (MRSA) and *clostridium difficile* (C.difficile) is only available from 2001, and can be found in the following table.

---

[1] The 'total available beds' figure is the average daily number of open and staffed beds on wards open overnight in NHS hospitals in England. Beds in wards that are closed temporarily for refurbishment or cleaning would not be included. Cots on maternity wards for 'well babies' are not included in the figures. Figures are submitted annually on form KH03 by each NHS trust and provide a summary across all hospital sites within the trust.

[2] Staff in post figures are as at 30 September. Figures are calculated against headcount.

*Barking, Havering and Redbridge Hospitals MRSA bacteraemia reports (annual)*

| *April to March each year* | *Number* |
|---|---|
| 2001-02 | 92 |
| 2002-03 | 77 |
| 2003-04 | 116 |
| 2004-05 | 98 |
| 2005-06 | 69 |
| 2006-07 | 71 |

The best available data on the number of reports of *C.difficile* infections are for patients aged 65 and over and come from the mandatory surveillance scheme run by the Health Protection Agency (HPA) since 2004.

*Barking, Havering and Redbridge Hospitals C.difficile reports (annual)—Patients aged = 65 years*

| | *Number* |
|---|---|
| *January to December* | |
| 2004 | 648 |
| 2005 | 927 |

*Barking, Havering and Redbridge Hospitals C.difficile reports (annual)—Patients aged = 65 years*

| | *Number* |
|---|---|
| 2006 | 622 |

*Note:*
The data shown in the tables are provisional. The HPA states that the tables contain data received prior to the final submission deadline. Late submissions of data corrections are incorporated in later publications.

HPA

## Broadmoor Hospital: Complaints

**Mr. Lidington:** To ask the Secretary of State for Health how many official complaints were made by patients of Broadmoor hospital to West London Mental Health Trust in each year since 1997. [170335]

**Mr. Ivan Lewis:** The information requested can be found in the following table. Please note that the information requested is only available from 2001.

*Written complaints about hospital and community services in West London Mental Health NHS Trust[1], England, 2001-02 to 2006-07*

| | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|---|
| England | 93,020 | 91,023 | 90,122 | 90,413 | 95,047 | 90,801 |
| *Of which:* | | | | | | |
| West London Mental Health NHS Trust RKL | 264 | 242 | 231 | 279 | 261 | 297 |

[1] In 2001 Broadmoor Hospital Authority merged with Ealing, Hammersmith and Fulham Mental Health NHS Trust to form the West London Mental Health NHS Trust. It is impossible to separate hospital level data from the census figures
*Note:*
Data as at 1 April to 31 March each year.
*Source:*
The Information Centre, dataset KO41a

## Broadmoor Hospital: Foreigners

**Mr. Lidington:** To ask the Secretary of State for Health how many foreign nationals are held in Broadmoor Hospital. [170336]

**Mr. Ivan Lewis:** The information requested is not held centrally.

## Broadmoor Hospital: Manpower

**Mr. Lidington:** To ask the Secretary of State for Health (1) how many clinical staff were employed at Broadmoor hospital in each year since 1997; [170332]

(2) how many non-clinical staff were employed at Broadmoor hospital in each year since 1997. [170333]

**Mr. Ivan Lewis:** The information is not available in the format requested. However, data in relation to the number of clinical and non-clinical staff at West London Mental Health National Health Service Trust, which includes Broadmoor hospital can be found in the following table.

*NHS hospital and community health services: NHS staff in the West London Mental Health NHS Trust main staff group as at 30 September each specified year*

| | | | | | | *Headcount* |
|---|---|---|---|---|---|---|
| | *2001* | *2002* | *2003* | *2004* | *2005* | *2006[1]* |
| All staff | 3,180 | 3,783 | 3,924 | 4,240 | 4,157 | 4,135 |
| Professionally qualified clinical staff | 1,584 | 1,950 | 2,012 | 2,137 | 2,127 | 2,148 |
| Medical and dental staff | 181 | 201 | 208 | 236 | 242 | 252 |
| Qualified nursing, midwifery and health visiting staff | 1,080 | 1,354 | 1,348 | 1,438 | 1,431 | 1,451 |
| *Qualified scientific, therapeutic and technical staff* | 323 | 395 | 456 | 463 | 454 | 445 |
| Qualified allied health professions | 87 | 118 | 123 | 165 | 136 | 124 |
| Qualified healthcare scientists | n/a | n/a | 1 | 2 | 3 | 2 |
| Other qualified scientific, therapeutic and technical staff | 236 | 277 | 332 | 296 | 315 | 319 |
| *Support to clinical staff* | 984 | 1,177 | 1,199 | 1,327 | 1,316 | 1,238 |
| Support to doctors and nursing staff | 976 | 1,166 | 1,190 | 1,294 | 1,282 | 1,208 |
| Support to ST and T staff | 8 | 11 | 9 | 33 | 34 | 30 |
| *NHS infrastructure support* | 612 | 656 | 713 | 776 | 714 | 749 |
| Central functions | 222 | 240 | 245 | 275 | 252 | 304 |
| Hotel, property and estates | 318 | 315 | 334 | 344 | 330 | 347 |

*NHS hospital and community health services: NHS staff in the West London Mental Health NHS Trust main staff group as at 30 September each specified year*

*NHS hospital and community health services: NHS staff in the West London Mental Health NHS Trust main staff group as at 30 September each specified year*

| | | | | | | *Headcount* |
|---|---|---|---|---|---|---|
| | *2001* | *2002* | *2003* | *2004* | *2005* | *2006*[1] |
| Managers and senior managers | 72 | 101 | 134 | 157 | 132 | 98 |

n/a = not applicable. The numbers of healthcare scientists were not separately identifiable until 2003.

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total work force figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full time equivalents). This should be taken into consideration when analysing trends over time.

*Note:*

In 2001 Broadmoor Hospital Authority merged with Ealing, Hammersmith and Fulham Mental Health NHS Trust to form the West London Mental Health NHS Trust. It is impossible to separate hospital level data from the census figures.

## Broadmoor Hospital: Vacancies

**Mr. Lidington:** To ask the Secretary of State for Health how many clinical staff vacancies were unfilled at Broadmoor hospital in each year since 1997. [170339]

**Mr. Ivan Lewis:** This information is not held centrally.

**Mr. Lidington:** To ask the Secretary of State for Health (1) how many clinical staff vacancies at Broadmoor Hospital were advertised in each year since 1997; [170340]

(2) how many non-clinical staff vacancies at Broadmoor Hospital were advertised in each year since 1997. [170342]

**Mr. Ivan Lewis:** Information on clinical staff vacancies advertised at Broadmoor Hospital is not held in the format requested. The following table shows national health service three month vacancies for NHS staff in West London Mental Health Trust by main staff group. Data are only available from 2002.

*The Information Centre for health and social care: NHS three month vacancies for NHS staff in the West London Mental Health NHS Trust*[1] *by main staff group—three month vacancy rates and numbers as at 31 March each specified year*

| | *All doctors (excluding doctors in training)* | | *Qualified nursing, midwifery and health visiting staff* | | *Unqualified nursing, midwifery and health visiting staff* | |

| | *Three month vacancy rate (%)* | *Three month vacancy number* | *Three month vacancy rate (%)* | *Three month vacancy number* | *Three month vacancy rate (%)* | *Three month vacancy number* | *Three month vacancy rate (%)* | *Three month vacancy number* | *Three month vacancy rate (%)* | *Three month vacancy number* |
| 2007 | 2.1 | 9 | 0.0 | 0 | 3.1 | 9 | 0.0 | 0 | 0.5 | 5 |
| 2006 | 6.5 | 29 | 13.3 | 18 | 1.4 | 4 | 24.6 | 7 | 4.0 | 40 |
| 2005 | 9.6 | 44 | 18.2 | 32 | 3.2 | 8 | 17.0 | 4 | 4.7 | 48 |
| 2004 | 5.6 | 24 | 8.8 | 10 | 4.4 | 15 | * | — | 4.8 | 47 |
| 2003 | 6.7 | 28 | 9.0 | 10 | 6.1 | 17 | 3.5 | 1 | 7.0 | 66 |
| 2002 | 4.8 | 14 | 11.7 | 10 | 0.8 | 2 | * | 2 | 1.4 | 24 |

* Figures where sum of staff in post (as at 30 September 2005) and vacancies (as at 31 March 2006) is less than 10.

[1] In 2001 Broadmoor Hospital Authority merged with Ealing, Hammersmith and Fulham Mental Health NHS Trust to form the West London Mental Health NHS Trust. It is impossible to separate hospital level data from the census figures.

*Notes:*

1. Vacancy data are from the Vacancies Survey March each year.
2. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (full time equivalents).
3. Three month Vacancy Rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
4. Three month Vacancy Rates are calculated using staff in post from the Non-Medical Workforce Census September each year.
5. Percentages are rounded to one decimal place.
6. Vacancy and staff in post numbers are rounded to the nearest whole number.
7. Calculating the vacancy rates using the above data may not equal the actual vacancy rates.
8. Qualified Allied Health Professional vacancy data include qualified staff from the following occupational groups: chiropody, dietetics, occupational therapy, orthoptics/optics, physiotherapy, diagnostic and therapeutic radiography, art/music/drama therapy and speech and language therapy staff.

**Mr. Lidington:** To ask the Secretary of State for Health how many non-clinical staff vacancies were unfilled at Broadmoor Hospital in each year since 1997. [170341]

**Mr. Ivan Lewis:** This information is not held centrally.

### Cancer: Finance

**Mr. Jamie Reed:** To ask the Secretary of State for Health by what mechanisms the additional £370 million expenditure under the NHS Cancer Reform Strategy will be allocated. [171909]

**Ann Keen:** The revenue component of the £370 million will be included in primary care trust allocations. The capital funding for improvements to cancer services is included within the total capital funding available to the national health service. The detail of how this investment will be delivered will be agreed as part of the NHS capital planning process.

### Cancer: Health Services

**Mr. Lansley:** To ask the Secretary of State for Health how much his Department's plans *(a)* to extend the 31 day standard to all cancer treatments, *(b)* to include all patients with suspected cancer in the 62 day pathway and *(c)* to ensure that all patients with breast symptoms seen within two weeks of referral are expected to cost in each year for which estimates have been made. [172450]

**Ann Keen:** An impact assessment was published at the same time as the new Cancer Reform Strategy on 3 December 2007. A breakdown of costs associated with going further on cancer waits are detailed in the following table:

*Estimate for annual costs in £ million*

| *Measure* | *2008-09* | *2009-10* | *2010-11* | *2011-12* | *2012-13* | *2013-14* | *2014-15* | *2015-16* | *2016-17* | *2017-18* |
|---|---|---|---|---|---|---|---|---|---|---|
| 31 day standard for all cancer treatments | 2.1 | 4.3 | 6.4 | 6.4 | 6.4 | 6.4 | 6.4 | 6.4 | 6.4 | 6.4 |
| Include all patients with suspected cancer in the 62 day pathway | 1.7 | 3.3 | 5.0 | 5.0 | 5.0 | 5.0 | 5.0 | 5.0 | 5.0 | 5.0 |
| 2 week referral for all breast problems | 2.0 | 4.0 | 6.0 | 6.0 | 6.0 | 6.0 | 6.0 | 6.0 | 6.0 | 6.0 |

### Care Homes

**Mr. Willis:** To ask the Secretary of State for Health what the frequency of inspection of care homes was in each year from 2001-02 to 2006-07; and how many homes failed to meet minimum standards for nutrition and medication in each year. [172610]

**Mr. Ivan Lewis:** The Commission for Social Care Inspection (CSCI) is responsible, under the Care Standards Act 2000 and associated Regulations, for all aspects of regulation and inspection of care homes providing nursing care.

Up until April 2005, all care and nursing homes were required to be inspected twice yearly. From April 2005, CSCI's inspectors started using new ways of inspecting social care providers, based on the aims set out in the consultation document, "Inspecting for Better Lives". The new inspection methodology is designed to place the people who use social care services and their experiences at the heart of the way CSCI inspects and regulates care services.

From April 2005, CSCI has carried out key inspections for care and nursing homes at a frequency determined by the quality of the service. A key inspection is a thorough, detailed inspection, under which CSCI will assess all of the key national minimum standards. For example, a 'poor' quality service will receive a minimum of two key inspections a year, an 'adequate' service will receive a minimum of one key inspection a year, a 'good' service will receive a minimum of one key inspection every two years, and an 'excellent' service will receive a key inspection a minimum of once every three years. CSCI also carries out 'random' and 'thematic' inspections, which are short, focused inspections on a specific theme or area.

The following table shows the percentages of care homes which failed to meet the National Minimum Standards (NMS) on meals and mealtimes and medication in each year from 2002-03. Information is not available for 2001-02; the NMS were introduced in April 2002.

CSCI inspectors rate homes' performance against each standard and score it on a scale of one to four. Scores of three or four mean the standard has been met. Scores one or two mean the standard has not been met. However, the score of two indicates that the failure is due to a more minor issue.

*Percentage of care homes failing to meet selected NMS at 31 March each year—NMS*

| | *Meals and mealtimes* | *Medication* |
|---|---|---|
| *Care homes for younger adults* | | |
| 2002-03 | 19 | 54 |
| 2003-04 | 14 | 43 |
| 2004-05 | 12 | 38 |
| 2005-06 | 10 | 33 |
| 2006-07 | 10 | 32 |
| | | |
| *Care homes for older people* | | |
| 2002-03 | 22 | 55 |
| 2003-04 | 18 | 47 |
| 2004-05 | 16 | 44 |
| 2005-06 | 15 | 41 |
| 2006-07 | 14 | 40 |

*Source:*
CSCI Registration and Inspection database

### Cervical Cancer: Screening

**Mr. Lansley:** To ask the Secretary of State for Health what assessment he has made of the additional cost the NHS will incur to ensure that women in all primary care trusts receive the results of their cervical screening test within two weeks of it being taken. [172468]

**Ann Keen:** We estimate that the annual cost of ensuring that women receive the result of their cervical screening test within two weeks will be £1.1 million per year.

### Childbirth

**Anne Milton:** To ask the Secretary of State for Health how many *(a)* midwife-led, *(b)* consultant-led and *(c)* other maternity units there were in each year since 1997; how many births there were in each type of unit in each year; and if he will make a statement. [165445]

**Ann Keen:** Some of the information requested is not available. The latest available data are in the NHS Maternity Statistics 2005-06. Copies of this publication are available in the Library.

The following table gives details of the numbers of births and the percentages of those births in consultant units, general practitioner (GP) units, units led jointly by consultants, GPs and midwives and midwife or other units since 1997.

| | *Number of births* | *Consultant units* | *GP units* | *Units led jointly by consultants, GPs and midwives* | *Midwifery/other* |
|---|---|---|---|---|---|
| 1997-98 | 585,000 | 65 | 2 | 31 | 2 |
| 1998-99 | 577,500 | 59 | 2 | 38 | 1 |
| 1999-2000 | 565,300 | 57 | 1 | 40 | 2 |
| 2000-01 | 549,600 | 57 | 2 | 38 | 3 |
| 2001-02 | 541,700 | 55 | 1 | 40 | 4 |
| 2002-03 | 548,000 | 59 | 1 | 37 | 3 |
| 2003-04 | 575,900 | 58 | 2 | 35 | 5 |
| 2004-05 | 584,100 | 54 | 1 | 40 | 5 |
| 2005-06 | 593,400 | 50 | 2 | 42 | 6 |

*Source:*
Hospital Episode Statistics

### Chronic Fatigue Syndrome

**David Lepper:** To ask the Secretary of State for Health what steps he is taking to ensure that appropriate resources are available for NHS multidisciplinary services for myalgic encephalopathy and chronic fatigue syndrome following the recommendations of the National Institute for Health and Clinical Excellence including on *(a)* provision of diagnostic and therapeutic options, *(b)* domiciliary services and *(c)* relevant training for health care professionals, including GPs. [167210]

**Ann Keen:** It is the responsibility of local health bodies to commission services, funded from their general allocations, to meet the needs of those in their local population living with chronic fatigue syndrome/myalgic encephalomyelitis as detailed in the guidance produced by the National Institute for Health and Clinical Excellence.

### Chronic Obstructive Pulmonary

**Mr. Stewart Jackson:** To ask the Secretary of State for Health what proposals he intends to implement to reduce the incidence of chronic obstructive pulmonary disease in Peterborough primary care trust area; and if he will make a statement. [173206]

**Ann Keen:** It is for the local national health service to decide how best to provide services for the local communities they serve.

My right hon. Friend the Secretary of State (Alan Johnson) requested that a National Service Framework (NSF) should be developed for Chronic Obstructive Pulmonary Disease (COPD) following recommendations published in the CMO's annual report 2004.

The development of a NSF for COPD will result in national standards and markers of good practise. It will improve the quality of and access to COPD services, reducing inequalities and reduce healthcare utilisation costs. The NSF will also support the system reform and White Paper agendas, and fits in with recent legislation on the reduction of smoking and new home oxygen service.

The Department has set up an external reference group to advise on the COPD NSF. It is proposed that the COPD NSF will be published in 2008 with implementation at the start of 2009.

### Community Nurses: Manpower

**Mr. Sanders:** To ask the Secretary of State for Health how many community matrons were employed by each primary care trust in England in each year since 2003. [166292]

**Ann Keen:** Community matrons were identified separately for the first time in the 2005 annual national health service work force census. The number of community matrons employed by each primary care trust (PCT) and trust since 2005 is shown in the following table.

Anecdotal evidence suggests there are more community matrons in post than the census suggests.

Based on recent discussions with a number of strategic health authorities (SHAs) we believe that the 2006 census is an undercount, with community matrons most likely being recorded in the census within other occupational groups.

We are committed to increasing the number of community matrons and local development plans strongly suggest this is happening.

*Notes:*

1. Data are presented for all NHS organisations. On 1 October 2006 PCTs were restructured and 2006 data are presented for the new organisations.

2. In 2006 a separate code was introduced for community matrons (NEH) to differentiate between modern matrons (managing staff working in the community, (coded as NCH) and community matrons who deal with patients.

3. No returns were made from the South East Coast SHA under the new code (NEH), but there were 59 returns for the old code NCH.

The Information Centre for health and social care Non-Medical Workforce census.

## Dental Services

**Mr. MacShane:** To ask the Secretary of State for Health how many dentists offer *(a)* only private practice treatment and *(b)* NHS treatment in each primary care trust in England. [170261]

**Ann Keen:** The National Health Service Business Services Authority Dental Services Division (NHSBSADSD) does not capture data about private dentists or their activity.

The numbers of NHS dentists at primary care trust (PCT) and strategic health authority (SHA) level as at 30 June, 30 September, 31 December 2006 and 31 March 2007 are available in Table El of Annex 3 of the "NHS Dental Statistics for England: 2006-07 report". This information is based on the new dental contractual arrangements, introduced on 1 April 2006.

This report is available in the Library at:

www.ic.nhs.uk/pubs/dental0607

The inclusion of dentists on trust led contracts in the data collection following the 2006 reforms means that data collected since April 2006 cannot be directly compared with data collected under the previous system.

The numbers quoted are headcounts and do not differentiate between full and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

The methodology and frequency for reporting workforce information are being reviewed. The purpose of the review is to ensure that, following experience of the first year of the new dental contract, figures provide an appropriate measure of the workforce, given the way that the workforce reporting system is being used by PCTs. An update on the review will be provided in the "NHS Dentals Statistics for England, Quarter 2, 30 September 2007" publication, which is due to be published in February 2008.

### Dental Services: Bexley

**Mr. Evennett:** To ask the Secretary of State for Health (1) how many NHS dentists in Bexley *(a)* admitted new adult patients to their list and *(b)* treated NHS patients between the ages of 18 and 65 years in each of the last five years; [167476]

(2) how many *(a)* 18 to 65 and *(b)* under 18 year olds were registered for NHS dental treatment in Bexley in each year since 1997. [167477]

**Ann Keen:** This information is not available in the format requested. Information on national health service dentists who admitted new patients to their list is not collected centrally.

Under the old contractual arrangements which were in place until 2006, patients had to register with an individual dentist.

The number of patients registered with an NHS dentist at primary care trust (PCT) and strategic health authority (SHA) area are available in annex A of the "NHS Dental Activity and Workforce Report, England: 31 March 2006". Information is available annually as at 31 March 1997 to 2006 and is broken down by children (aged 17 and under) and adults (aged 18 and over).

This report is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

Under the new contractual arrangements, patients do not have to be registered with a dentist to receive NHS care. The closest equivalent measure to 'registration' is the number of patients receiving NHS dental services ('patients seen') in a given area over a 24-month period, for that area. However, this is not directly comparable to the registration data for earlier years.

The number of patients seen by an NHS dentist in the 24-month period ending 31 March 2006 and 31 March 2007 is available in table C1 of annex 3 of the "NHS Dental Statistics for England 2006-07" report. Information is available at PCT and SHA area and is broken down by children (aged 17 and under) and adults (aged 18 and over).

This report is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607

### Dental Services: Finance

**Daniel Kawczynski:** To ask the Secretary of State for Health (1) how many NHS dentists in England face clawbacks of funding under the April 2006 dental contracts for the financial year 2006-07 who work in dental practices established *(a)* prior to and *(b)* after April 2006; [169267]

(2) how many NHS dentists in England face clawbacks of funding under the April 2006 dental contract for the financial year 2006-07. [169268]

**Ann Keen:** This information is not held centrally. It is the responsibility of individual primary care trusts to decide how such situations should be handled within the regulations governing dental contracts.

### Dental Services: Greater Manchester

**Mr. Leech:** To ask the Secretary of State for Health how many people in *(a)* Manchester and *(b)* Manchester Withington constituency have had an appointment with an NHS dentist since the introduction of the new dental contract. [168447]

**Ann Keen:** Under the new dental contractual arrangements, introduced on 1 April 2006, information is available on the number of patients receiving national health service dental services ('patients seen') in a given area over a 24-month period.

The numbers of patients seen by an NHS dentist in the 24-month periods ending 31 March 2006 and 31 March 2007 are available in Table C1 of Annex 3 of the "NHS Dental Statistics for England 2006-07" report. Information is available at primary care trust and strategic health authority area in England, but not at constituency level.

This report is available in the Library and is available at:

www.ic.nhs.uk/pubs/dental0607

### Dental Services: Waiting Lists

**Mr. Vara:** To ask the Secretary of State for Health what the average waiting time for orthodontic treatment on the NHS was in each of the last five years, broken down by primary care trust. [169285]

**Ann Keen:** Information is not collected centrally on waiting times for national health service orthodontic treatment provided in primary care.

Information is available on average hospital waiting times from referral to first out-patient appointment from decision to admit to hospital admission (day case and in-patient). This information is provided, broken down by primary care trust, a copy has been placed in the Library.

### Departmental Equality

**Mr. Lansley:** To ask the Secretary of State for Health what the outcome was of the Commission for Racial Equality's investigation into the Department of Health's discharge of its duty to promote race equality launched in 2007. [172463]

**Mr. Ivan Lewis:** The Commission for Racial Equality (CRE) published a report on its investigation into the Department on 27 September 2007. The report is available on the website of the Equality and Human Rights Commission (which took over CRE's responsibilities on 1 October 2007) at:

www.equalityhumanrights.com/Documents/Race/Formal%20investigations/department_of_health_fi.pdf.

The report outlines the CRE's findings and recommendations. Of the nine recommendations, one was that CRE should issue a compliance notice to the Department, which it did on 28 September. The Department is discussing with the Equality and Human Rights Commission the action required by the compliance notice. A copy of actions the Department is taking to fulfil the other recommendations has been placed in the Library.

## Departmental Public Participation

**Mr. Hoban:** To ask the Secretary of State for Health if he will place in the Library copies of each document prepared for each of his Department's citizens' juries. [164858]

**Ann Keen:** The Department does not keep a central record of all of the Department's citizens' juries. However, there have been two citizens' summits of note which the Department has run. From these two events, three relevant documents will be placed in the Library.

The first event supported the "Our Health, Our Care, Our Say" White Paper in 2006. From this citizen's summit, two documents will now be placed in the Library. These are "Your Health, Your Care, Your Say: Improving Community Health and Care Services, Citizen's Guide", which was the input guide to the event, and "Your Health, Your Care, Your Say: Report of Citizens' Summit, Birmingham , 29 October 2005", which is the write up of the day.

The second was on the 18 September 2007, as part of the Next Stage Review being led by Lord Darzi. A copy of the results from this event, "Our NHS, Our Future: 18 September 2007 Nationwide Consultative Event, Key findings" has been placed in the Library.

## Dermatology: Consultants

**Frank Cook:** To ask the Secretary of State for Health how many consultant dermatology posts were created in each of the last five years. [168352]

**Ann Keen:** The following table shows the increase in headcount of medical consultants within the dermatology specialty over the past five years.

*Hospital and Community Health Services: medical consultants within the dermatology specialty: England at 30 September each year*

| | Number (headcount) Consultant |
|---|---|
| 2002 | 392 |
| 2003 | 415 |
| 2004 | 440 |
| 2005 | 450 |
| 2006 | 454 |

*Source:*
The Information Centre for health and social care Medical and Dental Workforce Census

## Deviance and Behaviour Disorders: Drugs

**Mr. Laws:** To ask the Secretary of State for Health how many prescriptions were made for children aged *(a)* under 16 and *(b)* 16 to 18 years in full time education for (i) antidepressants, (ii) stimulants and (iii) drugs for (A) attention deficit hyperactivity disorder and (B) psychoses and related disorders in each year since 1990-91; at what cost in each year to the NHS; and if he will make a statement. [172094]

**Mr. Ivan Lewis:** Information is not available on the number of prescriptions that were made to children. However, data are available on the number of items that were dispensed and the net ingredient cost (NIC) of those drugs dispensed.

Antidepressant drugs are classified under British National Formulary (BNF) section 4.3, Antidepressant Drugs.

*BNF4.3*

| | Children under 16 | | Children 16 to 18 in full-time education | |
|---|---|---|---|---|
| Financial year | Items | Cost (£) | Items | Cost (£) |
| 1995-96 | 67,543 | 459,884.04 | 67,986 | 935,075.22 |
| 1996-97 | 78,353 | 702,036.40 | 92,569 | 1,417,850.30 |
| 1997-98 | 86,796 | 823,456.80 | 109,862 | 1,813,982.82 |
| 1998-99 | 83,070 | 901,715.02 | 108,846 | 1,947,731.55 |
| 1999-2000 | 86,152 | 981,388.21 | 104,256 | 1,857,085.41 |
| 2000-01 | 99,299 | 1,101,610.19 | 119,645 | 1,764,943.88 |
| 2001-02 | 112,914 | 1,372,384.83 | 130,887 | 2,021,790.31 |
| 2002-03 | 119,566 | 1,525,442.38 | 144,331 | 2,173,657.42 |
| 2003-04 | 104,733 | 1,277,947.31 | 144,607 | 2,054,711.53 |
| 2004-05 | 94,905 | 1,075,388.52 | 122,246 | 1,387,279.48 |
| 2005-06 | 107,965 | 1,146,799.02 | 107,268 | 974,961.47 |
| 2006-07 | 109,535 | 1,001,661.29 | 103,023 | 699,882.64 |

*Stimulants and attention deficit hyperactivity disorder (ADHD)*

These drugs are classified under BNF section 4.4, Central Nervous System (CNS) stimulants and drugs used for attention deficit hyperactivity disorder. It is not possible to separate out whether the drug was dispensed as a stimulant or for ADHD.

*BNF 4.4*

*Notes:*
1. Prescription Cost Analysis Data: Prescription information is taken from the PCA system, supplied by the Prescription Pricing Division of the Business Services Authority, and is based on a full analysis of all prescriptions dispensed in the community, i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. Also included are prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man but dispensed in England. The data do not cover drugs dispensed in hospitals, including mental health trusts, or private prescriptions.
2. Prescription Items: Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
3. Net Ingredient Cost (NIC): NIC is the basic cost of a drug. It does not take account of discounts, dispensing costs, fees or prescription charges income.
4. Exemption Category Estimates: The exemption data are identified from the box ticked on the back of the prescription form and relies on the form being completed correctly which may not always be the case. Information for categories that are not required to pay a charge (e.g. children) is based on a one in 20 sample of all exempt prescriptions dispensed by community pharmacists, appliance contractors and dispensing doctors. The information we have is therefore an estimate and subject to sampling errors.

## Diabetes

**Helen Southworth:** To ask the Secretary of State for Health how many people were diagnosed with *(a)* type 1 and *(b)* type 2 diabetes in (i) Warrington, (ii) Cheshire, (iii) the North West and (iv) England in each of the last five years. [167131]

**Ann Keen:** The following table shows the number of people diagnosed with diabetes in Warrington, Cheshire, the North West and England in 2004-05, 2005-06 and 2006-07. These are the years for which figures are available. Figures are not available for type 1 and type 2 diabetes separately.

| | Health authority | Diabetes list size |
|---|---|---|
| *2004-05* | | |
| PCT | Central Cheshire | 9,420 |
| | Eastern Cheshire | 6,340 |
| | Cheshire West | 4,892 |
| | Ellesmere Port and Neston | 2,973 |
| | Warrington | 6,573 |
| SHA | Cheshire and Merseyside | 85,639 |
| | Cumbria and Lancashire | 70,346 |
| | Greater Manchester | 94,291 |
| England | England | 1,766,391 |
| *2005-06* | | |
| PCT | Central Cheshire | 9,982 |
| | Eastern Cheshire | 6,695 |
| | Cheshire West | 5,274 |
| | Ellesmere Port and Neston | 3,200 |
| | Warrington | 7,339 |
| SHA | Cheshire and Merseyside | 92,180 |
| | Cumbria and Lancashire | 74,534 |
| | Greater Manchester | 100,878 |
| England | England | 1,890,663 |
| *2006-07* | | |
| PCT | Central and Eastern Cheshire PCT | 17,437 |
| | Warrington PCT | 7,796 |
| | Western Cheshire PCT | 8,985 |
| SHA | North West Strategic Health Authority | 279,253 |
| England | England | 1,961,976 |

*Notes:*
1. Diabetes prevalence
The disease register in QOF for diabetes does not include any patient below the age of 17 and so the total disease register may be slightly lower than expected.
2. Primary care trust and strategic health authority boundaries
There is no primary care trust (PCT) known as Cheshire in the current PCT list. Information is therefore provided on the PCTs most closely aligned with this area: Central and Eastern Cheshire and Western Cheshire.
In October 2006, there was PCT restructure. For the QOF years 2004-05 and 2005-06, information is provided on the old PCTs that made up the new ones when the restructure occurred. Central Cheshire and Eastern Cheshire became Central and Eastern Cheshire, and Cheshire West and Ellesmere Port and Neston became Western Cheshire.
In July 2006, Strategic Health Authorities (SHAs) were restructured. Information is provided for 2004-05 and 2005-06 on the old SHAs that became the new North West SHA. Cheshire and Merseyside, Cumbria and Lancashire and Greater Manchester SHAs became the North West SHA.
3. Coverage of QOF
Patients will only contribute to the figures in QOF if they are registered with a general practice participating in QOF. Not all practices participate in QOF and some participate in only some parts (especially primary medical services practices who are paid under different arrangements for providing services which are part of QOF for general medical services practices).
*Source:*
Quality and Outcomes Framework (QOF) data published by the Information Centre for health and social Care. 2004-05 is the first year of data from this source.

## Doctors: Career Structure

**Norman Lamb:** To ask the Secretary of State for Health how many applicants to the inter-deanery job transfer scheme there have been to date; and how many applications have been successful. [171693]

**Ann Keen:** A total of 593 applications was received from doctors wishing to transfer. There were 61 applicants identified as matches for possible transfers. Three transfers took place involving five doctors and two general practitioners.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 21 November 2007, *Official Report*, column 996W, on doctors: training, how many registrar group doctors he expects will apply for the 8,000 advertised training places, broken down into *(a)* UK nationals, *(b)* other EEA nationals and *(c)* non-EEA nationals. [169857]

**Ann Keen:** Our working assumption is that the competition ratio for 2008 will be up to 3:1, higher than this year, and that half of all applicants will be from outside the European economic area.

We are working with Deaneries to ensure there are appropriate processes in place to handle large numbers of applications.

We would encourage applicants to consider carefully which parts of the country they apply to and for which specialties, as the competition ratios for some areas and some specialties are considerably higher than others.

### Doctors: Housing

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health which legislation *(a)* established and *(b)* removed the statutory responsibility of NHS trusts to provide accommodation for junior doctors. [170573]

**Ann Keen:** The Medical Act 1983 established the requirement for a doctor with provisional registration to be resident in the hospital or institution where he/she is employed and that this requirement is in the terms of his/her employment (section 11(3)). Further provisions were made by the Medical Act 1983 Regulations 2005.

Sections 10-13 of the Medical Act 1983 were repealed by the Medical Act 1983 (Amendment) and Miscellaneous Amendments Order 2006.

### English Language

**Damian Green:** To ask the Secretary of State for Health how much *(a)* his Department and *(b)* NHS trusts spent on English language classes for staff in each of the last three years; and if he will make a statement. [169557]

**Ann Keen:** This information is not collected centrally.

All national health service trusts should ensure that they have rigorous and effective recruitment processes in place to ensure that those they employ have the necessary communication and language skills.

### General Practitioners: Training

**Lynne Featherstone:** To ask the Secretary of State for Health how many general practitioners in each *(a)* Government region and *(b)* primary care trust area were invited by their primary care trust to attend courses to update their or their practice's skills in the last 18 months; and if he will make a statement. [165197]

**Mr. Hancock:** To ask the Secretary of State for Health what information his Department collects on the employment of people who have studied *(a)* midwifery and *(b)* other healthcare-related subjects post-qualification. [166749]

**Ann Keen:** These data are not collected centrally.

Post-registration training needs for national health service staff are determined against local NHS priorities, through appraisal processes and training needs analyses informed by local delivery plans and the needs of the service.

Access to training is affected by a number of factors such as the availability of funding, whether staff can be released, the availability of appropriate training interventions, mentors and assessors. It would not be practical for the centre to be prescriptive on this.

### Health Services: Information Services

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health representatives of which private sector providers of healthcare the Information Centre for Health and Social Care has included on its stakeholder and reference groups, as stated on the Our Priorities for 2007-08 section of its website; what progress the Information Centre has made in extending *(a)* support and *(b)* guidance to private sector providers; and what steps the Information Centre has taken in support of its aim to align information collected across the NHS and private sectors. [170500]

**Mr. Bradshaw:** The Information Centre for health and social care (IC) works with the Independent Healthcare Advisory Services and NHS Partners Network, , which represent a large number of independent sector providers. The IC also includes the following independent sector providers on its Reference Group for discussing data collection: Spire Healthcare, Nuffield Hospitals, Horder Centre, Care UK, Capio, General Healthcare Group/Netcare UK, Benenden Hospital and BMI Healthcare.

The IC supports the independent sector through its website, which includes guidance on information gathering, data, publications, and training. The IC publicises this material through its various stakeholder groups.

The IC has established a Working Group with the independent sector to improve the alignment of information across the national health service and independent sectors. The group is focusing particularly on alignment of information on mental health, healthcare associated infections, serious untoward incidents and patient experience.

### Heart Diseases

**Dr. Kumar:** To ask the Secretary of State for Health what guidance his Department gives general practitioners and accident and emergency departments on recognising the different symptoms of heart attacks demonstrated by men and women. [166598]

**Ann Keen:** As women continue to live longer than men, more of them are presenting with heart disease. It is important that health services recognise this, and ensure that men and women alike receive treatment in line with best practice.

The National Service Framework (NSF) for Coronary Heart Disease (CHD), published in 2000, sets out national standards for treatment of CHD. The NSF includes information about the way in which rates of CHD vary according to social circumstances, gender and ethnicity. One of the objectives in publishing the NSF was to bring these variations to the attention of the health service in order to reduce undesirable variations and inconsistencies in service delivery and access, and to improve the overall quality of care for CHD.

### Heart Disease: Transplant Surgery

**Mike Penning:** To ask the Secretary of State for Health what representations have been received by *(a)* the National Commissioning Group and *(b)* other competent bodies on assessing the potential use of beating heart transplant technology in transplant units; what the outcomes have been of assessments undertaken by those bodies; what the reasons are for decisions that may have been reached; and if he will make a statement. [168314]

**Ann Keen:** The National Commissioning Group has received no representation on assessing the potential use of beating heart technology but is aware that both Papworth and Harefield hospitals participated in a European study of the organ care system; the results of which have not yet been published in a peer-reviewed journal.

**Mike Penning:** To ask the Secretary of State for Health what response he has made to the report by the Healthcare Commission on Intervention at Papworth Hospital NHS Foundation Trust and its recommendations on reducing ischaemic time; whether he has assessed the merits of using beating heart transplant technology in the UK's transplant units; and if he will make a statement. [168368]

**Ann Keen:** Heart transplantation operations are inherently high risk and services need to be actively monitored and practice reviewed to assure the quality and the safety of patients. Papworth hospital has resumed heart transplantation after the Healthcare Commission said that quality of care at the hospital was good and the Trust agreed to implement a number of recommendations to improve some aspects of practice in line with the best standards. We are aware that Papworth hospital has participated in a European study looking at the merits of using beating heart technology but that results have not yet been published in a peer-reviewed journal.

**Mike Penning:** To ask the Secretary of State for Health (1) what assessment he has made of research on the correlation between ischaemia time and 30 day mortality rates after heart transplantation; and if he will make a statement; [168371]

(2) whether he has reviewed all commercially-available medical technologies and assessed their ability to reduce ischaemic injury to donor organs for use in organ transplantation; and if he will make a statement; [168372]

(3) what estimate he has made of the 30 day survival rate for heart transplant patients who received a beating heart transplant using the organ care system at Papworth and Harefield hospitals; and if he will make a statement; [168373]

(4) if he will make an assessment of the likely effect on survival rates in heart transplantation of the use of the organ care system/beating heart transplant technology in all the UK's transplant units; and if he will make a statement; [168374]

(5) if he will make an assessment of the likely effect on the number of donor organs in heart transplantation of the use of the organ care system/beating heart transplant technology in all the UK's transplant units; and if he will make a statement. [168375]

**Ann Keen:** A European study of the use of the organ care system has been carried out in 20 patients including seven at Papworth hospital and one at Harefield hospital. We understand that the study was not a randomised controlled trial and had no comparison group. The results were presented at 2007 meeting of the International Society for Heart and Lung Transplantation but have yet to be published in a peer-reviewed journal. This presentation stated that there were no deaths within 30 days of transplantation in the 20 patients in the study. We have not made an assessment of the merits of using the organ care system in United Kingdom transplant units but understand that the Food and Drug Administration has given approval of a research study at five named centres in the United States of America to evaluate the safety and performance of the organ care system in heart transplantation. This study will start in 2008 and may provide relevant evidence for the future. The International Society for Heart and Lung Transplantation publishes figures for survival at one year following heart transplant according to different ischaemic times.

**Mike Penning:** To ask the Secretary of State for Health whether *(a)* he and *(b)* other Ministers in his Department have discussed the clinical merits of beating heart transplant technology with the Clinical Director of Transplant Services at Papworth Hospital; and if he will make a statement. [168376]

**Ann Keen:** We have not discussed the clinical merits of beating heart transplant technology with the clinical director of transplant services at Papworth hospital.

## Hillingdon Primary Care Trust: Infectious Diseases

**Mr. Randall:** To ask the Secretary of State for Health how many cases of *(a)* MRSA and *(b) clostridium difficile* were recorded in the Hillingdon Primary Care Trust in each year since 1997. [169683]

**Ann Keen:** Information is not available in the format requested. However, the information is collected at trust level. The following table shows information on how many cases of methicillin resistant *Staphylococcus aureus* (MRSA) bloodstream infections and *Clostridium difficile* infection from the mandatory surveillance scheme run by the Health Protection Agency (HPA). Data are only available from 2001.

| *April to March each year* | *Number of (MRSA) bloodstream infection reports at the Hillingdon hospital NHS trust* |
|---|---|
| 2001-02 | 33 |
| 2002-03 | 36 |
| 2003-04 | 24 |
| 2004-05 | 30 |
| 2005-06 | 24 |
| 2006-07 | 38 |

| | *Number of C. difficile reports for patients aged 65 years and over at the Hillingdon hospital NHS Trust* |
|---|---|
| January-December 2004 | 219 |
| January-December 2005 | 140 |
| January-December 2006 | 196 |
| January-June 2007 (6 months only) | 122 |

*Source:*
Health Protection Agency—provisional data

### Hospitals: Infectious Diseases

**Mike Penning:** To ask the Secretary of State for Health which the 10 most common types of hospital infection were in the last year for which figures are available; and what the incidence was in each in 1997. [170656]

**Ann Keen:** The requested information is not available and the best available data are from the Health Protection Agency's (HPA) voluntary reporting system.

The following table gives data collected from the voluntary reporting system for 1997 and 2006 for the nine most common causes of bacteraemia[1] (bacterial bloodstream infections) and for *Clostridium difficile*, which is associated with diarrhoea and not the blood stream.

[1] These organisms are associated with infections that are transmitted mainly or partly within hospitals.

| *Organism* | *1997* | *2006* |
|---|---|---|
| Escherichia coli | 10179 | 18043 |
| Coagulase negative staphylococci | 4351 | 14184 |
| Staphylococcus aureus | 8974 | 13616 |
| MRSA (Percentage) | 29 | 38 |
| Enterococcus spp | 2396 | 7070 |
| Klebsiella spp | 2378 | 5162 |
| Streptococcus pneumoniae | 5256 | 4539 |
| Pseudomonas spp | 1721 | 3454 |
| Enterobacter spp | 1425 | 2410 |
| Proteus spp | 1413 | 1839 |
| Clostridium difficile | 14541 | 51089 |

*Note:*
Data source HPA laboratory reports (voluntary reporting system).

The increase in bacteraemias is partly due to better reporting, surveillance and testing and may also reflect a changing hospital population, with more patients who are vulnerable to infection through conditions which compromise their immune systems being treated.

### Hospitals: Police

**Mike Penning:** To ask the Secretary of State for Health (1) how many hospitals have special arrangements with local police forces to allow *(a)* permanent and *(b)* semi-permanent stationing of police officers on their grounds to deter criminal activity; [170607]

(2) how many criminal convictions following assaults on ambulance drivers there were in the last 12 months for which figures are available; [170608]

(3) how many attacks there were on ambulance drivers in the last 12 months for which figures are available; [170609]

(4) how many criminal convictions there were following assaults on hospital staff in the last 12 months for which figures are available; [170610]

(5) how many attacks there were on hospital staff in the last 12 months for which figures are available. [170611]

**Ann Keen:** In 2003 the national health service security management service (NHS SMS) was created and assumed responsibility for tackling violence against national health service staff.

The NHS SMS has signed a memorandum of understanding with the Association of Chief Police Officers. This encourages NHS trusts to agree a protocol with their local police to address how they can work together to deter criminal activity. Special arrangements between NHS trusts and the police are a matter for local agreement and information is not collated centrally on these agreements.

Since 2004-05, the NHS SMS has collected statistics on the number of physical assaults against NHS staff and the number of criminal sanctions against individuals who have assaulted NHS staff. Information on assaults and sanctions in relation to ambulance and hospital staff in the year 2006-07 is provided in the following table.

| *NHS sector* | *Number of reported assaults* | *Number of criminal sanctions*[1] |
|---|---|---|
| Acute and Foundation trusts | 9,685 | 419 |
| Ambulance workers | 1,006 | 142 |

[1] Figures include all criminal sanctions:
Cautions and conditional cautions
Conditional discharges
Community rehabilitation or punishment orders
Imprisonment (including suspended sentences)
Fines

### Incontinence

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health for what reasons the Commercial Directorate's latest consultation on reimbursement for stoma and incontinence products and services under Part IX of the Drug Tariff omits reference to four of the seven objectives originally set for the review covering fair prices for the NHS and reasonable returns for suppliers, facilitating the introduction of innovative solutions, maintaining local choice in the provision of services and keeping administration to the necessary minimum; and how performance against all the review's objectives will be measured. [170068]

**Mr. Bradshaw:** The review and related consultation has been ongoing since October 2005 and none of the original list of objectives is omitted.

In the current consultation document, the list of objectives is streamlined for simplicity. The Department has subsequently reiterated all of the objectives of the review contained in Clarification Document published on 4 October, which is available on the Department's website at:

www.dh.gov.uk/en/Consultations/Liveconsultations/DH_078135

A copy has been placed in the Library.

Following Cabinet Office guidelines the Department will be carrying out a review three years post-implementation to assess whether the objects of any changes are achieving their objectives.

### Medical Treatments: Waiting Lists

**Andrew George:** To ask the Secretary of State for Health what targets the Government sets for waiting times for cancer patients requiring diagnostic endoscopies; and what the average waiting time was for cancer patients awaiting diagnostic endoscopies by the Royal Cornwall Trust in the most recent period for which figures are available. [169400]

**Ann Keen:** There are no specific waiting time targets for urgent endoscopies for cancer patients and endoscopy waiting times are not collected centrally. However, where a patient needs an urgent endoscopy following urgent referral by their general practitioner for suspected cancer, the whole patient pathway from referral to commencing first cancer treatment should not exceed 62 days.

Outside the cancer pathway, by 2008, there will be a maximum 18-week pathway from referral to treatment for all patients. This will include time spent waiting for diagnostic tests.

### Mental Health Services: Prisons

**Mr. Hurd:** To ask the Secretary of State for Health what the outcome was of the most recent mental health needs assessment in each prison establishment. [171955]

**Mr. Ivan Lewis:** In 2001, the document "Changing the Outlook: A Strategy for Developing and Modernising Mental Health Services in Prisons" (2001) asked prisons to work with their local national health service partners to review the mental health needs assessments they made during 2001-01 and to develop action plans to fill any gaps in provision that may have been identified.

This process informed the development of prison mental health services, and the introduction of prison mental health in-reach teams, during the process of transferring responsibility for prison health services from HM Prison Service to the NHS.

Since 2006, all prison health services, including prison mental health services, have been fully commissioned by NHS primary care trusts (PCTs). Local health needs assessments for prison populations are now therefore a matter for PCTs.

**Mr. Hurd:** To ask the Secretary of State for Health how much was spent by the Government on mental health services in prison in each year since 1997. [171977]

**Mr. Ivan Lewis:** In England the total amount allocated specifically to primary care trusts for national health service mental health services in prisons was £1,719,000 in 2001-02; £3,685,000 in 2002-03; £9,400,000 in 2003-04; and £20,000,000 for each year since 2005-06.

The information requested is not available before 2001.

### Mental Health: Employment

**Mr. Harper:** To ask the Secretary of State for Health pursuant to the written ministerial statement of 27 November 2007, on mental health and employment: meeting the challenge, when he expects to establish a mental health forum. [169958]

**Mrs. McGuire:** I have been asked to reply.

On 27 November we announced our intention to establish a mental health forum to bring together all those involved in the delivery of Pathways to Work support, in order to share evidence and experiences in relation to support for people with mental health conditions. When the rollout of Pathways to Work is completed, we will bring forward proposals for this forum.

### Mentally Ill: Drugs

**Mr. Laws:** To ask the Secretary of State for Health how many people were prescribed drugs for *(a)* depression, *(b)* behaviour control/management and *(c)* mental health problems in each year since 1980-81; at what total cost in each year; and if he will make a statement. [172093]

**Mr. Ivan Lewis:** Not all prescriptions for drugs which are licensed for treating mental illness will have been prescribed for a mental illness. Some drugs, which are indicated for treating mental illness, are also prescribed for other illnesses such as narcolepsy and obstructive sleep apnoea syndrome. Some drugs used to treat depression are also used for other purposes.

Information on the total number of patients receiving prescriptions for medicines licensed for treating depression, behaviour control and other mental health problems from the national health service in England is not collected centrally.

Data are available on the total number of prescriptions dispensed in primary care for medicines licensed for treating these conditions, in each financial year from 1991-92 to 2006-07, and is shown in table 1. Prescriptions for behaviour control or management have been identified as those medicines which are indicated as central nervous system stimulants and drugs which are licensed for treating attention deficit hyperactivity disorder. Data on the number of prescriptions dispensed prior to 1991 are not reliable and have not been included in the table.

*Table 1: Total number of prescriptions dispensed in primary care settings by the NHS in England for medicines which are licensed for treating (a) depression, (b) behaviour control or management and (c) other mental health problems between 1991-92 and 2006-07—data are for all ages, male and female combined*

*Thousand*

| *Financial year* | *All antidepressant drugs* | *All central nervous system stimulants and drugs used for attention deficit hyperactivity disorder* | *All drugs used in psychoses and related disorders* |
|---|---|---|---|
| 1991-92 | 9,167.3 | 69.9 | 3,605.4 |
| 1992-93 | 10,155.9 | 78.3 | 3,843.9 |
| 1993-94 | 10,999.3 | 89.6 | 4,095.7 |
| 1994-95 | 12,171.9 | 100.7 | 4,345.9 |

*Source:*
Prescription Cost Analysis, NHS Information Centre for health and social care.

An indication of the total annual cost of these drugs can be obtained from data on their total net ingredient cost for each year. Data for 1980 to 1990 are shown in table 2 and data for 1991-92 to 2006-07 are shown in table 3. Data up to December 1990 were collected on a calendar year basis and data since 1991 have been collected on a financial year basis.

*Table 2: Total net ingredient cost of prescriptions dispensed in primary care settings by the NHS in England for medicines which are licensed for treating (a) depression, (b) behaviour control or management and (c) other mental health problems 1980-90—data are for all ages, male and female combined*

*£000*

| 2006-07 | 285,623.6 | 251,855.6 | 30,387.9 |

*Notes:*
1. Prescription information is taken from the PCA system, supplied by the Prescription Pricing Division of the Business Services Authority. It is based on a full analysis of all prescriptions dispensed in the community by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England.
2. The data include prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man, but dispensed in England. The data apply to primary care settings and exclude drugs dispensed in hospitals, including mental health trusts, or private prescriptions.
3. The net ingredient cost is the basic cost of a drug. They do not take account of discounts, dispensing costs, fees or prescription charges income.
4. The data up to 1990 are not consistent with data from 1991 onwards. Figures for 1980-90 are based on fees, and on a sample of one in 200 prescriptions dispensed by community pharmacists and appliance contractors only. Figures for 1991 onwards are based on items and cover all prescriptions dispensed by community pharmacists, appliance contractors dispensing doctors and prescriptions submitted by prescribing doctors for items personally administered.

Prescription Cost Analysis (PCA), NHS Information Centre for health and social care.

## NHS

**Mr. Oaten:** To ask the Secretary of State for Health what plans he has to break up the commercial directorate of the NHS and create regional centres to carry out its work; and if he will make a statement. [173415]

**Mr. Bradshaw:** The Commercial Directorate will continue to play a major role in providing commercial expertise to the Department and in helping build commercial capability across the national health service. It will exercise its role in partnership with strategic health authorities and other NHS organisations.

## NHS: British Nationality

**Mike Penning:** To ask the Secretary of State for Health whether any jobs within the NHS are reserved for British citizens; and if he will make a statement. [170973]

**Ann Keen:** When recruiting, national health service employers will follow employment laws, the immigration rules and European Community directives and should be mindful of any guidance on employment published by the Department and its agencies. These documents will include provisions on the consideration and employment of applicants in relation to their nationality, ethnicity, race and immigration status.

### NHS: Fees and Charges

**Mike Penning:** To ask the Secretary of State for Health what the cost to the NHS was of road calming tolls and charges in the last 12 months for which figures are available. [170543]

**Mr. Bradshaw:** Information on costs relating to road calming tolls incurred by the national health service through non-emergency ambulance services and the Hospital Travel Costs Scheme is not collected centrally. It would be for the NHS locally to assume and manage responsibility for paying any costs relating to this issue.

### NHS: Finance

**Mr. Lansley:** To ask the Secretary of State for Health for what reasons the estimated out-turn for NHS resource spending in 2007-08 on page 176 of HM Treasury's 2007 pre-Budget report and comprehensive spending review is almost £1 billion higher than the baseline for resource spending that the NHS has been set for 2007-08 on page 207 of the document. [170189]

**Mr. Bradshaw:** The difference in figures is due to timing. The higher value of £87.6 billion reported in table B13 (page 176) of HM Treasury's pre-Budget report is consistent with the 2007-08 plan revenue resource expenditure reported in the "Department of Health Department Report 2007" (Figure Al).

The baseline figure of £86.848 billion for 2007-08 (on page 207) used in the Spending Review (SR) is the earlier figure modified by latest forecast technical underspends on non-cash and a transfer from the national health service departmental expenditure limit to NHS annually managed expenditure of funding for impairments.

The approach used by the Department for establishing SR baselines is consistent with that used by all other Departments.

### NHS: Illegal Immigrants

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what estimate he has made of the number of illegal immigrants *(a)* working in the NHS and *(b)* who have worked in the NHS in each of the last five years as (i) NHS personnel and (ii) contractors. [170564]

**Ann Keen:** It is the responsibility of employers (national health service and otherwise) to ensure that their employees are eligible to work in the United Kingdom.

### NHS: Management

**Mike Penning:** To ask the Secretary of State for Health how many managers were employed in the NHS in the latest period for which figures are available; and how many there were in 1997. [170596]

**Ann Keen:** The latest published annual national health service workforce census showed there were 36,751 managers and senior managers employed in the NHS in England in 2006 compared with 22,173 in 1997.

Managers make up less than 3 per cent. of the NHS workforce. The number of managers and senior managers fell by 7.2 per cent. from 2005 to 2006.

### NHS: Pensions

**Mike Penning:** To ask the Secretary of State for Health what the most recent estimated pensions liability is of the NHS; what estimate was made of liability in May 1997; and what estimate he has made of the projected future change in the liability. [170620]

**Ann Keen:** The Government Actuary's Department (GAD) has valued the total future liabilities of the NHS Pension Scheme (England and Wales) as at 31 March 2007 to be £218 billion. The Government Actuary's Department has valued the liabilities for the NHS Pension Schemes for the United Kingdom as at 31 March 2006 to be £189 billion.

Figures produced by the GAD for the Inland Revenue Annual Statistical Digest, for the year ending April 1998, show the UK NHS Pension Scheme liability was £79 billion. However, the actuarial assumptions underlying these figures and those of the 2006 valuation are not directly comparable and have been produced for different purposes.

GAD are in the process of preparing a detailed actuarial valuation of the scheme as at 31 March 2004 which will be published later this year and will include analysis of the factors leading to any change in valuation.

**Mike Penning:** To ask the Secretary of State for Health how much was spent on NHS pensions in each of the last 12 months. [170758]

**Ann Keen:** The information requested for England and Wales is given in the following table.

| *Month of payment* | *Benefit payments (£)* |
|---|---|
| *2006* | |
| October | 342,215,985 |
| November | 351,768,181 |
| December | 372,243,249 |
| *2007* | |
| January | 333,913,430 |
| February | 342,993,413 |
| March | 395,647,395 |
| April | 416,444,982 |
| May | 400,168,271 |
| June | 413,896,856 |
| July | 388,429,121 |
| August | 433,947,880 |
| September | 353,219,060 |
| Total | 4,544,887,823 |

*Source:*
NHS Pensions.

Over the same period, total employer and employee contributions received were £6,720,182,642.

## NHS: Public Appointments

**Mr. McCartney:** To ask the Secretary of State for Health what the *(a)* name, *(b)* employment background, *(c)* ethnicity, *(d)* gender and *(e)* political affiliation, if any, is of each person appointed to the boards of (i) NHS acute trusts, (ii) primary care trusts and (iii) mental health trusts in North West of England since 2001. [169211]

**Ann Keen:** The appointment of non-executive members to the boards of national health service acute trusts, primary care trusts and mental health trusts has, since 2001, been delegated by the Secretary of State to the Appointments Commission. The Commission has been asked to respond to my right hon. Friend.

The appointment of executive members to the boards of these bodies are made locally by each NHS organisation as an employer in their own right. The information requested is, therefore, not held centrally for executive appointments to NHS boards.

## Nurses: Bexley

**Mr. Evennett:** To ask the Secretary of State for Health how many practice nurses there were in *(a)* Bexleyheath and Crayford constituency and *(b)* the London Borough of Bexley in (i) 1997 and (ii) 2007. [167475]

**Ann Keen:** The information requested is only available by primary care trust (PCT) area.

The latest figures available for the number of practice nurses in Bexley Care Trust are in the following table.

The area mentioned came under Bexley and Greenwich Health Authority (HA) in 1997, so the figures for Greenwich Teaching Primary Care Trust have been included in the 2006 data for comparability purposes.

*GP practice nurses for selected areas, as at 1997 and 2006*

| | | Number (headcount) | |
|---|---|---|---|
| | | *1997* | *2006* |
| QAA | Bexley and Greenwich HA | 136 | — |
| TAK | Bexley Care Trust | — | 100 |
| 5A8 | Greenwich Teaching PCT | — | 82 |

'—' Denotes data not available

*Notes:*

1. Data as at 1 October 1997 and 30 September 2006
2. Data presented for organisations in existence in the specified years

*Source:*

The Information Centre for health and social care General and Personal Medical Services Statistics

## Nurses: Foreign Workers

**Mike Penning:** To ask the Secretary of State for Health which 10 nationalities supplied the greatest number of foreign national nurses in the NHS in the latest period for which figures are available. [170658]

**Ann Keen:** This information is not collected centrally.

The Nursing and Midwifery Council does not keep records of the nationality of registered nurses or midwives but does record the country of qualification of new registrants. The latest information is available in the document "Nursing and Midwifery Council, Statistical analysis of the register, 1 April 2005 to 31 March 2006", which has been placed in the Library. Registration with the Nursing and Midwifery Council is not a guarantee of employment in the national health service and newly registered nurses and midwives may not be in the United Kingdom or working in the NHS.

## Nurses: Manpower

**Mr. Randall:** To ask the Secretary of State for Health how many practice nurses there were in *(a)* Uxbridge constituency, *(b)* the London borough of Hillingdon and *(c)* England in each year since 1997. [169691]

**Ann Keen:** The information requested can be found in the following table, which shows the number of general practitioner Practice Nurses for England, Hillingdon Health Authority and Hillingdon Primary Care Trust (of which Uxbridge is a part) since 1997-2006 (which is the latest data available).

| | Number (headcount) | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | *1997* | *1998*[1] | *1999*[1] | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
| England | 18,389 | 18,894 | 19,495 | 19,200 | 19,846 | 20,983 | 21,667 | 22,144 | 22,904 | 23,797 |
| London | 2,564 | 2,832 | 2,780 | 2,827 | 2,741 | 2,891 | 2,821 | 2,906 | 2,862 | 2,898 |
| Hillingdon HA | 87 | 97 | 95 | 97 | n/a | n/a | n/a | n/a | n/a | n/a |
| Hillingdon PCT | n/a | n/a | n/a | n/a | 98 | 93 | 99 | 99 | 96 | 93 |

n/a = not available

[1] Headcount Practice Nurse figures are estimated for these years.

Data presented for Organisations in existence in the specified years.

Data as at 1 October 1997-99, 30 September 2000-06.

*Source:*

The Information Centre for health and social care General and Personal Medical Services Statistics

## Nurses: Pay

**Mr. Grogan:** To ask the Secretary of State for Health how the figure of £40 per visit proposed by his Department as the level of remuneration for employers of specialist nurses or stoma nurses was reached. [167471]

**Ann Keen:** The formula used for calculating the fee to cover the cost of conducting a home visit by a specialist nurse is shown on page 14 of "Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—to Primary Care Revised Proposals. Annex A: Proposals regarding Service Provision and Remuneration", which is available on the Department's website at:

www.dh.gov.uk/en/Consultations/Liveconsultations/DH_078135

Copies have also been placed in the Library.

| *Fee components* | *Calculated value* | *Underlying assumptions* | *Source* |
|---|---|---|---|
| Annual number of nurse visits conducted | (240 x 8) / 1.5 = 1,280 | 1.5 hours (including travelling time) spent per visit | Based on industry research |
| | | Eight working hours per day | Based on industry norm |
| | | 240 working days per year | Based on industry norm |
| Cost per specialist nurse home visit | Cost per nurse visit = £48,000 / 1,280 = £38 | Gross annual salary of nurse conducting home visit at £48,000 | Based on data for Grade 8A nurse from the Royal College of Nursing |
| | | 1,280 nurse visits conducted by a nurse per year | Based on aforementioned calculation* |

While the calculated value amounts to £38 per nurse visit, the fee level proposed in this consultation is £40 per nurse visit.

Note that it is also proposed that the number of these visits that a dispensing contractor may declare in any financial year (April to March) should be limited to l/70th of the part IXA (catheter), part IXB (incontinence-related) and part IXC (stoma) prescription items dispensed in that year.

## Nutrition: Training

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health which organisations are developing the online training session on nutritional care and assistance with eating referred to on page 4 of his Department's document, Improving Nutritional Care; how the training session will be made available to *(a)* NHS and *(b)* social care staff; whether he intends to make the training session available to those health professionals who work outside the NHS and social care services; what topics he intends the online training session to cover; what the cost to the public purse will be of its development; and if he will make a statement. [170067]

**Mr. Ivan Lewis:** The online training session on nutritional care referred to in "Improving Nutritional Care—A joint Action Plan from the Department of Health and Nutrition Summit stakeholders" is being designed and provided by the National Health Service Core Learning Unit. The NHS Core Learning Unit is currently developing the content of the course and it will be made available in May 2008. Topics for the course are being decided by an expert reference group and it is expected to cover provision of support to service users during mealtimes. The course will be free to all NHS staff as an online e-learning module and will be made available to all social care staff and also those working outside the NHS and social care system at a negotiated price. The cost of establishing the course is contained within the existing budget of the NHS Core Learning Unit as part of their programme of work for 2007-08.

## Oral Cancer: Screening

**Mrs. Villiers:** To ask the Secretary of State for Health whether he plans to introduce screening for mouth cancer. [169121]

**Ann Keen:** The United Kingdom National Screening Committee (NSC) advises Ministers and the national health service in all four countries about all aspects of screening policy. Using research evidence, pilot programmes and economic evaluation, it assesses the evidence for programmes against a set of internationally recognised criteria.

The current position of the NSC is that screening for mouth cancer should not be offered.

## Ovarian Cancer

**Mrs. Hodgson:** To ask the Secretary of State for Health (1) what assessment he has made of the levels of awareness of the symptoms of ovarian cancer; [169020]

(2) what steps he is taking to raise levels of awareness of the symptoms of ovarian cancer through the Cancer Reform Strategy. [169021]

**Ann Keen:** The Cancer Reform Strategy, published on 3 December, announced the National Awareness and Early Detection Initiative, which will include collaborative work between the Department of Health, health professionals, patient groups and the voluntary sector to develop standardised messages to be used in information resources and campaigns aimed at raising awareness of the risk factors and signs and symptoms of cancer, including ovarian cancer. The strategy also explained that Cancer Research UK is developing a modular assessment tool to assess levels of awareness of cancer risk factors and symptoms.

## Paramedical Staff: Private Sector

**Mike Penning:** To ask the Secretary of State for Health what his policy is on registering private training programmes for non-NHS paramedics; and if he will make a statement. [170546]

**Mr. Bradshaw:** The Health Professions Council has the responsibility for regulating the paramedic profession and sets standards for the education and training of paramedics. These standards are the same for all education providers and programmes—public and private.

## Patients: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health with reference to the answer of 3 September 2007, *Official Report*, column 1884W, on patients: nutrition, how many bed days for finished episodes there were where the *(a)* primary and *(b)* secondary diagnosis was (i) malnutrition and (ii) nutritional anaemias in each year since 1997-98. [164606]

**Dawn Primarolo:** The information is in the following table.

*Count of bed days in the year for finished episodes where there was a primary or secondary diagnosis of nutritional anaemias[1] (D50-D53), national health service hospitals, England, 2005-06 to 1997-98*

| | Bed days during the year |
|---|---|
| 2005-06 | 836,984 |
| 2004-05 | 802,632 |
| 2003-04 | 779,913 |
| 2002-03 | 752,241 |
| 2001-02 | 660,658 |
| 2000-01 | 632,467 |
| 1999-2000 | 613,567 |
| 1998-99 | 602,670 |
| 1997-98 | 588,023 |

[1] Nutritional anaemias

*Notes:*

D50 Iron deficiency anaemias

D51 Vitamin B12 deficiency anaemias

D52 Folate deficiency anaemias

D53 Other nutritional anaemias

## Prescriptions: Hampshire

**Sandra Gidley:** To ask the Secretary of State for Health if he will list the dispensing doctors in Hampshire, broken down by *(a)* local authority area and *(b)* primary care trust for each of the last five years. [170319]

**Mr. Ivan Lewis:** The information requested can be found in the following table. Data are only collected at primary care trust (PCT) level.

*Summary of dispensing doctors in Hampshire*

| | *Financial years* | | | | |
|---|---|---|---|---|---|
| *PCT* | *2003-04* | *2004-05* | *2005-06* | *2006-07* | *2007-08* |
| All specified organisations | 151 | 156 | 165 | 166 | 147 |
| Blackwater Valley[1] | 2 | 2 | 2 | 2 | 0 |
| East Hampshire[1] | 23 | 27 | 27 | 26 | 0 |
| Eastleigh and Test Valley South[1] | 19 | 19 | 20 | 20 | 0 |
| Fareham and Gosport[1] | 0 | 0 | 0 | 0 | 0 |
| Mid Hampshire[1] | 64 | 63 | 68 | 69 | 0 |
| New Forest[1] | 12 | 12 | 11 | 12 | 0 |
| North Hampshire[1] | 31 | 33 | 37 | 37 | 0 |
| Hampshire[2] | 0 | 0 | 0 | 166 | 147 |

[1] These PCTs ceased operating on 30 September 2006

[2] Hampshire PCT starting operating on 1 October 2006

*Note:*

Data as at 1 April in each period

*Source:*

NHS Business Service Authority—Prescription Pricing Division

## Pressure Sores

**Mr. Burstow:** To ask the Secretary of State for Health (1) when his Department last commissioned studies into the prevalence of pressure sores in *(a)* hospital settings, *(b)* care homes and *(c)* the community; [172553]

(2) how many critical incident reports in which pressure sores have been cited as a factor were produced in each of the last three years, broken down by NHS trust; [172555]

(3) what guidance his Department provides to NHS trusts on collecting and recording data on bed sores. [172562]

**Mr. Ivan Lewis:** The Department does not provide guidance to the NHS on collecting and recording data on bed sores.

The Department has not commissioned studies on the prevalence of pressure sores in hospital, care homes, or the community.

Information on the number of critical incident reports, in which pressure sores were cited as a factor, is not available centrally.

## Prostate Cancer

**Mr. Frank Field:** To ask the Secretary of State for Health what steps he is taking to increase the numbers of clinical nurses specialising in prostate cancer. [168785]

**Ann Keen:** Workforce planning is a matter for local determination. It is for local workforce planners to determine the prostate cancer nurse needs of their local populations with appropriate support from the Workforce Review Team, National Workforce Projects and NHS Employers.

## Queen's Hospital Romford: Abuse

**Andrew Rosindell:** To ask the Secretary of State for Health how many instances of abuse of hospital staff have been recorded at Queen's Hospital, Romford, since its establishment. [167438]

**Ann Keen:** The information is not available in the format requested. The following table shows the number of reported physical assaults on national health service staff in England 2004-05, 2005-06 and 2006-07 at Barking, Havering and Redbridge Hospitals NHS Trust.

*Barking, Havering and Redbridge Hospitals NHS Trust*

| | *Physical assaults* |
|---|---|
| 2004-05 | 143 |
| 2005-06 | 174 |
| 2006-07 | 137 |

*Source:*

National Health Service Security Management Service (NHS SMS)

A table showing the estimated number of reported violent incidents collected by the Department of Health for 2000-01, 2001-02 and 2002-03 for each hospital trust in England is contained in the Survey of Reported Violent or Abusive Incidents, Accidents Involving Staff and Sickness Absence in NHS Trusts and Health Authorities, in England, which has been placed in the Library.

## Radiotherapy: Finance

**Mr. Jamie Reed:** To ask the Secretary of State for Health by what mechanism the additional £200 million allocated for increased radiotherapy capacity under the new NHS Cancer Reform Strategy will be allocated to individual *(a)* primary care trusts and *(b)* hospitals. [171904]

**Ann Keen:** £200 million is the annual cost to the national health service of radiotherapy services. To increase capacity and deliver world class treatment to cancer patients in England we will invest £130 million in new equipment and staff over the next three years.

The revenue component of the £130 million will be included in primary care trust (PCT) allocations, with PCTs agreeing funding to hospitals in line with locally agreed contracts.

The capital funding for improvements to cancer services is included within the total capital funding available to the NHS. The detail of how this investment will be delivered will be agreed as part of the NHS capital planning process.

## Seasonal Affective Disorder

**Mr. Yeo:** To ask the Secretary of State for Health what estimate his Department has made of the potential effect on the incidence of seasonally affected depression of introducing British Summer Time in winter and Double British Summer Time in summer. [172285]

**Mr. Ivan Lewis:** Seasonal affective disorder is thought to be related to the overall number of daylight hours a person experiences through the year. The introduction of British Summer Time alone would thus have no overall effect on its incidence.

## Spectacles: Voucher Schemes

**Kerry McCarthy:** To ask the Secretary of State for Health if he will consider the merits of introducing NHS vouchers to meet the cost of sports glasses for those under 19 years of age and in full-time education. [166740]

**Ann Keen:** National health service optical vouchers are available to children under 16 and children aged 16, 17 and 18 in full-time education. Where optical vouchers have been issued following the testing of sight they are used towards the cost of a powered optical appliance which meets the needs identified in the sight test. This is intended to be for optical appliances which meet the everyday needs of the patient. Primary care trusts have the discretion to approve the issue of a second NHS optical voucher although this would only be in exceptional circumstances and based on clinical need. There are no plans to alter the current voucher arrangements.

## Suffolk Mental Health Partnership NHS Trust: Manpower

**Mr. Spring:** To ask the Secretary of State for Health how many health workers were employed in Suffolk Mental Health Partnership NHS Trust in each of the last five years. [166151]

**Mr. Ivan Lewis:** The information requested can be found in the following table.

*National health service hospital and community health services: NHS staff in the Suffolk Mental Health Partnership NHS Trust by main staff group as at 30 September each specified year*

*Headcount*

| | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|
| Total staff | 2,246 | 2,373 | 2,462 | 2,446 | 2,302 |
| Medical and dental staff | 76 | 82 | 85 | 84 | 85 |
| Non-medical staff total | 2,170 | 2,291 | 2,377 | 2,362 | 2,217 |
| Professionally qualified clinical staff | 765 | 776 | 804 | 794 | 766 |
| Qualified nursing, midwifery and health visiting staff | 617 | 614 | 642 | 632 | 614 |
| Qualified scientific, therapeutic (ST) and technical staff (T) | 148 | 162 | 162 | 162 | 152 |
| Qualified allied health professions | 96 | 109 | 106 | 103 | 95 |
| Other qualified ST and T staff | 52 | 53 | 56 | 59 | 57 |
| Support to clinical staff | 798 | 905 | 976 | 974 | 907 |
| Support to doctors and nursing staff | 774 | 879 | 951 | 952 | 881 |
| Support to ST and T staff | 24 | 26 | 25 | 22 | 26 |
| NHS infrastructure support | 607 | 610 | 597 | 594 | 544 |
| Central functions | 182 | 183 | 178 | 215 | 201 |
| Hotel, property and estates | 326 | 319 | 314 | 291 | 272 |
| Managers and senior managers | 99 | 108 | 105 | 88 | 71 |

## Telford and Wrekin Primary Care Trust: Strokes

**David Wright:** To ask the Secretary of State for Health what assessment he has made of the effectiveness of the delivery of the national service framework on stroke services in the Telford and Wrekin Primary Care Trust area; and if he will make a statement. [165191]

**Ann Keen:** The Department does not currently have a national service framework (NSF) on stroke services. Therefore, it is not possible to comment on the effectiveness of the delivery of such a document in the Telford and Wrekin primary care trust area.

However, the Department recently carried out a consultation exercise on a stroke strategy document and this document was launched on 5 December. In addition, the NSF for long-term conditions was published in 2004 and this provides general guidelines for a range of conditions, including stroke. Prior to this the NSF for Older People, published in 2001, included a chapter on stroke services.

### Transplant Surgery

**Mike Penning:** To ask the Secretary of State for Health what assessment he has made of the effect of using the organ care system on *(a)* the level of ischaemic injury to donor organs, *(b)* the outcomes after organ transplant procedure and *(c)* the level of utilisation of existing donor organs; and if he will make a statement. [168369]

**Ann Keen:** I have not made an assessment of the effect of using the organ care system in UK transplant units but understand that the Food and Drug Administration has given approval of a research study at five named centres in the United States of America to evaluate the safety and performance of the organ care system in heart transplantation. This study will start in 2008 and may provide relevant evidence for the future.

**Mike Penning:** To ask the Secretary of State for Health what assessment he has made of the effect on the health economy of *(a)* reducing ischaemic injury to donor organs and *(b)* the ability to evaluate organ function prior to transplantation to avoid diseased organs being transplanted; and if he will make a statement. [168370]

**Ann Keen:** We have made no specific assessment of the effect on the health economy of reducing ischaemic injury to donor organs and the ability to evaluate organ function prior to transplantation to avoid diseased organs being transplanted. We continue to support action to increase the number, safety and quality of organs donated for transplantation to enable more people to benefit from a transplant.

**Mr. Vara:** To ask the Secretary of State for Health how many transplants of each type of organ in each primary care trust area there were in each of the last 10 years. [167643]

**Ann Keen:** This information has been placed in the Library.

### Urology

**Mr. Lansley:** To ask the Secretary of State for Health how many finished consultant episodes relating to the treatment of ruptured bladders there have been in the NHS in each year since 1997-98. [166440]

**Ann Keen:** The information is not available in the format requested. The following table shows the number of finished consultant episodes (FCEs) with a diagnosis that mentions the rupture of a bladder not due to trauma, in national health service hospitals in each year from 1997-08 to 2005-06.

| | *Number of finished consultant episodes* |
|---|---|
| 2005-06 | 83 |
| 2004-05 | 52 |
| 2003-04 | 68 |
| 2002-03 | 69 |
| 2001-02 | 57 |
| 2000-01 | 46 |
| 1999-2000 | 75 |
| 1998-99 | 66 |
| 1997-98 | 62 |

*Notes:*

1. *Data Quality* HES are compiled from data sent by over 300 NHS trusts and primary care trusts in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
2. *Assessing growth through time* HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
3. *All Diagnoses count of episodes* These figures represent a count of all FCEs where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record. An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
4. *Ungrossed Data* Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The Information Centre for Health and Social Care.

## COMMUNITIES AND LOCAL GOVERNMENT

### Business: Non-domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether an impact assessment has been produced for the Government's plans for a supplementary business rate. [171600]

**John Healey:** The introduction of a supplementary business rate will be a local decision. It will therefore be for individual local authorities to consider the potential impact on local businesses in developing proposals for business rate supplements. In consulting with local businesses and other stakeholders, authorities will need to include their assessment of the economic benefits and costs of the particular project and supplement, which will vary from case to case.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the maximum permitted business rate multiplier to be levied in a Business District is in a locality with the maximum permitted supplementary business rate. [171605]

**John Healey:** Subject to Parliament's approval of the necessary primary legislation, the maximum business rate supplement will be 2p per pound of rateable value. The business rate multiplier will continue to be set in the usual way. It will be for any local authority setting a business rate supplement to determine whether any business improvement district (BID) levy should be offset against the business rate supplement. As now, there is no statutory maximum limit on BIDs levies.

### Care Homes: Manpower

**Mr. Bone:** To ask the Secretary of State for Communities and Local Government what guidance the Government give to housing associations on the provision of residential wardens in sheltered accommodation. [172042]

**John Healey** *[holding answer 6 December 2007]:* The Government do not issue detailed guidance to housing associations on the provision of residential wardens in sheltered accommodation. The Housing Corporation, which is responsible for the regulation of registered social landlords, does not specify how support services should be delivered in housing for older people but it does state in its guidance that tenants in housing for older people should have access to support services as need arises to enable them to live in the property for the rest of their lifetimes.

### Casinos

**Mr. Hunt:** To ask the Secretary of State for Communities and Local Government how many times the interdepartmental working group considering alternatives to the regional casino in Manchester has met; on which dates; and who was in attendance on each occasion. [169018]

**John Healey:** I refer the hon. Member to the answer given today PQs 166759 to 166763.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the timetable is for her review of super-casinos; if she will publish her terms of reference for this review; and whether her review will include an assessment of the merits of casinos defined as *(a)* small and *(b)* large under the terms of the Gambling Act 2005. [171591]

**John Healey:** I refer the hon. Member to the answer given today to the hon. Member for South-West Surrey (Mr. Hunt) to PQs 166759 to 166763.

### Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Communities and Local Government on how many occasions she has accepted corporate hospitality in the last 12 months. [171318]

**Mr. Dhanda:** Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

### Council Housing

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what guidance *(a)* her Department and *(b)* the Housing Corporation has provided to local authorities and housing associations on the account to be taken when determining social lettings in a locality or on an estate of the existing ethnic composition of those areas. [171606]

**Mr. Iain Wright:** The code of guidance on the allocation of accommodation advises local authorities to ensure that their allocation scheme and lettings plan are representative of the community and promote community cohesion; and to ensure that the views of groups which are currently under-represented in social housing are taken into account when consulting on their allocation scheme and developing their lettings plans. Otherwise, the code advises authorities that they must ensure that their allocation policies and procedures do not discriminate, directly or indirectly, on grounds of race or ethnicity.

The Housing Corporation's regulatory code and guidance expects registered social landlords (RSLs) to have lettings and sales policies that are flexible, non-discriminatory and responsive to demand, while contributing to the need to be inclusive and the need to ensure sustainable communities. The regulatory code also expects RSLs to ensure their lettings are proportionate to black and minority ethnic housing need in the areas where the RSL has homes.

### Council Housing: Debts

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what the housing debt was of each local authority in each year since 1997; how much principal debt was paid off in each year by each authority and how this was resourced or otherwise financed, categorised by *(a)* right to buy receipts, *(b)* transfer receipts, *(c)* other capital receipts, *(d)* Treasury debt write off and *(e)* support for overhanging debt; what the cost was of servicing the debt, including the interest rate; and what were the means whereby this was funded. [165562]

**Mr. Iain Wright:** I have arranged for a table showing: the level of housing debt, the amount each authority with debt set-aside for the repayment of that housing debt, the cost of servicing the debt (the 'Item 8 debit' in the Housing Revenue Account) and the interest rate that the housing debt attracted (the 'Consolidated rate of Interest' or CRI) for each financial year from 1997-98 to 2005-06 (the last year for which audited data is available) to be deposited in the Library.

Until 1 April 2004, local authorities were required to 'set aside' a proportion of their capital receipts for the repayment of housing debt, although whether or not the amount set aside was actually used to repay housing debt was a treasury management decision for the authority. It was assumed for the purposes of HRA subsidy that housing debt was repaid. The absence of set-aside data in the table after 2003-04 reflects the introduction of the housing capital receipts 'pooling' regime replacing set-aside and there being no requirement to collect 'set-aside' data from that year. Set-aside data used in the HRA subsidy calculation were audited and so collected in the year following the year it was actually set-aside. It was considered that building set-aside into the HRA subsidy model for 2004-05 was not appropriate as the pooling of capital receipts would also be operating for this year.

The data available to Communities and Local Government do not allow the break-down of set-aside into its constitute parts, which will include right to buy sales, transfer receipts and receipts from other disposals such as the sale of housing land.

Treasury does not 'write off' housing debt. Any overhanging housing debt arising from a housing stock transfer is cleared by a payment from Communities and Local Government. These payments are made from an Annually Managed Expenditure Budget held by the Department. Under this arrangement debt moves from one part of the public sector to another, and in consequence there is no net increase in the public sector borrowing requirement. The Exchequer meets future interest payments generated by such transactions.

The following table shows the value of transfer receipts and the value of overhanging debt payments by year for England since 1997.

*£ million*

| | *Transfer receipts* | *Overhanging debt payments* |
|---|---|---|
| 1997-98 | 259.67 | 0 |
| 1998-99 | 483.94 | 0 |
| 1999-2000 | 658.67 | 21.00 |
| 2000-01 | 830.20 | 255.20 |
| 2001-02 | 377.73 | 0 |
| 2002-03 | 545.87 | 548.20 |
| 2003-04 | 140.83 | 91.00 |
| 2004-05 | 200.40 | 591.48 |
| 2005-06 | 128.53 | 385.87 |
| 2006-07 | 91.98 | 533.49 |
| Current financial year to date | 156.86 | 252.00 |

## Council Tax

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what proportion of the electorate has a personal liability for council tax in whole or in part, excluding households on 100 per cent. council tax benefit and those with a 100 per cent. exemption from council tax. [171714]

**John Healey:** Table 1 of the statistics release 'Local Authority Taxbase - 2007 England' gives details of properties in England as at 8 October 2007 that were liable for council tax. This release is available on the Communities and Local Government's website at

http://www.local.communities.gov.uk/finance/ctax/ctbase07.htm.

Information to establish the number of people personally liable for council tax is not held centrally.

## Council Tax: Greater London

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the Greater London Authority precept, and its predecessors' equivalent was in *(a)* cash terms and *(b)* as a proportion of Band D council tax in each year since 1997-98. [171579]

**John Healey:** Details of the Greater London authority precept, and its predecessors' equivalent, in both cash terms and as a proportion of the average two-adult band D council tax for London, in each year since 1997-98 are shown in the following table. No other precepts were levied on London council tax bills in 1997-98.

| | *Cash terms (£)* | | | *As percentage of average two-adult band D council tax for London* | | |
|---|---|---|---|---|---|---|
| | *GLA* | *London fire* | *Metropolitan police* | *GLA* | *London fire* | *Metropolitan police* |
| 1997-98 | — | 25 | 63 | — | 4 | 10 |
| 1998-99 | — | 26 | 76 | — | 4 | 11 |
| 1999-2000 | — | 28 | 83 | — | 4 | 11 |
| 2000-01 | 123 | — | — | 16 | — | — |
| 2001-02 | 151 | — | — | 18 | — | — |
| 2002-03 | 174 | — | — | 19 | — | — |
| 2003-04 | 224 | — | — | 21 | — | — |
| 2004-05 | 241 | — | — | 22 | — | — |
| 2005-06 | 255 | — | — | 22 | — | — |
| 2006-07 | 289 | — | — | 24 | — | — |
| 2007-08 | 304 | — | — | 24 | — | — |

## Council Tax: Lee Valley Regional Park Authority

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the current cap is on the maximum Band D precept that Lee Valley Regional Park Authority can set. [171515]

**John Healey:** The Lee Valley Regional Park Authority is funded by a levy on authorities in Essex, Hertfordshire and Greater London and not by a council tax precept.

## Council Tax: York

**Miss McIntosh:** To ask the Secretary of State for Communities and Local Government what the average level of council tax was in the Vale of York in each of the last three years; and if she will make a statement. [168660]

**John Healey:** Details of the average council tax for the last three years in the local authority areas that are covered by the Vale of York are available on the Communities and Local Government website at:

www.local.communities.gov.uk/finance/ctax/data/ctaxtimes.xls

## Councillors Commission

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government when she expects *(a)* the Councillors Commission to report and *(b)* her Department to respond to that report. [171640]

**John Healey:** The Councillors Commission's report was published on 10 December. My right hon. Friend the Secretary of State will be working with other Government Departments and key partners to consider the report and develop an implementation plan. The Department will respond to the Commission's report in March 2008.

## Councillors: Insurance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what guidance the Government has provided on whether councillors travelling to council meetings are deemed to be employed by their local authority for insurance purposes. [171512]

**John Healey:** Insurance arrangements are matters for each individual local authority, on which the Government do not provide guidance.

### Departmental Databases

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many databases are maintained by her Department; and what the *(a)* title and *(b)* purpose is of each. [171687]

**Mr. Dhanda:** The Department for Communities and Local Government has numerous databases of varying size and complexity which are used in a wide variety of ways in support of the work of the Department. A more detailed response could be provided only at disproportionate cost to the Department.

### Departmental Manpower

**Danny Alexander:** To ask the Secretary of State for Communities and Local Government how many people aged *(a)* 30 to 39, *(b)* 40 to 49, *(c)* 50 to 59 and *(d)* 60 to 69 years have (i) applied for jobs, (ii) received interviews and (iii) gained (A) temporary and (B) permanent jobs in her Department in 2007. [165122]

**Mr. Dhanda:** The Department for Communities and Local Government does not currently collect information about age of job applicants. A breakdown by the age bands requested of those appointed following external recruitment exercises (those posts advertised outside the Civil Service) held in 2007 as shown in the following table:

| | *Age 30-39* | *Age 40-49* | *Age 50-59* | *Age 60-69* |
|---|---|---|---|---|
| Temporary contract | | | 1 | 1 |
| Permanent contract | 10 | 2 | 4 | 1 |

These data do not include information from CLG executive agencies or the Government Offices. Nor do they include temporary agency staff or other workers who are not Departmental employees.

### Departmental Pay

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government how much her Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171546]

**Mr. Dhanda:** I refer the hon. Member to the answer given on 11 July 2007, *Official Report*, column 1470W, to the hon. Member for Upper Bann (David Simpson). The figure for 2003-04 was £333,800.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much was paid in bonuses by her Department to staff in the last year for which figures are available, broken down by directorate. [171571]

**Mr. Dhanda:** I refer the hon. Member to the answer given to the hon. Member for Upper Bann (David Simpson) on 11 July 2007, *Official Report*, column 1470W. The figure for 2003-04 was £333,800.

The Department has recently undergone internal reorganisation and a break down by directorate is not available.

### Departmental Public Expenditure

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government whether the standard terms and conditions of purchase used by her Department in procurement of goods and services from the private sector prohibits the assignment of debt. [172323]

**Mr. Dhanda:** There is no express provision in the Department's standard contract terms prohibiting the assignment of debt. There is a provision which says that the contractor shall not assign, sub-contract or in any other way dispose of the contract or any part of it without the Department's prior approval.

On the basis that a prohibition on "assignment of debt" is a prohibition on a supplier from assigning money owed to it under a contract, we take this provision to mean that a contractor may not assign its debts, without approval from the contracting authority.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Communities and Local Government what *(a)* volume and *(b)* percentage of its waste her Department recycled in each of the last five years. [172418]

**Mr. Dhanda:** The volume and percentage of waste recycled by Communities and Local Government and its predecessor departments in each of the last five years is as follows:

| | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|
| *London Headquarters* | | | | | |
| Recycled Waste (tonnes) | 268 | 225 | 268 | 324 | 264 |
| Total Waste (tonnes) | 521 | 534 | 478 | 527 | 461 |
| Percentage Recycled | 51 | 42 | 56 | 61 | 57 |
| *Executive Agencies* | | | | | |
| Recycled Waste (tonnes) | n/k | n/k | 700 | 919 | 792 |
| Total Waste (tonnes) | n/k | n/k | 2,100 | 1,563 | 1,425 |
| Percentage Recycled | n/k | n/k | 33 | 59 | 56 |

n/k = not known

*Note:*

These data do not include figures from the regional Government offices

### Empty Property

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many empty dwelling management orders have been approved by residential property tribunals since their introduction; and to which local authority areas they relate. [171502]

**John Healey:** I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Under-Secretary (Mr. Wright) on 16 October 2007, *Official Report*, column 1038W. No further orders have been approved since that date.

### English Partnerships: Land

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government for what reasons English Partnerships has reversed its decision to transfer the former Cashes Green hospital site to the Gloucester Land for People Community Land Trust pilot. [171558]

**Mr. Iain Wright:** English Partnerships has not reversed its decision on Cashes Green because a decision has not yet been made. English Partnerships' Board considered that the proposal from the Gloucester Land for People Community Land Trust failed to offer the best use of public sector monies as it did not conform to the criteria English Partnerships is required to apply when disposing of assets. We have asked English Partnerships to identify, in collaboration with Gloucester Land for People Community Land Trust and other stakeholders, alternative options for taking forward this Community Land Trust.

### Fire Services: Finance

**Mr. Dismore:** To ask the Secretary of State for Communities and Local Government what estimate she has received from fire authorities of the convergence costs associated with FiReControl, broken down by *(a)* authority and *(b)* region. [169490]

**Mr. Dhanda:** Detailed planning for the FiReControl transition is not yet complete. It is therefore not yet possible for Fire and Rescue Authorities to produce meaningful estimates of convergence costs.

### Fire Services: Greater London

**Tom Brake:** To ask the Secretary of State for Communities and Local Government how many *(a)* fire stations and *(b)* appliances there were in each London borough for each of the last 10 years; and if she will make a statement. [173486]

**Mr. Dhanda:** The information requested is not held centrally and could be provided only at disproportionate cost.

### First Time Buyers: Mortgages

**Mr. Boris Johnson:** To ask the Secretary of State for Communities and Local Government what proportion of first-time buyers in *(a)* London, *(b)* the South East and *(c)* England took out a mortgage on a home to the value of (i) 100 per cent., (ii) 90 per cent., and (iii) 80 per cent. of the value of the property in (A) 1997, (B) 2000, (C) 2003 and (D) 2006. [171807]

**Mr. Iain Wright:** The proportion of first-time buyers in London, South East and England that took out mortgages on a home to the value of 100 per cent., 90 per cent. and 80 per cent. of the value of their property in 1997, 2000, 2003 and 2006 is shown in the following table.

*Proportion of first-time buyers that took out mortgages to the value of 100, 90 or 80 per cent. of the value of the property*

*Percentage*

| | *100 per cent* | | | *90 per cent.* | | | *80 per cent* | | |
|---|---|---|---|---|---|---|---|---|---|
| | *London* | *South East* | *England* | *London* | *South East* | *England* | *London* | *South East* | *England* |
| 1997 | 4.9 | 3.0 | 4.2 | 6.5 | 4.3 | 4.6 | 1.0 | 0.6 | 0.7 |
| 2000 | 4.9 | 2.8 | 3.0 | 12.5 | 11.1 | 11.0 | 1.1 | 0.8 | 0.8 |
| 2003 | 1.9 | 1.6 | 2.3 | 4.2 | 3.9 | 4.9 | 1.2 | 1.1 | 1.2 |
| 2006 | 5.6 | 5.2 | 6.6 | 15.0 | 15.9 | 17.3 | 0.8 | 0.5 | 0.5 |

*Source:*
Regulated Mortgage Survey

### Funerals: Poverty

**Mrs. Ellman:** To ask the Secretary of State for Communities and Local Government how much her Department spent on meeting the burial costs of *(a)* Christian, *(b)* Jewish and *(c)* Muslim paupers in the latest period for which figures are available. [169806]

**Mr. Dhanda:** My Department has no expenditure records on meeting these burial costs. However, in some cases, it might indirectly support these activities through the funding for local authorities.

### Greater London Authority: Buildings

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the estimated £171 million cost of the lease for City Hall is in 2000 prices. [173229]

**Mr. Dhanda:** The figure of £171.2 million provided in my earlier answer of 19 October 2007, *Official Report*, column 1324W, is in actual prices, not 2000 prices.

### Hammersmith and Fulham Council: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the latest comprehensive performance assessment rating and direction of travel of Hammersmith and Fulham Council is; and what period it covers. [171893]

**John Healey:** The London borough of Hammersmith and Fulham was rated overall as '4 Star and improving well' in its last CPA assessment for 2005-06 published by the Audit Commission in March 2007. This was an improvement on the 2004-05 assessment of '3 Star and improving well' published in January 2006.

### Health Insurance

**Norman Lamb:** To ask the Secretary of State for Communities and Local Government how many officials in *(a)* her Department and *(b)* each of its agencies have private health insurance provided as part of their employment package. [167936]

**Mr. Dhanda:** The Department for Communities and Local Government does not provide health insurance for staff.

### Housing: Carbon Emissions

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the range of the additional build costs of a zero carbon home, over and above those arising from compliance with Part L of the 2006 building regulations. [173307]

**Mr. Iain Wright:** I refer the hon. Gentlemen to the answer that I gave to the hon. Member for Beckenham (Mrs. Lait) on 8 October 2007, *Official Report*, column 35W.

### Housing: Demolition

**[illegible] Cousins:** To ask the Secretary of State for Communities and Local Government how many property demolitions funded by the Bridging Newcastle Gateshead Pathfinder there were in each electoral ward up to 31 October, and how many such properties were previously owner-occupied. [172030]

**Mr. Iain Wright:** The total number of demolitions by ward for the period 2003-04 to 2007-08 was as follows:

| | *Number* |
|---|---|
| Walker | 251 |
| Fenham | 131 |
| Elswick | 127 |
| Scotswood/Benwell | 682 |
| Felling | 197 |
| The Bridges | 225 |
| Kenton | 100 |
| Byker | 41 |

These figures refer to all tenancy types. We do not currently have figures for all wards for owner occupiers on a consistent basis.

### Housing: Domestic Safety

**Ms Buck:** To ask the Secretary of State for Communities and Local Government how many assessments under the housing health and safety rating system concluded with the determination of a category 1 hazard in *(a)* public and *(b)* social housing in each local authority in 2006-07. [167571]

**Mr. Iain Wright:** The Department does not collect data on the number of housing health and safety rating system inspections carried out by local authorities.

It has commenced collecting information on the rating system through the Housing Strategy Statistical Appendix (HSSA) and the Business Plan Statistical Appendix (BPSA) returned by local authorities. These will provide data as at April 2007. The Department expects to publish both the BPSA and HSSA in January 2008 subject to data quality.

The HSSA data will include figures for dwellings with category 1 hazards, the estimated cost of removing the category 1 hazards in private sector dwellings (not including registered social landlords) and the number of private sector dwellings made free of category 1 hazards or demolished as a direct result of action by the local authority during 2006-07.

The BPSA data will include figures for the number of local authority homes that do not meet the statutory minimum standard for housing and the costs to put the defects right.

The English House Condition Survey will provide a national estimate of category 1 hazards for its 2006 findings, which we expect to publish early in 2008. This will provide estimates of the number of category 1 hazards in each type of housing stock at the national level.

### Housing: Energy

**Lynne Jones:** To ask the Secretary of State for Communities and Local Government what research she has *(a)* commissioned and *(b)* evaluated on use of retrofit to improve the energy efficiency of existing houses; and if she will make a statement. [168645]

**Mr. Iain Wright:** There is already an extensive body of research data on improving the energy efficiency of existing homes. The Sustainable Development Commission (SDC) undertook a stock take for the then Office of the Deputy Prime Minister in 2005 of the sustainability and energy efficiency of existing housing, covering energy, water, materials and construction and demolition waste, and household waste. Their report "Stock Take: Delivering improvements in existing housing", is available on the SDC website at:

www.sd-commission.org.uk/publications/downloads/SDC%20Stock%20Take%20Report.pdf

My Department published its own initial analysis of the energy efficiency of existing buildings in November 2006. An analysis has also been commissioned from the Office of Climate Change.

My Department is working with the Department for Business, Enterprise and Regulatory Reform and the Department for the Environment, Food and Rural Affairs to develop proposals for the Technology Strategy Board, sponsored by the Department for Innovation, Universities and Science to support innovation in materials and technologies that would improve the energy efficiency of existing and new buildings.

The Technology Strategy Board is finalising the delivery plan to launch the Innovation Platform on Low Impact Buildings early in 2008. Further information on the Technology Strategy Board can be found at:

www.berr.gov.uk/innovation/technologystrategyboard/

### Housing: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what steps her Department is taking to ensure that the implementation of the housing and planning delivery grant does not create incentives for *(a)* over-development of one-bedroom flats, *(b)* over-development in areas of constraint and *(c)* poor design quality. [171719]

**Mr. Iain Wright:** The Government are currently consulting on a proposed allocation mechanism for the housing and planning delivery grant. The consultation closes on 17 January 2008.

**Mr. Hancock:** To ask the Secretary of State for Communities and Local Government how much housing revenue account monies has been taken from each local authority in each of the last five years; who received that revenue; how the redistribution was conducted; what the forecasts are for each local authority involved in returning or receiving monies over the next five years; and if she will make a statement. [172813]

**Mr. Iain Wright:** A table showing the allocations of housing revenue account (HRA) subsidy for each year between 2001-02 and 2005-06 (the last year for which we have audited figures) inclusive has been deposited in the Library of the House.

In the years up to and including 2003-04, the redistribution was effected by offsetting housing element (bricks and mortar subsidy) against rent rebate element. Since 1 April 2004, rent rebates are no longer accounted for in the housing revenue account. Surpluses are now paid direct to my Department, which also pays subsidy to those authorities in overall assumed deficit.

We do not make forecasts of individual authorities' HRA subsidy entitlements.

### Housing: Green Belt

**Mr. Spring:** To ask the Secretary of State for Communities and Local Government how many dwellings were built within the 1997 designated green belt in Suffolk in each year between 1997 and 2006. [173454]

**Mr. Iain Wright:** There is no 1997 designated green belt in Suffolk.

Green belt accounts for 13 per cent. of the land area of England.

### Housing: Heating

**Sir Nicholas Winterton:** To ask the Secretary of State for Communities and Local Government (1) what percentage of dwellings in the North West have failed the thermal comfort test rating; [172061]

(2) what the average Standard Assessment Procedure rating is for dwellings in the North West. [172062]

**Mr. Iain Wright:** The Department does not have estimates of homes failing thermal comfort or average SAP ratings for each individual region.

In 2005 the English House Condition Survey (EHCS) reported that 20 per cent. of dwellings in the northern regions (including the North West, Yorkshire and Humber and the North East) failed the thermal comfort criterion of the decent homes standard. This was the same as the national average.

In 2005, the EHCS also reported that the average SAP for dwellings in the northern regions (including the North West, Yorkshire and Humber and the North East) was 48. This was the same as the national average.

### Land: Databases

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the status is of the National Spatial Address Infrastructure; and how much has been spent from the public purse on the scheme. [173222]

**Mr. Iain Wright:** In June 2007, the Department announced it would not be carrying out any further work on the National Spatial Address Infrastructure (NSAI). Further details can be found on the Department's website at:

http://www.communities.gov.uk/corporate/researchandstatistics/geographicinformationinitiatives/nationalspatialaddress/

The costs associated with the NSAI were provided in the response given to the hon. Member for Surrey Heath (Michael Gove) on 20 June 2007, *Official Report*, column 1855W.

### Local Authorities: North West Region

**Helen Jones:** To ask the Secretary of State for Communities and Local Government what instructions she has given to Government Office for the North West on ensuring that hon. Members are *(a)* notified and *(b)* invited to meetings which they arrange between ministers and local authorities. [172640]

**Mr. Dhanda** *[holding answer 10 December 2007]*: Ministers' Private Offices have instructions to inform hon. Members if a Minister is to visit their constituency and to notify the Minister of any request to attend meetings.

### Local Government Act 1986

**Mr. Sanders:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of Section 2 of the Local Government Act 1986; and how many incidences of non-compliance were reported to her Department in each of the last five years. [166995]

**John Healey:** Earlier this year, we consulted on the rules about the issuing of publicity by councils. We received over 450 responses, none of which suggested any change was needed to Section 2 of the Local Government Act 1986. Communities and Local Government does not have a monitoring role in councils' compliance with this provision.

### Local Government Finance

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government (1) what estimate she has made of the average cost of providing local authority services to *(a)* rural and *(b)* urban authorities; and if she will make a statement; [170876]

(2) what consideration she gives to the difference in costs to urban and rural authorities of providing services when determining the allocation of local authorities' grants settlements; and if she will make a statement. [170967]

**John Healey:** Each of the Relative Needs Formulae used in the calculation of the Relative Needs Amount for each authority attempts to assess the relative costs of providing services for each local authority that provides the relevant service, both urban and rural. No estimate of the actual cost of providing local authority services is made under the current method of calculating formula grant, which comprises Revenue Support Grant, redistributed business rates and principal formula Police Grant, where appropriate.

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what consideration she gives to fuel costs when allocating the local authorities' grants settlements; what steps she has taken to alleviate this financial pressure on local authorities; and if she will make a statement. [170968]

**John Healey:** Fuel cost is not a direct factor used in the calculation of any Relative Needs Formula. However, a number of Relative Needs Formulae include a measure of the sparsity of the population. This is partially to reflect the additional travelling costs, including fuel, in sparsely-populated areas.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the name is of each funding stream for *(a)* social exclusion, *(b)* housing and *(c)* regeneration from central Government to local authorities in (i) 2007-08 and (ii) 2008-09. [171573]

**John Healey:** Many programmes address more than one objective so strict classification is not generally applicable. For example, Communities and Local Government's Decent Homes programme improves the condition of housing and estates in the most deprived areas and so helps address social exclusion, housing and regeneration objectives.

The names used in 2007-08 of principal funding streams from central Government to local authorities which help address social exclusion, housing and regeneration objectives include:

Supporting People;
Gypsy Site Grant;
Homelessness;
Local Authority Supported Capital Expenditure;
Growth Area Funding;
Planning Delivery Grant;
Housing Market Renewal;
Housing Mobility Grant;
Disabled Facilities Grant;
London Development Agency (LDA);
Arms Length Management Organisations and Regional Housing Pot Grant (Decent Homes);
HIPs;
Thames Gateway;
Local Enterprise Growth Initiative;
Neighbourhood Renewal Fund;
Kickstart; and
Rural Bus Subsidy Grant.

Details of Government funding to local authorities in 2008-09 were announced in the provisional local government finance settlement on 6 December.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the reward grant given to local area agreements is ring-fenced to meet the targets laid out in the agreement. [171711]

**John Healey:** Performance reward grant is not ring-fenced to meet targets but is paid to authorities in the two financial years following the end of a local area agreement as a reward for achievement of specific targets within the LAA. It is paid to areas provided they achieve at least 60 per cent. of the stretch on reward targets. This money is paid as a non-ring-fenced grant; half can be used to support capital and half revenue expenditure. Local areas are expected to make arrangements with partners on sharing the performance reward grant.

### Local Government Finance Funding Changes Independent Inquiry

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether her Department plans to produce a formal response to the Lyons Inquiry on local government. [171583]

**John Healey:** I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 18 June 2007, *Official Report*, column 1530W.

### Local Government Finance: Herefordshire

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what consideration she gave to the percentage of the population aged over 65 years in Herefordshire when determining the local authority grants allocation; and if she will make a statement. [170880]

**John Healey:** The sub-national population projections of people aged 65 and over are used in the Social Services for Older People Relative Need Formula (RNF) to determine the number of projected household and supported residents aged 65 years and over. A Social Services for Older People RNF is calculated for Herefordshire since it is the authority with responsibility for social services within its area.

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what consideration she gave to the number of immigrants in Herefordshire when determining the local authority grant allocation; and if she will make a statement. [170965]

**John Healey:** For the majority of the Relative Needs Formulae used in the calculation of the Relative Needs Amount, the client group is based on the sub-national population projections for the appropriate age group. The sub-national population projections estimate the number of people who are resident in the area for over a year, including immigrants. The 2003 based sub-national population projections for 2007 were used for the 2007-08 Local Government Finance Settlement.

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what consideration she gave to the average household income in Herefordshire when determining the local authority's grant allocation; and if she will make a statement. [170966]

**John Healey:** Household income is not a factor that has been shown to influence the relative need to spend on any particular service. However, various measures of deprivation are included within the Relative Needs Formulae, for example the number of income support claimants and the number of people receiving unemployment-related benefits.

### Local Government: Complaints

**Kate Hoey:** To ask the Secretary of State for Communities and Local Government (1) what the average length of time the Local Government Ombudsman took to consider a complaint was in each of the last three years; [170219]

(2) how many complaints her Department has received on the decision-making process of the Local Government Ombudsman in each of the last three years; [170220]

(3) what consideration she has given to bringing forward amendments to reform the system of appeals against local government ombudsman decisions. [170221]

**John Healey:** The average length of time taken for the Local Government ombudsman to determine a complaint in each of the last three years was as follows:

| | *Weeks* |
|---|---|
| 2004-05 | 15.5 |
| 2005-06 | 16.9 |
| 2006-07 | 18.4 |

My Department has received around 50 letters of complaint about the decision-making process of the local government ombudsman in each of the last three years.

Challenges to decisions made by the local government ombudsman are matters for the courts. My Department has no plans to amend these arrangements.

### Local Government: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government in relation to which Best Value Performance Indicators which are not included in the National Indicator set local authorities will be required to collect and submit data to central Government. [171607]

**John Healey:** No additional performance indicators will be collected other than those in the national indicator set. We are committed to reducing data returns from all front line public sector organisations by 30 per cent. by May 2010. However, as set out in the 2006 Local Government White Paper, "Strong and Prosperous Communities", there will be a need for local authorities to report limited additional information, for reasons such as financial management and statistical data to support national policy development.

### Maps: Green Belt

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) for what reasons her Department cancelled the commercial licence for the green belt boundaries dataset on her Department's Maps on Taps database; [173326]

(2) which commercial supplier provided the green belt boundaries dataset for the Maps on Taps database; and how much was spent on this dataset before the contract was cancelled by her Department. [173329]

**Mr. Iain Wright:** The green belt boundaries dataset was provided by Landmark Information Group. £32,606.25 was spent on this contract.

The licence was cancelled because we can now collect digital data more efficiently from local authorities.

### Non-profit Making Organisations

**Mr. Henderson:** To ask the Secretary of State for Communities and Local Government what plans she has to support social enterprises following assessment of responses to the Third Sector discussion paper and outcome of the Comprehensive Spending Review. [172759]

**John Healey:** Responses to our Third Sector Strategy discussion paper are currently being analysed and we welcome the useful submissions from many social enterprises and entrepreneur organisations. We are aiming to publish our final strategy, including support available for social enterprise, early next year.

### Ordnance Survey: Green Belt

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what records Ordnance Survey holds of green belt boundaries. [173323]

**Mr. Iain Wright:** None.

### Parish Councils

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many new parish councils were established in England in the last 24 months. [171501]

**John Healey:** In the last 24 months there were 23 new parish councils established in England.

### Parish Councils: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the new powers for parish councils in the Local Government and Public Involvement in Health Act 2007 will be resourced via *(a)* additional funding from central Government and *(b)* a higher parish precept on council tax bills. [171575]

**John Healey:** The Act empowers parish councils in two ways: to appoint additional parish councillors; and (where the parish council is eligible) to exercise the power of wellbeing under section 2 of the Local Government Act 2000.

The power to appoint additional parish councillors will not require resources. The power of wellbeing will enable eligible parish councils to do anything which they consider is likely to promote or improve the economic, social or environmental well-being of their area. The extent to which the power is exercised, and the costs funded, will be a matter for eligible parish councils themselves.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) what obligations will fall upon London boroughs to provide funding for parish councils set up within borough boundaries; [171576]

(2) what additional funding has been allocated by central Government to parish councils in London for *(a)* set up and *(b)* running costs. [171577]

**John Healey:** As with principal councils elsewhere in England who are responsible for undertaking community governance reviews, there are no obligations on London borough councils to provide funding for parish councils they may set up. It will be for them to decide whether to establish new community governance arrangements in their areas, and to anticipate the set up and running costs of the first precept to any new parish council.

### Personal Care Services: Licensing

**Dr. Starkey:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the case for licensing of nail bars by local authorities. [162003]

**Mr. Dhanda:** Nail bars are subject to a number of regulatory regimes, for example in relation to health and safety. There are currently no proposals for licensing of nail bars by local authorities.

### Planning

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government pursuant to the Prime Minister's Statement of 14 November 2007, *Official Report*, columns 667-73, on national security, what plans she has to amend planning policy guidance. [171641]

**Mr. Iain Wright:** Government planning policy on design already asks planning authorities to create safe environments where crime and disorder or fear of crime does not undermine quality of life or community cohesion. We do however plan to publish a counter terrorism supplement to our guidance "Safer Places—the Planning System and Crime Prevention" which is intended to be a practical guide to how best to design counter terrorism measures into new development proposals while ensuring that they are of high design quality.

### Planning Permission: Government Buildings

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what planning applications her Department has submitted in relation to requests for planning permission on its departmental properties in the last 12 months; on what buildings; and for what purposes. [173378]

**Mr. Dhanda:** No planning applications have been submitted by Communities and Local Government in relation to its departmental properties in the last 12 months. This answer does not include land and buildings occupied by Government Offices, who carry out functions on behalf of 10 Government Departments, CLG's Government agencies or NDPBs.

### PricewaterhouseCoopers

**Jim Cousins:** To ask the Secretary of State for Communities and Local Government what the value is of the new consultancy and contracts awarded to PricewaterhouseCoopers in 2007-08; and whether those contracts contain provisions limiting freedom of information disclosure. [172584]

**Mr. Dhanda:** One new consultancy contract was awarded for £600,000. The contract was awarded under the Office of Government Commerce Buying Solutions framework agreement for the provision of financial management consultancy. The standard contractual terms and conditions applied and these do not contain provisions limiting freedom of information disclosure.

### Regeneration: Greater Manchester

**Mr. Hunt:** To ask the Secretary of State for Communities and Local Government (1) what the membership is of the inter-departmental working group led by her Department that is considering regeneration alternatives to the regional casino in Manchester; [166759]

(2) which organisations she has *(a)* consulted and *(b)* received representations from as part of her review of the regeneration alternatives to the regional casino in Manchester; [166760]

(3) which organisations she has met as part of her review of the regeneration alternatives to the regional casino in Manchester; [166761]

(4) when she expects to publish the outcomes of her review of regeneration alternatives to the regional casino in Manchester; [166762]

(5) how many full-time equivalent civil servants have been seconded to work on the review of regeneration alternatives to the regional casino in Manchester. [166763]

**John Healey** *[holding answer 21 November 2007]*: In July, my right hon. Friend the Prime Minister said that the Government would consider the question of whether deprived areas could be equally well served by other forms of regeneration than the development of regional casinos. While Manchester will clearly have an interest in the findings of the review, the response is not specific to alternatives to a regional casino in Manchester—it applies to deprived areas more broadly. The review of alternatives to regional casino led regeneration will report shortly.

As a part of this process, an inter-departmental working group has been set up. Since July 2007, three full meetings have been held, on: 9 August, 10 September and 20 September.

All meetings had representatives from Communities and Local Government, the Department for Culture, Media and Sport, the Department for Work and

Pensions, the Department for Transport, the Department for Innovation, Universities and Skills, the Department for Business, Enterprise and Regulatory Reform, the Cabinet Office, the Treasury, and Government Office North West.

During the review, Communities and Local Government officials have consulted the Department for Culture, Media and Sport, the Department for Work and Pensions, the Department for Transport, the Department for Innovation, Universities and Skills, the Department for Business, Enterprise and Regulatory Reform, the Cabinet Office, HM Treasury, Government Office North West, local authorities (including Blackpool and Manchester), and members of one of Communities and Local Government's External Expert Panels (including Michael Parkinson, Vince Taylor and Graham Russell).

My right hon. Friend the Secretary of State has also met with representatives from Manchester city council, Blackpool council, and local hon. Members to hear their views.

Civil servants have to date devoted a significant amount of time to the investigation of alternatives to regional casino led regeneration, although the review has not specifically a dedicated resource.

### Regional Planning and Development: Public Participation

**Mr. Steen:** To ask the Secretary of State for Communities and Local Government if she will take steps to simplify the statutory forms designed for public participation in local development plans. [172779]

**Mr. Iain Wright** *[holding answer 10 December 2007]*: There is no statutory form that local authorities are required to use in consultation. The Planning Inspectorate published guidance in 2005 which included a model form for various stages of plan preparation. This is not statutory and can be modified or replaced entirely by one of the local authorities' own design.

On 27 November 2007, we published revised draft regulations and guidance on producing local development plan documents which are designed to streamline and simplify the process.

### Rented Housing

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government which organisations responded to her Department's consultation on the Mechanism for Setting Guideline Rents in Housing Revenue Account subsidy 2008-09 and 2009-10. [164192]

**Yvette Cooper:** The organisations that responded were as follows:

Adur District Council
Barnsley Metropolitan Borough Council
Basildon Council
Birmingham City Council
Blyth Valley Council
Bolton Metropolitan Borough Council
Bristol City Council
Cambridge City Council
Chester-le-Street District Council
CIPFA
City of Nottingham
Corby Borough Council
Croydon Council
Derby City Council
Dover District Council
Dudley Metropolitan Borough Council
Fareham Borough Council
Gravesham Borough Council
Haringey Council
Harlow District Council
Harrogate Borough Council
Homes for Islington
Hounslow Homes Hull
Lambeth Housing
Leeds City Council
Lewisham Borough Council
London Borough of Barking and Dagenham
London Borough of Camden
London Borough of Hackney
London Borough of Hammersmith and Fulham
Southwark Council
London Councils
Luton Borough Council
Newark and Sherwood District Council
North Tyneside
North Warwickshire Borough Council
Oxford City Council
Salford County Council Sanctuary Housing Group
Sheffield City Council
Sheltered Housing Residents Group
Solihull Metropolitan Borough Council/Solihull Community Housing
South Bedfordshire District Council
South Cambridgeshire District Council
Southampton City Council
Stevenage Homes Ltd.
Stockport Metropolitan Borough Council
Swindon Borough Council
Tandridge District Council
Taunton Deane Borough Council
Wandsworth Council
Westminster City Council
Wokingham Borough Council

### Shala v. Birmingham City Council

**Dr. Gibson:** To ask the Secretary of State for Communities and Local Government what changes to guidance for local authorities her Department is making following the Court of Appeal's judgment in the case of Shala *v.* Birmingham City Council [2007] EWCA Civ 624. [171460]

**Mr. Iain Wright:** There are no current plans to make any amendments to guidance for local authorities following the Court of Appeal judgment in the case of Shala *v.* Birmingham City Council [2007] EWCA Civ 624. We expect local housing authorities to take account of all relevant case law, including this case, when considering applications for housing, under Part 7 of the Housing Act 1996 that involve medical evidence.

### Small Businesses: Non-Domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many businesses were in receipt of small business rate relief in the latest period for which figures are available. [171648]

**John Healey:** As at 31 December 2006, there were 392,000 businesses in England that were in receipt of small business rate relief.

### Standards Board for England and Adjudication Panel: Information Officers

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many press officer, media, communications and marketing staff are employed by *(a)* the Standards Board for England and Adjudication Panel, *(b)* the Audit Commission, *(c)* English Partnerships and *(d)* the Housing Corporation. [171650]

**Mr. Dhanda:** I refer the hon. Member to The White Book, published by COI, which is available in the Library of the House.

### Sustainable Communities Act 2007

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) what the commencement timetable is for the provisions of the Sustainable Communities Act 2007; [171644]

(2) what plans she has to issue guidance to local authorities on their new powers and duties under the Sustainable Communities Act 2007. [171645]

**John Healey:** The provisions of the Sustainable Communities Act 2007 commenced on the day on which the Act received Royal Assent, 23 October 2007. The Government intend to publish draft regulations and guidance for consultation early in the new year. The consultation package will include a draft timetable for implementation of the Act's provisions.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the timetable is for producing local spending reports in accordance with Section 6 of the Sustainable Communities Act 2007. [171649]

**John Healey:** Section 6(9) of the Sustainable Communities Act 2007 requires the Secretary of State to make arrangements for the production of local spending reports within the period of 18 months beginning with the day on which the Act was passed. This period ends on 22 April 2009. The Government intend to make such arrangements before this date and will publish their plans for implementation of the Act early in the new year.

### Trade Unions

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what sponsorship each Minister in her Department received from trade unions in the last 12 months. [171506]

**Mr. Dhanda:** Sponsorship that Ministers may have received in the last 12 months has been declared in the Register of Members' Interests in the usual way.

### Unitary Councils

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans she has to create further unitary authorities. [171624]

**John Healey:** I refer the hon. Member to the written ministerial statement I made to the House on 5 December 2007, *Official Report*, columns 65-69WS.

### Unitary Councils: Norwich

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effects of her Department's proposals for a unitary council for Norwich on local government structures in the rest of Norfolk. [171626]

**John Healey:** My Department has made no proposals for unitary structures. In October 2006 we invited councils in England to submit unitary proposals. Our invitation was clear that only those proposals that met the outcomes specified in our criteria would proceed towards implementation and all proposals had to set out the arrangements which were to apply in the remainder of the county area.

In the written ministerial statement I made to the House on 5 December 2007, *Official Report*, columns 65-69WS, I announced that we are still minded not to implement Norwich city council's unitary proposal and intend to ask the Boundary Committee for advice on the proposal and on whether for the area affected, Norwich city and the remaining county area, there could be alternative unitary solutions, involving boundary changes, which would meet the five criteria set out in our invitation.

### Written Questions

**Mr. Hunt:** To ask the Secretary of State for Communities and Local Government when she will answer questions *(a)* 166759, *(b)* 166760, *(c)* 166761, *(d)* 166762 and *(e)* 166763 tabled by the hon. Member for South West Surrey on 16 November, on the review her Department is carrying out on the regeneration of Manchester. [171657]

**John Healey:** I have now replied to the hon. Member's questions.

# Written Answers to Questions

*Wednesday 12 December 2007*

## PRIME MINISTER

### Departmental Manpower

**Mrs. May:** To ask the Prime Minister how many *(a)* men and *(b)* women of each Civil Service grade are employed in Number 10 Downing street. [172742]

**The Prime Minister:** I refer the right hon. Member to the answer given to her by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) today.

## DUCHY OF LANCASTER

### Voluntary Sector Funding

10. **Bob Spink:** To ask the Chancellor of the Duchy of Lancaster what funding from the public purse was given to the voluntary sector for the delivery of public services in the last 12 months. [173059]

**Phil Hope:** The National Council for Voluntary Organisations (NCVO) estimates that for 2004-05 the total income from statutory sources to the voluntary sector was £10.2 billion. This has doubled from £5 billion in 1996-97. This is the most significant driver of the sector's financial growth in the last 10 years.

### Civil Servants

11. **David Taylor:** To ask the Chancellor of the Duchy of Lancaster what procedures are in place to record hospitality or entertainment received by and offered to senior civil servants of his Department. [173060]

**Gillian Merron:** I refer the hon. Member to my answer to him on 22 November 2007, *Official Report*, columns 1095-96W.

### Cyber-security and IT Resilience

12. **Mark Pritchard:** To ask the Chancellor of the Duchy of Lancaster how often he holds discussions with other Government Departments on cyber-security and IT resilience. [173061]

**Gillian Merron:** Ministers meet regularly with colleagues in other Government Departments to discuss a wide range of issues.

### Youth Volunteering

13. **Mr. Borrow:** To ask the Chancellor of the Duchy of Lancaster what support the Government plans to provide to encourage more young people to volunteer. [173062]

**Phil Hope:** As outlined in the Third Sector Review, the Government will be investing £117 million in youth volunteering through v from 2008-11. This is the biggest ever investment in youth volunteering.

The youth-led volunteering charity v was established in May 2006 with the mission to inspire one million more young people to volunteer. Since its establishment, v has created over 200,000 volunteering opportunities for young people.

As part of this, v launched vinvolved on 22 November which aims to create 500,000 more volunteering opportunities for young people.

### Good Causes: Lancashire

15. **Mr. Evans:** To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the funding likely to be distributed to good causes in the County Palatine in 2008. [173064]

**Edward Miliband:** The Duchy of Lancaster Benevolent Fund has budgeted to distribute £375,000, up from £345,000 last year, of which £290,000 is allocated to the County Palatine and the balance to other geographical areas where the Duchy has links.

### Third Sector

**Julie Morgan:** To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the contribution of the third sector to the development of social policy; and if he will make a statement. [173057]

**Edward Miliband:** I refer my hon. Friend to the reply I gave earlier to the hon. Member for Bridgend (Mrs. Moon).

### Corporate Hospitality

**David Simpson:** To ask the Chancellor of the Duchy of Lancaster on how many occasions he has accepted corporate hospitality in the last 12 months. [171320]

**Gillian Merron:** Chapter 7 of the ministerial code sets out the rules on the registration of hospitality.

### Departmental Manpower

**Mr. Allen:** To ask the Chancellor of the Duchy of Lancaster how many Cabinet Office staff work in support of each of his Department's objectives. [167090]

**Gillian Merron:** The number of staff working in support of each of three Cabinet objectives can be found on page 50 of the Cabinet Office Annual Report and Resource accounts, copies of which are available in the Library for the reference of Members.

**Mrs. May:** To ask the Chancellor of the Duchy of Lancaster how many *(a)* men and *(b)* women are employed by the Cabinet Office, broken down by civil service grade. [172687]

**Gillian Merron:** The figures requested are published by the Office for National Statistics in "Civil Service Statistics". The latest figures are available in Table H of "Civil Service Statistics 2006" at:

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

### Departmental Visits Abroad

**David Simpson:** To ask the Chancellor of the Duchy of Lancaster how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171343]

**Gillian Merron:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the "Overseas Travel by Cabinet Ministers" list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All overseas travel, including accommodation, is made in accordance with the Ministerial Code.

### Dorneywood

**Mr. Maude:** To ask the Chancellor of the Duchy of Lancaster whether the use of Dorneywood has been offered to Ministers, other than the Chancellor of the Exchequer, for official engagements. [171458]

**Gillian Merron:** I refer the right hon. Member to the answer I gave him on Tuesday 30 October 2007, *Official Report*, column 1077W.

### Internet: Protection

**James Brokenshire:** To ask the Chancellor of the Duchy of Lancaster how much his Department has spent on promoting and developing the Get Safe Online initiative. [167119]

**Gillian Merron:** The Cabinet Office has contributed £300,000 to the Get Safe Online initiative in the last three years alongside contributions from the corporate sponsors including eBay, HSBC, Microsoft, Cable and Wireless and Symantec. The Cabinet Office will be contributing a further £150,000 towards this year's ongoing awareness campaign which includes internet safety road shows, web advertising, online quizzes and competitions and direct marketing.

Get Safe Online, a Government and industry initiative, plays an important role in raising awareness and promoting information on internet safety.

## FOREIGN AND COMMONWEALTH OFFICE

### Afghanistan: Reconstruction

**Mr. Holloway:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many times on average members of his Department's staff based in the provincial reconstruction team in Lashkar Gah left the team's compound other than by air in each of the last six months. [172128]

**Mr. Jim Murphy:** Average monthly moves vary depending on the assessed security situation. For the last six months, an individual member has left the team's compound an average of 9.6 times per month by ground. This applies to all staff except those in an administrative/support role who are not expected to leave the base except by air.

### Colombia: Kidnapping

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he and *(b)* his Department have had with (i) French and (ii) Colombian officials on negotiations to secure the release of Ingrid Betancourt and other hostages kidnapped by Colombian guerillas; and if he will make a statement. [173508]

**Dr. Howells:** I have not held talks specifically on Ingrid Betancourt with French or Colombian counterparts. I and my noble Friend the former Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, Lord Triesman of Tottenham, have discussed the issue of hostage taking with our Colombian counterparts, within the context of the ongoing internal conflict in Colombia. Foreign and Commonwealth Office officials and our ambassador in Bogota have held discussions on these issues with French and Colombian counterparts.

Hostage taking in any form can never be justified. It is unacceptable that illegal armed groups in Colombia have kidnapped thousands of innocent civilians, including Mrs. Betancourt. EU Council Conclusions on Colombia, agreed in November 2007, included the following points on hostage taking and humanitarian exchanges of prisoners:

> "The Council strongly condemns the violations of International Humanitarian Law that continue to be committed by the illegal armed groups. In this context it demands that they stop kidnapping and all other acts of terrorism or violence against the civilian population forthwith. The Council reaffirms the EU's solidarity with the Colombian government, the Colombian people and all victims of those acts. It also reiterates its firm demand that the illegal armed groups stop kidnappings and release all detained hostages immediately and unconditionally, and cease all hostilities."
>
> "The Council hopes that progress will be made in taking forward negotiations between the Colombian government and illegal armed groups, in order to reach a humanitarian agreement, and secure the release of all hostages, to overcome the armed conflict and bring lasting peace to Colombia. In the same spirit, the European Union welcomes all initiatives taken with the Colombian government's support with the objective of promoting a successful peace process."

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibit the assignment of debt. [172319]

**Mr. Jim Murphy:** There is no express provision in the Foreign and Commonwealth Office's model contracts prohibiting the assignment of debt. However, there is a provision which says that the contractor shall not assign, sub-contract or in any other way dispose of the contract or any part of it without the contracting authority's prior approval. On the basis that a prohibition on "assignment of debt" is a prohibition on a supplier from assigning money owed to it under a contract, we take this provision to mean that a contractor may not assign its debts, without approval from the contracting authority.

### EC Reform: Treaties

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the means of securing an earlier termination of the term of office of the President of the European Council envisaged under the draft EU Reform Treaty; what representations he has received on the subject; and if he will make a statement. [172162]

**Mr. Jim Murphy:** The Government support a full-time president of the European Council, appointed for a mandate of two and a half years, renewable once. He or she will replace the current president of the European Council, who changes every six months. He or she will be chosen by heads of state and government by qualified majority and will be accountable to them. Having a full-time chair of the European Council will bring greater coherence and consistency to the EU's actions; and will give member states greater capacity to give direction and momentum to the EU's agenda.

### Ethiopia: Human Rights

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made in the cases of Daniel Bekele and Netsanet Demissie, currently on trial in Ethiopia. [172625]

**Mr. Jim Murphy:** We continue to press for a quick, fair and transparent conclusion to the trial of Daniel Bekele and Netsanet Demissie.

My right hon. Friend the Foreign Secretary made this clear when he met Ethiopian Foreign Minister Seyoum Mesfin on 13 November. More recently, my noble Friend the Parliamentary Under-Secretary of State for International Development, Baroness Vadera, and our Ambassador in Addis Ababa reiterated this point when they met Ethiopian Prime Minister Meles Zenawi on 21 November.

### EU Countries: Overseas Workers

**Mr. Dai Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department compiles statistics on the numbers of British citizens resident and working in each of the new acessession states of the European Union. [172994]

**Mr. Jim Murphy:** Our network of posts overseas are asked each year to provide an estimate of the number of British nationals resident in their Consular areas. The results of the 2006-07 survey for those states that have joined the EU since 2004 (accession states) are recorded as follows. We do not, however, compile data about the specific activities of British citizens resident overseas.

| | *Number* |
|---|---|
| Bulgaria | 1,700 |
| Cyprus | 57,500 |
| Czech Republic | 3,183 |
| Estonia | 220 |
| Hungary | 2,640 |
| Latvia | 400 |
| Lithuania | 250 |
| Malta | 6,000 |
| Poland | 2,531 |
| Romania | 6,000 |
| Slovakia | 1,000 |
| Slovenia | 157 |

### EU Reform: Treaties

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the roles of *(a)* the EU External Action Service and *(b)* his Department will be in developing areas of policy where a EU common position has been decided if the Treaty of Lisbon is ratified; [170651]

(2) what assessment he has made of the likely role of the EU External Action Service in *(a)* the United Nations and *(b)* the Commonwealth if the Treaty of Lisbon is ratified. [170652]

**Mr. Jim Murphy:** EU common positions are agreed by the member states in the Council by unanimity. This arrangement will not change following ratification of the EU reform treaty.

No decisions have yet been taken on the organisation and functioning of the External Action Service, or on the timing of when formal discussions between the member states on the External Action Service should begin. But the treaty does provide for the organisation to assist the work of the High Representative of the Union for Foreign Affairs and Security Policy to implement the decisions of the European Council and the Council, represent the Union for matters relating to the Common Foreign and Security Policy and organise the co-ordination of member states' action in international organisations and at international conferences. The treaty also specifies that the External Action Service shall operate in co-operation with the diplomatic services of the member states.

### Foreign Policy

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 November 2007, *Official Report*, column 109W, if he will list the areas of foreign policy for which EU common positions are in place; and if he will make a statement on the legal constraints on individual member states on operating separate foreign policies within such areas. [170576]

**Mr. Jim Murphy:** Details of all current and former common positions can be found on the EU website

http://eur-lex.europa.eu/en/index.htm.

These include common positions on policy towards Angola, Belarus, Burma, Democratic People's Republic of Korea, Democratic Republic of Congo, Eritrea, Ethiopia, former Yugoslav Republic of Macedonia, Iraq, Iran, Ivory Coast, Lebanon, Liberia, Moldova, Nigeria, Rwanda, Sierra Leone, Somalia, Sudan, Uzbekistan, Former Yugoslavia and Zimbabwe. Thematic areas covered by common positions include non-proliferation, counter terrorism, conflict prevention in Africa and the international criminal court.

EU common positions are decided by the member states in the Council by unanimity. The UK will only agree to a common position when it is in line with our own policy. Once agreed member states commit themselves to supporting the common position—and this has been the case since the ratification of the Maastricht Treaty.

### Instrument for Pre-Accession

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what financial assistance has been allocated within the Instrument for Pre-Accession to *(a)* Bosnia-Herzegovina, *(b)* Serbia and *(c)* Croatia for each year from 2007 to 2010. [170327]

**David Miliband:** The Instrument for Pre-Accession Assistance (IPA) came into force on 1 January 2007. IPA is a new, consolidated and simplified instrument that brings together previous funding streams and enhances donor co-ordination with international financial institutions. The UK provides 17.5 per cent. of the funding. Other significant donors are Germany (21.1 per cent.), France (16.4 per cent.) and Italy (13.6 per cent.).

We are closely involved with the process of ensuring that the right projects are prioritised and funded. It funds projects in the two countries negotiating to join the EU (Croatia and Turkey) and the countries which are candidates or pre-candidates for EU membership in the Western Balkans. These projects are crucial to the delivery of reforms preparing countries for EU membership. They promote democracy, the rule of law, human rights and respect for the protection of minorities, as well as economic reform and increased capacity to implement EU law and standards in areas ranging from free movement of goods to the environment.

Funding allocations for Bosnia and Herzegovina, Croatia and Serbia (not including Kosovo) for the period 2007-10 are:

| | € |
|---|---|
| *Bosnia and Herzegovina* | |
| 2007 | 662,100,000 |
| 2008 | 74,800,000 |
| 2009 | 89,100,000 |
| 2010 | 106,000,000 |
| *Croatia* | |
| 2007 | 141,227,000 |
| 2008 | 146,000,000 |
| 2009 | 151,200,000 |
| 2010 | 154,200,000 |
| *Serbia* | |
| 2007 | 189,700,000 |
| 2008 | 190,900,000 |
| 2009 | 194,800,000 |
| 2010 | 198,700,000 |

The full indicative allocations under IPA for 2007-11 can be found at:

http://ec.europa.eu/enlargement/pdf/key_documents/2007/nov/miff_en.pdf.

### Iran: Nuclear Power

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on whether the Government shares the assessment of the November 2007 National Intelligence Estimate by the US National Intelligence Council that Iran maintained a covert programme of nuclear weapon design, weaponisation work and covert uranium conversion-related and uranium enrichment-related work prior to 2003; and if he will make a statement. [172383]

**David Miliband:** It is not the practice of this or previous Governments to comment on intelligence matters. However, it is important to note that nothing in the National Intelligence Estimate changes the fundamental problem that we face which is Iran's pursuit of a uranium enrichment programme that has, as far as we can see, no civilian application. This is despite the unanimous demand from the UN Security Council and from the International Atomic Energy Agency that it stop doing so. Accordingly, we will continue to act in the UN, the EU and bilaterally to persuade Iran to change its approach and comply with its international responsibilities.

### Iraq: Departmental Co-ordination

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 14 November 2007, *Official Report*, column 319W, on Iraq: departmental co-ordination, which department has the lead on implementing and monitoring the ex gratia assistance to be provided to Iraqi staff working for UK armed forces and civilian missions in Iraq. [167247]

**David Miliband:** There is no single Departmental lead. The Home Office has the lead on issues relating to the operation of the Gateway programme and the granting of leave to enter the UK, and co-ordinates closely with employing Government Departments on delivery of these aspects of the policy. Individual employing Departments are responsible for providing financial assistance to their own employees in line with the terms of the new policy. The Foreign and Commonwealth Office continues to play a general co-ordinating role. Consistency is ensured by regular contacts between interested Departments in the UK and on the ground.

### Israel: Frontiers

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Israeli Government to reopen *(a)* the Karim crossing and *(b)* other closed crossings from Gaza. [172354]

**Dr. Howells:** I refer the hon. Member to the reply I gave to my right hon. Friend the Member for Oxford, East (Mr. Smith) on 5 December 2007, *Official Report*, columns 1299-1300W.

### Occupied Territories: Food

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Israeli authorities on ensuring that people living in Gaza are not deprived of access to *(a)* food, *(b)* water, *(c)* medical supplies and *(d)* electricity. [172352]

**Dr. Howells:** I refer the hon. Member to the reply I gave to my right hon. Friend the Member for Oxford, East (Mr. Smith) on 5 December 2007, *Official Report*, columns 1299-1300W.

### Palestinians: Politics and Government

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his policy in respect of the Hamas administration in Gaza. [172353]

**Dr. Howells:** We have repeatedly made clear that we are ready to engage with Hamas if they follow the Quartet (US, EU, UN and Russia) principles: renunciation of violence; recognition of Israel; and the acceptance of previous agreements and obligations, including the Roadmap.

President Abbas is the elected President for all Palestinian people. Our priority is to support President Abbas and the legitimate Palestinian Government led by Prime Minister Salam Fayyad as they try to restore law and order in the Occupied Palestinian Territories.

The Government are committed to helping all Palestinians, including the people of Gaza. In 2007-08, the UK has provided £31 million bilaterally to the Palestinians: £15 million through the UN Relief and Works Agency; £1 million to the International Committee for the Red Cross' work in the West Bank and Gaza; and £15 million through the Temporary International Mechanism.

### Russia: Elections

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received representations on the conduct of the recent elections to the State Duma in Russia; and if he will make a statement. [172380]

**David Miliband:** A number of parliamentarians have expressed concern to the Foreign and Commonwealth Office about the conduct of the recent Duma elections in Russia. We share these concerns. In a statement of 3 December the Foreign and Commonwealth Office said that, if proved correct, allegations of electoral malpractice would suggest that the elections were neither free nor fair.

It is deeply disappointing that Russia prevented the Organisation for Security and Co-operation in Europe's (OSCE) specialist election monitoring body, the Office for Democratic Institutions and Human Rights (ODIHR), from observing the elections. They would have provided expert, independent election monitoring. At the OSCE Ministerial Council in Madrid immediately prior to the elections, my hon. Friend the Minister for Europe, Jim Murphy, said,

> "we regret that ODIHR has recently faced a number of unprecedented restrictions and bureaucratic obstacles to observing the Russian Duma elections".

It is vital that the Russian Central Election Commission urgently investigates all allegations of electoral abuses and that the Russian government puts in place systems to ensure that the presidential elections in March 2008 will be transparent and democratic.

### Tristan da Cunha: Viral Diseases

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the Government has offered Tristan da Cunha following the outbreak of an acute virus on the island. [172141]

**Mr. Jim Murphy:** A flu outbreak on Tristan da Cunha has, in turn, triggered a rise in the cases of asthma on the island. Those affected are receiving treatment. The island has enough current stocks of the necessary drugs for this not to be an emergency situation now. But the isolation of the island, which has no airport and is a minimum of six days by sea from South Africa, makes supplying the island with further stocks difficult.

Following close liaison with the administrator on Tristan da Cunha, the Department for International Development, the Ministry of Defence and others, however, are making arrangements to provide an additional supply of drugs in advance of the next regular ship's visit to the island at the end of January 2008. We hope to be able to deliver these supplies to the island on a Royal Navy vessel around 15 December.

### Turkey-UK Strategic Partnership Agreement

**Mr. O'Hara:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Turkey-UK Strategic Partnership Agreement, what discussions were held with the Cyprus government on those parts of the agreement that refer to Cyprus prior to its signing; what his definition is of high level contacts with Turkish Cypriot authorities; what his policy is on *(a)* the engagement of TRNC universities with the Bologna Process, *(b)* the right of Turkish Cypriots to representation in the European Parliament and *(c)* direct commercial, economic, political and cultural contact between the UK, EU and Turkish Cypriots; and if he will make a statement. [171475]

**Mr. Jim Murphy:** The Strategic Partnership document reflects the breadth of co-operation between the UK and Turkish governments, with a focus on issues of importance to all EU partners. It is also intended to promote an objective, shared by the UK and Cyprus, of ensuring that Turkey meets all of its obligations towards the EU, including full normalisation of relations with its neighbours, and implementation of the Ankara agreement protocol. As an EU partner, the UK is firmly committed to holding Turkey to the stringent accession criteria already in place. We will continue to engage with Turkey at the most senior levels in order to achieve this.

The UK/Turkey Strategic Partnership does not represent a change in our policy towards the government of Cyprus. As such, there were no discussions with Cyprus prior to its signing.

I made it clear in my written ministerial statement on 7 November, *Official Report*, columns 5-6WS that the UK does not recognise the so-called "Turkish Republic of Northern Cyprus", and that nothing in the UK/Turkey Strategic Partnership represents a change to this policy. We do, however, have regular contacts with the Turkish Cypriot community on a range of issues, most importantly, encouraging them to play a full part in the UN settlement process.

Officials in the Foreign and Commonwealth Office are in contact with Turkish Cypriot academics on how to raise Turkish Cypriot educational standards. These contacts have sought to promote an exchange of ideas between educational establishments on practical issues. The aim is to ensure Turkish Cypriot universities are able to maintain standards comparable with those institutions that are members of the Bologna process.

Turkish Cypriots are European citizens. Our preferred means to enfranchise them would be a comprehensive settlement of the Cyprus problem that enables them to elect representatives to the European Parliament in the normal way. In the absence of a settlement, we welcome interest shown by Turkish Cypriots in the European Parliament; and by European parliamentarians in the Turkish Cypriot community—not least through oversight of the implementation of the Aid Regulation by the Commission.

The EU made a commitment in April 2004, reiterated in January 2007, to

> "end the isolation of the Turkish Cypriot community and facilitate the reunification of Cyprus"

with

> "particular emphasis on the economic integration of the island and on improving contact between the two communities and with the EU".

We fully support these objectives.

**Mr. O'Hara:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the provisions of the Turkey-UK Strategic Partnership Agreement that refer to contact with Turkish Cypriots on (a) UK policy on the status of the TRNC and (b) perceptions of UK policy in (i) Cyprus, (ii) Turkey and (iii) the EU; and if he will make a statement. [171476]

**Mr. Jim Murphy:** I have made it clear in my written ministerial statement on 7 November, *Official Report*, columns 5-6WS, that we do not recognise the so-called "Turkish Republic of Northern Cyprus", and that nothing in the UK/Turkey Strategic Partnership represents a change to this policy. We do, however, maintain regular contacts with the Turkish Cypriot community on a range of issues, most importantly, encouraging them to play a full part in the UN settlement process

Our priority towards Cyprus remains full support for the implementation of the UN's 8 July agreement leading to a comprehensive and durable settlement. We also support the EU's efforts to

> "end the isolation of the Turkish Cypriot community and facilitate the reunification of Cyprus".

We shall continue to take every effort to build and strengthen our relations with Cyprus and take forward common goals, including reunification of the island, and Turkish membership of the EU.

**Mr. O'Hara:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with his Turkish counterpart prior to signing the Turkey-UK Strategic Partnership Agreement on *(a)* immigration from Turkey to Cyprus and *(b)* reducing the Turkish military presence in Cyprus; and if he will make a statement. [171477]

**Mr. Jim Murphy:** The UK/Turkey Strategic Partnership Agreement focuses on the long-term strategic objectives between Turkey and the UK. During the recent meeting between my right hon. Friend the Prime Minister and Turkish Prime Minister Erdogan, my right hon. Friend the Prime Minister pressed the Turkish Prime Minister to support the UN process and work towards a Cyprus settlement. Our policy has always been to encourage all parties, including Turkey, to play a full part in the UN settlement process.

Security and immigration are core issues that will ultimately need to be addressed in the course of substantive negotiations to achieve a comprehensive settlement. We continue to support the 8 July process and hope that genuine negotiations can start as soon as possible. We do believe, however, that a reduction in the number of Turkish troops will help build trust on the island.

## SOLICITOR-GENERAL

### Director of Public Prosecutions

**Mr. Amess:** To ask the Solicitor-General what process was followed in the appointment of the Director of Public Prosecutions; where the post was advertised; how many persons applied for the post; how many were short-listed for interview; whether consideration was given to a candidate's political views; how each was appraised; what criteria were adopted for each candidate; how many candidates were rejected; and if she will make a statement. [172473]

**The Solicitor-General:** The Director of Public Prosecutions was appointed by the then Attorney-General in 2003. He was unanimously recommended for the post by a panel which was chaired by the then First Civil Service Commissioner and also comprised two permanent secretaries and a serving Appeal Court judge. The post was advertised in the national media and a firm of executive search consultants was engaged. Sixteen applications were considered and three candidates were interviewed. Ken Macdonald QC was identified as the best candidate for his experience, his leadership qualities and vision. Candidates' political views were not a relevant consideration.

### Frigates: Romania

**Harry Cohen:** To ask the Solicitor-General with reference to the answer of 23 April 2007, *Official Report*, column 867W, on frigates: Romania, what the status is of the investigation. [172029]

**The Solicitor-General:** The Serious Fraud Office is investigating alleged offences involving BAE Systems plc. Further comment cannot be made for cases currently under investigation.

### Martin Allen

**Norman Baker:** To ask the Solicitor-General for what reason the Crown Prosecution Service took the decision that it was not in the public interest to proceed with the prosecution of Martin Allen. [172357]

**The Solicitor-General:** In order to commence a prosecution, the Crown Prosecution Service (CPS) applies a two-stage test. First, there has to be sufficient evidence for there to be a realistic prospect of conviction. Secondly, if there is sufficient evidence, it has to be in the public interest to prosecute. A prosecution will normally take place unless there are public interest factors tending against a prosecution which clearly outweigh those tending in favour of a prosecution.

Having thoroughly reviewed the available evidence, the CPS concluded that there was sufficient evidence to provide a realistic prospect of conviction against Mr. Allen for a number of criminal offences, but that there were a number of public interest factors against a prosecution, which outweighed those in favour.

A comprehensive list of common public interest factors for and against prosecution can be found in the Code for Crown Prosecutors.

In this case, matters relating to Mr. Allen's health and the surrounding circumstances were significant in deciding that a prosecution was not in the public interest. It would not be appropriate to give further details, as this would breach confidentiality.

**Norman Baker:** To ask the Solicitor-General what *(a)* legal advice and *(b)* recommendations the Crown Prosecution Service received from counsel before taking the decision whether to prosecute Martin Allen; and if she will make a statement. [172358]

**The Solicitor-General:** An advice file was submitted by the Metropolitan Police to the Crown Prosecution Service (CPS) in September 2005. As part of its review, the CPS requested advice from counsel on what, if any, criminal offences had been committed by Mr. Allen.

In October 2005, the CPS received counsel's advice. Counsel concluded (assuming that a number of facts could be proved) that there may be sufficient evidence to charge Mr. Allen with three offences: one alleging forgery, one alleging the use of forged documents and one alleging criminal damage. Counsel's advice was based upon the prosecution being able to prove a number of facts. In relation to two of those facts, counsel made suggestions as to how they might be proved.

Following an extensive and complex investigation, in March 2007, the CPS concluded that there was sufficient evidence to prosecute Mr. Allen for three offences. However, having considered the public interest factors in favour of a prosecution and those against, the CPS concluded that the factors against a prosecution outweighed those in favour. Accordingly, the Metropolitan Police were advised that a prosecution was not required in the public interest.

### Prisoners Learning and Skills Unit

**Mr. Hurd:** To ask the Solicitor-General what resources have been provided to the Prisoners Learning and Skills Unit since its formation; what assessment she has made of the effectiveness of its work; and if she will make a statement. [172302]

**Mr. Lammy:** I have been asked to reply.

The resources provided to the Department for Innovation, Universities and Skills' Offenders Learning and Skills Unit (OLSU), and its predecessors, since the transfer of offender learning and skills, in 2001, are as follows:

| *Financial year* | *Budget (£ million)* |
|---|---|
| 2001-02 | 57 |
| 2002-03 | 73 |
| 2003-04 | 116 |
| 2004-05 | 126 |
| 2005-06 | 151 |
| 2006-07 | 156 |
| 2007-08 | 144 |

These totals include funding for prison libraries, salaries for heads of learning and skills in prisons, and capital funding.

The OLSU has been effective in raising the profile of the skills and employment agenda for offenders in custody and in the community. The 2005 Green Paper "Reducing Re-offending Through Skills and Employment" and the follow-up "Reducing Re-offending Through Skills and Employment: Next Steps" (2006) documents have set out a clear agenda for action for the strong partnership between the Department for Innovation, Universities and Skills, the Ministry of Justice and the Department for Work and Pensions.

### Racial Violence

**Jo Swinson:** To ask the Solicitor-General how many *(a)* charges and *(b)* convictions there were for incitement to racial hatred in each of the last 10 years. [170584]

**The Solicitor-General:** The Attorney-General's office keeps data on prosecutions under Part III of the Public Order Act 1986, relating to offences concerning conduct intended to, or likely to, stir up racial hatred. The following table captures the relevant AGO data for the period 1997 to 2007 inclusive. The AGO statistics are recorded by reference to the year in which each case was referred to the Crown Prosecution Service by the police, rather than the year in which an offender was charged or eventually convicted.

| | *Number of persons charged* | *Number of persons convicted* | *Other outcome*[1] |
|---|---|---|---|
| 1997 | 7 | 4 | 1A,1D,1 stayed |
| 1998 | 0 | 0 | — |
| 1999 | 5 | 3 | 1A,1D |
| 2000 | 6 | 5 | 2A,1 D |
| 2001 | 2 | 1 | 1D |
| 2002 | 1 | 1 | — |
| 2003 | 8 | 7 | 1D |
| 2004 | 8 | 3 | 2A,2O, 1 died |
| 2005 | 2 | 2 | — |
| 2006 | 3 | 3 | — |
| 2007 | 0 | 0 | — |
| Total | 44 | 29 | 15 |

[1] Key to abbreviations:
A = acquitted
D = dropped
O = ongoing

## WALES

### Christmas

**Malcolm Bruce:** To ask the Secretary of State for Wales whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173492]

**Mr. Hain:** The Wales Office always seeks to use low energy products and currently uses low voltage, clear multifunctional lights for decorations.

**Malcolm Bruce:** To ask the Secretary of State for Wales what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173512]

**Mr. Hain:** The Wales Office uses both real trees and artificial trees. Its real trees are obtained from sustainable resources, via the Ministry of Justice, which also provides the facility for disposal and recycling of the trees.

### Departmental Carbon Emissions

**Chris Huhne:** To ask the Secretary of State for Wales how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result. [172268]

**Mr. Hain:** Information prior to 2004 was not held in this format and can be only provided at disproportionate cost.

| | *Miles* | *$CO_2$ tonnes* |
|---|---|---|
| 2004-05 | 12,270 | 2.9 |
| 2005-06 | 0 | 0 |
| 2006-07 | 676 | 0.2 |

In 2006-07 all air travel carbon emissions were offset using PURE Trust as recommended through DEFRA.

**Chris Huhne:** To ask the Secretary of State for Wales how many miles he and other Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon emissions produced as a result of these flights. [172573]

**Mr. Hain:** In the last 12 months Wales Office Ministers have travelled 813 miles with an estimated carbon emissions of 0 4 tonnes $CO_2$.

The Wales Office will be offsetting all carbon emissions from air travel for 2007-08.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Wales whether the standard terms and conditions of purchase used by his Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172436]

**Mr. Hain:** The Wales Office follows the Ministry of Justice procurement policy.

## WOMEN AND EQUALITY

### Equal Pay

**Jo Swinson:** To ask the Minister for Women and Equality what assessment she has made of any pay gap between male and female staff in the Government Equalities Office. [171377]

**Barbara Follett** *[holding answer 4 December 2007]*: Since the formation of the Government Equalities Office in summer 2007, no assessment has been made. However, as a matter of good practice, we will consider pay issues once the terms and conditions of the new office have been finalised.

### Ethnic Minorities

**Jo Swinson:** To ask the Minister for Women and Equality what proportion of staff in the Government Equalities Office are *(a)* male, *(b)* female, *(c)* black and minority ethnic male and *(d)* black and minority ethnic female. [171378]

**Barbara Follett** *[holding answer 4 December 2007]*: Following the announcement of the establishment in summer 2007 of the Government Equalities Office, staff transferred from the Communities and Local Government. The following data do not include a number of staff who have recently joined the office.

These figures also incorporate staff numbers from the Women's National Commission.

| | *Percentage* |
|---|---|
| *(a)* Male | 40 |
| *(b)* Female | 60 |
| *(c)* BME male | 8 |
| *(d)* BME female | 15 |

### IPPR: Finance

**Mr. Pickles:** To ask the Minister for Women and Equality what funding the Commission for Equality and Human Rights has provided to *(a)* the IPPR and *(b)* IPPR Ltd., in relation to community cohesion, in the last 24 months, and for what projects. [171611]

**Barbara Follett:** The Equality and Human Rights Commission (the Commission) has awarded one contract to IPPR for the supply of a series of stakeholder events in London, Manchester and Edinburgh. These events were held on 20 July 2007, 23 July 2007 and 11 September 2007. This contract amounted to £25,549.06. No funding has been provided to IPPR Ltd in relation to community cohesion.

The roundtable events were planned to enable the Commission to explore with stakeholders their views on a range of equalities and human rights public policy issues. Because of the Commission's remit and mandate, community cohesion will have been discussed at these events, along with other equality and human rights areas.

## TRANSPORT

### Aviation: Noise

**Mr. Randall:** To ask the Secretary of State for Transport what information her Department holds on aircraft noise *(a)* at Heathrow airport and *(b)* in the surrounding London boroughs in each year since 1997. [169973]

**Jim Fitzpatrick:** Noise exposure contours at Heathrow are prepared for the Department by the Civil Aviation Authority's (CAA) noise modelling experts and are reported annually, together with maps indicating the noise impacts on the surrounding area. The CAA has also produced a report, 'Revised Future Aircraft Noise Exposure Estimates for Heathrow Airport', as part of our current consultation 'Adding Capacity at Heathrow Airport'. These documents are all available on the Department's website (www.dft.gov.uk) along with information on aircraft noise at night, which informed consultation last year on night flying restrictions at Heathrow, Gatwick and Stansted.

### Cycling: Accidents

**Mr. Evans:** To ask the Secretary of State for Transport how many accidents there were involving cyclists in *(a)* Ribble Valley constituency and *(b)* Lancashire in each year since 2000. [173397]

**Jim Fitzpatrick:** The number of reported personal injury road accidents involving at least one pedal cycle in *(a)* Ribble Valley constituency and *(b)* Lancashire in each year since 2000 is shown in the table.

| | *Number of accidents* | |
|---|---|---|
| | *Ribble Valley constituency*[1] | *Lancashire county council* |
| 2000 | 17 | 511 |
| 2001 | 33 | 509 |
| 2002 | 19 | 450 |
| 2003 | 18 | 422 |
| 2004 | 18 | 456 |
| 2005 | 24 | 469 |
| 2006 | 29 | 414 |

[1] Based on 2004 parliamentary constituency boundaries.

### Departmental Official Visits

**Mrs. Villiers:** To ask the Secretary of State for Transport how many *(a)* short and *(b)* long haul flights were taken by Ministers and officials in her Department in each of the last five years. [170717]

**Jim Fitzpatrick:** This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. All travel is undertaken in accordance with the "Civil Service Management Code", the "Ministerial Code" and "Travel by Ministers".

### London City Airport

**Derek Conway:** To ask the Secretary of State for Transport (1) what discussions her Department has had with the London Borough of Bexley planning authority on the impact of an increase in the number of aircraft arriving at and departing from London City Airport on the vector path over that borough; [172243]

(2) what discussions her Department has had with the relevant planning authorities on increasing the number of aircraft arriving at and departing from London City Airport; [172244]

(3) if she will place in the Library copies of exchanges between her Department and the London Borough of Newham on proposals to increase the number of aircraft arriving at and departing from London City Airport. [172245]

**Mr. Tom Harris:** No such discussions have taken place. The 2003 White Paper "The Future of Air Transport" recognised that the airport served a niche business market and was likely to demonstrate steady growth. In principle, the Government support its development, subject to relevant environmental considerations.

The White Paper does not itself authorise or preclude any particular development, but sets out a policy framework that will guide decisions on future planning applications. Ultimately, it is for airport owners and operators to bring forward proposals for airport development in the normal way, through the statutory land-use planning system.

Furthermore, Ministers have a quasi-judicial role in the planning process with regard to transport-related applications raised on appeal. It would, therefore, be prejudicial for Ministers to comment on, or discuss, matters that are subject to a planning application and may come before a planning inquiry.

### Network Rail

**Mrs. Villiers:** To ask the Secretary of State for Transport what steps her Department is taking to benchmark the performance of Network Rail. [170743]

**Mr. Tom Harris:** The Office of Rail Regulation (ORR), as the independent regulator, undertakes extensive benchmarking of Network Rail's performance. It has recently benchmarked Network Rail's asset management against a range of international comparators and is in the process of benchmarking Network Rail's costs against international railways. Network Rail also carries out internal benchmarking.

### Railways: Finance

**Graham Stringer:** To ask the Secretary of State for Transport what the total funding commitment from the public purse is for *(a)* Crossrail, *(b)* the Manchester Rail Hub and *(c)* the improvement to the trans-Pennine crossrail links in each of the next five years. [165992]

**Mr. Tom Harris** *[holding answer 19 November 2007]:* The public funding commitment in each of the next five years for Crossrail, from the Department for Transport and Transport for London, is set out in the following table.

| | *£ million* |
|---|---|
| 2008-09 | 500 |
| 2009-10 | 694 |
| 2010-11 | 1,052 |
| 2011-12 | 1,410 |
| 2012-13 | 2,049 |

The Government have set out in broad terms in the High Level Output Specification (HLOS), published in July this year, the additional passenger capacity it intends should be provided for the cities of Manchester and Leeds, and for trans-Pennine links. The Department for Transport is in discussion with Network Rail and the train operating companies about how best to add the improvements to the local and regional Manchester train services on to the committed December 2008 West Coast service enhancements for Manchester. In addition, a number of Manchester station improvements are being developed.

Network Rail are about to undertake a feasibility study to identify how best to address future rail capacity issues through Manchester. This is in response to the priority attached by the three Northern regions to providing additional passenger and freight capacity through Manchester to support economic growth across the north as a whole.

The Department is also actively considering the Association of Greater Manchester Authorities' bid for the Transport Innovation Fund.

It is too early at this stage to forecast the likely costs of the Manchester Rail Hub and the trans-Pennine rail links.

### Rolling Stock

**Mrs. Villiers:** To ask the Secretary of State for Transport how much her Department has spent on the Competition Commission's investigation into rail rolling stock companies. [170737]

**Mr. Tom Harris:** The Department has spent £1,675,287.63 on external advice relating to the Competition Commission's investigation into rail rolling stock companies, between 2005-06 and 2007-08.

### Rolling Stock: Procurement

**Mrs. Villiers:** To ask the Secretary of State for Transport whether she plans to use double decker trains on the rail network. [170756]

**Mr. Tom Harris:** The Department considered with industry the use of double decker trains as an option for increasing capacity in preparation for issuing the recent White Paper "Delivering a Sustainable Railway". The conclusions are presented in a report "Preliminary Evaluation of Double Deck and Extra Long Train Operations" prepared by Network Rail and published on the Department's website. They suggest that the constraints of the UK network make double decker trains less cost-effective than other options and that this is likely to remain the case for the foreseeable future.

### Southeastern Railway Company: Franchises

**Derek Conway:** To ask the Secretary of State for Transport if she will place in the Library the correspondence between her Department and the Southeastern Railway Company that resulted in the Department's derogation from the operating franchise agreement enabling the company to increase fares from Sidcup and Albany Park stations in excess of the Retail Price Index plus 3 per cent. formula previously in place. [172590]

**Mr. Tom Harris:** I have arranged for the relevant documents to be placed in the Library.

### Speed Limits: Cameras

**Mr. Dai Davies:** To ask the Secretary of State for Transport if she will assess the merits of erecting speed limit signs alongside signs indicating the presence of speed cameras in terms of road safety; and if she will make a statement. [172803]

**Jim Fitzpatrick:** We want speed camera enforcement to be highly visible and drivers to be made fully aware of the presence of cameras and the speed limit on the road. The Department's guidance on the use of speed cameras therefore already encourages that speed limit and camera warning signs should be co-located where permitted and practicable. Furthermore for fixed cameras the guidance encourages the speed limit sign and camera sign to be visible to the driver in the same view as the camera.

### Stonehenge

**Mr. Liddell-Grainger:** To ask the Secretary of State for Transport how much has been spent on consultation on the Stonehenge by-pass. [173091]

**Mr. Tom Harris** *[holding answer 11 December 2007]*: The Highways Agency is currently collating this information and will place it in the House Libraries when the House returns from Christmas recess in January.

## NORTHERN IRELAND

### Community Support Officers

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what progress has been made in assessing the Police Service of Northern Ireland's business case for police community support officers; and what the expected timeframe is for this process. [164388]

**Paul Goggins:** The Police Service of Northern Ireland's business case for police community support officers has been approved.

The timing of the introduction of PCSOs depends on wider financial and operational considerations and is a matter for the Chief Constable and the Policing Board to determine.

## INTERNATIONAL DEVELOPMENT

### ACP Countries: EU External Trade

**Mr. Sharma:** To ask the Secretary of State for International Development what the policy of the Government is on the end of the EU-African, Caribbean and Pacific countries sugar protocol; and what steps the Government plans to take to ensure that producers in developing countries do not experience hardship from the end to the Protocol. [172989]

**Mr. Thomas:** The ending of the sugar protocol (SP) must be seen in the wider context of the 'Everything but Arms' agreement with the least developed countries, the economic partnership agreements (EPAs) with the Africa, Caribbean and Pacific (ACP) countries and the common agricultural policy (CAP) sugar reforms in the EC. The EPA offers all ACP countries the opportunity to export, in the medium term, sugar duty free and quota free to the EC. For the UK, improving access to the EC market for all ACP countries is an important requirement to ensure that EPAs live up to their potential to be tools for development.

We recognise that the CAP sugar reforms and the end of the SP will present challenges for many of the 18 ACP countries that are signatory to the SP. We have always been clear that such countries require transitional assistance in order to adapt their economies to face the challenges. As a result of our lobbying, the European Commission has made available €1.284 billion over the period of 2006-13 directly from its budget. The 18 signatory countries will all benefit from this transitional assistance and they will have to draw up a national action plan to show how they will spend their allocation. DFID provided financial support totalling £200,000 to the six Caribbean countries that are part of the ACP-SP to help them draw up their national action plans.

### Afghanistan: Reconstruction

**Mr. Holloway:** To ask the Secretary of State for International Development how many times on average individual members of his Department's staff based in the provincial reconstruction team in Lashkar Gah left the team's compound other than by air in each of the last six months. [172129]

**Mr. Thomas:** DFID has one member of staff, a development adviser, based in the provincial reconstruction team. Over the last six months, the development adviser has left the provincial reconstruction team compound an average of 12-15 times per month by road for meetings and visits within Lashkar Gah.

### Bangladesh: Overseas Aid

**Mr. Jim Cunningham:** To ask the Secretary of State for International Development what steps the Government has taken to work with authorities in Bangladesh to minimise the impact of future natural disasters. [170977]

**Mr. Thomas:** The UK has been working in Bangladesh on Disaster Risk Reduction for a number of years. After the devastating cyclone that struck Bangladesh in 1991, killing 140,000 people, the UK supported the building of cyclone shelters and shelter houses. We have committed £6 million to the Government of Bangladesh's (GoB) Comprehensive Disaster Management Programme (CDMP)—which includes work on practical ways to help people cope with more frequent and severe disasters. This is a five year programme (2004-09) focused on improving disaster management—shifting from conventional responses and relief to a more comprehensive risk reduction culture.

The UK is also developing a new climate change programme to continue to build GoB's capacity to mainstream climate change in its developmental planning, and effectively engage both domestically and internationally on climate change issues. The programme will take forward the second phase of the successful Comprehensive Disaster Management Programme, as well as addressing other gaps—such as national research and modelling, and adaptation planning within vulnerable sectors (eg water resources, agriculture).

### Departmental Manpower

**Mrs. May:** To ask the Secretary of State for International Development how many *(a)* men and *(b)* women of each civil service grade are employed by his Department. [172737]

**Mr. Thomas:** The Department for International Development (DFID) employs both home civil servants (HCS) and locally engaged staff (known as staff appointed in country or SAIC), who work in our more than 60 overseas offices. SAIC are not civil servants. They are employed on local terms and conditions of service, but within the same broad grading structure.

Gender data are supplied by staff on a voluntary basis. The numbers who have chosen not to provide this information are shown as N/D ("not declared"). The following table shows the numbers by gender and grade as at the end of November 2007.

| | *HCS* | | | *SAIC* | | | |
|---|---|---|---|---|---|---|---|
| *Grade* | *Men* | *Women* | *Total* | *Men* | *Women* | *N/D* | *Total* |
| SCS | 61 | 32 | 93 | 0 | 0 | 0 | 0 |
| A1 | 153 | 83 | 236 | 3 | 1 | 0 | 4 |
| A2 | 232 | 217 | 449 | 19 | 18 | 4 | 41 |
| A2(L) | 56 | 71 | 127 | 38 | 35 | 5 | 78 |
| B1D | 30 | 42 | 72 | 0 | 0 | 0 | 0 |
| B1 | 142 | 115 | 257 | 33 | 50 | 10 | 93 |
| B2 | 101 | 147 | 248 | 82 | 117 | 25 | 224 |
| C1 | 69 | 141 | 210 | 78 | 143 | 25 | 246 |
| C2 | 14 | 11 | 25 | 58 | 17 | 3 | 78 |
| C3 | n/a | n/a | n/a | 37 | 9 | 1 | 47 |
| C4 | n/a | n/a | n/a | 1 | 2 | 0 | 3 |
| D1 | n/a | n/a | n/a | 21 | 0 | 9 | 30 |
| D2 | n/a | n/a | n/a | 10 | 0 | 0 | 10 |
| D4 | n/a | n/a | n/a | 3 | 2 | 0 | 5 |
| Total | 858 | 859 | 1,717 | 383 | 394 | 82 | 859 |

n/a = not applicable

## Departmental Pay

**Mr. Hayes:** To ask the Secretary of State for International Development how many and what proportion of his Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171406]

**Mr. Thomas:** The Department for International Development (DFID) employs both home civil servants (HCS) and locally engaged staff (known as staff appointed in country or SAIC), who work in more than 60 overseas offices. SAIC are employed on local terms and conditions. Salaries paid to SAIC vary from country to country to reflect conditions in the local labour markets.

DFID's HCS and SAIC workforce is structured around a grade hierarchy, rather than by salary band. There are numerous job titles and roles that fall within each grade, covering administrative, technical and advisory staff, and it is not therefore possible to assign staff numbers to each title or role.

As of the end of November 2007, the number of staff by grade and those as a proportion of the total are as shown in the following tables.

| *Grade* | *Home civil servants* | *Staff appointed in country* | *Total* | *Percentage of total by grade* |
|---|---|---|---|---|
| SCS | 93 | 0 | 93 | 3.6 |
| A1 | 236 | 4 | 240 | 9.3 |
| A2 | 449 | 41 | 490 | 19.0 |
| A2(L) | 127 | 78 | 205 | 8.0 |
| B1D | 72 | 0 | 72 | 2.8 |
| B1 | 257 | 93 | 350 | 13.6 |
| B2 | 248 | 224 | 472 | 18.3 |
| C1 | 210 | 246 | 456 | 17.7 |
| C2 | 25 | 78 | 103 | 4.0 |
| C3 | n/a | 47 | 47 | 1.8 |
| C4 | n/a | 3 | 3 | 0.1 |
| D1 | n/a | 30 | 30 | 1.2 |
| D2 | n/a | 10 | 10 | 0.4 |
| D3 | n/a | 0 | 0 | 0 |
| D4 | n/a | 5 | 5 | 0.2 |
| Total | 1,717 | 859 | 2,576 | 100 |

n/a= not applicable

*(a)* There are separate bonus structures for staff in the Senior Civil Service (SCS) and those at other grades. All bonus payments are non-consolidated for pay purposes, and non-pensionable. The approximate proportion of the overall pay bill allocated to bonus payments made to HCS in 2006-07 was 1.4 per cent.

*(b)* The majority of HCS are eligible to join the civil service pensions schemes, and retirement benefits are paid in accordance with the rules of those schemes. Further information is available from the civil service pensions website, at

www.civilservice-pensions.gov.uk

SAIC are not eligible to join the civil service pensions schemes. Any superannuation arrangements for this group are determined locally, based on local practice and feasibility.

*(c)* All staff are entitled to seek reimbursement of necessary out-of-pocket expenses. HCS based overseas are also entitled to receive an allowance to compensate for any additional cost of everyday goods and services, which ensures that their income has the same purchasing power as in the UK.

*(d)* The payment of expenses is administered independently by each of our departments and offices overseas, and the total value of those payments incurred in the last 10 years could only be obtained and collated at disproportionate cost.

*(e)* The average age of our employees, the *(f)* number of women and men, and *(g)* ethnic composition is shown in the following tables, but age, gender and ethnicity are all provided by staff on a voluntary basis. The numbers who have chosen not to provide this information is shown as "N/D"—not declared.

*Home Civil Servants*

| | | *Gender* | | *Ethnicity* | | | | | | |

| C3 | 42 | 37 | 9 | 1 | 0 | 1 | 0 | 45 | 1 | 47 |
| C4 | 31 | 1 | 2 | 0 | 0 | 0 | 0 | 3 | 0 | 3 |
| D1 | 45 | 21 | 0 | 9 | 0 | 0 | 0 | 30 | 0 | 30 |
| D2 | 35 | 10 | 0 | 0 | 0 | 0 | 0 | 10 | 0 | 10 |
| D4 | 34 | 3 | 2 | 0 | 0 | 0 | 0 | 5 | 0 | 5 |
| Total | 39 | 383 | 394 | 82 | 9 | 13 | 3 | 832 | 2 | 859 |

[1] 86 SAIC have not declared their age. The average age by grade for this group has been calculated only for those who have.

**Mr. Philip Hammond:** To ask the Secretary of State for International Development how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171533]

**Mr. Thomas:** DFID operates two separate bonus schemes: one for the senior civil service (SCS) and another for staff below the SCS.

The following two tables give the total value of bonuses awarded to DFID staff in each of the last five years.

| | £ |
|---|---|
| 2002-03 | 377,579 |
| 2003-04 | 475,101 |
| 2004-05 | 497,350 |
| 2005-06 | 892,965 |
| 2006-07 | 1,062,233 |

DFID has no agencies to which this question applies.

## Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for International Development whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibits the assignment of debt. [172335]

**Mr. Thomas:** DFID's general terms and conditions used to engage the private sector in the procurement of goods and services do not make specific reference to the prohibition of assignment of debt. However, our standard contract for services prohibits the consultant from assigning any of its rights under the contract without the prior written consent of DFID.

Procurement Agents who place contracts for goods on behalf of DFID also include a standard provision in their contracts with suppliers which prohibits the assignment of any rights under the contract without prior agreement.

## Departmental Research

**Mr. Jim Cunningham:** To ask the Secretary of State for International Development what steps the Government has taken to improve research methods and practices in his Department. [170979]

**Mr. Thomas:** DFID formed the Central Research Department (CRD) in 2003 to improve the management and delivery of its long-term research programmes. DFID's research is guided by a Research Funding Framework that sets out what DFID will fund and how. Programmes have clear thematic priorities (for example, climate adaptation) and emphasis is placed on measuring outcomes and impact. Research methods are assessed for rigour, particularly at the start of the programme and through regular reviews. These are usually led by eminent researchers. Advisory groups provide independent and quality advice to the research programmes.

Improvements have been made to the way research is funded. For example, bilateral research is mainly funded through Research Programme Consortia

(RPC), which are collaborations between research institutions world-wide. Some research is funded through multi-donor and global initiatives (for example, Medicines for Malaria Venture) to improve efficiency and effectiveness. DFID also works with other donors and UK research councils to improve efficiency and scientific rigour, and DFID is supporting the new UK Collaborative on Development Sciences, which brings together UK funders and stakeholders to improve the co-ordination of development sciences research in the UK. DFID has also appointed a Chief Scientific Adviser to ensure the Department has a clear vision for the role of science and innovation in development.

DFID is placing more emphasis on making its research accessible. For example DFID has a research portal (www.research4development.info), which allows free access to information about DFID's research.

### Poverty

**Mr. Jim Cunningham:** To ask the Secretary of State for International Development* how much the Government has spent on research into poverty reduction since 1997. [170978]

**Mr. Malik:** DFID's Central Research Department spending on research on key development policies and technologies over the past three years is shown as follows. Comparable figures for earlier years cannot be obtained without incurring a disproportionate cost. These figures exclude spending on research programmes funded through country offices or via multilateral organisations.

| | *£ million* |
|---|---|
| 2004-05 | 88.6 |
| 2005-06 | 101.7 |
| 2006-07 | 112.0 |

## OLYMPICS

### Olympic Board Secretariat

**Hugh Robertson:** To ask the Minister for the Olympics whether she plans to relocate the Secretariat to the Olympic Board from Canary Wharf to Whitehall; and if she will make a statement. [163718]

**Tessa Jowell** *[holding answer 13 November 2007]*: Prior to September 2007, the secretariat function for the Olympic Board was undertaken by the Olympic Programme Support Unit (OPSU). While OPSU were situated in Canary Wharf, they were based for administrative purposes within the Department for Culture, Media and Sport (DCMS).

In September 2007, this secretariat function moved to the Government Olympic Executive, situated and based at DCMS.

The decision to replace OPSU was taken to improve the quality of secretariat support being provided to the Olympic Board.

## CULTURE, MEDIA AND SPORT

### Departmental Travel

**Mr. Hayes:** To ask the Secretary of State for Culture, Media and Sport how much his Department spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171255]

**Margaret Hodge:** I refer the hon. Member to the answer given by the Secretary of State to the hon. Member for Fareham (Mr. Hoban) on 3 September 2007, *Official Report*, column 1595W.

**Mr. Hayes:** To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on first class train tickets in the last 12 months. [171268]

**Margaret Hodge:** I refer the hon. Member to the answer I gave to the hon. Member for Fareham (Mr. Hoban) on 19 October 2007, *Official Report*, column 1365W.

### Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Culture, Media and Sport how many *(a)* men and *(b)* women are employed by his Department, broken down by civil service grade. [172686]

**Mr. Sutcliffe:** A table of results showing the number of staff the Department for Culture, Media and Sport employs, broken down by gender and civil service grade are as follows:

*Department for Culture, Media and Sport (DCMS), DCMS employees, by gender and grade*

| *Grade* | *Male* | *Female* |
|---|---|---|
| Permanent Secretary | 1 | 0 |
| SCS3 | 3 | 0 |
| SCS2 | 7 | 2 |
| SCS1 | 11 | 8 |
| SCS1A | 1 | 0 |
| Grade A(U) | 11 | 9 |
| Grade A | 56 | 38 |
| Grade B | 92 | 78 |
| Grade HEOD | 8 | 7 |
| Grade C | 59 | 63 |
| Grade D | 19 | 31 |
| All employees | 268 | 236 |

*Key:*
Grade A = Former Grades 6/7
Grade B = Former SEO/HEO/HEO(D) and equivalent grades
Grade HEOD = Fast Stream
Grade C = Former EO and equivalent grades
Grade D = Former AO/AA and equivalent grades.

### Digital Broadcasting

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how many national digital radio stations *(a)* there are and *(b)* he expects there to be by the end of 2008. [171655]

**James Purnell:** There are currently 19 national DAB digital radio stations. A second national commercial multiplex, awarded by Ofcom to 4 Digital Group, is planned to launch in 2008 with a further eight services. We do not hold figures on the total number of national stations available on other digital platforms.

### Digital Radio Working Group

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how many staff will be seconded from his Department to the Digital Radio Working Group. [171654]

**James Purnell:** There are no plans for any staff to be seconded formally to the Digital Radio Working Group. Current plans are for around 1.5 members of staff (full time equivalent) to provide support to the group, although this may change as the work of the group develops.

### Leisure Facilities

**Mr. Jenkins:** To ask the Secretary of State for Culture, Media and Sport how many local authorities have applied for funding from his Department to help fund local leisure facilities in each of the last five years. [173457]

**Mr. Sutcliffe:** The only direct DCMS funding stream, to help local authorities fund leisure facilities, over the stated time period has been PFI Credits.

In the last five years, we have held three bidding rounds for PFI Credits under which local authorities could apply for funding in the form of PFI Credits. A table showing the number of applications we received, for each of the bidding rounds, for local leisure facilities are as follows:

| | *Number of applications* |
|---|---|
| 2002 | 11 |
| 2003 | 12 |
| 2005 | 17 |

### Licensed Premises

**Mr. Betts:** To ask the Secretary of State for Culture, Media and Sport if he will publish a comparison of average costs for licensed premises incurred under *(a)* the provisions of the Licensing Act 2003 in the first year after the Act came into force and *(b)* the provisions of the Licensing Act 1964 in the 12 months before the Licensing Act 2003 came into force. [166216]

**Mr. Sutcliffe:** It is not possible to calculate a meaningful average total cost of the licensing regime for each licensed premises as the costs of compliance with licence conditions are not recorded and will be specific to each individual premises. In addition, not all temporary event notices are given by licensed premises and not all personal licences costs are incurred by licensed premises.

However, a recent exercise to calculate the administrative burdens of the Licensing Act 2003 using the standard cost model method of measurement has estimated that the 2003 Act imposes an annual administrative burden of approximately £86 million per year. The estimated total cost of the old licensing regimes was approximately £183 million per year. This included the costs of the Licensing Act 1964, but also the costs of the other relevant regimes including those relating to the licensing of public entertainment and late night refreshment. The administrative burdens do not include the cost of transition, nor licence fees nor compliance with licence conditions.

### Licensing: Alcoholic Drinks

**Mr. Betts:** To ask the Secretary of State for Culture, Media and Sport what his most recent estimate is of the cost of obtaining and maintaining a liquor licence under the Licensing Act 2003; what differences there are between this estimate and the estimate contained in the regulatory impact assessment presented with the Bill; and if he will make a statement. [166217]

**Mr. Sutcliffe:** The regulatory impact assessment which accompanied the Licensing Bill estimated that the annual compliance cost of a licence to sell alcohol under the new regime would be between £130-£5,760.

We have not sought to quantify the costs of the new regime on the same basis. However, our recent exercise to look at administrative costs under the new regime suggests that the system imposes a total annual burden of £86 million. This represents a savings of £97 million in administrative burdens over the old regimes. The administrative burdens do not include the cost of transition, nor licence fees nor compliance with licence conditions.

### Olympic Games 2012: Exercise

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the likely effect the London 2012 Olympic Games will have on levels of participation in physical activity; and over what period. [172078]

**James Purnell:** As set out in my speech to the Schools and Sports Partnerships conference on 28 November 2007, we believe that the London 2012 Olympic and Paralympic games will inspire a generation to take up sport.

The Government's aim is to get two million more people to be more active in sport and physical activity by 2012. This equates to a 1 per cent. per annum increase across sport and physical activity; equal to what the countries with the greatest success in increasing participation have achieved.

### Ticket Agents

**Ben Chapman:** To ask the Secretary of State for Culture, Media and Sport (1) whether the recommendations made in the Office of Fair Trading's report on Ticket Agents in the UK, that advertising should indicate where tickets can be purchased at face value, have been implemented; [172880]

(2) what his policy is on whether the Committee of Advertising Practice should amend its guidance so all non-broadcast event advertising is required to include the face value of the ticket, while indicating that additional fees may apply and could vary depending upon the sales channel and ticket seller used, in accordance with recommendations made in the Office of Fair Trading's report on Ticket Agents in the UK. [172881]

**Margaret Hodge** *[holding answer 10 December 2007]:* Following the 2005 recommendations published by the Office of Fair Trading (OFT), the Advertising Standards Authority (ASA) amended its guidance but did not require ticket face value and fees to be advertised. OFT complaint data from earlier this year suggest that this is not a particular problem for consumers. More recently, as a result of the implementation of the Unfair Commercial Practices Directive, the OFT has been working with the ASA Committee of Advertising Practice on reforms to its code of practice on non-broadcast media. The OFT views it as prudent to see the effect of the reformed code on advertising behaviour in the ticketing market before considering if further action is required.

## JUSTICE

### Cemeteries

**Mr. Jenkins:** To ask the Secretary of State for Justice what representations he has received on making local authorities cover the cost of reinstatement of gravestones after they have been deemed unsafe through topple testing. [173515]

**Bridget Prentice:** None, other than my hon. Friend's correspondence on the matter which has recently been passed to me. However, I understand that some local authorities have decided, at their discretion, to incur the costs of making gravestones safe.

### Crime: Suffolk

**Mr. Spring:** To ask the Secretary of State for Justice how many and what percentage of crimes committed in Suffolk resulted in *(a)* a caution, *(b)* a fixed penalty notice and *(c)* a conviction in each of the last five years. [171680]

**Mr. Hanson:** Information on the number of crimes recorded, cautions and penalty notices for disorder (PNDs) issued and convictions at all courts in Suffolk in each of the last five financial years is provided in the following table. Data are provided on a notifiable offence basis, i.e. offences notified to the Home Office.

It is not possible to track individual crimes through the criminal justice system to conclusion by way of a caution, PND or conviction. This is because crimes and offences brought to justice are counted and recorded differently. A crime and a resulting conviction may occur in different years, or in some instances one recorded crime may result in more than one person being convicted, or one person being convicted of more than one offence.

*Number of recorded crimes, convictions, cautions or penalty notices for disorder issued in Suffolk police force area, 2002-03 to 2006-07*

| *Financial year* | *Recorded crimes* | *Penalty notices for disorder*[1] | *Cautions*[2] | *Convictions* |
|---|---|---|---|---|
| 2002-03 | 50,315 | — | 3,398 | 7,953 |
| 2003-04 | 53,443 | — | 3,997 | 9,149 |
| 2004-05 | 52,101 | 218 | 3,796 | 9,818 |
| 2005-06 | 52,831 | 520 | 4,326 | 10,084 |
| 2006-07 (provisional[4]) | 51,096 | 1,215 | 4,661 | 10,359 |

[1] Piloted in 2002 and introduced nationally in 2004. Notifiable PNDs relate to offences under Public Order Act 1986 Section 5: Theft and Criminal Damage.

[2] Includes reprimands and final warnings for juveniles.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] PND, cautions and convictions data for 2006-07 are provisional.

### Departmental Accountancy

**Mr. Hoban:** To ask the Secretary of State for Justice what Departmental budget items have been reclassified under the Consolidated Budgeting Guidance, following the outcomes of the comprehensive spending review 2007; and what the *(a)* former and *(b)* new (i) classification and (ii) sum budgeted is in each case. [164493]

**Maria Eagle:** I refer the hon. Gentleman to the answer I gave on 30 October 2007, *Official Report*, column 1139W.

### Judges

**Mr. Hurd:** To ask the Secretary of State for Justice what obligation is placed on sentencing judges to consider the possibility of assessment for ADHD and related conditions and a subsequent rehabilitation package as part of the sentencing process. [173536]

**Maria Eagle:** There is no statutory obligation for the court to consider an "Attention Deficit Hyperactivity Disorder" (ADHD) assessment upon sentencing. Nor is there a statutory obligation for a subsequent rehabilitation package as part of the sentencing process.

However, the Criminal Justice Act 2003 requires a court to consider a pre-sentence report (PSR) prior to sentencing. The purpose of the pre-sentence report is to assist the court in determining the most suitable method of dealing with an offender. There is a general obligation on the part of the court to determine the most appropriate sentence for the offence and the offender. The purpose of sentencing includes rehabilitation which the court may provide through supervision and treatment as needed.

In the case of young offenders, youth offender teams work closely with their child and adolescent mental health services colleagues to ensure that issues such as ADHD and related conditions are identified during the court process.

### Leeds Magistrates Court

**Greg Mulholland:** To ask the Secretary of State for Justice how many staff were employed at Leeds Magistrates court in each year since 1997; and how many staff are employed at the court. [171695]

**Maria Eagle:** Data on staff numbers at Leeds Magistrates court is not available for 1997. Since 1998 the following numbers of staff have been employed at Leeds Magistrates court:

| | *Number* |
|---|---|
| March 1998 | 167 |
| July 1999 | 176 |
| April 2000 | 178 |
| April 2001 | 164 |
| April 2002 | 176 |
| April 2003 | [1]137 (179) |
| April 2004 | 135 (177) |
| April 2005 | 133 (175) |
| April 2006 | 134 (176) |
| April 2007 | 129 (171) |

[1] The figure for April 2003 reflects the fact that in April 2002, 28 finance team members and 14 court enforcement officers transferred from the Magistrates court to the area collection and enforcement centre.

*Note:*

The figures in brackets give the estimated comparable staff numbers if the 42 had remained with the Magistrates court.

### Police Custody: Greater London

**Tom Brake:** To ask the Secretary of State for Justice how many *(a)* police cells and *(b)* custody suites in each London borough were occupied by serving prisoners who had been given a custodial sentence at the latest date for which figures are available; and if he will make a statement. [169272]

**Mr. Hanson:** Prisoners held in police cells under Operation Safeguard are primarily adult male prisoners remanded in custody by the courts. Figures for the number of occasions convicted or remanded prisoners are held in police cells under Operation Safeguard are not held separately.

The operational protocol is that prisoners are held for one night. If prisoners are held in a police cell under Operation Safeguard on a Friday night they will remain in police custody until Monday morning or Tuesday if it is a bank holiday.

The Metropolitan police allocate places for Operation Safeguard across London boroughs each day from a central command suite. The number and location of places available is varied daily according to operational pressures.

### Political Parties, Elections and Referendums Act 2000

**Mr. Amess:** To ask the Secretary of State for Justice (1) how many *(a)* males and *(b)* females were (i) prosecuted and (ii) convicted of an offence under Section 61 of the Political Parties, Elections and Referendums Act 2000, in each year since the Section came into force, broken down by police force area; [172425]

(2) how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted of an offence under provisions in the Political Parties, Elections and Referendums Act 2000 in each year since it came into force, broken down by relevant section. [172522]

**Mr. Straw:** Data showing the number of males and females proceeded against and found guilty in England and Wales, by police force area, under the Political Parties, Elections and Referendums Act 2000 from 2000 to 2006 is in the table. My Department is unable to separate data for Section 61, as the data are not collected to that level of detail.

*Number of males and females proceeded against at magistrates courts and found guilty at all courts, for offences under the Political Parties, Elections and Referendums Ac 2000, in England and Wales, 2000 to 2006*[1,2,3]

| | *2004* | | *2005* | | *2006* | |
|---|---|---|---|---|---|---|
| *Offence* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* |
| *Triable either way offences* [4,6] | | | | | | |
| *Greater Manchester* | | | | | | |
| Male | 1 | 1 | — | — | — | — |
| Total | 1 | 1 | — | — | — | — |
| *Metropolitan police* | | | | | | |
| Male | — | — | — | — | — | 2 |
| Total | — | — | — | — | — | 2 |
| *Sussex* | | | | | | |
| Male | 1 | 1 | — | — | — | — |
| Total | 1 | 1 | — | — | — | — |
| *England and Wales (Triable either way offences)* | 2 | 2 | — | — | — | 2 |
| | | | | | | |
| *Summary offences*[5,6] | | | | | | |
| *Greater Manchester* | | | | | | |
| Male | 1 | 1 | — | — | — | — |
| Total | 1 | 1 | — | — | — | — |
| *Hertfordshire* | | | | | | |
| Male | 1 | — | — | — | — | — |
| Total | 1 | — | — | — | — | — |

*Number of males and females proceeded against at magistrates courts and found guilty at all courts, for offences under the Political Parties, Elections and Referendums Ac 2000, in England and Wales, 2000 to 2006*[1, 2, 3]

| | 2004 | | 2005 | | 2006 | |
|---|---|---|---|---|---|---|
| *Offence* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* |
| *Leicestershire* | | | | | | |
| Male | 1 | — | 1 | 1 | — | — |
| Total | 1 | — | 1 | 1 | — | — |
| *Metropolitan police* | | | | | | |
| Male | 4 | 4 | 6 | 6 | 7 | 4 |
| Female | 1 | — | 1 | — | — | — |
| Total | 5 | 4 | 7 | 6 | 7 | 4 |
| *Staffordshire* | | | | | | |
| Male | — | — | 1 | 1 | — | — |
| Female | — | — | — | — | 1 | — |
| Total | — | — | 1 | 1 | 1 | — |
| *West Midlands* | | | | | | |
| Male | — | — | 2 | 2 | — | — |
| Total | — | — | 2 | 2 | — | — |
| *England and Wales (Summary Offences)* | 8 | 5 | 11 | 10 | 8 | 4 |
| England and Wales—all offences | 10 | 7 | 11 | 10 | 8 | 6 |

[1] There were no prosecutions or convictions under the Political Parties, Elections and Referendums Act 2000 between 2000 and 2003. Police force areas with no prosecutions or convictions are not shown in the table. Similarly, where no females have been prosecuted or convicted in certain areas, no female row is shown.

[2] These data are on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] The following sections of the Act are triable either way offences:
43(7) Failing to deliver report of auditor removal/resignation
44(4) Making false statement to auditor
54(5) Fail to provide information about donation/donor to party
54(6) Agent failing to provide information to party about donor
56(3) and Sch.20 Registered party fail to return impermissible donation
56(3) and Sch.20 Treasurer fail to return impermissible donation
56(3) and Sch.20 Treasurer fail to return donation by unidentifiable donor
61(1) and Sch.20 Enter arrangement facilitating impermissible donation
61(1) and Sch.20 Act in furtherance of an arrangement facilitating impermissible donation
61(2)(a) and Sch.20 Give treasurer false information about donation
61(2)(b) and Sch.20 Withholld from treasurer false information about donation
65(4) and Sch.20 Fail to comply with donation reports requirements
66(5) and Sch.20 False declaration in donation report
68(5)(a) and Sch.20 Individual donor fail to report multiple small donations
68(5)(a) and Sch.20 Non-individual donor fail to report multiple small donations
68(5)(b) and Sch.20 Deliver out of time/complete report declaring multiple donations
68(5)(c) and Sch.20 Failure to declare multiple small donations
73(85) and Sch.20 Make false declaration of campaign expenditure

[5] The following sections of the Act are summary offences:
24(8) Political party treasurer convicted of offences
39 Making false statement to electoral commission
47(1)(a) Fail to deliver proper statement of accounts
47(1)(b) Fail to deliver statement of accounts before end of relevant period
65(3) and Sch.20 Treasurer fail to deliver donation report within 30 days
65(3) and Sch.20 Treasurer fail to deliver donation report within 7 days

[6] It is not possible to provide separate data for a particular section of the Act—for example section 61.

## Prisoners: Learning Disability

**Mr. Hurd:** To ask the Secretary of State for Justice what steps he is co-ordinating with other Departments to address the needs of offenders with learning difficulties and disabilities; and if he will make a statement. [172955]

**Mr. Hanson:** The Care Services Improvement Partnership (CSIP), part of the Department of Health, produced the document 'Positive Practice, Positive Outcomes; A handbook for Professionals in the Criminal Justice System working with offenders with learning disabilities' (CSIP, 2007). This set out the support that must be provided by the police, the courts, in prisons and on probation and was developed in collaboration with relevant Government agencies.

The Ministry of Justice is working alongside the Department of Health and the Department for Children, Schools and Families, to ensure that the needs of young offenders are taken into account in the review of speech, language and communication needs which is being led by the hon. Member for Buckingham (John Bercow).

The Learning and Skills Council, an NDPB associated with the Department for Innovation, Universities and Skills and the Department for Children, Schools and Families, co-commissions alongside NOMS education and skills provision in prisons and probation. This provision is delivered through contracts with education providers, which deliver such provision against requirements laid out in a key document—the Offender's Learning Journey—which includes particular requirements on meeting the needs of those with learning difficulties and/or disabilities.

## Prisoners: Speech Therapy

**Mr. Hurd:** To ask the Secretary of State for Justice (1) how many qualified speech and language therapists provided a service to the Prison Service in each year since 1997; [172960]

(2) how much the Government have invested in the provision of speech and language therapy to prisoners in England and Wales in each year since 1997. [173535]

**Mr. Hanson:** The information requested is not held centrally. Speech and language therapy is commissioned by national health service primary care trusts (PCTs) in line with other health services for their communities, including those in prison or on probation, on the basis of comprehensive assessment of local need. Prisoners and young offenders all receive health screening on reception into prison as well as a general learning needs assessment.

The PCT commissioning model is bringing about results. For example, at Her Majesty's Young Offender Institution Hindley, following the local needs assessment process, Bolton, Salford and Trafford Mental Health Trust are now providing two speech and language therapy sessions every week.

Five Boroughs Partnership NHS Trust has a specialist team which provides speech and language therapy, and art and music therapies, alongside more traditional interventions for mental health and psychological needs. This service is provided for two secure children's homes, two charitable institutions, and two independent providers.

For young offenders, the Department of Health will be extending the range of child and adolescent mental health services in the secure estate for children and young people. These additional services include speech and language therapy. To this end, £1.5 million new funding for new services has been invested by the Department of Health in 2007-08.

## Prisons: Staff

**Mr. Hurd:** To ask the Secretary of State for Justice what speech and learning disability awareness training is available to staff in prisons. [172961]

**Maria Eagle:** No specific training is delivered centrally to prison officers in identifying people with such difficulties but under Prison Service Order 2855, governors must ensure that procedures exist for prisoners to be able to disclose disability, including learning disabilities, both on reception and subsequently. Each prison must have a disability liaison officer to ensure that the needs of disabled prisoners are met.

**Dr. Vis:** To ask the Secretary of State for Justice how many prison officers have five or more passes at GCSE or equivalent at grades A to C. [173519]

**Maria Eagle:** Information on the number of educational qualifications obtained by prison officers is not held centrally and could only be obtained at disproportionate cost by asking local prisons to collate the information from individual staff files.

## Private Security Industry Act 2001

**James Brokenshire:** To ask the Secretary of State for Justice how many *(a)* prosecutions have been brought and *(b)* convictions obtained for offences under section 22 of the Private Security Industry Act 2001. [167116]

**Mr. Coaker:** I have been asked to reply.

The licensing of individuals under the Private Security Industry Act 2001 (PSIA) has been rolled out since 2004.

Section 22 creates offences connected with the making of false statements to the Security Industry Authority.

For each of the three years 2004, 2005 and 2006, there have been no prosecutions or convictions under section 22 of the Private Security Industry Act 2001. The data for 2007 will be available in the autumn of 2008.

There are a number of provisions under the PSIA and immigration legislation, under which proceedings can be taken in respect of offences by persons applying for SIA licences, or holding licences. Which provision would be appropriate in a particular case would depend on the circumstances of the case.

## Secure Custody: Children

**Dr. Vis:** To ask the Secretary of State for Justice how many children in secure custody were awarded five passes at A* to C at GCSE in each of the last five years. [173542]

**Beverley Hughes:** I have been asked to reply.

Information on the number of GCSEs gained by all young people in custody is not collected centrally. The LSC report that young people under-18 in young offender institutions achieved 354 GCSEs A*-C in all subjects between 1 April 2007 and 30 September 2007. However this figure does not reflect all of the GCSEs achieved in juvenile custody because this does not include young people in secure children's homes, secure training centres, or private prisons. Also some of the young people in young offender institutions are still registered at schools and colleges and therefore any GCSEs that they achieve whilst in custody will be reflected in achievement figures of schools and colleges, rather than the figures reported by the LSC for those achieved in custody.

**Dr. Vis:** To ask the Secretary of State for Justice how many children in secure custody were awarded five passes at GCSE in each of the last five years, broken down by subject and grade achieved. [173543]

**Beverley Hughes:** I have been asked to reply.

Information on the number of GCSEs gained by all young people in custody is not collected centrally. The LSC report that young people under-18 in young offender institutions achieved the following GCSEs from 1 April 2007 to 30 September 2007:

Mathematics: 18 GCSE's at grades A* to C, and 91 below grade C;

English: 29 GCSEs at grades A* to C and 56 below grade C;

Other subjects: 307 GCSEs at grades A* to C and 162 below grade C.

Further breakdown is not available. Also this figure does not reflect all of the GCSEs achieved in juvenile custody because this does not include young people in Secure children's homes, secure training centres, or private prisons. Also some of the young people in young offender institutions are still registered at schools and colleges and therefore any GCSEs that they achieve whilst in custody will be reflected in achievement figures of schools and colleges, rather than the figures reported by the LSC for those achieved in custody.

### Young Offenders: Lancashire

**Mr. Evans:** To ask the Secretary of State for Justice how many people under 18-years-old were convicted for *(a)* vehicle crime, *(b)* domestic burglary and *(c)* robbery in Lancashire in each of the last 10 years. [173420]

**Mr. Hanson:** Data showing the number of people under 18-years-old convicted of vehicle crime, domestic burglary and robbery in Lancashire from 1997 to 2006 is in the following table.

*Number of persons aged under 18 found guilty at all courts for selected offences in the Lancashire police force area, 1997 to 2006*[1, 2]

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|---|---|---|---|
| Burglary and aggravated burglary | 183 | 164 | 142 | 169 | 142 | 233 | 143 | 125 | 177 | 164 |
| Robbery | 72 | 42 | 50 | 52 | 54 | 75 | 62 | 53 | 52 | 79 |
| Vehicle theft[3] | 108 | 84 | 78 | 71 | 56 | 56 | 43 | 36 | 34 | 57 |

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Includes offences of theft of a vehicle and theft from a vehicle.

Court proceedings database—Office for Criminal Justice Reform

## WORK AND PENSIONS

### Benton Park View

**Jim Cousins:** To ask the Secretary of State for Work and Pensions what costs were met by his Department for site services and maintenance at Benton Park View in *(a)* 2006-07 and *(b)* 2007-08. [168861]

**Mrs. McGuire:** Benton Park View site forms part of the Newcastle estate, a private finance initiative between Newcastle Estates Partnership (the landlord) and HMRC (the major government occupier). DWP occupies approximately 25 per cent. of the site under an agreement with HMRC and is charged on a pro rata basis for accommodation costs and services provided.

The cost to DWP for site services and maintenance (as detailed[1]) since April 2006 are as follows:

[1] Site services and maintenance include: rent, building maintenance, rates, cleaning, security, facilities management services and utilities.

| | £ |
|---|---|
| 2006-07 | 7,381,063.93 |
| 2007-08 | [1]7,155,401.50 |

[1] Forecast cost

### Children and Young People: Low Incomes

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions (1) how many children in families of recipients of *(a)* income support, *(b)* income-based jobseeker's allowance and *(c)* the guaranteed credit part of pension credit are (i) eligible for and (ii) claiming free school meals in the latest period for which figures are available; [172401]

(2) how many people aged 16 to 18 years who receive income support or income-based jobseeker's allowance in their own right were *(a)* eligible for and *(b)* claiming free school meals in the latest period for which figures are available. [172402]

**Kevin Brennan** *[holding answer 10 December 2007]*: I have been asked to reply.

The requested information is not available.

### Departmental Buildings

**Mr. Jack:** To ask the Secretary of State for Work and Pensions what formula will be used to determine his Department's share of the sale receipts when the Government offices site at Heyhouses Road, St. Annes is disposed of. [165773]

**Mrs. McGuire:** Financial gain may be generated by the expanded PRIME Contractor, Land Securities Trillium, from the sale of buildings which DWP return to them as surplus under the flexibility to vacate options in the contract. The sale prices over each financial year are pooled and compared to the Base Values listed in the contract as at 1 April 1998 (or at December 2003 for buildings covered by PRIME Expansion). Base Value is the price placed on a property, assuming vacant possession, at the start of the contract.

Properties can also attract a financial loss however, whereby the sale of the property and the associated costs of this are less than the Base Value. Any such losses are therefore offset against positive gains and any resulting net gain is shared 50:50 between the Department and LST.

Negative gains are offset against positive gains and any resulting net gain is shared 50:50 between the Department and Land Securities Trillium.

## Departmental Staff

**Mr. Hayes:** To ask the Secretary of State for Work and Pensions how many staff aged between 16 and 18 were employed by his Department and its predecessors *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171277]

**Mrs. McGuire:** Information on the number of staff aged between 16 and 18 in the Department since its formation in 2001 is in the following table. Information is not held in this detail prior to September 2001.

Staff employed through an employment agency are not directly employed by the Department therefore no personal information is held in respect of these staff.

| | *Number of staff* |
|---|---|
| 30 September 2001 | 603 |
| 31 March 2002 | 908 |
| 31 March 2003 | 709 |
| 31 March 2004 | 412 |
| 31 March 2005 | 249 |
| 31 March 2006 | 169 |
| 31 March 2007 | 129 |

*Note:*
Numbers exclude temporary staff

The information regarding time off and funding to undertake "some form of training" for 16-18 year olds in the Department is not held centrally and could be obtained only at disproportionate cost. However, it should be noted that all staff undertake mandatory training to perform their role within DWP.

## Departmental Travel

**Mr. Hayes:** To ask the Secretary of State for Work and Pensions how much was spent by his Department on first class train tickets in the last 12 months. [171264]

**Mrs. McGuire:** Between November 2006 and October 2007 the Department for Work Pensions spent £11,650,293.00 on 1st class rail travel (including Eurostar journeys).

## Departmental Sick Leave

**David Simpson:** To ask the Secretary of State for Work and Pensions how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last five years. [163693][1]

**Mrs. McGuire:** The available information is contained in the following table:

| *Financial year* | *Number of staff disciplined for unsatisfactory attendance* | *Number of staff dismissed for unsatisfactory attendance* |
|---|---|---|
| 2007-08 | 4,018 | 10 |
| 2006-07 | 6,393 | 36 |
| 2005-06 | 5,320 | 30 |
| 2004-05 | 1,563 | 8 |
| 2003-04 | 580 | 4 |

## Disability Discrimination Act 2005

**Danny Alexander:** To ask the Secretary of State for Work and Pensions which executive agencies have responsibility for implementing the provisions of the Disability Discrimination Act 2005. [172227]

**Mrs. McGuire:** The Disability Discrimination Act 2005 significantly amended and extended the Disability Discrimination Act 1995, including by placing particular additional duties on public authorities.

It introduced a duty for public authorities not to discriminate against disabled people in the carrying out of their public functions. It also introduced a duty for public authorities to promote equality of opportunity for disabled people (the "Disability Equality Duty"). In addition, The Disability Discrimination (Public Authorities) (Statutory Duties) Regulations 2005 (Statutory Instrument 2005/2966) as amended place specific duties on the public authorities listed in those regulations. The listed authorities include a Minister of the Crown or Government Department.

All Government Departments are responsible for ensuring that they and any executive agencies for which they are responsible meet the requirements of this legislation.

## Disabled: Access

**Danny Alexander:** To ask the Secretary of State for Work and Pensions which central offices occupied by his Department *(a)* are and *(b)* are not fully accessible to disabled people. [166828]

**Mrs. McGuire:** Accessibility audits were commissioned in 2004 for all of the 1,191 buildings where my Department is major occupier. The resultant national programme of works to improve access for disabled people was completed in 2006. Central office buildings are included in the total of 1,191.

Although central data are held of the number of occupied buildings which are or are not considered to be fully accessible to disabled people, where there are access difficulties for disabled people, my Department makes appropriate reasonable adjustment to its arrangements for the recruitment and employment of staff as well as the services and requirements of the Disability Discrimination Act 1995.

## Housing Benefit: Lone Parents

**Ms Buck:** To ask the Secretary of State for Work and Pensions what assessment his Department has made of the effect on numbers of housing benefit claims of transferring lone parents from income support to jobseeker's allowance. [170677]

---

1. *[Official Report, 5th February 2008; Vol. 471, c. 5MC.]*

**Mr. Plaskitt:** No assessment has been made of the effect on numbers of housing benefit claims of transferring lone parents from income support to jobseeker's allowance.

Customers in receipt of either income support or income-based jobseeker's allowance are already passported on to full housing benefit.

### Incapacity Benefits and Jobseeker's Allowance

**Mr. Waterson:** To ask the Secretary of State for Work and Pensions (1) how many people between the ages of *(a)* 18 to 25, *(b)* 25 to 45 and *(c)* 45 to 65 were in receipt of incapacity benefits in the latest period for which figures are available; [170529]

(2) how many people between the ages of *(a)* 18 to 25, *(b)* 25 to 45 and *(c)* 45 to 65 were in receipt of jobseeker's allowance in the latest period for which figures are available. [170531]

**Mr. Plaskitt:** The available information is in the following table.

*Number of recipients by age, May 2007*

*Thousand*

| | *Incapacity benefits* | *Jobseeker's allowance* |
|---|---|---|
| 18-24 | 159.14 | 234.84 |
| 25-34 | 338.72 | 199.29 |
| 35-44 | 582.09 | 175.36 |
| 45-54 | 740.17 | 143.76 |
| 55-64 | 828.37 | 72.36 |
| 65 and over | 30.16 | — |

'—' = Nil or negligible.

*Notes:*

1. Case load figures are rounded to the nearest 10
2. Totals may not sum due to rounding.
3. Although in general incapacity benefit applies to people of working age, a small number of claimants are over state pension age.

*Source:*

DWP Information Directorate: Work and Pensions Longitudinal Study.

### Opinion Leader Research

**Mrs. May:** To ask the Secretary of State for Work and Pensions how many contracts were awarded by his Department to Opinion Leader Research in each year since 1997; and what was *(a)* the title and purpose, *(b)* the cost to the public purse and *(c)* the dates of (i) tender, (ii) award, (iii) operation and (iv) completion and report to the Department in each case. [165265]

**Mrs. McGuire:** On 9 January 2006, a contract was awarded by the Department for Work and Pensions to Opinion Leader Research to carry out a UK-wide public consultation on the Pension Commission's proposals to reform the UK's pension system. This involved the management and facilitation of a number of regional events, linked by satellite technology and involved 1,275 people; interactive on-line surveys; a detailed stakeholder toolkit for locally held debates; citizens advisory panels; and, resulting analysis for the National Pensions Day debate on 18 March 2006.

The contract was put to tender on 12 December 2005 to six companies on the DWP CIPHeR (consultants, interims, personnel and human resources) framework. Three valid responses were received. The cost of the contract totalled £999,180 (including VAT) and was awarded based on expertise and value for money. The contract started on 16 January 2006 and was completed on 31 May 2006.

The National Pensions Day debate generated significant coverage in the media and raised public awareness of pensions issues preparing the ground for the forthcoming publication of the May 2006 White Paper 'Security in Retirement towards a New Pensions System'.

On 25 January 2007 a second minor contract was awarded to Opinion Leader Research for the Pensions Communications Strategy—SCS (senior civil servant) Workshops for the provision of a facilitator. This contract went to tender on 10 January 2007 and ran from 29 January to 28 February 2007. The value of this contract was £3,055.00 (including VAT).

Following a robust evaluation of proposals received against each exercise, VfM decisions were made in accordance with pre-paid evaluation criteria that followed Government best practice procurement processes.

### Pensioners: Inflation

**Kate Hoey:** To ask the Secretary of State for Work and Pensions what assessment the Government has made of the projected impact of inflation on pensioners in each of the next three years. [170264]

**Mr. Mike O'Brien:** Basic state pension, additional pension and graduated retirement benefit in payment are all generally uprated in April of each year by the retail price index in September of the previous year. Published departmental expenditure estimates assume this will continue in 2008, 2009 and 2010.

**Kate Hoey:** To ask the Secretary of State for Work and Pensions what methodology the Government use to calculate the impact of changes in the retail prices index on pensioners. [170265]

**Angela Eagle:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 12 December 2007:*

The National Statistician has been asked to reply to your recent Parliamentary Question which asked what methodology the Government uses to calculate the impact of the Retail Price Index on pensioners. I am replying in her absence. (170265)

Pensioners' retail price indices are calculated separately for one and two person households where the head of the household is retired (at least 65 years of age for men and 60 years or more for women) and economically inactive, and where at least three quarters of the household's income is from state benefits. The expenditure of these households is excluded from the main retail prices index (RPI). Other pensioner households are covered by the main RPI although separate indices are not calculated for them.

The price indicators used in the calculation of the pensioner indices are essentially the same as those used in the main RPI. Prices are collected for over 650 price indicators in around 150 locations across the UK. The detailed price indices for these indicators are combined together to form the overall pensioner indices using weights specific to the expenditure patterns of the two types of pensioner household.

Some categories of expenditure are excluded from the pensioner indices. These include canteen meals and housing costs, the latter because the price indicators used in the main RPI are not appropriate as pensioners are mostly cushioned against rises in housing costs by rebates. It would be technically difficult to compile separate house price indicator items for these households. Examples of other items that are excluded include NHS prescription, dental and eyesight test charges, none of which are paid by pensioners.

The pensioner indices are published quarterly.

**Kate Hoey:** To ask the Secretary of State for Work and Pensions what estimate the Government has made of the impact of changing *(a)* food, *(b)* utility and *(c)* transport prices on pensioners over each of the next three years. [170266]

**Mr. Mike O'Brien:** Pensioner benefits are annually uprated, in the main, by the retail price index or in the case of the guarantee credit by the average earnings index. The RPI is based on a basket of goods and services of which food, utility bills and transport are significant component parts.

The Office for National Statistics annually revise the goods and services within the basket to ensure that the weighing of food, utility bills and transport in the RPI accurately reflects their share of average expenditure.

**Kate Hoey:** To ask the Secretary of State for Work and Pensions what assessment he has made of how the impact of inflation on pensioners' standard of life has compared with the impact on the average UK citizen's standard of life in each of the last three years; and what projections he has made for figures equivalent for each of the next three years. [170267]

**Kitty Ussher:** I have been asked to reply.

The following table shows the annual rate of change of the retail prices index (RPI) pensioner price indices for one- and two-pensioner households as well as the all items RPI for the last three years. The figure for the third quarter of 2007 is also provided.

| | *Percentage change on year earlier* | | |
|---|---|---|---|
| | | *RPI* | |
| | *All items index* | *One-pensioner households index* | *Two-pensioner households index* |
| 2004 | 3.0 | 1.8 | 1.6 |
| 2005 | 2.8 | 2.6 | 2.1 |
| 2006 | 3.2 | 4.5 | 3.6 |
| 2007 Q3 | 3.9 | 2.0 | 1.9 |

The Government's projections for inflation are published in table B3: Economic assumptions for the public finance projections in the 2007 pre-Budget report and comprehensive spending review. The Government do not forecast the rate of change of the RPI pensioner price indices.

### Personal Accounts

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his most recent estimate is of the proportion of the target audience for personal accounts which will be *(a)* subject to means-testing, *(b)* able to expect real returns of less than £2 for each £1 invested and *(c)* able to expect real returns of less than £1 for each £1 invested; and if he will make a statement. [171922]

**Mr. Mike O'Brien:** The figures requested are not available.

Our previous analysis of a whole range of illustrative individuals shows that the large majority of individuals in the target group, including many of those with entitlement to income-related benefits, can expect to benefit from saving, thanks to low charges, the employer contribution and tax relief. Our previous publication, financial incentives to save for retirement, presented detailed analysis on this issue.

### Social Security Benefits: Overseas Residence

**Chris Grayling:** To ask the Secretary of State for Work and Pensions what estimate he has made of the number of overseas recipients of SERPS or S2P who have had their benefits frozen; and what estimate he has made of the cost of unfreezing those benefits. [171799]

**Mr. Mike O'Brien:** We estimate that there are around 110,000 overseas recipients of the UK additional state pension (SERPS and/or S2P) who live in countries where the pension is not uprated.

The estimated cost to uprate additional state pension is around £18 million in 2007-08 and it would cost around £170 million in 2007-08 if this was backdated and arrears paid.

*Notes:*

1. Estimates based on the latest available September 2006 RPWB dataset (5 per cent. administrative data sample)

2. There are very few overseas UK state pension recipients who are entitled to S2P only, without an entitlement to SERPS. In order to obtain more reliable estimates, recipients of S2P and/or SERPS have been aggregated.

### State Retirement Pensions

**Mr. Waterson:** To ask the Secretary of State for Work and Pensions (1) how many pensioners over the age of 85 receive their state pensions weekly by cheque or benefit book; [170534]

(2) how many pensioners receive their state pensions weekly by cheque or benefit book. [170535]

**Mr. Mike O'Brien:** The information is not available in the format requested. Direct Payment is now the normal method of payment, and around 99 per cent. of pensioners are paid this way. A further 80,000 pensioners receive their state pension by cheque, 15,000 of whom are over the age of 85.

State Pension payments are paid at different intervals although the majority are paid either weekly or four weekly.

Benefit books were phased out during 2003-05 under the Payment Modernisation Programme.

### State Retirement Pensions: Industrial Disputes

**Mr. Waterson:** To ask the Secretary of State for Work and Pensions what his estimate is of the number of state pensioners who would be affected by proposed strikes within the Pensions Service. [170533]

**Mr. Mike O'Brien:** The Pension Service has robust and proven contingency plans to ensure that payments to customers will be maintained throughout any period of strike action by staff.

### UN Convention on the Rights of Persons with Disabilities

**Hugh Bayley:** To ask the Secretary of State for Work and Pensions which countries have *(a)* signed and *(b)* ratified the UN Convention on the Rights of Persons with Disabilities; when the UK Government intends to ratify the convention; and if he will make a statement. [173269]

**Mrs. McGuire:** By 10 December, 118 countries had signed, and eleven had ratified, the convention since it was opened for signature on 30 March 2007. A list of signatories can be found on the UN website at

http://www.un.org/disabilities/countries.asp?navid=17&pid=166

I have set my officials the aim of achieving ratification for the United Kingdom before the end of 2008.

### Winter Fuel Payments: Leicester

**Sir Peter Soulsby:** To ask the Secretary of State for Work and Pensions how many people in Leicester South received the winter fuel payment in each of the last five years. [170771]

**Mr. Mike O'Brien:** The information is in the following table.

*Leicester South*

| | *Payments made* |
|---|---|
| 2002-03 | 14,860 |
| 2003-04 | 14,750 |
| 2004-05 | 14,310 |
| 2005-06 | 14,170 |
| 2006-07 | 14,130 |

*Notes:*
1. Figures rounded to the nearest 10.
2. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.
3. There has been a decline in the number of people over 60 in Leicester South since 2003.

*Source:*
Information directorate 100 per cent data.

## DEFENCE

### Armed Forces: Catering

**Mr. Vara:** To ask the Secretary of State for Defence what the average daily food cost was for non-commissioned ranks on non-operational duty in 2006-07. [172038]

**Mr. Bob Ainsworth:** The average daily cost, known as the daily messing rate (DMR), is based on a "basket" of nearly 100 basic catering items, and is calculated on a quarterly basis by applying prices obtained from the MOD's food supply contractor to the appropriate ration scale. The DMRs for the current period 1 October 2007-31 December 2007 are shown as follows:

(a) Army personnel—The DMR in their home posting is £1.63.

(b) Royal Navy personnel—The DMR in port is £1.78 (unless on duty watch, when 'at sea rates' apply).

(c) RAF personnel—The DMR at home bases is £1.63.

No differentiation is made between non-commissioned personnel and others.

These apparently low amounts are achieved by the scale of purchase of the 'basket items' and the associated economy of scale. Furthermore, DMR is the cost of the raw materials only and does not include transport or other costs.

### Armed Forces: Influenza

**Dr. Murrison:** To ask the Secretary of State for Defence what assessment he has made of the likely effects of an influenza pandemic on the operational capacity of the armed forces; and if he will make a statement. [172780]

**Mr. Bob Ainsworth:** The MOD has developed a MOD Pandemic Flu Contingency Plan to capture all the activities which will need to be undertaken across Defence in the event of an influenza pandemic. Regular meetings of the MOD Pandemic Flu Contingency Planning Sub-Group ensure that the potential impact of any pandemic on operations is kept under constant review.

The precise characteristics and impact of an influenza pandemic will only become apparent as the virus emerges. The armed forces are as vulnerable as the rest of society, so the MOD's level of preparedness is constantly evolving in line with operational requirements and cross-government (National) influenza contingency preparations.

**Dr. Murrison:** To ask the Secretary of State for Defence how many representations his Department has received in the last 12 months from *(a)* members of the armed forces and *(b)* others on its preparations for a potential influenza pandemic; what the content of those representations was; and if he will make a statement. [172794]

**Derek Twigg:** None.

**Dr. Murrison:** To ask the Secretary of State for Defence if he will place in the Library copies of the contingency plans for a potential influenza pandemic of *(a)* the Royal Navy, *(b)* the Army and *(c)* the Royal Air Force; on what dates each was (i) first published and (ii) last updated; and if he will make a statement. [172796]

**Derek Twigg:** Yes, I have placed a copy of the latest version of the MOD Pandemic Flu Contingency Plan in the Library of the House. MOD Influenza pandemic planning is defence wide and began in October 2005.

### Armed Forces: Mortgages

**Mark Pritchard:** To ask the Secretary of State for Defence if he will meet the Council of Mortgage Lenders to discuss the number of rejected mortgage applications from UK forces personnel posted overseas on the grounds of inability to provide a UK address. [171352]

**Mr. Bob Ainsworth:** As I stated in my answer on 28 November 2007, *Official Report*, column 450W, if the hon. Member would wish to write to me with any details regarding the number of rejected mortgage applications, I would be content to consider meeting the Council of Mortgage Lenders.

### Army: Training

**Mrs. Humble:** To ask the Secretary of State for Defence what improvements have been made since 2002 in the provision of an effective supervisory regime in the Army training establishment; and what was the ratio between numbers of Officers, non-Commissioned Officers and recruits at *(a)* Deepcut, *(b)* Catterick barracks and *(c)* the 10 other largest Army training establishments in each of the last five years. [172300]

**Mr. Bob Ainsworth:** Since 2002 the key improvements that have been made have been designed to reduce the risk to the welfare and wellbeing of recruits and trainees. These include:

a revised Supervisory Care Policy that mandates that all commanding officers have a Supervisory Care Directive underpinned by a Commander's Risk Assessment;

the opening in June 2007 of the Army Recruiting and Training Division Staff Leadership School which is dedicated to instructor training;

improved training for instructors which, since October 2007, is accredited to meet the National Standard required of those delivering work based training in the Learning and Skills Sector;

improved care and management of those deemed to be 'at risk'; and,

a revised 'Under 18' policy, which provides comprehensive guidance to commanding officers as to how the care of personnel under 18 is to be managed.

The statistical information requested is not held centrally, but is being collated. I will write to the hon. Member and place a copy of my letter in the Library of the House.

### Bosnia: Peacekeeping Operations

**Dr. Fox:** To ask the Secretary of State for Defence pursuant to the answer of 29 November 2007, *Official Report*, column 577W, on Bosnia: peacekeeping operations, if he will define the meaning of the phrase prejudice international relations between the United Kingdom and the European Union as it applies in the Answer. [171890]

**Mr. Bob Ainsworth:** The release of the documents requested in the hon. Member's previous question of 29 November 2007, *Official Report*, column 578W, would involve the disclosure of confidential information obtained from the European Union. This would prejudice relations between the United Kingdom and the European Union as the effective conduct of the United Kingdom's international relations, and its ability to protect and promote its interests abroad, would be compromised if international organisations became concerned that the confidence within which they consider their exchanges with the United Kingdom to take place might not be respected.

### Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Defence how many *(a)* men and *(b)* women are employed by his Department, broken down by civil service grade. [172692]

**Derek Twigg:** The information requested is shown in the table as follows:

*Civilian personnel[1] by gender as at 1 October 2007*

| | | | *Headcount:* |
|---|---|---|---|
| | *Male* | *Female* | *Total* |
| SCS and Broader Banded Equivalents[2] | 260 | 40 | 310 |
| Band B | 2,030 | 530 | 2,560 |
| Band C | 12,290 | 4,800 | 17,080 |
| Band D | 7,410 | 4,370 | 11,780 |
| Band E | 11,440 | 14,210 | 25,650 |
| Other non Industrial | 270 | 740 | 1,020 |
| Industrials | 10,460 | 2,620 | 13,080 |
| Trading Fund Personnel | 8,100 | 2,170 | 10,270 |
| Sub total | 52,260 | 29,490 | 81,750 |
| Royal Fleet Auxiliary (RFA)[3] | n/a | n/a | 2,340 |
| Locally engaged civilians[3] | n/a | n/a | 13,640 |

n/a = not available

[1] Data include permanent and casual personnel employed by the Department, the Royal Fleet Auxiliary, Trading Funds and Locally engaged civilians.

[2] The Senior Civil Service was formed in 1996. The totals include about 50 personnel outside the Senior Civil Service but of equivalent grade.

[3] Gender data are not available for Royal Fleet Auxiliary personnel and Locally engaged civilian personnel.

[4] All numbers are rounded to the nearest 10. Totals and sub-totals have been rounded separately and so may not equal the sum of their rounded parts

*Source:*

DASA (Quad Service)

### Departmental Reviews

**Nick Harvey:** To ask the Secretary of State for Defence what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department (i) is responsible for and (ii) plans to establish; on what date each which is under way (A) started and (B) is expected to be completed; and what the purpose is of each. [170829]

**Derek Twigg:** The Department keeps all its business processes and structures under regular review. As a result, a wide range of internal reviews and consultations is currently in hand, and there are established project and study teams to conduct these as appropriate. Information on these is not held centrally, and could be provided only at disproportionate cost.

### Departmental Written Questions

**Dr. Julian Lewis:** To ask the Secretary of State for Defence pursuant to the answer of 19 November 2007, *Official Report*, column 479W, on departmental written questions, if he will change his policy on this matter in the light of the answer of 26 November 2007, *Official Report*, column 133W, on written questions. [170727]

**Derek Twigg** *[holding answer 5 December 2007]*: The MOD has never provided this information and has no plans to change its policy. I have nothing further to add to my previous answer for the reasons I set out in my answer of 19 November 2007, *Official Report*, column 479W.

### HMS Diamond

**Dr. Julian Lewis:** To ask the Secretary of State for Defence for what reason no Minister was present for the launching of HMS Diamond on 27 November 2007. [170726]

**Mr. Bob Ainsworth** *[holding answer 5 December 2007]:* Due to existing diary commitments and urgent parliamentary business that required ministerial representation in the House of Lords, no Minister from the Ministry of Defence (MOD) was available to attend the successful launch of the third Type 45 Destroyer, Diamond, on 27 November 2007. There was, however, senior representation at the event as the First Sea Lord, Admiral Sir Jonathan Band, was in attendance as the official representative of MOD Ministers.

### Lebanon: Armed Forces

**Mark Pritchard:** To ask the Secretary of State for Defence what plans he has to provide military advisers to the Lebanese armed forces to improve their defence capabilities. [171802]

**Mr. Bob Ainsworth:** We have worked with the Lebanese armed forces (LAF) to identify training needs and, where appropriate and possible, offer training assistance to improve their defence capabilities.

The MOD provides advice and training through military short term training teams (STTT) which consist of small numbers of subject matter experts deployed to fulfil niche training areas of LAF need.

In addition to the STTTs the UK also offers and pays for a variety of capacity building courses in the UK for LAF officers and senior non-commissioned officers. These courses focus on officer staff and command training.

### RAF Fylingdales

**Mr. Moore:** To ask the Secretary of State for Defence how many *(a)* UK and *(b)* US personnel were employed at RAF Fylingdales in each year since 2002, broken down by employer. [171225]

**Mr. Bob Ainsworth:** I refer the hon. Member to the answers given on 11 March 2003, *Official Report*, column 181W, and 14 June 2006, *Official Report*, column 1235W, to the hon. Member for Lewes (Norman Baker).

As of 3 December 2007 the figures for RAF Fylingdales were: one US military personnel; 13 US contractors; 79 RAF personnel; 162 UK contractors; 105 Ministry of Defence Police and Guarding Agency personnel and 37 UK civilian personnel work at the base.

The number of personnel who worked at RAF Fylingdales in 2002, 2004 and 2005 is not available in the format requested.

### RAF Menwith Hill

**Mr. Moore:** To ask the Secretary of State for Defence how many *(a)* UK and *(b)* US personnel were employed at RAF Menwith Hill in each year since 2002, broken down by employer. [171224]

**Mr. Bob Ainsworth:** I refer the hon. Member to the answers given on 30 June 2005, *Official Report*, column 1693W, and 14 June 2006, *Official Report*, column 1235W, to the hon. Member for Lewes (Norman Baker) and on 27 November 2007, *Official Report*, column 313W, to my hon. Friend the Member for Hemsworth (Jon Trickett).

The number of personnel employed at RAF Menwith Hill in 2002, 2003 and 2004 is not available in the format requested.

### United Nations: Peace Keeping Operations

**Mr. Hague:** To ask the Secretary of State for Defence in which countries UK personnel are deployed under UN peacekeeping mandates; and how many personnel are deployed in each case. [172530]

**Mr. Bob Ainsworth:** The following table details the countries where UK personnel are deployed on peacekeeping operations and political and peace-building missions conducted by the UN, and how many UK personnel are involved:

| *Mission* | *Number* |
|---|---|
| United Nations peacekeeping force in Cyprus (UNFICTP) | 275 |
| United Nations observer mission in Georgia (UNOMIG) | 5 |
| United Nations mission in Liberia (UNMIL) | 3 |
| United Nations organization mission in DR of Congo (MONUC) | 6 |
| United Nations mission in Sudan (UNMIS) | 6 |
| United Nation mission in Nepal (UNMIS) | [1]5 |
| United Nations integrated office in Sierra Leone (UNIOSIL) | [1]1 |
| Total | 301 |

[1] Political and peace-building missions

## TREASURY

### Alternatively Secured Pensions

**Philip Davies:** To ask the Chancellor of the Exchequer when the changes to alternatively secured pensions will be updated in the registered schemes manual; and what steps are taken to ensure that the information in the registered pensions scheme manual are kept up to date. [173271]

**Kitty Ussher:** The information in the Registered Pension Scheme Manual is regularly reviewed and updated as necessary. The amendments to this manual, arising from the changes made in Finance Act 2007 to the rules governing alternatively secured pensions, were published on 4 December following consultation on draft text.

### Bank Services

**Dr. Cable:** To ask the Chancellor of the Exchequer if he will estimate the potential liability to the Exchequer from guaranteeing of bank deposits up to *(a)* £20,000, *(b)* £30,000, *(c)* £50,000, *(d)* £100,000, *(e)* £150,000 and *(f)* £200,000. [166575]

**Kitty Ussher:** The Financial Services Compensation Scheme (FSCS) protects eligible bank deposits up to specified limits. It is funded by levies on financial services firms.

### Buildings: Cabinet Office

**Mr. Hoban:** To ask the Chancellor of the Exchequer pursuant to the answer of 20 November, *Official Report*, column 701W, on buildings: Cabinet Office, whether the database records figures separately for the Prime Minister's Offices. [173138]

**Angela Eagle:** The Electronic Property Information Mapping Service (e-PIMS) database does record figures separately for the Prime Minister's Offices.

**Mr. Hoban:** To ask the Chancellor of the Exchequer pursuant to the answer of 20 November 2007, *Official Report*, column 701W, on buildings: Cabinet Office, what the *(a)* total area and *(b)* vacant space in the (i) Cabinet Office's and (ii) Prime Minister's Offices was as recorded on the database in 1997 or the nearest available date. [173139]

**Angela Eagle:** The information requested is as follows:

(i) The total area for the Cabinet Office estate (including the Prime Minister's Offices) recorded on the Electronic Property Information Mapping Service (e-PIMS) database in 2005-06 was 161,673.2 $m^2$. The amount of vacant space recorded on e-PIMS for the Cabinet Office estate in 2005-06 was 676 $m^2$.

(ii) The total area of the Prime Minister's Offices (10-12 Downing street) recorded on e-PIMS in 2005-06 was 4,066.2 $m^2$. There was no vacant space recorded for these offices.

### Capital Gains Tax

**Mr. Dai Davies:** To ask the Chancellor of the Exchequer what steps were taken by his Department to consult the *(a)* Federation of Small Businesses, *(b)* British Chambers of Commerce, *(c)* Confederation of British Industry and *(d)* Institute of Directors on changes in taper relief on capital gains tax before publication of the 2007 pre-Budget report. [172806]

**Jane Kennedy:** The Government do not generally consult on changes to tax rates. Following the publication of the pre-Budget report the Treasury has held constructive discussions with representatives from a number of business groups.

### Child Benefit: Personal Records

**Mr. Hoban:** To ask the Chancellor of the Exchequer pursuant to the statement of 20 November 2007, *Official Report*, columns 1110-18, on HM Revenue and Customs, how the password for the discs was transmitted by HM Revenue and Customs to the National Audit Office on each occasion that data were sent. [173427]

**Jane Kennedy:** The location of the missing data discs is the subject of an ongoing Police investigation and it would be inappropriate to comment further. On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Mr. Hoban:** To ask the Chancellor of the Exchequer pursuant to the statement of 20 November 2007, *Official Report*, columns 1110-18, on HM Revenue and Customs, how many personal records contained on the two discs missing from HM Revenue and Customs were from each parliamentary constituency. [173481]

**Jane Kennedy:** The missing information contains details of all child benefit recipients.

All child benefit customers in all parliamentary constituencies are affected by the data loss. The acting chairman of HM Revenue and Customs has written to all customers affected by the loss of child benefit data.

Information on families receiving child benefit at 31 August 2006 by local authority and parliamentary constituency are published as part of National Statistics and can be found in Tables 2 and 3 of Child Benefit Statistics Geographical Analysis which are available on HMRC's website at:

http://www.hmrc.gov.uk/stats/child_benefit/geog-aug06.pdf

### Civil Service: Cost Effectiveness

**Mr. Dodds:** To ask the Chancellor of the Exchequer what steps he plans to take to increase efficiency within the civil service. [172723]

**Andy Burnham:** The comprehensive spending review announced an ambitious framework for achieving value for money savings in the civil service and the wider public sector. This included a 5 per cent. annual fall in administration budgets in real terms and built on the success of the efficiency programme announced in the 2004 spending review.

### Departmental Training

**Mr. Hoban:** To ask the Chancellor of the Exchequer (1) what records his Department holds of the destinations of each Treasury away day undertaken in 2006-07; [173194]

(2) whether his Department's accounting system records the *(a)* cost, *(b)* destination and *(c)* activities undertaken of away days of the Performance and Efficiency Team in 2006-07. [173195]

**Angela Eagle:** Information on Treasury teams' away days cannot be disaggregated from accounting system records on training costs and could be obtained only at a disproportionate cost.

### Elderly: Staffordshire

**Mr. Jenkins:** To ask the Chancellor of the Exchequer what estimate he has made of the population of *(a)* Staffordshire and *(b)* Tamworth constituency that (i) were aged 65 years and over in each year from 1997 to 2006 and (ii) are aged 65 years and over in 2007; and if he will make a statement. [173079]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 12 December 2007:*

As National Statistician, I have been asked to reply to your question asking what estimate has been made of the population for (a) Staffordshire and (b) Tamworth constituency that (i) were aged 65 years and over in each year from 1997 to 2006 and (ii) are aged 65 years and over in 2007. (173079)

Whilst population estimates for Staffordshire are available for mid-1997 to mid-2006, population estimates for Tamworth constituency are only available for mid-2001 to mid-2005. Population estimates are not yet available for 2007. The population projection for mid-2007, based on the 2004 mid-year estimates, has been provided for Staffordshire. Population projections are not available for parliamentary constituencies.

Table 1 presents the available population data for Staffordshire, and Tamworth constituency.

*Table 1: Population estimates and projections for Staffordshire and estimates for Tamworth constituency*

| | | Thousand |
|---|---|---|
| | Population aged 65 and over | |
| Mid-year | Staffordshire | Tamworth |
| 1997 | 120 | [1]— |
| 1998 | 122 | [1]— |
| 1999 | 123 | [1]— |
| 2000 | 124 | [1]— |
| 2001 | 127 | 11 |
| 2002 | 129 | 12 |
| 2003 | 131 | 12 |
| 2004 | 134 | 12 |
| 2005 | 136 | 13 |
| 2006 | 138 | [1]— |
| 2007[2] | 142 | [1]— |

[1] Data for Tamworth constituency are not available

[2] Population projections

Office for National Statistics

### Employee Share Ownership Schemes

**Mr. Love:** To ask the Chancellor of the Exchequer what consultations his Department has held with the administrators and providers of employee share schemes on the recent pre-Budget report; and if he will make a statement. [173451]

**Kitty Ussher:** Following the publication of the pre-Budget report the Treasury has held constructive discussions with a range of stakeholders on employee share schemes.

### Excise Duties: Alcoholic Drinks

**Sir Nicholas Winterton:** To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* volume and *(b)* revenue raised in duty of (i) beer, (ii) lager, (iii) cider and (iv) wine in each of the last three years. [170313]

**Angela Eagle:** Official estimates of clearances data can be found on the HMRC trade information website:

http://www.uktradeinfo.co.uk/index.cfm?task=bulletins

and are summarised as follows.

*Volume of clearances*

| | | | Thousands of hectolitres |
|---|---|---|---|
| | 2004-05 | 2005-06 | 2006-07 |
| Beer (including lager) | 58,845 | 57,596 | 55,444 |
| Cider | 6,126 | 6,462 | 7,863 |
| Wine | 12,901 | 13,085 | 12,893 |

Official receipt figures for beer, cider and wine duty can be found in the Budget documentation and are summarised as follows.

*Receipts*

| | | | £ million |
|---|---|---|---|
| | 2004-05 | 2005-06 | 2006-07 |
| Beer (including lager) | 3,100 | 3,080 | 3,070 |
| Cider | 160 | 170 | 200 |
| Wine | 2,230 | 2,310 | 2,390 |

*Notes:*

1. Estimates for wine include only product made from fresh grape.
2. Figures have been rounded to the nearest £10 million.

### Illegal Immigrants

**Damian Green:** To ask the Chancellor of the Exchequer how many illegal immigrants have been discovered working for his Department and its agencies in the last year for which figures are available. [170506]

**Angela Eagle:** No illegal immigrants have been discovered working in the Treasury or its agencies during the past year.

### Marginal Tax Rates

**Mr. Hoban:** To ask the Chancellor of the Exchequer what estimate he has made of the number of households which will experience marginal deduction rates of *(a)* 70 per cent. and *(b)* over 60 per cent. following the changes announced in Budget 2007. [173346]

**Jane Kennedy:** Estimates of the number of families facing marginal deduction rates above 60 per cent. under the 2008-09 tax and benefits system were published in the 2007 pre-Budget report and Comprehensive Spending Review, Table 5.2.

**Mr. Hoban:** To ask the Chancellor of the Exchequer what estimate he has made of the marginal deduction rate experienced by a married couple, local authority tenants, with one child under 11, no child care costs, working under 30 hours per week, with gross earnings of £200 per week. [173348]

**Jane Kennedy:** The information requested is published by the Department for Work and Pensions in "Tax Benefit Model Tables April 2007", Table 1.5a.

http://www.dwp.gov.uk/asd/tbmt.asp.

### Migrant Workers

**Keith Vaz:** To ask the Chancellor of the Exchequer if he will make a statement on the geographical distribution of Eastern European migrants in the UK. [163170]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 12 December 2007:*

The National Statistician has been asked to reply to your question concerning the distribution of Eastern European migrants in the UK. I am replying in her absence. (163170)

The attached Table 1 shows the estimated number of people born in Eastern Europe by UK country and Government Office Region for the 12 month period ending December 2006.

The definition of Eastern Europe is the same as that used for the 2001 census. It includes all the EU accession states that are now part of the EU and also other countries.

These figures are based on the annual population survey, which is a survey of private households. As with any sample survey the estimates are subject to a margin of uncertainty.

*Table 1: Geographical distribution of UK population born in Eastern Europe[1] 2006*

| *UK country/English GOR* | *Thousand* | *Percentage of total* |
|---|---|---|
| England | 592 | 92.9 |
| North East | 9 | 1.4 |
| North West | 35 | 5.5 |
| Yorkshire and Humberside | 61 | 9.7 |
| East Midlands | 49 | 7.7 |
| West Midlands | 36 | 5.6 |
| East of England | 52 | 8.2 |
| London | 261 | 41.0 |
| South East | 62 | 9.7 |
| South West | 26 | 4.1 |
| Wales | 11 | 1.8 |
| Scotland | 24 | 3.8 |
| Northern Ireland | 10 | 1.5 |
| Grand total | 637 | 100.0 |

[1] Definition 'Eastern Europe' is based on the 2001 Census country of birth definition which contains the following countries: (Albania, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Macedonia, Montenegro, Moldova, Poland, Romania, Russia, Serbia, Slovakia, Slovenia, Turkey, Ukraine, Yugoslavia (nos))

*Notes:*

1. Estimates for 2006 are based on the Annual Population Survey (APS) which includes the Labour Force Survey (LFS) plus various sample boosts.

2. It should be noted that the above estimates :-

exclude certain people who have been resident in the UK for less than six months

exclude students in halls of residence who do not have a UK resident parent

exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites, etc)

are grossed to population estimates that only include migrants staying for 12 months or more

are grossed to population estimates consistent with those published in spring 2003, which are significantly lower than the latest population estimates.

3. The LFS weighting does not adjust for non-response bias by the country of birth variable.

*Source:*

Annual Population Survey

### National Insurance Contributions

**Anne Main:** To ask the Chancellor of the Exchequer how much was raised from national insurance contributions in 2006-07. [173343]

**Jane Kennedy:** Information on receipts of National Insurance contributions is published in National Statistics Table 1.2 on the HMRC website. A link to the most recent publication is as follows:

http://www.hmrc.gov.uk/stats/tax receipts/tablel-2.pdf

### National Security: Finance

**Philip Davies:** To ask the Chancellor of the Exchequer (1) if he will break down the UK's security budget for *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10 by Government Department; [165896]

(2) how much of the UK's security budget for *(a)* 2007-08, *(b)* 2008-09 and (c) 2009-10 is allocated to each aspect of the Government's national security activities; [165895]

(3) how much of the £2.25 billion security budget is devoted to supporting critical national infrastructure. [165657]

**Andy Burnham:** As part of CSR 2007, the Government announced a new single security and intelligence budget which brings together dedicated counter-terrorism and intelligence funding for the security and intelligence agencies, the police and all parts of Government responsible for addressing threat from terrorism.

In 2007-08 single security and intelligence budget planned spending is £2.5 billion resource and capital. The provisional breakdown across departments is as follows:

| | £ million |
|---|---|
| Security and Intelligence Agencies | 1,508 |
| Home Office | 811 |
| Foreign and Commonwealth Office | 93 |
| Northern Ireland Office | 68 |
| Business, Enterprise and Regulatory Reform | 61 |
| HM Revenue and Customs | 47 |
| Ministry of Defence | 38 |
| Communities, Local Government | 22 |
| Department for Transport | 12 |

Breaking down the new single budget by specific counter-terrorism and intelligence activities would reveal our capabilities and details of security and intelligence agencies spending beyond what is published already. It has been the policy of successive Governments not to reveal these details.

The single security and intelligence budget will rise to £3.5 billion a year by 2010-11. The Government continue to assess the priorities and will publish such details as they can of spending plans for 2008-09 to 2010-11 in due course.

### Office of Government Commerce

**Justine Greening:** To ask the Chancellor of the Exchequer what the *(a)* cost and *(b)* results were of the Office of Government Commerce's staff attitude survey on service levels in each year since 2003-04; and if he will make a statement. [165305]

**Angela Eagle:** Two staff attitude surveys have been undertaken by OGC since 2003-04. The first was during 2003-04 and this cost around £17,500 and the second in 2006 at a cost of £20,000.

The surveys are internal management tools and it would not be appropriate to disclose information that relates to specific teams.

### Revenue and Customs: Interest Charges

**David T.C. Davies:** To ask the Chancellor of the Exchequer (1) what the rate of interest paid to members of the public on funds owed to them by HM Revenue and Customs was on 1 April 2007; [173108]

(2) what the rate of interest charged to members of the public on sums owed by them to HM Revenue and Customs was on 1 April 2007. [173109]

**Jane Kennedy:** I refer the hon. Member to the HM Revenue and Customs' website at http://www.hmrc.gov.uk/rates/interest for direct taxes and http://www.hmrc.gov.uk/VAT/ratesandcodes.htm for indirect taxes.

### Save as You Earn

**Mr. Love:** To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of individual members of save as you earn schemes that will be affected by the changes introduced by the recent pre-Budget report; and if he will make a statement; [173253]

(2) what total revenue has been collected from capital gains tax on maturing save as you earn schemes in each of the last five tax years. [173450]

**Jane Kennedy:** The information requested is not available.

### Social Services: Finance

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer what meetings he and his Ministers had with Department of Health *(a)* officials and *(b)* Ministers to discuss the settlement for social care in the comprehensive spending review; at which of those meetings the subject of payment for long-term care was discussed; and if he will make available the minutes of those meetings. [172928]

**Andy Burnham:** The Chancellor and his Ministers have regular discussions with Cabinet colleagues and others on a wide range of issues.

### Suicide

**Mr. Kemp:** To ask the Chancellor of the Exchequer how many and what proportion of deaths in *(a)* the North East and *(b)* the UK were suicides in each of the last 10 years. [173570]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 12 December 2007:*

The National Statistician has been asked to reply to your recent question asking how many and what proportion of the deaths in *(a)* the North East and *(b)* the UK were suicides in each of the last 10 years. I am replying in her absence. (173570)

The table attached provides the number and percentage of deaths where suicide was the underlying cause of death, in *(a)* the North East government office region and *(b)* the United Kingdom, for 1997 to 2006 (the latest year available).

*Table 1: Number and percentage of deaths where suicide was the underlying cause of death[1, 2], (a) North East government office region, and (b) the United Kingdom[3, 4] 1997-2006[5]*

| | North East[3] | | UK | |
|---|---|---|---|---|
| | Deaths | Percentage | Deaths | Percentage |
| 1997 | 256 | 1 | 5,816 | 1 |
| 1998 | 290 | 1 | 6,354 | 1 |
| 1999 | 258 | 1 | 6,255 | 1 |
| 2000 | 279 | 1 | 6,124 | 1 |
| 2001 | 249 | 1 | 5,932 | 1 |
| 2002 | 239 | 1 | 5,826 | 1 |
| 2003 | 272 | 1 | 5,731 | 1 |
| 2004 | 295 | 1 | 5,850 | 1 |
| 2005 | 242 | 1 | 5,671 | 1 |
| 2006 | 228 | 1 | 5,563 | 1 |

[1] Suicide was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950-E959 and E980-E989, excluding E988.8 for England and Wales (1997 to 2000), and codes E950-E959 and E980-E989 for Scotland (1997 to 1999) and Northern Ireland (1997 to 2000), and the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the Coroner's verdict was pending) for England and Wales (2001 to 2006), and codes X60-X84 and Y10-Y34 for Scotland (2000 to 2006), and Northern Ireland (2001 to 2006).

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Based on boundaries as of 2007.

[4] Figures for the UK include data provided by the Registrars General for Scotland and Northern Ireland.

[5] Figures are for deaths registered in each calendar year.

## Television: Greater London

**Sarah Teather:** To ask the Chancellor of the Exchequer what estimate he has made of the number of households in London which had *(a)* a television, *(b)* satellite or cable television, *(c)* a home computer and *(d)* access to the internet in each year since 1997. [172944]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 12 December 2007:*

The National Statistician has been asked to reply to your recent question asking what estimate has been made of the number of households in London which had (a) a television, (b) satellite or cable television, (c) a home computer and (d) access to the internet in each year since 1997. I am replying in her absence. (172944)

Estimates of the ownership of durable goods appear in the ONS's 'Family Spending' report. The latest report for 2005-06 was published on the National Statistics website on 18th January 2007 at

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=361.

Family Spending is the ONS's annual report on the Expenditure and Food Survey (EFS), an annual survey of approximately 7,000 households in the UK.

The tables provided show the estimated number of households in London owning each of these durable goods (Table 1). In addition, the percentage of households owning these goods have also been provided (Table 2).

Both the estimates of the number of households owning these durable goods, and the estimates of the total number of households in London vary to some extent from year to year. This is because estimates produced from the EFS combine information about ownership of durable goods provided by survey respondents, with London population estimates by age and sex, to produce estimates of the total number of people in London owning these goods. These population control totals are a measure of the number of people in London, but there are no control totals for the number of households. As a consequence, there is some year to year volatility in estimates of the numbers of households.

The figures for ownership of satellite or cable television, home computers and access to the internet are all increasing rapidly, and so while there is some year to year volatility in the estimates, the underlying trend is very apparent. As regards the number of households owning televisions, which one would expect to be changing much more slowly, most of the year to year movement in the figures is likely to be due to the sampling variability described above.

Figures have also been provided on the percentages of households owning these durable goods. As proportions, these figures are affected less by year to year volatility in the estimated numbers of households.

*Table 1: Estimated number of households with selected durable goods in London, 1996-97 to 2005-06*[1, 2]

*Thousand*

| | *Number of households* | *Satellite receiver*[3] | *Home computer* | *Internet connection* | *TV set* |
|---|---|---|---|---|---|
| 1996-97 | 2,800 | 507 | 937 | — | 2,742 |
| 1997-98 | 2,956 | 777 | 1,024 | — | 2,881 |
| 1998-99 | 3,032 | 886 | 1,177 | 472 | 2,965 |
| 1999-2000 | 3,094 | 1,073 | 1,370 | 772 | 3,030 |
| 2000-01 | 3,064 | 1,200 | 1,542 | 1,211 | 2,937 |
| 2001-02 | 2,851 | 1,303 | 1,650 | 1,376 | 2,779 |
| 2002-03 | 2,840 | 1,139 | 1,709 | 1,416 | 2,774 |
| 2003-04 | 2,889 | 1,424 | 1,900 | 1,649 | 2,851 |

## Trading Funds

**Mr. Prisk:** To ask the Chancellor of the Exchequer with how many *(a)* private sector stakeholders and *(b)* public sector stakeholders the Cambridge university team carrying out the review of trading funds has met. [172475]

**Andy Burnham:** The Cambridge university team have undertaken the analysis on the definition and charging models for the public information held by trading funds on an independent basis and have met with the stakeholders they consider necessary to inform their analysis.

## VAT: Charitable Donations

**Mr. Willis:** To ask the Chancellor of the Exchequer if he will exempt from VAT charitable donations that companies make out of the purchase price of their products. [173197]

**Jane Kennedy:** A donation that is freely given and for which nothing is received in return is outside the scope of VAT. Therefore, if payment of an element of the purchase price of goods and services by a customer is optional, and is clearly set out as a donation to charity, no VAT is chargeable on that part of the payment.

Otherwise, VAT is chargeable on the full price paid for a supply of goods or services, subject to the VAT liability rules set out in the VAT Act. This position reflects the requirements of our European VAT agreements.

### Working Tax Credits: EU Nationals

**Mr. Clappison:** To ask the Chancellor of the Exchequer how many EU A8 nationals successfully applied for *(a)* working tax credit and *(b)* child tax credit in each year since the accession of the A8 nations; and how many of these had previously been in receipt of each such benefit. [173066]

**Jane Kennedy:** The Accession monitoring report, last published on 20 November 2007 on the Home Office Borders and Immigration Agency website

http://www.bia.homeoffice.gov.uk/aboutus/reports/accession_monitoring_report

provides detailed information including the total number of workers from the new member states of the EU which acceded on 1 May 2004 and who have made claims for tax credits.

The other information requested is not available.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171432]

**Mr. Thomas:** My Department and its agencies have spent the following:

|  |  |  | £ |
|---|---|---|---|
|  | *Cards* | *Decorations* | *Parties* |
| 2002 | 602 | 0 | 16,000 |
| 2003 | 618 | 0 | 16,000 |
| 2004 | 2,333 | 1,370 | 16,000 |
| 2005 | 2,165 | 920 | 18,000 |
| 2006 | 1,943 | 1,591 | 11,000 |

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been paid by his Department and its predecessor in consultancy fees since *(a)* 1997 and *(b)* 2005-06. [171993]

**Mr. Thomas:** Central records indicate that the cost to the Department of engaging consultants in each of the following financial years has been:

|  | *£ million* |
|---|---|
| 1999-2000 | 21 |
| 2000-01 | 36 |
| 2001-02 | 64 |
| 2002-03 | 93 |
| 2003-04 | 112 |
| 2004-05 | 86 |
| 2005-06 | 53.6 |
| 2006-07 | 40.3 |
| 2007-08 | 8.7 |

Information for years prior to 1999-2000 is not held centrally and could be provided only at disproportionate cost.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if *(a)* his Department and *(b)* his Department's agencies will undertake a review of their compliance with data protection laws. [168080]

**Mr. Vara:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years; [168822]

(2) how many breaches of data protection security there have been in his Department or his Department's Agencies in each of the last five years; and if he will provide details of each breach. [168835]

**Mr. Thomas:** I refer the hon. Members to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172247]

**Mr. Thomas:** Business Enterprise and Regulatory Reform is committed to achieving its workforce reduction target of 1,010 posts by the end of 2007-08. This is a net target and no posts will be reallocated to the frontline as part of it.

**Mrs. May:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* men and *(b)* women of each Civil Service grade are employed by his Department. [172736]

**Mr. McFadden:** For the information required, please refer to the 2006 Civil Service Statistics published by Office for National Statistics (ONS). Table H of the publication presents permanent employees by Department, responsibility level, ethnic origin and gender.

As BERR only came into existence this year, the right hon. Member should refer to the then Department of Trade and Industry entry, which now forms the majority of the new Department. The following extract is as follows:

*BERR (Department of Trade and Industry Statistics, which now forms the majority of the new Department)*

| | *White* | | *Ethnic minority* | | *Non-response* | | | *Ethnic minority as percentage of known ethnic origin* | |
|---|---|---|---|---|---|---|---|---|---|
| *Responsibility level* | *Male* | *Female* | *Male* | *Female* | *Male* | *Female* | *All employees* | *Male* | *Female* |
| SCS level | 150 | 60 | 10 | — | 80 | 30 | 320 | 4.4 | — |
| Grades 6/7 | 750 | 350 | 50 | 40 | 290 | 170 | 1,650 | 6.0 | 9.8 |
| All other levels | 2,560 | 2,880 | 460 | 650 | 930 | 880 | 8,340 | 15.1 | 18.3 |
| Unknown | 0 | 0 | 0 | 0 | — | 0 | — | 0.0 | 0.0 |
| All employees | 3,460 | 3,290 | 510 | 690 | 1,290 | 1,080 | 10,310 | 12.8 | 17.2 |

*Source:*
The 2006 Civil Service Statistics published by ONS.

## Departmental Official Hospitality

**Mike Penning:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will take steps to ensure that English wine is served *(a)* exclusively and *(b)* at the request of guests at meals, parties and receptions hosted by his Department; and if he will make a statement. [164289]

**Mr. Thomas:** BERR works with its caterer to provide catering and hospitality services in line with the public sector food procurement initiative (PSFPI). As a part of this Government initiative BERR offers a selection of UK grown and produced products including English wines.

## Departmental Opinion Polls

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 22 November 2007, *Official Report*, column 1110W, on departmental opinion polls, what opinion polls his Department has conducted of the public since 27 June. [173431]

**Mr. Thomas:** The Department does not centrally collect the information sought and to provide it would entail disproportionate cost.

Only statistical surveys to businesses and local authorities conducted by the Department and its agencies are monitored centrally to facilitate control of compliance costs to business and departmental expenditure on survey activity. The answer would incur disproportionate cost because of the need to ask all directorates in BERR, plus agencies and associated non-departmental public bodies, to attempt to provide details of each survey and piece of research commissioned which may contain opinion questions.

## Employment Tribunals Service

**Mr. Henderson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he plans to take to *(a)* promote alternative forms of dispute resolution in cases of employment tribunals and *(b)* reduce the length of time for employment disputes to be resolved once they have gone to tribunal. [172760]

**Mr. McFadden:** We will be setting out proposals in the Government response to the consultation "Resolving disputes in the workplace". The response will be published shortly.

## Industry: Subsidies

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much state aid has been authorised to each EU member state's *(a)* national airline, *(b)* coal industry and *(c)* steel industry by the European Commission in the last 10 years. [170650]

**Mr. Thomas:** The European Commission issues reports on state aid in the State Aid Scoreboard, which provides statistical information on authorised state aid in each member state—available at:

http://ec.europa.eu/comm/competition/state aid/studies reports/stat tables.html

Part 1 of the scoreboard provides country specific information on state aid by sector and objective including, manufacturing sectors, coal and transport. In addition, the Commission publishes on its website a State Aid Register, which gives detailed information on all State aid cases which have been approved by the Commission since 1 January 2000—at:

http://europa.eu.int/comm/competition/state_aid/register/

## Overseas Investment: Burma

**Mr. Keith Simpson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the total value of UK foreign direct investment in Burma was in each year since 2000. [167154]

**Mr. Thomas:** The UK Government discourage trade and investment with Burma. The Office for National Statistics (ONS) figures for the UK's foreign direct investment in Burma for the period 2001-04 are protected by commercial confidentiality. The ONS recorded a nil investment return in 2005. Data for 2006 will be published in February 2008.

## Overseas Trade: Burma

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the total value of British trade with Burma has been in each year since 1997. [173263]

**Mr. Thomas:** The Government have a long-standing policy of not encouraging British firms to trade with or invest in Burma. We offer no commercial services to companies wishing to trade with or invest in Burma. British companies who inquire about trade with Burma are informed of the grave political situation, the regime's atrocious record on human rights and the country's dire economic prospects.

The following table is based on HM Revenue and Customs Overseas Trade Statistics.

£ million

| | UK imports of goods from Burma | UK exports of goods to Burma |
|---|---|---|
| 1997 | 19.5 | 15.4 |
| 1998 | 17.3 | 12.6 |
| 1999 | 23.8 | 7.4 |
| 2000 | 49.3 | 8.6 |
| 2001 | 66.6 | 9.5 |
| 2002 | 64.3 | 7.3 |
| 2003 | 62.3 | 5.0 |
| 2004 | 73.8 | 2.2 |
| 2005 | 34.6 | 10.0 |
| 2006 | 26.7 | 3.7 |

### Post Offices: Closures

**Mrs. Ellman:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform which post offices in Liverpool Riverside constituency have been *(a)* considered for closure and *(b)* closed by Post Office Ltd. in the last 10 years; which post offices in that constituency have closed for other reasons over that period; and if he will make a statement. [173087]

**Mr. McFadden** *[holding answer 11 December 2007]:* This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

### Postal Votes

**Angela Watkinson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with the *(a)* Electoral Commission and *(b)* Ministry of Justice on measures to improve the efficiency and security of postal voting. [167993]

**Mr. McFadden:** We have had no such discussions. The Ministry of Justice is responsible for electoral policy issues, including matters relating to postal voting procedures. The general security of items posted under licence is governed under a Mail Integrity Code which is overseen by Postcomm, the independent industry regulator.

### Research Councils: Expenditure

**Lynne Jones:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform on what basis Lord Truscott, in his letter to the hon. Member for Birmingham, Selly Oak, dated 27 June 2007, was able to state that the £68 million taken from unspent funds in the Research Councils met departmental budgetary pressures that included *(a)* the restructuring of British Energy, *(b)* meeting the shortfall in EU structural funds, *(c)* the collapse of MG Rover and *(d)* increased spend on the Technology Programme and Space Projects. [164821]

**Mr. Thomas:** DTI's memorandum to the Trade and Industry Committee in February 2007 explained changes which were being made in the spring supplementary estimate. This included the fact that in 2006/07, the DTI faced a budget shortfall due to a number of factors including the funding of the British Energy rescue package from within the SR04 settlement, and clarification of the budgeting guidance in November 2005.

The Department also had to face a number of unforeseen pressures that arose after the SR04 settlement had been made. These included the fall out from MG Rover, an increase in demand-led services, and the need to fund new cross-governmental priorities. Dealing with these pressures, left DTI without any significant flexibility to manage budgets and absorb new pressures.

DTI sought to manage these pressures within its budget. The Department looked rigorously at all elements of non ring-fenced spend to identify efficiencies and flexibilities and as a result identified significant savings to be put towards pressures. These savings, however, were not sufficient to provide cover for the unavoidable pressures faced in 2006/07. This complex picture led to the use of unspent funds from the ring-fenced science budget in order to fund residual pressures which the Department was facing.

### Skilled Workers

**Mr. Jim Cunningham:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government have taken to encourage employers to educate their workforces and increase their skills base in the last five years. [166166]

**Mr. Lammy** *[holding answer 22 November 2007]:* I have been asked to reply.

This Department is leading the Government's work to ensure we have a workforce with the world class skills the 21st century demands. For our businesses, a more highly skilled workforce is the path to higher productivity, competitiveness and profitability. For our citizens, better skills are the path to sustained employment, career progression, and increased income.

In July 2007, we published "World Class Skills" setting out our plans for England to deliver a step change in the nation's attitude towards education. Through the measures in "World Class Skills" we will give employers the opportunity to exert real leverage and decision making over the content and delivery of skills and employment programmes. With the role of sector skills councils more sharply focused on raising demand and investment from employers; in articulating the future skills needs of their employers; and ensuring that the supply of skills and qualifications is driven by employers.

At the forefront of our strategy is the Skills Pledge giving employers an opportunity to publicly demonstrate their commitment to investing in the skills of their employees; and an improved and expanded Train to Gain service to help employers of all sizes and in all sectors to identify and address their skills needs.

In its first year 52,730 employers have been engaged through Train to Gain against a target of 47,770 and almost a quarter of a million employees have been trained. And week on week numbers of employers making the Skills Pledge continues to grow since its launch in June 2007, with now over 630 employers having made the commitment covering more than 3.1 million employees.

Trade Unions also have an important role to play in achieving our ambitions. There are now more than 18,000 trained Union Learning Representatives working across the country to encourage more people to participate in training.

### Summertime: Energy

**Mr. Yeo:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what assessment he has made of the effect on carbon dioxide emissions of introducing British Summer Time in winter and double British Summer Time in summer; [172337]

(2) when he last assessed the potential effects on UK energy consumption of introducing British Summer Time in winter and double British Summer Time in summer; [172338]

(3) if he will assess the effects on *(a)* domestic and *(b)* commercial fuel bills of introducing British Summer Time in winter and double British Summer Time in summer; [172339]

(4) what his Department's assessment is of the potential effects on energy consumption of introducing British Summer Time in winter and double British Summer Time in summer. [172341]

**Mr. McFadden:** Research undertaken by the Building Research Establishment for DEFRA in 2005 indicates that putting clocks forward an additional one hour in winter and summer would lead to a net increase in carbon dioxide emissions corresponding to around 1 per cent. of total UK emissions of carbon dioxide, as a result of increased energy consumption in UK buildings for lighting, space heating and cooling. The study also shows that a switch to British Summer Time all the year round would increase emissions by just under 0.5 per cent. The study was based on modelling patterns of energy use in the UK building stock.

We are not convinced that a change to current arrangements would be in the best interests of the UK and so there are no plans to change the summer time arrangements at this time.

### Trade Agreements: India

**John McDonnell:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the timeline is for the EU/India Free Trade Agreement under negotiation; and what commitments the Agreements on Labour Liberalisation make as currently drafted. [172598]

**Mr. Thomas** *[holding answer 10 December 2007]:* Spring 2009 is the proposed deadline for the completion of the EU/India Free Trade Agreement but this will require concerted effort from both sides as negotiations are still at an early stage.

The inclusion of international labour standards in this Free Trade Agreement, in line with International Labour Organisation guidelines, is of importance in these negotiations.

### VAT: North West Region

**Mr. Evans:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many businesses have *(a)* registered and *(b)* deregistered for VAT in (i) Lancashire and (ii) the North West in each of the last five years. [173398]

**Mr. Timms:** The number of new VAT registrations and de-registrations in the Lancashire county and the North West are shown for 2002 to 2006, alongside the total number of VAT registered businesses at the start of each year.

*VAT registrations, de-registrations and stock of VAT registered businesses in Lancashire county*[1]

| | *2002* | *2003* | *2004* | *2005* | *2006* | *2007* |
|---|---|---|---|---|---|---|
| Registrations | 3,020 | 3,405 | 3,175 | 3,030 | 2,925 | — |
| De-registrations | 2,655 | 2,685 | 2,540 | 2,370 | 2,310 | — |
| Start of year stock | 31,575 | 31,935 | 32,655 | 33,290 | 33,950 | 34,565 |

[1] Lancashire county does not include Blackpool UA or Blackburn with Darwen UA.

*Source:*

Business Start-ups and Closures: VAT Registrations and De-registrations 1994-2006 Available at: http://stats.berr.gov.uk/ed/vat

*VAT registrations, de-registrations and stock of VAT registered businesses in the North West*

| | *2002* | *2003* | *2004* | *2005* | *2006* | *2007* |
|---|---|---|---|---|---|---|
| Registrations | 17,385 | 19,005 | 18,080 | 17,940 | 17,920 | — |
| De-registrations | 15,550 | 15,070 | 14,740 | 13,670 | 13,670 | — |
| Start of year stock | 168,415 | 170,250 | 174,185 | 177,525 | 181,795 | 186,045 |

*Source:*

Business Start-ups and Closures: VAT Registrations and De-registrations 1994-2006.

Available at: http://stats.berr.gov.uk/ed/vat

Although the number of registrations and de-registrations has fluctuated over the period, the total number of VAT registered businesses in Lancashire county has increased from 31,575 at the start of 2002 to 34,565 in 2007, an increase of 2,990 (9 per cent.). Over the same period the number of VAT registered businesses in the North West increased from 168,415 to 186,045, an increase of 17,630 (10 per cent.).

VAT registrations do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Similarly, businesses that de-register may not have closed. Only 1.9 million out of 4.5 million UK enterprises (43 per cent.) were registered for VAT at the start of 2006.

### Departmental Staff

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff aged between 16 and 18 were employed by his Department and its predecessor *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171276]

**Mr. Thomas:** The information requested is not centrally held by the Department and this information could be obtained only at disproportionate cost.

## HEALTH

### Aortic Aneurysm: Screening

**Harry Cohen:** To ask the Secretary of State for Health if he will consider the merits of a mass screening programme for aneurysm of the abdominal aorta in males over the age of 50 years; what estimate he has made of the number of deaths per year in the UK caused by this condition; and if he will estimate what the cost of such a screening programme would be. [170204]

**Ann Keen:** The United Kingdom National Screening Committee (NSC) has advised that screening men at age 65 for abdominal aortic aneurysm (AAA) can be recommended in principle.

The number of deaths in 2005 in England and Wales (for both men and women of all age groups) from abdominal aortic aneurysms was approximately 7,000. An exact figure cannot be identified because of the amalgamation of thoracic and abdominal aortic aneurysms in some sub-codes of the International Classification of Disease.

Work is currently in progress to assess the implications of implementing abdominal aortic aneurysm screening in England. This assessment has to take account of the likely impact of a screening programme on existing healthcare services and the infrastructure and staffing requirements in order for a programme to be safely introduced, and will include costings. Such assessments are normally undertaken before major screening policy decisions are made.

### Asylum: Health Services

**Mr. Oaten:** To ask the Secretary of State for Health (1) what the cost of providing NHS health care to asylum seekers in England and Wales was in each of the last five years; [173579]

(2) what criteria he uses to determine the Government's policy on whether the UK's terms of provision of health care to asylum seekers comply with *(a)* the European Convention on Human Rights and *(b)* other international obligations; [173580]

(3) what consultations he has had with the medical profession on proposals to withdraw free health care from asylum seekers; [173581]

(4) what steps he plans to take in relation to health care practitioners who provide medical treatment to asylum seekers without charge. [173594]

**Dawn Primarolo:** The United Kingdom has international obligations which mean that anyone who has made a formal application for asylum in the UK under the 1951 United Nations Convention and its 1967 Protocol Relating to the Status of Refugees is entitled to free national health service health care for as long as that application, including appeals, is under consideration. The Government's approach is also in accordance with our obligations under the European Convention on Human Rights on which there is extensive case law both domestic and from the European Court of Human Rights. The UK has also transposed into national legislation European Community Directive 2003/9/EC of 27 January 2003, which lays down minimum standards for the reception of asylum seekers.

Our aim is also that asylum seekers who spend time in Border and Immigration Agency initial accommodation in England prior to dispersal should be offered Departmental funded health assessments and tuberculosis screening. This assists in identifying and addressing immediate health care needs through the use of trained health care staff and interpreters, and avoids duplication of questions and checks later by recording medical histories in a patient hand help record that the asylum seeker can keep with them.

There are no plans to withdraw free health care from asylum seekers. Consequently, no such consultations on withdrawing treatment have taken place, nor will steps be taken in relation to health care practitioners correctly providing asylum seekers with free medical treatment.

The cost of providing NHS health care to asylum seekers is not recorded. Therefore, it is not possible to provide that information.

### Breast Cancer

**John Barrett:** To ask the Secretary of State for Health what his most recent estimate is of a woman's risk of contracting breast cancer across her lifetime; and if he will make a statement. [172169]

**Ann Keen** *[holding answer 10 December 2007]:* One in nine women will develop breast cancer at some time in their life. The estimated risk of developing it for each of the other age groups has been calculated as:

up to age 25, one in 15,000;
up to age 30, one in 1,900;
up to age 40, one in 200;
up to age 50, one in 50;
up to age 60, one in 23;
up to age 70, one in 15;
up to age 80, one in 11;
up to age 85, one in 10.

*Source*:

Cancer Trends in England and Wales 1950-1999, National Statistics Studies on Medical and Population Subjects, no 66, 2001, Quinn et al

### Breast Feeding: Publicity

**Mr. Kidney:** To ask the Secretary of State for Health what funding his Department plans to provide in support of Breastfeeding Awareness Week 2008. [172288]

**Dawn Primarolo:** The Department plans to spend £275,000 on the national Breastfeeding Awareness Week, which will be held from 11 to 17 May 2008. In addition, the Department plans to continue and sustain the promotion of breastfeeding throughout the year.

### Cancer: Health Services

**Dr. Gibson:** To ask the Secretary of State for Health when he expects to announce the cancer reform strategy. [169821]

**Ann Keen:** The cancer reform strategy was published on 3 December 2007, and copies are available in the Vote Office.

### Care Homes

**Mr. Willis:** To ask the Secretary of State for Health what steps he took to reduce the number of standards against which care homes were inspected between 2001-02 and 2006-07; and what the reasons were for those actions. [172611]

**Mr. Ivan Lewis** *[holding answer 11 December 2007]:* The number of National Minimum Standards (NMS) has not changed since their introduction in 2002. The Commission for Social Care Inspection (CSCI) is required to take account of the NMS in assessing providers' compliance with regulations. It is for CSCI to determine its methodology for doing so.

### Care Homes: Closures

**Mr. Willis:** To ask the Secretary of State for Health what criteria are used to judge the performance of care homes; and how many *(a)* care homes, *(b)* residential homes and *(c)* nursing homes were ordered to close in each of the last five years, broken down by local authority area. [172925]

**Mr. Ivan Lewis** *[holding answer 10 December 2007]:* The Commission for Social Care Inspection (CSCI) is responsible, under the Care Standards Act 2000 and associated Regulations, including the Care Homes Regulations 2001, for the inspection and regulation of care and nursing homes. When inspecting care homes, CSCI must have regard to the national minimum standards, which were introduced in 2002.

Data on care home closures prior to the establishment of CSCI in 2004 are not held centrally.

All care and nursing homes are residential. We are informed by CSCI that homes are registered to provide personal care only or care with nursing. The numbers of homes that were ordered to close under Section 20 of the Care Standards Act 2000 in each of the last four inspection years, since the inception of CSCI, are shown in the following table.

*Homes ordered to close under Section 20 of the Care Standards Act 2000*

| Period | Homes providing personal care | Homes providing care with nursing |
|---|---|---|
| 1 April 2004 to 31 March 2005 | 5 | 0 |
| 1 April 2005 to 31 March 2006 | 0 | 1 |
| 1 April 2006 to 31 March 2007 | 3 | 0 |
| 1 April 2007 to 7 December 2007 | 7 | 0 |

### Care Homes: Inspections

**Mr. Willis:** To ask the Secretary of State for Health whether he intends to give care homes an inspection holiday; and if he will make a statement. [173201]

**Mr. Ivan Lewis** *[holding answer 11 December 2007]:* The Commission for Social Care Inspection (CSCI) has developed, through the inspection methodology, "Inspecting for Better Lives", a proportionate inspection framework based on risk. This enables CSCI to focus its resources on those homes that have been assessed as requiring the most improvement. Minimum inspection frequencies are based on quality ratings as follows:

homes classified as 'poor' receive two key inspections per year;

homes classified as 'adequate' receive one key inspection per year;

homes classified as 'good' receive one key inspection every two years; and

homes classified as 'excellent' receive one key inspection every three years.

Even when a home is judged to be 'good' or 'excellent', it will continue to be monitored throughout the period and CSCI will act on any concerns, complaints or allegations. In addition to key inspections, which are thorough, detailed inspection, under which CSCI will assess all of the key national minimum standards. CSCI also carries out 'random' and 'thematic' inspections, which are short, focused inspections on a specific theme or area.

Annual Service Reviews are also conducted from information obtained from the home and a report produced on an annual basis. CSCI has the power to conduct an inspection of any home at any time period if the information it receives warrants it.

### Child Health Interim Application

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health with reference to the answer of 14 December 2006, *Official Report*, column 1351W, on the Child Health Interim Application, whether the catch-up exercise has been completed; if he will place in the Library the options report; what updates his Ministers received at the end of January 2007; when the National Child Health Immunisation Board last met; and if he will make available the minutes of its meetings. [171973]

**Dawn Primarolo:** The catch-up exercise will be completed across the Child Health Interim Application (CHIA) primary care trusts (PCTs) by the end of March 2008.

The "CHIA Option Appraisal Process—Final Report" has been placed in the Library.

The former Minister of State for Health my hon. Friend the Member for Don Valley (Caroline Flint) was updated by officials on 29 January 2007 in relation to the National Immunisation Programme, data issues, specific COVER Data problems with regard to the 10 PCTs using CHIA, and the establishment of a National Child Health Immunisation Programme Board.

The National Child Health Immunisation Board last met on 15 October 2007. The minutes of this meeting will be made available when they have been finalised.

### Chiropody: Greater London

**Mr. Randall:** To ask the Secretary of State for Health how many chiropodists there were in *(a)* Uxbridge constituency, *(b)* the London borough of Hillingdon and *(c)* England in each year since 1997. [171099]

**Ann Keen:** This information is shown in the following table. The workforce census recorded Hillingdon Primary Care Trust (PCT) as the sole employer of chiropodists/podiatrists in the Uxbridge constituency and the London borough of Hillingdon. The number of chiropodists/podiatrists in the national health service in England has increased by 469 (14 per cent.) since 1997 to 3,755 in 2006.

*NHS hospital and community health services: Qualified chiropody/podiatry staff in England, the London strategic health authority area and the Hillingdon PCT area*

| | | | | | | | | | | *headcount* |
|---|---|---|---|---|---|---|---|---|---|---|
| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006*[1] |
| England | 3,286 | 3,325 | 3,368 | 3,473 | 3,561 | 3,638 | 3,807 | 3,941 | 3,913 | 3,755 |
| *of which:* | | | | | | | | | | |
| London Strategic Health Authority area | 489 | 511 | 500 | 533 | 531 | 476 | 502 | 518 | 528 | 488 |
| *of which:* | | | | | | | | | | |
| Hillingdon Primary Care Trust area | n/a | n/a | n/a | n/a | n/a | 13 | 14 | 14 | 15 | 13 |

n/a = not available. Prior to 2002 chiropody/podiatry services for the Hillingdon PCT area were provided by Harrow and Hillingdon Healthcare NHS Trust. In 2002 the trust was split into the Harrow and Hillingdon PCTs, and it is impossible to retrospectively split the census data between these two organisations.

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total workforce figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full time equivalents). This should be taken into consideration when analysing trends over time.

*Source:*

The Information Centre for health and social care Non-Medical Workforce Census.

## Counter Fraud and Security Management Services Division

**Mr. Todd:** To ask the Secretary of State for Health how much the Counter Fraud and Security Management Services Division recovered in fraud detected or prevented in *(a)* 2005-06 and *(b)* 2006-07; and what proportion these figures represented of the division's costs in each year. [171661]

**Ann Keen:** The information is in the following table.

| | | *£* |
|---|---|---|
| | *2005-06* | *2006-07* |
| Counter fraud costs[1] | 13,262,120 | 13,184,000 |
| Detection savings[2] | 7,265,711 | 11,821,347 |
| Prevention savings | 1,920,000 | [3]— |
| Cash recoveries | 1,448,619 | 2,035,814 |
| | [4]27,750,000 | |

[1] 'Counter fraud costs' consist of the NHS Counter Fraud Service budget plus the Department's funding of civil proceedings.

[2] 'Detection savings' equal losses that would otherwise have been sustained had fraud not been detected, calculated using the average duration of frauds of the same type.

[3] 'Prevention savings' figures are produced through periodic measurement exercises.

Exercises due to be carried out in 2008-09 will measure reduced losses in the period 2006-07 to 2007-08.

[4] 'Cash recoveries' include recoveries through settlement of ongoing civil proceedings (brought by the Department) against certain generic drugs companies.

## Dental Services: Armed Forces

**Mike Penning:** To ask the Secretary of State for Health what the role of his Department is in conjunction with the Ministry of Defence in recruiting military dentists; and if he will make a statement. [170598]

**Ann Keen:** It is the responsibility of the single services to recruit military dentists to fill established posts in the Royal Navy, Army and Royal Air Force. However, the Ministry of Defence and UK Departments of Health Partnership Board considers work force issues generally.

## Dental Services: Greater London

**Mr. Randall:** To ask the Secretary of State for Health how many NHS dentists in *(a)* Uxbridge constituency, *(b)* Hillingdon Primary Care Trust and *(c)* Greater London (i) admitted new adult patients to their list and (ii) treated NHS patients between the ages of 18 to 65 years in each of the last five years. [171093]

**Ann Keen:** Information on national health service dentists who admitted new patients to their list is not collected centrally.

Under the old contractual arrangements which were in place until 2006 patients had to register with an individual dentist.

The numbers of patients registered with an NHS dentist at primary care trust and strategic health authority area are available in Annex A of the "NHS Dental Activity and Workforce Report, England: 31 March 2006". Information at parliamentary constituency level is available in Annex C. Data are available annually as at 31 March 1997 to 2006 and are broken down by children (aged 17 and under) and adults (aged 18 and over).

This report has been placed in the Library and is available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

## Departmental Board

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, if he will place in the Library a copy of the evaluation report from the Winter Willow scenario exercise referred to in paragraph 4.1 of the minutes of the meeting held in July 2007. [172443]

**Dawn Primarolo:** The report 'Exercise Winter Willow—Lessons Identified' was published on 30 August and a copy has been placed in the Library.

### Departmental Manpower

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health which teams across Whitehall worked on the review of social care funding announced by the hon. Member for Birmingham, Hodge Hill (Mr. Byrne) on 30 March 2006; how many people worked in each of those teams; and how many officials worked on the review. [172929]

**Mr. Ivan Lewis:** The Department has not quantified the work of the Comprehensive Spending Review Social Care Working Group. The allocation of personnel and staff hours varied according to the task at hand.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health when the review of social care funding group announced by the hon. Member for Birmingham, Hodge Hill (Mr. Byrne) on 30 March 2006 met; and whether the personnel of that group remained as announced by the hon. Gentleman. [172930]

**Mr. Ivan Lewis:** The Department Comprehensive Spending Review Social Care Working Group, met four times in total during June, July, October and November 2006. Group membership remained largely as announced by the then Parliamentary Under-Secretary of State my hon. Friend the Member for Birmingham, Hodge Hill (Mr. Byrne) on 30 March, although some Departments chose to be more closely involved in discussions than others. Following ministerial changes in May 2006, I became chair of the group.

### Depressive Illnesses: Incapacity Benefit

**Dr. Kumar:** To ask the Secretary of State for Health (1) what steps his Department is taking with health professionals to reduce the numbers of people on incapacity benefit for conditions such as anxiety and depression; [171851]

(2) what assessment he has made of the effectiveness of co-operation between GPs and employers in assisting people with long-term mental health conditions. [171852]

**Mr. Ivan Lewis:** The Department is actively ensuring that all healthcare professionals fully understand the links between health and work, including issues surrounding mental health, and the role that they can play in helping their patients to stay in or quickly return to work. As such we are developing a range of programmes to educate and training healthcare professionals, including:

piloting a national education programme for general practitioners (GPs), which is currently being evaluated, to communicate key messages on links between work and health with a view to influencing GP practice in relation to advising patients about work;

commissioning a training module for GPs on handling difficult fitness for work discussions with patients;

developing a leaflet for GPs outlining the key messages from the evidence review as relevant to their practice;

developing key messages for medical students to be included in their training, with a website based package of resources for use by medical schools;

commissioning the Academy of Medical Royal Colleges to find ways to incorporate key health and work content into postgraduate training of doctors; and

developing an online learning module for nurses on health and work issues which is almost complete and will be launched in early November.

### Dermatology

**Mrs. Gillan:** To ask the Secretary of State for Health (1) what account is taken of dermatological services provision in allocating NHS funding to strategic health authorities; and what assessment he has made of geographical variations in funding for dermatology services; [166502]

(2) what assessment he has made of variations in the provision of skin care services by region. [166505]

**Ann Keen:** Revenue allocations are made directly to primary care trusts (PCTs) and not to strategic health authorities (SHAs). Funding is allocated to PCTs on the basis of the relative needs of their populations. A weighted capitation formula is used to determine each PCTs share of available resources, to enable them to commission similar levels of health services for populations in similar need.

It is for PCTs to assess the need for services locally, including dermatological services, and to commission services accordingly. By December 2008, patients on consultant-led pathways can expect a maximum wait of 18 weeks from general practitioner (GP) referral to the start of consultant-led treatment. This will include consultant-led dermatological services.

The following table shows spending on skin problems in pounds per 100,000 weighted population.

*Programme 14—skin problems*

| | *Unified weighted population* | *£ per 100,000 weighted population* |
|---|---|---|
| North East SHA | 2,838,474 | 2,882,323 |
| North West SHA | 7,515,353 | 2,850,112 |
| Yorkshire and the Humber SHA | 5,123,256 | 3,080,686 |
| East Midlands SHA | 4,079,218 | 2,732,852 |
| West Midlands SHA | 5,440,919 | 2,806,622 |
| East of England SHA | 5,156,896 | 2,989,763 |
| London SHA | 7,994,491 | 2,605,832 |
| South East Coast SHA | 3,981,155 | 2,891,875 |
| South Central SHA | 3,506,664 | 3,087,978 |
| South West SHA | 4,839,805 | 2,581,075 |

*Source:*
www.dh.gov.uk/Programmebudgeting

### Diseases: Children

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what change there has been in the incidence of *(a)* diphtheria, *(b)* tetanus, *(c)* pertussis, *(d)* haemophilus influenzae type b, *(e)* polio, *(f)* meningitis C, *(g)* measles, *(h)* mumps, *(i)* rubella and *(j)* acellular pertussis amongst children in London in the last two years. [171823]

**Dawn Primarolo:** The number of cases of confirmed diphtheria, tetanus, haemophilus influenzae type b (Hib), poliomyelitis, meningococcal serogroup C (MenC), measles, mumps, rubella and clinically diagnosed pertussis in London children for the last two years for which data is available are shown in the following table.

| *Disease* | *2005* | *2006* |
|---|---|---|
| Diphtheria[1] | 0 | 0 |
| Tetanus[1] | 0 | 0 |
| Pertussis[2] | 36 | 53 |
| Haemophilus influenzae type b (Hib)[1] | 4 | 6 |
| Poliomyelitis | 0 | 0 |
| Meningococcal serogroup C (MenC)[1] | 0 | 1 |
| Measles[1] | 30 | 194 |
| Mumps[1] | 217 | 55 |
| Rubella[1] | 1 | 1 |

[1] Confirmed cases in children aged 0-14 years.
[2] Notified cases in children aged 0-14 years.
*Source:*
Health Protection Agency

### Doctors: Disciplinary Proceedings

**Mike Penning:** To ask the Secretary of State for Health what average length of time an NHS doctor spent on *(a)* full and *(b)* part pay during a period of suspension in the last period for which figures are available. [170618]

**Ann Keen:** The number of doctors employed in the NHS in England who were suspended (now referred to as excluded), for the period of April 2006 to March 2007 was:

77 new exclusions, of which

62 are now concluded, and

15 are still ongoing.

Information on the pay status of doctors who are excluded from work is not held centrally; however the exclusion procedure, set out in detail in Part II of the 'Maintaining High Professional Standards' national framework introduced in 2005, is usually on full pay (paragraph 25). Under certain exceptional circumstances a doctor may be excluded without pay; however, no doctor would be excluded on part pay.

The average length of exclusion of the 62 concluded cases mentioned above was 15 weeks.

**Mike Penning:** To ask the Secretary of State for Health how many NHS doctors are suspended, broken down by reason for suspension. [170619]

**Mr. Bradshaw:** The following information is taken from the National Clinical Assessment Service Register of Exclusions and Suspensions as at 7 December 2007 and relate to all medical practitioners in the national health service and foundation trusts for England, who are currently excluded or suspended (for any duration).

There are 120 suspensions as at 7 December 2007. Around three-quarters of these suspensions fall under the category of conduct/suitability, the other quarter (approximately) of suspensions fall under the category of either capability/efficiency, health or critical incident.

### Drugs: Death

**Mike Penning:** To ask the Secretary of State for Health how many people died from drug overdoses while on hard drug substitutes in the last 12 months for which figures are available. [170669]

**Dawn Primarolo:** The information requested is not collected centrally.

### Egton Medical Information Systems: Prescriptions

**Sandra Gidley:** To ask the Secretary of State for Health (1) what assessment has been made of the ethical propriety of Egton Medical Information Systems having a facility to direct prescriptions to Pharmacy2U; and if he will make a statement; [170318]

(2) what controls there are on general practitioners and other primary care staff directing prescriptions to particular pharmacies. [170320]

**Dawn Primarolo:** Matters of ethical propriety are primarily for the relevant professional bodies. I expect all health professionals to maintain the highest standards in delivering national health service services. The General Medical Council's "Good Medical Practice" and "Good Practice in Prescribing Medicines" make it clear that patients should be free to choose from which pharmacy to have their prescribed medicines dispensed.

In addition, the regulations supporting the nomination of a dispenser by patients as part of the Electronic Prescription Service provide safeguards to stop primary care contractors from seeking to persuade patients to nominate a particular dispenser.

### Elderly: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) when he intends the *(a)* health and *(b)* social care regulators to begin looking for evidence of nutritional screening in their assessments of local services as stated on page 28 of his Department's document, Improving Nutritional Care; what they will use as evidence of nutritional screening; whether they intend to publicly identify those organisations that do not have evidence of nutritional screening; whether any other penalties will be available to the regulators to impose on those local services which do not have evidence of nutritional screening; and if he will make a statement; [170060]

(2) if he will provide the evidential basis for the statement that nutritional screening is beginning to be implemented in hospitals and care homes, as stated on page 22 of his Department's document, Improving Nutritional Care. [170062]

**Mr. Ivan Lewis:** The Healthcare Commission (HCC) have advised that it currently collects data on nutritional screening in national health service organisations as part of the annual health check process, with all the powers to penalise they are entitled to. Nutritional screening is measured against the core standards relevant to Dignity in Care—these include core standards C15a and 15b on nutrition. The HCC will also advise strategic health authorities to carry on working with trusts at a local level to facilitate improvement in services for older people.

The Commission for Social Care Inspection (CSCI) will use its annual quality assurance assessment to ask all providers to confirm that they carry out nutritional screening for people at risk of malnutrition. Where evidence raises concern about nutrition and malnutrition, it will ensure that this is fully explored during the next inspection of the service. CSCI could also make statutory requirements if it felt the wellbeing of people who use services are at risk.

### Food: Advertising

**Dr. Kumar:** To ask the Secretary of State for Health what assessment he has made of the regulation of advertising of unhealthy food to children; and if he will make a statement. [171767]

**Dawn Primarolo:** The current rules on advertising and promotion of food and drink high in fat, salt and sugar to children are being held under review by Government. The company Thomson Intermedia have been contracted by the Department to collect and analyse data on food and drink advertising across a range of broadcast and non-broadcast media. This data and analysis will be used by the Department to produce a report on changes to the advertising landscape since 2003, as part of their ongoing monitoring of food promotion to children.

### General Practitioners: Wakefield

**Mary Creagh:** To ask the Secretary of State for Health how many GPs were practising in Wakefield constituency in *(a)* 1997 and *(b)* the latest year for which figures are available; and how many GP premises have been opened in Wakefield constituency since 1997. [173593]

**Ann Keen:** The information is not available in the format requested. However, information relating to the Wakefield, Kirklees and Calderdale primary care trusts (PCTs) has been set out in the following table. The Calderdale PCT is included in the 2006 data for comparability purposes as Calderdale and Kirklees were one health authority together in 1997.

*General medical practitioners (excluding retainers and registrars) by selected areas, as at 1997 and 2006*

| | | Number (headcount) | |
|---|---|---|---|
| | | *1997* | *2006* |
| 5J6 | Calderdale PCT | n/a | 112 |
| 5N2 | Kirklees PCT | n/a | 250 |
| 5N3 | Wakefield District PCT | n/a | 234 |
| QDT | Calderdale and Kirklees HA | 304 | n/a |
| QDQ | Wakefield Health Care | 183 | n/a |

n/a = data not available

*Notes:*

1. Data presented for organisations in existence in the specified years.
2. Data as at 1 October 1997 and 30 September 2006.
3. Calderdale PCT is included for comparability purposes with the former Calderdale and Kirklees Health Authority

*Source:*

The Information Centre for health and social care General and Personal Medical Services Statistics

Information relating to general practitioner premises which have opened in the Wakefield PCT area is not held centrally. This can instead be obtained direct from the PCT concerned.

### HIV Infection: EC Countries

**Mr. Evans:** To ask the Secretary of State for Health what recent discussions he has had with his European counterparts on plans to increase the awareness of young people of the risk of catching HIV. [169516]

**Dawn Primarolo:** The Secretary of State has not had any recent discussions with his European counterparts about HIV and young people. European health department officials, including the Department of Health, have considered the need for action to increase awareness of HIV in young people and other vulnerable groups through meetings of the European Commission's AIDS Think Tank. The last meeting was 15-16 November 2007.

### Hospital Wards

**Mr. Lansley:** To ask the Secretary of State for Health how many Nightingale wards were converted to modern accommodation in hospitals in England in each financial year since 1997-98 for which figures are available; and how many Nightingale wards there were in total in each financial year over the same period. [162239]

**Ann Keen:** Data are not collected centrally in the format requested.

Information on the number of Nightingale wards is collected annually.

In 2001, a one-off national health service estates survey found 1,115 Nightingale wards in use. Since then, data has been collected using the estates-related information collection, which reports the following numbers. Data submission is no longer mandatory and therefore information beyond 2005-06 has not been included. Data were not collected prior to 2001.

*Total Nightingale wards in use*

| | *Number* |
|---|---|
| 2002-03 | 694 |
| 2003-04 | 495 |
| 2004-05 | 377 |
| 2005-06 | 165 |

The data were collected from the NHS and then validated by NHS Estates.

### Hospitals: Cleaning Services

**Mr. Lansley:** To ask the Secretary of State for Health how much his Department plans to spend in each year between 2007-08 and 2010-11 on deep cleaning hospitals. [165720]

**Ann Keen:** For information on funding in 2007-08, I refer the hon. Gentleman to the written ministerial statement of 21 November 2007, *Official Report*, column 135WS, which sets out that, across the NHS, £57 million will be spent on deep cleans.

Funding for cleaning will continue to be included in future primary care trust (PCT) allocations. It is for PCTs and trusts to agree the most appropriate ongoing cleaning programme for their local circumstances, including deep cleaning.

**Mr. Lansley:** To ask the Secretary of State for Health by what date strategic health authorities will report to his Department on progress on hospital deep cleaning programmes in their areas. [167741]

**Ann Keen:** We will be able to confirm in the spring that deep cleans have been completed.

**Mr. Lansley:** To ask the Secretary of State for Health what steps he has taken to give matrons and ward sisters the powers *(a)* to report cleaning contractors and safety concerns directly to hospital boards, *(b)* to order additional cleaning and *(c)* to send out a message that contractors must meet the highest standards of cleanliness or lose their contract. [167805]

**Ann Keen:** The chief nursing officer and the director general of national health service finance, performance and operations wrote to all chief executives of strategic health authorities, NHS trusts and foundation trusts on 1 November 2007 setting out the requirements for local systems to ensure regular reporting to trust boards and for an escalation system to allow nursing staff to raise their concerns.

A new quarterly reporting requirement will be introduced by amending the existing provisions of the code of practice for the prevention and control of health care associated infections, to ensure that concerns relating to cleanliness are reported to the board.

The chief nursing officer and director general of NHS finance, performance and operations' letter of 1 November 2007 also set out clearly the expectations around enhancing the nursing role in cleaning. This included ensuring nurses have the ability to request additional cleaning. Trusts can already give matrons the authority to withhold payments from cleaning service providers and, ultimately, to recommend termination of the contract. Trusts should already be taking steps to instigate any changes to ensure these expectations become reality, including where necessary agreeing changes to contracts.

**Mr. Lansley:** To ask the Secretary of State for Health what additional funds he has provided to hospital matrons to order additional cleaning. [167806]

**Ann Keen:** Funding for cleaning is already included in primary care trust allocations. In addition, £50 million has been made available for strategic health authority (SHA) directors of nursing to spend on tackling healthcare associated infections in 2007-08 as well as £57 million which has been made available through SHAs for deep cleans in 2007-08. £50 million was also made available through the capital challenge fund to tackle infections in 2006-07.

The comprehensive spending review funding settlement includes £270 million per year by 2010-11 to tackle healthcare associated infections.

**Mr. Lansley:** To ask the Secretary of State for Health (1) what guidance his Department gave to strategic health authorities to help them decide how much they should allocate for deep cleaning in 2007-08; [170184]

(2) from which part of strategic health authority budgets the money for deep cleaning announced on 21 November 2007 has been taken; [170185]

(3) by what date strategic health authorities will be expected to report progress across their regions on deep cleaning to his Department; [170187]

(4) by what date trusts will have to submit detailed deep cleaning plans, including costs, to their primary care trusts and strategic health authorities. [170188]

**Ann Keen:** I refer the hon. Member to the written ministerial statement by the Secretary of State for Health on 21 November 2007, *Official Report*, columns 134-35WS. In addition, copies of letters of 1 and 29 November 2007 from the Department to strategic health authorities giving further details on plans for deep cleaning have been placed in the Library.

**Mr. Lansley:** To ask the Secretary of State for Health how many full-time equivalent staff in each payband in his Department are working on the deep clean of the NHS. [162859]

**Ann Keen:** Within the Department, different teams within the Chief Nursing Officer's Directorate and the NHS Finance, Performance and Operations Directorate are involved in different aspects of the deep clean programme, for instance in policy development or performance management. As it is a front line delivery issue, the programme will be delivered by trusts and monitored by primary care trusts and strategic health authorities (SHAs). SHAs will ensure that all trusts have plans in place to deliver deep cleans before 31 March 2008.

### Hospitals: Food

**Mr. Vara:** To ask the Secretary of State for Health what the average cost of food was per day per patient in an NHS hospital in 2006-07. [172031]

**Ann Keen:** Information is not collected in the precise format requested. However, in 2006-07 the average amount spent per patient meal was £2.83. This amount includes the cost of provisions and staff costs. Patients are expected to receive three main meals a day and the average total daily cost of providing food for hospital patients can therefore be estimated to be £8.49.

### Hospitals: Infectious Diseases

**Mr. Lansley:** To ask the Secretary of State for Health how much his Department plans to spend in each year between 2007-08 and 2010-11 on *(a)* MRSA and *(b)* clostridium difficile screening for (i) elective patients and (ii) emergency admissions. [165717]

**Ann Keen:** Funding to support implementation of screening of all patients for meticillin resistant Staphylococcus aureus will be reflected in future primary care trust allocations. Our central assessment of the cost of screening all admitted patients for

MRSA is £124 million per annum, but it is for local organisations to determine how to implement improvements to patient care, so actual spend will be based on local implementation decisions.

Prompt testing of patients who develop diarrhoea is crucial but we have not made any commitments to introduce screening for clostridium difficile because there is no evidence that it is clinically effective.

**Ms Abbott:** To ask the Secretary of State for Health what change there has been in the level of hospital-acquired infections since the introduction of subcontracting in hospital cleaning; and if he will make a statement. [165831]

**Ann Keen:** Mandatory surveillance of health care associated infections was not introduced until 2001 but prevalence surveys of health care associated infections were undertaken in 1980, 1993 and 2006. There has been little change in the prevalence of hospital acquired infections overall over the last twenty years.

The Conservative Government introduced compulsory competitive tendering in 1983, requiring the national health service to market test domestic cleaning, catering, and linen and laundry services on a regular basis. This Government lifted that requirement in 2000 and trusts must now benchmark their services before deciding whether to market test.

Current guidance on contracting for cleaning makes it clear that quality must be considered alongside cost when deciding how to provide cleaning services. Recent information suggests that there is currently no difference between in-house and out-sourced cleaning in terms of standards and outcomes.

**Mr. Lansley:** To ask the Secretary of State for Health which NHS trusts *(a)* were and *(b)* were not auditing compliance with policies on invasive procedures, as stated in his Department's chief nursing officer's Dear Colleague letter of 8 November 2007, on the national confidential study of deaths following MRSA infection. [166439]

**Ann Keen:** We are unable to name participating trusts as this was a confidential study and trusts co-operated on the understanding that they were doing so in confidence.

**Mr. Lansley:** To ask the Secretary of State for Health if he will provide a breakdown of the £140 million his Department was allocated in the comprehensive spending review to reduce clostridium difficile infections by *(a)* financial year and *(b)* anti-infection measure on which this money will be spent. [170182]

**Ann Keen:** This funding will be included within primary care trust (PCT) allocations to support PCTs to reduce health care associated infections. PCTs are responsible for delivering improvements to patient care, so actual spend will be based on local decisions. Information on the action we expect from the national health service will be included in the 'Healthcare Associated Infections and Cleanliness Strategy' which we will be publishing in early 2008.

**Mr. Lansley:** To ask the Secretary of State for Health if he will provide a breakdown of the £130 million his Department was allocated in the comprehensive spending review for the introduction of MRSA screening for all patients, increased powers for matrons and tougher regulation on infection control by *(a)* financial year and *(b)* anti-infection measure on which this money will be spent. [170183]

**Ann Keen:** The £130 million announced in the comprehensive spending review 2007 was for the introduction of Meticillin resistant Staphylococcus aureus screening for all patients. Primary care trusts are responsible for delivering improvements to patient care, so actual spend will be based on local decisions. Further details on implementation of this commitment will be included in the 'Healthcare Associated Infections and Cleanliness Strategy' which we will be publishing in early 2008.

**Mr. Lansley:** To ask the Secretary of State for Health for what reason his Department has *(a)* made a commitment to screen patients for MRSA on admission to hospital, and *(b)* not made a commitment to screen patients for health care associated infections other than MRSA. [170186]

**Ann Keen:** This commitment is based on evidence that screening admitted patients for meticillin resistant Staphylococcus aureus can reduce infection rates. Equivalent data are not available for other infections. In relation to clostridium difficile infection specifically, expert advice is that screening of asymptomatic patients is unnecessary.

## Stem Cell Research

**Mr. Amess:** To ask the Secretary of State for Health which *(a)* diseases and *(b)* conditions were treated using materials created by research on (i) embryonic stem cells and (ii) adult stem cells in each year since 1997. [169604]

**Dawn Primarolo:** Stem cell research offers exciting opportunities to develop new therapies for a broad range of debilitating conditions, some of which are currently incurable (e.g. neurodegenerative disease). However, at this time, the only clinical use of stem cells remains bone marrow transplants for cancer therapy, though a number of other adult stem cell therapies have entered early phase clinical trials.

The MRC spent £17.4 million on stem cell research in 2005-06, split 55 per cent. and 45 per cent. between embryonic and adult stem cell research. Much of this is directed at improving the understanding of stem cell biology to ensure effective and safe therapies can be delivered. In terms of clinical therapy, the MRC is funding work in Cardiff to look at transplanting foetal stem cells (and in the longer term human embryonic stem cells) for the neurodegenerative diseases Huntington's and Parkinson's (approximately £2 million), while two experimental medicine awards were funded in 2006 to move towards human trials in stroke and multiple sclerosis (both using autologous adult stem cells).

The MRC also currently supports a number of clinical trials on the treatment of leukaemias and other blood cancers involving the transplant of adult (bone marrow) stem cells.

### Human Papilloma Virus: Vaccination

**Mr. Lansley:** To ask the Secretary of State for Health how much he expects his Department's programme to roll out a human papilloma virus vaccine to all girls to cost in each year to 2010-11. [172464]

**Dawn Primarolo:** The routine programme could cost up to £100 million a year and the catch-up programme could cost up to £200 million in 2009-10 and 2010-11. Exact figures will not be known until the procurement process for human papilloma virus vaccine has been completed.

### Infant Mortality

**Adam Afriyie:** To ask the Secretary of State for Health what assessment he has made of the contribution which will be made by medical research to achieving the Government's public service agreement 2010 target to reduce infant mortality. [171937]

**Dawn Primarolo:** Strengthening the research and evidence base to help meet the 2010 health inequalities and infant mortality target was a recommendation of the "Review of the Health Inequalities Infant Mortality PSA Target" published in February. As part of this developing work, the Department has commissioned a programme of systematic reviews of the research evidence to identify and promote the key interventions most likely to contribute to meeting the 2010 target.

### Influenza

**Dr. Murrison:** To ask the Secretary of State for Health if he will place in the Library copies of all representations received in response to his Department's national framework for responding to an influenza pandemic; and if he will make a statement. [172777]

**Dawn Primarolo:** The draft version of "Pandemic flu: A national framework for responding to an influenza pandemic" was issued for public discussion and comments were reflected in the final version issued in November. We are not planning to place the representations in the Library.

**Dr. Murrison:** To ask the Secretary of State for Health (1) what information is being made available on the use of *(a)* anti-viral drugs, *(b)* facemasks and *(c)* stocking of home supplies in consequence of Exercise Winter Willow; and if he will make a statement; [164836]

(2) if he will make a statement on progress in the development of a strategy for the operational aspects of anti-viral allocation as a consequence of any future influenza pandemic; [164845]

(3) what steps are being taken to consider the prioritisation of *(a)* anti-viral drugs, *(b)* vaccines and *(c)* antibiotics in the event of a shortage of supply caused by any future influenza pandemic; and if he will make a statement; [164846]

(4) what assessment he has made of the *(a)* costs and *(b)* benefits of a national stockpile of (i) masks and (ii) antibiotics for health professionals in preparation for any future influenza pandemic; and if he will make a statement; [164847]

(5) what steps are being taken to ensure that the continuity of supply of *(a)* anti-viral stocks, *(b)* masks and *(c)* antibiotics in the event of any future influenza pandemic; and if he will make a statement; [164884]

(6) what assessment he has made of the impact of increased demand for countermeasures against an influenza pandemic on the supply of *(a)* masks and *(b)* antibiotics; what steps he is taking to ensure that supply meets demand in the event of an outbreak; and if he will make a statement. [164974]

**Dawn Primarolo:** Vaccines, antivirals, antibiotics and facemasks are a key part of the Government response to pandemic influenza. The Government approach to the stockpiling and distribution of these countermeasures is covered in the national framework for responding to an influenza pandemic, published on 22 November 2007. The lessons learned from Exercise Winter Willow have been published on the Cabinet Office website.

Stockpiling of clinical countermeasures is essential to ensure the continuity of supply and that demand can be met. For example, there is already a stockpile of antivirals sufficient to treat the United Kingdom's population up to a clinical attack rate of 25 per cent. The Government are planning to double the stock of antivirals, to cover at least half the population. We will continue to keep the level of stock under review in light of the scientific evidence, as we develop our business case. The Government also has a stockpile of 3.3 million doses of H5N1 pre-pandemic vaccine for health care workers. The science underpinning the further development and potential use of pre-pandemic vaccine is cutting-edge and has just been reviewed by UK and international experts. We are actively considering their findings and the implications for our policy to inform future decisions.

The antivirals stockpile should be adequate to treat all those who fall ill in a pandemic of similar proportions to previous ones in the 20th century but we recognise that some prioritisation will be necessary if the attack or consumption rates are higher than anticipated. Antiviral prioritisation has been considered with the Committee on Ethical Aspects of Pandemic Influenza, but final decisions can only be made when the pandemic emerges.

To be effective, antiviral medicines need to be taken within 48 hours of the onset of symptom. A National Flu Line Service is being developed to enable timely distribution. On contacting the National Flu Line Service, a clinical algorithm will be used to assess a caller's symptoms and determine whether or not they are eligible for antiviral treatment and/or need further care or treatment by a clinician. We are making use of and building upon normal delivery systems by asking NHS Direct, who already provide contact-centre based assessment and triage to callers, to lead on the development of the National Flu Line Service. We are engaging with other stakeholders on its development, including the NHS, independent contractors, and other existing contact centre services. Consultation on legal changes necessary to facilitate this system went out alongside the national framework. The national framework and its supporting guidance, will help trusts create effective local systems for coordinating the operational aspects of antiviral allocation with local partners prior to a pandemic occurring.

The Government are already making progress with work on the business case for facemasks to be made available to healthcare and social care workers during a pandemic and plan to purchase 34 million disposable respirators and 350 million surgical face masks for the use of health and social care workers in the event of a pandemic. The national framework, advises other employers to seek information on their obligations under health and safety legislation and to carry out local risk assessments to determine whether employees should be provided with facemasks. Stockpiling facemasks for use by the general public is not currently planned. Although the available medical evidence does not support the use of facemasks in all settings, we recognise that the public may want to have access to facemasks for their personal use. The Government will explore the approach that retailers are planning to adopt when stocking facemasks for sale to the public.

Exercise Winter Willow identified that there may be problems with managing the surge in demand for antibiotics. The range of antibiotics needed to treat bacterial complications arising from pandemic influenza has been identified and published in the form of Clinical Management Guidelines. Building on this, the Government plan to procure 14.7 million treatment courses of antibiotics to treat and prevent the complications arising from pandemic flu. That stockpile will enable us to give antibiotics to vulnerable symptomatic flu patients, such as those with chronic conditions and the elderly, in advance of the development of secondary complications, and to treat others in the community if they develop complications. The antibiotics will also be used in hospitals to treat the sickest patients and may reduce the length of hospitalisation. The procurement of both antivirals and antibiotics will be subject to emerging scientific evidence and to normal commercial procurement procedures to ensure that we purchase those products at the best price, and achieve value for money for the taxpayer.

This summer, Advance Purchase Agreements for pandemic specific vaccine were signed with GlaxoSmithKline and Baxter. These guarantee a supply of vaccine for the UK population as soon as the vaccine becomes available after the onset of the pandemic; decisions about vaccination strategies will only be made once the clinical impact of the disease becomes known. All decisions on prioritisation will take scientific and ethical issues fully into account.

Public consultation and information is at the heart of the Government's planning. The Government will be testing the public's reactions to many issues in pandemic planning and decision-making and gauge the level of information on specific issues, including the use of clinical countermeasures. Work continues on the design of a public engagement programme to facilitate this process, with the active participation of the public.

**Dr. Murrison:** To ask the Secretary of State for Health (1) what steps are being taken to *(a)* strengthen and *(b)* codify links with international bodies in consequence of Exercise Winter Willow; and if he will make a statement; [164837]

(2) what discussions he has had with the Irish Government in consequence of the Exercise Winter Willow programme in the preparations for a potential influenza pandemic; and if he will make a statement. [164838]

**Dawn Primarolo:** We have taken steps to codify and strengthen our links at international level by engaging with the World Health Organisation (WHO) and European Centre for Disease Prevention and Control (ECDC) at official level via regular international conferences, meetings, and ongoing exchanges of information about pandemic planning.

The United Kingdom is also represented at official level at conferences organised by the European Union, the WHO and ECDC and has been at the forefront of pushing for greater international collaboration and engagement in planning for and responding to a possible influenza outbreak as a result of the lessons learned during Exercise Winter Willow.

Since Exercise Winter Willow took place, officials from the Northern Ireland Department of Health, Social Services and Public Safety have met on two occasions with their counterparts in the Republic of Ireland to ensure consistent and robust pandemic influenza contingency planning.

**Dr. Murrison:** To ask the Secretary of State for Health what progress has been made in considering the development of a streamlined death certification process in the event of any future influenza pandemic as identified in Exercise Winter Willow; and if he will make a statement. [164843]

**Dawn Primarolo:** The Committee on Ethical Aspects of Pandemic Influenza considered this issue following Exercise Winter Willow. We have produced draft guidance on how death and cremation certification can be streamlined and should be handled in the event of an influenza pandemic.

This was sent out for public discussion alongside the revised national framework for responding to an influenza pandemic on 22 November.

**Dr. Murrison:** To ask the Secretary of State for Health if he will make a statement on the role of the Scientific Advisory Group in the event of any future influenza pandemic. [164883]

**Dawn Primarolo:** The role of the Scientific Advisory Group (SAG) on pandemic influenza both before and during a pandemic will be to advise the United Kingdom's Government on scientific matters relating to the health response to an influenza pandemic and help in keeping the Government informed of any new developments in science and research. It is envisaged that this will mainly happen via temporary sub-groups of the SAG working on specific questions. Members may also be called upon individually to act as advisers and to provide advice on matters arising on which a member's particular expertise may be of assistance.

The SAG is currently in the process of being revised. This involves, among others, extending its membership to include a wider range of expertises.

**Dr. Murrison:** To ask the Secretary of State for Health (1) what assessment he has made of the potential *(a)* use and *(b)* effectiveness of the internet as a mechanism for communicating with the public during any future influenza pandemic; what measures will be used to ensure effective communication with those who do not possess a connection to the internet; and if he will make a statement; [164889]

(2) if he will place a copy of the communication strategy identifying the best channels of communication with the public during any future pandemic influenza outbreak in the Library; and if he will make a statement; [164890]

(2) if he will provide an update on the development of protocols for effective sharing of national communications messages for *(a)* local and *(b)* regional use as a consequence of Exercise Winter Willow; and if he will make a statement; [164891]

(4) what assessment he has made of the improvement in public understanding of pandemic *(a)* risk and *(b)* policy as a consequence of Exercise Winter Willow; and if he will make a statement; [164892]

(5) what progress has been made on the production of a clear and agreed script for use in communications during any future influenza pandemic; and if he will make a statement; [164893]

(6) for what reasons the role of the National News Co-ordination Centre in co-ordinating messages across Departments was not tested as part of Exercise Winter Willow; and if he will make a statement. [164895]

**Dawn Primarolo:** In spring 2007 the Department carried out targeted public engagement research to explore public understanding of specific elements of the "Pandemic Influenza: draft National Framework for responding to an influenza pandemic". The findings from this research have been incorporated into the "Pandemic Flu: A national framework for responding to an influenza pandemic" published on 22 November. A more comprehensive public engagement programme, commencing in early 2008 will provide a detailed assessment of the public's understanding of the Government's assessment of pandemic risks and policies.

Conveying accurate, timely, consistent and credible advice and information to the public (including hard to reach groups), professions and business is a major strand of the Government's pandemic preparedness strategy.

Communication was an important part of Exercise Winter Willow and a wide range of Government Department and agency communicators took part in the exercise.

The News Co-ordination Centre operated as part of the exercise control in the exercise and played an integral role in ensuring that communications was tested at all levels of the exercise and was represented at all of the meetings during the exercise.

The lessons from the winter willow exercise—which have been published on the United Kingdom Resilience website—and the spring 2007 public engagement programme have been used in the development of draft communications scripts should the World Health Organisation (WHO) declare a pandemic. These scripts will be further researched and pre-tested as part of the comprehensive public engagement strategy.

The research findings from the public engagement programme will also be used to refine the Government's pandemic influenza communications preparedness strategy. This strategy will need to be adaptable to reflect specific situations and pandemic scenarios. The draft strategy will be available in spring 2008.

The communications strategy, currently being developed, will provide advice, information and campaign material to the widest possible audience, and will use a diverse and comprehensive range of communications channels including; digital print and broadcasting advertising campaigns, a national door drop leaflet and a national flu information line.

One of the objectives of the planned public engagement programme is to ascertain what communications channels including digital media are required to effectively engage with the public prior to and during a pandemic.

A copy of the communications strategy will be made available to the Library after the public engagement programme has started.

The Department will inform the Cabinet Office, the Health Departments of Devolved Administrations and the Health Protection Agency should the WHO declare a pandemic or update threat assessments. The Cabinet Office will alert other Government Departments and work with the Department to develop, update and circulate top line briefings via the Government News Co-ordination Centre. The Department will also alert health and social care organisations and professions in England through strategic health authorities and via the chief medical officer's established public health mechanism. Similar arrangements are in place within the devolved Administrations.

**Dr. Murrison:** To ask the Secretary of State for Health (1) what definition his Department used of business as usual as part of Exercise Winter Willow; and if he will make a statement; [164894]

(2) when he anticipates publishing guidance on business continuity for health services during any potential influenza pandemic; and if he will make a statement; [164905]

(3) what guidance has been provided to ambulance services as part of the UK framework for responding to an influenza pandemic; what mechanisms exist to deploy ambulances on the basis of urgent medical treatment; and if he will make a statement. [164909]

**Dawn Primarolo:** Information included in the draft national framework for responding to an influenza pandemic, issued in March 2007, was used to inform the planning for Exercise Winter Willow. The draft national framework outlined the United Kingdom's planning presumptions, including those areas where we would intend to maintain business as usual as far as practicable.

Guidance on preparing acute hospitals, guidance for primary care trusts and primary care professionals on the provision of health care in the community setting, and guidance for ambulance services and their staff was issued for public discussion in March this year. The final guidance was published alongside the National framework for responding to an influenza pandemic on 22 November. They all contain contingency advice for planners. Draft guidance on preparing mental health services was also issued for public comment alongside the National framework.

The Department has also published guidance for ambulance services alongside the final version of the National framework for responding to an influenza pandemic.

The Ambulance Service has in place a scripted call handling system that identifies priority cases in order to respond to the needs of patients' clinical requirements.

**Dr. Murrison:** To ask the Secretary of State for Health what progress has been made in reviewing the reporting template for the collection of data as a consequence of Exercise Winter Willow; and if he will make a statement. [164896]

**Dawn Primarolo:** It is assumed that the "reporting template for the collection of data" referred to in the question is the United Kingdom pandemic influenza main health report from the Department to Cabinet Office, a situation report for MICS32/COBRA.

In follow-up to Exercise Winter Willow, a working group representing the main stakeholders has reviewed and adjusted the reporting template. The revised template is currently being assessed to ensure that it addresses the issues raised during Winter Willow.

**Dr. Murrison:** To ask the Secretary of State for Health (1) what assessment he has made of the involvement of the voluntary sector in planning preparations for any future influenza pandemic; and if he will make a statement; [164903]

(2) if he will make a statement on the discussions he has had with national voluntary agencies on issues relating to any future influenza pandemic. [164904]

**Dawn Primarolo:** The voluntary sector is a critical partner and has been engaged in planning preparations at both the national and local level. In May of this year, Department officials met with voluntary sector organisations to discuss key issues, including how best the voluntary sector can help to respond to a pandemic; key roles will include supporting those that would normally use their services, but also those who become more or temporarily vulnerable in the event of a pandemic. These discussions in turn contributed to the updating of the National framework for responding to an influenza pandemic and the supporting guidance documents. Localities are also engaging with the voluntary sector, and are encouraged—through the national framework and supporting guidance—to involve voluntary organisations in planning preparations from an early stage.

**Dr. Murrison:** To ask the Secretary of State for Health what mechanisms exist to ensure effective dissemination of best practice in workforce guidance arrangements during any potential future influenza pandemic; and if he will make a statement. [164906]

**Dawn Primarolo:** NHS Employers is an organisation which has a key role in supporting the national health service on human resources issues and will ensure that examples of best practice are placed on the NHS Employers' website at:

www.nhsemployers.org

The discussion document called 'Pandemic Influenza: Human Resources guidance for the NHS', advises the NHS to work with other local partners including the independent sector providers, local authorities and voluntary agencies. Wider comments and examples of further local best practice are being sought before the guidance is published.

NHS organisations are advised to regularly review contingency plans for future influenza pandemics. Each strategic health authority has a nominated pandemic flu lead to support planning. They meet on a regular basis to share their experience and to discuss common issues.

**Dr. Murrison:** To ask the Secretary of State for Health what the terms of reference are of the National Pandemic Influenza Working Group; on which dates it has met; and what the costs of running the group have been to date. [164835]

**Dawn Primarolo:** Information relating to internal officials meetings is not disclosed.

### Lighting: Health Hazards

**Mr. Brady:** To ask the Secretary of State for Health what assessment he has made of the health implications for people with light sensitivity of banning the sale of incandescent light bulbs. [164341]

**Ann Keen:** No assessment has been made. The Government are aware of the need to consider health implications in the event of incandescent light bulbs being phased out and my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs is working to ensure that there are mechanisms in place to ensure that people have access to appropriate lighting.

### Marie Stopes International Conference

**Mr. Amess:** To ask the Secretary of State for Health if he will place in the Library a copy of the speech made by Andrea Duncan, manager of his Department's Sexual Health and HIV Division at the Marie Stopes International Conference on 24 October 2007; which *(a)* organisations and *(b)* individuals were consulted prior to the speech; who wrote the speech; what input Ministers in his Department had; and if he will make a statement. [172428]

**Dawn Primarolo:** A copy of the speech made by Andrea Duncan, the Sexual Health Programme Manager at the Department of Health, at the Marie Stopes International Conference on 24 October 2007 has been placed in the Library. No organisations or individuals were consulted on the content of the speech. The speech was written by Andrea Duncan.

### Meningitis: Research

**Mr. Drew:** To ask the Secretary of State for Health how much the Government have allocated to research into meningitis since 1997. [170096]

**Dawn Primarolo:** Over the last ten years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations. Details of individual NHS supported research projects including a number concerned with meningitis are available on the national research register at www.nrr.nhs.uk.

The Department's expenditure on relevant national research programme projects during this time has been:

| | £000 |
|---|---|
| 1997-98 | 327 |
| 1998-99 | 926 |
| 1999-2000 | 690 |
| 2000-01 | 232 |
| 2001-02 | 25 |
| 2002-03 | 118 |
| 2003-04 | 411 |
| 2004-05 | 361 |
| 2005-06 | 777 |
| 2006-07 | 255 |

The Health Protection Agency has since 1997 carried out research funded by the Department into vaccines against meningitis B and C (pneumococcocal meningitis and haemophilus influenzae B meningitis). This includes conducting clinical trials on new vaccines for the United Kingdom schedule, the ongoing evaluation of vaccines already in the schedule, and the development of a new meningitis B vaccine. The total cost of this research has been £10.5 million.

The Medical Research Council (MRC) is one of the main agencies through which the Government supports medical and clinical research. The MRC is an independent body which receives its grant-in-aid from the Department for Innovation, Universities and Skills.

Available MRC spend figures for research on meningitis are as follows:

| | £000 |
|---|---|
| 2000-01 | 861 |
| 2001-02 | 458 |
| 2002-03 | 478 |
| 2003-04 | 571 |
| 2004-05 | 393 |
| 2005-06 | 128 |

Earlier comparable figures are not available

### Mental Health Services: Hospital Beds

**Anne Milton:** To ask the Secretary of State for Health how many dedicated beds were available for mental health patients in each year from 1997 to 2006; and if he will make a statement. [173281]

**Mr. Ivan Lewis:** Data about the availability of mental health beds are shown in the following table. The year on year reduction in mental health bed numbers reflects the increasing provision by the national health service in England of treatment for patients with mental health conditions in primary care and community settings, without the need for hospital admissions.

*Average daily number of beds available for acute mental health services in the national health service in England*

| | Number |
|---|---|
| 1996-97 | 37,640 |
| 1997-98 | 36,601 |
| 1998-99 | 35,692 |
| 1999-2000 | 34,173 |
| 2000-01 | 34,214 |
| 2001-02 | 32,783 |
| 2002-03 | 32,753 |
| 2003-04 | 32,252 |
| 2004-05 | 31,286 |
| 2005-06 | 29,802 |
| 2006-07 | 27,914 |

*Source*:
Department of Health form KH03

### Muscular Dystrophy

**Mr. Todd:** To ask the Secretary of State for Health when the initial clinical trial related to the research project into Duchenne muscular dystrophy will be completed; and if he will make a statement on the Government's future support for the project. [172809]

**Dawn Primarolo:** We understand that the trial 'Restoring Dystrophin Expression in Duchenne Muscular Dystrophy: a UK Consortium for Preclinical Optimisation and a Phase 1 Clinical Trial Using Antisense Oligonucleotides' is likely to have been completed by the end of 2008.

The Government are funding the trial to that end point at a total cost of £2.2 million. The prospects for further investment of public funds will depend on the outcome of the trial and on the strength and suitability of any bid for such funds that might be made.

### National Institute for Health and Clinical Excellence: Cost Effectiveness

**Dr. Desmond Turner:** To ask the Secretary of State for Health (1) on how many occasions his Department has requested that the National Institute for Health and Clinical Excellence review its economic model for determining cost-effectiveness in technology appraisals; [172397]

(2) what guidance his Department has issued to the National Institute for Health and Clinical Excellence on the remit of its review of economic models for determining cost-effectiveness in technology appraisals; [173121]

(3) whether the National Institute for Health and Clinical Excellence proposes to review its economic model for determining cost-effectiveness in technology appraisals. [173122]

**Dawn Primarolo:** The National Institute for Health and Clinical Excellence's (NICE) methods in appraising health technologies are a matter for the Institute.

NICE'S guidance development processes are subject to periodic review, which includes public consultation. NICE is currently carrying out a scheduled review of its technology appraisal methods guide and has published a draft methods guide that has been developed following a series of workshops with stakeholders. The draft methods guide is now subject to a three-month public consultation closing on 29 February 2008.

These consultations are part of NICE'S routine process for ensuring that there is transparency in the way it conducts its work, and that stakeholders have a chance to feed in their views.

## NHS: Reorganisation

**Tim Loughton:** To ask the Secretary of State for Health (1) what research has been *(a)* undertaken and *(b)* commissioned by his Department since May 2005 on the reconfiguration of NHS services; and if he will place copies of this research in the Library; [162836]

(2) what plans he has to undertake further research on the impact of NHS reorganisation on *(a)* access to healthcare for vulnerable populations and *(b)* local economies. [164561]

**Ann Keen:** Proposals for the reconfiguration of services are a matter for the national health service locally. The Department has not undertaken or commissioned any research on the reconfiguration of services and currently has no plans to undertake further research on the impact of NHS reorganisation.

## NHS: Finance

**Dr. Richard Taylor:** To ask the Secretary of State for Health what plans he has to introduce further NHS Better Care Better Value indicators; which topics are being considered; and if he will make a statement. [165830]

**Mr. Bradshaw:** It is likely that the number of Better Care Better Value Indicators published by the NHS Institute will have increased to about 20 by the spring of 2008. A number of options for new indicators are being considered following consultation earlier this year and these are subject to an ongoing process of testing and development.

**Mr. Grogan:** To ask the Secretary of State for Health with reference to the answer of 24 October 2007, *Official Report*, column 388W, on NHS: finance, what assessment he has made of the reasons for the increase in the number of part IX prescriptions dispensed since April 2006. [167655]

**Dawn Primarolo:** No specific assessment has been made as to the reasons for the increase in the number of part IX prescriptions dispensed since April 2006. However, between June 2006 and June 2007 the volume of part IX prescriptions increased by 4.1 per cent. compared with a general prescription growth of 4.6 per cent. for the same period.

## NHS: Foreign Nationals

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how many *(a)* foreign and *(b)* French nationals used the NHS in each of the last 10 years. [172902]

**Dawn Primarolo:** Successive Governments have not required the national health service to submit statistics on the number of foreign nationals treated each year. Therefore, it is not possible to provide this information.

## NHS: Managers

**Mike Penning:** To ask the Secretary of State for Health what the average wage was for each NHS management grade in *(a)* the latest period for which figures are available and *(b)* 1997. [170595]

**Ann Keen:** Due to the very substantial modernisation of national health service pay systems since 1997 comparisons are not straightforward.

The average wage of each NHS management grade cannot be calculated because we do not have figures for the number of managers in each grade, only total number of NHS managers across a number of different pay grading systems.

Managers and senior managers in 1997 would generally have been on a variety of pay scales, including Whitley Council admin and clerical, typically on grade 6 and upward, and senior manger pay (SMP) grades, typically band 30 and upward. These are set out as follows:

*A and C grades 6 to 10*

| | Grade | | | | |
|---|---|---|---|---|---|
| | *6* | *7* | *8* | *9* | *10* |
| *From 1 April 1997* | | | | | |
| Minimum | 16,312 | 19,848 | 24,146 | 28,248 | 33,048 |
| Maximum | 19,085 | 23,219 | 27,163 | 31,777 | 37,175 |
| *From 1 December 1997* | | | | | |
| Minimum | 16,520 | 20,101 | 24,453 | 28,608 | 33,469 |
| Maximum | 19,328 | 23,515 | 27,509 | 32,182 | 37,648 |

*General and senior managers*

National pay rates for general and senior managers in place during 1997 are set out in the tables:

*General and senior managers in regional and district health authorities*

| | *Group* | *Range (£)* |
|---|---|---|
| Region | Regional general manager | 56,350-81,410 |
| District | Group 1 | 50,710-73,240 |
| | Group 2 | 47,890-69,180 |
| | Group 3 | 43,820-63,540 |
| Unit | Group 1 | 43,820-63,540 |

*General and senior managers in regional and district health authorities*

| | Group | Range (£) |
|---|---|---|
| | Group 2 | 38,500-55,720 |
| | Group 3 | 34,740-50,400 |
| | Group 4 | 30,060-43,510 |

*General and senior managers in post-graduate special health authorities*

| Group | Range (£) |
|---|---|
| National Hospital for Neurology and Neurosurgery | 43,820-63,540 |
| Eastman Dental Hospital | 43,820-63,540 |

*Family health services authority general manager*

| Group | Range (£) |
|---|---|
| General Manager 1 | 43,820-63,540 |
| General Manager 2 | 38,500-55,720 |
| General Manager 3 | 34,740-50,400 |

*Senior managers pay grades*

| Spine point | Flat rate salary (£) |
|---|---|
| 1 (max) | 48,820 |
| 30 (min) | 15,650 |

Managers and senior managers in 2007 would be on a combination of Agenda for Change, typically band 5 to 9, and Very Senior Managers Pay Framework rates. These are set out as follows.

Very Senior Managers' Pay Framework only covers strategic health authorities, special health authorities, primary care trusts and ambulance trusts. NHS trusts, including mental health trusts and foundation trusts, are not covered by the framework.

*Agenda for Change grades 5 to 9*

| | Grade | | | | |
|---|---|---|---|---|---|
| | 5 | 6 | 7 | 8 (8A to 8D) | 9 |
| *1 April 2007* | | | | | |
| Minimum | 19,454 | 23,230 | 28,036 | 35,760 | 70,974 |
| Maximum | 25,175 | 31,469 | 36,962 | 74,381 | 89,723 |
| *1 November 2007* | | | | | |
| Minimum | 19,683 | 23,458 | 28,313 | 36,112 | 71,646 |
| Maximum | 25,424 | 31,779 | 37,326 | 75,114 | 90,607 |

*Very Senior Managers' Pay Framework*

There is a "Pay framework for Very Senior Managers in Strategic and Special Health Authorities, Primary Care Trusts and Ambulance Trusts". April 2007 rates of pay are published in the Framework, copies of which are available in the Library.

## NHS: Pay

**Mike Penning:** To ask the Secretary of State for Health what the 10 highest salaries paid by the NHS were in the latest period for which figures are available. [170601]

**Ann Keen:** The Department does not collect information on individuals' salaries across the national health service.

There is a 'Pay framework for very senior managers in strategic and special health authorities, primary care trusts and ambulance trusts'. April 2007 rates of pay are published in the framework, copies of which are available in the Library.

NHS trusts, including mental health and foundation trusts, are not covered by the framework, but are free to adopt its principles.

## NHS: Reserve Forces

**Mike Penning:** To ask the Secretary of State for Health what estimate he has made of the number of military medical reservists working in the NHS. [170589]

**Derek Twigg:** I have been asked to reply.

None.

**Mike Penning:** To ask the Secretary of State for Health what his policy is on facilitating Territorial Army activity by NHS personnel; and if he will make a statement. [170599]

**Ann Keen:** There is a long history of the national health service supporting the volunteer reserve forces (VRF). This is of benefit to the individual volunteer, the NHS and the armed forces. We are keen for the NHS to support staff who are interested in being members of the VRF and the Ministry of Defence/Health Departments Partnership Board is currently considering how best to promote this.

## Nurses: Catheters

**Dr. Richard Taylor:** To ask the Secretary of State for Health how many visits on average a new user of *(a)* an indwelling catheter and *(b)* an intermittent catheter will receive from a specialist nurse within the first six months of receiving their prescription. [171198]

**Ann Keen:** This information is not collected centrally.

## Nutrition: Fats

**Harry Cohen:** To ask the Secretary of State for Health whether his Department has considered evidence from Denmark on the health effects of trans fats. [172034]

**Dawn Primarolo:** We have asked the Food Standards Agency to review the health impacts of trans fats and potential for action in light of the measures taken in New York and Denmark. As part of the review, the Agency has sought the advice of the United Kingdom's independent Scientific Advisory Committee on Nutrition, which has examined the most recent evidence on the health implications of trans fats. The Agency will report back with their findings and recommendations by the end of the year.

## Obesity: Surgery

**David T.C. Davies:** To ask the Secretary of State for Health what the average waiting time was for bariatric surgery in England in the latest period for which figures are available; and if he will make a statement. [171178]

**Dawn Primarolo** *[holding answer 4 December 2007]:* The average (median) time waited for bariatric surgery in England during 2005-06 was 152 days.

## Patients: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what the evidential basis is for the statement on page 19 of his Department's document, Improving Nutritional Care, that hospital food is now better than at any time since measurement began; in what ways the quality of hospital food is measured; when measurement began; and if he will list the results of these measurements for each year since measurement began. [170063]

**Ann Keen:** The statement that hospital food is now better than at any time since measurement began is based on the results of Patient Environment Action Team (PEAT) assessments. These assessments commenced in 2002 and the results are published annually. The areas considered in the PEAT assessment have varied over the years, but have always included a core of questions related to the quality, availability and choice and temperature of food and beverages. The following tables show the PEAT scores for England from 2002-07; the scoring system changed in 2004 from three to five points.

| | *Green (good)* | *Percentage* | *Yellow (acceptable)* | *Percentage* | *Red (poor)* | *Percentage* |
|---|---|---|---|---|---|---|
| Summer 2002 | 118 | 17 | 554 | 81 | 14 | 2 |
| Summer 2003 | 372 | 43.7 | 479 | 56.3 | 0 | 0 |

| | *Excellent* | *Good* | *Acceptable* | *Poor* | *Percentage Unacceptable* |
|---|---|---|---|---|---|
| 2004 | 8.18 | 50.35 | 34.68 | 6.78 | 0 |
| 2005 | 32.43 | 51.5 | 14.8 | 1.3 | 0 |
| 2006 | 33.8 | 57.8 | 8.3 | 0.1 | 0 |
| 2007 | 46.3 | 48.5 | 4.5 | 0.5 | 0 |

*Source:* National Patient Safety Agency

## Prescriptions

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what progress the Information Centre for Health and Social Care has made in its project analysing patterns of prescribing and compliance with National Institute for Health and Clinical Excellence (NICE) guidelines, as stated on the Our Priorities for 2007-08 section of the Information Centre's website; whether the Information Centre provides a *(a)* data and *(b)* analytical service to any bodies other than NICE on prescribing behaviours; whether data on prescribing behaviours are made available at (i) doctor, (ii) practice and (iii) primary care trust level; whether the Information Centre has extended its data and analytical service to information on dispensing; what plans the Information Centre has to increase the (A) scope of and (B) availability of access to data on prescribing; and if he will make a statement. [170076]

**Dawn Primarolo:** The Information Centre for health and Social Care (IC) provides a data and analytical service that enables National Institute for Health and Clinical Excellence (NICE) systematically to analyse prescribing behaviours in the context of their guidelines. This work has been integrated as a routine business service to NICE.

The IC also provides on request prescribing data from the prescribing cost analysis database and from a national edition of the ePACT system. Information from these sources is also made available to a wide range of bodies via its website.

Some prescribing data are available at primary care trust level, but not at doctor or practice level.

There is a project underway, led by the IC, to obtain data on a sample of practices to estimate the proportion of prescriptions which are not dispensed.

The IC is currently reviewing which data on prescribing should be made available in the future.

## Prescriptions: Fees and Charges

**Dr. Kumar:** To ask the Secretary of State for Health what steps he is taking to raise patients' awareness of prescription prepayment certificates. [171779]

**Dawn Primarolo:** The Department has a portfolio of publicity material about prescription charges which is managed by the Prescription Pricing Division of the National Health Service Business Services Authority. This material includes a poster advertising prescription prepayment certificates. Periodically, the Prescription Pricing Division includes the poster in its regular mailing pack sent to all pharmacies, general practitioner (GP) dispensing practices and all other GP practices. The Prescription Pricing Division also carries out further promotional activities when the opportunity arises. In addition, the Department currently has a contract with the waiting room information services which supplies stocks of leaflets to participating GP surgeries.

The prescription form tear off section also provides information about prepayment certificates and help with the cost of prescription charges.

### Radiography: Manpower

**Miss McIntosh:** To ask the Secretary of State for Health how many radiographers are employed by the NHS in England. [171699]

**Ann Keen:** The latest published workforce census showed there were 14,564 qualified therapeutic and diagnostic radiographers working in the national health service in England, an increase of 2,793 (24 per cent.) since September 1997.

**Miss McIntosh:** To ask the Secretary of State for Health what estimate he has made of the number of radiographers required by the NHS in order to meet the Government's targets on screening. [171700]

**Ann Keen:** With regard to radiotherapy, the cancer reform strategy has committed an investment of £130 million in new equipment and staff. Workforce planning is a matter for local determination, as local planners are best placed to assess the radiography needs of their local populations. The Department continues to ensure effective planning frameworks are in place.

### Screening: Finance

**Mr. Lansley:** To ask the Secretary of State for Health (1) how much additional funding has been allocated for each year from 2007-08 to 2010-11 to *(a)* extend the breast cancer screening age range to women aged between 43 and 73 years, *(b)* extend the age limit for bowel cancer screening to 75 years, *(c)* ensure that all patients will be receiving appointments with a specialist within two weeks for breast problems, *(d)* ensure that all cervical screening results will be available within 14 days and *(e)* increase the number of matrons to 5,000; [167803]

(2) by what date he expects that *(a)* all patients will be receiving appointments with a specialist within two weeks for breast problems, *(b)* all cervical screening results will be available within 14 days, *(c)* breast cancer screening will be fully extended to all women between the ages of 43 and 73 years and *(d)* the number of matrons have reached 5,000. [167804]

**Ann Keen:** In September, my right hon. Friend the Prime Minister announced proposals for cancer services, extending the breast cancer screening age range to women aged between 47 and 73, extending the age limit for bowel cancer screening to 75 years, ensuring that all patients will be receiving appointments with a specialist within two weeks for breast problems and ensuring that all cervical screening results will be available within 14 days, and proposals to increase the number of matrons to 5,000 to help tackle healthcare-associated infections.

The Cancer Reform Strategy was published on 3 December and is available in the Library. It sets out the future direction of cancer services in England over the next five years. The strategy provides further information on the commitments made by the Prime Minister. We anticipate there being 5,000 matrons in post by May 2008.

Allocations to primary care trusts (PCTs) provide them with funding to deliver all local and national priorities, and are not broken down into the cost of delivering individual commitments. The cost of delivering individual commitments will depend on local decisions on implementation.

### Slimming: Finance

**Norman Lamb:** To ask the Secretary of State for Health which slimming clubs the Government are employing to help reduce obesity; how much has been paid to them to date; and what estimate has been made of the number of people who have *(a)* used their services and *(b)* lost weight as a result of doing so. [171692]

**Dawn Primarolo:** The Government do not employ any slimming clubs to help reduce obesity. It is up to local areas to decide the best types of treatments to provide for their own populations, in line with the National Institute for Health and Clinical Excellence guidance on the prevention, identification, assessment and management of overweight and obesity in adults and children.

### Smoking: Finance

**Mr. Lansley:** To ask the Secretary of State for Health (1) how much was *(a)* allocated to and *(b)* spent by primary care trusts for stop smoking services in each of the last five financial years for which figures are available; [172458]

(2) how much his Department plans to allocate to primary care trusts for stop smoking services in each year from 2007-08 to 2010-11. [172459]

**Dawn Primarolo:** The amounts separately identified in primary care trusts (PCTs) initial resource limit allocations for the national health service stop smoking services are as follows:

| | *£ million* |
|---|---|
| 2003-04 | 41 |
| 2004-05 | 46 |
| 2005-06 | 51 |
| 2006-07 | 51 |
| 2007-08 | 51 |

In addition, the 2006-07 and 2007-08 revenue allocations to PCTs separately identify funding to support the implementation of the 'Choosing Health' White Paper. For the two years covered by this allocation, £10 million is separately identified nationally to further support the provision of NHS stop smoking services, with the majority of the funding directed towards Spearhead PCTs.

Revenue allocations are made to PCTs which then decide how to use the funding. The Department does not centrally collect information on local spend by PCT for NHS stop smoking services.

Revenue allocations to PCTs post 2007-08 are to be determined. As set out in a written statement by the Minister of State, my hon. Friend the Member for Exeter (Mr. Bradshaw) on 22 November 2007, *Official Report*, column 145WS, there is to be a one-year allocation for 2008-09.

### Social Services: Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what meetings he had with HM Treasury officials to discuss the settlement for social care in the comprehensive spending review; at which of those meetings the subject of payment for long-term care was discussed; and if he will publish the minutes of those meetings. [164614]

**Mr. Ivan Lewis:** There were a number of meetings between HM Treasury and departmental Ministers, and between HM Treasury and departmental officials over the course of the 2007 comprehensive spending review. These meetings involved discussions on a range of issues, including social care. It is the Government's policy not to publish details of comprehensive spending review meetings.

### Stem Cells: Research

**Mr. Amess:** To ask the Secretary of State for Health what steps he *(a)* has taken and *(b)* plans to take to increase (i) usage of and (ii) research into cord blood stem cells; and if he will make a statement. [172429]

**Dawn Primarolo:** The United Kingdom Government wish to see research using all sources of stem cells, including adult, umbilical cord and embryonic stem cells and have a long history in supporting such work through funding and a well established, facilitating regulatory system. Policy on the use of and research into stem cells is kept under regular review. The Government are considering a number of new initiatives in light of developments as part of the "10 year UK Stem Cell Initiative" published in 2005.

### Strokes: Health Services

**Dr. Gibson:** To ask the Secretary of State for Health when he expects to announce the new stroke strategy. [170009]

**Ann Keen:** The new national stroke strategy was announced and published on the 5 December 2007. A copy is available in the Library.

### Waiting Lists: Wirral

**Stephen Hesford:** To ask the Secretary of State for Health what the average waiting time was in Wirral West constituency between GP referral and hospital consultation in the latest period for which figures are available. [171046]

**Ann Keen:** The information is not available in the requested format. In September 2007, the average median waiting time for patients in the Wirral Primary Care Trust area waiting for a first outpatient appointment was 2.7 weeks.

## HOME DEPARTMENT

### Alcoholic Drinks: Young People

**James Brokenshire:** To ask the Secretary of State for the Home Department (1) how many *(a)* 10 to 13, *(b)* 14 to 15 and *(c)* 16 to 17 year olds were (i) cautioned, (ii) prosecuted and (iii) given a penalty notice for disorder for purchasing alcohol under age in each of the last three years for which information is available, broken down by (A) police force area and (B) local authority area; [167979]

(2) how many people were *(a)* cautioned, *(b)* prosecuted and *(c)* given a penalty notice for disorder for selling alcohol to young people under the age of 18 on (i) premises and (ii) off premises in each of the last three years for which information is available, broken down by (A) police force area and (B) local authority area. [167980]

**Mr. Coaker:** The information requested on prosecutions, cautions and penalty notices for the years 2004-06 are provided in the table. Data broken down by local authority area are not held by the Ministry of Justice.

The information requested on prosecutions, cautions and penalty notices for disorder issued for selling alcohol to persons under 18, broken down by police force area are provided in the table. It is not possible to identify from the data whether these sales were on or off licensed premises.

Data broken down by local authority area are not held by the Ministry of Justice.

*Number of defendants aged 10 to 17 proceeded against at magistrates courts, offenders cautioned and the number of penalty notices for disorder (PNDS) issued for purchasing alcohol illegally, by age group and police force area, England and Wales, 2004 to 2006*[1, 2, 3, 4]

| | Defendants proceeded against at magistrates courts | | | | | | | | |

---

[1] From 1 June 2000, the Crime and Disorder Act removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings.

[2] These data are on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Where no defendants were proceeded against, cautioned or issued with a PND for illegal alcohol purchasing in a police force, it has been omitted from the table.

[5] The offence of illegal purchasing of alcohol by an under-age person was added to the penalty notice for disorder scheme on the 4 April 2005.

*Number of defendants proceeded at magistrates courts dnd the number of penalty notices for disorder issued for offences related to the illegal sale of alcohol to persons aged under 18, 2004 to 2006*[1, 2, 3]

## Asylum Seekers Dispersal Programme

**Damian Green:** To ask the Secretary of State for the Home Department to which local authorities asylum seekers were dispersed to in 2006 under the asylum seekers dispersal programme; and how many asylum seekers were dispersed to each local authority in the programme. [163148]

**Mr. Byrne:** The following table shows the local authorities that asylum seekers were dispersed to as at the end of December 2006 under the asylum seekers dispersal programme; and how many asylum seekers were dispersed to each local authority in the programme.

The numbers of asylum seekers in receipt of support, broken down by Government office region and local authority, are published on a quarterly and annual basis. Copies of these publications are available on the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Further breakdowns of those in receipt of support, by parliamentary constituency, are also available from the Library of the House.

*Asylum seekers supported in dispersed accommodation[1] [2] [3] by local authority and UK Government office region, as at the end of December 2006*

| | | | *Number of applicants (including dependants)* | |
|---|---|---|---|---|
| *Region* | *Local authority*[4] | *Dispersed* | *Disbenefited*[5] | *Total* |
| | Total | 2,525 | — | 2,525 |
| *Scotland* | Glasgow City | 5,010 | — | 5,010 |
| | Total | 5,010 | — | 5,010 |
| *Ireland* | Belfast | 160 | — | 160 |
| | Coleraine | * | — | * |
| | Lisburn | 5 | — | 5 |
| | Total | 165 | — | 165 |
| | Total (United Kingdom) | 36,365 | 60 | 36,420 |

[1] Provisional figures (other than percentages) rounded to the nearest 5 with * = 1 or 2.

[2] Excludes unaccompanied asylum seeking children supported by local authorities, estimated around 5,700 in September 2006. Excludes cases that pre-date the establishment of the asylum support system in April 2000, administered by local authorities under the interim provisions, estimated at up to 50 cases in December 2006.

[3] Excludes those in initial accommodation, 1,525 as at the end of December 2006.

[4] Only those local authorities where dispersed or disbenefited cases are resident are shown.

[5] Disbenefited cases are cases which were previously supported under the main UK benefits system and have been moved onto asylum support. Some of these cases have remained in the original social services accommodation.

## British Standards Institute

**James Brokenshire:** To ask the Secretary of State for the Home Department how many British Standards Institute kitemarks for internet content control software had been issued and to whom pursuant to the initiative announced by her Department in December 2006; and if she will make a statement. [172392]

**Mr. Coaker:** The British Standards Institute kitemark will be launched in early 2008, and once it is launched companies will be able to apply for it. The Government welcomes the work done by all parties to develop the standard, and encourages companies to apply for it once launched.

## Crime

**Mr. Ruffley:** To ask the Secretary of State for the Home Department (1) how many offences were recorded per 1,000 population in England and Wales in each year since 1997, *(a)* in total, *(b)* of violence against the person, *(c)* of sexual offences, *(d)* of robbery, burglary, theft and handling stolen goods, *(e)* of fraud, *(f)* of criminal damage and *(g)* of other notifiable offences, broken down by police force area; [166856]

(2) how many *(a)* violent crime offences, *(b)* car crime offences, *(c)* robberies, *(d)* burglaries, *(e)* thefts and *(f)* criminal damage offences there were per 1,000 head of population in each police force area in England and Wales in each year since 1997. [166858]

**Mr. Coaker:** Data broken down by police force area for these offences are available from 2001-02 and are given in tables. Copies will be placed in the House Library.

As a result of the findings of two independent reviews of crime statistics in 2006, a number of changes have been made to the classifications of offences. Therefore all of the offence categories shown are based on the new classifications. Providing data for earlier years, where the requested data are not held on an electronic database, would entail disproportionate cost.

## Departmental Reorganisation

**David Davis:** To ask the Secretary of State for the Home Department what her most recent estimate is of the cost to her Department associated with reorganising her Department and creating the Ministry of Justice. [169695]

**Jacqui Smith:** Any costs incurred by the Home Office as a result of the creation of the Ministry of Justice and any subsequent reorganisation of the Department have been minimal.

## Extradition: USA

**Mr. Clegg:** To ask the Secretary of State for the Home Department what representations her Department has made to the US authorities in the last 12 months on the time taken to bring the three extradited former NatWest bankers to trial. [167024]

**Jacqui Smith:** The Home Office has made no representations to the US authorities. The trial date is a matter for the parties and the US judicial authorities.

## Human Trafficking

**Mr. Bone:** To ask the Secretary of State for the Home Department if she will make it her policy to establish safe houses to which trafficked children discovered by police may be conducted. [172843]

**Mr. Coaker:** Any child found by the police whom they consider to be at risk of harm, are referred to local authority children services who have a statutory duty under the 1989 Children Act to ensure that their safeguarding and welfare needs are addressed.

As part of their action plan on tackling human trafficking, the Government will be shortly publishing their proposals for enhancing the provision of safe and sensitive arrangements for the care and protection of unaccompanied asylum-seeking children, some of whom may have been trafficked.

### Identity Cards: Contracts

**Mr. Clegg:** To ask the Secretary of State for the Home Department what break clauses have been included in contracts *(a)* agreed and *(b)* under negotiation in draft form on identity cards. [167029]

**Jacqui Smith:** IPS is four months into a nine month procurement process for the National Identity Scheme Strategic Supplier Framework. Once this agreement is in place, further 'mini-competition' procurements lasting six to nine months will be conducted for specific contracts.

As part of the process IPS is in discussion on many detailed commercial principles (over 150) that will inform the eventual contracts put to bidders. These include principles on approaches to breaking contracts, however discussions are ongoing and no contract clauses have yet been provided to bidders.

### Personation: Publicity

**Mr. Evans:** To ask the Secretary of State for the Home Department how much has been spent in 2007 by her Department on *(a)* newspaper and print media, *(b)* online, *(c)* radio, *(d)* television and *(e)* other advertising to raise public awareness on identity fraud, and to advise on methods of preventing identity theft. [170663]

**Meg Hillier** *[holding answer 6 December 2007]*: The Home Office established the Identity Fraud Steering Committee (IFSC) in 2003 to work with public and private sector organisations, to identify and implement cost-effective measures to counter identity fraud, and to co-ordinate activity in this area.

The IFSC established an identity theft website:

www.identitytheft.org.uk

which provides advice to the public on how to minimise the chance of becoming a victim of identity fraud, warning signs to look out for, and help for victims. Home Office expenditure on the website in 2007 is nil.
